PUBLIC ISSUE OF 43,50,000 EQUITY SHARES OF RS. 10/- EACH FOR CASH AT A PRICE OF RS. [●] PER EQUITY SHARE AGGREGATING RS. [●] LAKHS (THE "ISSUE"). THE ISSUE WOULD CONSTITUTE 25% OF THE FULLY DILUTED POST ISSUE PAID-UP EQUITY CAPITAL OF THE COMPANY.

PRICE BAND: Rs. 195/- TO Rs. 219/- PER EQUITY SHARE OF FACE VALUE RS. 10/- EACH

THE FLOOR PRICE IS 19.5 TIMES OF THE FACE VALUE AND THE CAP PRICE IS 21.9 TIMES OF THE FACE VALUE.

In case of revision in the Price Band, the Bidding/Issue Period will be extended for three additional working days after such revision, subject to the Bidding/Issue Period not exceeding 10 working days. Any revision of Price Band and the revised Bid/Issue Period, if applicable will be widely disseminated by notification to The Bombay Stock Exchange Limited (BSE) and National Stock Exchange of India Limited (NSE) where the Equity Shares of the Company are proposed to be listed, whose online IPO systems will be available for bidding, by issuing a press release, and also by indicating the change on the website of the Book Running Lead Managers and the terminals of the Syndicate.

The Issue is being made through the 100% Book Building Process wherein upto 50% of the Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers ("QIBs"), out of which upto 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above Issue Price. Further, at least 15% of the Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and atleast 35% of the Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Issue Price.

RISK IN RELATION TO THE FIRST ISSUE

This being the first issue of Nelcast Limited, there has been no formal market for the shares of the Company. The Face Value of the Shares is Rs. 10/- each and the Floor Price is 19.5 times of the face value and the Cap Price is 21.9 times of the Face Value. The Price Band (as determined by our Company in consultation with the Book Running Lead Managers ("BRLMs") on the basis of assessment of market demand for the Equity Shares by way of book-building) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of the Issuer and the Issue including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of this Red Herring Prospectus. Specific attention of the investors is invited to the section titled "Risk Factors" on page no. x of this Red Herring Prospectus.

COMPANY'S ABSOLUTE RESPONSIBILITY

The Company having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to the Issuer and the Issue, which is material in the context of the Issue, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

CERTAIN CONVENTIONS; USE OF MARKET DATA

Unless stated otherwise the financial data in this Red Herring Prospectus is derived from our unconsolidated financial statements prepared in accordance with Indian GAAP and included in this Red Herring Prospectus. The statistical and operational data in this Red Herring Prospectus is presented on an unconsolidated basis as well as consolidated basis. Our fiscal year commences on 1 April and ends on 31 March of each year, so all references to a particular financial year are to the twelve-month period ended 31 March of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding.

The degree to which the Indian GAAP financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by Persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

For additional definitions, please see the section titled "Definitions and Abbreviations" on page no. i of this Red Herring Prospectus. In the section titled "Main Provisions of the Articles of Association" on page no. 171 of this Red Herring Prospectus, defined terms have the meaning given to such terms in the Articles of Association of the Company.

Unless stated otherwise, industry data and the market data used throughout this Red Herring Prospectus have been obtained from internal company reports and industry publications and other industry sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified.

FORWARD LOOKING STATEMENTS

We have included statements in this Red Herring Prospectus that contain words or phrases such as “will”, “aim”, “will likely result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are forward-looking statements.

All forward-looking statements are subject to risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include, among others:

- General economic and business conditions in India and other countries;
- Our ability to successfully implement our strategy, growth and expansion plans and technological initiatives;
- Our ability to respond to technological changes;
- Changes in laws and regulations relating to the industry in which we operate;
- Our ability to retain management team and skilled personnel;
- Our ability to successfully launch new products;
- Any adverse outcome in legal proceedings in which our Company is involved;
- Potential mergers, acquisitions or restructurings;
- The occurrence of natural disasters or calamities affecting the areas in which we have operations or outstanding credit; and
- Changes in political and social conditions in India.

For further discussion of factors that could cause our actual results to differ, see the section titled “Risk Factors” beginning on page no. x of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. The Company, the members of the Syndicate and their respective affiliates do not have any obligation to, and do not intend to, update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the Company and the BRLMs will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchanges in respect of the Equity Shares allotted in this Issue.

SECTION II-RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. If any of the following risks actually occur, our business, results of operations and financial condition could suffer, the trading price of the Equity Shares could decline, and you may lose all or part of your investment.

Prior to making an investment decision, prospective investors should carefully consider all of the information contained in this Red Herring Prospectus, including financial statements included in this Red Herring Prospectus beginning on page no. 81. Unless stated otherwise, the financial data in this section is as per our financial statements prepared in accordance with Indian GAAP.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may be having material impacts in future.

INTERNAL RISK FACTORS

Project Related Risks

1. Our present expansion plans are fully dependent on the success of the proposed Initial Public Offer.

Implementation of the objects for this issue is dependent on receipt of the issue proceeds. Any delay in the issue process or any under-subscription of Equity Shares offered as part of this issue could adversely affect our growth plans, and hence our business. Further, in the event there is an increase in the expenditure required to be incurred by us in respect of our objects, consequent to increase in costs, change in laws, or for any other reason and we are unable to meet the cost overruns, it could affect our ability to fulfill the objects of this Issue.

2. Changes in business environment/ cost overruns could affect our expansion plans adversely.

The expansion plans drawn by us are based on expected business opportunities in this industry. Although, our business plans have been drawn up based on our past experience and we are confident of adapting to any change in the business environment, any change in the market conditions could adversely affect our profitability. In addition, our capital expenditure plans are subject to a number of variables, including possible cost overruns.

3. Non-receipt of Government approvals may delay the implementation of the proposed expansion plans.

With regard to our proposed expansion plans, we are in the process of applying for the following approvals for both our units:

- a. Consents under Air (prevention and control of pollution) Act and Water (prevention and control of pollution) Act.
- b. Clearance from the Ministry of Environment.
- c. Permission from the State Electricity Department for the increase in the sanctioned load for the power connection.
- d. Approval from the Chief Factories and Boilers for plan of the building layout.

Any delay in receiving the above mentioned permissions for the project, may delay implementation of the project and hence, the profitability.

4. We are yet to acquire 14 acres of land required for our proposed expansion plans. Delay in acquisition of land may affect the expansion plans of our Company

Our Company has acquired 19 acres of land out of the total land requirement of 33 acres. Any delay in acquisition of the balance land would delay the expansion plans of our Company, which in turn could affect our financial performance.

5. We are yet to make definitive arrangements for procurement of our plant and machineries and equipment worth Rs.4206.41 lakhs aggregating to 80.07% of the Plant and Machineries required for the project, for which final purchase orders have not yet been placed.

For the proposed expansion plans at Gudur and Ponneri, we have identified the main equipment, required to be installed, in the foundry and the machine shop. We have already placed purchase orders/purchased some of the machineries that constitute 19.93% of the total estimated cost of the plant and machinery required for the proposed expansion plans, as detailed under ‘Objects of the Issue’. We are yet to place purchase orders for the balance equipment, which constitutes 80.07% of the estimated cost of the plant and machinery. The quotations relied upon on arriving at the cost of the project have lapsed. Consequent upon which, there could be a possible escalation in the cost of the proposed plant and machinery to be acquired by us. Further, any delay in the procurement of the machineries may affect the schedule of implementation. Some of the plant and machinery we intend to deploy are expected to be imported and must be paid for in foreign currency. Changes in foreign exchange rates adversely affecting the value of the Rupee may adversely affect the cost of the project. The capital expenditure mentioned in the objects of the Issue is not appraised by any Bank/Financial Institution.

We intend to expand our existing manufacturing facilities and also meet our working capital requirement from the proceeds of the Issue. No bank or financial institution has appraised our expansion plans. The requirement of funds is solely based on the Management’s estimates and deployment of funds is at our discretion. Any upward variation in estimated cost components may result in cost overrun. Audit committee of the Board of Directors will be closely involved in monitoring the deployment of the funds and the progress in the use of proceeds from the Issue will be reported periodically as per the statutory requirements.

Business Related Risk

1. Non-receipt of approvals from various Government Agencies for our existing business would attract penalties/ fines.

We have obtained the necessary approvals required for us for our existing business. For details please refer to the section titled ‘Licences and Approvals’ of this Red Herring Prospectus. However, we are yet to:

- a. Apply for registration under the Tamil Nadu Shops and Establishments Act, 1947 for our Corporate Office.
- b. Receive the renewal under Water (prevention and control of pollution) Act/Air (prevention and Control of pollution) Act. The application made and acknowledged vide letter dated 24.05.2006 at the Gudur Unit.
- c. Receive the environmental clearance from Ministry of Environment Applied for increase in production capacity to 4500 Tons per month. The application was made vide letter dated 30.12.2004 for the Ponneri Unit.
- d. Apply for approval from the Tamilnadu Electricity Board for installation of DG Set as standby arrangements for power supply for the unit in Ponneri.

Any failure on our part in obtaining these approvals, may subject our Company to related penalties/ fines. We have also submitted our applications to the Registry of Trade Marks for the registration of “TRANS” as trademarks with respect to three different classifications of products, as detailed under the section titled ‘Licences and Approvals’, appearing on Page No. 132 of this Red Herring Prospectus. We are yet to receive the approvals registering the same as trademarks in our Company’s name.

2. Our reliance to a certain extent on contract labour for the performance of many of our operations may adversely affect our business.

We rely on contractors who engage on-site labourers for performance of many of our unskilled operations and currently we employ about 127 contract labourers in both our units. We are registered as a principal employer under the Contract Labour (Regulation and Abolition) Act, 1970 for employing contract labourers at Ponneri and Gudur. There are possibilities that on an application from the contract labourers, the appropriate court / tribunal may direct that the contract labourers are required to be regularized or absorbed, and / or that our Company pay certain contributions in this regard. This may result in an increase in our wage cost.

3. Dues owed to SSIs outstanding for more than 30 days

As on 31 March, 2007, we owe Rs.65.48 lakhs respectively to SSIs, which have remained outstanding for more than 30 days.

4. Contingent liabilities, not provided for, as on 31 March, 2007.

S.No	Particulars	Amount (Rs.in lakhs)
1	Letters of Credit and Bank Guarantees	43.32
2	Estimated amount of contracts remaining to be executed	1219.99

5. Shortfall/ non - availability/ increase in input costs of raw materials or supply/cost of utilities may have an adverse impact on our business and financial condition.

Our major raw material is steel scrap along with certain inoculants such as ferro silicon magnesium. Power and fuel is also an important input for melting the scrap. Most of the raw materials required for our manufacturing process are sourced from within Tamil Nadu and from the neighbouring states of Karnataka and Andhra Pradesh. Certain specific inputs such as bentonite, steel shots, carburizers are sourced from Gujarat, Madhya Pradesh and from the other Northern states. Regarding utilities, for meeting our requirement of power at our units, we have entered into agreement with the Electricity Boards in both the states of Andhra Pradesh and Tamil Nadu. The prices of Electricity are determined by the State Electricity Boards from time to time. We have two wind energy generators at Kavalkinaru, Thirunelveli district, Tamil Nadu. Apart from this, we also have DG sets as stand by arrangement, in both the units. Regarding water the quantities sourced from ground water and other external sources are sufficient to meet our requirements. Although our manufacturing process does not involve the use of large quantities of water and shortfall could adversely impact our business. We may not be able to pass on any or all increase in the cost of raw materials and other inputs, if any, to our customer, which could have an adverse impact on our profitability. Although we have production and planning committees at both our units which constantly monitor the requirement, usage, availability, stock and supply of these raw materials on a regular basis any shortfall/ non - availability of raw materials or supply of utilities may have an adverse impact on our business and financial condition

6. We significantly dependence on our key customers who contribute more than 70% of our revenues. Loss of any of the customer could adversely affect our operations.

The table below depicts the % of the total revenue derived from our top customers comprising of Tata Motors Limited, Ashok Leyland Limited, TAFE Limited, TATA Cummins Limited, Mahindra & Mahindra Limited among others, during the last three FYs .

(Amount in Rs. lakhs)

FY ended	31 March, 2007	31March, 2006	31March, 2005
Top 3 (%)	58	53	57
Top 5 (%)	77	75	79
Top 10 (%)	91	92	97

We have been deriving more than 70% of our revenues from our top five customers. Though we have been maintaining cordial relationships with them, no assurance can be given that we would continue to maintain our sales to any of these customers or they will continue to meet their requirement from us, which could adversely affect our operations.

7. We have not entered into any long term contracts with our customers, hence termination of supply orders may have an adverse impact on our business and financial operations.

Our products are sold through purchase orders and we have not entered into any long term supply or distribution contracts with any of our customers. Each of our castings is customized to the requirements of our customers. Although we have placed strong emphasis on performance, adherence to scheduled timelines set by our customers and meeting their quality requirements, any change in their buying strategy could result in termination of supply orders and could materially or adversely affect our business, profits and results of operations.

8. Significant dependence on the domestic market for sales could adversely affect our business

We derive majority of our total revenue from the domestic market. Our total forex earnings from exports for FY 2007, 2006, 2005 and 2004 were Rs.3161 lakhs, Rs.2396 lakhs, Rs.2177 lakhs and Rs.894 lakhs respectively, constituting less than 10% of our total turnover. Our wholly owned subsidiary in the US, Nelcast Inc., was formed with the aim of concentrating on the export opportunities and enhancing our share in the international markets. However, any adverse developments in the domestic industry could have a significant impact on our overall operations and profitability.

9. We are bound by certain restrictive covenants provided in the agreements entered into with Banks for availing term loans and working capital facilities.

The agreements entered into by the Company with the Banks for availing term loans and working capital facilities provides for certain restrictive covenants in respect of expansions / diversifications, investments in group / associate concerns, transfer of controlling interest, issue of bonus shares, disposal of promoter's shareholding etc., We cannot undertake any of these activities without obtaining the prior permission of these Banks. We have obtained a No Objection Certificates from our bankers i.e.,PNB, IDBI Bank that they have no objection to our proposed public issue / IPO.

10. Mishaps or accidents at our manufacturing facilities or in our corporate office premises could lead to damage to life and property.

We have taken adequate safety measures in both our units for our workforce by providing them with protective equipments to the workmen such as facemasks, gloves and safety shoes. We have also installed mechanized equipments for handling raw materials and finished products, such as forklifts and pay loaders. Both our units have an Occupational Health Centre within the premises to provide first aid and attend to any emergencies. We have taken a Personal Accident Policy for our employees, in both the units and also the corporate office, and the equipment, materials and machineries located at both our units are also insured. However, any unforeseen mishap or accident could result in claims against us for damages and we could also suffer loss of production and resources in defending such claims. For any accidents at our corporate office also, we cannot claim damages for want of insurance cover for the same. Any such significant event could have an adverse effect on our business, financial condition and results of operations.

11. The loss of or shutdown of operations at any of our manufacturing facilities may have a material adverse effect on our business, financial condition and results of operations

Our manufacturing facilities at Gudur and Ponneri are subject to operating risks, such as the breakdown of failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes lock-outs continued availability of services of the external contractors, earthquakes and other natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. The occurrence of these risks could significantly affect our operating results. We have been doing a planned shutdown of plants for maintenance on a daily basis. Although we take precautions to minimize the risk of any significant operational problems, our business, financial condition and results of operations may be adversely affected by any disruption of operations at these facilities, including due to any of the factors mentioned above.

12. Any adverse performance in the automobile and farm equipment industry could affect our business adversely.

We derive more than 70% of our revenues from the HCV and Tractors segment. The table below gives the % share of the total revenue of the segments of the industry on which we focus.

Segment	% share of total revenue	
	FY 2005-06	FY 2006-07
HCVs	37.89	52.78
Tractor	29.03	27.16
Autocomponents (Used in HCVs and Tractors)	21.48	8.28

The agriculture, automobile and the auto-component industries are sensitive to changes in economic conditions, cyclicity and unforeseen events, including political instability, recession, inflation or other adverse occurrences. The agriculture sector, in particular, is seasonal and is dependent on monsoons. Any event that results in decreased demand in the farm equipments or automobile industry, or increased pressure on automobile manufacturers to develop, implement and maintain in-house auto-component facilities, could have an adverse effect on our business and results of operations.

13. Increasing wages could impact our profit margins adversely.

Historically, India has been known for cheap labour; wage costs have been significantly lower than the developed countries. We have been able to offer competitive wage rates to our skilled labour force who have promised and ensured production efficiency and timely delivery. However, any significant increase in the wage costs could have an adverse effect on our business, financial condition and results of operations.

14. Failure to comply with environmental laws, rules and regulations may adversely affect our business or operations.

Being a part of an industry, subject to stringent regulations of the Central Pollution Control Board, it is our imperative to ensure compliance with the environmental laws, regulations, rules and norms. A failure on our part to adequately comply with applicable environmental laws, rules and regulations, could hamper or adversely impact the operations of our Company, and consequently, could adversely affect the Company and its cash flows and profitability.

15. Risk of unauthorised infringement of customers' IPRs.

Our customers share their patented product designs and trademarks with us to aid the process of manufacturing of products suited to their requirements. Although we follow the practice of entering into a Non - Disclosure Agreement with them, especially with our overseas customers, any liability arising out of misappropriation of our customers' proprietary rights or breach of the terms and conditions stated in the Non - Disclosure Agreement cannot be ruled out. This could have an adverse impact on our operational and financial results and also harm our reputation in the market.

16. Inability to retain our key managerial personnel could affect our business adversely.

Our success largely depends on the continued services and performance of our management and other key employees. The loss of any of our key personnel could impair our ability to continue to manage and expand our business efficiently. We have, so far, not faced any union related problems. However, any disagreements with our employees in the future causing shortage of labour or stoppage of work, could affect our operations including our ability to meet the quality standards in manufacturing and timely completion of orders, thereby affecting our sales and profitability.

17. Defaults in the payment of loans could result in the sale of properties / assets belonging to our Company.

Our Company has availed term loans from PNB and IDBI Bank and working capital facilities from SBI for which certain of our assets and properties have been mortgaged / hypothecated in their favour as security. Any breach of the terms and conditions including defaults in the payment of these loans could result in the sale of these properties / assets, which could affect the functioning of the units where the assets and properties are situated and thus affect our overall profitability.

18. Issue of equity shares in the last 12 months may be at a price lower than the issue price.

The details of allotment made in the last 12 months, prior to the filing of Red Herring Prospectus, is given below and the price of such issue may be lower than the issue price.

Name of allottee	Date of allotment	Number of equity shares	Type of issue	Face value (Rs.)	Issue price (Rs.)	Nature of payment of consideration
Menakuru Infrastructure Private Limited	17 November, 2006	2,00,000	Preferential Allotment	10	155	Cash

19. Related party transactions entered into by the Promoter and their Associates

Mr.P.Radhakrishna Reddy, our Promoter may be deemed to be interested to the extent of shares held by him, his friends or relatives, and benefits arising from his holding directorship/ employment in our Company or our subsidiary. He is also interested in the transactions entered into by our Company and the ventures where he is interested either as a Promoter, Director, Partner, or otherwise. Further Mr.P.Radhakrishna Reddy is also interested to the extent of monthly lease rent of Rs.1,44,000 /-being paid by our Company for our corporate office to Ms.P.Jamuna, Ms.P.Divya and Mr.P.Deepak being his immediate relatives. Please refer to the section titles 'Related Party Transactions' on Page no. 91 for details.

20. Foreign Exchange Fluctuation may affect the profitability of the Company

Our Company currently exports approximately 10% of our total income hence any fluctuation in the Rupee value vs. US \$, Euro and any other currencies where the Company is exporting to, may affect the performance of the Company. Further, approximately Rs 865.48 lakhs, of the project cost pertains to the Kunkel Wagner Moulding lines to be imported from Kunkel Wagner, Germany. This cost will be incurred in foreign currency. At present, we do not hedge our risk related to fluctuation in foreign currencies. Our inability to adequately hedge the foreign currency risk may adversely effect our operations.

21. Our Promoter who will continue to retain majority control in the Company after the Issue, may have interests that are adverse to the interest of our other shareholders and may take decisions, which, our other shareholders or we may not agree.

Upon completion of the Issue, the Promoter will beneficially own majority stake (68.39%) of our post issue paid up capital. As a result, the Promoter will have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election and termination of appointment

of our officers and directors. The Promoter may have interests that are adverse to the interest of our other shareholders and may take decisions, which, our other shareholders or we may not agree.

22. One of the Directors of our Company is on RBI's Defaulters list :

One of our directors Mr. R. Mohan Reddy's name is mentioned in the RBI defaulters list in respect of default committed by Deccan Granites Limited (DGL). He was a nominee Director nominated by APIDC Limited on the Board of DGL. However, he has resigned from the directorship of DGL with effect from 1st April, 1999.

EXTERNAL RISK FACTORS

1. Difficulty in keeping pace with technological advancement may have an adverse impact on our business

Adhering to the customers' requirements, timely delivery and maintaining consistency in quality are the principal factors in castings. With mechanized moulding machines and CNCs available, ability to produce large volumes of castings, with precision and accuracy, such that it meets the customers' requirements, has become possible. Hence, Technology plays a vital role in the manufacturing process of castings and failure to adapt to or keep abreast of any change in, the latest technology might place our competitors at an advantage in terms of costs, efficiency and timely delivery of its products.

2. Increasing employee compensation in India may erode some of our competitive advantage and may reduce our profit margins

Compensation payable to employees constituted 3.90% of our total cost for the year ended 31 March, 2007. Though the Company has been able to employ and retain professionals and quality personnel, with rising employee compensation levels across sectors in India, we cannot assure you that the employee compensation levels will not rise in the future. Any rise in the employee compensation could increase our cost of production and could impact our margins, thereby affecting our results of operations.

3. Competition may affect our business adversely

The automotive component supply industry is highly competitive. Some of our competitors may be larger and have greater financial and other resources than us. We cannot assure you that our products will be able to compete effectively with the products of such other companies. We believe that the principal competitive factors in our markets are price, quality and consistency in meeting customers' requirements. Consistent expansion in capacity of the foundry industry could create unhealthy competition sooner or later. Increasing competition may force us to reduce the prices of our products, which may reduce the revenues and margins and/or also decrease our market share, either of which could have an adverse impact on the business, financial and operations of our Company.

4. Changes in Government policies may affect our operations adversely.

Increase in taxes and other levies imposed by the Central or State Governments in India may have an adverse effect on the profitability of our Company. Since 1991, the Government of India has pursued policies of economic liberalization. We cannot assure you that these liberalization policies will continue in future. Protest against liberalization could slowdown the pace of economic development. The rate of economic liberalization could change, specific laws and policies could change, and foreign investment, currency exchange rates and other matters affecting investing in our securities could change as well. There could be political instability, which may have an adverse impact on capital markets and investor confidence. Taxes and levies affect the cost of production and prices of our Company's products and hence the demand for our products. An increase in any of taxes or levies or the imposition of new taxes or levies in the future may have an adverse impact on our Company's business and financial condition.

5. Adverse economic conditions may adversely affect the sales and results of our Company.

The Indian economy recorded strong growth for the third successive year during 2005-06 in an environment of macroeconomic and financial stability, notwithstanding sustained pressures from record high international crude oil prices. Real GDP growth accelerated from 7.5 % during 2004-05 to 8.4 % during 2005-06 on the back of buoyant manufacturing and services activity supported by a recovery in the agricultural sector. (Source: www.rbi.org.in). However, India's economy is susceptible to changes in interest rates, weather conditions adversely affecting agriculture, deterioration of infrastructure or various other factors affecting the growth of industrial, manufacturing and services sector. As our casting products are mainly supplied to the HCV and farm equipment manufacturers and any downtrend in the agriculture sector and in particular the Automobile sector could adversely affect the growth of our business, our ability to implement our strategy and our future financial performance.

6. Force majeure events could adversely affect financial markets and business of our Company

Force majeure events, could adversely affect the financial markets, result in a loss of client confidence and adversely affect our business, results of operations, financial conditions and cash flows.

7. Natural disasters could adversely affect the business of our Company

The operations of our plants can be affected by natural disasters such as events that are beyond our control, including the recent tsunami or seismically generated sea wave capable of considerable destruction, which affected several parts of South East Asia, including India and Sri Lanka on 26 December, 2004. Occurrence of any such event could adversely affect our business and operations.

8. After this Issue, the prices of our Equity Shares may be highly volatile, or an active trading market for our Equity Shares may not develop

The price of our Equity Shares may be highly volatile as a result of several factors, including:

- volatility in the Indian and Global Securities market;
- our results of operations and performance;
- perceptions about our future performance or the performance of Indian auto component/foundry companies generally;
- performance of our competitors in the industry and the perception in the market about investments in the auto component sector;
- adverse media reports on our Company or the Indian foundry/auto component industry;
- changes in the estimates of our performance or recommendations by financial analysts;
- significant developments in India's economic liberalisation and deregulation policies;
- changes in the applicable tax incentives;
- significant development in India's fiscal and environmental regulations.
- the exchange rate of USD or any other relevant currency; and
- general political and security environment in the country and across the globe.

There has been no public market for our Equity Shares and the prices of our Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this

NOTES TO RISK FACTORS

- Public Issue of 43,50,000 Equity Shares of Rs. 10/- each for cash at an Issue Price of Rs. [●] per Equity Share aggregating Rs. [●] lakhs (the 'Issue') by our Company.
- The net worth of our Company before the Issue (standalone basis), as on 31 March 2007 was Rs. 4365.24 lakhs and as on 31 March, 2006 it was Rs.2528.47 lakhs.
- There have been no equity shares sold or purchased by the Promoters, the Promoter Group and the Directors during the period of six months preceding the date on which this Red Herring Prospectus filed with SEBI.
- The book value as on 31 March 2007 was Rs.33.45 per Equity Share.
- The average cost of acquisition of one Equity Share for Mr.P.Radhakrishna Reddy, Promoter is Rs.4.56.
- Other than as disclosed either in related party transaction or otherwise, the promoter / directors / key management personnel of our Company have no interest other than reimbursement of expenses incurred or normal remuneration or benefits arising out of the shareholding/employment in our Company or its subsidiary or out of any business relation with any of the ventures in which they are interested. For interests of promoters and directors, please refer the chapters "Our Management" and "Our Promoters" beginning on pages 70 and 79 of this Red Herring Prospectus. - The Issue is being made through a 100% Book Building Process wherein not more than 50% of the Issue to the Public

will be available for allocation on a proportionate basis to Qualified Institutional Buyers (“QIBs”) (of which 5% will be available for allocation for Mutual Funds). Further, not less than 15% of the Issue to the Public will be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Issue to the Public will be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid bids being received at or above the Offer Price.

- Investors may note that in case of over-subscription in the Issue, allotment to Retail Individual Investors and QIBs shall be on a proportionate basis. For more information, please refer to page no. 167 under the section titled ‘Basis of Allotment or Allocation’.
- Trading in Equity Shares of our Company for all investors shall be in dematerialized form only.
- The Investors are advised to refer to page no. 33 under the section titled ‘Basis for Issue Price’ before making an investment in the Issue.
- None of the other ventures of promoters have business interests/other interests in our Company .
- Our Company has business transaction with Nelcast Inc (Wholly Owned Subsidiary). The details of the same for the financial year 2006-07 are as set below.

Nature of transaction	Rs. In Lakhs
Sale of Goods Sold	164.52
Export Promotion Expenses	252.61
Total	417.13

- Investors may contact the BRLMs or the Compliance Officer for any complaints, information or clarifications pertaining to the Issue and they will be obliged to attend to the same. For contact details of the BRLMs and the compliance officer please refer to page no. 9 of this Red Herring Prospectus.

SECTION III - INTRODUCTION

SUMMARY

Industry Overview

The Global Foundry Scenario

In the developed world the production of castings has become expensive due to rising labour costs and difficult, due to shortage of skilled labour and increasingly stricter environmental norms. The number of foundries in the USA has declined by about one- third over the last 20 years. Over 8,000 foundries have shut down in Europe due to non-availability of skilled manpower and difficulties in compliance with environmental norms. Both USA and EU have a cost disadvantage against developing countries. As a result many foreign automotive manufacturers and their Tier I suppliers have started tapping the developing countries. According to the American Foundry Society, US imports are forecast to rise 5% per year for the next 7 years to reach 3.0 million tons. A similar situation exists in EU as well.

China continues to be the leader, in foundries, even ahead of developed countries like US, Russia, Japan and Germany, while India was ranked sixth in the production of castings. The details of production of the top ten countries along with the CAGR during 2000-04 are as follows:

Country	2000	2001	2002	2003	2004	CAGR(%)
China	10.955	14.888	16.261	18.145	22.420	19.61
USA	13.129	11.871	11.811	12.069	12.314	-1.59
Russia	6.200	6.200	6.200	6.200	6.300	0.40
Japan	6.276	5.841	5.751	6.111	6.386	0.44
Germany	4.542	4.643	4.595	4.722	4.984	2.35
India	3.120	3.155	3.509	4.038	4.623	10.33
France	2.665	2.527	3.018	2.484	2.466	-1.92
Italy	2.425	2.393	2.440	2.441	2.441	0.16
Mexico	1.761	1.880	2.030	1.822	2.185	5.54

Source: Indian Foundry Directory, 2005, The Institute of Indian Foundry, 39th Census of World Casting Production 2004, thewfo.com

According to the 39th Census of world casting production-2004, the global tonnage appears to have increased by 8.4%, with nine of the top 10 producers revealing increased production. The total casting production was 79.75 million metric tons of which India's contribution was only 4.6 million metric tons. India is ranked fourth in the year 2004 in the production of grey iron.

The Indian Foundry Scenario

The foundry sector in India was given the required initial boost with establishment of the jute industry in Bengal and the cotton industry in Mumbai in the late 19th century. The watershed in the foundry industry came with the shift of governmental policy towards deregulation and open economy since 1990-91 with import of equipment and assimilation of latest technology becoming easy, leading to the emergence of several large scale players. However, the recessionary period of 2001-02 led to consolidation with the weaker foundries being taken over by more agile players. The entry of multinational units in the nineties particularly in automotive sector, helped the shift to medium and large scale units, with foundry professionals and skilled labour involved at all levels in moulding, methoding, melting, production etc.

There are over 4500 foundries in India out of which over 80% are small and medium enterprises (SMEs). There are only 10 foundries in the country with a scale of production comparable to world players. Presently the estimated built up capacity in India is around 7 million metric tons annually, but the current production level is around 4.6 million metric ton. India, at its current levels of production, occupies the 6th place under the category of 'largest producers of castings'.

In terms of demographic distribution most of the foundries are situated in Kolhapur, Belgaum, Pune, Greater Mumbai, Ahmedabad, Baroda, Rajkot, Agra, Batala, Ludhiana, Jalandhar, Howrah, Kolkata, Coimbatore, Chennai, Bangalore. These

cities house both SMEs and large foundries. Most of them are located near the consuming centres Over 400 foundries in the country have acquired quality certification of ISO 90001.

The trend in the production of the Indian foundry industry is given below: (in million metric tons)

Type of Castings	1999-2000	2000-01	2001-02	2002-03	2003-04	CAGR(%)
Grey Iron	2.4	2.3	2.3	2.47	2.84	4.30
S.G. iron	0.235	0.25	0.285	0.316	0.363	11.48
Malleable	0.05	0.04	0.03	0.039	0.039	-6.02
Steel	0.31	0.32	0.31	0.388	0.465	10.67
Non Ferrous	0.22	0.21	0.23	0.296	0.331	10.75

BUSINESS OVERVIEW

The Company was founded by Mr.P.Radhakrishna.Reddy, a Metallurgical Engineer from Regional Engineering College, Nagpur. Incorporated in the year 1982, Nelcast Limited established its first factory in 1985 at Gudur, Andhra Pradesh to produce 1200 MT pa of Iron Castings. Later in 1996, Nelcast extended its operations to Ponneri, Tamilnadu by establishing a factory with an installed capacity of 12,000 MT pa, for the manufacture of grey iron and ductile iron castings. A TS 16949 accredited organization, Nelcast is today one of the largest manufacturers of Spheroidal Graphite (SG) Iron Castings in the country.

The Company manufactures around 200 items in SG and Grey Iron Castings. Cylinder Blocks, Housings, Rear Hubs, Spring Shackle, Brackets, Housings, Exhaust Manifolds etc. are some of the items that find application in the heavy commercial vehicle segment and in the Tractor segment. The Company is a major supplier of auto components to Automobile industry majors like TATA Motors, Ashok Leyland, TAFE, TATA Cummins etc.

Apart from having the distinct locational advantage of proximity to the Chennai Port, the Company's two units at Gudur, Andhra Pradesh and Ponneri, Tamilnadu are also well connected by both rail and road. Brokers to the Issue

All members of the recognized Stock Exchanges would be eligible to act as Brokers to the Issue.

Credit Rating

As the Issue is of equity shares, a credit rating is not required.

Grading

We have not opted for grading of this Issue.

Trustees

As the Issue is of equity shares, the appointment of Trustees is not required.

Appraisal of the Project

No bank or financial institution has appraised our expansion plans. The funds requirement has been estimated by our management.

Monitoring Agency

There is no requirement for a monitoring agency in terms of Clause 8.17 of the SEBI Guidelines. The Audit Committee of our Board will monitor the use of the proceeds of the Issue.

Book Building Process

Book building refers to the process of collection of Bids, on the basis of the Red Herring Prospectus within the Price Band. The Issue Price is fixed after the Bid Closing Date/Issue Closing Date.

The principal parties involved in the Book Building Process are:

- Our Company;
- Book Running Lead Managers;
- Syndicate Members who are intermediaries registered with SEBI or registered as brokers with BSE/NSE and eligible to act as Underwriters. Syndicate Members are appointed by the BRLM;
- Escrow Collection Bank(s)/ Refund Bank; and
- Registrar to the Issue.

The SEBI Guidelines have permitted an issue of securities to the public through the 100% Book Building Process, wherein upto 50% of the Issue shall be allocated on a proportionate basis to QIBs out of which up to 5% shall be available for allocation on a proportionate basis to Mutual Funds and the balance to all QIBs including Mutual Funds. Further, not less than 15% of the Issue shall be available for allotment on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Issue shall be available for allotment on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Issue Price. We will comply with the SEBI Guidelines for this Issue. In this regard, we have appointed the BRLMs to manage the Issue and to procure subscriptions to the Issue.

Pursuant to amendments to the SEBI Guidelines, QIB Bidders are not allowed to withdraw their Bid(s) after the Bid Closing Date/Issue Closing Date and for further details see the section titled “Terms of The Issue” on page no. 144 of this Red Herring Prospectus.

Illustration of Book Building and Price Discovery Process (Investors should note that this example is solely for illustrative purposes and is not specific to the Issue)

Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20 to Rs.24 per share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centres during the bidding period. The illustrative book as shown below shows the demand for the shares of the company at various prices and is collated from bids from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22 in the above example. The issuer, in consultation with the book running lead managers, will finalise the issue price at or below such cut off price, i.e., at or below Rs. 22. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for bidding:

- Check eligibility for bidding, see the section titled “Issue Procedure - Who Can Bid?” on page no. 149 of this Red Herring Prospectus;
- Ensure that the Bidder has a demat account; and
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form.

Underwriting Agreement

After the determination of the Issue Price but prior to filing of the Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through this Issue.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

(This portion has been partly left blank intentionally and will be filled in before filing of the Prospectus with the RoC)

The above-mentioned amount is indicative underwriting and this would be finalized after pricing. The above Underwriting Agreement is dated [●].

In the opinion of our Board of Directors (based on a certificate given by the Underwriters), the resources of all the above mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. All the above-mentioned Underwriters are registered with SEBI under Section 12(1) of the Securities and Exchange Board of India Act, 1992 or registered as brokers with one or more of the Stock Exchanges. The above Underwriting Agreement was accepted by the Board of Directors of our Company at their meeting held on [●] and our Company has issued letters of acceptance to the Underwriters.

Allocation among Underwriters may not necessarily be in proportion to their underwriting commitments. In the event of any default, the respective Underwriter in addition to other obligations to be defined in the Underwriting Agreement will also be required to procure/subscribe to the extent of the defaulted amount. Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them, provided, however, it is proposed that pursuant to the terms of the Underwriting Agreement, the BRLMs shall be responsible for bringing in the amount devolved in the event that their respective Syndicate Members do not fulfill their underwriting obligations.

	TOTAL	[●]

The main objects, objects incidental or ancillary to the main objects, as set out in the Memorandum of Association enable us to undertake our existing activities and the activities for which the funds are being raised. The total project cost shall be met out of the proceeds of the public issue. Excess, if any will be utilised for general corporate purposes and in case of shortfall it will be met out of internal accruals or through debt funds. No part of the issue proceeds will be paid as consideration to Promoters, Directors and Key Managerial Personnel. Our capital expenditure plans are subject to various factors including but not limited to possible cost overrun; construction /development delays or defects; receipt of critical governmental approvals.

I. Expansion/ Modernisation of the existing production facilities

At present the Company has production facilities in Gudur and Ponneri with installed capacities of 42,000 MT per annum and 60,000 MT per annum, respectively, totalling to 1,02,000 MT per annum. The Company is planning to further expand the production capacities at both the existing plants to achieve a total capacity of 1,50,000 MT per annum by FY09. The Company also plans to provide the infrastructure and space to facilitate fettling and core making by its outsourcing partners.

Value addition:

Currently, of the total production, the composition of the Company’s machined castings is about 10%. The Company plans to increase this to form 20-25% of total production over the next 2 years. This would lead to an improvement in the margins.

Machining is the process which involves correction of dimensional defects by grinding, drilling holes, polishing for surface finish. Such process would lead to ready to use components. These machined components can be further assembled to sub-assemblies. For machined products, the incremental pricing would be Rs 5- 6 per kg, which will yield incremental operating profit of Rs 1.8- 2.0 per kg.

Details of the Major Heads of Expenditure

The detailed break up of the cost under each of the major heads of expenditure such as land and site development, building, plant and machinery are given below.

a) Land and Site Development

We have two plants located at Gudur and Ponneri respectively. The land area at our Gudur facility is presently only 9.32 acres while the plant at Ponneri is spread over a land area admeasuring 30.69 acres. Therefore we propose to acquire about 33 acres of additional land in close proximity to the existing unit at Gudur. It is estimated to cost about Rs.190.24 lakhs(approx Rs 5.15 per acre (inclusive of site development charges) +12% registration charges). The Company has already acquired about 19 acres of land in Gudur and is in the process of identifying balance land and is negotiating with land owners for purchasing the same. This land will be mainly used for the setting up of fettling and core making facilities to support the expanded capacity of 1,50,000 MT p a. These activities are outsourced to third parties. By providing the land, requisite infrastructure and space in close proximity to the factory the Company can ensure timely deliveries, close monitoring of quality of the work, and assured services at competent costs.

The details of land acquired by us at Gudur is as under:

The improvements to the existing buildings have already been carried out.

We have received permission from Divipalem Panchayat, Gudur for the proposed layout at Gudur. We are yet to receive permission/approval from Ponneri Panchayat for construction of the proposed unit at Ponneri.

C) Plant And Machinery

The total cost of plant and machinery required for expansion, modernisation and machining to be installed at both the units is estimated at Rs. 5253.34 lakhs. The break up of the total cost, unit wise, is as follows.

Unit	Amount (Rs. In lakhs)
Gudur	2219.29
Ponneri	3034.05
TOTAL	5253.34

Our Company has begun the implemenation of the expansion process and has already purchased plant and machinery worth Rs 829.35 lakhs. For the above estimates, the Management has relied upon the purchase orders for the equipment proposed to be acquired, the quotations invited for the equipment for which final purchase orders are yet to be placed and its own experience.

The Company has identified the major equipment required, separately for foundry and machine shop at both the units. A detailed break up of the plant and machinery, unit wise, is given below.

Notes:

- We are not acquiring any second hand machinery.
- The quotations relied upon by us in arriving at the above cost have been lapsed. Consequent upon which, there could be a possible escalation in the cost of equipment proposed to be acquired by us at the actual time of purchase, resulting in increase in the project cost. Such cost escalation if any, would be met out of our internal accruals.
- We have already placed purchase orders/purchased some of the machineries that constitute 19.93% of the total estimated cost of the plant and machinery required for the proposed expansion plans. We are yet to place purchase orders for the balance equipment, which constitutes 80.07% of the estimated cost of the plant and machineries.

SECTION IV - ABOUT US

INDUSTRY OVERVIEW

Introduction

A casting is a metal part formed by pouring molten metal into a sand mould or metal die. The mould or die consists of two halves that, when mated together, form a cavity into which the molten metal is poured. The mould or die forms the external surface of the casting. If an internal cavity is required in the casting, a core is placed inside the mould cavity. After the metal solidifies, the mould is broken, the cores removed and the part is readied for finishing operations. The sand is then remolded and used again. When a metal die is used, the two halves of the die are separated and the solidified casting is removed. The die is then reused. Virtually any metal that can be melted can be cast.

The most common method for small-medium-sized castings is the green sand moulding, which accounts for approximately 60 per cent of castings produced. Other methods include die-casting, shell moulding, permanent moulding, investment casting etc.

Sometimes these castings are used as produced but mostly after machining and used as components of assembled products. Automobiles, other transportation equipment and Tractors use a major part of all castings produced. Engine blocks and heads, brake drums and suspension components are just a few of the cast parts used in motor vehicles. In addition to the many iron castings used in autos, usage of Aluminum castings such as pistons and cylinder heads in motor vehicles continues to grow at a rapid rate. Usage of Aluminium has helped to reduce overall vehicle weight, thus improving gas mileage. Castings are also an essential component of construction equipment. Every home contains a number of castings from bathtubs, pipes, sinks and fixtures, air conditioners and other home appliances, furniture etc.

Types of Cast Irons

Depending on the desired properties of the product, castings can be formed from many types of metals and metal alloys. Iron and steel (ferrous) castings are categorised according to the type of iron or steel as follows:

Grey and Ductile Iron

Grey and Ductile iron generally make up approximately over 75% of all castings by weight. Grey iron contains a higher percentage of carbon in the form of flake graphite and has a lower ductility than other types of iron. It is used extensively in the auto, tractor, agricultural, heavy equipment, engine, pump, and power transmission equipment industries.

Spheroidal Graphite Iron (SG Iron) or also known as ductile cast iron is a mid twentieth century development, but its usage has rapidly grown. Carefully controlled amounts of Magnesium or Cerium are added to molten iron to slow down the growth of Graphite precipitates. This allows the Carbon to separate into spheroidal particles. Further heat treatment and annealing cause the carbon to precipitate into further small graphite particles, which gives the castings even greater ductility. With the micro structural transformation, the metal acquires superior ductility, elongation characteristics, and machinability.

The raw materials used for SG iron must be of high purity. The sands and moulding equipment used for SG iron castings must provide rigid moulds of high density and good heat transfer attributes. The formation of graphite during solidification causes an attendant increase in volume, which can counteract the loss in volume due to the liquid-to-solid phase change in the metallic constituent.

The casting yield of SG iron castings (the ratio of the weight of usable castings to the weight of metal poured) is not as high as grey iron. Most SG iron castings are used as cast, but a few are heat-treated. Heat treatment varies according to the desired properties holding at sub critical, 705C for no more than 4 hours improves fracture resistance. Heating castings above 790 C followed by fast cooling (oil quench or air quench) significantly reduces fatigue strength and above-room-temperature fracture resistance. Ferritising by heating to 900 C and slow cooling also reduces fatigue strength and above-room-temperature fracture resistance. Some castings are also given hardening treatments.

In the past 40 years or so the use of ductile (SG) iron has grown rapidly, mainly through conversions from grey and malleable iron castings and steel castings, forgings and fabrications but also through its use in new components. SG Iron, is presently mainly used in General Engineering, Automobile, Earthmoving, Railways, Mining Equipment, Switchgear, Machine Tools, Power Transmission, Textile Machinery & most Heavy Equipment Applications.

Advantages of S G Iron castings

The advantages of ductile iron are its versatility, cost efficiency and the best combination of overall properties viz. high ductility and high tensile strength, excellent machinability, internal soundness, and close grain structure.

Other types of Iron Castings

Malleable iron form a small percentage of all castings. Malleable iron contains small amounts of carbon, silicon, manganese, phosphorus, sulphur and metal alloys to increase strength and endurance. Malleable iron has excellent machinability and a high resistance to atmospheric corrosion.

Steel castings make up a sizeable portion of all castings. They are more expensive to produce compared to grey & ductile iron castings. The investment casting method produces high-precision castings, usually small in size. Examples of steel investment castings range from machine tools and dies to golf club heads.

The Global Foundry Scenario

In the developed world the production of castings has become expensive due to rising labour costs and difficult, due to shortage of skilled labour and increasingly stricter environmental norms. The number of foundries in the USA has declined by about one- third over the last 20 years. Over 8,000 foundries have shut down in Europe due to non-availability of skilled manpower and difficulties in compliance with environmental norms. Both USA and EU have a cost disadvantage against developing countries. As a result many foreign automotive manufacturers and their Tier I suppliers have started tapping the developing countries. According to the American Foundry Society, US imports are forecast to rise 5% per year for the next 7 years to reach 3.0 million tons. A similar situation exists in EU as well.

China continues to be the leader, in foundries, even ahead of developed countries like US, Russia, Japan and Germany, while India was ranked sixth in the production of castings. The details of production of the top ten countries along with their CAGRs during 2000-04 are as follows:

According to the 39th Census of world casting production-2004, the global tonnage appears to have increased by 8.4%, with nine of the top 10 producers revealing increased production. The total casting production was 79.75 million metric tons of which India's contribution was only 4.6 million metric tons. India is ranked fourth in the year 2004 in the production of grey iron.

The above table shows that while the world casting production has only grown by 2.76% the growth in India and China have been at 14.5% and 23.55% respectively. The US, which is the second largest producer of castings, has grown at only 2.02%

The Indian Foundry Scenario

The foundry sector in India was given the required boost with the establishment of the jute industry in Bengal and the cotton industry in Mumbai in the late 19th century. The watershed in the foundry industry came with the shift of governmental policy towards deregulation and open economy since 1990-91 with import of equipment and assimilation of latest technology becoming easy, leading to the emergence of several large scale players. However, the recessionary period of 2001-02 led to consolidation with the weaker foundries being taken over by more agile players. The entry of multinational units in the nineties particularly in automotive sector, helped the shift to medium and large scale units, with foundry professionals and skilled labour involved at all levels in moulding, methoding, melting, production etc. The contribution of the Indian foundry industry towards the indigenisation effort in engineering industries in India has been commendable.

There are over 4500 foundries in India out of which over 80% are small and medium enterprises (SMEs). There are only 10 foundries in the country with a scale of production comparable to world players. Presently the estimated built up capacity in India is around 7 million metric tons annually, but the current production level is around 4.6 million metric tons. India, at its current levels of production, occupies the 6th place under the category of 'largest producers of castings'.

Source: Indian Foundry Directory, 2005, The Institute of Indian Foundrymen

In terms of demographic distribution most of the foundries are situated in Kolhapur, Belgaum, Pune, Greater Mumbai, Ahmedabad, Baroda, Rajkot, Agra, Batala, Ludhiana, Jalandhar, Howrah, Kolkata, Coimbatore, Chennai, Bangalore. These cities house both SMEs and large foundries. Most of them are located near the consuming centres Over 400 foundries in the country have acquired quality certification of ISO 90001.

While Grey iron castings production increased from 2.4 million tonnes in FY 2000 to 2.84 million metric tons in FY 04 recording a CAGR of only 4.3%, the highest growth rate was witnessed in ductile iron castings which grew at a CAGR of 11.48%. Likewise the production of non-ferrous castings grew at a CAGR of 10.75%. These trends seen in both ductile iron and non-ferrous castings are in line with happenings elsewhere in the world. During, 2003-04 India produced 4.03 million tons of castings according to The Institute of Indian Foundrymen. The turnover of foundries in the country reached an all time high of Rs 15,000 crs (\$3.5 billion). Exports touched Rs 2,000 crs (\$0.46 billion)

Exports have more than doubled from Rs 700 crs in 1998-99 to Rs2000 crs in 2003-04. The major increase on the export front has been in industrial castings. Overall exports have grown at a CAGR of 24.58% from 1998-99 to 2004-05.

The rate of growth of the Foundry Industry since 2003-04, has been even better and the present level of production is over 5 million tons annually.

Assimilation of modern technology like simulation software, 3-D modeling of drawings, use of computers in solidification simulation, has brought the Industry at par with the best in the world. Better understanding of the drawings, modern equipment, lower labor costs etc., has also made the Indian casting industry globally competitive. The global opportunity for exports has also been well exploited by the Indian foundry industry due to its inherent advantages of quality, flexibility volume and cost competitiveness.

Technological Transition

To meet the exacting demands of its global and domestic clientele, the Indian foundry industry has come a long way and taken bold decisions to modernize the infrastructure facilities in terms of melting, molding, tool development, quality systems, core making etc. Some of the major steps taken are listed below:

- Transition from Cupola to Duplexin / Induction-melting, leading to improved metallurgy
- From Jolt Squeeze process to high pressure molding-for better dimensional control and higher productivity
- Pattern and Die development with CAD/CAM process and CNC Machines.
- Sustained effort towards yield and productivity improvement
- Increased awareness on quality systems and exposure to global manufacturing practices-acquired TS/QS certifications
- Automation undertaken to eliminate hazardous operations and secure precision
- Core making towards Hot Box, Cold Box and shell
- Commitment to pollution control-ISO 14000

Strong domestic demand from the Indian automobile and tractor sectors and the global trend towards off-shoring casting activities have driven Indian foundries towards capacity addition and product value addition. The key factors contributing to the growth of foundry industry could be broadly classified as follows:

- I. Growth of end user markets.
- II. Increasing export opportunities.
- III. Technological shift towards castings.

I. Growth Of End User Markets

The dominant end user is the Automobile industry, followed by Tractors and Farm Equipment, Pipes and Fittings, Construction and Mining, Rail Road, Internal Combustion Engine etc.

Automobiles

Source: www.ibef.org

The Indian auto industry, worth US\$ 34 billion in 2006, has grown at a CAGR of 14 per cent over the last five years with total sales of vehicles reaching around 9.7 million vehicles in FY 06. That number is likely to see a significant boost, given that the first half of FY 07 has already witnessed a staggering growth rate of 17.12 per cent. Domestic sales during the April-September 2006 stood at an impressive 4.86 million vehicles, including cars, two-wheelers and commercial vehicles. According to industry experts, this trend will continue, clocking an annual growth rate of 20 per cent. In addition, the Government's announcement to cut excise duty on small cars will soon see India emerging as the world's largest manufacturing hub for small or compact cars.

India is on every major global Automobile player's roadmap, and it isn't hard to see why:

- India is the second largest two-wheeler market in the world
- Fourth largest commercial vehicle market in the world
- 11th largest passenger car market in the world
- Expected to be the seventh largest by 2016

Factors driving the growth in the passenger car / utility vehicle segment

- Car penetration in India is 7 per 1000 persons. The growth in this segment is being driven by lower excise duties, rising disposable incomes, easy availability of finance along with lower interest rates and ongoing improvement in urban and rural infrastructure.
- According a study done by ACMA, passenger vehicle production grew at 17% CAGR between FY 2000 and FY 2005 while that for multi-utility vehicles grew at 9% CAGR in the same period resulting in an overall compounded growth of 15%. For the period 2005 to 2014 ACMA has projected a CAGR of 10% for passenger cars between a 4% CAGR for multi-utility vehicles and an overall compounded growth of 9%.
- India's car production capacity is in for boost. World auto majors have announced massive investment plans, which will push the country's car production past the 2 million annual rate by FY 2008, up 70 per cent from 1.4 million units now. Even at 2 million, India, which stand at No.11 among global car producing nations, will move only two steps ahead, past UK (1.6 million) and Canada (1.35 million).

Factors driving the growth in commercial vehicles segment

The CAGR recorded by the total commercial segment during FY 2001- 2006 was 20.8%. The M&HCV (including buses) segment accounts for 56% of the total commercial vehicle market.

- The steady growth in the economy and beneficial policy changes by Government have combined to stimulate the growth of the Indian auto industry. Apart from the pull of a vibrant economy imposing Euro norms for vehicles and the restriction on maximum age of vehicles have been stimulating demand for vehicles. Currently there are nearly a million commercial vehicles on Indian roads which are over 10 years old which present an opportunity for early replacement. The enforcement of loading norms / emission regulations would noticeably boost the HCV sector.
- The ongoing focus on infrastructure would continue and will result in a vastly improved road network spanning the length and breadth of India and this would result in faster and increased road movement of passenger and freight, adding to the growth of light and heavy commercial vehicles.
- The unprecedented growth in freight traffic due to the growing economy compel a rapid increase in the vehicle fleet.

Factors driving the growth in the tractor segment

According to data sourced from ACMA, the production of tractors increased from 166,889 units in FY 2003 to 296,080 units FY 2006, which is a CAGR of 21%. The growth has been driven by:

- Better availability of credit and focus on retail tractor financing by the banking sector and the good monsoons. Easier availability and reduction in interest rates on tractor loans is one of the key factors driving the tractor demand in the Southern States. Several irrigation projects initiated by Government and greater thrust on agricultural credit have also enabled the average farmer to commit resources on farm automation.
- Increase in the area under irrigation under the Bharat Nirman Project and micro irrigation schemes is also stimulating tractor sales growth.
- The Tractor has evolved into a multifunctional vehicle and its usage is no longer confined to farming. Accordingly the demand for and usage of tractors has now a wider base and broader platform of usage.

The Auto Component Sector

Source: www.ibef.org

The Indian automotive component industry has witnessed a CAGR of 20 per cent in the last five years (between 2000-2005), according to a McKinsey-ACMA report on the Status of the Indian Auto industry. In 2005, the auto components industry was worth over US\$ 10 billion, which is expected to nearly double in four years, to 18.7 billion in 2009, and reach US\$ 40 billion by 2014.

Global auto majors source critical components from India, with engine parts making up nearly a third of all exports:

- Engine parts (31 per cent)
- Drive transmission and steering parts (19 per cent)
- Body and chassis (12 per cent)
- Suspension and braking parts (12 per cent)
- Equipment (10 per cent)
- Electrical parts (9 per cent)
- Others (7 per cent)

Steered by the country's high engineering skills, established production lines, a thriving domestic automobile industry and competitive costs, global auto majors are rapidly ramping up the volume of components they source from India. The Auto Component industry is poised to jump its exports of US\$ 1.8 billion in FY 04-05 to US\$ 5.9 billion in FY 08-09.

According to the Automotive Component Manufacturers Association of India, more than a third (36 per cent) of Indian auto component exports head for Europe, with North America a close second at 26 per cent.

II. Export Opportunities For Castings

Automotive Industry is the largest consumer of Castings in India as well as globally. The overall size of the Global auto component Industry is about US\$1.2 trillion with about US\$45 billion being sourced from low cost countries like India.

In the developed world the production of castings has become unattractive due to rising costs, shortage of skilled foundry people and environmental restrictions.. The US foundry population has declined by about one- third over the last 20 years. During the same period over 8000 Foundries has shut down in Europe. As a result many foreign Automotive manufacturers and their Tier I

suppliers are increasingly tapping the Developing countries for castings. The American Foundry Society projects the demand for castings to rise at a rate of 5% per year till 2011.

In the last few years, a lot of large MNCs like GM, Ford, etc. have opened their sourcing offices in India. The Indian casting industry which has distinct advantages in terms of cost and quality is witnessing accelerated exports. India has large pool of Engineering man power able to clearly understand, fluently speak and write English. The modernization of equipment following import liberalization by the Indian Government has spurred the incorporation of modern technology along with modern foundry equipment like High pressure moulding lines, core making equipments, automatic sand plants and latest in NDT like those required for element scanning, magnetic particle testing, ultrasonic & X-ray examination etc. Indian foundries have now modern equipment and technology as well as skilled man power. On the other hand the wage costs are low. The wage cost percentage to sales in India is about 8% as compared to 38% in USA and 24% in Europe.

Climbing up the value chain

In the 1990s, the Indian auto components export were dominated by supplies to the aftermarket, with only 35 per cent of exports being sourced by Tier 1 OEMs. The Indian automotive component industry has since, made a sustained shift to the global Tier 1 market for their products. Presently, Indian automobile component manufacturers direct 75 per cent of their exports to Tier 1 OEMs (Original Equipment Manufacturers) and only 25 per cent, to the aftermarket.

Indian component suppliers have displayed a healthy capability to cater to the engineering and production needs of the world's biggest auto companies. This is largely due to:

- Engineering and manufacturing skills.
- Proficiency in understanding technological requirements and implementing technical drawings.
- Growing IT capability for design, development and simulation
- Being well conversant in all global automotive standards: American, Japanese, Korean and European.
- Adequate manufacturing facilities, appropriate automation leading to economies in scale of production and therefore attractive prices.
- Flexibility for small batch and large volume production

Striking the growth chart, Indian companies are:

- Increasing investments in production capacity
- Establishing partnerships in India and abroad

- Investing in or acquiring companies overseas
- Establishing greenfield manufacturing footprints overseas

III. Technological Shift Towards Castings

The automotive and general engineering Industry is exploiting the technological and economic advantage of castings over other forms of metal components like forgings or steel weldments. SG Iron Castings strike a golden median between the rigidity and tensile strength of Iron and the ductility of Steel. Castings can satisfy the design requirements for strength and density and offer complex shapes not possible in forged parts, with thinner sections held to closer tolerances. A new generation of metal matrix composites, squeeze cast, and semisolid cast parts can offer significant cost savings over forgings at substantial weight reductions.

Superior Physical Properties

The chemical composition of the output castings could easily be controlled as against forgings. Physically Castings are isotropic and homogenous the strength is uniform in all directions as against rolled steel which has directional properties. Further Castings present better weldability and easier machining than forgings and resist post welding cold cracking.

Superior Design flexibility

The cost of modifying a casting core box or mould pattern is a relatively lesser than cost of design. The Chemical composition of castings could also be controlled faster and better. The thickness of walls could easily be controlled to suit functional requirements.

Reduced Cost Of Manufacturing

The rough parts have to be machined before assembly. As parts become more complex, Castings provide a distinct advantage in cost of machining.

Spin Off In Other Sectors

The growth of the foundry industry has been amply supported by the corresponding growth of the industry supplying vital inputs. India is endowed with vast natural resources like iron ore, manganese ore, coal, limestone etc., which are vital for making foundry inputs like pig iron. Pig iron manufacturers have been continuously expanding their capacities to meet the increasing demand from the foundries and steel mills. The refractory industry in India is well placed in terms of technology and capacity to meet increased demands. The explosion in capacity in the petrochemical sector has resulted in increased production of petrofractions, vital to the growth of the foundry chemical industry. India has world-class technology for production of binders for modern core making methods. India is also fortunate to have some of the best deposits of bentonite essential for green sand moulding. With the growth of the foundry industry, simultaneous expansion has also taken place in the foundry equipment sector. The foundry chemical sector and the foundry equipment sector have been exporting their products for quite some time, which is ample testimony for their quality. Thus, advances in these two supporting sectors have enabled a smooth evolution of the foundry industry in technology and capacity.

Outlook for the Foundry Industry

There are exciting and challenging opportunities over the next decade for India based automotive component manufacturers. In the global automotive industry sourcing of automotive components from low cost countries (LCCs) is likely to accelerate because of both the increasing cost pressures on OEMs in developed countries, such as those in North America and Western Europe and emergence of skilled, cost competitive suppliers in LCCs such as China, Brazil, India and Thailand. As far as India based players are concerned, they already have a foundation of strong engineering skills and an emerging culture of cost competitiveness that will help them effectively target parts of this opportunity. Indian Foundries, especially the larger ones can look forward to quantum growth in production, sales and margins.

BUSINESS OVERVIEW

Incorporated in 1982, Nelcast Limited established its first factory in 1985 at Gudur, Andhra Pradesh to produce 1200 MT p a of Iron Castings. Later in 1996, Nelcast extended its operations to Ponneri, Tamilnadu by establishing a factory with an installed capacity of 12,000 MT p a, for the manufacture of Grey Iron and Ductile Iron castings. Having started as a small ancillary supplier to Ashok Leyland Ltd, the Company has through rapid strides grown to possess an installed capacity of 72,000 MT p a which is being increased to 1,02,000 MT p a during the current Financial Year. A TS 16949 accredited organization, Nelcast is today one of the largest manufacturers of Spheroidal Graphite (SG) Iron Castings in India.

The Company was founded by Mr.P.Radhakrishna Reddy, a metallurgical engineer from Regional Engineering College, Nagpur. Although he did not possess any previous experience, his talent and commitment has helped the Company become a 893 people strong organisation. The fact that the Company has not suffered any production loss in the last 21 years is reflective of Mr.P.Radhakrishna Reddy's achievement on the Human Resources Management front. Mr.P.Radhakrishna Reddy presently concentrates on the export markets by taking care of the Company's overseas operations from Chicago in USA.

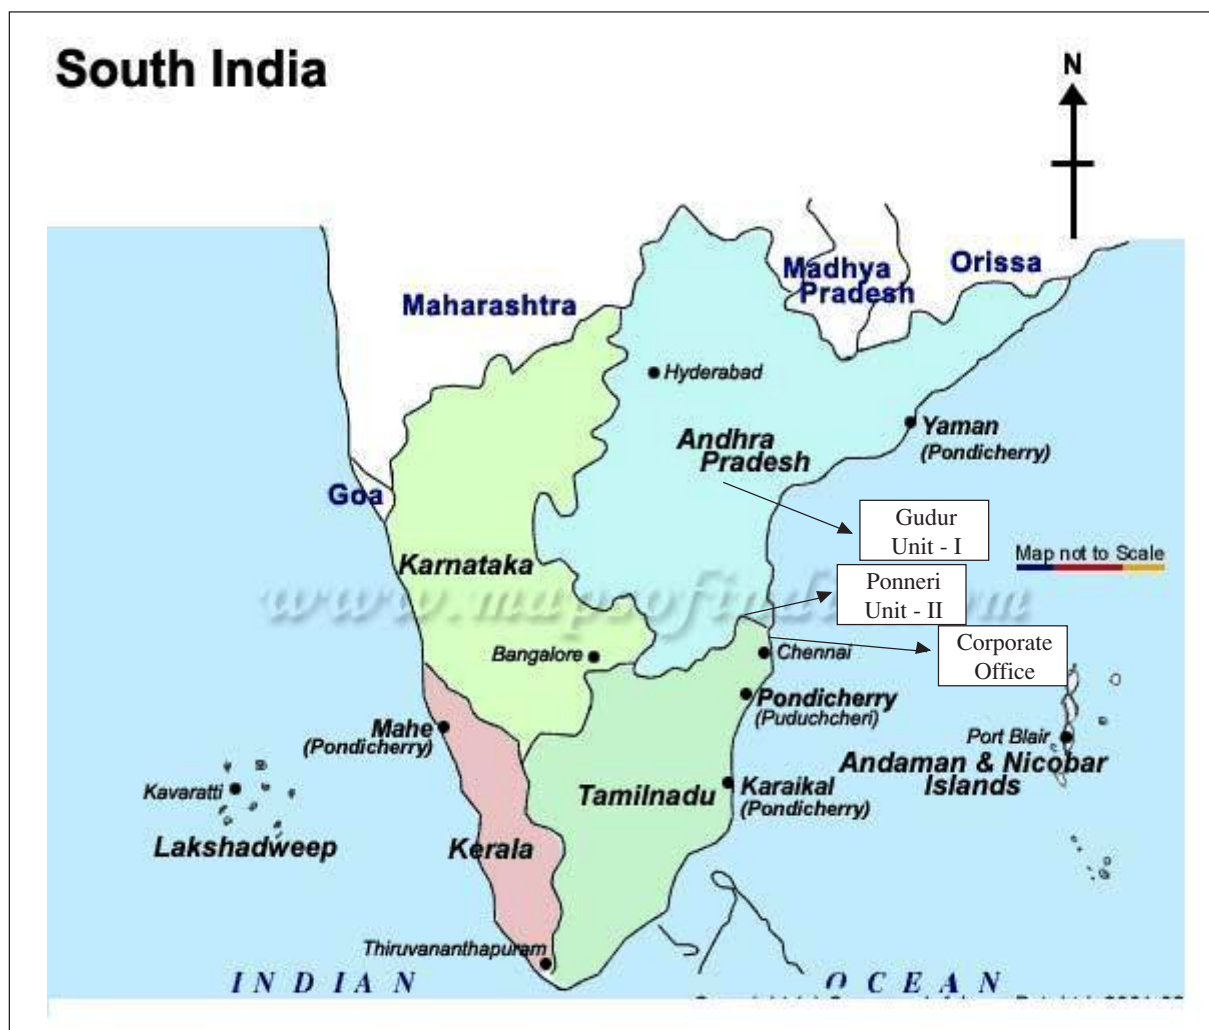

The Company manufactures around 200 different castings in SG and Grey Iron. Cylinder Blocks, Flywheels, Flywheel Housings, Housings, Hubs, Spring Shackle, Brackets, Transmission Case, Axle Housings, Exhaust Manifolds etc. are some of the items that find application in the commercial vehicle and in the Tractor segments. The Company is a major supplier of auto components castings to Automobile and Tractor industry majors like TATA Motors, Ashok Leyland, TAFE, Mahindra & Mahindra, TATA Cummins etc.

Apart from having the distinct locational advantage of proximity to the Chennai Port, the Company's two units at Gudur, Andhra Pradesh and Ponneri, Tamilnadu are well connected by both rail and road. Besides catering to the domestic markets the Company is also exporting to USA, Europe and Australia. Professionally managed, Nelcast has qualified persons heading its various departments.

The Company has the following distinct achievements:

- Grown from a 1200 MT p a capacity unit in 1985 to one of the largest manufacturers of SG Iron Castings in India with a capacity of 72,000 MT p a as at 31 March, 2006 which is being increased to 1,02,000 MT p a during the current Financial Year.
- No production loss due to labour unrest during its 21 years of operations.
- Been awarded best vendor award by TAFE Limited and also rated as outstanding supplier for 2006 by Eicher Motors Ltd.
- Weight-wise the largest supplier of components per tractor to TAFE Ltd.
- Meeting the stringent quality standards of Arvin Meritor the Tier I supplier to Volvo, Sweden.
- Supplying to Sigma Pipes, USA one of the leading manufacturers of cast iron pipes in USA.
- Obtained ISO 9002 accreditation as early as 1994.
- One of the early birds to implement TS16949 quality standard
- The Company houses the Kunkel Wagner fully automatic high pressure molding line and is among the first foundries to implement fully automatic moulding technology in India.

The Company caters to the requirements of almost all the major HCV and Tractor manufacturers in India namely Tata Motors Limited, Ashok Leyland, Eicher Motors Limited, TAFE, Mahindra & Mahindra etc.

Production Trend

Rejections Trend:

While making the castings we may face rejections at either the start of the process or at even the customers end if it has not met their requirements. We are continuously in the process to reduce this. As is evident from the figures below, though there is an overall slight increase in 2005-06 overall the rejections have shown a declining trend.

Rejections (%)

Our Casting Types

SG Iron Castings

At present almost 75% of the Company's output is SG Iron Castings which are more versatile and particularly suitable to automotive parts. Through the years the Company has evolved and sharpened its production methodology and quality systems enough to provide the controlled process and quality refinement required for the production of SG Iron castings. With its state-of-the-art machine shop comprising CNC machines and special and general purpose machines, many of the SG Iron Castings are machined and finished into ready to use components as required by customers.

Grey Iron Castings

About 25% of the output at present is Grey Iron castings directed towards applications that specifically require the properties of grey iron castings.

Product Range And Customers

Nelcast has a wide range of products that meet the specific requirements of different industries. Beginning as low as 0.5 kg, Nelcast offers parts upto 250 kgs in weight and in a choice of several grades of Grey & Ductile Iron. Nelcast manufactures parts to be used in various applications in automobiles, tractors, auto components.

Customer Relationships

The Company continues to enjoy the patronage of many of its customers for years. Nelcast caters to the requirements of most of the HCV and Tractor manufacturers in India. In the Foundry Industry, long term partnership with customers is imperative since considerable investment is required to set up foundry capacity. The customers have to share the designs of the components that they have developed, step by step, and define the exact requirements in regard to composition, other specifications, functionality, quantity and the time and volume schedules. The Foundry on its part develops patterns, core boxes and moulds to suit the customers requirements and at times even sets up special purpose machinery suitable only for the specific product to meet the customers demand. Consequent upon customer loyalty and supplier performance, Nelcast is shaping to be key supplier to Auto component makers like Automotive Axles Ltd, Axles India Limited, Tata Cummins Ltd, Rane Steering, ZF Steering etc.

The Company is able to meet the large schedules for SG Iron Components from known manufacturers of commercial vehicles and tractors who in turn have to comply with stringent quality and safety standards. Nelcast takes pride in its partnership with its customers towards meeting their quality standards which are constantly upgraded. The customer give weekly, monthly and yearly supply schedules. The orders involve price commitment and suitable escalation provisions. Compensation for any rise in power or raw material costs are negotiated with the customers and prices are revised as per mutual agreement.

Customer Mix

We derive almost 70% of our revenues from the HCV and Tractors segments. The next major contributor is auto component industry. The following depicts the customer mix for the FY 2005 - 06 and 2006-07 .

The Current Market Demand Position

Many of the Company's customers follow Just In Time delivery schedules and the Company has to cater to the needs of the long standing local customers with the scheduled timelines. The customers are willing to take up fully finished components direct from Nelcast instead of being routed to machining intermediaries hence Nelcast is shaping its manufacturing pattern accordingly.

Meanwhile the demand for castings from abroad is on the increase and Nelcast is planning to dedicate 25% of its capacity for exports, though domestic demand rides high.

Competition

The casting Industry in India comprise many layers. In spite of having a large number of foundries, the majority are producers of Grey Iron castings in small scale which are used by small engineering works like those for motor housings, sanitary ware etc. Only a small number of foundries have a large scale of production using modern technologies like high pressure moulding, induction furnaces and CAD / CAM facilities and to certified quality standards. Even fewer are capable of producing SG Iron Castings in large volumes with consistent quality standards. These large players are the most sought after by Automobile, Tractor, Components and general engineering industry. The growth of the Automobile industry in the past five years has led to a situation of high demand for sophisticated castings which can only be met by high volume foundries. At present due to the large market size the competition is not predatory. But there is marked demand pressure from the Automobile industry which is growing fast. There is significant competition to take on larger share of this demand for which many of the large scale foundries are on expansion modes. That Company, which adds capacity the earliest, would continue to retain its customers and get a larger share of the market. Besides capacity, quality and pricing are also key drivers. The Company needs to rapidly add capacity and improve technology and delivery to retain and increase its share in the market. It has already established a reputation, is pricing friendly and expansion of its capacity would generate higher margins and volumes. Significant advantages in technology and quality accreditation help the Company to cross entry barriers in export market. The Company has presence in international market and is presently hard pressed to meet demand and is awaiting capacity expansion.

Existing Competitors

Castings are used in diverse products. Almost 90% of all manufactured goods contain one or more metal castings. Certain segments of castings are pure commodity products where competition is driven more by the price factor rather than quality or value addition. This competitor analysis is on those players who possess a critical size and focus on product segments which are of a complex nature and therefore require technical skills & capability. In this context some of the key players are:

Product type	Name
SG Iron	Ductron
Grey iron	DCM Foundry
Grey iron	Kirloskar Ferrous
Mainly SG Iron	Brakes India
SG Iron	Shakthi Auto Components
SG Iron	DGP Hinoday
Grey iron	Gadge Patil
Grey iron and Aluminium	Ennore Foundries
Grey, SG & Aluminium	Rico Auto Industries

The dynamics of existing competition (Domestic) could be analysed from the following perspectives:

- Industry growth rates:** Currently due to the upturn in the Automobile and Tractor industries, demand is outstripping capacity and also with exports becoming a serious option, most of the players are operating almost at full capacity. Credible players in the industry maintain price discipline and price volatility is usually avoided.
- Equally balanced competitors:** From a size perspective the key players are of similar sizes and thus none of them individually has the capability to change the rules/economics of the industry. This in turn brings a certain discipline among the firms in making commitments to customers. However consistent expansion in capacity of foundry industry could create unhealthy competition sooner or later.
- Switching costs:** Large customers such as major truck and tractor manufacturers look at supplier relationships from multiple dimensions due to which volatile competition such as price warfare is generally not evidenced.
- Expansion of Market:** With the advancement of technology castings offer cost advantages over other types of products such as fabrications, forgings etc without compromising quality. Therefore new opportunities are opening up for the casting industry.

In the context of this background of a growing & expanding market and customers selecting suppliers on the basis of multiple dimensions such as quality & reliability and not purely on the basis of price, rivalry within the industry is quite balanced and unsustainable methods such as price wars are usually avoided.

Collaboration

We have not entered into any collaboration agreements for marketing of its products/services.

Exports And Export Obligations

Due to globalization India has become a major source for the world auto giants. The Company has already made inroads into the export market and has been exporting to USA, Australia, Europe for many years. In order to increase its presence in the export markets Company has opened an office in USA. The company's exports have been increasing for the last 3 years and reached to around 10% of the total turnover. The expansion in capacity will add to Company's exports.

Top three customers for the FY 2006 and 2007:

No 3, Australia	427.29	17.99%	630.00	19.93%

There are no export obligations pending to be fulfilled as on date.

Manufacturing Process

A description of the manufacturing process followed by the Company is discussed hereunder:

Designing

The drawings of the component / equipment are generally supplied by the customers who also give their technical requirements. The drawings are converted into 3D simulations for estimation and production planning purposes using CAD techniques. The design is then suitably modified to provide for necessary allowances in the manufacturing process. This includes determining the number of feeders, spruce, runners, risers, in - gates, required in the pattern, which allows additional molten metal to flow into the moulds, helping to compensate for the shrinkages in the castings caused by the process of cooling of the metal in the moulds. This is a crucial step and takes effort and time to perfect.

Tooling

Tooling is the process of making patterns and core boxes of the moulds which gives the desired shapes to the castings, by using them in moulding boxes into which green sand is filled. After finalizing the designs, patterns are made out of Aluminium, or cast iron through programmed machining using CNC. If the casting is required to be hollow, as in the case of Engine Blocks, Housings, pipe fittings, additional material known as cores, are used to make the desired cavities. Core Boxes are also made out of aluminium which are used to make cores or cast iron again by CAD / CAM process.

The process of core making depends on the customer's requirements of the attributes of the castings. The three most commonly known methods are:

a) CO₂ core making

The process involves mixing Silica sand with Sodium Silicate in a Core Sand Mixer pressing mixed sand into needed shape, and passing CO₂ gas for hardening the Cores, coating them suitably.

b) Nobake cores

The process involves mixing Silica Sand with Resins and catalyst, setting to shape required, allowing adequate hardness to take place, dressing, coating with paint and drying in oven.

c) Cold box / shell cores

These are made by shooting sand mixed with chemicals into core boxes, passing suitable gases to harden cores, dressing, painting and drying.

The adoption of the method for core making depends on the technical requirement of the products such as the grade, size, quantity etc. It is clear that increasingly cold box cores will be used and the Company is expanding capacity in this regard.

Melting

Steel scrap and foundry returns are charged and melted in a Medium Frequency Electric Induction Furnace along with carburisers and ferro alloys. A sample of the molten metal is taken for analysis with a spectrometer which determines the additional amounts of inoculants required to be added to the molten metal to reach the correct composition. The Liquid Metal is heated to the required temperature (around 1500o C) after which the metal is ready for pouring into moulds. Since the induction furnaces melt the charge by electromagnetic flux instead of heating crucible through external heating, it guarantees quality melt with minimal emissions.

Innoculants' treatment

For obtaining SG Iron castings, the molten metal is treated with Innoculants like Ferro Silicon Magnesium and Ferro silicon barium with careful timing and precision in a Treatment ladle. The graphite flakes are rendered into graphite nodules, which is a salient feature of SG Iron. Production of large quantities of quality SG Iron comes from continuous process refinement and quality control.

Moulding

Moulding is a critical activity for a foundry. The most widely accepted process for moulds making is green sand mould process. The advantage of the green sand process is that it enables mass production of castings at a low cost, especially for cast irons.

Silica sand is mixed with predetermined quantities of Bentonite, coal dust and water. The mixed sand is then fed through conveyors to the moulding machines. Match plates with the required patterns, designed according to the Customers' requirements, are mounted on the moulding machine. The moulds are made by 2 halves Cope and Drag by applying pressure to the green sand and then the shaped moulds are moved onto the mould tracks and 2 halves are closed before for pouring the molten iron into mould box. Depending on the requirement, cores are placed in the moulds before closing the moulding boxes. The Company makes mostly cored castings.

Nelcast is equipped with many jolt squeeze moulding machines as well as the Kunkel Wagner automated high pressure moulding line installed in the unit at Ponneri which yields castings with improved dimensional accuracy, surface finish and soundness.

Knock-Out

The sand in mould boxes, after allowing sufficient time for the cooling of the liquid metal poured into the moulds, is knocked out, thus separating the castings from the sand. The hot castings are kept separately for quality checks. After the quality

Quality Management

Nelcast is one of the first foundries in India to be certified with TS16949 quality standard. The Company follows Total Quality Management.

Incoming Material Inspection

In order to produce castings of good quality, the quality of raw materials is important. Consequently at Nelcast, great emphasis is laid on the quality of not only the finished product, but the materials that go into the manufacture of a product as well. As per policy, Nelcast conducts a high precision quality control procedure to check every input material at various intervals. This procedure ensures that Nelcast's products are made with raw materials that are inspected and cleared for production.

In Process Checks

The various stages of manufacturing are closely monitored and controlled in order to produce quality castings.

Liquid metal

- Chemistry of liquid metal checked by spectrometer - cleared by chemical lab.
- Tapping temperature checked by immersion pyrometer- cleared by chemical lab
- Additions of nodulariser & inoculant done- by chemical lab.
- First box pouring temperature checked in every ladle.
- Count down timer set at 540 sec used to avoid fading & low temp.
- Micro coupon poured on last box checked for nodularity for the heat.
- Chill depth checked for grey iron for machinability.
- Mould filling time checked

Mixed sand

- Properties checked every hour: Green compressive strength, gss, compactability, moisture, permeability.
- Properties checked every shift: Loss on ignition, active clay, total clay, dead clay.
- Additional checks are carried out when item being produced is changed.

On mould

- Mould hardness on C-scale is checked every hour (run chart maintained) and for the first mould every item.
- Set up sample verification is done for first mould of every item for the day.
- Core setting checking gauges are used for every mould.

Core making

- Resin additions are audit checked.
- Scratch hardness testing is done on initial run.
- Viscosity of core wash is checked.
- Gauging of cores wherever required is performed.
- Visual inspection of all cores

Final product validation

- There is a defined inspection plan for every item
- Annual layout inspection plan is made & followed
- Hardness checking done for 100% of critical components of pearlitic - ferritic grade nodular iron.
- Dock audit done for every product at least once in a month.
- Non destructive testing is also performed:
- Crack detection using permanent yoke magnet.
- Ultrasonic checking for detection of sub-surface defects

Troubleshooting & Problem Solving

In order to effectively deal with problems, Nelcast uses an approach that involves a Cross-Functional Team comprising members from Quality, Development & Production

Inputs

Raw material for Molten Metal

The most predominant raw materials are metal steel scrap, cast iron scrap, pig iron and Ferroalloys.

A majority of Steel Scrap is sourced at prevailing market prices from vendors based in Chennai, Hyderabad and Bangalore, against periodical requirement schedules. Some of the scrap in the form of metal cuttings and shavings, is obtained directly from manufacturing units in Andhra Pradesh and Tamilnadu.

Process material

For the preparation of moulds and cores which are essential for manufacturing process, material like Sand, Sodium Silicate, Coal dust, Bentonite, mould coats, adhesives like araldite, foundry fluxes Co2 Gas, Amine Gas, Resins and other chemicals are required. River and Silica Sand are sourced locally and Bentonite from Gujarat. Sand carburizers are sourced from northern India. Steel Shots for finishing of cast components are sourced indigenously and at times imported depending on price factors.

The Inoculants for manufacturing SG Iron is sourced from suppliers in Pondicherry and other parts of India. Depending on price factors they are also imported.

Most of the raw materials for melting are available locally.

The details of supplier contribution is given here under:

FY Ended	31 March 2007	31 March 2006	31 March 2005	31 March 2004
Top 3 (%)	40	32	40	36
Top 5 (%)	50	43	53	46
Top 10 (%)	68	53	67	62

All percentages are rounded off to the nearest percentage point.

Consumables

The consumables like ladle and furnace linings, filters, sleeves, physical and chemical lab consumables, coolant oils, drill bits, abrasives and blades, fettling consumables like wedges and hammers, paint shops consumables like thinners and brushes, belts, hoses and cotton wastes are all available in close proximity to the manufacturing units in and around Chennai either from direct manufacturers or through their authorized selling agents.

Equipment

The Company's Critical manufacturing machines like furnaces, ladles, lifts and hoists, moulding machines, core making machines, CNC lathes are sourced from reputed manufacturers in India. Large capacity machines like the Automatic moulding line core making equipments is sourced from Germany. The quality control equipments are sourced from Germany and Switzerland. The made to design plants like sand mixers, electricals, conveyor systems are erected through known contractors in India.

Power

Most of the requirements of the Company is met from power drawn from the Grid at 33KV from the Andhra Pradesh and Tamil Nadu Electricity Boards. The Company uses Diesel Generator Sets at both the factories when required, in emergency. The Company also has installed two wind energy generators at Kavalkinaru, Thirunelveli district, Tamil Nadu which meet a small portion of the power requirements. The Company has efficient electricity transmission systems and is enjoying incentives from the electricity board for efficient use of power.

Unit wise details of the sanctioned load, captive power generation and stand by arrangement is given as under

Unit	Sanctioned load	Captive generation	Stand by arrangement
Gudur	7490 KVA	—	1985 KVA (DG Set)
Ponneri	9460 KVA	820 KW from Wind Energy Generators	1817.50 KVA (DG Set)

Water

The manufacturing process does not involve large quantities of water. The water requirements are met by ground water sources and also from external sources.

Human Resources

One of the greatest strengths of Nelcast is its human resources. The Company follows a policy of participative management at all levels which is the reason why the Company has not lost even one day of production due to labour unrest in all its 21 years of operations. The Company is lead by a professional team at levels right from the Board to the shop floor.

Recruitment policy

The Company's aim is to attract the best available talent and effectively deploy the resources to meet the business requirements. The recruitment sources targeted by the Company include a mix of campus recruitments, referenced applications and recruitment through advertisements and placement agencies.

Training & Development

The Company organizes regular training of employees for upgrading technical and interpersonal skills. All new recruits are inducted through a structured training programme involving technical training by a qualified HR Team and technical team in soft skills. Executive development courses are held for staff with supervisory responsibilities. Managerial employees undergo training for management, development and project management skills. Senior managers are also sponsored for advanced management development programmes in leading training institutions in India.

Employee Evaluation

The Company utilize the employee evaluation as a tool for managing performance planning and motivating, evaluating and enhancing the performance of the employees to achieve the goals. Performance management seeks to establish and maintain an environment that supports the business processes and ensures that employee performance is evaluated against the achievement of objectives aligned to the goals.

Employee Retention and care

The Company endeavours to provide the employees with a challenging work environment aimed at developing their individual potential and providing multiple opportunities for growth and fulfillment.

Property

We have two plants located at Gudur and Ponneri respectively. The built up area of the plant at Gudur is 9873 Square Metres spread over a land area of 9.32 acres while the the plant at Ponneri has a built up area of 10089.92 square metres and is spread over a land area admeasuring 30.69 acres. The building for the corporate office located in Chennai has been taken on lease. The Company has also acquired land measuring around 19 acres for expansion of Gudur Plant during 2006-07.

Support Service Providers

A large number of Heat Treatment, Fettling and Machining service providers are available in the highly industrialized northern part of Chennai and in the Industrial Estate of Gudur cater to the needs of the Company. The Company utilizes their services subject to inspection and regular quality clearance.

Safety, Health and Environmental Measures

Safety

Safety measures and safety training are provided at the plants to mitigate potential hazards. Training on safety is imparted to employees at the time of joining. The Company also conducts refresher courses at regular intervals. Audits on safety measures are also undertaken at defined intervals by competent persons as approved by the Department of Factories.

Health

Welfare and medical facilities are also being provided to the workers. The Company is having an occupation health center with qualified doctor with qualified medical staff. Pro active medical checkups of the employees and of the citizens of the neighbouring villages are carried out at regular intervals.

Environment

Nelcast is economizing the use of resources and minimizing wastage in order that the environment is protected and pollution is limited. Flameless Induction furnaces and dust collectors inside the factory are used to control particulate air pollution. Adequate green belts covering has been provided around the factory. Solid waste is mostly inert and is not of significant quantity. Water is required only for limited purpose of the workers consumption and sanitary needs.

Marketing Arrangements / Tie Up

The Company has been in mainstream casting market since inception. The castings are highly specific components in automotive manufacturing with little scope of interchangeability or substitution. It can neither be substituted by any other item nor it can be manufactured by any another supplier in the market, because each casting is produced according to the specific requirement of the customers, which is taken care of in the designs supplied by them. Hence, the marketing strategy is customer centric.

The Company has a full - fledged marketing team, comprising 18 personnel, operating from the Corporate Office at Chennai with coordinators at each of the plants and also at the premises of each of its customers. The entire customer base is divided amongst the Managers; on a geographical basis The manager is supported by a team of technical personnel and staff members from the factories, who then together coordinate with the customers to assess their requirements.

The Company's strategy is poised towards maintaining a mutually fruitful relationship with its customers by continuous servicing and product refinement. The schedules, design modifications, quality and grade modifications of the castings, as desired by the customers, are looked with utmost care. Periodical supply schedules and pricing revisions are obtained from the customers according to the market demand and costs. Timely adherence and effective redressal of customer grievances has enabled us to maintain a cordial relationship with all our customers.

Swot Analysis

Strengths

Market

- Long presence in the market
- Wide range of products / markets / sectors
- Economies of scale translating to competitive prices
- Machining facilities to deliver ready to use components
- Presence in USA through Subsidiary
- Gained recognition as supplier to Multinational Automotive Companies.

Technology & Innovation

- TS16949 Certification
- Expertise in SG Iron Castings
- Inhouse physical and chemical labs and standardized quality procedures
- Computerized design and development; tools production
- Latest moulding and core making technology

- Automatic Moulding line
- Versatile product range - products from 0.5 kg to 250 kgs
- Well equipped machine shop with CNC machines.
- High capacity for SGI and Grey Iron

Inputs Availability

- Raw material like scrap, pig iron and sand are commoditized and freely available
- Major scrap markets are concentrated around Chennai, Hyderabad and Bangalore which are easily accessible.
- Power provided by the grid instead of inhouse production

Locational

- Location is suited ideally since Chennai is major hub for the Auto industry and port.

Skills

- Retention of skilled expertise.
- Professional management from the Board level to the shop floor level.

Weaknesses

Markets

- Customer design changes - implementation lead time is more
- Existing capacity is less than demand.
- Brand reach is limited due to supply to Original Equipment Manufacturer

Technology

- Higher degree of automation required
- Development time and sunk costs are high for developing new products for customers
- Internal rejections are more due to process deviations.
- Breakdown recovery time for imported machinery interfering with production.

Skills

- Concentration on heavy castings leads to long learning curve for new products particularly smaller castings.
- Shortage of well qualified staff resulting from competition by IT / IES

Financial

- The promoters being first generation entrepreneurs and lack of other group business, influx of funds for long term projects is limited.

Opportunities

Market

- Commercial Vehicle industry is growing fast, spurred by a resurgent, consumption oriented economy, new roads and increasing road freight.
- Tractor Industry is on the upswing with growing emphasis on agriculture
- Export Opportunity due to outsourcing by developed countries

Technology

- SG Iron castings gaining more acceptance
- Newer processes evolving to make SG Iron share properties of steel.

Others

- Government policy supportive, promoting infrastructure and private enterprise, assuring liquidity and stable interest rates
- Good quality power availability.
- Government deregulation is promoting use of foreign technology
- General Economic Growth

Threats

Markets

- HCV and tractor markets are cyclical in nature
- Pricing is closely guarded since customer relationships are long term.
- Competition is also going for expansions. New units are emerging
- Chinese competition in Export markets.
- High demands from local market is limiting exports

Inputs availability

- Scrap markets are subject to price fluctuations.
- Power cost is dependant on government policy.

Quality

- Quality Control on outsourced activities need to be strengthened

Business Strategy

The Company sees a major opportunity in the growing automotive market, comprising both vehicles and auto components, resulting in incremental usage of SG Iron Castings which is a core strength of the Company. There is also an increasing export opportunity as a large number of multinationals are turning to the Asian region due to the cost and environmental concerns in their own countries. The projections for the general Indian economic growth and the government policy on the automotive industry is set to propel this Industry in the near future. The renewed emphasis by Government of India on Agriculture and easy credit for farmers are pushing up the demand for Tractors.

The Company needs to capitalize on the opportunity and aggressively pursue expansion to cater to the growing demand. The Company already has the basic infrastructure in terms of space and the requisite expertise built over the past 21 years. The Company has been continuously expanding and upgrading its products and technology during the past. Executing its expansion plans would not be a problem for the Company even with the existing manpower. The Company has been keeping track of the technological upgradation continuously taking place in the global foundry industry, to cope with intense internal competition and the environmental improvements sought by Governments/ society. The Company aims to continuously upgrade its manufacturing techniques and technology to meet these growing demands and plans to undertake more measures, to meet requirements of closer tolerances, better finish and reduced rejections by customers. The Company plans to expand its existing customer base, improve cost effectiveness, achieve higher operational efficiency and move up the value chain in order to further improve margins, provide value addition to customers, enhance the quality of castings and to exploit export markets.

To Move up the Value Chain

Apart from expanding capacity for castings, the Company's thrust will be making value added components vis-a-vis rough Castings. As of now the Company makes a small percentage of its output as components ready for use, but this proportion needs to be rapidly increased, since the added revenue due to machining and finishing exceeds the incremental cost by a proportion more than the existing margin for castings. The raw casting when machined becomes a ready to use components and be further into sub-assemblies. This not only leads to giving value addition to retain customers but also is a margin accretive business, since the realization on machined products is much higher than the incremental cost associated with it. Currently nearly 10% of total production is machined, and the Company expects the same to be in the range of 20-25% by FY09.

Furthermore the manufacturers in the Auto Industry are asking for Just In Time assembly and are also inclined to distribute most of the sub assembly jobs to reliable Tier I suppliers. This would present an opportunity for the Company and doing these activities inhouse would give better quality and economies of scale. The long standing relationships of the Company with many of the leading Auto manufacturing Companies, would enable it to garner a share in the market for value added components and sub assemblies. Further the Company is expected to have better brand promotion if it evolves into a supplier of components and sub assemblies. The Company plans to upgrade the machine shop inducting trained personnel and state of art machines to effectively meet the demands of the industry.

To Widen Product Range

To reduce excessive dependence on the HCV industry, which is subject to cyclical trends, although less marked in the last few years, the Company needs to diversify and widen its product range towards small castings also to cater to more applications like passenger cars and Light Commercial Vehicles. The Company is already supplying a sizeable portion of castings to the Tractor industry. However further widening of the product base would provide better market presence. For developing a product line the cost and time involved is considerable, hence a dedicated team of personnel and resources needs to be apportioned towards this effort.

To Increase Exports

The Company ultimately would like to be the Preferred Full Service Supplier to OEMs Across the Globe. The Company has already established a presence in the US Market through its subsidiary and has begun supplies to Volvo Sweden through its Tier I supplier Arvin Meritor. The trend needs to be further improved and by 2010 a share of 30% of Exports in the sale is to be aimed. Since the transportation costs and reputational stake involved is high for exports, stringent quality Control needs to be ensured.

To Gain Quality And Environmental Certifications

Further Quality Certifications and environmental certifications like ISO 14001 of international recognition needs to be strived for by the Company.

Improving On R&D

Today our R&D center is equipped with design and analysis capabilities around structural, thermal, vibration & hardness analysis. We are continuously engaged in research and development activities in close association with our customers and have plans to invest in various testing and validation equipments which we will finance out of our internal accruals generated over the next few years. Our teams have started working with both Indian and Global OEMs.. The Company plans to utilize dimensional accuracy provided by modern design and development methods, since correcting quality at the development stage is much easier and cost effective also. We plan to needs to be thoroughly modernized The Development phase using:

The utilization of Magnasoft software for better simulation of complex castings.

Mandatory use of CAD, CAM facilities for pattern and tool making.

The installation of Rapid prototyping and Image Analysing systems.

This would result in components that would satisfy the expectations of the growing Automobile industry.

Better Cost Control And Improved Manufacturing Technology

The existing plant material movement needs to be thoroughly automated by extensively using automatic conveyor belts for movement between processes and of the raw material. The moulding line needs to be further automated by installing an additional Automatic Moulding lines. This would result in faster production cycles as well as higher dimensional accuracy. More core shooters are to be added to remove bottlenecks in manufacturing cores.

Integration Of Multi Disciplinary Operations

Although most of the operations of the Company are computerized on a stand alone basis there is weakness in the integration of the various computerized processes. The integration of multi disciplinary operations need to be carried out at the virtual level by implementing uniform and scalable solutions. Real time information flow needs to be facilitated for fast and accurate decision making. Further efforts need to be made towards involving business associates and partners in the information flow chain.

REGULATIONS AND POLICIES

Apart from the regulations applicable to all industries, there are no special industry - specific regulations applicable to the company.

HISTORY AND CERTAIN CORPORATE MATTERS

Overview

Our Company was incorporated on 7 June, 1982 as Nelcast Private Limited at Nellore, AP under the Companies Act, 1956 vide Registration No. 01-3518. Subsequently, it was converted into a public limited company and the name was changed to Nelcast Limited on 20 September, 1995. The Registered Office of the Company which was originally located at 24/398, Dargamitta, Nellore, was shifted to the present location at 34, Industrial Estate, Gudur 524 101 on 12 July, 1994. We also have a corporate office in Tamil Nadu located at 159, TTK Road, Alwarpet, Chennai.

Promoted by Mr.P.Radhakrishna Reddy, Nelcast is engaged in the manufacture of castings that find application in the Automobile sector such as engine, transmission, suspension, axle, brake, steering, housings etc., farm equipment industry, railways and pipe fitting industries.

The first unit set up in Gudur, AP, with an installed capacity of 1200 MT p a for manufacturing ductile iron parts, commenced commercial production in the year 1985, to serve as an ancillary unit to meet the requirements of Ashok Leyland Ltd. Subsequently, it started to cater to the requirements of farm equipment manufacturers and other heavy commercial vehicle manufacturers like Tata Motors, Mahindra & Mahindra, Tata Cummins, Tafe, to name a few. In less than a decade, the unit was awarded ISO 9002-1994 / EN ISO 9002-1994 Quality certification by the Indian Register Quality Systems, which was valid from 23 August, 1995 to 11 September, 2001

In the year 1996, a new manufacturing unit was established in Ponneri, Tamil Nadu with an installed capacity of 12,000 MT p a, for the manufacture of Grey Iron and Ductile Iron parts, wherein the state-of-the-art machine shop, consisting of CNC and special purpose machines, and the Kunkel Wagner Moulding line were installed. Both the units have a distinct locational advantage of having proximity to the Chennai Port and also being well connected by both the railways and roadways.

In the year 2001, the units were awarded the QS 9000:1998 Quality certification by Underwriters Laboratories Inc., Melville, New York, USA for motor vehicle parts and accessories, which was valid from 10 January, 2001 till 10 January, 2006 and then again ISO/TS 16949:2002 Quality certification for grey and ductile iron foundries, in the year 2005, valid till date. In the year 2003 a subsidiary Nelcast USA Inc. was set up in the USA for managing the marketing, customer care service and coordinating with the overseas clients of Nelcast, particularly those located in the US.

After witnessing three consecutive years of growth by over 50% in turnover (2003, 2004 and 2005), the year 2006 saw the Company's turnover cross Rs.25,000 lakhs and winning the Best Vendor Award from Tafe Limited and also the Outstanding Supplier Award from Eicher Motors Limited.

Today, the combined manufacturing capacity of both the manufacturing units stands at 72,000 MT p a, geared to reach 1,02,000 MT p a by the end of the current financial year. Apart from servicing the domestic requirement, the Company is also exporting to USA, Europe and Australia.

Milestones

Main Objects of the Company

The main objects contained in our Memorandum of Association are:

- To carry on all or any of the business of designing, manufacturing, developing, improving, hiring, repairing, buying, selling dealing in forgings and castings of ferrous and non-ferrous materials and in any weight for any industry whatsoever, including chilled and malleable castings, Ductile Iron, castings; gunmetal castings, steel castings, gunmetal, copper, brass and aluminium castings and foundry work.
- To carry on the business of iron-founders, mechanical engineers manufacturers of machinery and implements, tool makers, brass_founders, metal workers, boiler-workers, mill-wrights, iron and steel converters, smiths, wood workers, pattern-makers, builders, painters, metallurgists, electrical engineers, water-work engineers.
- To carry on business as manufacturers and makers of and dealers in metal, enamel, aluminium, alloys, and any other products, substances, articles and things and to carry on and conduct workshop and foundries of iron, brass and other metals.
- To undertake heat treatment of all varieties of steel.

The main objects clause, the objects incidental or ancillary to the main objects of our Memorandum of Association enable us to undertake our existing activities and the activities for which the funds are being raised through this Issue.

Since incorporation of the Company, the following changes have been made to the authorised capital:

Increase in authorised capital	Date of Amendment

NOTES ON RESTATED ACCOUNTS

1. **Prior year adjustment:**

Prior year adjustment in the audited accounts represent excess or short provision of Taxes of earlier years. Though these adjustments do not involve material amounts in these restated accounts, these amounts were adjusted in the year they relate to.

2. **Adjustments or rectification for failure to make provisions which resulted in Audit Qualification.**

Accounting Standard 22 (AS 22) i.e. Accounting for taxes on income (deferred tax) issued by the Institute of Chartered Accountants of India is applicable from the accounting year starting from 1.4.2001 and mandatory for the Company from the accounting year commencing on 1.4.2002. No provision for such deferred tax liability has been made by the Company for the financial year 2002-03 and the Auditors have made qualification in this regard in their report. However in the next financial year the Company has incorporated the deferred tax liability till 31st March 2003 of Rs.635.74 lakhs by reducing the said amount from reserves. In these restated accounts deferred tax liability till 31.3.2001 and thereafter each year has been worked out considering the current tax rates and necessary adjustments have been made.

3. **Investments:**

Investments in the audited accounts were shown basing on the allotments and intimations. In these restated accounts the said investments were taken to respective years basing on the dates on which the amounts were invested.

4. **Non recurring items:**

The Company derived profit / suffered loss on sale of used fixed assets. Following are the details:

(Amount Rs. In lakhs)

FINANCIAL YEAR	LOSS	PROFIT
2002-03	1.87	—
2003-04	31.03	0.01
2004-05	—	—
2005-06	2.45	—
2006-07	2.26	—

Though such sale is non- recurring, they are not extraordinary in nature.

5. In these restated accounts, the figures from the audited accounts for the respective years, have been regrouped / reclassified wherever required for proper comparison.

ACCOUNTING POLICIES

Fixed Assets	:	All depreciable fixed assets are valued at cost less depreciation. Other fixed assets are taken at cost.
Depreciation	:	Depreciation for the year on fixed assets is provided under the Straight Line method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956.
Inventories	:	<p>Finished goods and stocks-in-process are valued at lower of the cost and net realisable value.</p> <p>Raw materials are taken at cost (under FIFO method) which is either equal to or less than the realisable value.</p> <p>Moulding boxes and patterns are valued at lower of cost (estimated) and net realisable value.</p>
Foreign Currency Transactions	:	Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Current assets and current liabilities are translated at the year end rate. The difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of current assets and current liabilities at the end of the year is recognised as income or expense as the case may be.
Retirement Benefits	:	Liabilities for gratuity to all employees and for superannuation to the eligible employees are determined in accordance with the schemes administered by Life Insurance Corporation of India and contributions payable under the said schemes are charged to revenue. Liability for leave encashment is provided on actuarial basis.
Borrowing Costs	:	The Company capitalizes interest and other costs incurred by it in connection with funds borrowed for the acquisition of fixed assets. Where specific borrowings are identified to a fixed asset, the Company uses the interest rates applicable to that specific borrowing as the capitalisation rate. Where borrowings cannot be specifically identified to fixed assets, the capitalisation rate applied is the weighted average of the interest rates applicable to all borrowings of the Company. Capitalisation of borrowing costs ceases when all the activities necessary to prepare the fixed assets for their intended use are substantially complete.
Investments	:	Investments, which are Long-term in nature, are stated at cost after providing for decline in value, if any, other than temporary.
Leases	:	Leases, where the Lessor retains substantially all the risks and rewards incidental to the ownership are classified as operating leases. Operating lease payments are recognised as an expense in Profit & Loss Account on straight-line basis over the lease term.

- Term Loans from Punjab National Bank and Industrial Development Bank of India are secured by equitable mortgage of land, building and hypothecation of plant and machinery, both present and future, ranking pari passu in charge among themselves. The said loans are further guaranteed by personal guarantee of the Deputy Chairman.
- Working Capital Loan from State Bank of India is fully secured by hypothecation of raw materials, stocks in process, finished goods, stores and book debts and second charge on fixed assets. The said loan is further guaranteed by personal guarantee of two Directors of the Company including the Deputy Chairman.

NELCAST USA INC.- NOTES TO FINANCIAL STATEMENTS

INCORPORATION AND NATURE OF BUSINESS

NELCAST USA INC. (the "Company") was incorporated on January 15, 2003 and is a wholly owned subsidiary of Nelcast, Ltd., a corporation formed and operating in India as a designer, manufacturer and distributor of casting, primarily for the transportation industry. The Company conducts marketing and customer relationship management on behalf of the parent company to customers in the United States, Europe and Australia. Sales of merchandise are to one customer and began during the year ended March 31, 2006. The Company's main sources of financing were payments received from the parent company as reimbursement for expenses incurred.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash:

For the purpose of the statement of cash flows, the Company considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. There were no cash equivalents at March 31, 2007 and 2006.

The Company maintains its cash accounts in what it believes are highly-quality banks. Nevertheless, there may be exposure where balances exceed federally insured limits.

Accounts Receivable:

The Company extends unsecured credit to its customer from sales in the normal course of business and mitigates the associated credit risk by performing credit checks on the customer. Management reviews the customer's receivables and writes off or provides an allowance, based on their knowledge of the customer and historical experience, for those amounts that it considers may be uncollectible. Management considers all accounts receivable at March 31, 2007 to be fully collectible and, no allowance for doubtful accounts is required. The actual amount of uncollectible receivables may differ from that estimated by management.

Inventories:

Inventories, which consist of merchandise held for sale, are valued at the lower of specific cost or market.

Property, Equipment and Depreciation:

Property and equipment are stated at cost. Depreciation is provided by the use of the straight-line method over the estimated useful lives of the assets.

Reimbursement from Parent:

Every month, the Company provides its parent with statements of expenses incurred and the parent remits to the Company a reimbursement based on the information submitted. The Company records the reimbursement on an accrual basis.

Revenue Recognition:

Sales are recorded when merchandise is shipped to the customer.

Concentration Of Risk And Related Party Transactions

The Company's operations are dependent upon the continued financial support of its Parent. All of the Company's inventories are purchased from its Parent.

During 2006, the Company's president loaned the Company \$10,000 (Rs. 4,35,900 at 1 USD = Rs.43.59) which was repaid during 2007 with interest at 12%.

Operating Leases

The Company rents its facilities under a lease which expires on January 31, 2008 at a monthly rental of \$980 (Rs.42,718 at 1 USD = Rs.43.59), which provides for a base rent plus the cost of miscellaneous operating expenses and real estate taxes. The Company also leases an Automobile under a lease with a monthly rental of \$1,254 (Rs. 54,662 at 1 USD = Rs.43.59) which expires in November 2007.

Income Taxes

As of March 31, 2007 the Company has net operating loss carryforward for federal income tax purposes of approximately \$8,000 (Rs.3,48,720 at 1 USD = Rs.43.59) which expires through 2018.

Employment Agreement

The company has an employment agreement with its president through 2008 at a base salary of \$288,000.(Rs. 1,25,53,920 at 1 USD = Rs.43.59).

Please read the following discussion of our financial conditions and results of operations together with our audited financial statements for the years ended 31 March, 2003, 2004, 2005, 2006 and 2007 including the notes thereto and the reports thereon, which are appearing under the head 'Financial Information' on page no.81 in this Red Herring Prospectus. These financial statements are prepared in accordance with Indian GAAP, the Companies Act and the SEBI Guidelines and restated as described in the Auditor's Report of M/s.J.B.Reddy & Co., Chartered Accountants in the section titled "Financial Information". Our past financial performance may not be considered as indicative of future financial performance.

Business Overview

Our Company was founded in 1982, by Mr.P.Radhakrishna.Reddy, a Metallurgical Engineer from Regional Engineering College, Nagpur. Nelcast Limited established its first factory in 1985 as a small plant in Gudur with an installed capacity of 1200 MT pa. Mr.P.Radhakrishna.Reddy did not possess any previous experience in Industry, but his talent and commitment have resulted in the Company becoming one of the large producers of Iron Castings in India. Today, it is a 893 people strong Company with an installed capacity of inching towards 102,000 MT p.a. operating at Gudur in Andhra Pradesh and Ponneri in Tamil Nadu. Our Company is a TS 16949 accredited organization and manufactures around 200 items in SG and Grey Iron. Our products cover a wide range such as Engine blocks, Flywheel Housings, Flywheels, Manifolds, Transmission Cases, Clutch Housings, Axle Housings, Hubs, Brake drums Suspension Shackles and Brackets, Steering Gear parts etc., which meet the requirements of the automotive, tractor and pipe fittings industry, weighing as low as 0.5 kg and up to 250 kgs. TATA Motors, Ashok Leyland, Eicher Motors, Tafe, M & M, TATA Cummins, Automotive Axles, AIL, Rane, ZF are some of our prominent customers. The plants at Gudur and Ponneri, have distinct locational advantages, having proximity to the Chennai Port and being well connected by both rail and road. Apart from servicing the domestic requirement, the Company is also exporting to USA, Europe and Australia and is steadily increasing its exports.

Significant Developments Subsequent to the Last Financial Year

The Directors of our Company confirm that in their opinion, no circumstances have arisen since the date of the last financial statements as disclosed in the Prospectus, which materially and adversely affects or is likely to affect our business or profitability, or value of our assets, or our ability to meet our liabilities within the next twelve months.

Discussion on Results of Operations

The following discussion on the financial operations and performance should be read in conjunction with the audited unconsolidated financial results of the Company for the years ended 31 March 2004, 2005, 2006 and 2007.

Factors that may affect the Results of Our Operations

- Increase in the prices of raw materials both in the domestic and international markets
- Availability of High Tension Power and its costs.
- Slowdown in the growth of Indian economy and in particular, that of the Automobile and Auto-components industries.
- Inadequate Monsoons, which may affect the Tractor industry.
- Changes in buying patterns of some of our key customers.
- Unhealthy competition in the foundry industry.
- Our Company's ability to successfully implement our manufacturing and marketing strategy and growth and expansion plans.
- Changes in tax structure of income tax, sales tax, entry tax, etc..

Review of operations:

Our Company has achieved a steady growth in sales , Profit Before and After Tax. Power saving and other cost reduction initiatives taken by our company were implemented optimally which resulted in the reduction of power and fuel costs, administrative, selling and distribution expenses as a % to Net Sales. As depicted in the table above, the price realisation per tonne has increased resulting in higher profit margins. Though there is an increase in the consumption of Raw Materials, the same is not in proportion to the increase in sales. All these factors contributed for the increase in Profit margins.

Comparison of Performance and Analysis for the Financial Year (FY) ended 31 March, 2006 vis-à-vis 31 March, 2007

Sales Revenues: Total sales for FY07 was Rs.35,010.00 Lakhs as compared to Rs.27,032.01 Lakhs for FY06; a rise of 29.51%. The production during FY07 was 65,566 MT as against 53,585 MT during FY06; an increase of 22.36%. Growth in total sales is attributed to general growth in automobile industry and agro-based industry.

Raw Materials and Goods Consumed: The Raw Material consumption for the FY07 was Rs. 16,696.65 Lakhs as against Rs. 13,743.31 Lakhs for the FY06. Though there is an increase in consumption of Raw Materials in terms of value, the consumption as a % to Net Sales has been decreased from 58.16% to 54.60% from FY06 to FY07 respectively. This decrease is due to leveling off of raw material prices, a better mix of products and increased machining activity.

Power Cost: Power cost as a percentage of Net Sales has comedown to 12.44% in FY07 as compared to that of 14.53% in FY06. The reduction of power cost is mainly due to better utilisation and power cost reduction measures. This being the major manufacturing cost next to raw materials, a saving in this aspect has resulted in the increased profit margins.

Other Manufacturing Expenses: Other manufacturing expenses during FY07 totalled to Rs.2,745.01 Lakhs as compared to Rs. 2,117.92 Lakhs in FY06; which as a % to Net Sales is 8.98 % for FY07 and 8.96 % for FY06 respectively thereby remaining at same levels.

Administrative, Selling & Distribution Expenses : During FY07 the administration selling & distribution expenses were Rs. 1,684.51 Lakhs whereas it was Rs. 1,423.56 Lakhs during FY06. As a % to Net Sales it is 5.51% and 6.02% respectively. The decrease of 0.51% in Administrative, Selling & Distribution Costs can be attributed to streamlining of activities.

Staff Costs : The Company's staff costs in FY07 is Rs.1,183.01 lakhs i.e. 3.87% of Net Sales as against Rs.842.55 lakhs i.e. 3.57% of Net Sales in FY06 thereby resulting in a marginal increase.

Interest Cost : During the period Company's interest cost decreased by Rs.20.53 Lakhs, which was due to reorganization of the loan portfolio seeking competitive interest rates.

Depreciation : Depreciation has increased by 14.95% in FY07 when compared to FY06 i.e. from Rs. 400.26 lakhs in FY06 to Rs. 460.07 lakhs in FY 07 which is primarily due to additional fixed assets installed during the FY07.

Profit Before Tax (PBT) : During FY07 PBT and extraordinary items together totalled to Rs.3,011.40 lakhs as against Rs.1,043.63 lakhs during FY06, an increase of 188.47%. The increase is mainly due to leveling off of raw material costs, better product mix and more efficient operations.

Profit After Tax (PAT) : PAT for FY07 increased by 182% to Rs. 1,977.11 Lakhs from Rs. 702.24 lakhs in FY06. This increase in profitability can be attributed to reduction in power costs and increased sales realisation.

Comparison of Performance and Analysis for the Financial Year (FY) ended 31 March, 2005 vis-à-vis 31 March, 2006

Sales Revenues : Total sales for FY06 was Rs. 27,032.01 Lakhs as compared to Rs. 24086.58 Lakhs for FY05; a rise of 12.23%. The production during FY06 was 53,585 MT as against 48,228 MT during FY05; an increase of 11.10%. Growth in total sales is attributed to steady growth of the Commercial Vehicle and Tractor sector driven by the overall industrial growth, good monsoons and easier credit on softer terms.

Raw Materials and Goods Consumed : In the FY 05, the value of materials consumed was Rs.12775.76 Lakhs which increased to Rs. 13743.31 Lakhs (i.e. by 7.57%) during FY06 against an increase in production by 11.10%. The proportionate cost of raw materials to sales came down from 60.75% in FY05 to 58.16% in FY06 due to leveling off of raw material prices and a better mix of products and increased machining activity.

Power Cost: Power cost as a percentage of net sales has remained almost constant in FY05 and FY06 though the actuals rose to Rs.3433.67 lakhs in FY06 as compared to Rs. 3110.95 lakhs in FY05.

Other Manufacturing Expenses: Other manufacturing expenses during FY06 totalled to Rs. 2117.92 Lakhs as compared to Rs. 1629.90 Lakhs in FY05. The percentage to net sales increased to 8.96 % in FY06 from 7.75 % in FY05 due to increase in machining cost as a result of the increase of machined components in the sales.

Administrative, Selling & Distribution Expenses : During FY06 the administration selling & distribution expenses were Rs. 1423.56 Lakhs whereas it was Rs. 1259.01 Lakhs during FY05; The proportionate administrative, selling and distribution expenses to Net sales has increased to 6.02% for the FY 06 from 5.99% for the FY 05. This marginal increase is due to increased sales volume and increase in distribution expenses.

Staff Costs : The Company's staff costs in FY06 is Rs.842.55 lakhs i.e. 3.57% of Net Sales as against Rs.651.94 lakhs i.e. 3.10% of Net Sales in FY05 thereby resulting in a marginal increase.

Interest Cost : During the period Company's interest cost decreased by Rs.130.76 Lakhs, which was due to reorganization of the loan portfolio seeking competitive interest rates.

Depreciation : Depreciation has increased by 13.33% in FY06 i.e. from Rs. 353.18 lakhs in FY05 to Rs. 400.26 lakhs, primarily due to additional fixed assets installed during the FY06.

Profit Before Tax (PBT) : During FY06 PBT and extraordinary items together totalled to Rs.1043.63 lakhs as against Rs.753.66 lakhs during FY05, an increase of 38.47%. The increase is mainly due to leveling off of raw material costs, better product mix and more efficient operations.

Profit After Tax (PAT) : PAT for FY06 increased by 32.75% to Rs. 702.24 Lakhs from Rs. 529 Lakhs in FY05, following PBT and tax liability.

Comparison of Performance and Analysis for the Financial Year ended 31 March 2004 vis-à-vis 31 March 2005

Sales Revenues : Total sales for the FY05 was Rs. 24,086.58 Lakhs as compared to Rs. 15,241.59 Lakhs for FY04, a rise of 58.03% over previous fiscal. The production during the FY05 was 48,228 MT as against 36,050 MT during the previous year. The production capacity increased in FY05, from 48,000 MT p a of FY04 to 60,000 MT p a. The marked growth in total sales during FY05 is attributed to the Indian Automobile Industry, posting a record growth of 31% inspite of poor monsoons and also to the timely increase in the production capacity of the Company. The per ton realization increased from Rs. 36,428 to Rs.43,693 in FY05 due to support from customers in response to the increase in raw material costs in FY05.

Raw Materials Consumed: The materials consumed in FY04 were worth Rs.7,154.07 Lakhs, which increased to Rs. 12,775.76 Lakhs in FY05. Raw material prices saw a dramatic increase during FY05 increasing the percentage of raw material costs to sales from 53.93 % in FY04 to 60.75% in FY05.

Power and Fuel: The Power cost for the FY05 is Rs. 3,110.95 lakhs i.e. 3.10% of Net Sales as against Rs. 2,455.70 lakhs i.e. 3.98% of Net Sales in FY04. The reduction is due to better power utilisation and power cost reduction measures, which also contributed for the cost per tonne of production reduce from Rs.6,812.12 to 6,450.64, a decrease of 5.31%.

Other Manufacturing Expenses: Other manufacturing expenses during FY05 totalled to Rs. 1,629.90 lakhs i.e. 7.75% of Net Sales as compared to Rs.1,176.49 lakhs i.e. 8.87% of Net Sales in FY04, resulting in marginal saving of costs.

Administrative, Selling & Distribution Expenses : During FY05 the administration selling & distribution expenses were Rs.1259.01 lakhs i.e. 5.99% of Net Sales as compared to Rs. 828.52 lakhs i.e. 6.25% of Net Sales in FY04 resulting in marginal reduction on account of increased sales volume.

Staff Costs : The Company's staff costs for FY05 is Rs. 651.94 lakhs i.e 3.10 % of Net Sales as against Rs. 528.37 lakhs i.e. 3.98 % of Net Sales in FY04 resulting in marginal saving of costs.

Interest Costs : In FY05 interest costs increased by Rs.52.43 Lakhs, up by 6.21%, due to increase in working capital arising from higher business volumes.

Depreciation : Depreciation increased from Rs.331.21 lakhs in FY04 to Rs.353.18 lakhs in FY05 i.e. by 6.63%, due to fixed assets added during the year.

Profit Before Tax (PBT) : For FY05 PBT together with extraordinary items totaled to Rs.753.66 lakhs as against Rs.462.15 lakhs in FY04. The major contributors to this increase of 63.07% in profits, was higher sales realisation off setting increase in raw material costs.

Profit After Tax (PAT) : PAT for FY05 period increased by 115.65% over Rs.529 Lakhs for FY04 following the PBT increase as aforesaid.

Risk and Concerns

Our Company expects business risk in terms of fluctuations in customer demand for quantity and delivery terms, as well as increased competition. Other domestic foundries are expanding and new ones are emerging. Chinese casting manufacturers are competitors in the international market. The Company expects increased competition but is relying on an established and expanding capacity and a sound reputation.

The current order book position is strong but it depends on continued growth in the Automobile and Tractor sectors. The HCV sector is prone to cyclic trends and the Tractor market is dependant on good monsoons. On the other hand the Indian economy is strong and the signs are in favour of continued growth spurring demand. Meanwhile, credit availability for vehicles and tractors is adequate and not expensive encouraging buyers.

Liquidity and Capital Resources

The Company is dependent on both internal and external sources for working capital and capital requirements. We have funded our working capital and capital expenditure from internally generated funds and debt financing. In respect of the debt funding of working capital we make use of cash credit limits from banks and for capital expenditure we resort to debt financing, generally long-term borrowings in the form of term loans. However the continued expansion in capacity during FY05 and FY06 has been largely funded from internal accruals.

Secured and unsecured loan position

The Company uses secured loans from IDBI and Punjab National Bank, at competitive interest rates, for its long-term projects. The secured loans outstanding as on 31 March, 2007 is Rs.6021.51 lakhs and unsecured loans is 1326.96 lakhs. The unsecured loans comprise mostly public deposits and Interest free Sales tax loans provided by the Governments of Tamilnadu and Andhra Pradesh.

Cash flows

Following table summarises our restated cash flow statements in the last four financial years ended 31st March.

Cash Flow (Rs. in lakhs)	31.03.2007	31.03.2006	31.03.2005	31.03.2004
Net cash from operating activities	2658.93	2154.61	579.73	696.46
Net cash from Investing activities	(1699.55)	(1002.58)	(721.86)	(66.71)
Net cash from financing Activities	(1002.56)	(1104.03)	144.94	(631.18)
Net increase in cash and cash equivalents	(43.18)	48.00	2.81	(1.43)
Opening cash and cash equivalents	76.61	28.61	25.80	27.23
Closing cash and cash equivalents	33.43	76.61	28.61	25.80

Net Cash from Operating Activities

The cash flow from operating activities has shown an increase since FY04, due to increased profitability of operations..

Net Cash from Investing Activities

The Company has been increasing capacity by adding new assets and replacing old equipment. This has resulted in the consistent outflow of funds towards investment.

Net cash from Financing Activities

In the year FY05 there has been an inflow from financing activities due to additional loan financing towards capacity expansion to meet the growing demand. The outflow in other years is mainly towards meeting the interest commitment and the dividend payment.

Information Required As Per Clause 6.10.5.5 of SEBI Guidelines

Unusual or Infrequent Events or Transactions

There are no unusual or infrequent events or transactions having significant impact on the operations of the Company

Significant Economic Changes that Materially Affected or Are Likely to Affect Income from Continuing Operations

There are no significant economic changes that materially affected or likely to affect income from existing operations

Known Trends Or Uncertainties That Have Had or Are Expected to Have a Material Adverse Impact On Sales, Revenue or Income From Continuing Operations.

Other than general uncertainty in the macro economic growth, and unexpected fluctuations in input prices, the Company does not expect any known trends or uncertainties to adversely impact sales, revenues or income to affect its operations.

Future Relationship Between Costs And Revenues

The Company does not anticipate any unfavourable change in the near future that may have a materially adverse impact on business. Company expects that, as in the past, product prices will reflect movements in raw material price and other costs.

Extent to which material increases in net sales or revenues are due to increased sales volume, introduction of new products or services or increased sales prices.

The material increases in net sales has been mainly due to increased sales volume and better sales realisation.

New Products or Business Segments

The Company has presently no plan for new products or business segments. It is however progressively increasing the proportion of machined castings in its output to move up the value chain and strengthen the margins. Similarly, the Company is steadily increasing its export commitments.

Seasonality of Business

Our Company products are mainly supplied to Automobile and Tractor industry. The Automobile industry follows a cyclical trend of around 5 years; though not very clearly defined, but is conditioned by the overall economic growth in the country. The Tractor industry also follows a cyclical pattern, but is largely influenced by monsoons, credit availability and Government policies on agriculture. Our Company's revenues are dependent on the Automobile industry and the Tractor industry.

SECTION VII - ISSUE RELATED INFORMATION

TERMS OF THE ISSUE

The Equity Shares being offered are subject to the provisions of the Companies Act, the Memorandum and Articles of Association of the Company (the Constitutional Documents), conditions of RBI approval, the terms of the RHP, Bid-cum-Application Form, the Revision Form, CAN and other terms and conditions as may be incorporated in the Allotment Advice, and other documents/certificates that may be executed in respect of the Issue. The Equity Shares shall also be subject to laws as applicable, guidelines, notifications and regulations relating to the issue of capital and listing and trading of securities issued from time to time by SEBI, the Government of India, Stock Exchanges, RBI, RoC and/or other authorities, as in force on the date of the Issue and to the extent applicable.

Ranking of Equity Shares

The Equity Shares being offered shall be subject to the provisions of the Constitutional Documents and shall rank *pari passu* in all respects with the existing Equity Shares of the Company including rights in respect of receiving dividends. The persons in receipt of allotment will be entitled to dividend or other benefits, if any, declared by our Company after the date of allotment.

Mode of payment of dividend

The declaration and payment of dividends will be recommended by our Board of Directors and our shareholders, in their discretion, and will depend on a number of factors, including but not limited to our earnings, capital requirements and overall financial condition.

Face Value and Issue Price

The Equity Shares with a face value of Rs. 10/- each are being offered in terms of the Red Herring Prospectus at a total price of Rs. [●] per Equity Share. At any given point of time there shall be only one denomination for the Equity Shares of the Company, subject to applicable laws.

The face value of the shares is Rs. 10/- and the Floor Price is 19.5 times of the face value and the Cap Price is 21.9 times of the face value.

Compliance with SEBI Guidelines

The Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Equity Shareholder

Subject to applicable laws, the Equity Shareholders shall have the following rights:

- Right to receive dividend, if declared.
- Right to attend general meetings and exercise voting powers, unless prohibited by law.
- Right to vote on a poll either in person or by proxy
- Right to receive offer for rights shares and be allotted bonus shares, if announced
- Right of free transferability
- Right to receive surplus on liquidation
- Such other rights, as may be available to a shareholder of a listed Company under the Companies Act and Memorandum and Articles of Association of the Company

For a detailed description of the main provisions of our Articles of Association dealing, among other things, with voting rights, dividend, forfeiture and lien, transfer and transmission and/or consolidation/splitting see the section titled “Main Provisions of the Articles of Association of the Company” on page no. 171 of this Red Herring Prospectus.

Market Lot and Trading Lot

In terms of Section 68B of the Companies Act, the Equity Shares shall be allotted only in dematerialized form. As per the existing SEBI Guidelines, the trading in the Equity Shares shall only be in dematerialized form for all investors. Since trading of our Equity Shares is in dematerialized form, the tradable lot is one Equity Share. Allocation and Allotment of Equity Shares through this Issue will be done only in electronic form in multiples of one Equity Share subject to a minimum Allotment of 30 Equity Shares to the successful Bidders.

Jurisdiction of Courts

Any dispute arising out of this issue will be subject to the jurisdiction of appropriate court (s) in Hyderabad, India.

Nomination Facility to the Investor

In accordance with Section 109A of the Companies Act, the sole or first Bidder, along with other joint Bidder may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, in the event of death of all the Bidders, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, becoming entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 109A of the Companies Act, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his/her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of the Company and the Registrars and transfer agents of the Company.

In accordance with Section 109B of the Companies Act, any person who becomes a nominee by virtue of the provisions of Section 109A of the Companies Act, shall upon the production of such evidence as may be required by the Board, elect either : -

- a) To register himself or herself as the holder of the Equity Shares; or
- b) To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to elect/choose either to register himself or herself or to transfer the Equity Shares, and if the notice is not complied within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue will be made only in dematerialized mode, there is no need to make a separate nomination with the Company. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant

Minimum Subscription

If the Company does not receive the minimum subscription of 90% of the issue to public including devolvment of Underwriters within 60 days from the date of closure of the issue, the Company shall forthwith refund the entire subscription amount received. If there is a delay beyond 8 days after the Company becomes liable to pay the amount, the Company shall pay interest prescribed under Section 73 of the Companies Act, 1956.

Further in terms of Clause 2.2.2A of the SEBI Guidelines, we shall ensure that the number of prospective allottees to whom Equity Shares will be allotted will not be less than 1,000.

Application to the Issue

Equity Shares being issued through this Red Herring Prospectus can be applied for in the dematerialized form only.

Withdrawal of the Issue

Our Company, in consultation with the BRLM, reserves the right not to proceed with the Issue anytime after the Bid/ Issue Opening Date without assigning any reason thereof.

Arrangements for Disposal of Odd Lots

The Company's shares will be traded in dematerialized form only and therefore the marketable lot is one share. Therefore there is no possibility of odd lots.

Note: The BRLMs and Syndicate Members shall not be entitled to subscribe to this Issue in any manner except towards fulfilling their underwriting obligation. However, associates and affiliates of the BRLMs and Syndicate Members may subscribe for Equity Shares in the Issue, including in the QIB Portion and Non-Institutional Portion where the allocation is on a proportionate basis.

Bidders are advised to ensure that any single Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under the relevant regulations or statutory guidelines.

Application by Mutual Funds

As per the current regulations, the following restrictions are applicable for investments by mutual funds:

Under the SEBI Guidelines 5% of the QIB portion i.e., 1,08,750 Equity shares shall be available for allocation on a proportionate basis for Mutual funds.

An eligible Bid by a Mutual Fund shall first be considered for allocation proportionately in the Mutual Fund portion. In the event that the demand is greater than 1,08,750 Equity Shares, allocation shall be made to Mutual Funds proportionately, to the extent of the Mutual Fund portion. The remaining demand by the Mutual Funds shall, as part of the aggregate demand by QIBs, be available for allocation proportionately out of the remainder of the QIB portion, after excluding the allocation in the Mutual Fund portion.

No mutual fund scheme shall invest more than 10% of its net asset value in the Equity Shares or equity related instruments of any company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds.

No mutual fund under its scheme should own more than 10% of any company's paid-up capital carrying voting rights. These limits would have to be adhered to by the Mutual Funds for investment in the Equity Shares.

In case of a Mutual Fund, a separate bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple bids provided that the bids clearly indicate the scheme concerned for which the bid has been made. The applications made by the asset management companies or custodians of mutual fund shall clearly indicate the name of the concerned scheme for which the application is being made.

Application by NRIs

Bid cum Application forms have been made available for NRIs at the corporate office of the Company or Registrar to the Issue or Syndicate Member.

NRI applicants may please note that only such applications as are accompanied by payment in free foreign exchange shall be considered for allotment under the NRI category. The NRIs who intend to make payment through Non-Resident Ordinary (NRO) Account shall use the form meant for Resident Indians (white in colour.).

Application by FIIs

As per current regulations, the following restrictions are applicable for investment by FIIs:

No single FII can hold more than 10% of the post-issue paid-up capital of the Company. In respect of an FII investing in the Equity Shares of the Company on behalf of its sub-accounts, the investment on behalf of each sub-account shall not exceed 10% of the total issued capital or 5% of the total issued capital of the Company, in case such sub-account is a foreign corporate or an individual.

As of now, the aggregate FII holding in the Company cannot exceed 24% of the total issued capital of the Company. With the approval of the Board of Directors and the shareholders by way of a special resolution, the aggregate FII holding can go up to 100%. However, as on this date no such resolution has been recommended to the shareholders of the Company for adoption.

In terms of the Regulation 15A (1) of the Securities and Exchange Board of India (Foreign Institutional Investors) Regulations, 1995, as amended an Foreign Institutional Investor or sub-account ("FIIs) may issue, deal in or hold, off-shore derivative instruments such as Participatory Notes, Equity Linked Notes or any other similar instruments against underlying securities listed or proposed to be listed in any stock exchange in India only in favour of those entities which are regulated by any relevant regulatory authorities in the countries of their incorporation or establishment subject to compliance of 'know your client' requirements. An FII or sub-account shall also ensure that no further downstream issue or transfer of any instrument referred to hereinabove is made to any person other than a regulated entity.

Bids by NRIs or FIIs on Repatriation Basis

Bids and revision to bids must be made:

- On the bid cum application form or Revision Form, as applicable, (Blue in colour), and completed in full in BLOCK LETTERS in ENGLISH in accordance with the instructions contained therein.
- In a single or joint names (not more than three).
- Bids by NRIs for a Bid amount of up to or less than Rs 1,00,000 would be considered under the Retail Individual Bidders Portion for the purposes of allocation and Bids for a Bid amount of more than Rs. 1,00,000 would be considered under Non-Institutional Bidder Portion for the purposes of allocation; by FIIs or Foreign Venture Capital Fund, Multilateral and Bilateral Development Financial Institutions for a minimum of such number of Equity shares and in multiples of 30 Equity Shares thereafter so that the Bid amount exceeds Rs. 1,00,000. For further details please refer to the sub-section titled "Maximum and Minimum Bid size" on page no. 152 of the RHP.
- In the names of individuals or in the names of FIIs or in the names of Foreign Venture Capital Fund, Multilateral and Bilateral Financial Institutions but not in the names minors, firms or partnerships, foreign nationals or their nominees or OCBs.
- Refunds, dividends and other distributions, if any, will be payable in India Rupees only and net of bank charges and / or commission, in case of Bidders who remit money payable upon submission of the Bid cum Application Form or Revision form through INR drafts purchased abroad, such payments in INR will be converted into USD or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and will be dispatched by the space provided for this purpose in the Bid Cum Application Form. The Company will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

As per the current regulations, the following restrictions are applicable for SEBI registered Venture Capital Funds and Foreign Venture Capital Investors:

The SEBI (Venture Capital Funds) Regulations, 1996 and the SEBI (Foreign Venture Capital Investors) Regulations 2000, prescribe investment restrictions on venture capital funds and foreign venture capital investors registered with SEBI. Accordingly, the holding by any individual venture capital fund or foreign venture capital investor registered with SEBI should not exceed 25 % of the Company's paid-up capital. The aggregate holdings of venture capital funds and foreign venture capital investors registered with SEBI could, however, go up to 100 % of the Company's paid-up equity capital.

The above information is given for the benefit of the Bidders. The Company and the BRLMs are not liable for any amendments or modifications or changes in applicable laws or regulations, which may happen after the date of the RHP. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares bid for do not exceed the applicable limits under laws or regulations.

Maximum and Minimum Bid Size

For Retail Individual Bidders

The Bid must be for a minimum of 30 Equity Shares and in multiples of 30 Equity Shares thereafter, subject to maximum Bid amount of Rs. 1,00,000/-. In case of revision of Bids, the Retail bidders have to ensure that the Bid amount does not exceed Rs. 1,00,000/-. In case the maximum Bid amount is more than Rs. 1,00,000/- due to revision of the Bid or revision of the Price Band or on exercise of the option, then the same would be considered for allocation under the Non-Institutional Bidders category. The cut-off option is an option available only to the Retail Individual Bidders indicating their agreement to bid and purchase the Equity Shares at the final issue price as determined at the end of the Book Building process.

For Non-Institutional Bidders and QIBs Bidders

The Bid must be for a minimum of such number of Equity Shares, so as to ensure that the minimum Bid amount exceeds Rs.1,00,000/-. Above this minimum Bid Amount, the Bid should be in multiples of 30 Equity Shares. A Bid cannot be submitted for more than the size of the Issue. However, the maximum Bid by a QIB should not exceed the investment limits prescribed for them by the regulatory or statutory authorities governing them. **Under the existing SEBI guidelines a QIB Bidder cannot withdraw its Bid after the Bid/Issue Closing Date.**

In case of revision in Bids, the Non-Institutional Bidders who are individuals have to ensure that the Bid Amount is greater than Rs. 1,00,000/-. In case the Bid Amount reduces to Rs 1,00,000/- or less due to a revision in Bids or revision of the Price Band, the same would be considered for allocation under Retail portion.

Non-Institutional Bidders and QIB Bidders are not allowed to Bid at Cut-Off Price.

Bidders are advised to ensure that any single Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

Right to Reject Bids

In case of QIB bidders, our Company, in consultation with the BRLMs / Syndicate Members may reject bids at the time of submission of the bid provided that the reasons for rejecting the same shall be provided for such bidder in writing. In case of Non Institutional Bidders and Retail Individual Bidders who bid, the Company has the right to reject bids only on technical grounds. Consequent refunds shall be made as set out in ‘Letter of Allotment or refund’ and “Mode of making refunds” on page 166 of the RHP.

Information for the Bidders

- (a) Our Company will file the Red Herring Prospectus with the RoC, AP at least three days before the Bid/ Issue Opening Date.
- (b) The members of the Syndicate will circulate copies of the Red Herring Prospectus along with the Bid-cum-Application Form to potential investors.
- (c) Any investor (who is eligible to invest in the Equity Shares of the Company) who would like to obtain the Red Herring Prospectus and/ or the Bid-cum-Application Form can obtain the same from the corporate office of the Company or from any of the BRLMs or Syndicate Members.
- (d) The Bids should be submitted on the prescribed Bid-cum-Application Form only. Bid-cum-Application Forms should bear the stamp of the members of the Syndicate. Bid-cum-Application Forms, which do not bear the stamp of the members of the Syndicate, will be rejected.
- (e) Investors who are interested in subscribing to our Company’s Equity Shares should approach the BRLMs or Syndicate Members or their authorised agent(s) to register their Bid.

Method & Process of Bidding

- a) The Company and the BRLMs shall declare the Bid/Issue Opening Date, Bid/Issue Closing Date at the time of filing the Red Herring Prospectus with RoC, AP and publish the same in two widely circulated newspapers (one each in English and Hindi) and a regional language newspaper circulated at the place where the registered office of the Company is situated. This advertisement shall be in the format and contain the disclosures specified in Part A of Schedule XX-A of the SEBI Guidelines. The BRLMs and Syndicate Members shall accept Bids from the Bidders during the Issue Period in accordance with the terms of the Syndicate Agreement.

- b) Investors who are interested in subscribing for our Company's Equity Shares should approach any of the BRLMs or Syndicate Member or their authorised agent(s) to register their Bid.
- c) The Bidding Period shall be open for atleast 3 working days and not more than 7 working days. In case the price band is revised, the revised price band will be published in two widely circulated newspapers (one each in English and Hindi) and a regional language newspaper circulated at the place where the registered office of the Company is situated and the Bidding period will be extended for a further period of three working days, subject to the total Bidding period not exceeding 10 working days. During the bidding period, the Bidders may approach the Syndicate to submit their Bid. Every Member of the Syndicate shall accept Bids from all clients/investors who place orders through them and shall have the right to vet the bids.
- d) Each Bid-cum-Application Form will give the Bidder the choice to bid for up to three optional prices (for details refer to the paragraph entitled "Bids at Different Price Levels" on page no. 153 of the Red Herring Prospectus) and specify the demand (i.e. the number of Equity Shares bid for) in each option. The price and demand options submitted by the Bidder in the Bid-cum-Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares bid for by a Bidder at or above the Issue Price will be considered for allocation and the rest of the Bid(s), irrespective of the Bid Price, will become automatically invalid.
- e) The Bidder cannot bid on another Bid-cum-Application Form after his or her Bids on one Bid-cum-Application Form have been submitted to any member of the Syndicate. Submission of a second Bid-cum-Application Form to either the same or to another member of the Syndicate will be treated as multiple bids and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph "Build up of the Book and Revision of Bids" on page no.156 of the Red Herring Prospectus.
- f) The BRLMs and Syndicate Members will enter each bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, ("TRS"), for each price and demand option and give the same to the Bidder. Bidders should make sure that they ask for a copy of the computerized TRS for every Bid Option from the Syndicate Member. Therefore, a Bidder can receive up to three TRSs for each Bid-cum-Application Form.
- g) Along with the Bid-cum-Application Form, all Bidders will make payment in the manner described under the paragraph "Terms of Payment and Payment into the Escrow Collection Account" on page no. 154 of the Red Herring Prospectus.

Bids at Different Price Levels

- a) The Price Band has been fixed at Rs. 195/- to Rs. 219/- per Equity Share, Rs. 195/- being the lower end of the Price Band and Rs. 219/- being the higher end of the Price Band. The Bidders can bid at any price with in the Price Band, in multiples of Rs. 1 (Rupee One).
- b) In case of revision in the Price Band, the Issue Period will be extended for three additional working days after revision of Price Band subject to a maximum of ten working days. Any revision in the Price Band and the revised Bidding / Issue Period, if applicable, will be widely disseminated by notification to BSE and NSE, by issuing a public notice in two national newspapers (one each in English and Hindi) and one regional language newspaper, and also by indicating the change on the websites of the BRLMs and at the terminals of the Syndicate Members.
- c) The Company in consultation with the BRLMs can finalise the Issue Price within the Price Band in accordance with this clause, without the prior approval of, or intimation, to the Bidders.
- d) The Bidder can bid at any price within the Price Band. The Bidder has to bid for the desired number of Equity Shares at a specific price. **Retail Individual Bidders may bid at "Cut off". However, bidding at "Cut-off" is prohibited for QIB or Non Institutional Bidders and such Bids from QIBs and Non Institutional Bidders shall be rejected.**
- e) Retail Individual Bidders who bid at the Cut-Off agree that they shall purchase the Equity Shares at any price within the Price Band. Retail Individual Bidders bidding at Cut-Off shall deposit the Bid Amount based on the Cap Price in the Escrow Account. In the event the Bid Amount is higher than the subscription amount payable by the Retail Individual Bidders (i.e. the total number of Equity Shares allocated in the Issue multiplied by the Issue Price), Retail Individual Bidders who bid at cut-off price shall receive the refund of the excess amounts from the respective refund account.
- f) In case of an upward revision in the Price Band announced as above, the Retail Bidders or who had bid at Cut-off Price could either (i) revise their Bid or (ii) make additional payment based on the higher end of the Revised Price Band (such that the total amount i.e., original Bid Price plus additional payment does not exceed Rs. 1,00,000/- for Retail Bidders or,

if the Bidder wants to continue to bid at Cut-off Price), with the Syndicate Member to whom the original bid was submitted. In case the total amount (i.e., original Bid Price plus additional payment) exceeds Rs. 1,00,000 for retail Bidders the Bid will be considered for allocation under the Non-Institutional portion in terms of the RHP. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the higher end of the Price Band prior to revision, the number of Equity Shares bid for shall be adjusted downwards for the purpose of allotment, such that the no additional payment would be required from the Bidder and the Bidder is deemed to have approved such revised Bid at Cut-off Price.

- g) In case of downward revision in the Price Band announced as above, Retail Bidders who have bid at Cut-Off Price could either revise their Bid or the excess amount at the time of bidding would be refunded from the refund account.
- h) In the event of any revision in the Price Band, whether upwards or downwards, the Minimum Application shall remain 30 Equity Shares irrespective of whether the Bid Amount payable on such Minimum Application is not in the range of Rs.5,000/- to Rs.7,000/-.

Option to subscribe

Equity Shares being issued through the Red Herring Prospectus can be applied for in the dematerialized form only. Bidders will not have the option of getting Allotment in physical form. The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Escrow Mechanism

Escrow Account for the Issue

Our Company shall open Escrow Accounts with one or more Escrow Collection Banks in whose favour the Bidders shall make out the cheque or demand draft in respect of his or her Bid and/or revision of the bid. Cheques or demand drafts received for the full Bid amount from Bidders in a certain category would be deposited in the Escrow Account for the Issue. The Escrow Collection Banks will act in terms of the Red Herring Prospectus and an Escrow Agreement. The monies in the Escrow Account for the Issue shall be maintained by the Escrow Collection Bank(s) for and on behalf of the Bidders. The Escrow Collection Bank(s) shall not exercise any lien whatsoever over the monies deposited therein and shall hold the monies therein in trust for the Bidders. On the Designated Date, the Escrow Collection Banks shall transfer the monies from the Escrow Account to the Public Issue Account with the Bankers to the Issue as per the terms of the Escrow Agreement with the Company. Payments of refunds to the Bidders shall also be made from the Refund Bank account as per the terms of the Escrow Agreement and the RHP.

The Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between the Escrow Collection Bank(s), our Company, the Registrar to the Issue, BRLMs and Syndicate Members to facilitate collection from the Bidders.

Terms of Payment and Payment into the Escrow Collection Account

In case of Non-institutional Bidders and Retails Individual Bidders, each Bidder shall, with the submission of the Bid cum Application Form draw a cheque or demand draft for the maximum amount of his Bid in favour of the Escrow Account of the Escrow Collection Bank (for details refer to the paragraph "Payment Instructions" on page no. 162 of the Red Herring Prospectus) and submit the same to the members of the Syndicate with whom the Bid is being deposited. Bid cum Application Forms accompanied by cash and Stock invest shall not be accepted. The maximum bid price has to be paid at the time of submission of the Bid cum Application Form based on the highest bidding option of the Bidder.

The members of the Syndicate shall deposit the cheque or demand draft with the Escrow Collection Bank(s), which will hold the monies for the benefit of the Bidders till such time as the Designated Date. On the Designated Date, the Escrow Collection Bank(s) shall transfer the funds from the Escrow Account, as per the terms of the Escrow Agreement, into the Public Issue Account. The balance amount after transfer to the Issue Account shall be transferred to a refund account and held for the benefit of the Bidders who are entitled to refunds on the Designated Date, and not later than 15 days from the Bid Closing Date / Issue Closing Date, the Refund Bank shall refund all monies to unsuccessful Bidders and also the excess amount paid on bidding, if any, after adjustment for Allotment to the Bidders.

Each category of Bidders i.e. QIB Bidders, Non Institutional Bidders, Retail Individual Bidders would be required to pay their applicable Margin Amount at the time of the submission of the Bid cum Application Form. The Margin Amount payable by each category of Bidders is mentioned in the section titled "Issue Structure" beginning on page no. 147 of the RHP. Where the Margin Amount applicable to the Bidder is less than 100% of the Bid Amount, any difference between the amount payable by the Bidder for Equity Shares allocated at the Issue Price and the Margin Amount paid at the time of Bidding, shall be payable

by the Bidder not later than the Pay-in-Date, which shall be a minimum period of two days from the date of communication of the allocation list to the members of the Syndicate by the BRLMs. If the payment is not made favouring the Escrow Account within the time stipulated above, the Bid of the Bidder is liable to be cancelled. However, if the applicable Margin Amount for Bidders is 100%, the full amount of payment has to be made at the time of submission of the Bid cum Application Form. However, if the applicable Margin Amount for Bidders is 100%, the full amount of payment has to be made at the time of submission of the Bid cum Application Form.

Where the Bidder has been allocated lesser number of Equity Shares than he or she had bid for, the excess amount paid on bidding, if any, after adjustment for allocation, will be refunded to such Bidder within 15 days from the Bid/Issue Closing Date, failing which and the Company shall pay interest at 15% per annum for any delay beyond the periods as mentioned above.

Electronic Registration of Bids

- (a) The members of the Syndicate will register the Bids using the on-line facilities of NSE and BSE. There will be at least one on-line connectivity to each city where the Bids are accepted.
- (b) NSE and BSE will offer a screen-based facility for registering Bids for the Issue. This facility will be available on the terminals of the members of the Syndicate and their authorised agents during the Bidding Period. Members of the Syndicate can also set up facilities for off-line electronic registration of Bids subject to the condition that they will subsequently upload the off-line data file into the on-line facilities for book building on a regular basis. On the Bid Closing Date, the Syndicate shall upload the Bids till such time as may be permitted by the Stock Exchanges.
- (c) Aggregate demand and price for bids registered on the electronic facilities of NSE and BSE will be downloaded on a regular basis, consolidated and displayed on-line at all bidding centres. A graphical representation of consolidated demand and price would be made available at the bidding centres during the bidding period.
- (d) At the time of registering each Bid, the members of the Syndicate shall enter the following details of the investor in the online system:
 - Name of the investor (Investors should ensure that the name given in the Bid cum Application form is exactly the same as the Name in which the Depository Account is held. In case, the Bid cum Application Form is submitted in joint names, investors should ensure that the Depository Account is also held in the same joint names and are in the same sequence in which they appear in the Bid cum Application Form).
 - Investor Category -, Individual, Corporate, NRI, FII, or Mutual Fund, etc.
 - Numbers of Equity Shares bid for
 - Bid price
 - Bid-cum-Application Form number
 - Whether payment of margin amount has been made upon submission of Bid-cum-Application Form
 - Depository Participant Identification No. and Client Identification No. of the Demat Account of the Bidder
- (e) A system generated TRS will be given to the Bidder as a proof of the registration of each of the bidding options. **It is the Bidder's responsibility to obtain the TRS from the members of the Syndicate.** The registration of the Bid by the member of the Syndicate does not guarantee that the Equity Shares shall be allocated either by the members of the Syndicate or the Company.
- (f) Such TRS will be non-negotiable and by itself will not create any obligation of any kind.
- (g) The members of the Syndicate have the right to review the Bid. The Syndicate Members have right to reject a bid received from a QIB at the time of receipt of Bids. However, Syndicate Members shall disclose the reason for not accepting the Bid to the Bidder in writing. In case of Non-Institutional Bidders, Bids under the Retail Individual Bidders, Bids shall not be rejected except on the technical grounds listed on page no. 164 in the Red Herring Prospectus.
- (h) It is to be distinctly understood that the permission given by NSE and BSE to use their network and software of the online IPO system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by the Company, and BRLMs are cleared or approved by NSE and BSE; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of the Company, its Promoters, its management or any scheme or project of the Company.

- (i) It is also to be distinctly understood that the approval given by NSE and BSE should not in any way be deemed or construed that this Red Herring Prospectus has been cleared or approved by the NSE and BSE; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the NSE and BSE.
- (j) Bids not uploaded to the online IPO system of NSE / BSE shall not be considered for allocations / allotment.

Build Up of the Book and Revision of Bids

- (a) Bids registered by various Bidders through the members of the Syndicate shall be electronically transmitted to the NSE or BSE mainframe on an on-line basis. Data would be uploaded on a regular basis.
- (b) The Price Band can be revised during the Bidding Period, in which case the Bidding Period shall be extended further for a period of three days, subject to the total Bidding Period not exceeding ten working days.
- (c) Any revision in the Price Band will be widely disseminated by informing the stock exchanges, by issuing a public notice in two national newspapers (one each in English and Hindi) and one regional newspaper and also indicating the change on the relevant websites and the terminals of the members of the Syndicate.
- (d) The book gets built up at various price levels. This information will be available with the BRLMs on a regular basis.
- (e) During the Bidding Period, any Bidder who has registered his or her interest in the Equity Shares at a particular price level is free to revise his or her Bid within the price band using the printed Revision Form, which is a part of the Bid-cum- Application Form.
- (f) Revisions can be made in both the desired number of Equity Shares and the bid price by using the Revision Form. The Bidder must complete his or her Bid cum Application Form, the details of all the options in his or her Bid cum Application Form or earlier Revision Form and revisions for all the options as per his Bid cum Application Form or earlier Revision Form. For example, if a Bidder has bid for three options in the Bid cum Application Form and he is changing only one of the options in the Revision Form, he must still fill the details of the other two options in the Revision Form unchanged. Incomplete or inaccurate Revision Forms will not be accepted by the members of the Syndicate.
- (g) The Bidder can make this revision any number of times during the Bidding Period. However, for any revision(s) in the Bid, the Bidders will have to use the services of the same member of the Syndicate through whom he or she had placed the original Bid. Bidders are advised to retain copies of the blank Revision Form and the revised Bid must only be made on that Revision Form.
- (h) Any revision of the Bid shall be accompanied by payment in the form of cheque or demand draft for the incremental amount, if any, to be paid on account of the upward revision of the Bid. The excess amount, if any, resulting from downward revision of the Bid would be returned to the Bidder at the time of refund in accordance with the terms of this Red Herring Prospectus. In case of QIBs, the members of the Syndicate shall collect the payments in the form of cheque or demand draft for the incremental amount in the QIB Margin Amount, if any, to be paid on account of the upward revision of the Bid at the time of one or more revisions by the QIB Bidders.
- (i) When a Bidder revises his or her Bid, he or she shall surrender the earlier TRS and get a revised TRS from the members of the Syndicate. **It is the responsibility of the Bidder to request for and obtain the revised TRS, which will act as proof of his or her having revised the previous Bid.**
- (j) In case of discrepancy of data between NSE or BSE and the members of the Syndicate, the decision of the BRLMs based on the physical records of Bid cum Application forms shall be final and binding to all concerned.

Price Discovery and Allocation / Allotment

After the Bid/Issue Closing Date, the BRLMs will analyse the demand generated at various price levels and discuss pricing strategy with our Company.

- (a) Our Company in consultation with the BRLMs shall finalise the “Issue Price”, the number of Equity Shares to be allotted.
- (b) The allocation for QIBs would be upto 50%, of the Issue of which 5% shall be reserved for Mutual Funds on a proportionate basis. The allocation to Non-Institutional Bidders would be not less than 15% of the Issue Size and allocation for Retail Individual Bidders will be not less than 35% of the Issue Size on proportionate basis, subject to valid Bids being received at or above the Issue Price.

- (c) Under subscription, if any, in the Non-Institutional Portion and / or Retail Portion, would be allowed to be met with spill over of demand from any of the other categories, at the sole discretion of the Company and BRLMs. However, if the aggregate demand by Mutual Funds is less than 1,08,750 Equity Shares, the balance Equity Shares available for allocation in the Mutual Fund Portion will first be added to the QIB Portion and be allocated proportionately to the QIB Bidders. In the event that the aggregate demand in the QIB Portion has been met, under-subscription, if any, would be allowed to be met with spill-over from any other category or combination of categories at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange.
- (d) Allocation to Non-Residents, FIIs, NRIs, Foreign Venture Capital Funds, Multilateral and Bilateral Development Financial Institutions registered with SEBI applying on repatriation basis will be subject to the terms and conditions stipulated by the RBI while granting permission for Allotment of Equity Shares to them.
- (e) The BRLMs, in consultation with the Company, shall notify the members of the Syndicate of the Issue Price and allocations to their respective Bidders, where the full Bid Amount has not been collected from the Bidders
- (f) The Company reserves the right to cancel the Issue any time after the Bid/Issue Opening Date without assigning any reasons whatsoever. In terms of the SEBI Guidelines, QIB Bidders shall not be allowed to withdraw their Bid after the Bid/Issue Closing Date.
- (g) The allotment details shall be put on the website of the Registrar to the issue

Signing of Underwriting Agreement and RoC Filing

- (a) The Company, the BRLMs and the Syndicate Members shall enter into an underwriting agreement on finalisation of the Issue Price and allocation(s)/allotment to the Bidders
- (b) After signing the Underwriting Agreement, the Company will update and file the Prospectus with RoC, AP which then would be termed 'Prospectus'. The Prospectus would have details of the Issue Price, Issue Size, underwriting arrangements and would be complete in all material respects

Filing of the Prospectus with the RoC

The Company will file a copy of the Prospectus with the RoC, Andhra Pradesh at Hyderabad in terms of Section 56, Section 60 and Section 60B of the Companies Act, 1956

Announcement of Pre-Issue Advertisement

Subject to Section 66 of the Companies Act, the Company shall after receiving final observations, if any, on this Red Herring Prospectus from SEBI, publish an advertisement, in the form prescribed by the SEBI Guidelines in an English National Daily with wide circulation, one Hindi National Newspaper and a regional language Newspaper with wide circulation in Andhra Pradesh.

Advertisement regarding Issue price and Prospectus

We will issue a statutory advertisement after the filing of the Prospectus with the RoC. This advertisement, in addition to the information that has to be set out in the statutory advertisement, shall indicate the Issue Price. Any material updates between the date of draft Red Herring Prospectus and the date of Prospectus will be included in such statutory advertisement.

Issuance of Confirmation of Allocation Note (CAN)

- (a) The BRLMs or Registrar to the Issue shall send to the members of the Syndicate a list of their Bidders who have been allocated Equity Shares in the Issue. The approval of the Designated Stock Exchange for QIB Bidders may be done simultaneously with or prior to the approval of the basis of allocation for the Retail Individual and Non-Institutional Bidders. However, Bidders should note that the Company shall ensure that the date of Allotment of the Equity Shares to all Bidders, in all categories, shall be done on the same date.
- (b) The BRLMs or Syndicate Members would then send the CAN to their Bidders who have been allocated Equity Shares in the Issue. The despatch of a CAN shall be deemed to be valid, binding and irrevocable contract for the Bidder to pay the entire Issue Price for all the Equity Shares allocated to such Bidder. Those Bidders who have not paid into the Escrow Account of the Company at the time of bidding shall pay in full the amount payable into the Escrow Account of the Company by the Pay-in Date specified in the CAN.

- (c) Bidders who have been allocated Equity Shares and who have already paid into the Escrow Account of the Company at the time of bidding shall directly receive the CAN from the Registrar to the Issue subject, however, to realisation of their cheque or demand draft paid into the Escrow Account of the Company. The despatch of a CAN shall be deemed to be a valid, binding and irrevocable contract for the Bidder to pay the entire Issue Price for all the Equity Shares to be allotted to such Bidder.

Notice to QIBs: Allotment Reconciliation and Revised CANs

After the Bid/Issue Closing Date, an electronic book will be prepared by the Registrar on the basis of Bids uploaded on the BSE/ NSE system. This shall be followed by a physical book prepared by the Registrar on the basis of Bid-cum-Application Forms received. Based on the electronic book or the physical book, as the case may be, QIBs may be sent a CAN, indicating the number of Equity Shares that may be allocated to them. This CAN is subject to the basis of final Allotment, which will be approved by the Designated Stock Exchange and reflected in the reconciled book prepared by the Registrar. Subject to SEBI Guidelines, certain Bid applications may be rejected due to technical reasons, non-receipt of funds, cancellation of cheques, cheque bouncing, incorrect details, etc., and these rejected applications will be reflected in the reconciliation and basis of Allotment as approved by the Designated Stock Exchange. As a result, a revised CAN may be required to be sent to QIBs and the allocation of Equity Shares in such revised CAN may be different from that specified in the earlier CAN. QIBs should note that they may be required to pay additional amounts, if any, by the Pay-in Date specified in the revised CAN, for any increased allocation of Equity Shares. The CAN will constitute the valid, binding and irrevocable contract (subject only to the issue of a revised CAN) for the QIB to pay the entire Issue Price for all the Equity Shares allocated to such QIB. The revised CAN, if issued, will supersede in entirety the earlier CAN.

Designated Date and Allotment of Equity Shares

- (a) The Company will ensure that the Allotment of Equity Shares is done within 15 days of the Bid Closing Date/Issue Closing Date. After the funds are transferred from the Escrow Accounts to the Issue Account on the Designated Date, the Company would ensure the credit to the successful Bidders' depository account within two working days of the date of Allotment
- (b) All allottees will receive credit for the Equity Shares directly in their depository account. Equity Shares will be offered only in the dematerialised form to the allottees. Allottees will have the option to re-materialise the Equity Shares so allotted, if they so desire, as per the provisions of the Companies Act and the Depositories Act
- (c) After the funds are transferred from the Escrow Account to the Public issue Account on the Designated Date, The Company would allot the Equity Shares to the allottees. The Company would ensure the allotment of Equity Shares within 15 days of Bid / Issue Closing Date and give instructions to credit to the allottees' depository accounts within two working days from the date of allotment. In case the Company fails to make allotment within 15 days of the Bid/Issue Closing Date, interest would be paid to the investors at the rate of 15% per annum.
- (d) Investors are advised to instruct their Depository Participant to accept the Equity Shares that may be allocated to them pursuant to this Issue

IN CASE THE BID CUM APPLICATION FORM IS SUBMITTED IN JOINT NAMES, IT SHOULD BE ENSURED THAT THE DEPOSITORY ACCOUNT IS ALSO HELD IN THE SAME JOINT NAMES AND ARE IN THE SAME SEQUENCE IN WHICH THEY APPEAR IN THE BID CUM APPLICATION FORM.

Bidders should note that on the basis of name of the Bidders, Depository Participant's name, Depository Participant's Identification number and Beneficiary Account Number provided by them in the Bid cum Application Form, the Registrar to the Issue will obtain from the Depository demographic details of the Bidders such as address, bank account details including the nine digit Magnetic Ink Recognition (MICR) Code, for printing on refund orders and occupation (herein after referred to as Demographic Details). Hence, Bidders should carefully fill in their Depository Account details in the Bid-cum-Application Form.

These Demographic Details would be used for all correspondence with the Bidders including mailing of the refund orders/CANs/Allocation Advice and printing of Bank particulars on the refund order and the Demographic Details given by Bidders in the Bid -cum application Form would not be used for these purposes by the Registrar.

Hence, Bidders are advised to update their Demographic Details as provided to their Depository Participants.

By signing the Bid-cum-Application Form, Bidder would have deemed to authorize the depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records.

Refund orders/Allocation Advice/CANs would be mailed at the address of the Bidder as per the Demographic Details received from the Depositories. Bidders may note that delivery of refund orders/allocation advice/CANs may get delayed if the same once sent to the address obtained from the depositories are returned undelivered. In such an event, the address and other details given by the Bidder in the Bid cum Application Form would be used only to ensure dispatch of refund orders. Please note that any such delay shall be at the Bidders sole risk and neither the Bank nor the BRLMs shall be liable to compensate the Bidder for any losses caused to the Bidder due to any such delay or is liable to pay any interest for such delay.

In case no corresponding record is available with the Depositories that match three parameters, namely, names of the Bidders (including the order of names of joint holders), the Depository Participant's identity (DP ID) and the beneficiary's identity, then such Bids are liable to be rejected.

Our Company in our absolute discretion, reserve the right to permit the holder of the power of attorney to request the Registrar that for the purpose of printing particulars on the refund order and mailing of the refund order / CANs / allocation advice / refunds through electronic transfer of funds, the Demographic Details given on the Bid-cum-Application Form should be used (and not those obtained from the Depository of the Bidder). In such cases, the Registrar shall use Demographic Details as given in the Bid-cum-Application Form instead of those obtained from the depositories.

Refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and / or commission. In case of Bidders who remit money through Indian Rupee drafts purchased abroad, such payments in Indian Rupees will be converted into US Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and will be dispatched by registered post or if the Bidders so desire, will be credited to their NRE accounts, details of which should be furnished in the space provided for this purpose in the Bid-cum-Application Form. Our Company will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids under Power of Attorney

However, the collection centre of the BRLMs or Syndicate Member will acknowledge the receipt of the Bid cum Application Forms or Revision Forms by stamping and returning to the Bidder the acknowledgement slip. This acknowledgement slip will serve as the duplicate of the Bid cum Application Form for the records of the Bidder.

Other Instructions

Joint Bids in the case of Individuals

Bids may be made in single or joint names (not more than three). In the case of joint Bids, all payments will be made out in favour of the Bidder whose name appears first in the Bid-cum-Application Form or Revision Form ("First Bidder"). All communications will be addressed to the First Bidder and will be despatched to his or her address.

Multiple Bids

A Bidder should submit only one Bid (and not more than one) for the total number of Equity Shares required. Two or more Bids will be deemed to be multiple Bids if the sole or First Bidder is one and the same.

Procedure for Application by Mutual Funds

In case of a mutual fund, a separate Bid can be made in respect of each scheme of the mutual fund registered with SEBI and such Bids in respect of more than one scheme of the mutual fund will not be treated as multiple bids provided that the Bids clearly indicate the name of scheme concerned for which the Bid has been made. The application made by the AMCs or custodians of a mutual fund shall clearly indicate the name of the concerned scheme for which application is being made.

The Company reserves the right to reject, in our absolute discretion, all or any multiple Bids in any or all categories.

PAN

Where Bid(s) is/are for Rs.50,000 or more, the Bidder or in the case of a Bid in joint names, each of the Bidders, should mention his/her Permanent Account Number (PAN) allotted under the I.T.Act. The copy of the PAN card or PAN allotment letter is required to be submitted with the application form. Applications without this information and documents will be considered incomplete and are liable to be rejected. **It is to be specifically noted that Bidders should not submit the GIR number instead of the PAN as the Bid is liable to be rejected on this ground.** In case the Sole/First Bidder and Joint Bidder(s) is/are not required to obtain PAN, each of the Bidder(s) shall mention "Not Applicable" and in the event that the sole Bidder and/or the joint Bidder(s) have applied for PAN which has not yet been allotted each of the Bidder(s) should mention "Applied for" in the Bid cum Application Form. Further, where the Bidder(s) has mentioned "Applied for" or "Not Applicable", the Sole/First Bidder and each of the Joint Bidder(s), as the case may be, would be required to submit Form 60 (Form of declaration to be filed by a person who does not have a permanent account number and who enters into any transaction specified in rule 114B), or, Form 61 (form of declaration to be filed by a person who has agricultural income and is not in receipt of any other income chargeable to income tax in respect of transactions specified in rule 114B), as may be applicable, duly filled along with a copy of any one of the following documents in support of the address: (a) Ration Card (b) Passport (c) Driving License (d) Identity Card issued by any institution (e) Copy of the electricity bill or telephone bill showing residential address (f) Any document or communication issued by any authority of the Central Government, State Government or local bodies showing residential address (g) Any other documentary evidence in support of address given in the declaration. It may be noted that Form 60 and Form 61 have been amended vide a notification issued on December 1, 2004 by the Ministry of Finance, Department of Revenue, Central Board of Direct Taxes. All Bidders are requested to furnish, where applicable, the revised Form 60 or 61 as the case may be.

UNIQUE IDENTIFICATION NUMBER - MAPIN

With effect from July 1, 2005, SEBI had decided to suspend all fresh registrations for obtaining UIN and the requirement to contain/quote UIN under the SEBI MAPIN Regulations/Circulars vide its circular MAPIN/Cir- 13/2005. However, in a recent press release dated December 30, 2005, SEBI has approved certain policy decisions and has now decided to resume registrations for obtaining UINs in a phased manner. The press release states that the cut off limit for obtaining UIN has been raised from the existing limit of trade order value of Rs. 100,000 to Rs. 500,000 or more. The limit will be reduced progressively. For trade order value of less than Rs. 500,000, an option will be available to investors to obtain either the PAN or UIN. SEBI has stated in the press release that these changes will be implemented only after necessary amendments are made to the SEBI MAPIN Regulations. Therefore, MAPIN is not required to be quoted with the Bids.

Company's Right to Reject Bids

The Syndicate Members have right to reject a Bid received from QIB at the receipt of the Bids. However, the Syndicate Members shall disclose the reasons in writing for not accepting the Bid to the Bidder. In case of Non-Institutional Bidders and Retail Individual Bidders, The Company & BRLMs have a right to reject bids based on technical grounds. Equity Shares in Dematerialised Form with NSDL or CDSL

As per the provisions of Section 68B of the Companies Act, the Equity Shares in this Issue shall be allotted only in a dematerialised form, (i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode). In this context, two tripartite agreements have been signed amongst the Company, Registrars to the Issue and the Depositories:

A tripartite agreement dated 18 May 2007 with NSDL, the Company and Registrars to the Issue;

A tripartite agreement dated 8 March 2007 with CDSL, the Company and Registrars to the Issue;

All bidders can seek allotment only in dematerialised mode. Bids from any investor without relevant details of his or her depository account are liable to be rejected.

- a. A Bidder applying for Equity Shares must have at least one beneficiary account with either of the Depository Participants of either NSDL or CDSL prior to making the Bid.
- b. The Bidder must necessarily fill in the details (including the Beneficiary Account Number and Depository Participant's Identification number) appearing in the Bid-cum-Application Form or Revision Form.
- c. Equity Shares allotted to a successful Bidder will be credited in electronic form directly to the beneficiary account (with the Depository Participant) of the Bidder.
- d. Names in the Bid-cum-Application Form or Revision Form should be identical to those appearing in the account details in the Depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the Depository.
- e. If incomplete or incorrect details are given under the heading 'Bidders Depository Account details' in the Bid-cum-Application Form or Revision Form, it is liable to be rejected.
- f. The Bidder is responsible for the correctness of his or her demographic details given in the Bid-cum-Application Form vis-à-vis those with his or her Depository Participant.
- g. It may be noted that Equity Shares in electronic form can be traded only on the stock exchanges having electronic connectivity with NSDL and CDSL. All the Stock Exchanges where our Equity Shares are proposed to be listed have electronic connectivity with CDSL and NSDL.
- h. The trading of the Equity Shares of the Company would be in dematerialised form only for all investors.

Communications

All future communications in connection with Bids made in this Issue should be addressed to the Registrar to the Issue quoting the full name of the sole or first Bidder, Bid-cum-Application Form number, details of depository participant, number of Equity Shares applied for, date of bid cum application Form, name and address of the member of the syndicate where the bid was submitted and cheque or draft number and issuing bank thereof.

The Company has appointed Mr.S.K Sivakumar as Compliance Officer. He can be contacted at the Corporate Office of the Company.

The Investors can contact the Compliance Officer in case of any pre-issue or post-issue related problems such as non-receipt of letters of allotment, credit of allotted shares in the respective beneficiary account, refund orders, etc.

DISPOSAL OF APPLICATIONS AND APPLICATION MONEY

The Company shall ensure dispatch of allotment advice, refund orders and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the allotment to the Stock Exchanges within two working days of date of finalisation of allotment of Equity Shares. The Company shall dispatch refund orders above Rs. 1,500/-, if any, by registered post or speed post at the sole or first Bidder's sole risk, except for Bidders who have opted to receive refunds through the ECS facility or RTGS or NEFT or Direct Credit.

The Company shall use best efforts to ensure that all steps for completion of the necessary formalities for allotment and trading at all the Stock Exchanges where the Equity Shares are proposed to be listed, are taken within seven working days of finalisation of the basis of allotment.

In accordance with the Companies Act, the requirements of the Stock Exchanges and SEBI Guidelines, the Company further undertakes that:

- allotment of Equity Shares shall be made only in dematerialised form within 15 working days of the Bid/Issue Closing Date;
- refunds will be done within 15 working days of the Bid/Issue Closing Date at the sole or first Bidder's sole risk; and
- **Interest in case of delay in dispatch of Allotment Letters/ Refund Orders / demat credit in case of public issues** - we shall pay interest at 15% per annum (for any delay beyond the 15 day time period as mentioned above), if allotment or demat credits is not made, refund orders are not dispatched / or if, in a case where the refund or portion thereof is made in electronic manner, the refund instructions have not been given to the clearing system in the disclosed manner within 15 days from Bid/Issue Closing Date.

The Company will provide adequate funds required for dispatch of refund orders or allotment advice to the Registrar to the Issue.

No separate receipts shall be issued for the money payable on the submission of Bid cum Application Form or Revision Form. However, the collection centre of the Syndicate Member will acknowledge the receipt of the Bid-cum-Application Forms or Revision Forms by stamping and returning to the Bidder the acknowledgement slip. This acknowledgement slip will serve as the duplicate of the Bid cum Application Form for the records of the Bidder.

Mode of making refunds

Bidders should note that on the basis of name of the Bidders, Depository Participant's name, Depository Participant-Identification number and Beneficiary Account Number provided by them in the Bid cum Application Form, the Registrar to the Issue will obtain from the Depository the Bidders bank account details including nine digit MICR code. Hence, Bidders are advised to immediately update their bank account details as appearing on the records of the depository participant. Please note that failure to do so could result in delays in credit of refunds to Bidders at the Bidders sole risk and neither the BRLMs nor the Bank shall have any responsibility and undertake any liability for the same.

The payment of refund, if any, would be done through various modes as given hereunder:

1. ECS - Payment of refund would be done through ECS for applicants having an account at any of the following fifteen centres: Ahmedabad, Bangalore, Bhubaneswar, Kolkata, Chandigarh, Chennai, Guwahati, Hyderabad, Jaipur, Kanpur, Mumbai, Nagpur, New Delhi, Patna and Thiruvananthapuram. This mode of payment of refunds would be subject to availability of complete bank account details including the MICR code as appearing on a cheque leaf, from the Depositories. The payment of refunds is mandatory for applicants having a bank account at any of the abovementioned fifteen centres, except where the applicant, being eligible, opts to receive refund through NEFT, direct credit or RTGS.
2. Direct Credit - Applicants having bank accounts with the Refund Banker(s), as mentioned in the Bid cum Application Form, shall be eligible to receive refunds through direct credit. Charges, if any, levied by the Refund Bank(s) for the same would be borne by the Company.
3. RTGS - Applicants having a bank account at any of the abovementioned fifteen centres and whose refund amount exceeds Rs. 1 million, have the option to receive refund through RTGS. Such eligible applicants who indicate their preference to receive refund through RTGS are required to provide the IFSC code in the Bid-cum-application Form. In the event the same is not provided, refund shall be made through ECS. Charges, if any, levied by the Refund Bank(s) for the same would be borne by the Company. Charges, if any, levied by the applicant's bank receiving the credit would be borne by the applicant.
4. NEFT (National Electronic Fund Transfer) - Payment of refund shall be undertaken through NEFT wherever the applicants' bank has been assigned the Indian Financial System Code (IFSC), which can be linked to a Magnetic Ink Character Recognition (MICR), if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the applicants have registered their nine digit MICR number and their bank account number while opening and operating the demat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of refund will be made to the applicants through this method. The process flow in respect of refunds by way of NEFT is at an evolving stage and hence use of NEFT is subject to operational feasibility, cost and process efficiency.
5. For all other applicants, including those who have not updated their bank particulars with the MICR code, the refund orders will be despatched under certificate of posting for value up to Rs. 1,500 and through Speed Post/ Registered Post for refund orders of Rs.1,500 and above. Such refunds will be made by cheques, pay orders or demand drafts drawn on

the Escrow Collection Banks and payable at par at places where Bids are received. Bank charges, if any, for cashing such cheques, pay orders or demand drafts at other centres will be payable by the Bidders.

Interest on refund of excess Bid Amount

The Company shall pay interest at the rate of 15% per annum on the excess Bid Amount received if refund orders are not dispatched within 15 working days from the Bid/Issue Closing Date as per the Guidelines issued by the GoI, Ministry of Finance pursuant to their letter No.F/8/S/79 dated July 31, 1983, as amended by their letter No. F/14/SE/85 dated September 27, 1985, addressed to the stock exchanges, and as further modified by SEBI's Clarification XXI dated October 27, 1997, with respect to the SEBI Guidelines.

Basis of allotment or allocation

A. For Retail Bidders

- Bids received from the Retail Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The allotment to all the successful Retail Individual Bidders will be made at the Issue Price.
- The Issue size, less allotment to Non Institutional Bidders, QIB Bidders shall be available for allotment to Retail Individual Bidders who have bid in the Issue at a price that is equal to or greater than the Issue Price.
- If the aggregate demand in this category is less than or equal to 15,22,500 Equity Shares at or above the Issue Price, full allotment shall be made to the Retail Individual Bidders to the extent of their demand.
- If the aggregate demand in this category is greater than 15,22,500 Equity Shares at or above the Issue Price, the allotment shall be made on a proportionate basis subject to minimum allocation being equal to the minimum bid/application size of 30 Equity Shares. For the method of proportionate basis of allotment, please refer to "method of proportionate basis of allotment" on page no.168- of the Red Herring Prospectus.

B. For Non Institutional Bidders

- Bids received from Non institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The allotment to all successful Non Institutional Bidders will be made at the Issue Price.
- The Issue size, less allotment to QIBs Bidders, Retail Individual Bidders shall be available for allotment to Non Institutional Bidders who have bid in the Issue at a price that is equal to or greater than the Issue Price.
- If the aggregate demand in this category is less than or equal to 6,52,500 Equity Shares at or above the Issue Price, full allotment shall be made to Non Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 6,52,500 Equity Shares at or above the Issue Price, allotment shall be made on a proportionate basis subject to minimum allocation being equal to the minimum bid/application size of 30 Equity Shares. For the method of proportionate basis of allotment please refer to "method of proportionate basis of allotment" on page no.168 of the Red Herring Prospectus.

C. For QIBs

- Upto 50% of the Issue to the Public i.e. 21,75,000 Equity shares shall be allotted to QIBs of which 5% is reserved for Mutual Funds i.e 1,08,750 Equity Shares and balance shares will be available for allocation to all QIBs including Mutual Funds on proportionate basis.
- Bids received from the QIB Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The allotment to all the QIBs will be made at the Issue Price.
- The Issue size, less allotment to Non Institutional Bidders, Retail Individual Bidders, shall be available for allotment to QIBs who have bid in the Issue at a price that is equal to or greater than the Issue Price.
- Allotment shall be undertaken in the following manner
 - (a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Portion shall be determined as follows:
 - (i) In the event that Bids from Mutual Fund exceeds 5% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for up to 5% of the QIB Portion.

- (ii) In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Portion, then all Mutual Funds shall get full allotment to the extent of valid bids received above the Issue Price.
- (iii) Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available to all QIB Bidders as set out in (b) below;
- (b) In the second instance allocation to all QIBs shall be determined as follows:
 - (i). The number of Equity Shares available for this category shall be the QIB Portion less allocation only to Mutual Funds as calculated in (a) above.
 - (ii). The subscription level for this category shall be determined based on the overall subscription in the QIB Portion less allocation only to Mutual Funds as calculated in (a) above.
 - (iii). Based on the above, the level of the subscription shall be determined and proportionate allocation to all QIBs including Mutual Funds in this category shall be made.
 - (iv) The aggregate allotment to QIB Bidders shall be upto 21,75,000 Equity Shares

Under subscription if any in the Non-Institutional and Retail Individual categories would be allowed to be met with spill over from any other category by the Company in consultation with BRLMs.

Procedure and Time Schedule for Allotment of Equity Shares

The Syndicate Members have the right to reject the Bid received from QIB at the time of receipt of the Bids. However, the Syndicate Members shall disclose the reasons in writing for not accepting the Bid to the Bidder. In case of Non- Institutional Bidders and Retail Individual Bidders, the Company has a right to reject bids based on technical grounds. In case a Bid is rejected in full, the whole of the Bid Amount will be refunded to the Bidder within 15 days of the Bid/Issue Closing Date. In case a Bid is rejected in part, the excess Bid Amount will be refunded to the Bidder within 15 days of the Bid/Issue Closing Date. The Company will ensure allotment of the Equity Shares within 15 days from the Bid/Issue Closing Date, and the Company shall pay interest at the rate of 15% per annum (for any delay beyond the periods as mentioned above), if Equity Shares are not allotted, refund orders are not dispatched and/ or demat credits are not made to investors within two working days from the date of finalisation of the basis of allotment.

Method of proportionate basis of allocation in the QIB, Retail, Non-Institutional Portions

In the event of the Issue being over-subscribed, we shall finalize the basis of allotment in consultation with the Designated Stock Exchange. The Executive Director (or any other senior official nominated by them) of the Designated Stock Exchange along with the BRLMs and the Registrar to the Issue shall be responsible for ensuring that the basis of allotment is finalized in a fair and proper manner.

The allotment shall be made in multiples of one share, on a proportionate basis as explained below:

- (a) Bidders will be categorized according to the number of Equity Shares applied for by them.
- (b) The total number of Equity Shares to be allotted to each portion as a whole shall be arrived at on a proportionate basis, being the total number of Equity Shares applied for in that portion (number of Bidders in the portion multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio.
- (c) In case the proportionate allotment to any Bidders is in fractions, then the same would be rounded off to the nearest integer.
- (d) Number of Equity Shares to be allotted to the successful Bidders will be arrived at on a proportionate basis, being the total number of Equity Shares applied for by each Bidder in that portion multiplied by the inverse of the over-subscription ratio.
- (e) If the proportionate Allotment to a Bidder is a number that is more than 30 but is not a multiple of one (which is the market lot), the decimal would be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5, it would be rounded off to the lower whole number. Allotment to all Bidders in such categories would be arrived at after such rounding off.
- (f) In all Bids where the proportionate Allotment is less than 30 Equity Shares per Bidder, the Allotment shall be made as follows:
 - The successful Bidders out of the total Bidders for a portion shall be determined by draw of lots in a manner such that the total number of Equity Shares Allotted in that portion is equal to the number of Equity Shares calculated in accordance with (b) above; and

- Each successful Bidder shall be allotted a minimum of 30 Equity Shares.
- If the Equity Shares allocated on a proportionate basis to any portion are more than the Equity Shares allotted to the Bidders in that portion, the remaining Equity Shares available for Allotment shall be first adjusted against any other portion, where the Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that portion. The balance Equity Shares, if any, remaining after such adjustment will be added to the portion comprising Bidders applying for minimum number of Equity Shares.

In case of revision in the Price Band, the Bidding/Issue Period will be extended for three additional days after revision of Price Band. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to NSE and BSE by issuing a press release, and also by indicating the change on the web site of the BRLMs and at the terminals of the Syndicate.

Undertakings by the Company

The Company undertakes as follows:

- that the complaints received in respect of this Issue shall be attended to expeditiously and satisfactorily;
- that all steps will be taken for the completion of the necessary formalities for listing and commencement of trading at all the stock exchanges where the Equity Shares are proposed to be listed within seven working days of finalisation of the basis of allotment;
- that the funds required for despatch of refund orders or allotment advice by registered post or speed post shall be made available to the Registrar to the Issue;
- that where refunds are made through electronic transfer of funds, a suitable communication shall be sent to the applicant within 15 working days of closure of the issue, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund.
- that the refund orders or allotment advice to the NRIs or FIIs shall be dispatched within the specified time; and
- that no further issue of Equity Shares shall be made till the Equity Shares issued through this Red Herring Prospectus are listed or until the bid monies are refunded on account of non-listing, under-subscription etc.

Utilisation of Issue proceeds

The Board of Directors of the Company certify that:

- all monies received out of this Issue shall be transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 73 of the Companies Act;
- details of all monies utilized out of this Issue referred above shall be disclosed under an appropriate separate head in the balance sheet of the Company indicating the purpose for which such monies have been utilised; and
- details of all unutilised monies out of this Issue, if any, shall be disclosed under an appropriate separate head in the balance sheet of the Company indicating the form in which such unutilized monies have been invested.

The Company shall not have recourse to the Issue proceeds until approval for trading of Equity Shares from all the stock exchanges where listing is sought is received.

Restrictions on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the industrial policy of GoI (“The Industrial Policy”) and FEMA. While the Industrial Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Foreign Investment Promotion Board of the Government of India (“FIPB”) and the RBI. Under present regulations, the maximum permissible FII investment in our Company is restricted to 24% of our total issued capital. This can be raised to 100% by adoption of a Board resolution and special resolution by our shareholders; however, as of the date hereof, no such resolution has been recommended to our Board or our shareholders for adoption.

By way of Circular No. 53 dated 17 December, 2003, the RBI has permitted FIIs to subscribe to shares of an Indian company in a public Issue without prior RBI approval, so long as the price of Equity Shares to be issued is not less than the price at

which Equity Shares are issued to residents.

The transfer of Equity Shares of NRIs, FIIs, and Foreign Venture Capital Investors registered with SEBI and Multilateral and Bilateral Development Financial institutions shall be subject to the conditions as may be prescribed by the Government of India or RBI while granting such approvals.

Foreign Investment

Foreign investment in India is regulated by the Foreign Exchange Management Act, 1999 (FEMA), the regulations framed by the Reserve Bank of India (RBI) and policy guidelines issued by the Ministry of Industry (through various Press Notes issued from time to time). Foreign investment in companies involved in the manufacture of Iron castings is under the automatic route (i.e., prior approval of the Foreign Investment Promotion Board (FIPB) is not required).

Foreign investment by way of subscription to equity shares in companies in the above sector currently does not require the prior approval of the RBI or the FIPB, except for a post subscription filing with the RBI in Form FC-GPR within 30 days from the issue of shares by the Company. GoI has indicated that in all cases where foreign direct investment is allowed on an automatic basis without FIPB approval, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment.

TRANSFERS OF EQUITY SHARES PREVIOUSLY REQUIRED THE PRIOR APPROVAL OF THE FIPB. HOWEVER, VIDE A RBI CIRCULAR DATED 4 OCTOBER, 2004 ISSUED BY THE RBI, THE TRANSFER OF SHARES BETWEEN AN INDIAN RESIDENT AND A NON RESIDENT DOES NOT REQUIRE THE PRIOR APPROVAL OF THE FIPB OR THE RBI, PROVIDED THAT (I) THE ACTIVITIES OF THE INVESTEE COMPANY ARE UNDER THE AUTOMATIC ROUTE UNDER THE FOREIGN DIRECT INVESTMENT (FDI) POLICY AND TRANSFER DOES NOT ATTRACT THE PROVISIONS OF THE SEBI (SUBSTANTIAL ACQUISITION OF SHARES AND TAKEOVERS) REGULATIONS, 1997 (II) THE NON-RESIDENT SHAREHOLDING IS WITHIN THE SECTORAL LIMITS UNDER THE FDI POLICY, AND (III) THE PRICING IS IN ACCORDANCE WITH THE GUIDELINES PRESCRIBED BY THE SEBI/RBI.

CERTIFICATES OF SHARES

Subject to the provisions of the Companies (Issue of Shares Certificate) Rules, 1960 or any statutory modification or re-enactment thereof share certificates shall be issued in the following manner:

16 Certificates

The certificates of title to shares and duplicates thereof, when necessary shall be issued under the Seal of the Company which shall be affixed in the presence of (i) two Directors or a person acting on behalf of a Director under a duly registered power-of-attorney, and (ii) the Secretary or some other person appointed by the Board for the purpose. The two Directors or their attorneys and the Secretary or the other person shall sign the share certificates. Provided that, if the composition of the Board permits at least one of the aforesaid two Directors shall be a person other than a Managing Director or a Whole time Director. Every Member or allottee of shares shall be entitled, without payment, to receive certificates for the shares of the same class registered in his name. Every share certificate shall specify the name of the person in whose favor it is issued, the share certificate number and the distinctive number(s) of the shares to which it relates and the amount paid up thereon. Such share certificate shall be issued only in pursuance of a resolution passed by the Board or any committee thereof and on surrender to the Company of its letter of allotment or its fractional coupons of requisite value, save in cases of issues against letters of acceptance or of renunciation or in cases of issue of bonus shares provided that if the letter of allotment is lost or destroyed, the Board or any committee thereof may impose such reasonable terms, if any, as it thinks fit, as to evidence and indemnity and the payment of out of pocket expenses incurred by the Company in investigating the evidence.

Printing of blank forms for issue of share certificates and maintenance of books and documents relating to issue of Share Certificate shall be in accordance with the provisions of the Companies (Issue of Share Certificates) Rules, 1960 or any statutory modification or re-enactment thereof for the time being in force.

17 To which of the joint holders certificates to be issued

If any share stands in the name of two or more persons, the person first named in the Register shall, as regards receipt of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at General Meeting and the transfer of the shares, be deemed the sole holder thereof but the joint holders of a share shall severally as well as jointly be liable for the payment of all installment and calls due in respect of such share and for all incidents thereof according to the Company's regulations.

18 Fully paid shares for consideration other than cash.

Subject to the provisions of the Act and these Articles, the Board may allot and issue shares in the capital of the Company as payment for any property sold or transferred or for service rendered to the Company in the conduct of its business or in satisfaction of any outstanding debt or obligation of the Company and any shares which may be so issued shall be deemed to be fully paid-up shares.

19	Acceptance of shares	Any application signed by or on behalf of any applicant for shares in the Company, followed by an allotment of any shares therein, shall be an acceptance of shares within the meaning of these Articles; and every person who thus or otherwise accepts any shares and whose name is therefore placed on the register shall, for the purposes of these Articles, be a Member.
20	Issue of new certificate in place of one defaced, lost or destroyed	<p>If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, being given, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every certificate under the Article shall be issued without payment of fees if the Board so decides, or on payment of such fees (not exceeding Rs.2/- for each certificate) as the Board shall prescribe. Provided that no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer.</p> <p>Provided that notwithstanding what is stated above the Board shall comply with such rules or regulations or requirements of any Stock Exchange or the rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956 or any other act, or rules applicable in this behalf.</p> <p>The provisions of this Article shall apply mutatis mutandis to debentures of the Company.</p>
22	Trust not recognized	Save as herein provided, the Company shall be entitled to treat the person whose name appears on the Register of Members as the holder of any share as the absolute owner thereof, and accordingly shall not (except as ordered by a court of competent jurisdiction or as by law required) be bound to recognize any benami, trust (express, implied or constructive) or equitable, contingent, future or partial claim or claims or right to or interest in such share on the part of any other person whether or not it shall have express or limited notice thereof. The provisions of Section 153 of the Act shall apply.
23	Right of nomination	Subject to the provisions of Section 109A of the Act, every holder of shares in, or holder of debentures of, the Company may, at any time, nominate a person to whom his shares in, or debentures of the Company shall vest in the event of his death.
24	Limitation of time for issue of certificates	Every Member shall be entitled, without payment, to one or more certificates in marketable lots, for all the shares of each class or denomination registered in his name, or if the Board so approves (upon paying such fee as the Board may from time to time determine) to several certificates, each for one or more of such shares and the Company shall complete and have ready for delivery such certificates within three months from the date of allotment, unless the conditions of issue thereof otherwise provide, or within one month of the receipt of application of registration of transfer, transmission, sub-division, consolidation or renewal of any of its shares as the case may be. Every certificate of shares shall be under the seal of the Company and shall specify the number and distinctive

numbers of shares in respect of which it is issued and amount paid-up thereon and shall be in such form as the Board may prescribe or approve, provided that in respect of a share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate and such certificate shall be delivered to the person first named in the Register and such delivery shall be sufficient delivery to all such holders.

CALLS ON SHARES

25	Calls	The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board (not by circular resolution); make such call as it thinks fit upon the members in respect of all moneys unpaid on the shares held by them respectively and each member shall pay the amount of every call so made on him to the person or persons and the member(s) and place(s) appointed by the Board. A call may be made payable by installments.
27	Liability of joint holders in a call	The joint-holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
28	Board to extend time to pay call:	The Board may from time to time at its discretion extend the time fixed for the payment of any call and may extend such time to all or any of the members. No member shall be entitled to such extension save as a matter of grace and favour.
29	Restriction on power to make calls	No call shall exceed one fourth of the nominal amount of share or be made payable within one month after the last preceding call was payable.
30	Notice of call	Not less than 14 days notice of any call shall be given specifying the time and place of payment and to whom such call shall be paid.
31	When interest on call or installment payable	<p>(i) If the sum payable in respect of any call or installment is not paid on or before the day appointed for payment thereof the holder for the time being of the share in respect of which the call shall have been made or the installment shall be due, shall pay interest as fixed by the Board, from the day appointed for the payment thereof to the time of the actual payment as the Directors may determine.</p> <p>(ii) The Directors shall be at liberty to waive payment of any such interest wholly or in part.</p>
32	Amount payable at fixed time or by installments payable as call.	Any sum, which by the terms of issue of a share become payable on allotment or on a fixed date, whether on account of the nominal value of the share or by way of premium, shall for the purposes of the Articles be deemed to be call a duly made and payable on the date on which the same becomes payable and in case of nonpayment all the relevant provisions of these Articles as to payment of interest and expenses forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

FORFEITURE AND LIEN

37	If call or installment not paid notice may be given	If any Member fails to pay any call or installment on or before the day appointed for the payment of the same the Board may at any time thereafter during such time as the call or installment remain
----	---	---

		unpaid serve a notice on such Member requiring him to pay the same forthwith within a further stipulated period together with any interest that may have accrued thereon from the date on which the same fell due and all expense that may have been incurred by the Company by reason of such non payment.
38	Form of notice	The notice shall name a day (not being less than 14 days from the date of notice) and a place or places on and at which such call or installment, and such interest and expenses as aforesaid are to be paid. The notice shall also state that in the event of nonpayment on or before the time and at the place appointed, the shares in respect of which such call was made or installment is payable will be liable to be forfeited.
39	If notice not complied with, shares may be forfeited.	If the requisitions of any such notice as aforesaid are not complied with any shares in respect of which such notice has been given may at any time thereafter, before payment of all calls or installment, interest and expenses due in respect thereof, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited shares and not actually paid before the forfeiture.
40	Notice after forfeiture	When any shares shall have been so forfeited notice of the resolution shall be given to the Member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture with the date thereof shall forthwith be made in the Register, but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make such entry as aforesaid.
41	Forfeited shares become property of Company	Any share so forfeited shall be deemed to be the property of the Company and the Board may sell, re-allot or otherwise dispose of the same in such a manner as they think fit.
47	Company's lien on shares/debentures	The Company shall have a first and paramount lien upon all the shares/debentures (other than fully-paid shares/debentures) registered in the name of each Member (whether solely or jointly with others) and upon the proceeds of sale thereof for all monies (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Board may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this Article.
48	Notice to be given	For the purpose of enforcing such lien the Board may sell the shares subject thereto in such a manner as it thinks fit but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such Member, his executors or, administrators or his committee, curator bonis, or other legal curator, and default shall have been made by him or them in the payment fulfillment, or discharge of such debts, liabilities or engagements until the expiry of seven days after such notice.
49	Application of proceeds of sale	The net proceeds on any such sale after payment of the costs of such sale shall be applied in or towards satisfaction of the debts and

liabilities of such Members or engagements and the residue (if any) shall be paid to such Member, his heirs, executors, administrators, committee or curator.

- 50 Certificates of forfeited shares to be void Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect and the Directors shall be entitled to issue a new certificate of certificates in respect of the said shares to the person or persons entitled thereto.

TRANSFER AND TRANSMISSION OF SHARES

- 51 Endorsement of Transfer In respect of any transfer of shares registered in accordance with the provision of these Articles, the Board may, at their discretion direct an endorsement of the transfer and the name of the transferee and other particulars, on the existing share certificate and authorize any Director or officer of the company to authenticate such endorsement on behalf of the company or direct the issue of a fresh share certificate, in lieu of and in cancellation of the existing certificate in the name of the transferee.
- 52 No fee on transfer or transmission No fee shall be charged for registration of transfer, transmission, probate, succession certificate and letters of administration, certification of death or marriage, power of attorney or similar other document.
- 53 Transmission of shares The legal representative of a deceased Member shall be entitled to be recognized by the Company as having title to the shares of the deceased Member on production of probate or letters of administration or a succession certificate from a competent court of law, provided that the Board may dispense with the production of such probate letters of administration or succession certificates on the legal representative furnishing such indemnity as the Board may require.
- 54 Rights on Transmission A person entitled to a share by transmission shall retain such dividends or money as hereinafter provided, be entitled to receive and may give discharge for any dividends or other moneys payable in respect of the share.
- 55 Instrument of transfer The instrument of transfer shall be in writing and all provisions of Section 108 of the Act and statutory modification thereof for the time being shall be duly complied with in respect of all transfer of shares and registration thereof.
- 56 Registration of transfer Every instrument of transfer duly stamped and executed shall be left at the Office of the Company for registration, accompanied by the certificates of the shares to be transferred and such other evidence as the Company may require to prove the title of the transferor or his right to transfer the shares. The Company shall retain all instruments of transfer, which shall be registered, but any instrument of transfer, which the Board may decline to register, shall, on demand be returned to the person depositing the name.
- 57 Board may refuse to register transfer Subject to the provisions of Section 111 of the Act the Board may, at its own absolute discretion and by giving reasons thereof, decline to register or acknowledge any transfer of shares whether fully paid

		<p>or not provided that registration of transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except when the Company has a lien on the shares. Transfer of shares/debentures in whatever lot shall not be refused.</p>
58	Title to the shares of a deceased Member	<p>The executors or administrators of a deceased Member (not being one of several joint-holders) shall be the only persons recognized by the Company, as having any title to the shares registered in the name of such deceased Member and in the case of death of any one or more of the joint-holder of any registered share the survivors shall be the only persons recognized by the Company as having any title to or interest in such shares. Provided however, that if the deceased Member was a Member of a joint Hindu family and the Board on being satisfied that the shares standing in such name in fact belonged to the joint family may recognize the survivor or the Karta thereof as having title to the shares registered in the name of such Members. In any case it shall be lawful for the Board in their absolute discretion to dispense with production of probate or letter of administration or other legal representation upon such terms as to indemnity or otherwise as the Board may deem expedient and justified.</p> <p>In case of the death of any one or more of the persons named in the Register of Members as the joint holders of any share, the survivor or survivors shall be the only persons recognized by the Company, subject to the provisions of the clause on right to nomination, as having any title to or interest in such share, but nothing herein contained shall be taken to release the estate of a deceased joint holder from any liability on shares held by him with any other person.</p>
59	Registration of transmission	<p>Any person, becoming entitled to shares in consequence of the death or bankruptcy of any Member upon producing such evidence that he sustains the character in respect of which he proposed to act under this Article or his title as the Board may think sufficient, may with the consent of the Board (which they shall not be under any obligation to give) be registered as a Member in respect of such shares subject to Article 47 (Transmission of Shares).</p>
60	Board right to refuse registration of transmission	<p>The Board shall have the same right to refuse a person entitled by transmission to any share or his nominee, as if he was the transferor named in an ordinary transfer for registration.</p>
61	No transfer to minor etc	<p>No share shall in any circumstances be transferred to any infant, minor, insolvent or person of unsound mind, except fully paid shares through a legal guardian.</p>
62	Application for transfer	<ol style="list-style-type: none"> An application for registration of a transfer of the shares in the Company may be made either by the transferor or the transferee. Where the application is made by the transferor and relates to partly paid shares, the transfer shall not be registered unless the Company gives notice of the application to the transferee and the transferee makes no objection to the transfer within two weeks from the receipt of the notice. For the purpose of clause (b) above, notice to the transferee shall be deemed to have been duly given if it is dispatched by

prepaid registered post to the transferee at the address given in the instrument of transfer and shall be deemed to have been duly delivered in the ordinary course of post.

- | | | |
|----|---|--|
| 63 | Execution of transfer | The instrument of transfer of any share shall be duly stamped and executed by or on behalf of both the transferor and the transferee and shall be attested, if required. The transferor shall be deemed to remain the holder of such shares until the name of the transferee shall have been entered in the Register of Members in respect thereof. The instrument of transfer shall be in respect of a specific class of shares and should be in the form prescribed under the Act. |
| 64 | Register of Members when closed. | The Board shall have the power on giving not less than seven days previous notice by advertisement in some newspaper circulating where the Registered Office of the Company is situated to close the Register of Members and/or Register of Debenture Holder at such time or times and for such period or periods, not exceeding thirty days at a time, and not exceeding in the aggregate forty five days in each year as it may seem expedient to the Board. |
| 65 | Company not liable for discharge of a notice prohibiting registration of a transfer | The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effect to any transfer of shares made or purporting to be made by any apparent legal owner thereof as shown or appearing in the Register of Members to the prejudice of persons having or claiming any equitable right, title or interest to or in the said shares, notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer and may have entered such notice, or referred thereto in any book of the Company and the Company shall not be bound or required to regard or attend or give effect to any notice which may be given to it of any equitable right, title or interest, or be under any liability whatsoever for refusing or neglecting to do so, though it may have been entered or referred to in some book of the Company, but the Company shall nevertheless, be at liberty to regard and attend to any such notice, and give effect thereto if the Board shall so think fit. |
| 66 | Compliance with rules, regulations and requirements of stock exchanges, etc. | The Company shall comply with the rules, regulations and requirements of the Stock Exchange or the rules made under the Act, or the rules made under the Securities Contracts (Regulation) Act, 1956 or any other law or rules applicable, relating to the transfer or transmission of shares or debentures. |

INCREASE, REDUCTION AND ALTERATION OF SHARE CAPITAL

- | | | |
|----|---|---|
| 67 | Increase of capital | The Company may, by a resolution passed in a General Meeting, from time to time increase the share capital by the creation of new shares of such amount as may be deemed expedient and specified in the resolution, subject to compliance with the provision of the Act and of any other laws that may be in force. |
| 68 | On what conditions new shares may be issued (whether preferential or not) | New shares shall be issued upon such terms and conditions and with such rights and privileges attached thereto as are consistent with provisions of the Act and which the General Meeting, resolving upon the creation thereof shall direct and if no direction be given, as the Board shall determine, and in particular such shares may be issued with a preferential or qualified right to dividends and in the distribution of assets of the Company and with a special or without any right of voting. |

the following provisions shall apply:

The requisition shall state the matter for the consideration of which the General Meeting is to be called, shall be signed by the requisitionists and shall be deposited at the Office. The requisition may consist of several documents in like form each signed by one or more requisitionists.

Where two or more distinct matters are specified in the requisition, the requisition shall be valid only in respect of those matters in regard to which the requisition has been signed by the Member or Members herein before specified.

If the Board does not, within twenty-one days from the date of deposit of a valid requisition in regard to any matters, proceed duly to call a General Meeting for the consideration of these matters on a day not later than forty five days from the date of deposit, the requisitionists or such of them as are entitled so to do by virtue of Section 169 (6) (b) of the Act may themselves call the General Meeting but any General Meeting so called shall not be convened after three months from the date of deposit.

Any General Meeting called under this Article by the requisitionists shall be called in the same manner as nearly as possible as that in which General Meetings are to be called by the Board.

Where two or more persons hold any shares jointly a requisition or notice calling a General Meeting signed by one or some only of them shall, for the purposes of this Article, have the same force and effect as if it had been signed by all of them.

Any reasonable expenses incurred by the requisitionists by reason of the failure of the Board duly to call a General Meeting shall be repaid to the requisitionists by the Company and any sum so repaid shall be retained by the Company out of any sums due or to become due from the Company by way of fees or other remuneration for their services to such of the Directors as were in default.

87 Circulation of Members' Resolutions

The Company shall comply with the provisions of Section 188 of the Act as to giving notice of resolutions and circulating statements on the requisition of Members.

88 Notice of Meeting

Save as provided in sub-section (2) of Section 171 of the Act, not less than 21 day's notice shall be given of every General Meeting of the Company. Every notice of a General Meeting shall specify the place and the day and hour of the General Meeting and shall contain a statement of the business to be transacted thereat.

Notice of every General Meeting of the Company shall be given to every Member of the Company, the Auditors of the Company and to any persons entitled to a share in consequence of the death or insolvency of a Member in any manner hereinafter authorized for the giving of notices of such persons. The accidental omission to give any such notice to or the non-receipt by any Member or other person to whom it should be given shall not invalidate the proceeding of the General Meeting.

89 Meeting by shorter notices

Notwithstanding anything contained in the preceding clauses, with the consent in writing a General Meeting may be called after giving shorter notice, in the case of an Annual General Meeting by all Members entitled to vote there at and, in the case of any other

		General Meeting, by Members of the Company holding not less than 95 percent of such part of the paid up share capital of Company as gives a right to vote at the General Meeting.
90	Explanatory statement and Scrutinizers at poll not to	Sub-sections (2) and (3) of Section 173 of the Act relating to explanatory statement to be annexed to notice of a General Meeting and Section 184 thereof relating to Scrutinizers at poll shall apply to this Company.
