***Subject to finalisation of the Basis of Allotment.

RISKS IN RELATION TO THE FIRST OFFER

The face value of the Equity Shares is ₹2 each. The Floor Price, Cap Price and Offer Price determined by our Company and the Investor Selling Shareholder in consultation with the Book Running Lead Managers, on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, as stated under “*Basis for the Offer Price*” on page 130, should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISK

Investments in equity and equity related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have not been recommended or approved by the Securities and Exchange Board of India (“**SEBI**”), nor does, SEBI guarantee the accuracy or adequacy of the contents of this Prospectus. Specific attention of the investors is invited to “*Risk Factors*” on page 36.

ISSUER’S AND SELLING SHAREHOLDERS’ ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Each of the Selling Shareholders severally, and not jointly, accepts responsibility for and confirms the statements made or confirmed by such Selling Shareholder in this Prospectus to the extent of information specifically pertaining to them and their respective portion of the Offered Shares, and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. However, each of the Selling Shareholders, severally and not jointly, assume no responsibility for any other statement, including, inter-alia, any of the statements made by or relating to our Company or its business or any of the other Selling Shareholder in this Prospectus.

LISTING

The Equity Shares offered through the Red Herring Prospectus and this Prospectus are proposed to be listed on National Stock Exchange of India Limited (“**NSE**”) and BSE Limited (“**BSE**”, and together with NSE, the “**Stock Exchanges**”). For the purposes of the Offer, NSE is the Designated Stock Exchange.

*****SUBJECT TO FINALISATION OF THE BASIS OF ALLOTMENT.**

THE FACE VALUE OF THE EQUITY SHARE IS ₹2 EACH. THE OFFER PRICE IS 425 TIMES THE FACE VALUE OF THE EQUITY SHARES.

This Offer was made through the Book Building Process, in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the Securities and Exchange Board of India (Issue of Capital And Disclosure Requirements) Regulations, 2018, as amended (the "**SEBI ICDR Regulations**") and in compliance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer was made available for allocation on a proportionate basis to Qualified Institutional Buyers ("**QIBs**"), and such portion, the "**QIB Portion**"). . Our Company and the Investor Selling Shareholder in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis ("**Anchor Investor Portion**"). One-third of the Anchor Investor Portion was reserved for the domestic Mutual Funds, subject to valid Bids having been received from the domestic Mutual Funds at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. . Further, 5% of the QIB Portion (other than Anchor Investor Portion) ("**Net QIB Portion**") was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. Further, not less than 15% of the Offer was made available for allocation to Non-Institutional Bidders (out of which one-third of the portion available to Non-Institutional Bidders was reserved for Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million and two-third was reserved for Bidders with application size of more than ₹1.00 million) and not less than 35% of the Offer was made available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received from them at or above the Offer Price. All Bidders, other than Anchor Investors, were required to participate in the Offer by mandatorily utilising the Application Supported by Blocked Amount ("**ASBA**") process by providing details of their respective ASBA Account (as defined hereinafter) and UPI ID in case of UPI Bidders (as defined hereinafter), as applicable, pursuant to which their corresponding Bid Amounts was blocked by the Self Certified Syndicate Banks ("**SCSBs**") or by the Sponsor Banks under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors were not permitted to participate in the Offer through the ASBA process. For further details, see "*Offer Procedure*" on page 474.

RISKS IN RELATION TO THE FIRST OFFER

This being the first public issue by our Company, there has been no formal market for the Equity Shares of our Company. The face value of the Equity Shares is ₹2 each. The Offer Price, Floor Price or the Price Band as determined by our Company and the Investor Selling Shareholder, in consultation with the Book Running Lead Managers, on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, as stated under "*Basis for the Offer Price*" on page 130, should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding active and/or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISK

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares have not been recommended or approved by SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of this Prospectus. Specific attention of the investors is invited to "*Risk Factors*" on page 36.

ISSUER'S AND SELLING SHAREHOLDERS' ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Each of the Selling Shareholders severally, and not jointly, accepts responsibility for and confirms the statements made or confirmed by such Selling Shareholder in this Prospectus to the extent of information specifically pertaining to them and their respective portion of the Offered Shares, and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. However, each of the Selling Shareholders, severally and not jointly, assume no responsibility for any other statement, including, inter-alia, any of the statements made by or relating to our Company or its business or any of the other Selling Shareholder in this Prospectus.

LISTING

The Equity Shares offered through the Red Herring Prospectus and this Prospectus are proposed to be listed on the Stock Exchanges. Our Company has received 'in-principle' approvals from BSE and NSE for the listing of the Equity Shares pursuant to letters dated September 12, 2023 and September 13, 2023, respectively. For the purposes of the Offer, NSE is the Designated Stock Exchange. A copy of the Red Herring Prospectus was filed and this Prospectus shall be filed with the RoC in accordance with Sections 26(4) and 32 of the Companies Act, 2013. For details of the material contracts and documents that were available for inspection from the date of the Red Herring Prospectus until the Bid / Offer Closing Date, see "*Material Contracts and Documents for Inspection*" on page 509.

VCFs	Venture capital funds as defined in and registered with the SEBI under the Securities and Exchange Board of India (Venture Capital Fund) Regulations, 1996 or the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012, as the case may be

Business, technical and industry-related terms

Term	Description
BEV	Battery Electric Vehicle
CAD	Computer-aided Design
CAM	Computer Aided Manufacturing
Cash Conversion Cycle	Cash conversion cycle is calculated as inventory days plus trade receivable days minus Trade payable days. Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 365 days. Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 365 days. Trade payable days is calculated as Trade payable divided by COGS multiplied by 365 days.
Cost of Goods Sold ('COGS')	Cost of Goods Sold is a sum of cost of raw materials and components consumed, (increase)/decrease in inventories of finished goods, work-in-progress, scrap, purchase of traded goods and cost of services
CNC	Computer Numerical Control
CNG	Compressed Natural Gas
Debt/ Total Net Worth	Debt/ Total Net worth is calculated as total debt (including current and non-current borrowings) divided by total equity
EBITDA	EBITDA is calculated as profit for the period / year minus other income and share of net profit of joint venture plus finance costs, depreciation and amortisation, total income tax expenses.
EBITDA Margin (%)	EBITDA margin is calculated as EBITDA divided by Revenue from Operations.
ECV	Electrically Chargeable
EV	Electric Vehicle
GHG	Green House Gas
Gross Fixed Assets Turnover Ratio	Gross fixed assets turnover ratio is calculated as revenue from operations for the period / year divided by cost of property, plant and equipment.
Gross Margin	Gross margin is calculated as Gross Profit divided by Revenue from Operations.
Gross Profit	Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus (increase)/decrease in inventories of finished goods, work-in-progress and scrap
Growth in revenue from operations (%)	Growth in revenue from operations (%) is calculated as a percentage of Revenue from Operations of the relevant period / year minus Revenue from Operations of the preceding period / year, divided by Revenue from Operations of the preceding period / year
HCV / Heavy Commercial Vehicles	Heavy commercial vehicles
HEV	Hybrid Electric Vehicle
H2-ICE	Hydrogen Internal Combustion Engine
ICE	Internal Combustion Engine
LCV	Light Commercial Vehicle
LNG	Liquified Natural Gas
MT	Metric tonnes
OEMs	Original Equipment Manufacturers
OHV	Off-Highway Vehicle
Profit After Tax / PAT	Profit after tax means restated profit for the period / year
Profit After Tax Margin / PAT Margin	PAT margin is calculated as restated profit for the period / year divided by Revenue from Operations.
PV	Passenger Vehicle
Restated Profit	Restated profit for the period / year
Return on Capital Employed/ (ROCE)	Return on capital employed is calculated as EBIT divided by Capital Employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the period / year plus total income tax expense plus finance costs.
Return on Equity	Return on equity is calculated as restated profit for the period / year divided by total equity.
Revenue from Operations	Revenue from operations means the revenue from operations for the period / year
Revenue from Sale of products and services (domestic) (%)	Percentage of revenue (%) from domestic is calculated as revenue from domestic sale of products and services divided by total revenue from sale of products and services.
Revenue from Sale of products and services (exports) (%)	Percentage of revenue (%) from exports is calculated as revenue from exports sale of products and services divided by total revenue from sale of products and services
Revenue from Sale of Forged	Revenue from sale of forged products.

Term	Description
Products	
Revenue from Sale of Forged Products (%)	Percentage of revenue (%) from forged products is calculated as revenue from sale of forged products divided by total revenue from sale of products
Revenue from Sale of Machined components	Revenue from sale of machined components.
Revenue from Sale of Machined components (%)	Percentage of revenue (%) from machined products is calculated as revenue from sale of machined products divided by total revenue from sale of products
Revenue from Sale of products (split by End-use Industry)	Percentage of revenue (%) from a particular end use industry has been calculated as a revenue from sale of products from that particular end use industry (Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications) divided by the total revenue from sale of products
RFQ	Request for Quote
Total Sales Volume	Total sales volume is the volume of products sold during the year, in terms of metric tonnes (MT), including scrap
2W	Two-wheeler

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

Certain conventions

All references in this Prospectus to “India” are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable.

All references herein to the “US”, the “U.S.”, the “USA”, or the “United States” are to the United States of America and its territories and possessions and all references to “U.K.”, or “United Kingdom” are to the United Kingdom of Great Britain and Northern Ireland.

Page Numbers

Unless indicated otherwise, all references to page numbers in this Prospectus are to page numbers of this Prospectus.

Financial data

Unless stated otherwise or the context otherwise requires, the financial information in this Prospectus is derived from the Restated Financial Information.

Unless the context requires otherwise, the financial information in this Prospectus is derived from (i) our restated consolidated summary statement of assets and liabilities of the Company and its Erstwhile Joint Venture as at September 30, 2022, March 31, 2023 and March 31, 2022, our restated consolidated summary statement of profit and loss (including other comprehensive income), our restated consolidated summary statement of cash flows and the restated consolidated summary statement of changes in equity for the six months ended September 30, 2022, and for the financial years ended March 31, 2023 and March 31, 2022 together with the summary statement of significant accounting policies, and other explanatory information relating to such financial periods; and (ii) our restated standalone summary statement of assets and liabilities as at September 30, 2023 and March 31, 2021, our restated standalone summary statement of profit and loss (including other comprehensive income), our restated standalone summary statement of cash flows and the restated standalone summary statement of changes in equity for the six months ended September 30, 2023 and for the financial year ended March 31, 2021 together with the summary statement of significant accounting policies and other explanatory information relating to March 31, 2021, are derived from our audited consolidated financial statements as at and for the years ended March 31, 2023 and March 31, 2022 prepared in accordance with Ind AS, our audited consolidated financial statements as at and for the six months ended September 30, 2022 prepared in accordance with Ind AS 34 and audited standalone financial statements as at and for the six months ended September 30, 2023 prepared in accordance with Ind AS 34 and as at and for the year ended March 31, 2021, prepared in accordance with Ind AS, and restated in accordance with requirements of Section 26 of Part I of Chapter III of Companies Act, SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI.

For further information on our Company’s financial information, see “*Financial Information*” on page 302.

In this Prospectus, we have compared our consolidated financial information as of and for the six months ended September 30, 2022 and as of and for the financial year ended March 31, 2022 and March 31, 2023 and our standalone financial information as of and for the six months ended September 30, 2023 and as of and for the financial year ended March 31, 2021 and these periods are not comparable to each other.

Financial information for six months ended September 30, 2023 and September 30, 2022 are not indicative of the annual results and are not comparable with the annual financial information included in this Prospectus.

In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Our Company's financial year commences on April 1 and ends on March 31 of the next calendar year. Accordingly, all references in this Prospectus to a particular Financial Year, Fiscal or Fiscal Year, unless stated otherwise, are to the 12-month period ended on March 31 of that particular calendar year.

The degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, Ind AS, the Companies Act, 2013, and the SEBI ICDR Regulations. Any reliance by persons not familiar with Ind AS, the Companies Act 2013, the SEBI ICDR Regulations and Indian accounting policies and practices on the financial disclosures presented in this Prospectus should accordingly be limited.

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company's financial data. For details in connection with risks involving differences between Ind AS, U.S. GAAP and IFRS, see *"Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition"* on page 74.

Unless the context otherwise indicates, any percentage amounts (excluding certain operational metrics), with respect to the financial information of our Company in this Prospectus have been derived from the Restated Financial Information.

Non-GAAP measures

Certain non-GAAP measures presented in this Prospectus such as Gross Profit, Gross Margin, EBITDA, EBITDA Margin, PAT Margin, Return on Equity, Return on Capital Employed, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA are a supplemental measure of our performance and liquidity that are not required by, or presented in accordance with, Ind AS, Indian GAAP, or IFRS. Further, these Non-GAAP measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit / (loss) for the year / period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, or IFRS. In addition, these Non-GAAP measures, and other statistical and other information relating to our operations and financial performance, may not be computed on the basis of any standard methodology that is applicable across the industry and, therefore, a comparison of similarly titled Non-GAAP measures or statistical or other information relating to operations and financial performance between companies may not be possible. Other companies may calculate the Non-GAAP measures differently from us, limiting their usefulness as a comparative measure. Although the Non-GAAP measures are not a measure of performance calculated in accordance with applicable accounting standards, we compute and disclose them as our Company's management believes that they are useful information in relation to our business and financial performance.

Also see, *"Risk Factors – Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, Return on Capital Employed, PAT Margin, Return on Equity, Gross Fixed Assets Turnover Ratio, Gross Profit, Gross Margin and Net Debt to EBITDA have been included in this Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable."* on page 69.

Industry and market data

Unless stated otherwise, industry and market data used in this Prospectus has been derived from a report dated November 30, 2023 and titled *"Industry Report on Global and Indian Forging and Machining Markets"* (the **"Ricardo Report"**) that has been commissioned and paid for by our Company and prepared by Ricardo India Private Limited exclusively for the purpose of understanding the industry our Company operates in, exclusively in connection with the Offer. The Ricardo Report was made available on the website of our Company at <https://happyforgingsltd.com/investors>, until the Bid / Offer Closing Date. Ricardo has confirmed vide its letter dated November 30, 2023 that it is an independent agency, and is not related, in any manner, to our Company, our Directors, our Promoters, our Key Managerial Personnel, our Senior Management, the Selling Shareholders or the Book Running Lead Managers.

The data used in these sources may also have been reclassified by us for the purposes of presentation and may also not be comparable. Further, industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. The extent to which the industry and market data presented in this Prospectus is meaningful depends upon the reader's familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which we conduct business and methodologies, and assumptions may vary widely among different market and industry sources. Such information involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in *“Risk Factors – Certain sections of this Prospectus disclose information from the Ricardo Report which is a paid report and commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks”* on page 68. Accordingly, no investment decisions should be made based on such information.

In accordance with the SEBI ICDR Regulations, the section *“Basis for the Offer Price”* on page 130 includes information relating to our peer group companies, which has been derived from publicly available sources.

Currency and Units of Presentation

All references to:

- **‘Rupees’** or **‘₹’** or **‘Rs.’** or **INR** are to Indian Rupees, the official currency of the Republic of India.
- **‘U.S.\$’**, **‘U.S. Dollar’**, **‘USD’** or **‘U.S. Dollars’** are to United States Dollars, the official currency of the United States of America.
- **‘Euro’** are to Euro, the official currency of the European Union.
- **“GBP”** are to Pound, the official currency of the United Kingdom.

In this Prospectus, our Company has presented certain numerical information. Except otherwise stated, all figures have been expressed in million. One million represents ‘10 lakhs’ or 1,000,000. However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than million, such figures appear in this Prospectus expressed in such denominations as provided in their respective sources.

Figures sourced from third-party industry sources may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Prospectus in such number of decimal points as provided in such respective sources. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given, and (ii) the sum of the figures in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Time

All references to time in this Prospectus are to IST. Unless indicated otherwise, all references to a year in this Prospectus are to a calendar year.

Exchange rates

This Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

Unless otherwise stated, the exchange rates referred to for the purpose of conversion of foreign currency amounts into Rupee amounts, are as follows:

(in ₹)

Currency	Exchange Rate as on				
	September 30, 2023	September 30, 2022	March 31, 2023	March 31, 2022	March 31, 2021
1 USD	83.06	81.55	82.22	75.81	73.50
1 EUR	87.94	80.11	89.61	84.66	86.10
1 GBP	101.67	90.77	101.87	99.55	100.95

Source: www.fbiil.org.in

Note: The exchange rates are rounded off to two decimal places and in case March 31 of any of the respective years is a public holiday, the previous Working Day not being a public holiday has been considered.

Notice to Prospective Investors in the United States

The Equity Shares have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision, investors must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved. The Equity Shares have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**U.S. Securities Act**”) or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold (a) in the United States only to persons reasonably believed to be U.S. QIBs in transactions exempt from the registration requirements of the U.S. Securities Act and (b) outside the United States in “offshore transactions” (as defined under Regulation S) in compliance with Regulation S and the applicable laws of the jurisdictions where those offers and sales are made. For the avoidance of doubt, the term “U.S. QIBs” does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Prospectus as “QIBs”.

Notice to Prospective Investors in the European Economic Area

This Prospectus has been prepared on the basis that all offers of Equity Shares in Member States of the European Economic Area (“**EEA**”) (each a “**Member State**”) will be made pursuant to an exemption under the Prospectus Regulation from the requirement to produce a prospectus for offers of Equity Shares. The expression “Prospectus Regulation” means Regulation (EU) 2017/1129 of the European Parliament and Council EC (and amendments thereto). Accordingly, any person making or intending to make an offer within the EEA of Equity Shares which are the subject of the placement contemplated in this Prospectus should only do so in circumstances in which no obligation arises for the Company or any of the Book Running Lead Managers to produce a prospectus for such offer. None of the Company or the Book Running Lead Managers have authorized, nor do they authorize, the making of any offer of Equity Shares through any financial intermediary, other than the offers made by the Book Running Lead Managers which constitute the final placement of Equity Shares contemplated in this Prospectus.

Information to Distributors

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended (“**MiFID II**”); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the “**MiFID II Product Governance Requirements**”) and/or any equivalent requirements elsewhere to the extent determined to be applicable, and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any “manufacturer” (for the purposes of the MiFID II Product Governance Requirements and/or any equivalent requirements elsewhere to the extent determined to be applicable) may otherwise have with respect thereto, the Equity Shares the subject of the Offer have been subject to a product approval process, which has determined that such Equity Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the “**Target Market Assessment**”). Notwithstanding the Target Market Assessment, Distributors should note that: the price of the Equity Shares may decline and investors could lose all or part of their investment; the Equity Shares offer no guaranteed income and no capital protection; and an investment in the Equity Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Issue. Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Book Running Lead Managers will only procure investors who meet the criteria of professional clients and eligible counterparties. For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Equity Shares. Each distributor is responsible for undertaking its own target market assessment in respect of the Equity Shares and determining appropriate distribution channels.

Notice to Prospective Investors in the United Kingdom

In the United Kingdom, this document is being distributed only to, and is directed only at, persons: (A) (i) who have professional experience in matters relating to investments and who are investment professionals falling within the meaning of Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005 (the “**FSMA Order**”), (ii) falling within Article 49(2)(a) to (d) of the FSMA Order, and (iii) to whom it may otherwise lawfully be communicated; and (B) who are “qualified investors” within the meaning of Article 2I of the Prospectus Regulation (Regulation (EU) 2017/1129) as it forms part of retained EU law as defined in the European Union (Withdrawal) Act 2018 (all such persons together being referred to as “relevant persons”). This document must not be acted on or relied on in the United Kingdom, by persons who are not relevant persons. Any investment or investment activity to which the document relates is available only to, in the United Kingdom, relevant persons. The communication of this Prospectus to any person who is not a relevant person is unauthorized and may contravene the Financial Services and Markets Act 2000, as amended.

Information to Distributors

Solely for the purposes of the product governance requirements of Chapter 3 of the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK Product Governance Requirements**”) and/or any equivalent requirements elsewhere to the extent determined to be applicable, and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any “manufacturer” (for the purposes of the UK Product Governance Requirements and/or any equivalent requirements elsewhere to the extent determined to be applicable) may otherwise have with respect thereto, the Equity Shares the subject of the Offer have been subject to a product approval process, which has determined that such Equity Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in chapter 3 of the FCA Handbook Conduct of Business Sourcebook; and (ii) eligible for distribution through all permitted distribution channels (the “**UK Target Market Assessment**”). Notwithstanding the UK Target Market Assessment, “distributors” (for the purposes of the UK Product Governance Requirements) should note that: the price of the Equity Shares may decline and investors could lose all or part of their investment; the Equity Shares offer no guaranteed income and no capital protection; and an investment in the Equity Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The UK Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offer. Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Book Running Lead Managers only procured investors who met the criteria of professional clients and eligible counterparties. For the avoidance of doubt, the UK Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of Chapters 9A or 10A respectively of the FCA Handbook Conduct of Business Sourcebook; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Equity Shares. Each distributor is responsible for undertaking its own target market assessment in respect of the Equity Shares and determining appropriate distribution channels.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward looking statements include statements which can generally be identified by words or phrases such as “*aim*”, “*anticipate*”, “*are likely*”, “*believe*”, “*continue*”, “*can*”, “*shall*”, “*could*”, “*expect*”, “*estimate*”, “*intend*”, “*may*”, “*likely*”, “*objective*”, “*plan*”, “*project*”, “*propose*”, “*seek to*”, “*will*”, “*will achieve*”, “*will continue*”, “*will likely*”, “*will pursue*” or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements.

By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. These forward-looking statements are based on our management’s belief and assumptions, current plans, estimates and expectations, which in turn are based on currently available information. As a result, actual results could be materially different from those that have been estimated. Forward-looking statements reflect our current views as of the date of this Prospectus and are not a guarantee of future performance.

Although we believe that the assumptions on which such statements are based are reasonable, any such assumptions as well as statements based on them could prove to be inaccurate. Actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. This may be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industries we cater to, and our ability to respond to them, our ability to successfully implement our strategies, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and/or acts of violence. There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing;
- Our business largely depends upon our top ten customers and the loss of such customers or a significant reduction in purchases by such customers will have a significantly adverse impact on our business;
- We have not entered into any definitive agreements with our customers to purchase or place orders with our Company. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations;
- We are dependent on a few suppliers for the supply of steel, our primary raw material. Any interruption in the supply of steel could adversely affect our business, financial condition, results of operations and cash flows;
- Our inability to comply with the covenants of our financing agreements with our lenders could adversely affect our business, results of operations, cash flows and financial condition;
- Our business is dependent on the performance of certain industries particularly commercial vehicles, farm equipment and off-highway vehicles both in the Indian and overseas markets;
- We have significant power and fuel requirements and any disruption to power or fuel sources could increase our production costs and adversely affect our business, financial condition, cash flows and results of operations;
- Our business has substantial capital expenditure and working capital requirements and we may require additional capital and financing in future and thus our business operations could be curtailed if we are unable to obtain the required additional capital and financing when needed; and
- The operations of our business requires certain licenses, permits and approvals in the ordinary course of business, and the failure to obtain or retain them in a timely manner may materially adversely affect our operations.

For a further discussion of factors that could cause our actual results to differ from our estimates and expectations, see “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 36, 219 and 384, respectively.

Neither our Company, nor the Selling Shareholders, nor the BRLMs, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company will ensure that investors in India are informed of material developments pertaining to our Company and the Equity Shares from the date of this Prospectus until the date of Allotment. In accordance with the requirements of SEBI, each of the Selling Shareholders (through our Company and the BRLMs) shall, severally and not jointly, to the extent of statements specifically made or confirmed by them in relation to themselves and their respective portion of Offered Shares in this Prospectus, ensure that investors in India are informed of material developments until the date of Allotment.

SECTION II – SUMMARY OF THE OFFER DOCUMENT

This section is a general summary of certain disclosures included in this Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Prospectus, including “Risk Factors”, “The Offer”, “Capital Structure”, “Objects of the Offer”, “Industry Overview”, “Our Business”, “Our Promoters and Promoter Group”, “Financial Information” and “Outstanding Litigation and Other Material Developments” on pages 36, 80, 97, 116, 159, 219, 295, 302 and 433 respectively of this Prospectus.

Primary business of our Company

We are an engineering led manufacturer of safety critical, heavy forged and high precision machined components. We manufacture a wide range of forged and machined products such as crankshafts, front axle beams, steering knuckles, differential cases, transmission parts, planetary carriers, suspension brackets and valve bodies across industries for a diversified base of customers. We cater to domestic and global original equipments manufacturers, manufacturing commercial vehicles in the automotive sector, while in the non-automotive sector, we cater to manufacturers of farm equipment, off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

Summary of the industry in which our Company operates

The global forging and machining markets are estimated to be valued at approximately USD 71.9 billion and USD 52.5 billion, respectively, in 2023 and is expected to grow at a CAGR of 5.1% and 5.2% to reach USD 97.0 billion and USD 71.2 billion, respectively, by 2029 (*Source: Ricardo Report*). Further, the forging and machining markets in India are estimated to be valued at approximately USD 7.3 billion and USD 5.4 billion, respectively, in Fiscal 2024 and is expected to grow at a CAGR of 7.1% and 8.4% to reach USD 10.2 billion and USD 8.0 billion, by Fiscal 2029, respectively (*Source: Ricardo Report*).

Name of Promoters

As on the date of this Prospectus, our Promoters are Paritosh Kumar, Ashish Garg, Megha Garg, Ayush Capital & Financial Services Private Limited, Garg Family Trust, Paritosh Kumar Garg (HUF) and Ashish Garg & Sons (HUF). For further details, see “Our Promoters and Promoter Group” on page 295.

Offer size

The following table summarizes the details of the Offer. For further details, see “The Offer” and “Offer Structure” on pages 80 and 471, respectively.

Offer⁽¹⁾	11,865,802 Equity Shares* for cash at price of ₹850 per Equity Share (including a premium of ₹48 per Equity Share), aggregating to ₹10,085.93 million*
of which

5.	Paritosh Kumar Garg (HUF) [#]	5,607,700	6.27%	4,922,445	685,255	0.73%
6.	Megha Garg	2,419,900	2.70%	-	2,419,900	2.57%
7.	Ashish Garg & Sons (HUF)	254,200	0.28%	-	254,200	0.27%
Total (A)		78,970,000	88.24%	4,922,445	74,047,555	78.61%
Selling Shareholders (apart from our Promoter Selling Shareholder)						
8.	India Business Excellence Fund – III*	10,529,000	11.76%	2,237,475	8,291,525	8.80%
Total (B)		10,529,000	11.76%	2,237,475	8,291,525	8.80%
Total (C = A + B)		89,499,000	100.00%	7,159,920	82,339,080	87.41%

[#]Also a Promoter Selling Shareholder.

^{*}Investor Selling Shareholder.

As on the date of this Prospectus and except as disclosed above, the members of our Promoter Group do not hold any Equity Shares in our Company.

Summary of information derived from the Restated Financial Information

The following information has been derived from our Restated Financial Information for the six months ended September 30, 2023 and September 30, 2022 and for the last three Fiscals:

(₹ in million, except per share data)

Particulars	As at and for the				
	Six months ended September 30, 2023	Six months ended September 30, 2022	Fiscal ended March 31, 2023	Fiscal ended March 31, 2022	Fiscal ended March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Equity Share capital	179.00	179.00	179.00	179.00	89.50
Net worth ⁽¹⁾	11,033.34	9,047.25	9,883.06	7,876.24	6,451.59
Revenue from operations	6,729.00	5,998.00	11,965.30	8,600.46	5,849.58
Restated profit for the	1,192.99	1,163.97	2,087.01	1,422.89	864.48

(₹ in million, except per share data)

Particulars	As at and for the				
	Six months ended September 30, 2023	Six months ended September 30, 2022	Fiscal ended March 31, 2023	Fiscal ended March 31, 2022	Fiscal ended March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
period / year					
Earnings per share (basic) ⁽²⁾⁽⁶⁾ (in ₹)	13.33	13.01	23.32	15.90	9.66
Earnings per share (diluted) ⁽³⁾⁽⁶⁾ (in ₹)	13.33	13.01	23.32	15.90	9.66
Net asset value per Equity Share ⁽⁴⁾	123.28	101.09	110.43	88.00	72.09
Total borrowings ⁽⁵⁾	2,589.74	2,623.44	2,185.16	2,403.52	1,534.70

Notes:

1. Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the restated balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.
2. Basic EPS (₹) = Basic earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year.
3. Diluted EPS (₹) = Diluted earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year as adjusted for the effects of all dilutive potential Equity Shares during the year.
4. Net asset value per equity share is calculated as total equity divided by weighted average number of equity shares.
5. Total borrowings means total of non-current borrowings and current borrowing, and excludes transaction cost.
6. Basic and Diluted EPS numbers for the six months ended September 30, 2023 and September 30, 2022 have not been annualised.

For further details, see “Restated Financial Information” and “Other Financial Information” on pages 302 and 381 respectively.

Auditor qualifications

There are no qualifications by our Statutory Auditors which have not been given effect to in the Restated Financial Information.

Summary of outstanding litigation

Against the Promoters	1	Nil	Nil	Nil	Nil	Nil

[#] Determined in accordance with the Materiality Policy.

*To the extent quantifiable.

**Including Directors who are Promoters of our Company.

Further, as on the date of this Prospectus, there are no pending litigation proceedings involving any of our Group Companies which will have a material impact on our Company. For further details, see “Outstanding Litigation and

Other Material Developments” on page 433.

Risk factors

Specific attention of the investors is invited to “Risk Factors” on page 36 to have an informed view before making an investment decision.

Summary of contingent liabilities

As of September 30, 2023, our contingent liabilities as per Ind AS 37 and as per the Restated Financial Information were as follows:

Particulars	Amount (in ₹ million)
Contingent Liabilities	
Claims against the Company not acknowledged as debts:	
(i) Excise/Goods & service tax demands	18.74
(ii) Income tax demands	17.34
The above matters are subject to legal proceedings in the ordinary course of business. On the basis of the current status of the individual case and as per legal advice obtained by the Company, wherever applicable, along with the opinion of Management, when ultimately concluded will not have material effect on the results of the operations or financial position of the Company.	

For further information on such contingent liabilities as at September 30, 2023 as per Ind AS 37, see “Restated Financial Information – Note 29. Contingent liabilities and commitments” on page 361.

Summary of related party transactions

A summary of the related party transactions entered into by our Company in Fiscals 2023, 2022 and 2021 and for the six months ended September 30, 2023 and September 30, 2022, and as per Ind AS 24 – Related Party Disclosures, read with SEBI ICDR Regulations derived from the Restated Financial Information on page 366 to 368, is detailed below:

Selling Shareholders (other than the Promoter Selling Shareholder)			
8.	India Business Excellence Fund – III	10,529,000	189.95

*As certified by Goel Garg & Co., Chartered Accountants by way of their certificate dated December 21, 2023.

[#]Also a Promoter Selling Shareholder.

For further details of the average cost of acquisition of our Promoters, see “Capital Structure – Build-up of the Promoters’ shareholding in our Company” on page 104.

Details of pre-IPO placement

Our Company has not undertaken any pre-IPO placement, pursuant to the Offer.

Issue of Equity Shares for consideration other than cash in the last one year

Our Company has not issued any Equity Shares for consideration other than cash or pursuant to a bonus issue in the one year preceding the date of this Prospectus.

Split or consolidation of Equity Shares in the last one year

Our Company has not undertaken a split or consolidation of Equity Shares in the one year preceding the date of this Prospectus.

Exemption from complying with any provisions of securities laws, if any, granted by SEBI

Our Company has not applied for an exemption from complying with any provisions of securities laws by SEBI.

SECTION III – RISK FACTORS

An investment in equity shares involves a high degree of risk. Investors should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares, the industry in which we operate or to India and other jurisdictions we operate in. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a more detailed understanding of our Company and our business, prospective investors should read this section in conjunction with “Industry Overview”, “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Restated Financial Information” on pages 159, 219, 384 and 302, respectively, as well as the other financial information contained in this Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Offer including the merits and risks involved.

Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors in our Equity Shares should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment in India, which may differ in certain respects from that of other countries.

This Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. For further information, see “Forward-Looking Statements” on page 25. Unless otherwise indicated, the financial information included herein is based on our Restated Financial Information included in this Prospectus. For further information, see “Restated Financial Information” on page 302.

In this section, we have compared consolidated financial information as of and for the year ended March 31, 2022 and March 31, 2023 with our standalone financial information as of and for the year ended March 31, 2021. Further, we have compared consolidated financial information as of and for the six months ended September 30, 2022 with our standalone financial information as of and for the six months ended September 30, 2023. Therefore, these periods are not comparable to each other.

Unless otherwise indicated, industry and market data used in this section has been derived from the industry report titled “Industry Report on Global and Indian Forging and Machining Markets” dated November 30, 2023 (the “Ricardo Report”) prepared and issued by Ricardo India Private Limited, appointed by us pursuant to an engagement letter dated May 16, 2023 and exclusively commissioned and paid for by us to enable the investors to understand the industry in which we operate in connection with the Offer. The Ricardo Report was available on the website of our Company at <https://happyforgingsltd.com/investors> until the Bid / Offer Closing Date. Unless otherwise indicated, financial, operational, industry and other related information derived from the Ricardo Report and included herein with respect to any particular calendar year or Fiscal refers to such information for the relevant calendar year or Fiscal.

Internal Risk Factors

Internal risks relating to business, operations and industry and other key risks

- 1. The determination of the Price Band is based on various factors and assumptions and the Offer Price, price to earnings ratio and market capitalization to revenue multiple based on the Offer Price of our Company, may not be indicative of the market price of the Company on listing or thereafter.**

Our revenue from operations for Fiscal 2023 and six months ended September 30, 2023 was ₹11,965.30 million and ₹6,729.00 million and restated profit for the year for Fiscal 2023 and six months ended September 30, 2023 was ₹2,087.01 million and ₹1,192.99 million, respectively. The table below provides details of our price to earnings ratio and market capitalization to revenue from operations at the upper end of the Price Band:

Particulars	Price to Earnings Ratio	Market Capitalization to Revenue
For Fiscal 2023	36.45	6.69

The determination of the Price Band is based on various factors and assumptions, and was determined by our Company and Investor Selling Shareholder in consultation with the BRLMs. The relevant financial parameters based on which the Price Band was determined were disclosed in the advertisement that were issued for the publication of the Price Band. Further, the Offer Price of the Equity Shares was determined on the basis of assessment of market demand for the Equity Shares offered through the book-building process prescribed under the SEBI ICDR Regulations, and certain quantitative and qualitative factors as set out in the section “*Basis for the Offer Price*” on page 130 and the Offer Price, multiples and ratios may not be indicative of the market price of the Company on listing or thereafter.

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares.

The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, COVID-19 related or similar situations, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. As a result, we cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing. Further, the market price of the Equity Shares may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price.

- 2. Our business largely depends upon our top 10 customers. In Fiscal 2023, 2022, 2021 and in the six months ended September 30, 2023 and 2022, our revenue from top 10 customers was ₹8,384.81 million, ₹6,418.99 million, ₹4,634.06 million, ₹4,610.83 million, and ₹4,286.12 million, representing 70.08%, 74.64%, 79.22%, 68.52% and 71.46% of our revenue from operations, respectively. The loss of any of these customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.**

We derive a significant portion of our revenue from our top 10 customers. As of September 30, 2023, our relationship with our top 10 customers ranges from 10 years to 21 years. Of the top 10 customers, 8 are Indian customers and two are international customers. For further information regarding the commencement of relationship and length of relationship with our top 10 customers, see “*Our Business – Competitive Strengths – Long-standing relationships with customers across industries*” on page 230. Loss of all or a substantial portion of sales to any of our top 10 customers, in particular for any reason (including, due to loss of contracts or failure to negotiate acceptable terms, loss of market share of these customers in their industries, disputes with these customers, adverse change in the financial condition of these customers, decline in their sales, plant shutdowns, labour strikes or other work stoppages affecting production of these customers), could have an adverse impact on our business, results of operations, financial condition and cash flows. Our top 10 customers (in terms of revenue from sale of products in Fiscal 2023) was Dana India, VE Commercial Vehicles Limited, manufacturer of gears, manufacturer and supplier of automobile gears, Ashok Leyland Limited, AAM India Manufacturing Corporation, manufacturer of locomotives for Indian railways, Meritor HVS AB, JCB India Limited and Mahindra & Mahindra Limited. While there has been no loss of any of our top 10 customers in the last three Fiscals, there is no assurance that such instance will not arise in the future.

The following table sets forth revenue from our top one, top three, top five and top ten customers in the years/ periods indicated:

Customers	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Revenue from Customers (₹ million)	Percentage of Revenue from Operations	Revenue from Customers (₹ million)	Percentage of Revenue from Operations	Revenue from Customers (₹ million)	Percentage of Revenue from Operations
Top One	1,762.13	14.73%	1,392.55	16.19%	819.26	14.01%
Top Three	4,061.55	33.94%	3,032.82	35.26%	2,055.90	35.15%
Top Five	5,657.08	47.28%	4,248.12	49.39%	2,955.76	50.53%
Top Ten	8,384.81	70.08%	6,418.99	74.64%	4,634.06	79.22%

Customers	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Revenue from Customers (₹ million)	Percentage of Revenue from Operations	Revenue from Customers (₹ million)	Percentage of Revenue from Operations
Top One	823.55	12.24%	763.59	12.73%
Top Three	2,132.60	31.69%	2,004.28	33.42%
Top Five	3,016.04	44.82%	2,852.61	47.56%
Top Ten	4,610.83	68.52%	4,286.12	71.46%

Further, the volume and timing of sales to our top 10 customers may vary due to variation in demand for such customers' products or on account of their manufacturing and growth strategy. Thus, any decrease in the demand for our products from our top 10 customers, or a termination of our arrangements altogether, would adversely impact our results of operations, financial condition and cash flow. These customers may change their outsourcing strategy by moving more work in-house, replace us with our competitors, or replace their existing products with alternative products which we do not supply. Also, these customers may demand price reductions and there is no assurance that we will be able to offset any reduction of prices to these customers with reductions in our costs or by acquiring new customers.

3. ***We do not have agreements having commitment on part of our customers to purchase or place orders with us. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.***

We typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit of the products that are to be supplied to/ purchased by them from us. Pursuant to the purchase order, our customers provide us the quantities of units to be supplied along with the delivery schedules specifying the details of delivery.

Further, we have purchase and supply agreements with some of our customers. These agreements set forth the terms of sales but do not bind these customers to any specific products, specifications, purchase volumes or duration and can be terminated by these customers with or without cause and without compensation. Under the purchase and supply agreement, these customers provide us only with forecast volume for the product and there is no commitment on the part of the customer to purchase the quantities specified in the volume projections or to place new orders with us and as a result, our sales from period to period may fluctuate as a result of changes in our customers' supplier preference. Such volume projections are based on a number of economic and business factors, variables and assumptions, some or all of which may change or may not be accurate. Further, some of the purchase and supply agreements that we have entered into with our customers are governed by foreign laws, which may create both legal and practical difficulties in the case of disputes and affect our ability to enforce our rights under these agreements or to collect damages, if awarded. Such legal and practice difficulties may arise due to the different legal systems and procedures in those jurisdictions, challenges in interpreting the terms of the agreements, and enforcing judgments and awards in those foreign countries. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, we sold our products to 59, 50, 49, 52 and 48 Indian customers, representing 89.39%, 87.72%, 89.09%, 88.14% and 90.57% of the total customers served during Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, respectively. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2022 and 2023, we sold our products to seven, seven, six, seven and five international customers, representing 10.61%, 12.28%, 10.91%, 11.86% and 9.43% of the total customers served during Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, respectively. In Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, our revenue from contract with customers outside India was ₹1,383.51 million, ₹868.14 million, ₹481.05 million, ₹1,278.80 million, and ₹627.12 million, representing 12.89%, 10.94%, 8.77%, 20.75% and 11.87% of our revenue from contract with customers. For further information, see "Our Business – Our Strategies - Capitalise on increasing demand from international markets to grow exports". While there has been no instance in the last three Fiscals and six months ended September 30, 2023 where any of our international customers initiated a legal proceeding against us, there is no assurance that such instance will not arise in the future or if arises, we cannot assure that we will face challenges in enforcing our rights. Further, since our arrangement with our customers is not exclusive, it entitles the customers to replace us with another supplier.

4. *We depend on a few suppliers for the supply of steel, our primary raw material. Further, we do not have definitive supply agreements with our suppliers for the supply of steel. Interruptions in the supply of steel could adversely affect our business, financial condition, results of operations and cash flows.*

We are engaged in manufacturing complex and high precision heavy forged machined components, requiring steel of certain technical specifications. High quality steel that meets our requirements is typically supplied by a limited number of suppliers in the Indian market, hence we rely on a few suppliers to supply steel for our operations. We do not enter into definite-term agreements with our suppliers (who typically supply us through purchase orders) and they may not perform their obligations in a timely manner or at all, resulting in delays to our production schedule and adversely affecting our output. While there has been no instance where any of our supplier did not perform their obligations in a timely manner in the last three Fiscals and six months ended September 30, 2023 which had an adverse impact on the financials of the Company, we cannot assure that no instance will arise in the future where delay in supply of steel would not have an adverse impact on our results of operations, cash flows, financial condition or business. The tables below provide our cost of steel sourced from suppliers as a percentage of our total cost of materials consumed and revenue from operations in the years/ periods indicated:

Fiscal 2023			Fiscal 2022			Fiscal 2021		
Consolidated			Consolidated			Standalone		
Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Total Cost of Materials Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Total Cost of Materials Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Total Cost of Materials Consumed	Percentage of Revenue from Operations
5,164.83	94.30%	43.17%	4,374.04	100.36%	50.86%	2,887.76	112.25%	49.37%

Six months ended September 30, 2023			Six months ended September 30, 2022		
Standalone			Consolidated		
Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Total Cost of Materials Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Total Cost of Materials Consumed	Percentage of Revenue from Operations
3,308.92	103.11%	49.17%	2,514.88	91.56%	41.93%

The tables below provide the cost of steel sourced from our top one, top three and top five suppliers:

Category	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Cost of Steel Sourced (₹ million)	Percentage of Total Cost of Steel Sourced	Cost of Steel Sourced (₹ million)	Percentage of Total Cost of Steel Sourced	Cost of Steel Sourced (₹ million)	Percentage of Total Cost of Steel Sourced
Top One	2,720.06	52.67%	2,227.32	50.92%	1,328.29	46.00%
Top Three	4,624.43	89.54%	3,859.10	88.23%	2,670.32	92.47%
Top Five	4,988.87	96.59%	4,240.24	96.94%	2,828.29	97.94%

Category	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Cost of Steel Sourced (₹ million)	Percentage of Total Cost of Steel Sourced	Cost of Steel Sourced (₹ million)	Percentage of Total Cost of Steel Sourced
Top One	1,940.50	58.64%	1,633.14	64.94%
Top Three	2,858.87	86.40%	2,349.61	93.43%
Top Five	3,195.09	96.56%	2,468.35	98.15%

While there has been no instance where our suppliers were unable to supply us desired quantities of the specific grades of steel or any instance where we could not find a replacement for any particular supplier in the last three Fiscals and six months ended September 30, 2023, we cannot assure you that such instances will not arise in future. In the event if any of our supplier shows its inability to provide us the specific grades of steel and even if we may

be able to procure such specific grades of steel from other suppliers, there is no guarantee that we will be able to do so at the same price or within our delivery timelines. Our reliance on a select group of suppliers may also constrain our ability to negotiate our arrangements, which may have an impact on our ability to procure an uninterrupted supply of steel, which in turn may affect our profit margins and financial performance. We may also be required to replace a supplier if its products or services do not meet our safety, quality or performance standards.

5. *We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business, results of operations, cash flows and financial condition. We also intend to utilise a portion of the Net Proceeds for prepayment of all or a portion of the borrowings availed by our Company.*

We have entered into various financing arrangements with various lenders for short-term and long terms facilities for purposes including funding our working capital requirements and purchasing capital goods. As of October 31, 2023, our total outstanding borrowings amounted to ₹2,599.42 million. Our ability to pay interest and repay the principal for our indebtedness is dependent upon our ability to generate sufficient cash flows to service such debt. Any additional indebtedness we incur may have significant consequences, including, requiring us to use a significant portion of our cash flow from operations and other available cash to service our indebtedness, thereby reducing the funds available for other purposes, including capital expenditure and reducing our flexibility in planning for or reacting to changes in our business, competition pressures and market conditions.

Our financing arrangements include conditions that require us to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions including altering our capital structure, further issuance of any Equity Shares, effecting any scheme of amalgamation or reconstruction, changing the management and dilution of Promoters' shareholding, alteration in the constitutional documents and creation of security. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. As of the date of this Prospectus, we have received all consents required from our lenders in connection with the Offer.

In terms of security, we are required to create a mortgage or charge over our current assets, movable and immovable properties. We may also be required to furnish additional security if required by our lenders. Additionally, these financing agreements also require us to maintain certain financial ratios such as debt to equity ratio, current ratio, fixed asset coverage ratio, equity ratio (calculated as total outside liability/ tangible net worth) and total debt/ adjusted tangible net worth. While there has been no breach of such covenants in the last three Fiscals and six months ended September 30, 2023, there can be no assurance that we will be able to comply with these financial or other covenants at all times or that we will be able to obtain the consent necessary to take the actions that we believe are required to operate and grow our business. In Fiscal 2013, our Company had entered into a debt restructuring arrangement with consortium of banks (i.e., State Bank of Bikaner & Jaipur, State Bank of India, State Bank of Patiala, Punjab & Sind Bank and IDBI Bank Limited) with respect to the total debt of ₹2,107.90 million. The terms of the debt restructuring, among other things, included (i) restructuring period stretched to nine years and four months payable up to March 31, 2022; (ii) repayment period stretched to seven years and nine months (ii) reduction of interest rates across the loan facilities; (iii) sanction of additional term loan; and (iv) reduction of working capital limit. The outstanding debt was repaid by us in Fiscal 2021 and as of the date of this Prospectus, there is no outstanding amount with respect to the debt amount which was restructured. Except the above instance, there has been no re-scheduling/ re-structuring in relation to borrowings availed by our Company from any financial institutions or banks in the last three Fiscals and six months ended September 30, 2023.

Further, we are susceptible to changes in interest rates and the risks arising therefrom. Certain of our financing agreements provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further, under certain of our financing agreements, the lenders are entitled to charge the applicable rate of interest, which is a combination of a base rate that depends upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company's credit risk rating. For further information on the interest charged under our financing agreements, see "*Financial Indebtedness – Principal terms of the borrowings availed by our Company*" on page 431.

6. *Our business is dependent on the performance of certain industries particularly commercial vehicles, farm equipment and off-highway vehicles both in the Indian and overseas markets. Any adverse changes in the conditions affecting these industries can adversely impact our business, results of operations, cash flows and financial condition.*

In the automotive sector, we primarily cater to domestic and global original equipment manufacturers which manufacture commercial vehicles. In the non-automotive sector, we cater to manufacturers of farm equipment, off-highway vehicles and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries. We are exposed to fluctuations in the performance of these industries. In India, these industries may perform differently and be subject to market and regulatory developments that are dissimilar to such industries in other parts of the world. Our sales are directly dependent on the production level of these industries domestically and globally, and are affected by inventory levels of manufacturers operating in these industries. The tables below set out the revenues generated from various end-use industries and as a percentage of our revenue from sale of products:

End-use Industry	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Commercial Vehicles	4,656.76	43.65%	3,355.58	42.72%	2,054.10	37.50%
Farm Equipment	3,925.19	36.79%	3,179.74	40.48%	2,402.91	43.87%
Off-Highway Vehicles	1,692.55	15.86%	1,162.71	14.80%	910.39	16.62%
Industrial*	394.99	3.70%	157.62	2.01%	110.00	2.01%
Revenue from the Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%

*Sale of products to manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

End-use Industry	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Commercial Vehicles	2,468.14	40.38%	2,201.26	41.74%
Farm Equipment	2,035.73	33.31%	2,113.10	40.07%
Off-Highway Vehicles	770.51	12.61%	798.97	15.15%
Industrial*	837.21	13.70%	160.33	3.04%
Revenue from the Sale of Products	6,111.59	100.00%	5,273.66	100.00%

*Sale of products to manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

Further, production and sales of the vehicles for which we supply products are affected by a variety of other factors that are beyond our control, including changes in government policies, changes in consumer demand, product mix shifts favouring other types of vehicles, fuel prices, vehicle electrification, economic conditions, demographic trends, employment and income levels and interest rates, disruptions in these industries' supply chain, vehicle age, labour relations, regulatory requirements, credit availability and cost of credit and general economic and industry conditions. There has not been any instance in the last three Fiscals and six months ended September 30, 2023 wherein the fluctuation in the performance of the aforesaid end-use industries in which we operate, had a material adverse effect on our business, financial condition and profitability.

If there is a decrease in the demand in the industries we currently supply to, or if there is uncertainty and other unexpected fluctuations or changes in regulations, customs, taxes or other barriers or restrictions adversely affecting the market, particularly the vehicle industry, our business, results of operations, financial condition and cash flows could be adversely affected.

7. ***We have significant power and fuel requirements and any disruption to power or fuel sources could increase our production costs and adversely affect our business, financial condition, cash flows and results of operations.***

We require substantial power and fuel for our manufacturing facilities. The following tables set forth below our power and fuel expenses (net) in the years/ periods indicated:

Fiscal 2023			Fiscal 2022			Fiscal 2021		
Consolidated			Consolidated			Standalone		
Power and Fuel Expenses (net)* (₹ million)	Percentage of Total Expenses (%)	Percentage of Revenue from Operations	Power and Fuel Expenses (net)* (₹ million)	Percentage of Total Expenses (%)	Percentage of Revenue from Operations	Power and Fuel Expenses (net)* (₹ million)	Percentage of Total Expenses (%)	Percentage of Revenue from Operations
757.64	8.22%	6.33%	676.54	10.04%	7.87%	462.63	9.77%	7.91%

*Power and fuel expenses are net of ₹34.32 million in Fiscal 2023, ₹31.49 million in Fiscal 2022 and ₹55.62 million in Fiscal 2021 on account of electricity duty subsidy receivable from Government.

Six months ended September 30, 2023			Six months ended September 30, 2022		
Standalone			Consolidated		
Power and Fuel Expenses (net)* (₹ million)	Percentage of Total Expenses (%)	Percentage of Revenue from Operations	Power and Fuel Expenses (net)* (₹ million)	Percentage of Total Expenses (%)	Percentage of Revenue from Operations
477.96	9.25%	7.10%	398.72	8.94%	6.65%

*Power and fuel expenses are net of ₹16.57 million in the six months ended September 30, 2022 and ₹27.55 million in the six months ended September 30, 2023 on account of electricity duty subsidy receivable from Government.

While we have installed solar panels in all our manufacturing facilities, we continue to purchase electricity for our operations from the state electricity board of Punjab. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, electricity cost purchased from the state electricity board of Punjab was ₹591.76 million, ₹539.66 million, ₹385.39 million, ₹402.65 million and ₹301.86 million, respectively. In case the cost of electricity from state electricity boards is increased significantly and we are not able to pass on such increase to our customers, our cost of production and profitability will be adversely affected. Interruptions of electricity supply can result in production shutdowns, increased costs associated with restarting production and the loss of production in progress. Any significant increase in power price or increased interruptions may require us to add captive power generation capacity which will lead to incremental capital expenditure which may adversely impact our results from operations. If energy costs were to rise, or if electricity supplies or supply arrangements were disrupted, our business and results from operations will be adversely impacted.

8. ***We have substantial capital expenditure and working capital requirements and may require additional capital and financing in the future and our operations could be curtailed if we are unable to obtain the required additional capital and financing when needed.***

Our business is capital intensive. We have expanded and upgraded our existing manufacturing facilities in the last three Fiscals. The following tables set forth details of our capital expenditure (i.e. payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance)) as a percentage of gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development) in the years/ periods indicated:

As of / For the Year ended March 31, 2023		As of / For the Year ended March 31, 2022		As of / For the Year ended March 31, 2021	
Consolidated		Consolidated		Standalone	
Capital Expenditure* (₹ million)	Percentage of the Gross Block**	Capital Expenditure* (₹ million)	Percentage of the Gross Block**	Capital Expenditure* (₹ million)	Percentage of the Gross Block**
1,745.87	18.70%	1,908.42	23.91%	916.64	16.76%

*Capital Expenditure comprises payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance).

**Gross Block comprises cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development.

As of / For the six months ended September 30, 2023		As of / For the six months ended September 30, 2022	
Standalone		Consolidated	
Capital Expenditure* (₹ million)	Percentage of the Gross Block**	Capital Expenditure* (₹ million)	Percentage of the Gross Block**
1,010.98	9.99%	883.01	10.24%

*Capital Expenditure comprises payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance).

**Gross Block comprises cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development.

Further, in Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, our working capital requirement was ₹2,327.00 million, ₹1,797.12 million, ₹1,557.18 million, ₹2,531.42 million and ₹2,148.64 million respectively. We intend to fund purchase of certain equipment, plant and machinery from the Net Proceeds and the total amount to be financed from Net Proceeds for such capital expenditure is approximately ₹1,711.26 million. For further information, see “Objects of the Offer – Purchase of equipment, plant and machinery” on page 118.

The actual amount and timing of our future capital requirements may differ from estimates as a result of, among other factors, unforeseen events beyond our control, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, engineering design changes, weather related delays, technological changes and additional market developments and new opportunities in the industries we operate.

Our sources of additional capital, where required to meet our capital expenditure plans or funding working capital requirement, may include the incurrence of debt or the issue of equity or debt securities or a combination of both. Further, our budgeted resources may prove insufficient to meet our requirements which could drain our internal accruals or compel us to raise additional capital. If we are required to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations.

In many cases, a significant amount of our working capital is required to finance the purchase of materials and the performance of manufacturing and other work before payment is received from customers. Our inability to obtain adequate amount of working capital at such terms which are favourable to us and in a timely manner or at all may also have an adverse effect on our results of operations, cash flows and financial condition. Continued increases in our working capital requirements may have an adverse effect on our results of operations, cash flows and financial condition.

9. We are unable to trace some of our historical records including forms filed with the Registrar of Companies

Certain of our Company’s corporate records and form filings are not traceable. These corporate records and form filings include: (i) Form 2 in respect of allotment of equity shares of the Company on August 10, 1979 and March 15, 1990; (ii) Form 23 in respect of the approval of the shareholders of the preferential issue and allotment of equity shares of the Company on March 31, 2001, September 22, 2001, January 4, 2002 and March 31, 2004; (iii) Form MGT-14 in respect of the board resolution approving the private placement of equity shares of the Company passed on August 28, 2018; (iv) share transfer forms in relation to the share transfers undertaken by the shareholders of the Company made prior to or during 2015; (v) annual returns of the Company prior to 2001; and (vi) annual return of the Company for Fiscal 2002.

While we have conducted searches of our records at our Company’s offices, on the MCA portal maintained by the Ministry of Corporate Affairs, we have not been able to trace the aforementioned corporate records. In this regard, we have also relied on the search report dated August 12, 2023 prepared by Shirin Bhatt and Associates, an independent practicing company secretary, which was prepared basis their physical search of the documents available with the Registrar of Companies and search of the information and records available on the portal of the Ministry of Corporate Affairs. Accordingly, we have included the details of the build-up of the share capital of the Company and the build-up of the Promoters’ shareholding in our Company in this Prospectus, by placing reliance on other corporate records such the resolutions passed by the Board and Shareholders, where applicable and available, annual returns filed by our Company, to the extent available, the register of members and register of transfers, maintained by our Company and board resolutions noting share transfers, for our disclosures. With respect to the appointment of two of our Directors, Narinder Singh Juneja and Vikas Giya, our Company has not been able to file the requisite form in respect of shareholders’ resolutions passed on May 5, 2006 and March 30, 2015 respectively, for regularising their appointment as a Director of our Company. We cannot assure you that, in future, we will not be subjected to any liability on account of such non-compliances. Although no legal proceedings or

regulatory actions have been initiated or pending against us in relation to such untraceable secretarial and other corporate records and documents, if we are subject to any such liability, it may have a material adverse effect on our reputation, financial condition, cash flows and results of operations. Further, there can be no assurance that there will be no such delays or non-compliances in the future and our Company will not be subject to adverse actions by the authorities.

10. *We require certain licenses, permits and approvals in the ordinary course of business, and the failure to obtain or retain them in a timely manner may materially adversely affect our operations.*

We are required to obtain certain approvals, registrations, permissions and licenses under various regulations, guidelines, circulars and statutes regulated by authorities such as the Government of India, the State Governments and certain other regulatory and government authorities, for operating our business such as consent to operate issued by the Punjab Pollution Control Board, Ludhiana, registration and license to work as factory issued by the Chief Inspector of Factories, Department of Labour, Punjab, certificate of building stability issued by the Joint Director of Factories, Punjab, amongst others, all of which to carry out/ undertake our operations. A majority of these approvals, including the consent to operate under environmental laws, are granted for a limited duration and require renewal from time to time. These approvals, licenses, registrations and permissions may be subject to numerous conditions. If we fail to obtain some or all of these approvals or licenses, or renewals thereof, in a timely manner or at all, or if we fail to comply with applicable conditions or it is claimed that we have breached any such conditions, our license or permission for carrying on a particular activity may be suspended or cancelled and we may not be able to carry on such activity, which could adversely affect our business, results of operations, cash flows and financial condition. While there has been no instance where we failed to obtain regulatory approvals in the last three Fiscals and six months ended September 30, 2023 which had an adverse material impact on the financials of the Company, there is no assurance that such instance will not arise in the future. Further, while there has been no instance in the last three Fiscals and six months ended September 30, 2023 where our license was suspended or cancelled by any regulatory authority which impacted our operations, there is no assurance that such instance will not arise in the future. One of our approval has expired in the ordinary course of business, for which we have made an application dated June 13, 2023 with EEPC India (formerly known as Engineering Export Promotion Council) which is pending as of the date of this Prospectus. For further information on the nature of approvals and licenses required for our business and for information on the material approvals applied for, see “*Government and Other Approvals*” on page 439. In addition, we have and may need to in the future, apply for certain additional approvals, including the renewal of approvals, which may expire from time to time.

There is no assurance that such approvals and licenses will be granted or renewed in a timely manner or at all by the relevant governmental or regulatory authorities. Failure to obtain or renew such approvals and licenses in a timely manner would make our operations non-compliant with applicable laws and may result in the imposition of penalties by relevant authorities and may also prevent us from carrying out our business. Our licenses and approvals are subject to various conditions, including periodic renewal and maintenance standards. Any actual or alleged failure on our part to comply with the terms and conditions of such regulatory licenses and registrations could expose us to legal action, compliance costs or liabilities, or could affect our ability to continue to operate at the locations or in the manner in which we have been operating thus far.

11. *Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution and if there are any delays or cost overruns, our business, cash flows, financial condition and results of operations may be adversely affected.*

We intend to use the Net Proceeds of the Fresh Issue for the purposes described in “*Objects of the Offer*” on page 116. The objects of the Fresh Issue and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. Whilst a monitoring agency will be appointed for monitoring utilization of the Net Proceeds, the proposed utilization of Net Proceeds is based on our current business plan, management estimates, prevailing market conditions and other commercial considerations, which are subject to change and may not be within the control of our management. Based on the competitive nature of our industry, we may have to revise our business plan and/ or management estimates from time to time and consequently our funding requirements may also change. Our internal management estimates may exceed fair market value or the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our project and capital expenditure and may have an adverse impact on our business, financial condition, results of operations and cash flows.

Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Further, pending utilization of Net Proceeds towards the Objects of the Offer, our Company

will have the flexibility to deploy the Net Proceeds and to deposit the Net Proceeds temporarily in deposits with one or more scheduled commercial banks included in Second Schedule of Reserve Bank of India Act, 1934, as may be approved by our Board or IPO Committee. Accordingly, prospective investors in the Offer will need to rely upon our management's judgment with respect to the use of Net Proceeds.

12. *We are exposed to counterparty credit risk and any delay in receiving payments or non-receipt of payments may adversely impact our business, financial condition, cash flows and results of operations.*

We are subject to counterparty credit risk and a significant delay in receiving payments or non-receipt of large payments from our customers may adversely impact our business, financial condition, cash flows and results of operations. Our operations involve extending credit to our customers in respect of sale of our products and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. There is no assurance that we will accurately assess the creditworthiness of our customers. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, our Company made a provision for doubtful receivables and advance for ₹1.84 million, ₹0.58 million, ₹50.76 million, ₹0.29 million and ₹2.66 million, respectively, representing 0.02%, 0.01%, 0.87%, 0.00% and 0.04% of the revenue from operations during the same period, respectively. Doubtful receivables and advance is defined as provisions made against trade receivables, capital advances and balance with government authorities during the respective Fiscals/ periods. Further, macroeconomic conditions, such as a potential credit crisis in the global financial system, could also result in financial difficulties for our customers, including limited access to the credit markets, insolvency or bankruptcy. Such conditions could cause our customers to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. The following table sets forth below details of our credit cycle, as well as our trade receivables, in the corresponding years/ periods:

Particular	As of/ For the Year Ended March 31,		
	2023	2022	2021
	Consolidated	Consolidated	Standalone
Average Credit Cycle (Number of Days)	83	82	95
Trade Receivables (₹ million)	3,080.60	2,220.36	1,657.69
Trade Receivables, as a Percentage of Revenue from Operations (%)	25.75%	25.82%	28.34%

Particular	As of/ For the six months ended September 30,	
	2023	2022
	Standalone	Consolidated
Average Credit Cycle (Number of Days)	86	81
Trade Receivables (₹ million)	3,230.16	3,057.01
Trade Receivables, as a Percentage of Revenue from Operations (%)	48.00%	50.97%

We are also dependent upon the market for financing, and the inability for us, our customers or our suppliers to obtain and maintain sufficient capital financing, including working capital lines, and credit insurance may adversely affect our, our customers' and our suppliers' liquidity and financial condition. If our customers delay or default in making these payments, our profits margins and cash flows could be adversely affected.

13. *Any failure to compete effectively in the highly competitive forged and machined components industry could have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We face competition in India and overseas in our business, which is based on many factors, including product quality and reliability, breadth of product range, product design and innovation, technology, manufacturing capabilities, scope and quality of service, price and brand recognition. We compete with global competitors to retain our existing business as well as to acquire new business. Some of our competitors may have certain advantages, including greater financial, technical and/ or marketing resources, which could enhance their ability to finance acquisitions, fund international growth, respond more quickly to technological changes and/ or operate in more diversified geographies and product portfolios.

Some of our competitors may be able to produce similar or equivalent products at lower costs than we can produce them. Accordingly, we may not be able to compete effectively with our competitors or may be required to reduce

prices to remain competitive, which may have an adverse effect on our business, profitability margins, financial condition, results of operations and cash flows.

Further, manufacturers that do not currently compete with us could expand their product portfolios to include products that would compete directly with ours. Changes in the product focus of larger manufacturers who may have an existing relationship with our customers that may reduce or entirely replace our business with those customers.

14. *We are subject to strict performance requirements, including, but not limited to, quality and delivery, by our customers, and any failure by us to comply with these performance requirements may lead to the cancellation of existing and future orders, recalls or warranty and liability claims.*

We are engaged in the manufacturing and supply of critical and complex products such as crankshafts, front axle beams, steering knuckles, differential cases, transmission parts, pinion shafts, suspension products and valve bodies which are used in various industries including automotive, oil and gas, power generation, railways and wind turbines. These products are required to meet precise and specific requirements including in terms of quality, measurements and tolerances. Failure by us to achieve or maintain compliance with these requirements or quality standards may disrupt our ability to supply products sufficient to meet our customers' demands, lead to the cancellation of existing and future orders, result in us incurring costs for repairing or replacing defective products as well as conducting product recalls and paying warranty and liability claims, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our agreements with customers or purchase orders issued by them, have standard liability clauses in relation to quality and delivery of our products, which ordinarily do not have any limits. Accordingly, we are required to provide warranty for such quality and delivery related obligations, which may or may not be capped in terms of time or monetary value. Further, the supply of defective products may result in our customers initiating litigation against us, which could materially harm our reputation, business, financial condition, cash flows and results of operations.

Furthermore, we may be subject to liability claims by third parties in the event that the use of any of our products results in personal injury or property damage, which could adversely affect our reputation and business and, to the extent not covered by insurance, our results of operations, financial condition and cash flows. Although we have obtained product liability insurance, we may not be covered for all situations that may arise with regard to any defects in our products. While there have been no instances where we were subject to any product liability claims in the last three Fiscals and six months ended September 30, 2023, we cannot guarantee that we can continue to comply with all regulatory requirements or the quality standards required by our customers and there can be no assurance that no product liability claim will arise in the future. Further, while there have been no instances where we had to recall our products in the last three Fiscals and six months ended September 30, 2023, we cannot assure you that such instance will not arise in the future.

15. *Our business and profitability is substantially dependent on the availability and cost of our steel, our primary raw material and any disruption to the timely and adequate supply of steel, or volatility in the prices of Steel may adversely impact our business, results of operations, cash flows and financial condition*

We are engaged in the manufacturing of complex and high precision heavy forged and machined components, requiring steel of certain technical specifications. The tables below provide cost of raw materials and components consumed as a percentage of our total expenses in the years/ periods indicated:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Cost of Raw Materials and Components Consumed (₹ million)	Percentage of Total Expenses	Cost of Raw Materials and Components Consumed (₹ million)	Percentage of Total Expenses	Cost of Raw Materials and Components Consumed (₹ million)	Percentage of Total Expenses
5,477.24	59.39%	4,358.47	64.66%	2,572.56	54.30%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Cost of Raw Materials and Components Consumed (₹ million)	Percentage of Total Expenses	Cost of Raw Materials and Components Consumed (₹ million)	Percentage of Total Expenses
3,209.12	62.14%	2,746.63	61.59%

The tables below provide our cost of steel sourced from suppliers as a percentage of our total cost of raw materials consumed and revenue from operations in the years/ periods indicated:

Fiscal 2023			Fiscal 2022			Fiscal 2021		
Consolidated			Consolidated			Standalone		
Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Cost of Raw Materials and Components Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Cost of Raw Materials and Components Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Cost of Raw Materials and Components Consumed	Percentage of Revenue from Operations
5,164.83	94.30%	43.17%	4,374.04	100.36%	50.86%	2,887.76	112.25%	49.37%

Six months ended September 30, 2023			Six months ended September 30, 2022		
Standalone			Consolidated		
Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Cost of Raw Materials and Components Consumed	Percentage of Revenue from Operations	Cost of Steel Sourced from Suppliers (₹ million)	Percentage of Cost of Raw Materials and Components Consumed	Percentage of Revenue from Operations
3308.92	103.11%	49.17%	2514.88	91.56%	41.93%

The table below provides the value of steel in the inventory as of end of relevant years/ periods:

As of March 31, 2023		As of March 31, 2022		As of March 31, 2021	
Consolidated		Consolidated		Standalone	
Value of steel in the inventory (i.e., part of the working capital) (₹ million)	Percentage of the total inventory	Value of steel in the inventory (i.e., part of the working capital) (₹ million)	Percentage of the total inventory	Value of steel in the inventory (i.e., part of the working capital) (₹ million)	Percentage of the total inventory
557.34	32.86%	701.37	38.12%	568.02	46.72%

As of September 30, 2023		As of September 30, 2022	
Standalone		Consolidated	
Value of steel in the inventory (i.e., part of the working capital) (₹ million)	Percentage of the total inventory	Value of steel in the inventory (i.e., part of the working capital) (₹ million)	Percentage of the total inventory
736.13	33.31%	549.57	31.13%

We may experience volatility in the cost or availability of steel. While our arrangements with customers allow us to seek an upward revision in pricing, our cash flows may still be adversely affected because of any gap in time between the date of procurement of those primary raw materials and date on which we can reset the prices for our customers, to account for the increase in the prices of such raw materials. Our ability to pass through steel costs or otherwise mitigate these cost increases could adversely affect our business. From time to time, commodity prices may also fall rapidly. If this happens, suppliers may withdraw capacity from the market until prices improve which may cause periodic supply interruptions. If these supply interruptions occur, our costs for procuring our primary raw material could increase, and our business, cash flows and results of operations could be adversely affected.

Any increase in prices of steel could have an impact on our working capital as we would require additional funds to

procure the necessary steel at the higher prices. As a result, we may be required to allocate a larger portion of our working capital towards purchasing raw materials to maintain our production levels. This increased allocation towards purchase of steel can potentially strain our working capital availability.

16. We export our products to various countries and our revenue from contract with customers outside India represented 12.89%, 10.94%, 8.77%, 20.75% and 11.87% of the total revenue from contract with customers in Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, respectively. Any adverse events affecting these countries could have an adverse impact on our revenue from operations

During Fiscal 2021 to Fiscal 2023, we exported our products to nine countries including Brazil, Italy, Japan, Spain, Sweden, Thailand, Turkey, United Kingdom and United States of America. For more information on the geographies where we exported our products and revenues generated in Fiscal 2021, 2022, 2023 and the six months ended September 30, 2023 and 2022, see “Our Business – Customers” on page 257. As per Ind AS 108 “Operating Segments”, the following table sets forth our revenue from contract with customers outside India in the years/ periods indicated:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Revenue from Contract with Customers Outside India (₹ million)	Percentage of Total Revenue from Contract with Customers	Revenue from Contract with Customers Outside India (₹ million)	Percentage of Total Revenue from Contract with Customers	Revenue from Contract with Customers Outside India (₹ million)	Percentage of Total Revenue from Contract with Customers
1,383.51	12.89%	868.14	10.94%	481.05	8.77%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Revenue from Contract with Customers Outside India (₹ million)	Percentage of Total Revenue from Contract with Customers	Revenue from Contract with Customers Outside India (₹ million)	Percentage of Total Revenue from Contract with Customers
1,278.80	20.75%	627.12	11.87%

The tables below set forth details of the top three countries (in terms of revenue in Fiscal 2023) where we exported our products and revenues generated for the years/ periods indicated:

Country	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India
Sweden	346.03	25.01%	224.28	25.83%	154.68	32.15%
Turkey	275.00	19.88%	259.59	29.90%	85.76	17.83%
Italy	262.48	18.97%	203.12	23.40%	103.53	21.52%

Country	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India
Sweden	173.65	13.58%	176.62	28.16%
Turkey	137.76	10.77%	117.32	18.72%
Italy	208.79	16.33%	117.88	18.80%

An economic slowdown in Sweden, Turkey or Italy or any other countries to which we export our products may have a significant adverse impact on our business, financial condition, cash flows and results of operations. Further,

the countries where we export our products including Sweden, Turkey and Italy impose varying duties on our products. There can be no assurance that the duties imposed by such countries will not increase. India is also a party to, and is currently negotiating, free trade agreements with several countries and if we export our products to such countries, any revocation or alteration of those bilateral agreements may also adversely affect our ability to export, and consequently, our business, financial condition, cash flows and results of operations. Additionally, export destination countries may also enter into free trade agreements or regional trade agreements with countries other than India. Such agreements and alteration of existing tax treaties may lead to increased competition or may even place us at a competitive disadvantage compared to manufacturers in other countries and could adversely affect our business, financial condition, cash flows and results of operations. While we did not require any specific license, certification, registration and permits in jurisdictions where we exported our products in the last three Fiscals and six months ended September 30, 2023, there is no assurance that we may not require certification, registration and permits in jurisdictions to which we export our products in the future and our inability to secure any license, certification, registrations and permits that may become necessary in jurisdictions to which we export our products, in a timely manner or at all, could result in operational delays or suspensions and/or administrative fines and penalties, which could have a material adverse effect on the overall business, results of operations, cash flows and financial condition.

17. We derive a substantial portion of our revenue from the sale of crankshafts and loss of sales due to reduction in demand for crankshafts would have a material adverse effect on our business, financial condition, results of operations and cash flows.

We rely heavily on revenue generated from the sale of crankshafts, which are not currently utilized in battery-electric vehicles. As per the Ricardo Report, heavy-duty vehicles such as trucks, off-highway vehicles, tractors require more power and have different operating requirements than passenger vehicles, which makes it more difficult to switch to EVs. As a result, many heavy-duty vehicles will continue to use ICE or alternative engine technologies that require crankshafts (*Source: Ricardo Report*). However, if there is a significant increase in the adoption of battery-electric vehicles, particularly in commercial vehicles, farm equipment, or off-high vehicles, it could adversely affect our financial condition, cash flows, and results of operations, as the market for crankshafts may shrink. While we have not experienced any material decline in our sale of crankshafts in the last three Fiscals and six months ended September 30, 2023 due to the penetration of electric vehicles, there is no assurance that we will not face any such decline in sale of crankshafts in the future. The tables below set out the revenues generated from sale of crankshafts and as a percentage of our revenue from sale of products:

Product	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Sale of Crankshafts (₹ million)	Percentage of Revenue from Sale of Products	Sale of Crankshafts (₹ million)	Percentage of Revenue from Sale of Products	Sale of Crankshafts (₹ million)	Percentage of Revenue from Sale of Products
Crankshaft	4,831.74	45.29%	3,274.23	41.68%	2,576.49	47.04%

Product	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Sale of Crankshafts (₹ million)	Percentage of Revenue from Sale of Products	Sale of Crankshafts (₹ million)	Percentage of Revenue from Sale of Products
Crankshaft	2,937.27	48.06%	2,316.48	43.93%

We may not be able to install and commission the facilities required to manufacture new products for our customers in time for the start of production, and the transitioning of our manufacturing facilities and resources to full production for new products may impact production rates or other operational efficiency measures at our facilities. There can also be no assurance that any products we introduce will achieve market acceptance. Any failure to successfully manufacture and market new products could adversely affect our business, financial condition, cash flows and results of operations.

18. *Our manufacturing facilities are subject to operating risks. Any shutdown of our manufacturing facilities of our existing or future manufacturing facilities or other production problems caused by unforeseen events may reduce sales and adversely affect our business, cash flows, results of operations and financial condition.*

As of the date of this Prospectus, we own and operate three manufacturing facilities, of which two are located at Kanganwal in Ludhiana, Punjab and one located at Dugri in Ludhiana, Punjab. Our manufacturing facilities are subject to operating risks and we may encounter manufacturing problems or experience difficulties or delays in production as a result of occurrence of the following events or any other events beyond our control:

- forced or voluntary closure of manufacturing plants, including as a result of regulatory actions;
- problems with supply chain continuity, including as a result of natural or man-made disasters at any of our manufacturing facilities;
- manufacturing shutdowns, breakdown or failure of equipment, equipment performance below expected levels of efficiency, obsolescence of our equipment and production facilities, industrial accidents and the need to comply with the directives of relevant government authorities;
- labour disputes, strikes, lock-outs that may result in temporary shutdowns or manufacturing disruptions;
- any changes in the availability of power or water availability which impacts the entire region;
- failure of a supplier to provide us with the critical raw materials or components for an extended period of time, which could impact continuous supply; and
- changes in political relationships between India and the countries in which we export and local political tensions.

Except for the temporary shutdown of our two facilities located at Kanganwal in Ludhiana, Punjab for 43 days (i.e., from March 22, 2020 to May 3, 2020) on account of Covid-19 pandemic, there has not been any other instance of a material disruptions in the production by our manufacturing facilities in the last three Fiscals and six months ended September 30, 2023 which had an adverse affect on our business, financial conditions, cash flows and results of operations. There is no assurance that our business and financial results may not be adversely affected by any disruption of operations at our manufacturing facilities, including as a result of any of the factors mentioned above. Disruption in our manufacturing operations may result in reduced production and reduced sales or higher costs to arrange for alternative arrangements to meet our customer obligations.

Further, as of the date of this Prospectus, we operate three manufacturing facility with two manufacturing facilities located at Kanganwal in Ludhiana, Punjab and one located at Dugri in Ludhiana, Punjab. In Fiscal 2023, 2022, 2021 and six months ended September 30, 2023 and 2022, our available capacity for forging was 94,000.00 MT, 81,000.00 MT, 67,000.00 MT, 53,500.00 MT and 40,500.00 MT, respectively, and our average available capacity for machining was 44,000.00 MT, 35,500.00 MT, 29,500.00 MT, 23,870.00 MT and 21,450.00 MT respectively. In Fiscal 2023, 2022, 2021 and six months ended September 30, 2023 and 2022, our production with respect to forging was 59,187.00 MT, 54,516.00 MT, 40,451.00 MT, 35,237.43 MT and 29,812.46 MT and our production with respect to machining was 34,864.00 MT, 27,780.00 MT, 20,819.00 MT, 20,999.77 MT and 16,981.81 MT, respectively. In Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, our overall forging capacity utilization was 62.96%, 67.30%, 60.37%, 65.86% and 73.61%, respectively and our overall machining capacity utilization was 79.24%, 78.25%, 70.57%, 87.97% and 79.16%, respectively. For further information, see “*Our Business – Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation*” on page 249. While our overall machining capacity utilization has increased in the last three Fiscals and six months ended September 30, 2022 and 2023, under utilization of our existing manufacturing facilities for machining may arise due to various reasons such as changes in demand for our products and supply chain disruptions, which could have a material adverse effect on our business, financial condition, results of operations, and cash flows.

19. All of our three manufacturing facilities are located in Ludhiana, Punjab which exposes our operations to potential risks arising from local and regional factors such as adverse social and political events, weather conditions and natural disasters

All of our three manufacturing facilities are located in Ludhiana, Punjab. As of March 31, 2023, 2022 and 2021 and September 30, 2023 and 2022, our installed capacity of our three manufacturing facilities for forging was 107,000.00 MT, 81,000 MT, 67,000 MT, 120,000.00 MT and 81,000.00 MT, respectively, and our installed capacity of our three manufacturing facilities for machining was 46,100.00 MT, 35,500.00 MT, 29,500.00 MT, 47,200.00 MT and 44,100.00 MT, respectively. Due to the geographic concentration of our manufacturing facilities in Ludhiana, Punjab, our operations are susceptible to local and regional factors, such as civil unrest as well as other adverse social, economic and political events in Punjab, weather conditions, natural disasters, regional conflicts and other unforeseen events and circumstances. Consequently, any significant social, political or economic disruption, or natural calamities or civil disruptions in Punjab, or changes in policies of the state or local governments or the government of India or adverse developments related to competition in Punjab, may adversely affect our business, financial conditions, cash flows, and results of operations.

20. Our operations involve activities and materials which are hazardous in nature and could result in a suspension of operations and/or the imposition of civil or criminal liabilities which could adversely affect our business, results of operations, cash flow and financial condition.

Our operations are subject to operating risks associated with forged and machined products manufacturing. Certain operations at our manufacturing facilities, including die-grinding, forging or heat treatment can cause accidents during the manufacturing process resulting in serious injuries or death of employees or other persons, if improperly handled, and cause damage to our properties or equipment and the properties of others or to the environment. For instance, the audiometry of our employees may be impacted by the sound generated from hammering of forged products. Despite ensuring that employee safety manuals covering employee safety and environmental procedures are in place and that hazard identification and risk assessments with respect to our operations are periodically carried out, our operations are subject to significant hazards, including explosions, fires, mechanical failures and other operational problems, inclement weather and natural disasters, discharges or releases of hazardous substances, chemicals or gases; and other environmental risks. In 2022, a technical error in a broke down machine led to death of an employee who was working on the same to fix the machine. A compensation of ₹1.8 million was paid to the deceased family. Also, in 2018, we faced an industrial accident in the factory premises of our Kanganwal Facility I, due to the explosion of an argan (CO₂) mixer gas cylinder which led to the death of one of the employees. In connection with this accident, the State of Punjab through Assistant Director of Factories, Circle No. 1, Ludhiana filed a complaint dated April 5, 2019 against our Chairman and Managing Director, Paritosh Kumar in the Court of Chief Judicial Magistrate, Ludhiana, alleging violation of Section 7A(2) of the Factories Act, 1948 and Rule 66D of the Punjab Factory Rules, 1952. For further information, see “*Outstanding Litigation and Other Material Information – Litigation proceedings involving our Directors – Criminal proceedings – Litigation against our Directors*” on page 435. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, we experienced a total of 12, 16, 14, 4 and 8 accidents in our manufacturing facilities, respectively. With the exception of one accident in Fiscal 2022 as mentioned above which led to a death of an employee, these accidents caused minor injuries to employees. Given that these incidents were covered under employee state insurance, we did not claim any insurance amount for such accidents.

The occurrence of any of these hazards could result in a suspension of operations and/or the imposition of civil or criminal liabilities. We may also face claims and litigation, filed on behalf of persons alleging injury predominantly as a result of occupational exposure to hazards at our facilities. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, results of operations, cash flows and financial condition could be adversely affected. Further, our customers may require us to invest in additional safety protocols which impose incremental expenses and may impact our ability to operate at optimum efficiencies. Any such action by any of our customers may adversely impact our business, results of operations, cash flows and financial condition.

21. We are dependent on third parties for the transportation and timely delivery of our products to customers. Any failure by or loss of a third party transport service provider could result in delays and increased costs, which may adversely affect our business.

We rely on third parties for the transportation services for the timely delivery of our products to our customers located in India and other countries. The following table sets forth the freight charges and forwarding charges incurred as a percentage of our total expenses and revenue from operations in the years/ periods indicated:

Particulars	Fiscal 2023			Fiscal 2022			Fiscal 2021		
	Consolidated			Consolidated			Standalone		
	Amount (₹ million)	Percentage of Total Expense s	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Total Expense s	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Total Expense s	Percentage of Revenue from Operations
Freight and Forwarding Charges	258.59	2.80%	2.16%	201.15	2.98%	2.34%	102.56	2.16%	1.75%

Particulars	Six months ended September 30, 2023			Six months ended September 30, 2022		
	Standalone			Consolidated		
	Amount (₹ million)	Percentage of Total Expenses	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Total Expenses	Percentage of Revenue from Operations
Freight and Forwarding Charges	172.91	3.35%	2.57%	137.50	3.08%	2.29%

We use different modes of transportation, including road, air, rail and sea for our domestic and overseas operations. We engage third-party logistic service providers to provide support our transportation requirements on a need basis. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, we engaged 24, 20, 26, 19 and 18 third-party logistic service providers for road transportation of our products. In the event that these third party logistic service providers are unable to provide services for our operations for reasons which are beyond our control and we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, cash flows, financial condition, results of operations and reputation may be adversely affected.

While delivery of products to customers within India is generally shipped by road, the majority of our shipments to the foreign markets are by sea and subject to associated risks, including damage or loss of containers due to shipwreck, mishandling of our shipment at port or at sea, damage during transportation and loading and unloading. While we maintain marine open inland declaration policy to cover various risks during the transit of goods overseas, any damage suffered by us in excess of coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. In Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, we had experienced five, one, one, one and one instances, respectively wherein our products got damaged during the transportation against such respective instances, we received insurance claims amounting to ₹2.49 million, ₹0.24 million, ₹0.72 million, nil and ₹2.49 million, respectively. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third party transportation providers. Further, the unavailability of adequate port and shipping infrastructure for transportation of our products to our foreign markets may have an adverse effect on our business, financial condition, cash flows and results of operations.

22. Our delivery schedules and ability to supply products to our customers may be adversely impacted due to disruptions in transportations services on account of events such as natural disasters, pandemics, civil unrest and mass protests

We use various modes of transportation such as road, air, rail and sea, both domestically and internationally, and relies on third-party logistic service providers to support transportation requirements. Any disruptions in transportation services due to natural disasters, pandemics, mass protests, civil unrests, or similar events could impact the delivery schedules and supply chain, which could adversely affect our business, results of operations, financial condition, and cash flows. For instance, the mass protests by farmers in Delhi, Haryana, and Punjab against the three farm acts passed by the Indian Parliament in September 2020 adversely impacted the transportation and logistics sectors. Further, disruptions in transportation services could adversely impact our inventory management, which could lead to either inventory shortages or excess inventory, which could increase the operating costs. In addition, disruptions in transportation services could also have an adverse impact on our reputation since customers may experience delay.

Internal risks relating to financials

- 23. Our Statutory Auditors have included a disclaimer of opinion in the annexure to their report on the internal financial controls on the standalone financial statements of our Company for the year ended March 31, 2021. Further, our Statutory Auditors have included certain qualifications in the annexure to their audit reports on the Companies (Auditor's Report) Order, 2016 / Companies (Auditor's Report) Order, 2020, for the years ended March 31, 2023 and March 31, 2021.**

Our Statutory Auditors have included a disclaimer of opinion in the annexure to their report on the internal financial controls on the standalone financial statements of our Company for the year ended March 31, 2021. As per the opinion, our Company's internal financial control over financial reporting for the financial statements as at and for the year ended March 31, 2021 was not established in compliance with criteria based on or considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting" issued by ICAI. Because of this reason, our Statutory Auditors were unable to obtain sufficient appropriate audit evidence to provide a basis for their opinion whether our Company had adequate internal financial controls with reference to the financial statements as at March 31, 2021 and whether such internal financial controls were operating effectively. Accordingly, our Statutory Auditors did not express an opinion on Internal Financial Controls Over Financial Reporting with reference to these financial statements for the year ended March 31, 2021.

Further, our Statutory Auditors have included the following qualifications in the annexure to their audit reports on the Companies (Auditors Report) Order, 2016/ Companies (Auditor's Report) Order, 2020 for the year ended March 31, 2023 and March 31, 2021:

As at and for the year ended March 31, 2023

- Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to the Statutory Auditors and based on audit procedures performed by the Statutory Auditors, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

As at and for the year ended March 31, 2021

- Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, duty of custom, goods and service tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been slight delays in few cases.

There is no assurance that our auditors' reports for any future fiscal periods will not contain such qualifications which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected. Further, with respect to the statutory dues mentioned above which have been deposited with delays in a few cases, we cannot assure that we will not have such similar issues in the future. Further, any failure or delay in payment of such statutory dues may expose us to statutory and regulatory action, as well as significant penalties, and may adversely impact our business, results of operations, cash flows and financial condition. The table below set forth details of the provident fund, ESIC, GST and TDS paid in the last three Fiscals and six months ended September 30, 2022 and 2023:

Particulars	Fiscal 2021	Fiscal 2021	Fiscal 2021	Six months ended September 30, 2022	Six months ended September 30, 2023
Provident Fund (₹ million)	60.73	83.29	102.22	46.50	62.40
Number of employees for whom provident fund has been paid	3,116	3,402	3,655	3,219	3,393
ESIC (₹ million)	10.68	16.25	20.26	9.53	11.44
Number of employees for whom ESIC has	3,007	3,201	3,356	2,956	2,984

Particulars	Fiscal 2021	Fiscal 2021	Fiscal 2021	Six months ended September 30, 2022	Six months ended September 30, 2023
been paid					
Tax Deducted at Source on salaries ("TDS") (₹ million)	28.55	24.45	28.14	13.21	23.13
Tax Deducted at Source on other than salaries (₹ million)	34.14	42.63	51.55	23.68	50.99
Number of employees for whom TDS has been paid	31	74	64	64	84
GST (₹ million)	304.87	391.74	701.69	340.93	321.80

24. Our insurance coverage may not be adequate or we may incur uninsured losses or losses in excess of our insurance coverage which may impact on our financial condition, cash flows and results in operations.

We maintain insurance cover for our properties, including protection from fire, burglary and theft. In addition, we maintain marine export import insurance open policy, marine open inland declaration policy and marine open import declaration policy to cover various risks during the transit of goods across India and overseas, respectively, a public liability act policy to cover product liability risk, group accident guard insurance policy for our employees, group health (floater) insurance mediclaim policies for our employees and insurance policies covering directors' and officers' liability. For further information on the insurance policies availed by us, see "Our Business – Insurance" on page 263.

We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect our manufacturing facilities or corporate offices or in the regions or areas where our manufacturing facilities or corporate offices are located. Notwithstanding the insurance coverage that we carry, we may not be fully insured against certain types of risks. There are many events, other than the ones covered in the insurance policies specified above, that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, on time, or at all. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, cash flows, financial condition and results of operations could be adversely affected. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. While there has been no instance in the last three Fiscals and the six months ended September 30, 2023 where any event occurred where we experienced losses exceeding our insurance coverage, there is no assurance that such instance will not arise in the future. In Fiscal 2023, 2022, and 2021 and six months ended September 30, 2023 and 2022, we received insurance claims amounting to ₹2.49 million, ₹0.96 million, nil, nil and nil respectively, for the damages suffered by our products during transportation. The following tables set forth details of coverage of our insurance policies against the total insurable assets in the years/ periods indicated:

Particulars	As of / For the Year Fiscal 2023		As of / For the Year Fiscal 2022		As of / For the Year Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of the Total Insurable Assets*	Amount (₹ million)	Percentage of the Total Insurable Assets*	Amount (₹ million)	Percentage of the Total Insurable Assets*
Coverage of Insurance Policies	12,685.77	147.32%	10,695.02	133.29%	7,938.01	145.51%

*Insurable Assets include buildings, plant and equipment, furniture and fixtures, office equipment's, computers, electrical fittings and equipment, die and inventories in hand, vehicles and capital work-in-progress.

Particulars	As of / For the six months ended September 30, 2023		As of / For the six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of the Total Insurable Assets*	Amount (₹ million)	Percentage of the Total Insurable Assets*
Coverage of Insurance Policies	15,127.46	157.80%	12,686.34	153.29%

*Insurable Assets include buildings, plant and equipment, furniture and fixtures, office equipment's, computers, electrical fittings and equipment, die and inventories in hand, vehicles and capital work-in-progress.

Further, as of March 31, 2023, 2022 and 2021 and September 30, 2023 and 2022, our total uninsured assets which includes freehold land, intangible assets, scrap inventory, intangible assets under development were ₹616.91 million, ₹500.23 million, ₹310.56 million, ₹622.48 million and ₹605.65 million, representing 4.65%, 4.43%, 3.54%, 4.18% and 4.71% of our total assets as of March 31, 2023, 2022 and 2021 and September 30, 2023 and 2022, respectively. While there has not been any instance of damage or loss of uninsured assets (which includes freehold land, intangible assets, scrap inventory, intangible assets under development) in the last three Fiscals and six months ended September 30, 2023 which had an adverse impact on the Company's business and results from operations, any damage or loss to these uninsured assets due to unforeseen events such as natural disasters, accidents, thefts, or other incidents may impact our results of operations, cash flows and financial condition and result in significant monetary losses.

25. Pricing pressure from our customers may adversely affect our gross margin, profitability and ability to increase our prices, which may in turn have a material adverse effect on our results of operations, cash flows and financial condition.

We may experience pressure from our customers to reduce our prices, which may affect our profit margins going forward. In the past, we offered discount and incentives to our customers as per the arrangement with them. The table below sets forth the details of the discount and incentives to our customers as per contract/ schemes as per Ind AS 115 in the years/ periods indicated:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Discount and Incentives as per Contract/ Schemes (₹ million)	Percentage of Revenue from Operations	Discount and Incentives as per Contract/ Schemes (₹ million)	Percentage of Revenue from Operations	Discount and Incentives as per Contract/ Schemes (₹ million)	Percentage of Revenue from Operations
29.23	0.24%	9.56	0.11%	3.29	0.06%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Discount and Incentives as per Contract/ Schemes (₹ million)	Percentage of Revenue from Operations	Discount and Incentives as per Contract/ Schemes (₹ million)	Percentage of Revenue from Operations
21.48	0.32%	20.78	0.35%

Offering additional discount and incentives to retain our customers in the future may have an adverse impact on the results of operations, cash flows and financial conditions of our Company.

Our business is capital intensive and requires us to maintain a large and fixed cost base. Our profitability is dependent, in part, on our ability to spread fixed costs over higher sales volume. However, we may not be able to spread such fixed costs effectively as our customers generally negotiate for larger discount in price as the volume of their orders increases. To maintain our profit margins, we seek price reductions from our suppliers, improve production processes to increase manufacturing efficiency and streamline product designs to reduce costs.

We also focus on value engineering activities to reduce costs in different operational areas. If we are unable to offset customer price reductions in the future through increased volumes, improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives, our results of operations, cash flows and financial condition may be materially adversely affected. Further, our competitors may resort to aggressive pricing strategies to gain a larger market share and which may exert downward pressure on our pricing levels and profit margins and as a result, we may be required to reduce our prices which in turn may have an adverse

impact on our results of operations, cash flows and financial conditions.

26. Exchange rate fluctuations may adversely affect our business, financial conditions, cash flows and results of operations.

Our financial statements are presented in Indian Rupees. However, our revenue is influenced by the currencies that we export in as well as by currencies of countries from where we procure our plant and machinery. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the USD, Euro, and GBP, may have a material impact on our results of operations, cash flows and financial condition. The table below sets forth details:

Particulars	As of March 31, 2023		As of March 31, 2022		As of March 31, 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Revenue from Operations
Foreign- Currency Receivables	541.03	4.52%	297.96	3.46%	120.91	2.07%
Foreign Currency Payables	583.10	4.87%	576.55	6.70%	-	-
Absolute Total Foreign Currency Exposure	1,124.13	9.39%	874.51	10.17%	120.91	2.07%
Absolute Total of Foreign Currency Exposure (unhedged)	638.43	5.34%	607.16	7.06%	21.19	0.36%

Particulars	As of September 30, 2023		As of September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Operations	Amount (₹ million)	Percentage of Revenue from Operations
Foreign- Currency Receivables	692.10	10.29%	443.22	7.39%
Foreign Currency Payables	31.16	0.46%	380.08	6.34%
Absolute Total Foreign Currency Exposure	723.26	10.75%	823.30	13.73%
Absolute Total of Foreign Currency Exposure (unhedged)	298.79	4.44%	493.26	8.22%

We have a foreign exchange risk management policy to identify, assess, monitor and manage foreign exchange risks. While we hedge our foreign currency exchange risk by entering into forward exchange contracts, we cannot assure you that our measures will adequately protect our business operations, financial conditions, results of operations and cash flows from the full effects of exchange rate fluctuations. Failure to hedge effectively against exchange rate fluctuations may adversely affect our business operations, financial conditions, results of operations and cash flows. As of March 31, 2023 and September 30, 2023, ₹50.17 million and ₹276.79 million of our foreign currency receivable exposure was unhedged, respectively. While there has not been any instance in the last three Fiscals and six months ended September 30, 2023 wherein failure of hedging foreign exchange risks had a material impact on the financials of our Company, there is no assurance that such instance will not arise in the future.

Further, the table below sets forth details of our gain/ loss on foreign exchange variation (net) as a percentage of our revenue from operations:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations
45.46	0.38%	44.55	0.52%	9.82	0.17%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Loss on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations
0.98	0.01%	19.13	0.32%

27. We have certain contingent liabilities that have been disclosed in our financial statements, which if they materialize, may adversely affect our results of operations, cash flows and financial condition.

As of September 30, 2023, our contingent liabilities as per Ind AS 37 that have been disclosed in our Restated Financial Information, were as follows:

Particulars	Amount (₹ million)
Excise/ goods & services tax demands	18.74
Income tax demands	17.34

If a significant portion of these liabilities materialize, it could have an adverse effect on our business, cash flows, financial condition and results of operations. For further information of contingent liability as at September 30, 2023 as per Ind AS 37, see “Restated Financial Information – Note 29. Contingent liabilities and commitments” on page 361.

28. We have in the past entered into related party transactions and may continue to do so in the future.

We have entered into transactions with related parties in the past and from, time to time, we may enter into related party transactions in the future. These transactions include, among other things, sale of finished goods, purchase of raw materials, sale of scrap, loans taken from Directors and interest on such loans, short term employee benefits and directors sitting fees. While all such transactions have been conducted on an arm’s length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and all related party transactions that we may enter into post-listing, will be subject to Board or Shareholder approval, as necessary under the Companies Act, the SEBI Listing Regulations and other application laws. Further, it is likely that we may enter into additional related party transactions in the future. Such future related party transactions may potentially involve conflicts of interest. The tables below provide details of absolute sum of all related party transactions and the percentage of such related party transactions to our revenue from operations in the years/ periods indicated:

(₹ million, except percentages)

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021
	Consolidated	Consolidated	Standalone
Absolute sum of all related party transactions*	100.37	78.16	222.20
Revenue from Operations	11,965.30	8,600.46	5,849.58
Absolute sum of all related party transactions* as a Percentage of Revenue from Operations	0.84%	0.91%	3.80%

* Including debits, credits and balance sheet transactions without netting off.

(₹ million, except percentages)

Particulars	Six months ended September 30, 2023	Six months ended September 30, 2022
	Standalone	Consolidated
Absolute sum of all related party transactions*	58.71	41.97
Revenue from Operations	6,729.00	5,998.00
Absolute sum of all related party transactions* as a Percentage of Revenue from Operations	0.87%	0.70%

* Including debits, credits and balance sheet transactions without netting off.

For further information on our related party transactions, see “Summary of the Offer Document – Summary of related party transactions” and “Other Financial Information – Related party transactions” on pages 30 and 382.

Internal risks relating to legal and regulatory factors

29. ***We do not have trademark registration for our new corporate logo . If we are unable to register our corporate logo, we may not be able to protect or enforce our rights to own or use our corporate logo which could have an adverse effect on our business and competitive position.***

We have filed applications under classes 7, 12 and 35 each dated September 30, 2022, with the Registrar of Trade Marks, Delhi to register our current corporate logo under the provisions of the Trade Marks Act and the Trade Mark Rules, 2002. On June 1, 2023, the applications filed by our Company under classes 12 and 35 of the Trade Marks Act have received objections from the Trade Mark Registry, Delhi. Our Company on July 1, 2023 has submitted replies to each of the objections stating that our Company has used these trade marks since the year 1979 and have been using the same continuously without any interruption in relation to our goods. Further, an application filed for a similar trademark under class 7 of the Trade Marks Act by our Company has been accepted by the Trade Mark Registry, Delhi and the said trade mark has been advertised in the trademarks journal. We have submitted the necessary documents requested by the Trade Mark Registry, Delhi to support our claim regarding our applications under classes 12 and 35 of the Trade Marks Act. As on the date of this Prospectus, the status of both of these applications under classes 12 and 35 is objected. For further information on our registered trademarks and trademarks which are pending for registration and are under objection, see “Government and Other Approvals” on page 439. Consequently, we do not enjoy the statutory protections on our corporate logo accorded to registered trademarks in India. If we are unable to register trademark for our corporate logo for various reasons including our inability to remove objections to any trademark application or protect our claim in relation to the present objections raised by the Trade Mark Registry, Delhi, or if any of our unregistered trademark are registered in favour of or used by a third party in India or abroad, we may not be able to claim registered ownership of such trademark and consequently, we may not be able to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities, causing damage to our business prospects, reputation and goodwill in India and abroad. Further, any adverse outcome of these opposition proceedings may hinder our ability to use these logos in part or at all in the future. This in turn could affect our reputation, business, results of operations and prospects.

Further, the defence of intellectual property suits and related legal and administrative proceedings can be both costly and time-consuming and may significantly divert the efforts and resources of our technical and management personnel. We may not achieve a favourable outcome in any such litigation. While we have not experienced any instances of infringement of intellectual property or related litigation in the past three Fiscals and six months ended September 30, 2023, there is no assurance that such instances will not occur in the future and if any claim is adversely determined against us (including in relation to our present applications under classes 12 and 35 of the Trade Marks Act) in any of such potential litigation or proceedings, we could be subject to significant liability to third parties. We could further be subject to injunctions prohibiting the production or sale of our products. Protracted litigation could also result in our existing or potential customers deferring or limiting their purchase or use of our products until resolution of such litigation. Regardless of their merits, such claims could materially and adversely affect our relationships with current or future customers, result in costly litigation, delay or disrupt supply of products, divert management’s attention and resources, subject us to significant liabilities, or require us to cease certain activities.

30. ***Our Company, Promoters, and Directors are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows and results of operations.***

There are outstanding legal and regulatory proceedings involving our Company, our Promoters, and Directors which are pending at different levels of adjudication before various courts, tribunals and other authorities. Such proceedings could divert the management’s time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, continuity of our management, business, cash flows, financial condition and results of operations. For instance, a complaint was filed by the State of Punjab through Assistant Director of Factories, Circle No. 1, Ludhiana against one of our Promoters, Paritosh Kumar in the Court of Chief Judicial Magistrate, Ludhiana, in

connection with the industrial accident that occurred due to the blast of an argon (CO₂) gas cylinder on November 21, 2018, in the factory premises of our Kanganwal Facility I, leading to the death of one of our workers. The matter is currently pending. For further information, see “*Outstanding Litigation and Other Material Developments – Criminal proceedings – Litigation against our Company*” on page 434.

The summary of such outstanding material legal and regulatory proceedings as on the date of this Prospectus is set out below:

Name of Entity	Criminal proceedings	Tax proceedings	Statutory or regulatory proceedings	Disciplinary actions by the SEBI or Stock Exchanges against our Promoters	Material civil litigation#	Aggregate amount involved (₹ in million)*
Company						
By the Company	1	N.A.	N.A.	N.A.	Nil	16.70
Against the Company	1	24	Nil	N.A.	Nil	69.37
Directors**						
By the Directors	1	N.A.	N.A.	N.A.	Nil	16.70
Against the Directors	1	Nil	Nil	N.A.	Nil	Nil
Promoters						
By Promoters	1	N.A.	N.A.	N.A.	Nil	16.70
Against Promoters	1	Nil	Nil	Nil	Nil	Nil

Determined in accordance with the Materiality Policy.

*To the extent ascertainable and quantifiable.

**Including Directors who are Promoters of our Company.

Further, as on the date of this Prospectus, there are no pending litigation proceedings involving any of our Group Companies which will have a material impact on our Company.

We cannot assure you that any of these matters will be settled in favour of our Company, Promoters, or Directors, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, cash flows, results of operations and our reputation. For further information, see “*Outstanding Litigation and Other Material Developments*” on page 433.

Internal risks relating to the objects of the Offer

31. We intend to utilise a portion of the Net Proceeds for funding the purchase of certain equipment, plant and machinery which is subject to cost escalation. We are yet to place orders for purchase of a majority of such equipment, plant and machinery and there can be no assurance that we will be able to place orders for such equipment and machinery, in a timely manner or at all.

We intend to utilise a portion of the Net Proceeds for purchase of certain equipment, plant and machinery as part of our existing manufacturing facilities. While we have obtained the quotations from various vendors in relation to such equipment, plant and machinery, most of these quotations are valid for a limited period of time and may be subject to revisions, and other commercial factors. The cost of such equipment, plant and machinery may escalate due to changes in import duties, foreign exchange fluctuations, shortage of such machines, or increase in the cost of raw material. We are yet to place orders for equipment and machinery except for (i) hot forging press type GLF 10000 R from Farina Presse S.r.l Unico Socio for which we have made an advance payment of ₹132.53 million amounting to 25% of the total cost of the machine; and (ii) automatic die holder, cassettes and die change system for forging press type GLF 10000 R from Farina Presse S.r.l Unico Socio, for which we will bear 25% of the total cost per unit, aggregating to an amount of ₹26.55 million, through our internal accruals. Further, we are yet to place orders for such machineries and equipment for an aggregate amount of ₹1,234.04 million which constitutes 65.98% of the total estimated cost in relation to the purchase of machinery and equipment. We have estimated the total cost of such purchase of equipment, plant and machinery to be ₹1,870.34 million out of which ₹1,711.26 million will be

funded from the Net Proceeds. For further information including details regarding quotation obtained from vendors for purchase of equipment, plant and machinery, see “*Objects of the Offer – Purchase of equipment, plant and machinery*” on page 118. There can be no assurance that we will be able to place orders for such machineries, in a timely manner or at all.

Further, the costs of such machinery may escalate or vary based on external factors which may not be in our control. If our actual expenses on equipment and machinery significantly exceed our estimates, or even if our estimates were sufficient for such purchases, we may not be able to achieve the intended economic benefits, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects. We may not be able to install and duly utilise the machinery to be purchased from the Net Proceeds due to factors beyond our control such as labour shortages, inadequate performance of the equipment and machinery installed in our manufacturing facilities, defects in design or construction, the possibility of unanticipated future regulatory restrictions, taxes and duties, environment and ecology costs and other external factors. Additionally, in the event of any delay in placement of such orders, the proposed schedule implementation and deployment of the Net Proceeds may be extended or may vary accordingly, which could have an adverse impact on our growth, prospects, cash flows, results of operations and financial condition.

32. *Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*

We propose to utilize the Net Proceeds towards prepayment of all or a portion of certain borrowings availed by our Company, purchase of certain equipment, plant and machinery and general corporate purposes. For further details of the proposed objects of the Offer, see “*Objects of the Offer*” beginning on page 116. Further, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the approval of the Shareholders through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the Shareholders in a timely manner, or at all. Any delay or inability in obtaining such approval of the Shareholders may adversely affect our business or operations. Further, our Promoters or controlling shareholders, if applicable, would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Offer, at a price and manner as prescribed by SEBI.

Additionally, the requirement on Promoters or controlling shareholders, if applicable, to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that our Promoters or the controlling shareholders of our Company if applicable, will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Offer to use any unutilized proceeds of the Fresh Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business, financial conditions, cash flows and results of operations.

Other internal risks

33. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and cash flows.*

Our operations may be subject to incidents of theft or damage to inventory in transit and prior to or during godown stocking. The business may also encounter some inventory loss on account of employee theft, vendor fraud and general administrative error. For instance, our Chairman and Managing Director, Paritosh Kumar filed a criminal complaint dated July 24, 2020 before the Commissioner of Police, Ludhiana against P. Sarvanan in his capacity as president of Saran Corporation Limited (“**Respondent**”), alleging violation of Sections 406 and 420 of the Indian Penal Code, 1860 on the ground of defrauding our Company by avoiding delivery of 4,000 tonne forging press machine pursuant to payment of an advance amount aggregating to 26.00 million Japanese Yen by our Company. Thereafter, a first information report (“**FIR**”) dated June 28, 2021 was registered at Police Station, Sahnewal, Ludhiana. Aggrieved by the FIR, the Respondent filed a petition under Section 483 of Code of Criminal Procedure,

1974 in the High Court of Punjab and Haryana (“**High Court**”) seeking inter-alia to quash the FIR and to grant a stay on any further proceedings. The matter is currently pending.

For further information, see “*Outstanding Litigation and Other Material Information – Litigation proceedings involving our Directors – Criminal proceedings – Litigation by our Directors*” on page 436. While there has been no instance of fraud, theft or employee negligence which we have experienced in the last three Fiscals and six months ended September 30, 2023 which had an adverse effect on our business operations, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations, cash flows and financial condition. Additionally, losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations, cash flows and financial condition.

34. *Our Company may not be successful in implementing its strategies, including growing our product portfolio to cater to the industries such as oil and gas, power generation, wind turbine and defence and foraying into lightweight forging with introduction of aluminium components, which could adversely affect our business, cash flows, results of operations and future prospects.*

The success of our business depends largely on our ability to effectively implement our business strategies. There is no assurance that we will be able to execute our strategies on time and within the estimated budget, or that we will meet the expectations of our customers. We expect our strategies to place significant demands on our management and other resources and require us to continue growing our product portfolio and improving our operational, financial and other internal efficiencies. Further, our strategy of growing product portfolio to cater to the industries such as oil and gas, power generation, wind turbine and defence, foraying into lightweight forging with introduction of aluminium components and explore manufacturing of certain powertrain components for the electric vehicle market involves understanding different product specifications, technology and other factors, which we may currently be unfamiliar with.

In order to achieve future growth, we may be required to accurately assess new markets, develop new products, identify and enter into new customers in such industries/ markets, obtain sufficient financing for our expected capital expenditure, maintain sufficient operational and financial controls and make additional capital investments to take advantage of anticipated market conditions. If we are unable to execute or manage our strategies effectively, our business and financial results will be adversely affected. Also, see “*Our Business – Business Strategies*” on page 237.

Further, alternate products may offer similar functionality, performance, or cost advantages, which could incentivize customers to switch their sourcing strategy. Any alternate for our existing products could the demand for our existing products which in turn could affect our business, results of operations, future strategies and growth prospects. Further, there is no assurance that we may be able to manufacture such products as such products may require different machinery, expertise and tooling.

35. *We depend on our senior management and other personnel with technical expertise, and if we are unable to recruit and retain qualified and skilled personnel, our business and our ability to operate or grow our business may be adversely affected.*

We are led by our Promoters, Paritosh Kumar, Chairman and Managing Director of our Company and Ashish Garg, Managing Director of our Company, who have over 44 years and 17 years of experience in the industrial sector, respectively, and have been instrumental in the growth of our business. In addition, our Senior Management have significant experience in operations and has contributed to the growth of our business. For further details, see “*Our Management*” on page 274.

Our future performance would depend on the continued service of our Promoters, Senior Management, Key Managerial Personnel, persons with technical expertise, and the loss of any senior employee and the inability to find an adequate replacement may impair our relationship with key customers and our level of technical expertise, which may adversely affect our business, cash flows, financial condition, results of operations and prospects. While there has been no instance in the last three Fiscals and six months ended September 30, 2023 where the resignation of any Senior Management or Key Managerial Personnel had an adverse impact on our business, results of operations, cash flows or financial conditions, there is no assurance that such instance will not arise in the future. Our future success, amongst other factors, will depend upon our ability to continue to attract, train and retain qualified personnel, particularly engineers and other associates with critical expertise, know-how and skills that are capable of helping us develop technologically advanced forged and machined products and support key customers and products. We

may therefore need to increase compensation and other benefits in order to attract and retain personnel in the future, which may adversely affect our business, financial conditions, cash flows and results of operations.

The market for qualified professionals is competitive and we may not continue to be successful in our efforts to attract and retain qualified people. The specialised skills we require in our industry are difficult and time-consuming to acquire and, as a result, are in short supply. The following table sets forth the attrition rate in the years/ periods indicated:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Number of Employees Resigned	821	935	760	384	491
Attrition Rate*	29.98%	38.49%	37.68%	12.84%	18.18%

*Attrition rate is calculated as overall exits including retired employees divided by average number of employees in the relevant Fiscal/ period.

As of September 30, 2023, of the total 3,070 employees, 1,432 were skilled labourers, 1,167 were unskilled labourers and 471 were employees other than skilled and unskilled labourers, involved in various manufacturing operations. In the last three Fiscals and six months ended September 30, 2022 and 2023, we experienced high attrition rate owing to the exit of unskilled labourers. The following tables set forth details of employees who exited from our Company in the relevant years/ periods:

Particulars	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Number of employees who exited	Percentage of the total employees who exited	Number of employees who exited	Percentage of the total employees who exited	Number of employees who exited	Percentage of the total employees who exited
Skilled Labourers	232	28.26%	403	43.10%	240	31.58%
Unskilled Labourers	525	63.95%	476	50.91%	482	63.42%
Employees (other than unskilled and skilled labourers)	64	7.80%	56	5.99%	38	5.00%
Total	821	100.00%	935	100.00%	760	100.00%

Particulars	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Number of employees who exited	Percentage of the total employees who exited	Number of employees who exited	Percentage of the total employees who exited
Skilled Labourers	91	23.70%	128	26.07%
Unskilled Labourers	244	63.54%	325	66.19%
Employees (other than unskilled and skilled labourers)	49	12.76%	38	7.74%
Total	384	100.00%	491	100.00%

For further details regarding the employees, see “Our Business – Human Resources” on page 260.

Our inability to hire, train and retain a sufficient number of qualified employees could delay our ability to bring new products or services to the market and impair the success of our operations. This could have an adverse effect on our business, financial conditions, cash flows and results of operations.

Our success also depends, in part, on key customer relationships forged by our senior management. If we were to lose these members of the senior management, we cannot assure you that we will be able to continue to maintain key customer relationships or renew them, which could adversely affect our business, financial condition, results of operations and cash flows.

36. We currently avail benefits under certain Government incentive schemes. Cancellation or our inability to meet the conditions under such schemes may result in adversely affect our business operations, cash flows, results of operations and financial condition.

In the last three Fiscals, we availed certain incentives such as (i) investment subsidy where we receive reimbursement of net SGST on intra-state sales (i.e., 100% of net SGST for 15 years with a cap of 200% of Fixed capital investment); (ii) exemption from electricity duty (i.e., 100% exemption for 15 years); and (iii) exemption from external development charges/ change of land use charges (100% exemption). Further, we avail export incentives under the Duty Drawback Scheme and Remission of Duties or Taxes on Export of Products Scheme. The table below sets forth details relating to government grants recognised as per Ind AS 20:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Government Grants (₹ million)	Percentage of Revenue from Operations (%)	Government Grants (₹ million)	Percentage of Revenue from Operations (%)	Government Grants (₹ million)	Percentage of Revenue from Operations (%)
355.92	2.97%	19.47	0.23%	16.75	0.29%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Government Grants (₹ million)	Percentage of Revenue from Operations (%)	Government Grants (₹ million)	Percentage of Revenue from Operations (%)
70.64	1.05%	286.27	4.77%

Further, the above government grants recognised as per Ind AS 20, among other things, include export incentives under the Duty Drawback Scheme and Remission of Duties or Taxes on Export of Products Scheme (“RoDTEP”) aggregating to ₹32.36 million, ₹19.47 million, ₹16.75 million, ₹31.55 million and ₹14.05 million in Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, respectively.

Our governments grants recognised as per Ind AS 20 increased from ₹19.47 million in Fiscal 2022 to ₹286.27 million in the six months ended September 30, 2022 to ₹355.92 million in Fiscal 2023 primarily on account of recognition of government grant in relation to refund of eligible net SGST incentive calculated based on GST paid on eligible sales, amounting to ₹272.22 million in the six months ended September 30, 2022 and ₹323.57 million in Fiscal 2023. The amount for the six months ended September 30, 2022 and Fiscal 2023 includes grant related to earlier years (i.e., from Fiscal 2018 to Fiscal 2023) which was not recognised earlier as we did not have reasonable assurance for its ultimate realisation at that point. As on September 30, 2023, ₹272.93 million of grant amount is receivable under this scheme.

Our profitability will be affected to the extent that such benefits will not be available beyond the periods currently contemplated. Our profitability may be further affected in the future if any of such benefits are reduced or withdrawn prematurely or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits. Further, our inability to meet the conditions as prescribed under such schemes would make our Company less competitive against its competitors who have been availing this scheme by complying all conditions.

37. We have not incurred certain required portions of our profits towards corporate social responsibility (“CSR”) requirements under the Companies Act 2013.

The Companies Act 2013 stipulates the requirement of formulation of a corporate social responsibility policy and mandates our Board of Directors to ensure that our Company spends, in each Fiscal, at least two percent of the average net profits of our Company during the three immediately preceding Fiscals, in accordance with its CSR policy. In Fiscal 2023, 2022 and 2021, while our Company has made profits and accordingly allocated certain portion of such profits towards CSR activities formulated under our CSR policy, our Company has not incurred the requisite portion of the expenditure towards such activities in Fiscals 2023 and 2021. The following table sets forth the details with respect to the gross amount required to be spent, amount approved by the Board and total amount spent towards the CSR activities in the years/ periods indicated:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Gross amount required to be spent by our Company during the year (₹ million)	27.16	24.49	23.36	19.92	13.58
Amount approved by the Board during the year (₹ million)	30.00	27.00	23.36	20.00	15.00
Total amount spent during the year (₹ million)	21.45	32.02	14.44	4.78	3.00
Amount required to be deposited in separate bank account (₹ million)	5.70	-	8.92	-	-
Actual amount deposited in unspent account after the year end (₹ million)	6.00	-	9.50	-	-

During Fiscal, 2021, we could not spend the total required to be spent towards the CSR activities and as a result, an amount ₹9.50 million was deposited in an unspent account, of which ₹5.35 million was utilised in Fiscal 2022 and ₹4.15 million in Fiscal 2023 towards CSR activities. Similarly, during Fiscal 2023, we could not spend the total amount required to be spent towards the CSR activities and as a result, an amount of ₹6.00 million was deposited in an unspent account and we cannot assure you that we will be able utilise the aforesaid amount towards any CSR activities. We may be subject to imposition of notices or penalties under the Companies Act, 2013 from the Ministry of Corporates Affairs, Government of India for non-compliance in relation to our CSR expenditure, which could adversely affect our reputation and business.

38. *Any disruption to the steady and regular supply of workforce for our operations, including due to strikes, work stoppages or increased wage demands by our workforce or any other kind of disputes with our workforce or our inability to control the composition and cost of our workforce could adversely affect our business, cash flows and results of operations.*

Our manufacturing activities are labour intensive, require our management to undertake significant labour interface, and expose us to the risk of industrial action. As on September 30, 2023, we had 3,070 employees. We may be subject to industrial unrest, slowdowns, and increased wage costs, which may adversely affect our business, financial conditions, cash flows and results of operations. While we consider our relationship with our employees to be good and there has been no such instance in the three Fiscals and six months ended September 30, 2023, we could experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to perform our business operations.

Our Company also appoints independent contractors who in turn engage on-site contract labour for performance of certain of our ancillary operations. As on September 30, 2023, we had engaged 116 contract labourers. Although we do not engage these laborers directly, it is possible under Indian law that we may be held responsible for wage payments to laborers engaged by contractors should the contractors default on wage payments. Any requirement to fund such payments may adversely affect our business, financial conditions, cash flows and results of operations. Furthermore, pursuant to the provisions of the Contract Labour (Regulation and Abolition) Act, 1970, we may be directed to absorb some of these contract laborers as our employees. Any such order from a court or any other regulatory authority may adversely affect our business, cash flows and results of operations.

Further, work stoppages due to strikes or other events could result in slowdowns or closures of our operations which could have an adverse effect on our business, cash flows and results of operations. While there has been no instance in the last three Fiscals and six months ended September 30, 2023 where we experienced work stoppages due to strikes or labour unrest that resulted in closure of our operations, there is no assurance that we may not experience any such events in the future.

39. *Technology failures could disrupt our operations and adversely affect our business operations and financial performance.*

IT systems are critical to our ability to manage our manufacturing process, inventory management, financial

management, data handling and supply chain management, to maximize efficiencies and optimize costs. Our IT systems enable us to coordinate our operations, from automated manufacturing to logistics and transport, invoicing, customer relationship management and decision support. The tables below set forth details relating to the cost incurred towards technology (which includes cost incurred towards IT infrastructure, expenditure on engineering software and software related to product quality testing):

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Cost incurred towards technology (₹ million)	Percentage of Revenue from Operations (%)	Cost incurred towards technology (₹ million)	Percentage of Revenue from Operations (%)	Cost incurred towards technology (₹ million)	Percentage of Revenue from Operations (%)
19.51	0.16%	33.14	0.39%	37.57	0.64%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Cost incurred towards technology (₹ million)	Percentage of Revenue from Operations (%)	Cost incurred towards technology (₹ million)	Percentage of Revenue from Operations (%)
17.96	0.27%	16.22	0.27%

In Fiscal 2019 and Fiscal 2020, we incurred a total of ₹11.14 million for purchase of SAP license and implementation of SAP platform which helps us with business functions including production, materials, finance, inventory, maintenance, and human resource management. For further information, see “*Our Business – Information Technology*” on page 263. While there has been no instance in the last three Fiscals and six months ended September 30, 2023 where we experienced technology failure and the same had an adverse impact on the business operations of the Company, there is no assurance that such instance will not arise in the future.

If we do not allocate and effectively manage the resources necessary to implement and sustain the proper IT infrastructure, we could be subject to transaction errors and processing inefficiencies. Challenges relating to the revamping or implementation of new IT structures can also subject us to certain errors, inefficiencies, disruptions and, in some instances, loss of consumers. Our IT systems and the systems of our third party IT service providers may also be vulnerable to a variety of interruptions due to events beyond our control, including, but not limited to, natural disasters, terrorist attacks, telecommunications failures, computer viruses, hackers and other security issues. Although we have security initiatives and disaster recovery plans in place to mitigate its risk to these vulnerabilities, such measures may not have been effectively implemented or may not be adequate to ensure that its operations are not disrupted.

40. *We may undertake acquisitions, investments, joint ventures or other strategic alliances, which may have a material adverse effect on our ability to manage our business, and such undertakings may be unsuccessful.*

We may undertake acquisitions, investments, joint ventures or other strategic alliances to expand our business operations. In the past, with effect from January 8, 2022, we acquired 33.33% shareholding in Linchpin Technologies Private Limited pursuant to a joint venture agreement with VVDN Technologies Private Limited. However, due to various commercial considerations, we divested our shareholding in Linchpin Technologies Private Limited on March 31, 2023 pursuant to a share purchase agreement between our Company and VVDN Technologies Private Limited. Any future acquisitions may expose us to new operational, regulatory, market and geographic risks as well as risks associated with additional capital requirements as well as other considerable risks, including:

- our inability to integrate new operations, personnel, products, services and technologies;
- unforeseen or hidden liabilities, including exposure to lawsuits associated with newly acquired companies;
- the diversion of resources from our existing businesses;
- failure to comply with laws and regulations as well as industry or technical standards of the overseas markets into which we may expand;

- our inability to generate sufficient revenues to offset the costs and expenses of such acquisitions or strategic investment; and
- potential loss of, or harm to employees or customer relationships.

Any of these events could disrupt our ability to manage our business, which in turn could have a material adverse effect on our financial condition, cash flows and results of operations. Such risks could also result in our failure to derive the intended benefits of the acquisitions, and we may be unable to recover our investment in such initiatives.

41. *Any significant delay in receiving plant, equipment and machinery purchased from outside India could impact our business, operations, cash flows and financial conditions.*

In the past, we had purchased certain machinery and equipment from outside India for our forging and machining operations. Further, we intend to purchase certain equipment, plant and machinery such as (i) hot forging press type GLF 10000 R from an international vendor i.e., Farina Presse S.r.l Unico Socio for which we have made an advance payment of ₹132.53 million amounting to 25% of the total cost of the machine; and (ii) automatic die holder, cassettes and die change system for forging press type GLF 10000 R from an international vendor i.e., Farina Presse S.r.l Unico Socio. For more details, see “*Objects of the Offer – Details of the Objects – Purchase of Equipment, Plant and Machinery*” on page 118. Importing equipment and machinery involves a complex supply chain, which may be susceptible to various disruptions such as delays in shipping or customs clearance. Any disruption in the supply chain could lead to significant delays in receiving the plant, equipment and machinery and could affect our production timelines and impact our ability to meet customer demands, which in turn impact our business, operations, cash flows and financial conditions. Additionally, geopolitical tensions can also disrupt the supply chain for imported plant, equipment and machinery. If there is political instability or conflicts in the region where the equipment is being sourced from, it could lead to further delays or even halt the entire importing process. Such uncertainties pose a risk to our business and operations, as we may not have alternative sources for the plant, machinery and equipment we need. While there has not been any instance in the last three Fiscals and six months ended September 30, 2023 where we experienced a delay in receiving equipment, plant and machinery, there is no assurance that such an instance will not arise in the future.

42. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments. Any failure on our part to effectively address such situations, innovate and keep up with technological advancements, could adversely affect our business, results of operations, financial condition and cash flows.*

Our business is continually changing due to technological advances and scientific discoveries. These changes result in the frequent introduction of new products and services. If our technologies become obsolete for various factors, our business and results of operations could be adversely affected. Although we strive to maintain and upgrade our technologies, facilities and machinery, the technologies, facilities and machinery we currently use may become obsolete. The cost of implementing new technologies and upgrading our manufacturing facilities could be significant, which could adversely affect our business, results of operations and financial condition. Any failure on our part to effectively address such situations, innovate and keep up with technological advancements, could adversely affect our business, results of operations, financial condition and cash flows.

43. *We import machinery from foreign countries and the same is subject to certain risks which may adversely affect our business, results of operations, financial condition and cash flows.*

We import machinery from foreign countries to support our operations. In the past, we have imported machinery from certain countries including the United Kingdom, Italy and Germany. However, importing machinery entails several risks and challenges that could adversely affect our business, results of operations, financial condition and cash flows. For example, changes in government policies or trade agreements could lead to increased tariffs or import restrictions, resulting in higher costs or difficulties in importing machinery which could lead to a delay in our operations, impact our production schedules and overall business operations. Furthermore, political, economic, or logistical disruptions in the country of origin could also lead to delays in delivery, interruptions in the supply chain, or challenges in obtaining technical support which could impact our production schedules or result in a loss of business opportunities. Any of these risks could disrupt our operations, and ultimately, adversely affect our business, results of operations, financial condition and cash flows.

44. *Motilal Oswal Investment Advisors Limited, one of our Book Running Lead Managers, is an associate of our Investor Selling Shareholder.*

MO Alternates, the investment manager to the Investor Selling Shareholder is a wholly owned subsidiary of Motilal Oswal Financial Services Limited (“MOFSL”), which is one of the Syndicate Members. Further, one of the Book Running Lead Managers to the Offer i.e., Motilal Oswal is also a wholly owned subsidiary of MOFSL. In addition, Motilal Oswal has common director(s) with MOFSL and MO Alternates. Accordingly, as on the date of filing this Prospectus, Motilal Oswal is an associate of the Investor Selling Shareholder in accordance with the provisions of SEBI Merchant Bankers Regulations.

Accordingly, while Motilal Oswal has signed the due diligence certificate and has been disclosed as a Book Running Lead Manager, in compliance with proviso to regulation 21A (1) and explanation (iii) to regulation 21A (1) of the SEBI (Merchant Bankers) Regulations, 1992, as amended, Motilal Oswal was involved only in the marketing of the Offer. There can be no assurance that this relationship between Motilal Oswal and the Investor Selling Shareholder will not be perceived as a current or potential conflict of interest in relation to the Offer.

45. *Uncertain and lengthy vendor selection process may have an adverse impact on our business, cash flows, financial conditions and results of operations*

We undergo through a vendor selection process with our customers, which can take up to three years from the date of issue of a request for quote (“RFQ”) to secure business. During this process, we are required to submit a technical proposal that includes product features, performance specifications, proposed development timeline, product validation plan, performance and durability expectations. We are also required to develop and supply concept prototypes for the customer based on initial design plans. Once our prototype is confirmed to have met the customer’s specifications and clears the testing phase, we receive firm orders. This vendor selection process is both lengthy and costly. If we fail to convert the RFQ process into firm orders, we may not recover these costs. Additionally, there is no assurance that we will be successful in securing new customer relationships or that these relationships will result in long-term business. The uncertain and lengthy vendor selection process could adversely impact our business, cash flows, financial conditions and results of operations.

46. *The COVID-19 pandemic impacted our business and operations. Future similar events may have an adverse effect on our business prospects and financial performance.*

The outbreak of the COVID-19 pandemic impacted our business and operations in the following manner:

- Shutdown of two of our manufacturing facilities located at Kanganwal in Ludhiana, Punjab for 43 days (March 22, 2020 to May 3, 2020);
- Temporary closure of our office and decline in the availability of workforce due to employees contracting the virus and restrictions on travel and movement due to lockdowns imposed by various state governments which affected commute of employees to our manufacturing facilities; and
- Compliance with evolving government regulations, including with respect to social distancing measures and sanitization practices.
- While there was no cost overrun, we experienced delay in installation of one of our machinery “Robot Gripper Up & Down Receiving Table”.

There can be no assurance that we will be able to successfully achieve our expansion strategies in the event similar pandemic happens in India that lead to restrictive measures or hamper overall economic condition.

47. *Information relating to our annual installed capacity, annual average available capacity and the historical capacity utilization of our manufacturing facilities included in this Prospectus is based on various assumptions and estimates and future production and capacity utilization may vary.*

The information relating to the annual installed capacity, average annual available capacity and capacity utilisation of our manufacturing facilities included in this Prospectus are based on various assumptions and estimates of our management that have been taken into account by the independent chartered engineer in the calculation of our capacity. These assumptions and estimates include standard capacity calculation practice in the Indian forging industry and capacity of other ancillary equipment installed at the relevant manufacturing facility. Assumptions and

estimates taken into account for measuring installed capacities and the annual average available capacities include 300 working days in a year, at three shifts per day operating for 8 hours a day.

Actual production levels and capacity utilization rates may therefore vary significantly from the annual installed and annual average available installed capacity of our facilities. Undue reliance should therefore not be placed on our capacity information or historical capacity utilization information for our existing facilities included in this Prospectus. For information regarding capacity of our manufacturing facilities, see “*Our Business – Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation*” on page 249.

48. *Our Promoters and members of our Promoter Group will continue to hold a significant equity stake in our Company after the Offer and their interests may differ from those of the other shareholders.*

As on the date of this Prospectus, our Promoters and members of the Promoter Group collectively held 88.24% of the paid-up equity share capital of our Company on a fully diluted basis. For further information on their shareholding pre and post-Offer, see “*Capital Structure*” on page 97. After the completion of the Offer, our Promoters along with the members of Promoter Group will continue to collectively hold majority of the shareholding in our Company and will continue to exercise significant influence over our business policies and affairs and all matters requiring Shareholders’ approval, including the composition of our Board, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditure or any other matter requiring special resolution. This concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of these stockholders. The interests of the Promoters as our controlling shareholders could conflict with our interests or the interests of our other shareholders. We cannot assure you that the Promoters will act to resolve any conflicts of interest in our favour and any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further information in relation to the interests of our Promoters in the Company, please see “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 274 and 295, respectively.

49. *Certain sections of this Prospectus disclose information from the Ricardo Report which is a paid report and commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks.*

We have availed the services of an independent third-party research agency, Ricardo, appointed by our Company pursuant to an engagement letter dated May 16, 2023, to prepare an industry report titled “*Industry Report on Global and Indian Forging and Machining Markets*” dated November 30, 2023, for purposes of inclusion of such information in this Prospectus to understand the industry in which we operate. Our Company, our Promoters, and our Directors are not related to Ricardo. This Report has been commissioned by our Company exclusively in connection with the Offer for a fee. This Ricardo Report is subject to various limitations and based upon certain assumptions that are subjective in nature. Further the commissioned report is not a recommendation to invest or divest in our Company. Prospective investors were advised not to unduly rely on the commissioned report or extracts thereof as included in this Prospectus, when making their investment decisions.

50. *Our Promoters and Directors hold Equity Shares in our Company and are therefore interested in our Company’s performance in addition to their remuneration and reimbursement of expenses.*

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding or the shareholding of their relatives in our Company. The table below sets forth the details of remuneration and shareholding of our Promoters and Directors, as applicable:

Names	Percentage of total pre-Offer paid up Equity Share capital	Remuneration in Fiscal 2023 (in ₹ million)	Remuneration in six months ended September 30, 2023 (in ₹ million)
Promoters			
Garg Family Trust	42.51%	N.A.	N.A.
Ashish Garg*	14.47%	19.67	17.48
Ayush Capital & Financial Services Private Limited	12.01%	N.A.	N.A.
Paritosh Kumar**	10.00%	20.15	18.98
Paritosh Kumar Garg (HUF)	6.27%	N.A.	N.A.
Megha Garg***	2.70%	4.77	4.07

Names	Percentage of total pre- Offer paid up Equity Share capital	Remuneration in Fiscal 2023 (in ₹ million)	Remuneration in six months ended September 30, 2023 (in ₹ million)
Ashish Garg & Sons (HUF)	0.28%	N.A.	N.A.
Directors			
Satish Sekhri	N.A.	0.40	0.50
Vikas Giya	N.A.	0.03	0.05
Ravindra Pisharody	N.A.	0.30	0.50
Narinder Singh Juneja	N.A.	5.82	4.17
Atul B Lall	N.A.	N.A.	0.20
Rajeshwari Karthigeyan	N.A.	N.A.	0.50

*Also our Managing Director.

**Also our Chairman and Managing Director.

***Also our Whole-time Director.

There can be no assurance that our directors will exercise their rights as Shareholders to the benefit and best interest of our Company. For further details, see “Capital Structure” and “Our Management” on pages 97 and 274 respectively.

51. Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, Return on Capital Employed, PAT Margin, Return on Equity, Gross Fixed Assets Turnover Ratio, Gross Profit, Gross Margin and Net Debt to EBITDA have been included in this Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, Return on Capital Employed, PAT Margin, Return on Equity, Gross Fixed Assets Turnover Ratio, Gross Profit, Gross Margin and Net Debt to EBITDA have been included in this Prospectus. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance.

These Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. In addition, these are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

52. The average cost of acquisition of Equity Shares for our Selling Shareholders may be lower than the Offer Price.

The average cost of acquisition of Equity Shares for our Selling Shareholders may be lower than the Offer Price. The details of the average cost of acquisition of Equity Shares held by our Selling Shareholders as at the date of the Prospectus is set out below.

Name	Number of Equity Shares	Average Cost of Acquisition per Equity Share (in ₹) *
Paritosh Kumar Garg (HUF)	5,607,700	2.02
India Business Excellence Fund – III	10,529,000	189.95

* As certified by Goel Garg & Co., Chartered Accountants by way of their certificate dated December 21, 2023.

For more details regarding weighted average cost of acquisition of Equity Shares by our Selling Shareholders and build-up of Equity Shares by our Selling Shareholders in our Company, see “Summary of the Offer Document – Average cost of acquisition” on page 34.

53. Our ability to access capital at attractive costs depends on our credit ratings. Non-availability of credit ratings or a poor rating may restrict our access to capital and thereby adversely affect our business, financial conditions, cash flows and results of operations.

The cost and availability of capital depends on our credit ratings. The following table sets forth our details of credit rating received recently including in the last three Fiscals and six months ended September 30, 2023:

Rating Agency	Instruments	Credit Rating	Date
CRISIL	Term Loan and Working Capital	AA- (AA Minus)	October 4, 2023
CRISIL	Term Loan and Working Capital	AA- (AA Minus)	July 22, 2022
ICRA	Term Loan and Working Capital	AA- (AA Minus)	December 21, 2022
ICRA	Term Loan and Working Capital	A+ (A Plus)	May 20, 2022
CRISIL	Term Loan and Working Capital	A+ (A Plus)	August 12, 2021
ICRA	Term Loan and Working Capital	A+ (A Plus)	February 26, 2021
ICRA	Term Loan and Working Capital	A/(A)	August 18, 2020
ICRA	Term Loan and Working Capital	A/A	May 11, 2020
CRISIL	Term Loan and Working Capital	A (A)	May 6, 2020

Credit ratings reflects the opinion of the rating agency on our management, track record, diversified clientele, increase in scale and operations and margins, medium term revenue visibility and operating cycle.

While we have not experienced downgrading in our credit ratings received recently, including in the last three Fiscals and six months ended September 30, 2023, any downgrade in our credit ratings or our inability to obtain such credit rating in a timely manner or any non-availability of credit ratings, or poor ratings, could increase borrowing costs, will give the right to our lenders to review the facilities availed by us under our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows.

54. Certain of our Promoter Group entities and Group Companies are in businesses similar to ours and this may result in conflict of interest with us.

Our Promoter Group entities and Group Companies namely Happy Steels Private Limited, Gamo Forgings Private Limited and Northstar Autocomp Private Limited are engaged in the business of upsetter forging or press forging of auto components. As these entities are in similar lines of business to our Company, there can be no assurance that conflicts of interest will not occur between our business and the businesses of such entities, which could have an adverse effect on our business, financial condition, cash flows and results of operations. For further details regarding our Group Companies, see “Group Companies” on page 442.

55. In this Prospectus, we have compared consolidated financial information as of and for the year ended March 31, 2023 and March 31, 2022 with our standalone financial information as of and for the year ended March 31, 2021. Further, we have compared our consolidated financial information as of and for the six months ended September 30, 2022 with our standalone financial information as of and for the six months ended September 30, 2023. These periods are not comparable to each other.

With effect from January 8, 2022, we acquired 33.33% shareholding in Linchpin Technologies Private Limited pursuant to a joint venture agreement with VVDN Technologies Private Limited and such investment was divested on March 31, 2023, pursuant to a share purchase agreement between our Company and VVDN Technologies Private Limited. As a result of the investment, our audited consolidated statements of profit and loss for the year ended March 31, 2023 and for the year ended March 31, 2022 consolidate the operations of Linchpin Technologies Private Limited. In addition, our audited, consolidated balance sheets as of March 31, 2023 and as of March 31, 2022 consolidate the assets and liabilities of Linchpin Technologies Private Limited. As a result, our audited consolidated financial information for the year ended March 31, 2023 and March 31, 2022 are not comparable with the standalone financial information for the year ended March 31, 2021 and our consolidated financial information as of and for the six months ended September 30, 2022 are not comparable with our standalone financial information as of and for the six months ended September 30, 2023 and therefore, our Restated Financial Information are not comparable as well.

External Risk Factors

Risks relating to India

56. Changing laws, rules and regulations in India could lead to new compliance requirements that are uncertain.

Our business, financial performance, cash flow and results of operations could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Our business, cash flows, results of operations and prospects may be adversely impacted, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. The regulatory and policy environment in which we operate are evolving and are subject to change. The GoI may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements.

We are subject to laws and government regulations, including in relation to safety, health, environmental protection and labour. These laws and regulations impose controls on air and water discharge, employee exposure to hazardous substances and other aspects of our manufacturing operations. Further, laws and regulations may limit the amount of hazardous and pollutant discharge that our manufacturing facilities may release into the air and water. The discharge of materials that hazardous into the air, soil or water beyond these limits may cause us to be liable to regulatory bodies or third parties. Any of the foregoing could subject us to litigation, which could lower our profits in the event we were found liable and could also adversely affect our reputation. Additionally, the government or the relevant regulatory bodies may require us to shut down our manufacturing facilities, which in turn could lead to product shortages that delay or prevent us from fulfilling our obligations to customers.

For instance, the GoI has recently introduced the Code on Social Security, 2020 (“**Social Security Code**”); the Occupational Safety, Health and Working Conditions Code, 2020; the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labour legislations (collectively, the “**Labour Codes**”). The GoI has deferred the effective date of implementation of the respective Labour Codes, and they shall come into force from such dates as may be notified. Different dates may also be appointed for the coming into force of different provisions of the Labour Codes. While the rules for implementation under these codes have not been notified, we are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses. For instance, under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government) of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees’ provident fund. In another example, the GoI has made it mandatory for business establishments with turnover above a certain size to offer digital modes of payment from November 2019, with no charges being levied on the consumers or the merchants by banks and payment service providers. Such measures could adversely impact our income streams in the future and adversely affect its financial performance.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, cash flows, financial condition and prospects. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our financial conditions, cash flows and results of operations.

57. *Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19 and man-made disasters, including acts of war, terrorist attacks and other events such as political instability, including strikes, demonstrations, protests, marches or other types of civil disorder, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19. A worsening of the current outbreak of COVID-19 pandemic or future outbreaks of COVID-19 or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business and the trading price of the Equity Shares.

58. *A downgrade in ratings of India and other jurisdictions we operate in may affect the trading price of the Equity Shares.*

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any further adverse revisions to credit ratings for India and other jurisdictions we operate in by international rating agencies may adversely impact our ability to raise additional financing. This could have an adverse effect on our ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Shares.

59. *We may be affected by competition laws in India, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended (“**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“**AAEC**”). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of consumers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be also guilty of the contravention and may be punished.

Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. In the event we pursue an acquisition in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects. The manner in which the Competition Act and the CCI affect the business environment in India may also adversely affect our business, financial condition, cash flows and results of operations.

The Competition (Amendment) Act, 2023 (“**Competition Amendment Act**”) was recently notified. The Competition Amendment Act amends the Competition Act and give the CCI additional powers to prevent practices

that harm competition and the interests of consumers. The Competition Amendment Act, *inter alia*, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

60. *Financial and political instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States of America, Europe and certain emerging economies in Asia. In particular, the ongoing military conflicts between Russia and Ukraine could result in increased volatility in, or damage to, the worldwide financial markets and economy. Increased economic volatility and trade restrictions could result in increased volatility in the markets for certain securities and commodities and may cause inflation. Any worldwide financial instability including possibility of default in the US debt market may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilising effects.

61. *The Indian tax regime has undergone substantial changes which could adversely affect our business and the trading price of the Equity Shares.*

Any change in Indian tax laws could have an effect on our operations. The Government of India has implemented two major reforms in Indian tax laws, namely the Goods and Services Tax ("GST"), and provisions relating to general anti-avoidance rules ("GAAR"). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by GST with effect from July 1, 2017. The GST regime continues to be subject to amendments and its interpretation by the relevant regulatory authorities is constantly evolving. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any substantial precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax ("DDT"), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the GoI has amended the Income-tax Act, 1961 ("IT Act") to abolish the DDT regime. Accordingly, any dividend distribution by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the Company is required to withhold tax on such dividends distributed at the applicable rate.

Further, the Finance Act, 2023, came into force on April 1, 2023 which has introduced various amendments to the IT Act. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Equity Shares. There is no certainty on the impact that the Finance Act, 2023 may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether if at all, any laws or regulations would have an adverse effect on our business. Further, any adverse order passed by the appellate authorities/tribunals/ courts would have an effect on our profitability. In addition, we are subject to tax related inquiries and claims.

62. *If inflation were to rise in India, we might not be able to increase the prices of our products at a proportional rate in order to pass costs on to our consumers thereby reducing our margins.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of wages and other expenses.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our consumers, whether entirely or in part, and may adversely affect our business, results of operations, cash flows and financial condition. In particular, we might not be able to reduce our costs or increase the price of our products to pass the increase in costs on to our consumers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

63. *Our customers may engage in certain transactions in or with countries or persons that are subject to U.S. and other sanctions.*

U.S. law generally prohibits U.S. persons from directly or indirectly investing or otherwise doing business in or with certain countries that are the subject of comprehensive sanctions and with certain persons or businesses that have been specially designated by the OFAC or other U.S. government agencies. Other governments and international or regional organizations also administer similar economic sanctions. Suppliers from whom we purchased machinery and equipment in the past may now belong to a sanctioned country or be included in the OFAC's specially designated list, even though they were not at the time of purchase. Engaging with such suppliers for maintenance and repair purposes could potentially violate applicable sanctions restrictions. Further, our customers may be located in jurisdictions to which certain OFAC-administered and other sanctions apply. While we have implemented internal controls to ensure compliance with applicable sanctions regulations and restrictions, since we carry on business with customers with global operations, we may not have any control over whether such customers transact business with entities subject to such sanctions regimes. Although we do believe that our operations are not in violation of any applicable sanctions regimes, if it were determined that our customers are involved in transactions that are in violation of any such sanctions regimes, we could be subject to penalties, and our reputation and future business prospects could be adversely affected.

64. *Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*

Our Restated Financial Information are derived from our audited consolidated financial statements as at and for the years ended March 31, 2023 and March 31, 2022 and audited standalone financial statements as at and for the years ended March 31, 2021, prepared in accordance with Ind AS, and restated in accordance with requirements of Section 26 of Part I of Chapter III of Companies Act, SEBI ICDR Regulations and the Guidance Note on "Reports in Company Prospectuses (Revised 2019)" issued by ICAI. Ind AS differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should be limited accordingly.

65. Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (ASM) and Graded Surveillance Measures (GSM) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility.

On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Offer due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation.

In the event our Equity Shares are covered under such pre-emptive surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in relation to trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active market for and trading of our Equity Shares.

Risks relating to the Equity Shares and this Offer

66. Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, profit after tax available for distribution, cash flows, working capital requirements and capital expenditure and the terms of our financing arrangements.

Any dividends to be declared and paid in the future are required to be recommended by our Company's Board of Directors and approved by its Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. Our Company's ability to pay dividends in the future will depend upon our future results of operations, financial condition, profit after tax available for distribution, cash flows, sufficient profitability, working capital requirements and capital expenditure requirements. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and pay such dividends to our Company's shareholders in future consistent with our past practices, or at all. We have not declared any dividends on the Equity Shares during the last three Fiscals. Except as disclosed below, we have not declared any dividends on the Equity Shares during the period from April 1, 2023, until the date of this Prospectus.

Particulars	For the period from April 1, 2023
Number of Equity Shares	89,499,000
Face value per Equity Share (in ₹)	2.00
Dividend paid (in ₹ million)	116.35
Dividend per Equity Share (in ₹)	1.30
Rate of dividend (%)	65.00%
Mode of payment of dividend	Bank transfer
Dividend tax	Tax deducted at source, as applicable

For information pertaining to dividend policy, see "Dividend Policy" on page 301.

67. The Equity Shares have never been publicly traded and the Offer may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and the investors may be unable to resell the Equity Shares at or above the Offer Price, or at all.

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the stock

exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Our Equity Shares are expected to trade on NSE and BSE after the Offer, but there can be no assurance that active trading in our Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares. There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after the Offer could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Prospectus. The market price of our Equity Shares may be influenced by many factors, some of which are beyond our control, including, among others:

- the failure of security analysts to cover the Equity Shares after the Offer, or changes in the estimates of our performance by analysts;
- the activities of competitors and suppliers;
- future sales of the Equity Shares by us or our Shareholders;
- investor perception of us and the industry in which we operate;
- changes in accounting standards, policies, guidance, interpretations of principles;
- our quarterly or annual earnings or those of our competitors;
- developments affecting fiscal, industrial or environmental regulations; and
- the public's reaction to our press releases and adverse media reports.

A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment.

68. *Investors may be subject to Indian taxes arising out of income arising on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax ("STT") is levied on equity shares sold on an Indian stock exchange. Any capital gains exceeding ₹100,000, realized on the sale of listed equity shares on a recognised stock exchange, held for more than 12 months may be subject to long-term capital gains tax in India at the rate of 10% (plus applicable surcharge and cess). This beneficial provision is, inter alia, subject to payment of STT. Further any capital gains realised on the sale of listed equity shares of an Indian company, held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India at the rate of 10% (plus applicable surcharge and cess), without indexation benefits.

Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less immediately preceding the date of transfer, will be subject to short-term capital gains tax in India at the rate of 15% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident read with the Multilateral Instrument, if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain realised upon the sale of the Equity Shares. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends.

69. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors'

book entry, or 'demat' accounts with depository participants in India, are expected to be credited with the Equity Shares within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment and transfer of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two Working Days from the Bid Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid Closing Date. There could be a failure or delay in the listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

70. Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

71. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior approval of the RBI will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. As provided in the foreign exchange controls currently in effect in India, the RBI has provided that the price at which the Equity Shares are transferred be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm's length basis, and a higher (or lower, as applicable) price per share may not be permitted. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all. Further, due to possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increase or limiting losses during periods of price decline.

The Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will be paid in Indian Rupees and subsequently converted into appropriate foreign currency for repatriation. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Rules, all investments under the foreign direct investment route by entities of a country or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the

Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. While the term “beneficial owner” is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term “beneficial owner”. The interpretation of “beneficial owner” and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all.

We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 493.

72. *QIBs and Non-Institutional Bidders were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Retail Individual Bidders were not permitted to withdraw their Bids after closure of the Bid/ Offer Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders were required to pay the Bid Amount on submission of the Bid and were not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders could revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors’ decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment.

Retail Individual Bidders could revise their Bids during the Bid / Offer Period and withdraw their Bids until Bid / Offer Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Offer within three Working Days from the Bid / Offer Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

73. *Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor’s benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

74. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’ fiduciary duties, responsibilities and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights under Indian law may not be

as extensive and wide-spread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder of our Company than as a shareholder of an entity in another jurisdiction.

75. The requirements of being a publicly listed company may strain our resources.

We are not a publicly listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will, among other things, require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations, cash flows and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

76. Compliance with provisions of Foreign Account Tax Compliance Act may affect payments on the Equity Shares.

The U.S. "Foreign Account Tax Compliance Act" (or "FATCA") imposes a new reporting regime and potentially, imposes a 30% withholding tax on certain "foreign passthru payments" made by certain non-U.S. financial institutions (including intermediaries).

If payments on the Equity Shares are made by such non-U.S. financial institutions (including intermediaries), this withholding may be imposed on such payments if made to any non-U.S. financial institution (including an intermediary) that is not otherwise exempt from FATCA or other holders who do not provide sufficient identifying information to the payer, to the extent such payments are considered "foreign passthru payments". Under current guidance, the term "foreign passthru payment" is not defined and it is therefore not clear whether and to what extent payments on the Equity Shares would be considered "foreign passthru payments". The United States has entered into intergovernmental agreements with many jurisdictions (including India) that modify the FATCA withholding regime described above. It is not yet clear how the intergovernmental agreements between the United States and these jurisdictions will address "foreign passthru payments" and whether such agreements will require us or other financial institutions to withhold or report on payments on the Equity Shares to the extent they are treated as "foreign passthru payments". Prospective investors should consult their tax advisors regarding the consequences of FATCA, or any intergovernmental agreement or non-U.S. legislation implementing FATCA, to their investment in Equity Shares.

SECTION IV – INTRODUCTION

THE OFFER

The following table summarizes details of the Offer:

Offer of Equity Shares⁽¹⁾	11,865,802 Equity Shares*, aggregating to ₹10,085.93 million*
<i>of which:</i>	
(i) Fresh Issue ⁽¹⁾	4,705,882 Equity Shares*, aggregating to ₹4,000 million*
(ii) Offer for Sale ⁽²⁾	7,159,920 Equity Shares*, aggregating to ₹6,085.93 million*
The Offer comprises of:	
A) QIB Portion ⁽³⁾⁽⁴⁾	5,932,900 Equity Shares*
<i>of which:</i>	
(i) Anchor Investor Portion	3,559,740 Equity Shares*
(ii) Net QIB Portion	2,373,160 Equity Shares*
<i>of which:</i>	
(a) Available for allocation to Mutual Funds only (5% of the Net QIB Portion)	118,658 Equity Shares*
(b) Balance for all QIBs including Mutual Funds	2,254,502 Equity Shares*
B) Non-Institutional Portion ⁽⁵⁾⁽⁶⁾	1,779,871 Equity Shares*
<i>of which:</i>	
(i) One-third of the Non-Institutional Portion available for allocation to Non-Institutional Bidders with a Bid Amount of more than ₹0.2 million to ₹1.00 million	593,291 Equity Shares*
(ii) Two-third of the Non-Institutional Portion available for allocation to Non-Institutional Bidders with a Bid Amount of more than ₹1.00 million	1,186,580 Equity Shares*
C) Retail Portion ⁽⁵⁾	4,153,031 Equity Shares*
Pre- and post-Offer Equity Shares	
Equity Shares outstanding prior to the Offer (as at the date of this Prospectus)	89,499,000 Equity Shares
Equity Shares outstanding after the Offer	94,204,882 Equity Shares*
Use of Net Proceeds	See “Objects of the Offer” on page 116 for information on the use of proceeds arising from the Fresh Issue. Our Company will not receive any proceeds from the Offer for Sale.

*Subject to finalisation of the Basis of Allotment.

Notes:

- (1) The Offer has been authorized by a resolution of our Board dated August 8, 2023 and the Fresh Issue has been authorized by a special resolution of our Shareholders dated August 8, 2023. The Offer shall be made in accordance with Rule 19(2)(b) of the SCRR.
- (2) Each of the Selling Shareholders, severally and not jointly, confirms that their respective portion of the Offered Shares are eligible for being offered for sale in terms of Regulation 8 of the SEBI ICDR Regulations. Each of the Selling Shareholders has, severally and not jointly, consented for the sale of their respective portion of the Offered Shares in the Offer for Sale. For details on the authorisation of the Selling Shareholders in relation to the Offered Shares, see “Other Regulatory and Statutory Disclosures – Authority for the Offer” on page 446.
- (3) Our Company and the Investor Selling Shareholder, in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion was accordingly reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion was reserved for domestic Mutual Funds, subject to valid Bids having been received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. In the event the aggregate demand from Mutual Funds was less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion was added to the Net QIB Portion and would be allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see “Offer Procedure” on page 474.
- (4) Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category, except the QIB Portion, was allowed to be met with spill over from any other category or combination of categories, at the discretion of our Company and the Investor Selling Shareholder in consultation with the BRLMs, Registrar to the Offer and the Designated Stock Exchange. In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the SCRR, the Allotment for the balance valid Bids will be made proportionately towards Fresh Issue and the Offered Shares.
- (5) Allocation to all categories, except Anchor Investors, if any, Non-Institutional Bidders and Retail Individual Bidders, was made on a proportionate basis, subject to valid Bids having been received at or above the Offer Price. The allocation to each Retail Individual Bidder

was not less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, were allocated on a proportionate basis. Allocation to Anchor Investors was on a discretionary basis. For details, see “Offer Procedure” on page 474.

- (6) The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, were subject to the following: (i) one-third of Non-Institutional Portion was available for allocation to Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million, and (ii) two-thirds of the Non-Institutional Portion was available for allocation to Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories could have been allocated to Bidders in the other sub-category of Non-Institutional Bidders. The Allotment to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, will be allotted on a proportionate basis.

For details, including in relation to grounds for rejection of Bids, refer to “Offer Structure” and “Offer Procedure” on pages 471 and 474, respectively. For details of the terms of the Offer, see “Terms of the Offer” on page 465.

SUMMARY FINANCIAL INFORMATION

The following tables set forth the summary financial information derived from our Restated Financial Information. The restated financial information presented below may differ in certain significant respects from financial statements prepared in accordance with generally accepted accounting principles in other countries, including IFRS. For details, see “Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition” on page 74. The summary financial information presented below should be read in conjunction with “Restated Financial Information”, including the notes and annexures thereto, on page 302 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 384.

Designated Intermediaries

Self-Certified Syndicate Banks

The list of SCSBs notified by SEBI for the ASBA process is available on the SEBI website at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>, or at such other website as may be prescribed by SEBI from time to time.

A list of the Designated SCSB Branches with which an ASBA Bidder (other than an RIB using the UPI Mechanism), not Bidding through Syndicate/Sub Syndicate or through a Registered Broker, RTA or CDP may submit the ASBA Forms, is available at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=34>, and at such other websites as may be prescribed by SEBI from time to time.

Self-Certified Syndicate Banks eligible as Issuer Banks for UPI

In accordance with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, UPI Bidders may apply through the SCSBs and mobile applications using the UPI handles specified on the website of the SEBI. The list of SCSBs through which Bids can be submitted by UPI Bidders, including details such as the eligible mobile applications and UPI handle which can be used for such Bids, is available on the website of the SEBI at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40> and <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=43> which may be updated from time to time or at such other website as may be prescribed by SEBI from time to time.

Syndicate SCSB Branches

In relation to Bids (other than Bids by Anchor Investors and UPI Bidders) submitted under the ASBA process to a member of the Syndicate, the list of branches of the SCSBs at the Specified Locations named by the respective SCSBs to receive deposits of Bid cum Application Forms from the members of the Syndicate is available on the website of the SEBI at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=35>, which may be updated from time to time or any such other website as may be prescribed by SEBI from time to time. For more information on such branches collecting Bid cum Application Forms from the Syndicate at Specified Locations, see the website of the SEBI at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=35> or any such other website as may be prescribed by SEBI from time to time.

Registered Brokers

The list of the Registered Brokers eligible to accept ASBA Forms from Bidders (other than UPI Bidders), including details such as postal address, telephone number and e-mail address, is provided on the websites of the BSE and the NSE at http://www.bseindia.com/Markets/PublicIssues/brokercentres_new.aspx? and https://www.nseindia.com/products/content/equities/ipos/ipo_mem_terminal.htm, respectively, as updated from time to time.

Registrar and Share Transfer Agents

The list of the RTAs eligible to accept ASBA Forms from Bidders (other than UPI Bidders) at the Designated RTA Locations, including details such as address, telephone number and e-mail address, is provided on the websites of Stock Exchanges at <http://www.bseindia.com/Static/Markets/PublicIssues/RtaDp.aspx?> and http://www.nseindia.com/products/content/equities/ipos/asba_procedures.htm, respectively, as updated from time to time.

Collecting Depository Participants

The list of the CDPs eligible to accept ASBA Forms from Bidders (other than UPI Bidders) at the Designated CDP Locations, including details such as name and contact details, is provided on the websites of BSE at <http://www.bseindia.com/Static/Markets/PublicIssues/RtaDp.aspx?> and on the website of NSE at http://www.nseindia.com/products/content/equities/ipos/asba_procedures.htm, as updated from time to time.

Credit Rating

As this is an Offer consisting only of Equity Shares, there is no requirement to obtain credit rating for the Offer.

Debenture Trustee

As this is an Offer consisting only of Equity Shares, the appointment of a debenture trustee is not required.

Appraising Entity

No appraising entity has been appointed in relation to the Offer.

Monitoring Agency

Our Company has appointed ICRA Limited as the monitoring agency, in compliance with Regulation 41 of the SEBI ICDR Regulations, for monitoring the utilisation of the Net Proceeds from the Fresh Issue. The details of the monitoring agency are set out hereinbelow:

ICRA Limited

B-710, Statesman House

148, Barakhamba Road

New Delhi – 110 001

Delhi, India

Telephone: +91 22 6169 3304

Email: shivakumar@icraindia.com

For details in relation to the proposed utilisation of the Net Proceeds from the Fresh Issue, see “*Objects of the Offer*” on page 116.

Grading of the Offer

No credit agency registered with SEBI has been appointed for obtaining grading for the Offer.

Green Shoe Option

No green shoe option is contemplated under the Offer.

Experts

Except as stated below, our Company has not obtained any expert opinions:

Our Company has received written consent dated December 21, 2023, from S.R. Batliboi & Co. LLP, Chartered Accountants, to include their name as required under Section 26(1) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Statutory Auditors and in respect of their (i) examination report dated December 2, 2023 on our Restated Financial Information; and (ii) report dated August 14, 2023 on the statement of special tax benefits is included in this Prospectus and such consent has not been withdrawn as on the date of the this Prospectus. However, the term “expert” shall not be construed to mean an “expert” as defined under the U.S. Securities Act.

Our Company has also received written consent dated December 9, 2023, from Goel Garg & Co., Chartered Accountants, holding a valid peer review certificate from ICAI, to include their name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in the Red Herring Prospectus and this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013, in respect of various certifications issued by them in their capacity as independent chartered accountant to our Company.

Additionally, our Company has received a written consent, pursuant to the certificate dated December 8, 2023, from Anil Kumar Soni, independent chartered engineer, to include his name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in the Red Herring Prospectus and this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013, in relation to their certificate on capacity and capacity utilisation, included under “*Our Business*” on page 219 of this Prospectus.

Such consents each from the independent chartered accountant and the independent chartered engineer have not been withdrawn as on the date of this Prospectus.

Underwriting Agreement

Our Company and the Selling Shareholders have entered into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters is several and are subject to certain conditions to closing, as specified therein.

The Underwriting Agreement is dated December 21, 2023. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

Name, address, telephone and email of the Underwriters	Indicative number of Equity Shares to be underwritten	Amount underwritten (in ₹ million)

The abovementioned underwriting commitment is indicative and will be finalized after finalisation of the Basis of Allotment and will be subject to the provisions of the SEBI ICDR Regulations. In the opinion of our Board of Directors, the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). Our Board, at its meeting held on December 21, 2023, has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments. Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them.

Subject to the applicable laws and pursuant to the terms of the Underwriting Agreement, the BRLMs will be responsible for bringing in the amount devolved in the event that the Syndicate Members do not fulfil their underwriting obligations.

Filing

A copy of the Draft Red Herring Prospectus was filed through SEBI's online intermediary portal at <https://siportal.sebi.gov.in>, in accordance with SEBI master circular bearing reference SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, and as specified in Regulation 25(8) of the SEBI ICDR Regulations.

It was also be filed with SEBI at the following address:

Securities and Exchange Board of India

SEBI Head Office
SEBI Bhavan, Plot No. C4-A
“G” Block, Bandra Kurla Complex
Bandra (East), Mumbai – 400 051
Maharashtra, India

A copy of the Red Herring Prospectus, along with the material contracts and documents was filed with the RoC in accordance with Section 32 of the Companies Act, 2013, and a copy of this Prospectus under Section 26 of the Companies Act, 2013, will be filed with the RoC, and through the electronic portal at <http://www.mca.gov.in/mcafoportal/loginvalidateuser.do>.

Book Building Process

Book building, in the context of the Offer, refers to the process of collection of Bids from investors on the basis of the Red Herring Prospectus and the Bid cum Application Forms within the Price Band. The Price Band was decided by our Company and the Investor Selling Shareholder, in consultation with the Book Running Lead Managers, and was advertised in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper and the Ludhiana edition of Daily Swaraj, a Punjabi daily newspaper (Punjabi being the regional language of Punjab, where our Registered Office is located), each with wide circulation, two Working Days prior to the Bid / Offer Opening Date, and was made available to the Stock Exchanges for the purposes of uploading on their respective websites. The Offer Price was determined by our Company and the Investor Selling Shareholder, in consultation with the Book Running Lead Managers, after the Bid / Offer Closing Date. For details, see “*Offer Procedure*” on page 474.

All Bidders, other than Anchor Investors, only participated in this Offer through the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs. UPI Bidders participated through the ASBA process, either by (i) providing the details of their respective ASBA Account in which the corresponding Bid Amount was blocked by the SCSBs; or (ii) using the UPI Mechanism. Non-Institutional Bidders with an application size of up to ₹0.50 million used the UPI Mechanism and also provided their UPI ID in the Bid cum Application Form submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar and Share Transfer Agents. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders were not permitted to withdraw or lower the size of their Bid(s) (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders could revise their Bids during the Bid / Offer Period and were permitted to withdraw their Bids until the Bid / Offer Closing Date. Further, Anchor Investors in the Anchor Investor Portion could not withdraw their Bids after the Anchor Investor Bidding Date. Allocation to QIBs (other than Anchor Investors) was on a proportionate basis while allocation to Anchor Investors was on a discretionary basis. Additionally, allotment to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non – Institutional Portion, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis. For an illustration of the Book Building Process and further details, see “*Terms of the Offer*” and “*Offer Procedure*” on pages 465 and 474, respectively.

The Book Building Process under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time.

Bidders should note that the Offer is also subject to obtaining (i) final approval of the RoC after this Prospectus is filed with the RoC; and (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment. For further details on the method and procedure for Bidding, see “*Offer Procedure*” beginning on page 474.

- (vii) There have been no financing arrangements whereby our Promoters, members of the Promoter Group, directors of our corporate Promoter, Ayush Capital & Financial Services Private Limited, our Directors, or their relatives have financed the purchase by any other person of securities of our Company during a period of six months immediately preceding the date of this Prospectus.
- (viii) ***Details of minimum Promoters’ contribution locked in for three years or any other period as may be prescribed under applicable law***

Pursuant to Regulations 14 and 16 of the SEBI ICDR Regulations, an aggregate of 20% of the fully diluted post-Offer Equity Share capital of our Company held by our Promoters shall be considered as minimum promoters’ contribution and locked-in for a period of three years or any other period as may be prescribed under applicable law, from the date of Allotment (“**Promoters’ Contribution**”). Our Promoters’ shareholding

in excess of 20% shall be locked in for a period of one year from the date of the Allotment.

Our Promoters have given consent to include such number of Equity Shares held by them, in aggregate, as may constitute 20% of the fully diluted post-Offer Equity Share capital of our Company as Promoters' Contribution. Our Promoters have agreed not to dispose, sell, transfer, charge, pledge or otherwise encumber in any manner the Promoters' Contribution from the date of filing the Draft Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

The details of Equity Shares held by our Promoters, which will be locked-in for minimum Promoters' contribution for a period of three years, from the date of Allotment as Promoters' Contribution are as provided below:

Name of the Promoter	Number of Equity Shares locked-in ^{***^}	Date of allotment/transfer [#]	Face value per Equity Share (₹)	Issue / acquisition price per Equity Share (₹) [^]	Nature of transaction	% of the post-Offer paid-up Equity Share capital	Date up to which the Equity Shares are subject to lock-in

[#]Equity Shares were fully paid-up on the date of allotment / acquisition.

^{**}Subject to finalisation of the Basis of Allotment.

[^](i) pursuant to a resolution passed by our Shareholders on March 31, 1998, each equity share of face value of ₹100 was sub-divided to 10 equity shares of face value of ₹10 each; (ii) pursuant to a resolution passed by our Shareholders on March 5, 2014, equity shares of face value of ₹100 were consolidated to equity shares of face value of ₹100 each; and (iii) pursuant to resolution passed by our Shareholders on February 14, 2022, each equity share of face value of ₹100 was sub-divided to 50 equity shares of face value of ₹2 each. Accordingly, the number of equity shares and issue/acquisition price per Equity Share as disclosed above are post consolidation and sub-division into face value of ₹2 each.

- (ix) The Equity Shares that are being locked-in are not and will not be ineligible for computation of Promoters' Contribution under Regulation 15 of the SEBI ICDR Regulations. In particular, these Equity Shares do not and shall not consist of:
- Equity Shares acquired during the three years preceding the date of this Prospectus (a) for consideration other than cash and revaluation of assets or capitalisation of intangible assets is involved in such transaction, or (b) as a result of bonus shares issued by utilisation of revaluation reserves or unrealised profits of our Company or from bonus issue against Equity Shares which are otherwise ineligible for computation of Promoters' Contribution;
 - Equity Shares acquired during the one year preceding the date of this Prospectus, at a price lower than the price at which the Equity Shares are being offered to the public in the Offer;
 - Equity Shares held by the Promoters that are subject to any pledge or any other form of encumbrance.

Further, our Company has not been formed by the conversion of a partnership firm or a limited liability partnership firm into a company in the preceding one year and hence, no Equity Shares have been issued in

the one year immediately preceding the date of this Prospectus pursuant to conversion from a partnership firm or a limited liability partnership firm.

(x) ***Details of share capital locked-in for six months or any other period as may be prescribed under applicable law***

In terms of Regulation 17 of the SEBI ICDR Regulations, the entire pre-Offer equity share capital of our Company held by person other than our Promoters will be locked-in for a period of six months from the date of Allotment or any other period as may be prescribed under applicable law, except for (i) the Promoters' Contribution which shall be locked for a period of three years as detailed above; and (ii) the Equity Shares offered pursuant to the Offer for Sale.

Further, in terms of Regulation 17 of the SEBI ICDR Regulations, Equity Shares held by a venture capital fund or alternative investment fund of category I or category II or a foreign venture capital investor shall not be locked-in for a period of six months from the date of Allotment, provided that such Equity Shares shall be locked-in for a period of at least six months from the date of purchase by the venture capital fund or alternative investment fund of category I or category II or foreign venture capital investor. Accordingly, since (a) a period of more than six months has lapsed from the date of purchase of Equity Shares by India Business Excellence Fund – III; and (b) India Business Excellence Fund – III, is a Category II AIF, registered with SEBI, the Equity Shares held by India Business Excellence Fund – III following the Offer, will not be required to be locked-in for a period of six months from the date of Allotment.

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoters which are locked-in, may be transferred to Promoters or members of the Promoter Group or to any new Promoters, subject to continuation of lock-in in the hands of the transferees for the remaining period and compliance with provisions of the SEBI Takeover Regulations, as applicable and such transferee shall not be eligible to transfer them till the lock-in period stipulated in SEBI ICDR Regulations has expired. The Equity Shares held by persons other than our Promoters and locked-in for a period of six months from the date of Allotment in the Offer or any other period as may be prescribed under applicable law, may be transferred to any other person holding Equity Shares which are locked -in, subject to the continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the provisions of the SEBI Takeover Regulations.

In terms of Regulation 21 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters which are locked-in as per Regulation 16 of the SEBI ICDR Regulations, may be pledged only with scheduled commercial banks or public financial institutions or NBFC-SI or housing finance companies, subject to the following:

- (i) with respect to the Equity Shares locked-in for one year from the date of Allotment, such pledge of the Equity Shares must be one of the terms of the sanction of the loan; and
- (ii) with respect to the Equity Shares locked-in as Minimum Promoters' Contribution for three years from the date of Allotment, the loan must have been granted to our Company for the purpose of financing one or more of the objects of the Offer, and the pledge of such Equity Shares must be one of the terms of the sanction of the loan.

However, such lock-in will continue pursuant to any invocation of the pledge and the transferee of the Equity Shares pursuant to such invocation shall not be eligible to transfer the Equity Shares until the expiry of the lock-in period stipulated above.

(xi) ***Lock-in of Equity Shares Allotted to Anchor Investors***

50% of the Equity Shares Allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period 90 days from the date of Allotment and the remaining 50% shall be locked-in for a period of 30 days from the date of Allotment.

11. Except for the Allotment of Equity Shares pursuant to the (i) Fresh Issue, and (ii) exercise of employee stock options under ESOP Scheme, there will be no further issuance of specified securities whether by way of public issue, rights issue, preferential issue, qualified institutions placement, bonus issue or in any other manner during the period commencing from the date of filing of this Prospectus with SEBI, until the listing of the Equity Shares on the Stock Exchanges or the refund of application monies, as the case may be.
12. Except for the Allotment of Equity Shares pursuant to the (i) Fresh Issue, and (ii) the exercise of employee stock options under ESOP Scheme, there is no proposal or intention or negotiations or consideration by our Company to alter our capital structure by way of split or consolidation of the denomination of the shares or issue of specified securities on a preferential basis or issue of bonus or rights issue or further public offer of specified securities within a period of six months from the Bid / Offer Opening Date.
13. **Employee stock option scheme**

As on the date of this Prospectus, except as mentioned below, our Company does not have any active employee stock option plan:

Happy Forgins ESOP Scheme 2023 (“ESOP Scheme”)

Our Company pursuant to the resolutions passed by our Board and Shareholders on July 31, 2023, adopted the ESOP Scheme, pursuant to the SEBI SBEB & SE Regulations. The objective of the ESOP Scheme are among others, to attract and retain employees with employee stock options as a compensation tool. Through the ESOP Scheme, our Company intends to align the interests of those employees who have contributed or are expected to contribute to the growth and development of our Company. The Shareholders, through their resolution dated July 31, 2023, have approved a maximum of 1,342,485 Equity Shares, under the ESOP Scheme. As on the date of this Prospectus, 392,687 options have been granted by our Company under the ESOP Scheme.

The ESOP Scheme has been instituted in compliance with the SEBI SBEB & SE Regulations as certified by Goel Garg & Co., Chartered Accountants, pursuant to their certificate dated December 21, 2023.

In terms of the ESOP Scheme, minimum vesting period is one year from the date of grant of options. Subject to certain conditions, the employee can exercise the vested options within the exercise period, which shall commence from the date of vesting and can extend till the end of five years from the date of grant of options. The following table sets forth the particulars of the ESOP Scheme including options granted as on the date of

this Prospectus:

Particulars	From April 1, 2023 to the date of this Prospectus
Options granted	392,687
Number of employees to whom options were granted	104
Options outstanding	392,687
Exercise price of options	190
Vesting period	Over a period of three years starting from one year after the grant date i.e., August 1, 2023
Options vested (excluding options that have been exercised)	Nil
Options exercised	Nil
Total number of Equity Shares that would arise as a result of full exercise of options granted (net of cancelled options)	392,687
Options forfeited/lapsed/cancelled	Nil
Variation in terms of options	N.A.
Money realised by exercise of options	N.A.
Total number of options in force	392,687
Employee wise details of options granted to	
(i) Key Management Personnel	52,071
(ii) Senior Management	39,066
(ii) Any other employee who received a grant in any one year of options amounting to 5% or more of the options granted during the year	20,055
(iii) Identified employees who are granted options, during any one year equal to or exceeding 1% of the issued capital (excluding outstanding warrants and conversions) of our Company at the time of grant	Nil
Fully diluted EPS on a pre-Offer basis on exercise of options calculated in accordance with the applicable accounting standard 'Earning Per Share'	N.A.
Lock-in	N.A.
Difference between employee compensation cost calculated using the intrinsic value of stock options and the employee compensation cost that shall have been recognised if our Company had used fair value of options and impact of this difference on profits and EPS of our Company for the last three fiscals	N.A.
Description of the pricing formula and the method and significant assumptions used during the year to estimate the fair values of options, including weighted-average information, namely, risk-free interest rate, expected life, expected volatility, expected dividends and the price of the underlying share in market at the time of grant of the option	N.A.
Impact on profits and EPS of the last three years if our Company had followed the accounting policies specified in Regulation 15 of the SEBI SBEB & SE Regulations in respect of options granted in the last three years	N.A.
Intention of the key management personnel, senior management and whole-time directors who are holders of Equity Shares allotted on exercise of options granted to sell their shares within three months after the date of listing of Equity Shares pursuant to the Offer	N.A.
Intention to sell Equity Shares arising out of the ESOP Scheme within three months after the listing of Equity Shares by directors, senior management and employees having Equity Shares arising out of the ESOP Scheme, amounting to more than 1% of the issued capital (excluding outstanding warrants and conversions)	N.A.

14. No person connected with the Offer, including, but not limited to, our Company, the Selling Shareholders, the Members of the Syndicate, our Promoters, the members of our Promoter Group or our Directors, shall offer any incentive, whether direct or indirect, in the nature of discount, commission and allowance, except for fees or commission for services rendered in relation to the Offer, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid.
15. Except for Paritosh Kumar Garg (HUF), who is offering Equity Shares in the Offer for Sale, none of our other Promoters or members of our Promoter Group have participated in the Offer.
16. The BRLMs and persons related to the BRLMs or Syndicate Members have not applied in the Offer under the

Anchor Investor Portion, except for Mutual Funds sponsored by entities which are associates of the BRLMs, or insurance companies promoted by entities which are associates of the BRLMs or AIFs sponsored by entities which are associates of the BRLMs, a FPI (other than individuals, corporate bodies and family offices) which are associates of the BRLMs or pension funds sponsor by entities which are associates of the BRLMs.

17. There are no outstanding warrants, options or rights to convert debentures, loans or other instruments into, or which would entitle any person any option to receive Equity Shares of our Company, as on the date of this Prospectus.
18. All transactions in Equity Shares by our Promoters and members of our Promoter Group between the date of filing of the Red Herring Prospectus and the date of closing of the Offer, if any were reported to the Stock Exchanges within 24 hours of such transactions.
19. The Promoters and members of our Promoter Group will not receive any proceeds from the Offer, except to the extent of their participation as Selling Shareholders in the Offer for Sale.
20. At any given time, there shall be only one denomination of the Equity Shares of our Company, unless otherwise permitted by law.
21. Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.
22. Our Company, the Selling Shareholders, the Promoters, the Directors and the BRLMs have not entered into buy-back arrangements and/or any other similar arrangements for the purchase of Equity Shares being offered through the Offer.
23. All Equity Shares issued or transferred pursuant to the Offer shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of this Prospectus.
24. Except for the Equity Shares held by the Investor Selling Shareholder, which is an associate of Motilal Oswal, none of the Book Running Lead Managers or their associates, hold any Equity Shares as on the date of filing of this Prospectus. Accordingly, in compliance with proviso to Regulation 21A (1) of the SEBI (Merchant Bankers) Regulations, 1992, as amended and Regulation 23(3) of the SEBI ICDR Regulations, Motilal Oswal was involved only in the marketing of the Offer and shall be the marketing lead manager. The BRLMs and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

OBJECTS OF THE OFFER

The Offer comprises a fresh issue of Equity Shares aggregating to ₹4,000 million* by our Company and an offer for sale of 7,159,920 Equity Shares* by the Selling Shareholders.

**Subject to finalisation of the Basis of Allotment.*

Offer for Sale

The respective portion of the proceeds from the Offer for Sale shall be received by the Selling Shareholders, after deducting their portion of the Offer related expenses. The details of the Selling Shareholders and the number of Equity Shares being offered by them, are set out below:

S. No.	Name of Shareholder	Category	Pre-Offer Equity Share Capital		No. of Equity Shares Offered	Post-Offer Equity Share Capital	
			No. of Equity Shares	% of total shareholding		Number of Equity Shares	% of total Shareholding
1.	Paritosh Kumar Garg (HUF)	Promoter	5,607,700	6.27%	4,922,445	685,255	0.73%
2.	India Business Excellence Fund – III	Investor	10,529,000	11.76%	2,237,475	8,291,525	8.80%
Total			16,136,700	18.03%	7,159,920	8,976,780	9.53%

Our Company will not receive any proceeds from the Offer for Sale by the Selling Shareholders and the proceeds from the Offer for Sale will not form part of the Net Proceeds. For further details, see “– Offer expenses” on page 125.

Fresh Issue

Our Company proposes to utilise the Net Proceeds from the Fresh Issue towards funding the following objects:

1. Purchase of equipment, plant and machinery;
2. Prepayment of all or a portion of certain outstanding borrowings availed by our Company; and
3. General corporate purposes.

(Collectively, referred to herein as the “**Objects**”)

In addition, our Company expects to receive the benefits of listing of Equity Shares on the Stock Exchanges including enhancing our visibility and our brand image among our existing and potential customers and creating a public market for our Equity Shares in India.

The main objects and objects incidental and ancillary to the main objects, as set out in our Memorandum of Association, enable our Company to undertake our existing business activities and the activities for which funds are being raised by us through the Fresh Issue. We confirm that the activities which we have been carrying out till date are in accordance with the objects clause of our Memorandum of Association.

Net Proceeds

The details of the proceeds from the Fresh Issue are summarized in the following table:

Particulars	Total estimated cost
Gross proceeds	4,000.00
(Less) Offer expenses in relation to the Fresh Issue ⁽¹⁾	221.77
Net Proceeds	3,778.23

⁽¹⁾ For details with respect to sharing of fees and expenses amongst our Company and the Selling Shareholders, please refer to “– Offer Expenses” on page 125.

Utilisation of Net Proceeds and Proposed Schedule of Implementation and Deployment

The Net Proceeds are currently expected to be deployed in accordance with the estimated schedule set forth below:

(₹ in million)

Particulars	Total estimated cost	Amount deployed as on December 21, 2023	Amount which will be financed from Net Proceeds	Estimated deployment of Net Proceeds in	
				Fiscal 2024	Fiscal 2025
Purchase of equipment, plant and machinery	1,870.34	132.53	1,711.26*	684.50	1,026.76
Prepayment of all or a portion of certain outstanding borrowings availed by our Company	1,527.60	N.A.	1,527.60	1,527.60	Nil
General corporate purposes ^(c)	539.37	N.A.	539.37	539.37	Nil
Total	3,937.31	132.53	3,778.23*	2,751.47	1,026.76

^aThis does not include certain portions of the cost, amounting to ₹26.55 million which will be borne by the Company through internal accruals. For more details, see “– Details of the Objects – Purchase of equipment, plant and machinery” on page 118.

^cThe amount utilised for general corporate purposes does not exceed 25% of the Gross Proceeds.

The deployment of funds indicated above and the intended use of the Net Proceeds as described in this Prospectus are based on our current business plan, management estimates, prevailing market conditions, valid quotations received from third parties, current circumstances of our business and other commercial considerations, which are subject to change and may not be within the control of our management. However, such fund requirements and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. See “*Risk Factors – Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution and if there are any delays or cost overruns, our business, cash flows, financial condition and results of operations may be adversely affected.*” on page 44. Given the nature of our business, we may have to revise our funding requirements and deployment, as required, on account of a variety of factors such as our financial and market condition, our business and growth strategies, competitive landscape, general factors affecting our results of operations, financial condition and access to capital and other external factors such as changes in the business environment or regulatory climate and interest or exchange rate fluctuations. This may entail rescheduling or revising the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable laws.

Subject to applicable law, in case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders. Further, in case of variations in the actual utilisation of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Offer. To the extent our Company is unable to utilise any portion of the Net Proceeds towards the aforementioned Objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent Fiscal towards the aforementioned Objects, subject to compliance with applicable laws.

Means of Finance

The entire fund requirements for our Objects are proposed to be funded from the Net Proceeds and internal accruals. Accordingly, we confirm that there are no requirements to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, in addition to the Net Proceeds, under Regulation(1)(e) of the SEBI ICDR Regulations and Paragraph 9(C)(1) of Part A of Schedule VI of the SEBI ICDR Regulations.

Details of the Objects

1. Purchase of equipment, plant and machinery

Our manufacturing facilities are equipped to undertake a variety of processes, including engineering and designing, hammer and press forging, metallurgical testing, heat treatment, machining and dimensional testing among others, enabling us to manufacture a wide range of products. With the aim of growing our manufacturing capabilities, we aim to purchase a variety of equipment, plant and machinery. Our Company proposes to utilise up to ₹1,711.26 million from the Net Proceeds towards purchase of equipment, plant and machinery.

While we propose to utilise up to ₹1,711.26 million towards procurement of the equipment, plant and machinery, based on our current estimates, the specific number and nature of such equipment, plant and machinery to be procured by our Company may change, depending on our business requirements, from time to time.

An indicative list of such equipment, plant and machinery that we intend to purchase, along with details of the quotations we have received in this respect is set forth below, which has been certified by Goel Garg & Co., Chartered Accountants, pursuant to their certificate dated December 21, 2023 and approved, pursuant to a resolution dated December 9, 2023 passed by our Board.

[Remainder of the page is intentionally left blank]

[#]Assuming currency conversion rate for quotations in foreign currency as on December 1, 2023: GBP 1.00 = ₹105 (approximately).

[Remainder of the page is intentionally left blank]

All quotations received from the vendors mentioned above are valid as on the date of this Prospectus. Some of the quotations mentioned above exclude cost of freight and insurance, as these can be determined only at the time of placing of orders. Further, the prices mentioned above exclude applicable taxes. Such additional taxes shall be funded from internal accruals, if required. Further, certain quotations stipulate that actual purchase price and delivery periods are subject to change at the time of placing of the orders. However, except for (i) hot forging press, type GLF 10000 R; and (ii) automatic die holder, cassettes & die change system for forging press type GLF 10000 R, we have not entered into any definitive agreements with any of these vendor and there can be no assurance that the same vendors would be engaged to eventually supply the equipment or provide the service at the same costs. In accordance with the terms of certain quotations obtained by our Company, the prices in relation to the equipment, plant and machinery may be subject to revisions during the validity period of such quotations, pursuant to *inter alia* any update to the pricing list of the vendor, prices of the raw materials or pursuant to foreign exchange currency fluctuations or policy changes. If there is any increase in the costs of equipment, plant and machinery, such additional costs shall be funded by our Company from its internal accruals. The quantity of equipment to be purchased is based on the present estimates of our management. Our Company shall have the flexibility to deploy such equipment according to the business requirements of such facilities and based on the estimates of our management. See “*Risk Factors – Any significant delay in receiving plant, equipment and machinery purchased from outside India could impact our business, operations, cash flows and financial conditions*” on page 66.

As on the date of this Prospectus, we have placed orders for equipment aggregating to ₹636.30 million i.e., approximately 34.02% of the total estimated cost for purchase of equipment, plant and machinery. We are yet to place orders for such machineries and equipment for an aggregate amount of ₹1,234.04 million. Accordingly, we are yet to place orders for 65.98% of the total estimated cost in relation to the purchase of plant, machinery and equipment. No second-hand or used machinery is proposed to be purchased out of the Net Proceeds. Each of the units mentioned above is proposed to be acquired in a ready-to-use condition.

Our Promoter, Group Companies, Directors, Key Managerial Personnel and Senior Management do not have any interest in the proposed acquisition of equipment, plant and machinery, or in the entities from whom we have obtained quotations in relation to such activities.

2. *Prepayment of all or a portion of certain outstanding borrowings availed by our Company*

Our Company has entered into various financing arrangements from time to time, with various lenders. The financing arrangements entered into by our Company include, *inter alia*, term loans and working capital facilities. For further details in relation to our borrowings, see “*Financial Indebtedness*” on page 431.

As at October 31, 2023, our total outstanding borrowings amounted to ₹2,599.42 million. Our Company proposes to utilise an estimated amount of up to ₹1,527.60 million from the Net Proceeds towards prepayment of a portion of certain term loans and working capital facilities availed by our Company.

Given the nature of these borrowings and the terms of prepayment, the aggregate outstanding amounts under these borrowings may vary from time to time and, in accordance with the relevant repayment schedule, our Company may in the future, repay or refinance some of the borrowings set out below, prior to Allotment or avail of additional credit facilities. If at the time of Allotment, any of the below mentioned loans are repaid or refinanced or if any additional credit facilities are availed or drawn down or further disbursements under the existing facilities availed by our Company, then our Company may utilise the Net Proceeds for prepayment of any such refinanced facilities or any additional facilities / disbursements obtained by our Company. In the event our Board deems appropriate, the amount allocated for estimated schedule of deployment of Net Proceeds in a particular fiscal may be repaid/ pre-paid by our Company in the subsequent Fiscal.

For the purposes of the Offer, our Company has intimated and has obtained necessary consent from its lenders, as is respectively required under the relevant facility documentation for undertaking activities in relation to this Offer and for the deployment of the Net Proceeds towards the objects set out in this section.

The selection of borrowings proposed to be prepaid or repaid amongst our borrowing arrangements availed

will be based on various factors, including (i) cost of the borrowing, including applicable interest rates, (ii) any conditions attached to the borrowings restricting our ability to prepay/ repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, (iii) receipt of consents for prepayment from the respective lenders, (iv) terms and conditions of such consents and waivers, (v) levy of any prepayment penalties and the quantum thereof, (vi) provisions of any laws, rules and regulations governing such borrowings, and (vii) other commercial considerations including, among others, the amount of the loan outstanding and the remaining tenor of the loan. The amounts proposed to be prepaid against each borrowing facility below is indicative and our Company may utilize the Net Proceeds to prepay the facilities disclosed below in accordance with commercial considerations, including amounts outstanding at the time of prepayment. For further details, see “*Financial Indebtedness*” on page 431. Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Payment of additional interest, prepayment penalty or premium, if any, and other related costs shall be made by us out of the internal accruals or out of the Net Proceeds as may be decided by our Company.

Such pre-payment will help reduce our existing borrowings, assist us in maintaining a favourable debt-equity ratio and enable utilisation of our internal accruals for further investment in business growth and expansion.

The following table provides details, as at September 30, 2023, of loans and facilities availed by our Company, out of which we propose to pre-pay in full or in portion of the below mentioned loans and/or facilities, up to an amount aggregating to ₹1,527.60 million from the Net Proceeds:

For further details in relation to our borrowings, see “*Financial Indebtedness*” on page 431.

3. General corporate purposes

We propose to utilise up to ₹539.37 million of the Net Proceeds towards general corporate purposes and the business requirements of our Company as approved by the Board, from time to time, subject to such utilisation for general corporate purposes not exceeding 25% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations.

The general corporate purposes for which our Company proposes to utilise the Net Proceeds include, without limitation, meeting ongoing general corporate contingencies, meeting our business requirements, funding growth opportunities, including funding strategic initiatives, capital expenditure, and any other purpose, as may be approved by our Board or a duly constituted committee thereof from time to time, subject to compliance with applicable law, including provisions of the Companies Act.

The quantum of utilisation of funds towards each of the above purposes will be determined by our Board, based on the amount available under this head and the business requirements of our Company, from time to time. Our Company's management shall have flexibility in utilising surplus amounts, if any. In the event that we are unable to utilise the entire amount that we have currently estimated for use out of Net Proceeds in a Fiscal, we will utilise such unutilised amount(s) in the subsequent Fiscals.

Offer Expenses

The total expenses of the Offer are estimated to be approximately ₹560.35 million. The expenses of this Offer include, among others, listing fees, selling commission and brokerage, fees payable to the BRLMs, fees payable to legal counsels, fees payable to the Registrar to the Offer, Escrow Collection Bank(s) and Sponsor Banks to the Offer, processing fee to the SCSBs for processing application forms, underwriting commission, brokerage and selling commission payable to members of the Syndicate, Registered Brokers, RTAs and CDPs, printing and stationery expenses, advertising and marketing expenses, fees payable to consultants and Statutory Auditors for deliverables in connection with the Offer and all other incidental and miscellaneous expenses for listing the Equity Shares on the Stock Exchanges.

Other than the listing fees, which will be solely borne by the Company; and (ii) stamp duty payable on transfer of the Offered Shares pursuant to the Offer for Sale and fees for legal counsel to each Selling Shareholder, which shall be solely borne by the Selling Shareholders, as may be mutually agreed amongst the Selling Shareholders, the Company and each of the Selling Shareholders agree to share the costs and expenses (including all applicable taxes) directly attributable to the Offer (including fees and expenses of the Book Running Lead Managers, legal counsels appointed in connection with the Offer, and other intermediaries, advertising and marketing expenses (other than corporate advertisements expenses and branding of the Company undertaken in the ordinary course of business by the Company), printing, underwriting commission, procurement commission (if any), brokerage and selling commission and payment of fees and charges to various regulators in relation to the Offer) in proportion to the number of Equity Shares issued and Allotted by the Company through the Fresh Issue and sold by each of the Selling Shareholders through the Offer for Sale, as may be mutually agreed amongst the Selling Shareholders, in accordance with applicable law including section 28(3) of the Companies Act.

All the expenses relating to the Offer shall be paid by the Company in the first instance. Upon commencement of listing and trading of the Equity Shares on the Stock Exchanges pursuant to the Offer, the Selling Shareholders shall, reimburse the Company for any expenses in relation to the Offer paid by the Company on behalf of the respective Selling Shareholder directly from the Public Offer Account and only the balance amount payable to the Selling Shareholders, remaining to the credit of the Public Offer Account shall be transferred to the respective Selling Shareholders directly from the Public Offer Account as may be mutually agreed amongst the Selling Shareholders except as may be prescribed by the SEBI or any other regulatory authority. Further, in the event the Offer is withdrawn or is not completed for any reason whatsoever, the Offer related expenses attributable to the Selling Shareholders shall be shared by the Selling Shareholders in the manner as mentioned above.

The break-up of the estimated Offer expenses is set forth below:

(in ₹ million)			
Activity	Estimated expenses*	As a % of the total estimated Offer expenses	As a % of the total Offer size
Fees payable to the BRLMs and commissions (including underwriting commission, as applicable)	297.53	53.10%	2.95%
Commission/processing fee for SCSBs, Sponsor Banks and Bankers to the Offer and fee payable to the Sponsor Bank for Bids made by RIBs. Brokerage and selling commission and bidding charges for Members of the Syndicate, Registered Brokers, RTAs and CDPs ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾	35.28	6.30%	0.35%
Fees payable to Registrar to the Offer	4.68	0.84%	0.05%
Advertising and marketing expenses	43.18	7.71%	0.43%
Fee payable to auditors, consultants and market research firms	21.89	3.91%	0.22%
Others			
(i) Listing fees, SEBI filing fees, upload fees, BSE and NSE processing fees, book building software fees and other regulatory expenses;	54.57	9.74%	0.54%
(ii) Printing and distribution of stationery;	21.70	3.87%	0.22%
(iii) Fees payable to legal counsel; and	57.18	10.20%	0.57%
(iv) Miscellaneous [^]	24.33	4.34%	0.24%
Total estimated Offer expenses	560.35	100.00%	5.56%

*Offer expenses include GST, where applicable.

[^]Miscellaneous includes fees and costs payable to other intermediaries to the Offer, including: (a) virtual data room service provider; (b) independent chartered accountant; (c) the independent practising company secretary engaged to provide support services and certain certificates in relation to the Offer; and (d) the chartered engineer.

- (1) Selling commission payable to the SCSBs on the portion for RIBs and Non-Institutional Bidders, which are directly procured and uploaded by them would be as follows:

Portion for RIBs*	0.35% of the Amount Allotted (plus applicable taxes)*
Portion for Non-Institutional Bidders*	0.20% of the Amount Allotted (plus applicable taxes)*

*Amount Allotted is the product of the number of Equity Shares Allotted and the Offer Price

No processing/uploading charges shall be payable by our Company and the Selling Shareholders to the SCSBs on the applications directly procured by them.

The selling commission payable to the SCSBs will be determined on the basis of the bidding terminal ID as captured in the bid book of BSE or NSE.

SCSBs will be entitled to a processing fee for processing the ASBA Form procured by the members of the Syndicate (including their sub-syndicate members), CRTAs or CDPs from Retail Individual Bidders and Non-Institutional Bidders (excluding UPI Bids) and submitted to the SCSBs for blocking as follows:

Portion for RIBs*	₹10/- per valid ASBA Forms (plus applicable taxes)
Portion for Non-Institutional Bidders *	₹10/- per valid ASBA Forms (plus applicable taxes)

*Based on valid ASBA Forms

Processing fees payable to the SCSBs for capturing Syndicate Member/Sub-syndicate (Broker)/Sub-broker code on the ASBA Form for Non-Institutional Bidders with bids above ₹0.50 million would be ₹10 plus applicable taxes, per valid application.

- (2) Brokerage, selling commission and processing/ uploading charges on the portion for Retail Individual Bidders and Non-Institutional Bidders (excluding UPI Bids) which are procured by the members of the Syndicate (including their sub-syndicate members), CRTAs, CDPs or for using 3-in1 type accounts- linked online trading, demat & bank account provided by some of the brokers which are members of Syndicate (including their sub-syndicate members) would be as follows:

Portion for RIBs*	0.35% of the Amount Allotted (plus applicable taxes)*
Portion for Non-Institutional Bidders *	0.20% of the Amount Allotted (plus applicable taxes)*

*Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

Notwithstanding anything contained in (1) & (2) above the total uploading charges / processing fees payable under this clause will not exceed ₹1.50 million (plus applicable taxes) and in case if the total processing fees exceeds ₹1.50 million (plus applicable taxes) then processing fees will be paid on pro-rata basis.

The selling commission payable to the Syndicate / Sub-Syndicate Members will be determined:

- i. *For RIBs and Non-Institutional Bidders (up to ₹0.50 million) on the basis of the application form number / series, provided that the application is also bid by the respective Syndicate / Sub-Syndicate Member. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate / Sub-Syndicate Member, is bid by an SCSB, the Selling Commission will be payable to the SCSB and not the Syndicate / Sub-Syndicate Member.*
- ii. *For Non-Institutional Bidders (Bids above ₹0.50 million) on the basis of the Syndicate ASBA Form bearing SM Code & Sub-Syndicate Code of the application form submitted to SCSBs for Blocking of the Fund and uploading on the Exchanges platform by SCSBs. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate / Sub-Syndicate Member, is bid by an SCSB, the Selling Commission will be payable to the Syndicate / Sub Syndicate members and not the SCSB.*

The payment of selling commission payable to the sub-brokers / agents of sub-syndicate members are to be handled directly by the respective sub-syndicate member.

The selling commission payable to the CRTAs and CDPs will be determined on the basis of the bidding terminal id as captured in the bid book of BSE or NSE.

(3) Uploading Charges:

- i. *Payable to members of the Syndicate (including their sub-Syndicate Members), on the applications made using 3-in-1 accounts, would be ₹10 plus applicable taxes, per valid application bid by the Syndicate member (including their sub-Syndicate Members),*
- ii. *Bid Uploading charges payable to the SCSBs on the portion of QIB and Non-Institutional Bidders (excluding UPI Bids) which are procured by the members of the Syndicate/sub-Syndicate/Registered Broker/RTAs/ CDPs and submitted to SCSB for blocking and uploading would be ₹10 per valid application (plus applicable taxes)*

Notwithstanding anything contained above the total processing fee payable under this clause 3 will not exceed ₹3.00 million (plus applicable taxes) and in case if the total processing fees exceeds ₹3.00 million (plus applicable taxes) then processing fees will be paid on pro-rata basis.

The selling commission and bidding charges payable to Registered Brokers the RTAs and CDPs will be determined on the basis of the bidding terminal id as captured in the Bid Book of BSE or NSE

The Bidding/uploading charges payable to the Syndicate/Sub-Syndicate Members, RTAs and CDPs will be determined on the basis of the bidding terminal id as captured in the bid book of BSE or NSE.

Selling commission payable to the registered brokers on the portion for Retail Individual Bidders and Non-Institutional Bidders which are directly procured by the Registered Brokers and submitted to SCSB for processing would be as follows: Portion for Retail Individual Bidders and Non-Institutional Bidders : ₹10/- per valid ASBA Form (plus applicable taxes).

(4) Uploading charges/ Processing fees for applications made by UPI Bidders using the UPI Mechanism would be as under:

<i>Members of the Syndicate / RTAs / CDPs (uploading charges)</i>	<i>₹30 per valid application (plus applicable taxes)</i>
<i>Axis Bank Limited</i>	<i>Nil charges per valid Bid cum Application Form</i>
	<i>The Sponsor Banks shall be responsible for making payments to the third parties such as remitter bank, NPCI and such other parties as required in connection with the performance of its duties under applicable SEBI circulars, agreements and other applicable laws</i>
<i>HDFC Bank Limited</i>	<i>Nil charges per UPI valid application.</i>
	<i>The Sponsor Banks shall be responsible for making payments to the third parties such as remitter bank, NPCI and such other parties as required in connection with the performance of its duties under applicable SEBI circulars, agreements and other applicable laws</i>

All such commissions and processing fees set out above shall be paid as per the timelines in terms of the Syndicate Agreement and Cash Escrow and Sponsor Bank Agreement.

The total uploading charges / processing fees payable to Members of the Syndicate, RTAs, CDPs, Registered Brokers as listed under (4) will be subject to a maximum cap of ₹10.00 million (plus applicable taxes). In case the total uploading charges/processing fees payable exceeds ₹10.00 million, then the amount payable to Members of the Syndicate, RTAs, CDPs, Registered Brokers would be proportionately distributed based on the number of valid applications such that the total uploading charges / processing fees payable does not exceed ₹10.00 million.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). Accordingly, Syndicate / sub-Syndicate Member shall not be able to Bid the Application Form above ₹0.50 million and the same Bid cum Application Form need to be submitted to SCSB for blocking of the fund and uploading on the Stock Exchange

bidding platform. To identify bids submitted by Syndicate / sub-Syndicate Member to SCSB a special Bid-cum-application form with a heading / watermark “Syndicate ASBA” may be used by Syndicate / sub-Syndicate Member along with SM code and broker code mentioned on the Bid-cum Application Form to be eligible for brokerage on allotment. However, such special forms, if used for RIB and NIB bids up to ₹0.50 million will not be eligible for brokerage.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no: SEBI/HO/CFD/DIL2/CIR/P/2021/570 dated June 2, 2021 read with SEBI circular no: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and such payment of processing fees to the SCSBs shall be made in compliance with SEBI circular no: SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

Interim use of funds

Pending utilisation for the purposes described above, we undertake to temporarily invest such portion funds from the Net Proceeds in deposits only with one or more scheduled commercial banks included in the second schedule of the Reserve Bank of India Act, 1934, as amended. In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Bridge loan

Our Company has not raised any bridge loans from any banks or financial institutions, which are proposed to be repaid from the Net Proceeds.

Appraising Entity

None of the Objects for which the Net Proceeds will be utilised have been appraised by any agency, including any bank or finance institutions.

Monitoring of utilisation of funds

In accordance with Regulation 41 of the SEBI ICDR Regulations, our Company has appointed ICRA Limited as the Monitoring Agency for monitoring the utilisation of Net Proceeds, as the Fresh Issue size exceeds ₹1,000 million.

Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Net Proceeds and the Monitoring Agency shall submit the report required under Regulation 41(2) of the SEBI ICDR Regulation, on a quarterly basis, until such time as the Net Proceeds have been utilised in full. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay. Our Company will disclose the utilisation of the Net Proceeds, including interim use under a separate head in its balance sheet for such periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, clearly specifying the purposes for which the Net Proceeds have been utilized. Our Company will also, in its balance sheet for the applicable periods, provide details, if any, in relation to all such Net Proceeds that have not been utilized, if any, of such currently unutilized Net Proceeds.

Pursuant to Regulation 32(3) and Part C of Schedule II of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Net Proceeds. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than those stated in this Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Net Proceeds remain unutilized. Such disclosure shall be made only until such time that all the Net Proceeds have been utilized in full. The statement shall be certified by our Statutory Auditors. Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Fresh Issue from the Objects as stated above; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Fresh Issue from the Objects as stated above. This information will also be published in newspapers simultaneously with the interim

or annual financial results and explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

Variation in Objects

In accordance with Sections 13(8) and 27 of the Companies Act, 2013 and applicable rules thereunder, our Company shall not vary the Objects of the Offer unless our Company is authorized to do so by way of a special resolution of its Shareholders and such variation will be in accordance with the applicable laws including the Companies Act, 2013 and the SEBI ICDR Regulations. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution ("**Postal Ballot Notice**") shall specify the prescribed details as required under the Companies Act, 2013 and applicable rules and such Postal Ballot Notice shall be placed on website of our Company. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in Punjabi, being the regional language of Punjab, where our Registered Office and Corporate Office is situated in accordance with the Companies Act, 2013 and applicable rules. Our Promoters will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the Objects, at such price, and in such manner, in accordance with Section 13(8) and other applicable provisions of the Companies Act, our Articles of Association, and the SEBI ICDR Regulations.

Other confirmations

Except to the extent of the proceeds received by the Selling Shareholders pursuant to the Offer for Sale portion, none of our Promoters, members of the Promoter Group, Group Companies, Directors or Key Managerial Personnel or Senior Management will receive any portion of the Offer Proceeds and there are no existing or anticipated transactions in relation to utilisation of the Net Proceeds with our Promoters or members of the Promoter Group, Group Companies, Directors or Key Managerial Personnel or Senior Management. Further, except in the ordinary course of business, there is no existing or anticipated interest of such individuals and entities in the Objects as set out above.

BASIS FOR THE OFFER PRICE

The Price Band and Offer Price have been determined by our Company and the Investor Selling Shareholder in consultation with the BRLMs, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of the qualitative and quantitative factors as described below. The face value of the Equity Shares is ₹2 each, and the Offer Price is 425 times the face value of the Equity Shares.

Investors should also refer to “Risk Factors”, “Our Business”, “Restated Financial Information”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Other Financial Information” on pages 36, 219, 302, 384 and 381, respectively, to have an informed view before making an investment decision.

Qualitative factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are:

- Fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India;
- Integrated manufacturing operations coupled with in-house product and process design capabilities resulting in a diverse product portfolio with increasing value addition;
- Diversified business model, well placed to take advantage of potential alternative engine technologies;
- Long-standing relationships with customers across industries;
- Track record of consistently building capabilities and infrastructure, with focus on capital efficiency;
- Experienced Promoters and senior management team; and
- Track record of healthy financial performance.

For further details, see “Our Business – Competitive Strengths” on page 225.

Quantitative factors

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

I. Basic and diluted earnings per share (“EPS”)

Based on / derived from the Restated Financial Information:

Period	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
Financial year ended March 31, 2023	23.32	23.32	3
Financial year ended March 31, 2022	15.90	15.90	2
Financial year ended March 31, 2021	9.66	9.66	1
Weighted Average	18.57	18.57	
Six months ended September 30, 2023	13.33	13.33	
Six months ended September 30, 2022	13.01	13.01	

Notes:

1. Basic EPS (₹) = Basic earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year.
2. Diluted EPS (₹) = Diluted earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the period / year as adjusted for the effects of all dilutive potential Equity Shares during the year.
3. Basic and diluted earnings per equity share: Basic and diluted earnings per equity share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015 (as amended).
4. Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year adjusted by the number of equity shares issued during the year multiplied by the time weighting factor.

5. Pursuant to resolution passed in extra-ordinary general meeting held on February 14, 2022, our Shareholders have approved subdivision of each equity share of face value of ₹100 each into fifty equity shares of face value of ₹2 each and issue of bonus equity shares of face value of ₹2 each in the ratio of 1:1. As required under Ind AS 33 "Earning per share", the above sub-division and Bonus shares are retrospectively considered for the computation of weighted average number of equity shares outstanding during the period, in accordance with Ind AS 33.
6. Basic and Diluted EPS numbers for the six months ended September 30, 2023 and September 30, 2022 have not been annualised.

II. Price / Earning ("P / E") ratio in relation to Offer Price of ₹850 per Equity Share:

Particulars	P/E at the Floor Price (number of times)	P/E at the Cap Price (number of times)	P / E at the Offer Price (number of times)
Based on basic EPS for Fiscal 2023	34.65	36.45	36.45
Based on diluted EPS for Fiscal 2023	34.65	36.45	36.45

III. Industry peer group P / E ratio

Particulars	Industry P / E (number of times)
Highest	102.63
Lowest	43.92
Average	70.37

Note: The Industry high and low has been considered from the listed industry peer set. The industry composite has been calculated as the arithmetic average P/E of the listed industry peer set.

IV. Return on Net Worth ("RoNW")

As derived from the Restated Financial Information:

Period	Return on Net Worth (%)	Weight
Financial year ended 2023	21.12%	3
Financial year ended 2022	18.07%	2
Financial year ended 2021	13.40%	1
Weighted Average	18.82%	-
Six months ended September 30, 2023 (not annualised)	10.81%	-
Six months ended September 30, 2022 (not annualised)	12.87%	-

Notes:

1. Return on net worth is calculated as restated profit for the period / year divided by total equity.
2. For the purposes of the above, "net worth" means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation each as applicable for the Company on consolidated restated basis. Net worth represents equity attributable to owners of the holding company and does not include amounts attributable to non-controlling interests.

V. Net Asset Value (NAV) per Equity Share

As at	NAV per Equity Share (in ₹)
March 31, 2023	110.43
September 30, 2023	123.28
September 30, 2022	101.09

Notes:

1. Net asset value per equity share means total equity divided by weighted average number of equity shares.

As at	NAV per Equity Share (in ₹)
After the completion of the Offer:	
(i) At Floor Price	159.17

As at	NAV per Equity Share (in ₹)
(ii) At Cap Price	159.58
At Offer Price ⁽¹⁾	159.58

⁽¹⁾ Offer Price per Equity Share has been determined on conclusion of the Book Building Process.

VI. Comparison of accounting ratios with listed industry peers as at and for the year ended March 31, 2023

Name of the company	Consolidated / Standalone	Face value (₹ per share)	Closing price as at December 7, 2023 (as per BSE)	Revenue from operations (in ₹ million)	EPS		NAV (₹ per share)	P/E (in times)	RoNW (%)
					Basic	Diluted			
Happy Forgings Limited*	Consolidated	2.00	-	11,965.30	23.32	23.32	110.43	-	21.12%
Bharat Forge Limited [#]	Consolidated	2.00	1,164.85	1,29,102.59	11.35	11.35	144.02	102.63	7.88%
Craftsman Automation Limited [#]	Consolidated	5.00	5,163.75	31,826.00	117.56	117.56	651.68	43.92	18.04%
Ramkrishna Forgings Limited [#]	Consolidated	2.00	761.65	31,928.95	15.52	15.43	82.67	49.36	18.77%
Sona BLW Precision Forgings Limited [#]	Consolidated	10.00	577.50	26,550.10	6.76	6.75	39.12	85.56	17.26%

*Financial information for the Company is derived from the Restated Financial Information as at and for the financial year ended March 31, 2023.

[#]All the financial information for listed industry peer mentioned above is on a consolidated basis and is sourced from the annual audited financial statements/results of the respective company for the year ended March 31, 2023.

Notes for Listed Peers:

1. Basic EPS and Diluted EPS refer to the Basic EPS and Diluted EPS sourced from the financial statements of the respective company.
2. P/E Ratio has been computed based on the closing market price of equity shares on BSE on December 7, 2023, divided by the Diluted EPS provided.
3. Return on net worth (RoNW) is computed as profit for the period attributable to common shareholders of the parent divided by net worth (excluding non-controlling interest), as at March 31, 2023.
4. NAV per equity share has been computed as the net worth attributable to common shareholders (excluding non-controlling interest) divided by the total number of shares outstanding, as at March 31, 2023.

VII. Key performance indicators (“KPIs”)

The KPIs disclosed below have been approved by a resolution of our Audit Committee dated December 9, 2023 and the members of the Audit Committee have verified the details of all KPIs pertaining to the Company. Further, the members of the Audit Committee have confirmed that, except as disclosed below, there are no KPIs pertaining to our Company that have been disclosed to any investors at any point of time during the three years period prior to the date of filing of this Prospectus and which have been used historically by our Company to understand and analyse our business performance, which in result, helps us analyse the growth of various verticals in comparison to our peers, as well as other relevant and material KPIs of the business of the Company that have a bearing for arriving at the basis for the Offer Price, which have not been disclosed in this section. Further, the KPIs herein have been certified by Goel Garg & Co., Chartered Accountants, by their certificate dated December 21, 2023. This certificate has been designated as a material document for inspection in connection with the Offer. See “Material Contracts and Documents for Inspection” on page 509.

Our Company confirms that it shall continue to disclose all the KPIs included in this section on a periodic basis, at least once in a year (or any lesser period as determined by the Board of our Company), for a duration of one year after the date of listing of the Equity Shares on the Stock Exchange or till the complete utilisation of the proceeds of the Fresh Issue as per the disclosure made in the Objects of the Offer Section, whichever is later or for such other duration as may be required under the SEBI ICDR Regulations.

Set forth below are the KPIs pertaining to the Company that have been disclosed to its investors at any point of time during the three years preceding the date of this Prospectus and also have been used historically by our Company to understand and analyse the business performance, which in result, help us in analyzing the growth of various verticals in comparison to our listed peers, and other relevant and material KPIs of the business of the Company that have a bearing for arriving at the Basis for the Offer Price:

*Revenue from sale of crankshafts for the Company amounts to ₹4,831.74 million; ₹3,274.23 million, ₹2,576.49 million, ₹2,937.27 million and ₹2,316.48 million during the financial year ending March 31, 2023, March 31, 2022, March 31, 2021, six months ended September 30, 2023 and six months ended September 30, 2022, respectively.

*Not Annualized for six months ended September 30, 2023 and six months ended September 30, 2022.

N.A. for the company refers to 'Not Available' as the restated consolidated financial information for the year ended March 2020 and six months ended September 2021, is not available.

Notes:

- Revenue from Operations means the revenue from operations for the period / year.
- Growth in revenue from operations (%) is calculated as a percentage of Revenue from Operations of the relevant period / year minus Revenue from Operations of the preceding period / year, divided by Revenue from Operations of the preceding period / year.
- Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus (increase)/decrease in inventories of finished goods, work-in-progress and scrap.
- Gross Margin is calculated as Gross Profit divided by revenue from operations.
- EBITDA is calculated as profit for the period / year minus other income and share of net profit of joint venture plus finance costs, depreciation and amortisation, total income tax expenses.
- EBITDA Margin is calculated as EBITDA divided by Revenue from operations.
- Restated profit for the period / year.
- PAT Margin is calculated as restated profit for the period / year divided by Revenue from operations.
- Return on Equity is calculated as restated profit for the period / year divided by total equity. The said ratio has not been annualized for the six months ended September 30, 2023 and 2022 and is based on six months financials.
- Return on Capital Employed is calculated as EBIT divided by Capital Employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the period / year plus total income tax expense plus finance costs. The said ratio has not been annualized for the six months ended September 30, 2023 and 2022 and is based on six months financials.
- Debt/ Total Net worth is calculated as total debt (including current and non-current borrowings) divided by total equity.
- (i) For Fiscal 2023, 2022 and 2021, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 365 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 365 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 365 days.
- (ii) For the six months ended September 30, 2023 and 2022, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 183 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 183 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 183 days.
- Gross Fixed Assets Turnover Ratio is calculated as revenue from operations for the period / year divided by cost of property, plant and equipment. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- Revenue from sale of products and services split between domestic and exports. Percentage of revenue (%) from domestic is calculated as revenue from domestic sale of products and services divided by total revenue from sale of products and services. Percentage of revenue (%) from exports is calculated as revenue from exports sale of products and services divided by total revenue from sale of products and services.
- Total Sales Volume is the volume of products sold during the period / year, in terms of metric tonnes (MT), including scrap.
- Revenue from sale of products split between forged and machined components. Percentage of revenue (%) from forged products is calculated as revenue from sale of forged products divided by total revenue from sale of products. Percentage of revenue (%) from machined products is calculated as revenue from sale of machined products divided by total revenue from sale of products.
- Revenue from sale of products split among key focus end-use industry of Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications. Percentage of revenue (%) from a particular end use industry has been calculated as a

revenue from sale of products from that particular end use industry (Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications) divided by the total revenue from sale of products.

Explanation for KPI metrics

S. No.	KPI	Explanation
1.	Revenue from operations (₹ million)	Revenue from Operations is used by the management to track the revenue profile of the business and in turn helps assess the overall financial performance of the Company and size of the business.
2.	Growth in revenue from operations (%)	Growth in Revenue from Operations provides information regarding the growth of the business for the respective period.
3.	Gross Profit(₹ million)	Gross Profit provides information regarding the value addition by the Company (including its profits) over material cost on sale of products and services by the Company.
4.	Gross Margin (%)	Gross Margin (%) is an indicator of the value addition by the Company (including its profits) over material cost on sale of products and services by the Company.
5.	EBITDA (₹ million)	EBITDA provides information regarding the operational efficiency of the business.
6.	EBITDA Margin (%)	EBITDA Margin is an indicator of the operational profitability and financial performance of the business.
7.	Restated Profit for the Year (₹ million)	Restated Profit for the Year provides information regarding the overall profitability of the business.
8.	Profit After Tax Margin (%)	PAT Margin is an indicator of the overall profitability and financial performance of the business.
9.	Return on Equity (“RoE”) (%)	RoE provides how efficiently the Company generates profits from shareholders’ funds.
10.	Return on Capital Employed (“RoCE”) (%)	ROCE provides how efficiently the Company generates earnings from the capital employed in the business.
11.	Debt/Total Net Worth (in times)	Debt to Total Net worth Ratio is a measure of the extent to which the Company can cover its debt and represents the debt position in comparison to the equity position. It helps to evaluate the financial leverage.
12.	Cash Conversion Cycle (in days)	Cash Conversion Cycle days indicates the working capital requirements in relation to revenue generated from operations
13.	Gross fixed assets turnover ratio (in times)	Gross fixed assets turnover ratio measures the efficiency of the fixed assets (property, plant and equipment) in generating revenue.
14.	Revenue from sale of products and services split between domestic and exports (₹ million and %)	This metric enables the company to track the progress of revenue from sale of products and services from domestic and exports.
15.	Total Sales Volume (MT)	This metrics enables the Company to track the total volume of sales made to customers and thereby provides various operational insights which are used to improve offerings.
16.	Revenue from sale of products split between forged and machined products (₹ million and %)	This metric enables the company to track the progress of revenue from sale of products from forged and machined components.
17.	Revenue from sale of products split by end-use industry between Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications (₹ million and %)	This metric enables the company to track the progress of revenues in its four key focus end-use segments of Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications.

For details of our other operating metrics disclosed elsewhere in this Prospectus, see “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” starting on pages 219 and 384, respectively.

Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or

as a substitute for the Restated Financial Information. We use these KPIs to evaluate our financial and operating performance. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business.

Comparison with listed industry peers

While our listed peers (mentioned below), like us, operate in the forging industry and may have similar offerings or end use applications, our business may be different in terms of differing business models, different product verticals serviced or focus areas or different geographical presence.

*Revenue from sale of crankshafts for the Company amounts to ₹4,831.74 million; ₹3,274.23 million, ₹2,576.49 million, ₹2,937.27 million and ₹2,316.48 million during the financial year ending March 31, 2023, March 31, 2022, March 31, 2021, six months ended September 30, 2023 and six months ended September 30, 2022, respectively.

N.A. for the company refers to 'Not Available' as the restated consolidated financial information for the year ended March 2020 and six months ended September 2021, is not available.

Notes:

1. Revenue from Operations means the revenue from operations for the period / year.
2. Growth in revenue from operations (%) is calculated as a percentage of Revenue from Operations of the relevant period / year minus Revenue from Operations of the preceding period / year, divided by Revenue from Operations of the preceding period / year.
3. Gross profit[#] is calculated as revenue from operations minus cost of raw materials and components consumed minus (increase)/decrease in inventories of finished goods, work-in-progress and scrap.
4. Gross Margin is calculated as Gross Profit divided by revenue from operations.
5. EBITDA is calculated as profit for the period / year minus other income and share of net profit of joint venture plus finance costs, depreciation and amortisation, total income tax expenses.
6. EBITDA Margin is calculated as EBITDA divided by Revenue from operations.
7. Restated profit for the period / year.
8. PAT Margin is calculated as restated profit for the period / year divided by Revenue from operations.
9. Return on Equity is calculated as restated profit for the period / year divided by total equity. The said ratio has not been annualized for the six months ended September 30, 2023 and 2022 and is based on six months financials.
10. Return on Capital Employed is calculated as EBIT divided by Capital Employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the period / year plus total income tax expense plus finance costs. The said ratio has not been annualized for the six months ended September 30, 2023 and 2022, and is based on six months financials.
11. Debt/ Total Net worth is calculated as total debt (including current and non-current borrowings) divided by total equity.
12. (i) For Fiscal 2023, 2022 and 2021, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - a. Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 365 days.
 - b. Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 365 days.
 - c. Trade payable days is calculated as Trade payable divided by COGS multiplied by 365 days.
- (ii) For the six months ended September 30, 2023 and 2022, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - a. Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 183 days.
 - b. Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 183 days.
 - c. Trade payable days is calculated as Trade payable divided by COGS multiplied by 183 days.
13. Gross Fixed Assets Turnover Ratio is calculated as revenue from operations for the period / year divided by cost of property, plant and equipment. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
14. Revenue from sale of products and services split between domestic and exports. Percentage of revenue (%) from domestic is calculated as revenue from domestic sale of products and services divided by total revenue from sale of products and services. Percentage of revenue (%) from exports is calculated as revenue from exports sale of products and services divided by total revenue from sale of products and services.
15. Total Sales Volume is the volume of products sold during the period / year, in terms of metric tonnes (MT), including scrap.
16. Revenue from sale of products split between forged and machined components. Percentage of revenue (%) from forged products is calculated as revenue from sale of forged products divided by total revenue from sale of products. Percentage of revenue (%) from machined products is calculated as revenue from sale of machined products divided by total revenue from sale of products.
17. Revenue from sale of products split among key focus end-use industry of Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications. Percentage of revenue (%) from a particular end use industry has been calculated as a revenue from sale of products from that particular end use industry (Heavy Commercial Vehicles, Farm Equipment, Off Highway Construction Vehicles and Industrial applications) divided by the total revenue from sale of products.
18. For listed peers 'NA' refers to 'Not Available', as the data for peers is not available in the public domain.

**In case of listed peers, the information for the Fiscal Years 2022, 2021 and 2020 has been considered as per the comparative figures appearing in the audited financial statements/results for the Fiscal Year ended 2023, 2022 and 2021 respectively.

[#]The consolidated financial results/statements of Bharat Forge Limited additionally have purchase of traded goods as an expense and the same has been reduced in the above gross profit calculation and has also been considered for calculation of COGS for the cash conversion cycle computation. Further, the consolidated financial results/statements of Ramkrishna Forgings Limited additionally have purchase of traded goods and cost of services as expenses and the same have been reduced in the above gross profit calculation and have also been considered for the calculation of COGS in the cash conversion cycle computation.

Comparison of KPIs based on additions or dispositions to our business

Our Company has not undertaken a material acquisition or disposition of assets / business for the periods that are covered by the KPIs and accordingly, no comparison of KPIs over time based on material additions or material dispositions to the business, have been provided.

VIII. Weighted average cost of acquisition, Floor Price and Cap Price

a) *The price per share of our Company based on the primary/ new issue of shares (equity / convertible securities)*

There has been no issuance of Equity Shares or convertible securities, excluding the issuance of bonus shares, during the 18 months preceding the date of this Prospectus, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of our Company (calculated based on the pre-Offer capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

b) *The price per share of our Company based on the secondary sale / acquisition of shares (equity / convertible securities)*

There have been no secondary sale / acquisitions of Equity Shares or any convertible securities, where the Promoters, members of the Promoter Group, Selling Shareholders, or Shareholder(s) having the right to nominate director(s) on the board of directors of the Company are a party to the transaction (excluding gifts), during the 18 months preceding the date of this Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid up share capital of the Company (calculated based on the pre-Offer capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

c) *Price per share based on the last five primary or secondary transactions*

Since there are no such transactions to report to under (a) and (b), therefore, information based on last 5 primary or secondary transactions (secondary transactions where Promoters / Promoter Group entities or Selling Shareholders or Shareholder(s) having the right to nominate director(s) on the Board of our Company, are a party to the transaction), not older than three years prior to the date of this Prospectus irrespective of the size of transactions, is as below:

Primary transactions:

Except as disclosed below, there have been no primary transactions in the last three years preceding the date of this Prospectus:

Date of allotment	Number of equity shares allotted	Face value per equity share (₹)	Issue price per equity share (₹)	Nature of allotment	Nature of consideration	Total consideration (in ₹ million) ⁽¹⁾
March 30, 2022	44,749,500	2.00	Nil	Bonus Issue	N.A.	Nil
Weighted average cost of acquisition (WACA)						Nil*

As certified by Goel Garg & Co., Chartered Accountants pursuant to their certificate dated December 21, 2023. This certificate has been designated as a material document for inspection in connection with the Offer. See "Material Contracts and Documents for Inspection" on page 509.

**As the total consideration involved is Nil, hence the weighted average cost will be Nil.*

Note:

1. Bonus shares were allotted in the ratio of one Equity Share for every one Equity Share pursuant to Board resolution dated March 30, 2022.

Secondary acquisition:

Disclosed below are the last five secondary transactions by the Promoters, members of the Promoter Group, Selling Shareholders, or Shareholder(s) having the right to nominate director(s) in the Board of Directors of our Company are a party to the transaction, in the last three years preceding the date of this Prospectus:

Date of transfer	Name of transferee	Name of transferor	Number of equity shares transferred	Face value per equity share (₹)	Price per equity share (₹)	Nature of transaction	Nature of consideration	Total consideration (in ₹ million)
August 7, 2023	Garg Family Trust [@]	Suman Garg	38,047,000	2.00	Nil	Gift	N.A.	Nil
	Suman Garg [@]	Paritosh Kumar	29,148,700	2.00	Nil	Gift	N.A.	Nil
July 12, 2023	Suman Garg [#]	Satish Kumar	3,900	2.00	Nil	Gift	N.A.	Nil
		Nitin Aggarwal	1,300			Gift		
		Amita Rani	1,300			Gift		
July 7, 2023	Satish Kumar	Satish Kumar and Sons (HUF)	1,300	2.00	Nil	Gift	N.A.	Nil
June 23, 2023	Suman Garg [^]	Sudesh Kumari Aggarwal	1,300	2.00	Nil	Gift	N.A.	Nil
		Sudeept Agarwal	1,300			Gift		
		Prateek Agarwal	1,300			Gift		
May 16, 2023	Paritosh Kumar	Sheena Gupta	2,438,000	2.00	Nil	Gift	N.A.	Nil
Total			69,645,400					Nil
Weighted average cost of acquisition								Nil*

As certified by Goel Garg & Co., Chartered Accountants pursuant to their certificate dated December 21, 2023. This certificate has been designated as a material document for inspection in connection with the Offer. See "Material Contracts and Documents for Inspection" on page 509.

*As the total consideration involved is Nil, hence the weighted average cost will be Nil.

[@]Since two transfers were effected on August 7, 2023, a total of ten transactions have been reported here.

[#]Since three transfers were effected on July 12, 2023, a total of ten transactions have been reported here.

[^]Since three transfers were effected on June 23, 2023, a total of ten transactions have been reported here.

d) Weighted average cost of acquisition, floor price and cap price

Past transactions	Weighted average cost of acquisition per Equity Share (in ₹)	Floor Price is ₹808	Cap Price is ₹850
Weighted average cost of acquisition for last 18 months for primary / new issue of shares (equity/convertible securities), excluding issuance of bonus shares, during the 18 months preceding the date of filing of this Prospectus, where such issuance is equal to or more than 5 per cent of the fully diluted paid-up share capital of our Company (calculated based on the pre-issue capital before such transaction/s and excluding employee stock option granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days	N.A.	N.A.	N.A.
Weighted average cost of acquisition for last 18 months for secondary sale / acquisition of shares (equity/convertible securities), where Promoter / Promoter Group entities or Selling Shareholders or Shareholder(s) having the right to nominate director(s) in our Board are a party to the transaction (excluding gifts), during the 18 months preceding the date of filing of this Prospectus, where either acquisition or sale is equal to or more than 5 per cent of the fully diluted paid-up share capital of our Company (calculated based on the pre-issue capital before such transaction/s and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days	N.A.	N.A.	N.A.
Since there were no primary or secondary transactions of equity shares of the Company during the 18 months preceding the date of filing of this Prospectus, the information has been disclosed for price per share of the Company based on the last five primary or secondary transactions where Promoter /Promoter Group entities or Selling Shareholders or Shareholder(s) having the right to nominate director(s) on our Board, are a party to the transaction, not older than three years prior to the date of filing of this Prospectus irrespective of the size of the transaction			
- Based on primary transactions	Nil	N.A.	N.A.
- Based on secondary transactions	Nil	N.A.	N.A.

As certified by Goel Garg & Co., Chartered Accountants, by their certificate dated December 21, 2023.

Justification for Basis for Offer Price:

Set out below is an explanation for our Offer Price being ₹850 in comparison to our Weighted average cost of acquisition of primary transactions and secondary transactions (a) along with our Company's key performance indicators and financial ratios for the six-months ended September 30, 2023 and September 30, 2022 and Fiscals

2023, 2022 and 2021 and (b) in view of the external factors which may have influenced the pricing of the Offer. For details of our Company's KPIs, see " – Key performance indicators ("KPIs")" beginning on page 132.

- We are the fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India as of Fiscal 2023 in terms of forgings capacity (*Source: Ricardo Report*).
- With over 40 years of experience of manufacturing and supplying quality and complex components according to customers specifications, we have emerged as a leading player in the domestic crankshaft manufacturing industry with the second largest production capacity for commercial vehicle and high horse-power industrial crankshafts in India (*Source: Ricardo Report*).
- Our strength in machining and overall value addition to products has enabled us to achieve the highest EBITDA margin among our peers (refer to "Our Business – Competition" on page 263 of the RHP for details of our peers) in the last two Fiscals (i.e., Fiscal 2022 and 2023) (*Source: Ricardo Report*).
- We are among the few companies in India with the capability to manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries (*Source: Ricardo Report*).
- We believe that the critical application of our products, along with their heavy weight, closed tolerance and stringent quality requirements of OEMs serve as entry barriers for new players to qualify as suppliers or in their ability to replace us in supplying precision products we manufacture (*Source: Ricardo Report*).
- we believe that our focus on the high HP engine segment insulates us from any potential electric vehicle ("EV") disruption as hydrogen, compressed natural gas ("CNG") and liquified natural gas ("LNG") combustion engine technologies are expected to become prominent alternate powertrain technologies in this segment and crankshaft as a product is compatible to such combustion engines with minimal or no alterations (*Source: Ricardo Report*).
- We are a supplier to each of the top five Indian OEMs, by market share, in the medium and heavy commercial vehicle industry and four of the top five Indian OEMs in the farm equipment industry by market share, in Fiscal 2023 (*Source: Ricardo Report*).
- As of March 31, 2023, we are only the second company in India to have a 14,000 tonne forging press or higher forging press and are among the four companies in India that possess a 8,000 tonne forging press or higher forging press (*Source: Ricardo Report*), allowing us to manufacture heavier and complex products with greater precision and accuracy, thereby better serving our customers.
- We are also among the few players in the Indian forging industry that have a forging capacity of about 107,000 MT as of March 31, 2023 (*Source: Ricardo Report*).

The Offer price is 425 times of the face value of the Equity Shares

The Offer Price of ₹850 has been determined by our Company and the Investor Selling Shareholder in consultation with the BRLMs, on the basis of market demand from investors for Equity Shares through the Book Building Process.

Investors should read the abovementioned information along with "Risk Factors", "Our Business", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Restated Financial Information" on pages 36, 219, 384 and 302, respectively, to have a more informed view.

STATEMENT OF SPECIAL TAX BENEFITS

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER THE APPLICABLE LAWS IN INDIA

The Board of Directors
Happy Forgings Limited
Kanganwal Road, PO Jugiana,
Ludhiana – 141120
Punjab India

Dear Sirs,

Statement of Special Tax Benefits available to Happy Forgings Limited (“the Company”) and its shareholders under the Indian tax laws

1. We hereby confirm that the enclosed Annexures, prepared by Happy Forgings Limited (‘the Company’) provides the special tax benefits available to the Company and its shareholders as stated in Annexure 1 and 2, under the provisions of the Income-tax Act, 1961 (‘the Act’) as amended by the Finance Act, 2023 read with the Income-tax Rules, 1962, i.e. applicable for the Financial Year 2023-24 relevant to the assessment year 2024-25 (together, the “Direct Tax Laws”), the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, relevant State Goods and Services Tax Act (SGST) read with rules, circulars, and notifications (“GST law”), the Customs Act, 1962, the Customs Tariff Act, 1975 as amended by the Finance Act 2023 applicable for the Financial Year 2023-24 (“Customs law”) and Foreign Trade (Development and Regulation) Act, 1992 (read with the Foreign Trade Policy 2015-20) and Foreign Trade Policy 2023 (FTP) and Industrial and Business Development Policy -2017 (“Foreign Trade Law”) read with relevant rules, notifications and circulars, each as amended and presently in force in India (collectively referred as “Indirect Tax Laws” and along with Direct Tax Laws, the “Tax Laws”) . Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and / or its shareholders to derive the special tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company or its shareholders may or may not choose to fulfil.
2. The benefits discussed in the enclosed Annexures cover only special tax benefits available to the Company and to the shareholders of the Company and do not cover any general tax benefits available to the Company and to the shareholders of the Company.
3. The benefits discussed in the enclosed Annexures are not exhaustive and the preparation of the contents stated in the Annexures is the responsibility of the Company’s management. We are informed that this statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing Tax Laws, each investor is advised to consult his or her tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offer of the equity shares of the Company (“Offer”).
4. We do not express any opinion or provide any assurance as to whether:
 - the Company or its shareholders will obtain/ continue to obtain these special tax benefits in future;
 - the conditions prescribed for availing the special tax benefits have been / would be met with; or
 - the revenue authorities/courts will concur with the views expressed herein.
5. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.
6. This statement is prepared solely in connection with the Offer and is not to be used, referred to or distributed for any other purpose.

ANNEXURE 1 TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO HAPPY FORGINGS LIMITED ('THE COMPANY') AND ITS SHAREHOLDERS

Outlined below are the special tax benefits available to Happy Forgings Limited ('the Company') and its Shareholders under the Income Tax Act, 1961 (herein after referred to as 'the Act'), as amended by the Finance Act, 2023 read with the Income-tax Rules, 1962, applicable for the Financial Year ('FY') 2023-24 relevant to Assessment Year ('AY') 2024-25

1. Special tax benefits available to the Company under the Act

A. Lower corporate tax rate under Section 115BAA of the Act

A new Section 115BAA had been inserted by the Taxation Laws (Amendment) Act, 2019 ("the Amendment Act, 2019") w.e.f. FY 2019-20 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.17% (22% plus surcharge of 10% and cess of 4%), provided such companies do not avail specified exemptions/ incentives.

The Amendment Act, 2019 further provided that domestic companies availing such option will not be required to pay Minimum Alternate Tax ("MAT") under Section 115JB. The CBDT had further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

The Company has opted for the beneficial tax rate under section 115BAA of the Act from FY 2019-20 onwards. As the Company has opted for the beneficial tax rate introduced by the ordinance, they are not eligible to avail the exemptions/ incentives as specified under Section 115BAA of the Act. Further, the option once exercised by the Company cannot be subsequently withdrawn for the same or any other FY.

B. Deductions from Gross Total Income

- **Section 80JJAA: Deduction in respect of employment of new employees**
Subject to fulfilment of prescribed conditions, the Company is entitled to claim deduction under the provisions of Section 80JJAA of the Act, of an amount equal to thirty per cent of additional employee cost (relating to specified category of employees) incurred in the course of business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

The deduction u/s 80JJAA of the Act shall be applicable even if the Company avails the benefits of the special rate u/s 115BAA of the Act

- **Section 80M of the Act: Deduction in respect of inter-corporate dividends**

A new Section 80M had been inserted by the Finance Act, 2020 w.e.f. FY 2020-21 providing for deduction from gross total income of a domestic company, of an amount equal to dividends received by such company from another domestic company or a foreign company or a business trust as does not exceed the amount of dividend distributed by it on or before one month prior to the date of filing its tax return as prescribed under Section 139(1) of the Act.

Where the company receives any such dividend during a FY and also, distributes dividend to its shareholders before the aforesaid date, as may be relevant to the said FY, it shall be entitled to the deduction under Section 80M of the Act. The deduction u/s 80M of the Act shall be applicable for the company availing the benefits of the special rate u/s 115BAA of the Act.

2. Special tax benefits available to the Shareholders

A. Higher cost of acquisition benefit in relation to long term capital asset being shares of a company referred to in section 112A of the Act

A new section 55(2)(ac) of the Act has been inserted to provide grandfathering of gains on the specified assets (as defined u/s 112A of the Act) acquired prior to 1 February 2018. The Cost of acquisition would be higher of:-

- a) Cost of acquisition and
- b) Lower of
 - Fair market value* of such shares
 - Full value of consideration received or accruing as result of transfer of capital asset

*‘fair market value’ means —

In a case where the capital asset is an equity share in a company which is not listed on a recognised stock exchange as on the 31st day of January, 2018 but listed on such exchange on the date of transfer, an amount which bears to the cost of acquisition the same proportion as Cost Inflation Index for the financial year 2017-18 bears to the Cost Inflation Index for the first year in which the asset was held by the assessee or for the year beginning on the first day of April, 2001, whichever is later.

B. No interest on deferment of advance tax instalment with respect to dividend income

The Finance Act 2020 amended the manner of taxation of dividend income by abolishing dividend distribution tax and restoring classical system of dividend taxation (i.e. taxation of dividend income in the hands of the shareholders). Considering the nature of income, it is not possible for taxpayer to accurately determine the advance tax liability on dividend income and therefore, the proviso to section 234C(1) of the Act provides that no interest shall be levied under section 234C of the Act, if the shortfall in payment of advance tax instalment is on account of underestimation or failure to estimate dividend. The amendment was introduced by Finance Act 2021 and is applicable from 1 April 2021.

C. Surcharge on all long-term capital gains capped at 15%

The Finance Act 2022 has capped the surcharge on LTCG on sale of unlisted equity shares to 15% from erstwhile graded surcharge up to 37%, resulting in reduction in highest slab of effective LTCG tax rate from 28.50% to 23.92%.

D. Surcharge on personal income capped at 25% for individuals opting concessional tax regime under section 115BAC

The Finance Act 2023 has capped surcharge on total income of individual assessee’s opting for concessional tax regime under section 115BAC to 25% (instead of earlier surcharge of 37% for individuals having total income exceeding) Rs. 5 crores.

NOTES:

1. The above statement of possible special tax benefits sets out the provisions of Direct Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above statement covers only certain special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This statement also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company. The above are based on the existing provisions of the Direct Tax Laws and its interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Any such change, which could also be retrospective, could have an effect on the validity of the above.
3. The above statement of possible special tax benefits is as per the current direct Direct Tax Laws relevant for the assessment year 2024-25. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Direct Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.

5. This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.
6. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

ANNEXURE 2 TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO HAPPY FORGING LIMITED (“THE COMPANY”) AND ITS SHAREHOLDERS

- I. Outlined below are the possible special tax benefits available to the Company and its Shareholders under the Central Goods and Services Tax Act, 2017 / the Integrated Goods and Services Tax Act, 2017 / relevant State Goods and Services Tax Act (SGST) read with rules, circulars, and notifications (“GST law”), the Customs Act, 1962 and the Customs Tariff Act, 1975 as amended by the Finance Act 2023 applicable for the Financial Year 2023-24 (“Customs law”) and Foreign Trade (Development and Regulation) Act, 1992 (read with the Foreign Trade Policy 2015-20) and Foreign Trade Policy 2023 (FTP) and Industrial and Business Development Policy -2017 read with relevant rules, notifications and circulars, each as amended and presently in force in India (*herein collectively referred as “Indirect Tax Laws”*)**

1. Special tax benefits available to the Company

- A. Benefits of Foreign Trade Agreements under Customs Act, 1962:** A free trade agreement is a pact between two or more nations to reduce barriers to imports and exports among them. Under a free trade policy, goods and services can be bought and sold across international borders with little or no government tariffs, quotas, subsidies, or prohibitions to inhibit their exchange subject to fulfillment of certain conditions and compliances. The Company avails benefit of concessional rate of duty at the time of import of goods from Japan and South Korea under respective Foreign Trade Agreements, as applicable, on specified imported goods.
- B. Benefits of Duty Drawback scheme under Section 75 of the Customs Act, 1962:** As per Section 75 of the Customs Act, the Central Government is empowered to allow duty drawback on export of goods, where the imported materials are used in the manufacture of such goods. The Company avails duty drawback benefit equal to or less than the duty paid, as applicable, on imported material when it undertakes export of goods.
- C. Benefits under The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20):** The Company is availing benefit under the export promotion capital goods scheme *vide* which it is eligible to undertake duty free import of capital goods which are used in manufacturing of goods which are exported out of India. Consequent to this, the Company is under obligation to undertake export of goods within a prescribed time period.
- D. Benefits of Remission of Duties and Taxes on Export Products (“RoDTEP”) Scheme under The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20):** The Government of India by making amendment in the Foreign Trade Policy 2015-20 vide DGFT Notification No. 19/2015-20 dated 17.08.2021 introduced this scheme which provides rebate of all hidden Central, State, and Local duties/taxes/levies on the exported goods including prior stage cumulative indirect taxes on goods and services used in the production and distribution of the exported product, which have not been refunded under any other existing scheme. The Company avails RoDTEP benefit as notified, on exported products.
- E. Benefits under the Central Goods and Services Act, 2017, respective State / Union Territory Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 (read with relevant rules prescribed thereunder):** Under the GST regime, supplies of goods or services which qualify as ‘export’ of goods or services are zero-rated which can be supplied either with or without payment of Integrated Goods and Services Tax (“IGST”) subject to fulfilment of conditions prescribed. The exporter has the option to either undertake exports under cover of a Bond/ Letter of Undertaking (“LUT”) without payment of IGST and claim refund of accumulated input tax credit subject to fulfilment of conditions prescribed for export or the exporter may export with payment of IGST and claim refund of IGST paid on such exports as per the provisions of Section 54 of Central Goods and Services Tax Act, 2017. Thus, the Integrated Goods and Service Tax Act, 2017 permits a supplier undertaking zero rated supplies (which will include the supplier making supplies to SEZ) to claim refund of tax paid on exports as IGST (by undertaking exports on payment of tax using ITC) or export without payment of tax by executing a Bond/ LUT and claim refund of related ITC of taxes paid on inputs and input services used in making zero rated supplies.

- F. **Benefits under Industrial and Business Development Policy, 2017:** Under the policy, various fiscal incentives are offered in case of setting up a new unit or substantial expansion in an existing unit subject to fulfillment of certain conditions. The Company has been availing various incentives such as GST reimbursement, employment subsidy etc. as applicable under the captioned policy with respect to new manufacturing unit set up in Ludhiana.

G. **Special tax benefits available to the Shareholders of the Company**

There are no special tax benefits available to the shareholders for investing in the shares of the Company.

Notes:

1. The above statement of special tax benefits is based on the best understanding of the Company's business landscape and tax benefits available to the Company and its shareholders under the current Indirect Tax Laws presently in force in India.
2. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences, the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the issue.
3. This statement does not discuss any tax consequences in the country outside India of an investment in the equity shares of the Company ("**Equity Shares**"). The subscribers of the Equity Shares in the country other than India are urged to consult their own professional advisers regarding possible indirect-tax consequences that apply to them.
4. The above statement covers only above-mentioned Indirect Tax Laws benefits and does not cover any income tax law benefits or benefit under any other law.
5. During the period from 1 April 2023 to the date of this Annexure, the Company intends to:
 - 1) avail above mentioned exemption, benefits and incentives under Indirect Tax Laws
 - 2) export goods and/ or services outside India
 - 3) import goods and/ or services from outside India
6. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

SECTION V – ABOUT OUR COMPANY

INDUSTRY OVERVIEW

Unless otherwise indicated, industry and market data used in this section has been derived from industry publications, in particular, the report titled “Industry Report on Global and Indian Forging and Machining Markets” dated November 30, 2023 (the “Ricardo Report”) prepared and issued by Ricardo appointed by us pursuant to an engagement letter dated May 16, 2023, and exclusively commissioned and paid for by us to understand the industry in which we operate in connection with the Offer. The Ricardo Report was available on the website of the Company at <https://happyforgingsltd.com/investors> until the Bid / Offer Closing Date. Unless otherwise indicated, financial, operational, industry and other related information derived from the Ricardo Report and included herein with respect to any particular calendar year/ Fiscal refers to such information for the relevant calendar year/ Fiscal.

Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors must rely on their independent examination of, and should not place undue reliance on, or base their investment decision solely on this information. The recipient should not construe any of the contents of the Ricardo Report as advice relating to business, financial, legal, taxation or investment matters and are advised to consult their own business, financial, legal, taxation, and other advisors concerning the transaction. While preparing the report, Ricardo has also sourced information from publicly available sources, including our Company’s financial statements available publicly. Further, the reference to “segments” in this section refers to end-use industries.

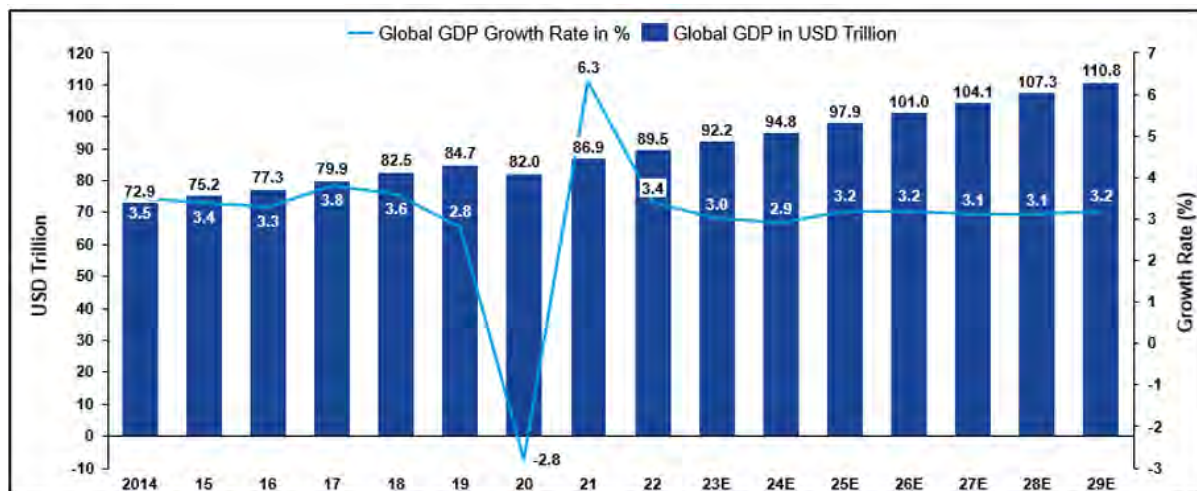

For more information, see “Risk Factors – Certain sections of this Prospectus disclose information from the Ricardo Report which is a paid report and commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks” on page 68. Also see, “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and market data” on page 21.

MACROECONOMIC OVERVIEW

Global Macroeconomic Overview

Gross Domestic Product (GDP) Growth

The global economy between 2014 and 2019 remained stable in the aftermath of the global financial crisis in 2008-2009 with an average growth rate of 3.4% and Asian countries like China and India being the highest-growing countries with a GDP growth rate of 7.4% and 7.3%, respectively. The interest rate by the central banks in the United States and Euro-Zone were cut down to near zero levels which infused credit in the global financial markets. The global economy saw a period of negative growth in 2020 due to a decline in productivity and output.

Source: IMF Data, Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Calendar Year. Real GDP

The global economy is set to recover from the impact of the global pandemic in 2020 and the Russian attack on

Ukraine in February 2022. Supply-chain disruptions are getting better, while the impact to energy and food markets caused by the war is reducing. Simultaneously, the massive and synchronous tightening of monetary policy by most central banks should start to bear fruit, with inflation moving back toward its targets. Federal Reserve, the central bank of United States of America raised its interest rate from 0 to 0.25% before the Russia-Ukraine war to 5.50% in July 2023. The Federal Reserve had its latest meeting in November 2023 where the interest rates were kept on hold at 5.5%. The Federal Reserve signalled that rates could be on hold for the foreseeable future. The global growth is expected to bottom at 3.0% in 2023 and is expected to recover to 3.02% in 2025 due to growth in emerging markets. Notably, emerging market and developing economies are expected to have significant growth, with growth rates of 4.5% (average) till 2029. The slowdown is concentrated in advanced economies due to the ongoing Israel-Hamas war which started in October 2023. The Israel-Hamas war is expected to impact the economic growth and inflation due to the higher energy prices and lower regional trade between the middle east and Eurozone. Since the war between Israeli-Hamas began, oil prices globally have increased by 5% to 6%. This is likely to result in inflationary pressures, currency fluctuations, higher fiscal deficit and potential impact on economic growth of countries importing crude oil. It is also observed that agricultural commodities and industrial metals have not shown major price fluctuations.

Global Inflation

The inflation during calendar years 2014 to 2017 remained relatively lower than pre-2014 levels majorly due to a decline in private spending, a decline in commodity prices and weaker wage growth in advanced economies. Increased globalisation led to a decrease in inflation in this period, Post 2017 there was a cold trade war between US and China which began the increase in inflation. Calendar year 2021 saw above-average inflation of 4.7% due to lockdowns and a decrease in production.

Source: IMF Data, Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Calendar Year

Global inflation was 8.7% in calendar year 2022 due to supply chain bottlenecks, high energy prices and the impact of the Russia-Ukraine war. The same is set to fall to 7.0% in calendar year 2023 owing to a decrease in commodity prices and the reopening of China easing the supply chain bottlenecks. Global Inflation is expected to normalise to pre-pandemic level post-2025 and remain stable given higher borrowing rates keeping consumer spending in control.

India Macroeconomic Overview

India Real Gross Domestic Product growth

The Indian economy saw a period of growth from Fiscal 2014 to Fiscal 2018 with an average growth rate of 6.94%. The key driver of GDP growth in this period was decline in oil and other commodity prices which improved corporate margins and household purchasing power, while also improving government tax collections and lowering the subsidy bill. The GDP growth declined from 7.9% in Fiscal 2016 to 6.8% in Fiscal 2019 due to the impact on the economy of demonetisation of currency and the introduction of the Goods and Services Tax.

Source: IMF Data, Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Financial Year

The economy has rebounded from the deep pandemic-related downturn. Real GDP grew by 8.7 % in Fiscal 2022, bringing total output above pre-pandemic levels. Growth has continued, supported by a recovery in the labour market and increasing credit to the private sector. The Real GDP saw a growth of 7.2% in Fiscal 2023 owing to robust domestic demand, strong public infrastructure investment and strengthening financials of the banks. Israel-Hamas war is expected to impact the economic growth and inflation because when oil prices rise, the cost of production for various industries and energy costs for businesses and households also surge, driving global inflation higher. High energy prices and new inflationary trends could undermine the efforts of central banks to bring inflation under control.

The monetary policy is restrictive and is focused on anchoring inflation expectation till Fiscal 2024. Interest rates are expected to be lowered post Fiscal 2024 leading to an expansionary monetary policy to increase private consumption.

Services

Manufacturing as a percentage of GDP

Manufacturing as a percentage of GDP had an average of 15% from Fiscal 2014 to Fiscal 2019, which remained constant with minor fluctuations. The manufacturing industries well fared through the demonetisation and implementation of GST and faced competition from Chinese imports.

Source: IMF Data, Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Financial Year

Manufacturing as a % of GDP fell to approximately 13.7% in Fiscal 2020 from 14.9% in Fiscal 2018 due to the onset of the COVID-19 pandemic affecting global supply chains and lockdowns forcing the manufacturing plants to shut down temporarily. Manufacturing as a % of GDP is expected to recover from the COVID-19 pandemic to approximately 16% in 2023 due to recovery of consumer demand and untangling of global supply chains.

Manufacturing as a % of GDP was 16.0% in Fiscal 2023 owing to increase in exports by 6% compared to Fiscal 2022.

Manufacturing as a percentage of GDP is expected to recover from the COVID-19 pandemic to approximately 16% in 2023 due to recovery of consumer demand and untangling of global supply chains. Manufacturing as a percentage of GDP is expected to grow to 18% by Fiscal 2029 due to factors like an increase in the working population of India providing cheap skilled labour, Government reforms like Production linked incentives (allocation of over ₹80,830 million as of budget 2023-24), realization of benefits of GST implementation, increase in Foreign Direct Investment, and the government's push to reduce dependence on imports and boost local manufacturing across sectors.

Inflation Rate

Source: IMF Data, Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Financial Year

Inflation in India was observed to be higher than the average over Fiscal 2020 to 2023 due to the COVID-19 pandemic and the Russia-Ukraine war increasing the energy and food prices globally. The Reserve Bank of India increased its repo rate to 6.5% in 2023 from 4.0% in 2020 hereby reducing the amount of credit available for consumer spending. Fiscal 2024 has an expected inflation of 4.6% reducing from 5.5% in Fiscal 2023 owing to normal monsoon which reduced the food inflation. The inflation in India is expected to normalise to 4.1% by 2025 and is expected to remain stable further.

Overview of key application segments

Automotive Industry

Global Commercial Vehicle Market

Global commercial vehicle production registered a CAGR 0.3% by volume and a CAGR 2.9% by value from calendar year 2014 to calendar year 2019 supported by countries like US and India which had the highest growth rate in this period, driven by an increase in demand of light commercial vehicle for various end use applications such as last mile delivery services, ecommerce and logistics sectors which contribute majorly to this segment.

Source: Ricardo Analysis, Public Domain

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK, and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal 2015 India market size is mentioned in global calendar year 2014)

Global commercial vehicle market is expected to see a growth rate of 3.8% by volume and 5.6% by value during the period between the calendar year 2023 and calendar year 2029 driven by growth of e-commerce sector which will encourage OEMs to increase production of Light and Medium-Duty trucks. Infrastructure development of smart cities and highways will lead to an increase in demand of Heavy-duty trucks. India has the fastest growing CV market globally which is expected to showcase a growth rate of 7.4% CAGR in the forecasted period led by infrastructure growth and supported by various government policies to boost the commercial vehicle sector. Policies like Make in India, National Electric Mobility Mission Plan, BS VI norms and Vehicle Scrappage Policy are further going to incentivise growth in the Indian CV market.

Europe Commercial Vehicle Market

Overall, Europe (Germany, France, Spain, Italy, Turkey and Sweden) CV production registered a degrowth of 0.4% CAGR from calendar year 2014 to calendar year 2022. However, CV market registered a positive trend in Italy, Turkey, and France on account of increase in sales from Light commercial vehicle segment (more than 3.5 tonnes) and Buses (less 3.5 tonnes).

Source: Ricardo Analysis, Public Domain; Note: E- Estimated; Data is given as per Calendar Year

The European CV production market is expected to grow at a CAGR of 3.5% over the period between calendar year 2023 and calendar year 2029. Major growth contribution is expected from Italy at 4.8% CAGR during calendar year 2023 to calendar year 2029 on account of increased government investments which included US\$ 784 million in 2022 and a commitment of US\$ 1.1 billion per year from 2023 to 2030 to boost automotive sector ecosystem. Growth in Europe is further expected to be supported by countries like Germany and France on account of rise in construction activity in the region with projects like US\$ 1.5 billion A8 Autobahn Highway between Munich and Traunstein and USD 35 billion Grand Paris Express Metro Rail project, which is further expected to increase Heavy duty trucks (more than 16 tonnes) requirement in the region.

Europe Commercial Vehicle Market, by Segment

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated; GVW-Gross Vehicle Weight; T-Tonnes: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden: Market Size is given as per calendar year.

LCV is Light Commercial Vehicle with GVW less than 3.5T, MD is Medium Duty Vehicle with GVW in the range of 3.5T to 16T, HCV is Heavy Commercial Vehicle with GVW greater than 16T and Bus is a commercial vehicle with GVW greater than 3.5T

For 2023 – 2029 medium duty (3.5 tonnes - 16 tonnes) and heavy duty (more than 16 tonnes) commercial vehicles are expected to register a growth of CAGR 3.4% due to the rise in logistics and construction activity in the country which is expected to raise the need for material transportation. LCV is expected to grow at CAGR 3.6% in the region with major contribution from Germany and France as these are the largest market for LCV (less than 3.5 tonnes) in the region and this segment is majorly driven by ecommerce sector which is expected to grow between this period.

US Commercial Vehicle Market, by Segment

US CV production registered a growth of 1.4% CAGR from calendar year 2014 to calendar year 2022. Major contribution was from light duty (LD less than 3.7 tonnes) segment with a growth rate of 1.5% CAGR in period between calendar year 2014 and calendar year 2022 as LCV is required mostly for last mile delivery and growth in logistics and e-commerce sector further fuelled requirement of LCV in the country. Buses (more than 3.7 tonnes) also experienced a growth of 1.4% CAGR from 2014 to 2022 driven by increase in demand for cleaner vehicle technologies and increasing tourism sector.

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated; GVW-Gross Vehicle Weight; T-Tonnes; Market Size is given as per calendar year:

LD is Light Duty Vehicle with GVW less than 3.7T, MD is Medium Duty Vehicle with GVW in the range of 3.7T to 8.5T, HD is Heavy Duty Vehicle with GVW in the range of 8.5T to 60T and Bus is a commercial vehicle with GVW greater than 3.7T

The US commercial vehicle market is expected to grow at a CAGR of 4.2% over the period between calendar year 2023 and calendar year 2029 driven by the infrastructure sector which is 3.0% of country's GDP. Investment plans such as the Infrastructure Package of USD 550 billion announced by the Government of US in July 2021, will positively impact sales of medium duty (MD 3.7 tonnes – 8.5 tonnes) & Heavy-duty commercial vehicles (HD 8.5 tonnes – 60 tonnes) in the United States. Light duty (LD less than 3.7 tonnes) commercial vehicles are largely driven by last mile mobility in logistics sectors which was valued at 1.4 trillion US dollar in calendar year 2022 and is expected to reach USD 1.6 trillion in 2028 driven by rise in B2C ecommerce sector in the country due to rising trend of online shopping.

China Commercial Vehicle Market, by Segment

China Commercial vehicle sales saw an overall de-growth of 2.2% CAGR over 2014 to 2022, due to slowdown in the country's economy during the period 2020 to 2022. However, during 2019 - 2020 alone, there was an increase of *approximately* 20% in production volumes of commercial vehicles on account of increased infrastructure spending by the government. Chinese government has continued to invest heavily in infrastructure development with an investment of US\$ 257 billion on eight infra projects in Shanghai, which was announced in September 2022. This included investments in a transport hub in eastern Shanghai's Pudong area, urban railways, and housing improvement, as well as offshore wind power demonstration projects and a nature park.

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated: GVW-Gross Vehicle Weight: T-Tonnes: Market Size is given as per calendar year:

SD is Small Duty Vehicle with GVW less than 1.8T, LD Truck is Light Duty Truck with GVW in the range of 1.8T to 6T, MD is Medium Duty Vehicle with GVW in the range of 6T to 14T, HCV is Heavy Commercial Vehicle with GVW great than 14T and Bus is a commercial vehicle with GVW in the range of 3.5T to 25T.

The China CV market is expected to grow at a CAGR of 3.2% over the period 2023 – 2029 fuelled by factors like the Government investment plan of 6.8 trillion yuan (approximately USD\$ 1 trillion) to fund various urban infrastructure construction projects in the country along with multiple stimulus packages by Chinese government to boost the CV sector.

Global Commercial Vehicle Propulsion Split

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated: FCEV is Fuel Cell Electric Vehicle, BEV is Battery Electric Vehicle and ICE is Internal Combustion Engine: Market size is given as per calendar year.

With less stringent emission standard and fuel economy norms in commercial vehicle sector as compared to PV sector, ICE remained the dominant contributor in technology propulsion split with its share only marginally reducing from 99.2% in 2014 to 93.7% in 2022.

Due to high duty cycle and long mileage requirements, there is a need for large and heavy batteries for commercial vehicles which implies that the use of batteries is economically unviable for commercial vehicle use. However, towards the end of 2022, pure battery driven intra city buses have seen rise in demand particularly in regions like China and Europe. This has resulted in pure BEV market share to rise to 2.6% in 2022.

The adoption of EVs in the commercial vehicle vertical has been insignificant due to factors such as high upfront costs, range limitations, and charging infrastructure availability in rural and remote areas. Heavy-duty vehicles

such as trucks, off-highway vehicles, tractors require more power and have different operating requirements than passenger vehicles, which makes it more difficult to switch to EVs.

Europe Commercial Vehicle – Propulsion Split

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated; ECV is Electrically Chargeable Vehicle and HEV is Hybrid Electric Vehicle; others include-petrol, fuel cell and alternate fuels like natural gas and LPG or ethanol

In Europe, diesel share is expected to decrease marginally from 97% in calendar year 2023 to 96% in calendar year 2029. ECV (“**Electrically Chargeable**”) growth will be driven by intra-city buses as battery cost and battery weight reduce. HEV (Hybrid electric vehicle) is projected to start gaining traction and is expected to gain share to 0.2% by calendar year 2029 driven by adoption in long haul trucks closer starting calendar year 2026 onwards with greater advancements in technology and safety aspects. Major OEMs such as Volvo, Daimler foresee application specific adoption of BEVs and FCEVs in the long term towards 2030.

US CV – Propulsion Split

Source: Ricardo Analysis, Public Domain;

Note: E- Estimated; FCEV is Fuel Cell Electric Vehicle and BEV is Battery Electric Vehicle

The share of BEV (“**Battery Electric Vehicle**”) increased from 0% in calendar year 2014 to 2.0% in calendar year 2022. Share of Hybrid vehicles (micro, mild and full) is expected to gain momentum only after calendar year 2022. Pure ICE market share is expected to drop from 97.8% in calendar year 2022 to 89.5% by calendar year 2029 with growing adoption from BEVs and Hybrid (micro, mild and full). However, ICE will remain the most dominant segment.

China CV – Propulsion Split

Source: Ricardo Analysis, Public Domain; Note: -E- Estimated; PHEV is Plug-in Hybrid Electric Vehicle and BEV is Battery Electric Vehicle

BEV has increased its share from 0.3% in calendar year 2014 to 10.5% in calendar year 2022 and at the same time PHEV (“**plug in hybrid vehicles**”) has also gained momentum with increased its share to 0.1% in calendar year 2022 from 0% in calendar year 2014. Diesel CV still dominates the market as the initial investment required to produce electric trucks is much higher compared to that of petroleum, diesel, or CNG trucks. Commercial Vehicle OEMs will continue to focus on Diesel with long term adoption of battery electric and plug in hybrid electric vehicles technology. China is the largest market for Electric Buses, this demand is expected to continue. Major OEMs are also introducing BEV Long Haul (Class 8, more than 16 tonnes) trucks. Major players like BYD and Hino created a joint venture in 2020 to produce commercial BEVs in China by 2025.

Key Trends and Growth Drivers

Total cost of ownership (TCO) of ICE vs EV in the CV segment

The EV market is growing at a steady rate, driven mostly by the global desire and need to reduce the global warming influences contributed by ICEs. Currently, in all geographical areas and in all equivalent models, the EV selling price is more than an ICE and, in some cases, considerably more. However, the subsidies and high residual value of EVs are strong off-setting factors in the TCO for light duty applications in the CV segment. When considering medium and heavy-duty applications, EVs do not seem economically viable due to requirement of high energy batteries and inherently batteries have low specific energy.

For instance, a single battery pack 90kWh weighs around 500kg, the CVs require at least four of them to operate and pull the load which greatly affects the loading capacity of the vehicle. These factors cause low EV penetration in CV segment and requirement of alternate technologies. The above factors show why EV penetration in the CV segment would be relatively slow as the duty cycles of CV are very high and trips longer than 300km per day is usually undertaken by existing ICE powered CVs daily.

Average fleet age of CVs in critical markets to highlight upcoming replacement opportunity.

The average fleet age of commercial vehicles in India was quite high. It varied across different categories of commercial vehicles. For heavy commercial vehicles such as trucks and trailers, the average age was estimated to be around 10-12 years. This was due to factors such as the high initial cost of vehicles, limited financing options, and the tendency of owners to use their vehicles for a longer duration to maximize their return on investment. For medium commercial vehicles like buses and vans, the average age was relatively lower, around 6-8 years. India’s Vehicle Scrappage Policy took effect in April 2022. The objective of the government-funded programme is to phase out old passenger and commercial vehicles and thereby reduce urban air pollution, increase passenger and road safety, and stimulate vehicle sales. The major impact of the scrappage policy is expected in the CV segment, especially passenger carriers, as the usage of other vehicles such as two-wheelers, passenger vehicles, etc. beyond 15 years would be limited. This provides an opportunity for Indian auto manufacturers to take advantage of the huge upcoming replacement demand in India. In the USA, the average, commercial trucks, and trailers had an age range of 5 to 15 years, while buses and coaches had an average age of around 7 to 10 years.

Key alternatives to battery-powered EVs, like H2-based engines and their key developments

Hydrogen Fuel Cell Vehicles (FCVs): FCVs use hydrogen gas to generate electricity through a chemical reaction in a fuel cell, which then powers an electric motor. These vehicles emit only water vapour as a by-product. While FCVs are still in the early stages of development and infrastructure is limited, they are expected to offer longer driving ranges and quicker refuelling times.

Compressed Natural Gas Vehicles (CNG): CNG vehicles run on natural gas, which is stored in high-pressure tanks in the vehicle. CNG is considered a cleaner-burning fuel compared to gasoline or diesel, resulting in lower emissions. CNG vehicles are popular in India, particularly in public transportation and commercial fleets. According to Petroleum and Natural Gas Regulatory Board (PNGRB) statistics, there were 3,092 stations established till March 2021 and the number has reached 5,118 till January 2023. The target is to achieve 17,700 CNG stations by 2030.

Biofuel Vehicles: Biofuels, such as ethanol and biodiesel, can be used as an alternative to fossil fuels. They are derived from renewable sources such as crops or waste materials. Flex-fuel vehicles can run on a blend of gasoline and ethanol, while certain diesel vehicles can use biodiesel blends. This is expected to change the Indian automotive industry significantly, over the course of this decade. India's adoption of E20 fuel is expected by 2025, which will be a key year in this journey.

Hydrogen ICE's: In the transportation sector, initial attention was focused on fuel cell hydrogen electric vehicles, or FCEVs. More recently, hydrogen vehicles powered by internal combustion engines are also receiving increased attention, especially among medium and heavy-duty trucking applications. Medium and heavy-duty applications are much more likely to turn to hydrogen-based engines. Off-road, construction equipment, agricultural machinery, and even ships featuring a hydrogen engine are also likely to become common. The use of hydrogen-based engines is most likely going to be in the applications that are hard to electrify due to their use-cases and mission profiles. Power generation applications are another use-case for the near-term application of hydrogen engines.

Cummins Inc. debuted its 15-liter hydrogen engine at ACT Expo in Long Beach, California. This version, with expected full production in 2027, pairs with clean, zero-carbon hydrogen fuel, a key enabler of Cummins' strategy to go further faster to help customers reduce greenhouse gas ("GHG") emissions. With Cummins' significant global manufacturing footprint, the company can quickly scale production. In July 2023, Cummins and Tata Motors announced that they will be spending 3,540 crores to build a factory in India that will produce H2-ICE engines for heavy trucking. Volvo Eicher Commercial Vehicles ("VECV") has planned to invest about 2,500 million over the next three to four years, in different hydrogen technologies which could take advantage of the existing strong powertrain infrastructure in India. India's second largest CV manufacturer Ashok Leyland has planned to invest 1,500 million in the development of hydrogen technology in industrial and CV heavy duty engines. Engine manufacturers Yamaha and Toyota have been jointly developing prototype hydrogen combustion turbo engines of 1.6 litre capacity. Reliance Industries Limited ("RIL") has started to lay down infrastructure for disbursement of green hydrogen from its proposed plant in Gujarat, as it is plans to produce the fuel by 2025. The company, which has received 74,750 hectares of land parcel in Gujarat on a 40- year lease for its green hydrogen project, is tying up with OEMs for the supply for green hydrogen. In February 2023, RIL and Ashok Leyland unveiled India's first Hydrogen Internal Combustion Engine ("H2-ICE") powered heavy-duty truck in Bengaluru at the India Energy Week. Both these companies have been working on the H2-ICE technology over the past year. In October 2023, Tata Motors opened two R&D facilities in Pune, India to focus on the development of H2-ICE and infrastructure for the storage and distribution of hydrogen fuel.

Global Tractors Market

Global agricultural tractor sales registered a CAGR of 2.7% from calendar year 2014 to calendar year 2022 driven by factors such as increasing total factor productivity in farming and reduced post-harvest loss. India registered a growth in tractor sales of CAGR 3.3% during this period supported by various government initiatives such as the implementation of National Rural Employment Guarantee Act ("NREGA") and increased usage in non-agricultural applications such as haulage in construction and infrastructure projects. The global tractor sales is expected to grow at a CAGR of 5.0% by sales volume over the period calendar year 2023 to calendar year 2029 with India expected to lead the market with a CAGR of 6.3% during this period. India accounts for currently 44% of the global tractor market in calendar year 2022 and is expected to account for 48% of the market by calendar year 2029 by volume. The growth will be driven by two important factors: (a) growing nominal GDP which is expected to reach US\$ 5 trillion by 2028 and the agriculture sector contributing 20% to the GDP; and (b)

government initiatives in India such as Reforms in Essential Commodities Act, Agriculture Marketing and Agriculture Produce Pricing. US and China being the two biggest economies in the world are expected to drive the tractor sales growth with 4.3% and 4.1% CAGR respectively during calendar year 2023 to calendar year 2029 driven by factors like farm mechanisation and integration of telematics with agricultural tractors.

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014)

Europe Tractor Market

Europe (Germany, France, Spain, Italy, Turkey and Sweden) tractor sales registered a growth of 1.1% CAGR from period calendar year 2014 to calendar year 2022. Although Germany tractor sales declined between period calendar year 2014 to calendar year 2022, but overall Europe saw nominal growth primarily due to good harvest and government aid in purchasing agriculture machinery and equipment.

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Calendar Year

Europe Tractor Market, by Segment

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Calendar Year

Italy tractor sales are expected to grow at a CAGR of 3.9% during calendar year 2023 to calendar year 2029 due to an increase in sales from more than 50HP tractor category in the region due to their ability to effectively carry out all tasks in the field, including soil preparation, irrigation, weeding, harvesting, and haulage. The Europe tractor market is expected to grow at a CAGR of 3.4% over the period of calendar year 2023 to calendar year 2029. Germany and France are some of the biggest markets for tractors in Europe and are expected to register a growth of CAGR 3.0% each respectively from calendar year 2023 to calendar year 2029 supported by various government initiatives. For instance, the Government of France has formulated programs to aid and finance the purchase of agricultural machinery and equipment including tractors. In calendar year 22, almost 70% contribution in the tractors market in Europe is from greater than 50hp tractor category which is expected to reach a sales volume of 153,000 units, with a CAGR of 3.0% by calendar year 2029. Farmers are adopting above 50hp tractors due to better operator comfort level which aids in better farm work and crop yield in the continent.

US Tractor Market, by Segment

US tractor sales registered a growth of 6.6% CAGR from calendar year 2014 to calendar year 2022 due to various subsidies provided by the government which helped low-scale farmers to invest in agriculture machinery and various government initiatives such as the United States Department of Agriculture's ("USDA") Conservation Innovation Grant Program to automate specific field maintenance tasks, reducing the use of diesel fuels and enhancing farming productivity.

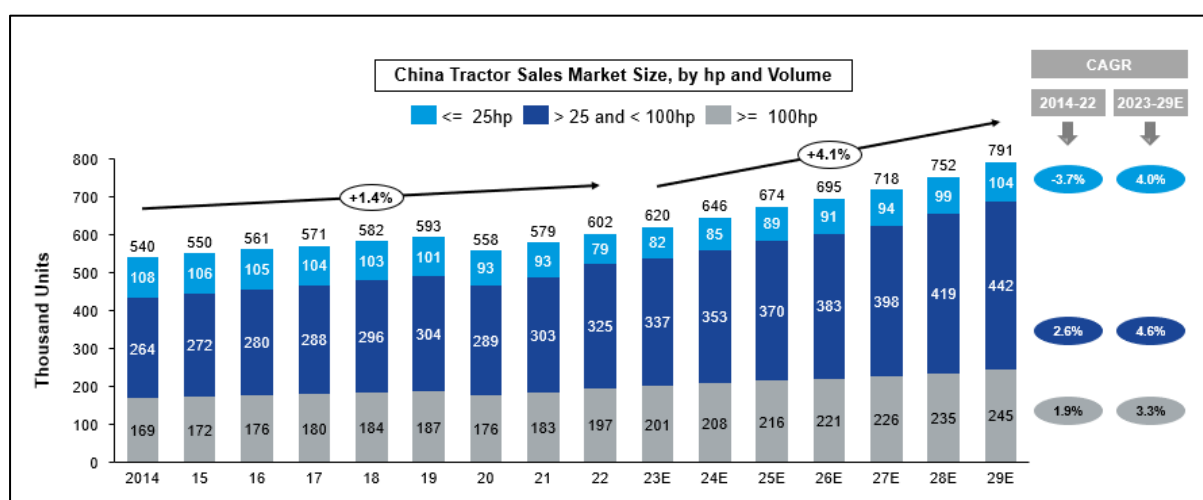

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per calendar year

The US tractor market is expected to grow at a CAGR of 4.3% over the period calendar year 2023 – calendar year 2029, driven by several policies and missions to help farmers by providing them with financial assistance and subsidies such as USDA assistance and agricultural loans. US Agricultural Gross Domestic Product is expected to reach USD 173 billion by calendar year 2026 which will drive the tractor market in US as agriculture contributes 1.2% of GDP. Less than 40 HP category is expected to showcase growth of CAGR 4.3% during calendar year 2023 to calendar year 2029 due to ease of financing and high utilization of tractors in agricultural applications such as row crops, orchards, and gardens. More than 100 HP category is expected to grow at CAGR 4.0% during calendar year 2023 to calendar year 2029 as higher power output tractors serve as an important part of agricultural, forestry, and logistics applications.

China Tractor Market, by Segment

China tractor sales registered a growth of CAGR 1.4% during the period calendar year 2014 to calendar year 2022 supported by a series of financial policies and financial subsidies on the purchase of agriculture equipment, such as the subsidy of CNY 150,000 (US\$ 21,564) on the purchase of tractors above 60hp was formulated by the Government of China in 2019 and is still applicable in 2023. Almost 50% of tractor sales are dominated by (25 – 100HP) tractor category which registered a CAGR of 2.6% from calendar year 2014 to calendar year 2022 due to the low purchase cost compared to high Horsepower category tractors.

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per calendar year

The China tractor market is expected to grow at a CAGR of 4.1% over the period calendar year 2023 to calendar year 2029 supported by various government initiatives like the “Made in China 2025” scheme which aims at focusing on producing 90% of its own agricultural equipment including high-end machines like agricultural tractors. This will boost indigenously produced tractors, leading to the growth of the agricultural tractor market in the country. The agriculture sector in China contributes almost 7% to the country’s GDP which is expected to reach US\$ 27 trillion by calendar year 2029, which will further drive the tractor sales in the market.

Global Key Trends and Growth Drivers

Ease of Financing: In recent years, several banks and microfinance institutions have been set up across rural regions. This has provided farmers with an easy availability of credit to purchase farm machinery.

Government Incentives: Incentives in the form of subsidies, low import duties on agricultural machinery and easy financing schemes by the Indian government have also been a major driver of the farm equipment market. Initiatives like the Pradhan Mantri Gram Parivahan Yojana (PMGPY) has been launched to support the purchase of tractors and other agricultural equipment by farmers.

Emergence of Contract Farming: The emergence of contract farming is also expected to give a strong boost to the agricultural equipment market. We expect contract farming to enable farmers to get the benefit of technology, training, and financing with the contractor's support. This is expected to facilitate the adoption of mechanized farming practices.

EV penetration in the farm equipment market

Minimal electrification is expected over the 2023-29 period. Battery electrification is expected in the small tractor (less than 40 HP) segment first. New electric tractors are being launched on pilot basis in Europe and North America. Between 2025-2026, incumbents are expected to launch new series of tractors featuring high horsepower models increasing E-tractor usage in other industries. Electrification in India and China will be minimal due to lack of charging infrastructure, price sensitive farmers & small land holdings.

Global Off-Highway Vehicle (OHV) Market

The off-Highway / construction and mining equipment market grew from 256.5 million units in calendar year 2014 to 340.9 million units in calendar year 2022 with a CAGR of 3.6%. Ricardo estimates that this market will perform better during calendar year 2023 to calendar year 2029 with a CAGR of 3.8%. The market would reach a milestone of 448.7 million units by 2029. China and India are projected to be the key performers during this period.

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014).

Construction and mining equipment considered for the study are backhoe loaders, excavators, motor graders, dump truck, skid steer loaders.

The demand for off-highway vehicles, including construction equipment has been steadily growing across the world. Factors such as population growth, urbanization, and infrastructure development projects contribute to this trend. Ongoing infrastructure development projects, such as road construction, railway expansion, and urbanization initiatives, have fuelled the demand for construction equipment.

Europe OHV Market

Europe (Germany, France, Spain, Italy, Turkey and Sweden) Off-highway vehicle market registered a growth of 2.3% CAGR from calendar year 2014 to calendar year 2022. Major growth was from Italy, France, and Germany in the Off-highway segment, because leading market players were investing heavily in research and development to expand their product lines in the region. New technology development in the mining and quarrying sector, and infrastructure investments, helped the off-highway vehicle market to grow further.

Source: Ricardo Analysis, Public Domain; Note: E-Estimated; Data is given as per Calendar Year

A major contribution is expected from Turkey at 4.5% CAGR from calendar year 2023 to calendar year 2029 on account of government-proposed infrastructure projects. More than US\$ 172 billion in investments were made in all means of transportation and communication infrastructure between 2003 through 2021 and Turkey is planning an investment of US\$ 368 billion in road, rail, and air and sea transportation infrastructure from 2023, under 30 years strategy till 2052.

Europe OHV Market, by Segment

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Calendar Year

Europe's overall off-highway vehicle market registered a marginal growth of 2.3% CAGR from calendar year 2014 to calendar year 2022, whereas the Wheeled Excavator market in Germany grew at a CAGR of 1.6%, Skid Steer Loader in France at a CAGR of 2.1%, and Backhoe Loader in Spain at a CAGR of 2.3%. Caterpillar, John Deere, CNH, and AGCO currently lead the off-highway market in Europe, with a combined revenue share of 47%.

US OHV Market, by Segment

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Calendar Year

The U.S. off-highway vehicle market registered a growth of 0.2% CAGR from calendar year 2014 to calendar year 2022. Wheeled Excavator also experienced a growth of 4.7% CAGR from calendar year 2014 to calendar year 2022 driven by an increase in demand from the Construction industry and infrastructure development. In 2021, US government declared a US\$ 1 trillion plan, with 4,300 projects underway. With more than US\$ 110 billion in funding as part of infrastructure investment plan, such investments and growing construction projects would drive the demand of off-highway machinery and equipment. The U.S. off-highway vehicle market is expected to grow at a CAGR of 3.2% over the period calendar year 2023 – 2029. The demand for off-highway vehicles has picked up immense pace in North America to meet the demands from coastal ports, inland ports, and waterways.

China OHV Market, by Segment

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Calendar Year

China's Off-highway vehicle market registered a growth of 5.3% CAGR from calendar year 2014 to calendar year 2022. Major contribution was from Crawler Excavator with a growth rate of 5.4% CAGR in the period calendar year 2014 – 2022 which are required in the construction process (e.g., digging holes, landscaping, breaking up asphalt, and paving roads). Automation in agriculture spurring demand for off-highway vehicles; massive infrastructure development in China underpins vast lucrative avenues. The demand for the off-highway vehicle sector looks set to remain positive due to strong investment in warehousing solutions, the regional market is expected to expand at a promising growth rate during the forecast period. The off-highway vehicle market is making strides on the back of rapid pace of organized urbanization of inner-China, renewed focus in roads and demand for construction machinery and power infrastructure.

Global Key Trends and Growth Drivers

Construction and Infrastructure Development: Global ongoing infrastructure development projects, such as road construction, railway expansion, and urbanization initiatives, have fuelled the demand for construction equipment. Excavators, loaders, bulldozers, and other heavy machinery are essential for these projects.

Technology Advancements: OHV manufacturers are incorporating advanced technologies into their vehicles. This includes features like GPS navigation systems, telematics, precision farming technologies, and automation in construction equipment. These advancements aim to enhance productivity, fuel efficiency, safety, and environmental sustainability. Telematics and Internet of Things ("IoT") technologies are being integrated into mining vehicles to enable real-time monitoring, data collection, and analysis.

Electric and Hybrid Vehicles: With the increasing focus on sustainability and reducing carbon emissions, the adoption of electric and hybrid off-highway, construction and mining vehicles is gaining traction. Manufacturers are planning to develop electric construction equipment to meet the growing demand for cleaner and more energy-efficient alternatives.

Rental and Leasing Services: The concept of renting or leasing off-highway vehicles is becoming popular across the world. Construction companies, agricultural businesses, and individuals are opting for rental services to minimize upfront costs and access a wide range of machinery as per their requirements.

Global Industrial Engine Market

Industrial engines have become increasingly important in recent years. These engines are used as backup power sources when primary power sources fail, and for their portability when used in mining operations. While there are several types of industrial engines available in the market today, gasoline and diesel engines remain the most popular by far due to their durability and heavy-duty design.

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated: Data is given as per Calendar Year; Study includes analysis of following countries: - Europe (Germany, France, Spain, Italy, Turkey, and Sweden), India, US, China and Row (Japan, Thailand, UK and Brazil); Market Sizing includes study of Industrial, lawn and garden, marine, power generation and railway engines.

Increased shipbuilding activity, high performance, easy maintenance, and fuel economy are the key market drivers enhancing the Marine Engine market growth. Companies such as Husqvarna Group, the Toro Company, Andreas STIHL AG & Co., and others get benefitted by stay-at-home trend amidst the pandemic period and which resulted in a prolonged gardening season. Over the long term, an increase in urbanization, environmental sustainability, a broad spectrum of impending rail projects, growth in demand for energy-efficient rolling stock, and an expanding infrastructure of rail networks are expected to act as major factors driving the railway engine market. The growing global population and industrialization have led to a significant increase in power demand. Unreliable power grid infrastructure in many regions, especially in developing countries, have inadequate or unreliable power grid infrastructure which further promotes the market for industrial engines.

INDIAN AUTOMOTIVE INDUSTRY

India Commercial Vehicle Market, by Segment

India CV production registered a growth of 4.5% CAGR from Fiscal 2014 to Fiscal 2023. Rising demand for pickup trucks, owing to the growing e-commerce and logistics sector is responsible for the growth in this period. HCV more than 16 tonnes registered the highest CAGR of 11.6% during Fiscal 2014 to Fiscal 2023 due to increased government expenditure on infrastructure, BS-VI transition and growth in mining and quarrying sector which is about 3% of the GDP.

Source: Ricardo Analysis, Public Domain

Note: -E- Estimated: Market Size is given as per financial year: SCV is Small Commercial Vehicle with GVW less than 3.5T, LCV is Light

Commercial Vehicle with GVW in the range of 3.5T to 7.5T, MD is Medium Duty Vehicle with GVW in the range of 7.5T to 16.2T, HCV is Heavy Commercial Vehicle with GVW greater than 16T and Bus is a commercial vehicle with GVW greater than 3.5T

Source: Ricardo Analysis, Public Domain; Note: -E- Estimated: Market Size is given as per financial year

The India CV production market is expected to grow at a CAGR of 7.1% over the period Fiscal 2024 to Fiscal 2029 due to rise in government initiatives such as Make in India campaign and PLI (“**Production Linked Incentive**”) scheme which aims to provide financial incentives to boost manufacturing and attract investments in the commercial vehicle value chain. Moreover, Government’s commitment to invest in major infrastructure projects will play an important role in boosting CV demand. An investment of US\$ 2.5 billion has been announced in 2023 by the National Bank for Financing Infrastructure and Development (“**NaBFID**”) to fund infrastructure projects related to energy, urban infrastructure, and airports.

With implementation of the scrappage policy from April 2023 onwards and with more than 50 to 55 percent of the existing vehicles above the age of 10 years in Medium and Heavy CVs, these segments are expected to grow at a CAGR of 9.4% and 5.2% respectively during Fiscal 2024 to Fiscal 2029. LCV (3.5 tonnes – 7.5 tonnes) is expected to show a growth of CAGR 9.5% on account of government policies ease of axle norms which will allow freight operators to carry 20-25% extra over payload. Hence, large fleet operators, carrying dense bulk commodities, would be able to carry more freight, improving their margins.

India CV Propulsion Split

Source: Ricardo Analysis, Public Domain; Note: -E- Estimated: ICE is Internal Combustion Engine and BEV is Battery Electric Vehicle

BEV experienced a marginal increase in share from 0% in calendar year 2014 to 0.1% in calendar year 2022. Light Commercial Vehicle BEV are currently available in the Indian market, whereas there are several start-ups and established OEMs working in this space to bring out an electric LCV. In 2019, Government of India sanctioned over 5,000 electric buses in 65 cities for intracity and intercity operations under FAME-II scheme.

BEV segment is expected to grow to 2.8% by calendar year 2029 from 0.3% in calendar year 2023, but ICE

technology share is expected to see a marginal degrowth in share from 99.7% in calendar year 2023 to 97.2% in calendar year 2029. With regards to Medium and Heavy-duty commercial vehicles we expect limited to no adoption at least for the foreseeable future given the battery size & payload requirements. Major developments for electric vehicle is experienced in the Light Commercial Vehicle space.

India Key Players - Market Share and Revenue – Fiscal 2023

Source: Ricardo Analysis, Public Domain; Note: -E- Estimated: LCV is Light Commercial Vehicle and MHCV is Medium and Heavy Commercial Vehicle

Light commercial vehicle segment is dominated by Mahindra with 43% of market share in Fiscal 2023, followed by Tata and Ashok Leyland with 36% and 12% market share respectively. Mini & Pickup trucks such as Tata Ace, Mahindra Bolero Pickup, Ashok Leyland Dost etc. are prominent models in this segment. Medium and Heavy-duty application Trucks is dominated by Tata with 50% market share in Fiscal 2023 followed by Ashok Leyland and VECV – Eicher with 32% and 15% market share respectively. This segment is majorly driven by demand from the steel, cement and mining industries, construction industry and general macroeconomic activities in the country. In the passenger carrier segment (which includes both LCV & MCV), Tata Motors leads the bus segment with 35% market share in Fiscal 2023 followed by Force motors and VECV – Eicher with 20% and 18% market share respectively. Tata Star bus, Force Traveller are few of the bestselling models in this segment.

India CV Sales Market – Domestic/Exports

Source: Ricardo Analysis, Public Domain; Note: - Data is given as per Financial Year

Overall CV sales registered a growth of 4% CAGR from Fiscal 2014 to Fiscal 2023. Domestic sales contribution is almost 90% out of total commercial vehicle sales and remaining 10% is exports in Fiscal 2023. Domestic sales experienced an overall growth of 4.8% CAGR and Exports experienced an overall growth of 0.2% CAGR from 2014 to 2023 backed by various government initiatives such as Production Linked Incentive scheme which aims to provide financial incentives to boost manufacturing and attract investments in the commercial vehicle value chain and Merchandise Exports for India Scheme which is an export promotion initiative of the Indian government

promoted by the Ministry of Commerce and Industry.

India Tractor Market, by horsepower

India tractor sales registered a growth of 3.5% CAGR from Fiscal 2014 to Fiscal 2023 driven by the factors like above average monsoon and rise in minimum support prices (MSP) which led to an increase in farm income and thereby an increase in total tractor sales. Almost 50% of share is from 41 – 50HP category tractors which registered a growth of CAGR 3.3% during this period driven by technological advancements in high HP tractor ranges which resulted in higher yield and in turn income in agriculture sector. Government initiatives toward rural development, farm mechanization, and various factors, such as high rural wages and scarcity of farm labour resulted in growth of tractor sales.

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Market Size for India is given as per financial year

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Market Size for India is given as per financial year

The India tractor volume market is expected to grow at a CAGR of 6.3% over the period Fiscal 2024 to Fiscal 2029 supported by government initiatives like for instance easy finance of tractors under India's National Bank for Agriculture and Rural Development ("NABARD") norms. Also, various initiatives by Government like Atma Nirbhar Bharat Abhiyan, Animal Husbandry Infrastructure Development, Reforms in Essential Commodities Act, Agriculture Marketing and Agriculture Produce Pricing will drive this growth. Less than 20HP tractor is expected to grow at CAGR 6.9% from Fiscal 2024 to Fiscal 2029 due to various concession and policies by Indian government like exemption of excise duty and subsidies for purchasing tractors below 18 HP which is being provided to farmers with irrigated land between 2.4 to 3.2 hectare.

India Tractor Market – Domestic and Exports

Source: Ricardo Analysis, Public Domain; Note: - Market Sizing is given for Financial Year

Overall Tractor sales saw a growth of 3.5% CAGR from Fiscal 2014 to Fiscal 2023. Domestic sales are contributing almost 90% out of total tractor sales and remaining 10% is exports. Domestic sales registered an overall growth of 3.4% from 2014 to 2023. Exports on the other hand saw a growth of 4.1% CAGR from Fiscal 2014 to Fiscal 2023.

India Tractor Market – OEM Market Share - Fiscal 2023

Source: Ricardo Analysis, Public Domain; Note:- Data is given for Financial Year: Mahindra market share also includes Swaraj Tractors market size

Agricultural tractor market in India is consolidated and dominated by large global and domestic manufacturers as farmers prefer trusted brands for assurance of quality and better after-sales services. Mahindra continues to lead the Indian tractor market with 40% share in calendar year 2022 followed by TAFE and Sonalika with 15% and 12% market share respectively.

India Off-highway Market Forecast, by Segment

India's Off-highway vehicle market registered a growth of 6.6% CAGR from Fiscal 2014 to Fiscal 2023. A major contribution from the Crawler Excavator with a growth rate of 9.9% CAGR in the period Fiscal 2014 to Fiscal 2023 and the Backhoe Loader also experienced a growth of 5.3% CAGR from Fiscal 2014 to Fiscal 2023, driven by an increase in demand from the construction industry and infrastructure development.

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Financial Year

India's Off-highway vehicle market is expected to grow at a CAGR of 7.8% over the period Fiscal 2024 to Fiscal 2029. A major contribution is expected to be from Crawler Excavator with a growth rate of 8.7% CAGR in the period Fiscal 2024 to Fiscal 2029 and the Backhoe Loader also expected to experience a growth of 7.5% CAGR from Fiscal 2024 to Fiscal 2029. The demand for the off-highway vehicle sector in India looks set to remain positive due to rapid development in industrialization, urbanization and increase import-export activities.

India OHV Market – Domestic and Exports

Source: Ricardo Analysis, Public Domain

Overall OHV sales saw a growth of 6.6% CAGR from Fiscal 2014 to Fiscal 2023. Domestic sales are contributing almost 92% in Fiscal 2023 out of total OHV sales and remaining 8% is exports. Domestic sales registered an overall growth of 6.2% from Fiscal 2014 to Fiscal 2023. Exports on the other hand saw a growth of 11.7% CAGR from Fiscal 2014 to Fiscal 2023.

With new CEV-IV emission standards now completely adopted by the Indian OHV industry, there are significant opportunities for Indian CE manufacturers to enter into developed markets which is further promoting OHV exports from India. Major construction equipment importing countries from India are US, Australia, Indonesia, Bangladesh, and Nigeria. US has registered the fastest growth in their import shipments from India.

India Industrial Engine Market

The Indian industrial engines market is expected to grow at a CAGR of around 4.8% during the forecast period Fiscal 2024 to Fiscal 2029, on account of increasing government funding in various infrastructure projects coupled

with a rising industrial mechanization rate in the country.

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Financial Year

Major players operating in the Indian Industrial Engines Market include Mahindra & Mahindra Limited, Cummins India Limited, Kirloskar Oil Engines Limited, Caterpillar India Private Ltd and others, which includes players such as TATA Motors Ltd, Ashok Leyland Ltd, Perkins Engines Company Limited, and Greaves Cotton Limited. The development of the power gensets industry is attributed to the need for a reliable and continuous power supply and the upgradations in technology. Indian engine manufacturers are expanding their presence in the global market. India has become a hub for engine exports due to cost competitiveness, skilled labour, and favourable government policies. The rising demand for Indian-made engines in international markets is contributing to the growth of the industrial engine in the country.

GLOBAL AUTOMOTIVE COMPONENTS INDUSTRY

Global automotive components industry

Global Auto component market is expected to register a growth of 3.7% CAGR during the period calendar year 2023 – calendar year 2029 due to increase in demand for passenger cars and commercial vehicles coupled with increasing trend towards personalisation. Manufacturing of auto components is gradually gaining traction toward

Source: Ricardo Analysis, Public Domain

Asian countries such as China and India due to the presence of higher market potential and low-cost manufacturing. China accounts for 40 – 50% share in global auto component industry supported by strong exports and domestic sales in the market.

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China and India are given as per financial year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014);

Auto components segments includes- Engine Components, Suspension & Braking, Drive Transmission & Steering, Electricals & Electronics, Body/Chassis/Biw, Consumables & miscellaneous (including rubber), Interior (non-electronics) and Cooling System

India automotive components industry

Turnover of India automotive components Industry registered a growth of CAGR 7.7% over the period Fiscal 2014 to Fiscal 2023 with maximum contribution from exports with growth of CAGR 9.4% between Fiscal 2014 to Fiscal 2023 supported by the fact that India has a competitive advantage in categories such as shafts, bearings, and fasteners due to large number of players which is resulting in higher exports. Aftermarket and supply to OEMs also registered a growth of 8.0% and 7.1% CAGR respectively due to cost effective manufacturing base in India which keeps cost lower by 10-25% relative to operations in Europe and Latin America. Additionally, the robust manufacturing ecosystem, the easy availability of skilled labour and key raw materials, and strong government incentive schemes to promote 'Make in India' are all contributing to India's emergence as a global manufacturing hub.

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: India is given as per financial year

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: India is given as per financial year

Auto component market turnover is expected to show a significant growth of 10.6% CAGR in period Fiscal 2023 to Fiscal 2029 supported by increasing demand and government policies such as allowance of 100% FDI under the automatic route in the sector and Production Linked Incentive scheme for auto and auto components, which is expected to bring a capex of around US\$ 9.58 billion by Fiscal 2029.

India auto components split by major categories

Source: Ricardo Analysis, Public Domain

The market is majorly dominated by engine components with 24% share followed by suspension, electricals and electronics with 15% share each respectively. Engine component manufacturing is technology- and capital-intensive in nature, which acts as an entry barrier especially for smaller players and the unorganised segment. Engine components comprises of majorly pistons, engine valves, carburettors, fuel injection systems, camshafts, crankshafts, connecting rod, and rocker arm.

India auto components split by OEM segment

Source: Ricardo Analysis, Public Domain

India's auto components sector is majorly dominated by the passenger vehicle segment with 46% share as this sector itself is largest in terms of sales and production, followed by Commercial vehicle (LCV + MHCV) segment and two-wheeler segment with 23% and 20% share respectively.

FORGING INDUSTRY

Forging is a manufacturing process involving the shaping of a metal using compressive, localized forces delivered through hammering, pressing, or rolling. These compressive forces are delivered with a hammer or die. Forging is often categorized according to the temperature at which it is performed—cold, warm, or hot forging. The basic concept is that the original metal is plastically deformed to the desired geometric shape giving it higher fatigue resistance and strength. Some of the common materials used for forging are carbon steel, alloy steel, micro alloy steel, stainless steel, aluminium, and titanium.

Many automotive and non-automotive components are manufactured using forging process. In automotive and truck applications, forged components are commonly found at points of shock and stress. Cars and trucks may contain more than 250 forgings, most of which are produced from carbon or alloy steel. Forged engine and powertrain components include connecting rods, camshafts, crankshafts, transmission shafts and gears, differential gears, drive shafts, clutch hubs, universal joint yokes and crosses pinions, gears, rocker arms. Non-automotive applications are vast and some of them are valves and fittings used in oil and gas fields, stationary and shipboard internal combustion engine components, materials handling systems, conveyors, chain-hoist assemblies etc. The forging and machining market in the oil and gas industry is expected to grow in the coming years. The oil and gas industry requires a variety of forged and machined components such as valves, pumps, and drilling equipment.

Global Forging Market

Source: Ricardo Analysis, Public Domain

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China and India is given as per Calendar year (Fiscal 2015 India market size is mentioned in global calendar year 2014).

Production data has been considered for market sizing; Forging market size includes analysis of forged component from automotive, farm equipment, off highway Industrial and other segments, others include the following segments– manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

The forging industry market size was about 216.2L MT in calendar year 2014 (US\$ 52.2 billion) and increased gradually until calendar year 2018 to become 243.1L MT (US\$ 62.3 billion) where highest volumes of automotive was registered in the given timeline. Ricardo estimates that from a 257.9L MT (US\$ 68.8 billion) market in calendar year 2022, it would grow to a 328L MT (US\$ 97 billion) market by calendar year 2029 with a CAGR of 3.6%. In Europe, there is some decline in the trend due to economic slowdown pertaining to geopolitical threats, supply shock triggered by raise in oil prices, but it would grow from 48L MT market in calendar year 2022 to 53.8L MT market in calendar year 2029 with slow growth until calendar year 2025 where stabilisation of European economy is expected. India would see a steady growth and volume would increase by 141%, 28.6L MT in calendar year 2022 to 40.6L MT in calendar year 2029 owing to government's PLI scheme on automotive where a capex of US\$ 9.58 billion is expected in phases before calendar year 2028.

Global Forging Market, by Medium and Heavy Forging

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated; Data is given as per Calendar Year; Production data has been considered for market sizing; Medium forging components weigh varying between 10 kg to 50 kg and Heavy forging components weigh above 50 kg;

Forging market size includes analysis of forged component from automotive, farm equipment, off highway Industrial and other segments. Others include the following segments- manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

The Medium and Heavy Forging market globally, accounted for 67% of the total forging market by volume and 68% by value as of calendar year 2022. As of calendar year 2022, within the forging market about 119.2L MT (US\$ 26.7 billion) comes from medium forged components while heavy forged components contribute 54.7L MT (US\$ 20.3 billion). There was slump in demand due to halt in production during calendar year 2020. The market again started growing from calendar year 2021 where the market size increased to 174.6L MT (US\$ 46.4 billion), the rise in demand for passenger vehicles triggered requirement of medium forged components and the resumption of global mining operations demanded heavy forged components. The market is expected to grow to of 224.5L MT (US\$ 68 billion) by calendar year 2029 with a CAGR of 3.8%.

Global Forging Market, by End Use

Source: Ricardo Analysis, Public Domain

Note: E-Estimated; Data is given as per Calendar Year; Production data has been considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway. Others include the following segments- manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

The automotive sector holds about 61% of forged components market share globally by volume as of calendar year 2022. In terms of value, automotive sector contribution to forged components was about US\$ 35.4 billion in calendar year 2022 and it is estimated to grow as US\$ 49.6 billion market in calendar year 2029 with a CAGR of 5.1%. The automotive forging market is expected to grow to 208.3L MT by calendar year 2029 with rise in demand of automotive globally backed by rise in global working population. The value of forged components in farm equipment sector is expected to grow fastest with a CAGR of 6.2% to US\$ 3.9 billion in calendar year 2029. The industrial sector is undergoing a steady growth with investments in infrastructure by China, India and Southeast Asian countries and global supply chain re-alignments to move manufacturing to lower cost locations.

Global Automotive Forging Market, by Type

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated; Data is given as per Calendar Year; Production data has been considered for market sizing.

The forging market in automotive sector is dominated by PV and CV by value. As of calendar year 2022 PV contributes approximately 42%, followed by CV with approximately 38% and 2W in third place with approximately 19% of overall share by value. As illustrated, the rise in demand for automotives would expand the market size to US\$ 49.6 billion with a CAGR of 5.1% by calendar year 2029.

India Forging Market

Source: Ricardo Analysis, Public Domain

Note: E-Estimated; Data is given as per Financial Year; Production data has been considered for market sizing; Medium forging components weigh varying between 10 kg to 50 kg and Heavy forging components weigh above 50kg;

Forging market size includes analysis of forged component from automotive, farm equipment, off highway Industrial and other segments, others include the following segments. – manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

As of Fiscal 2023, within the forging market about 8.7L MT (US\$ 3.2 billion) comes from medium forged components while heavy forged components contribute 4.2L MT (US\$ 2 billion). The Medium and Heavy Forging market in India, accounted for 45% of the total Indian forging market by volume and 76% by value as of Fiscal 2023. The market experienced steady growth until Fiscal 2019 with growth in infrastructure, developments in road transport and sales of passenger vehicles within India. The market by volume is expected to reach a size of 17.6L MT (US\$ 7.7 billion) by Fiscal 2029 with a CAGR of 5.4%.

India Forging Market, by End Use

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated; Data is given as per Financial Year; Production data has been considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway. Others include the following segments— manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

As of Fiscal 2023, the automotive sector holds about 61.8% forged components market share within India. In terms of value, automotive sector contribution to forged components was about US\$ 3.6 billion in Fiscal 2023 and it is estimated to grow to US\$ 5.4 billion in 2029 with a CAGR of 7.6%. The market is expected to grow to 38.7L MT (US\$ 10.2 billion) by Fiscal 2029 with rise in demand of automotives backed by rise in working population and increase in per capita income. The value of forged components in farm equipment sector is expected to grow fastest with a CAGR of 8.4% to US\$ 0.4 billion in Fiscal 2029. The industrial sector is expecting a boom with the automotive PLI scheme expecting to attract investments of ₹748.50 billion in the next five years.

India Automotive Forging Market, by Type

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated; Data is given as per Financial Year; Production data has been considered for market sizing.

As of 2023 2W contributes approximately 9%, followed by PV with approximately 33% and CV in third place with approximately 25% of overall share by value. As illustrated earlier, the rise in demand for automobiles would expand the market size to US\$ 5.2 billion in Fiscal 2029 with a CAGR of 7.1%. The rise in volumes of PV and CV will boost demand for medium and heavy forged components within India.

India Forging Market, Domestic and Exports

Source: Ricardo Analysis, Public Domain; Note: E-Estimated; Data is given as per Financial Year; Production data has been considered for market sizing.

India contributes to about 5% of global forged components export. All time high exports were registered in Fiscal 2023. India exports about US\$ 1.5 billion worth of forged components primarily to North America and European regions each year post Fiscal 2020 consistently. Exports vary from 21% to 25% of total production volume in the country. Indian exports stood strong even during the dip period Fiscal 2020 and would steadily increase hereafter as India is emerging as a global hub for auto components sourcing.

Nature of Forging process and its complexities

Press forging may be defined as the process of shaping a metal that is placed between two dies by applying mechanical or hydraulic pressure. Press forging is usually done on a forge press - a machine that applies gradual

pressure on the forging dies. The shape of the metal is usually accomplished by a single stroke of the press for each die station.

Screw presses and hydraulic presses are most popular for aerospace and medical applications of aluminium, titanium, and nickel-based superalloys. Inherently a 2000T capacity hydraulic forging press would cost around ₹15 million, as the capacity increases the cost of building these machines would increase exponentially. Moreover, they require lot of space within the facility while the maintenance and operating costs would be 87% more as the capacity tonnage doubles and it demands periodic die maintenance and replacements to maintain precision. These factors greatly influence the players who are venturing into heavy forging since it requires a lot of capital investments to commission a large complex sophisticated forging machinery coupled with high lead time in procurement.

The Indian forging industry is well recognised globally for its technical capabilities. With an installed capacity of around 38.5 Lakh MT, Indian forging industry has a capability to forge variety of raw materials like carbon steel, alloy steel, stainless steel, super alloy, titanium, aluminium and so forth, as per the requirements of user industry. Over the years, the Indian forging industry has evolved from being a labour-intensive industry to capital-intensive manufacturing sector. Based on their installed capacity, the forging units may be classified as very large (capacity above 75,000 MT), large (capacity above 30,000 to 75,000 MT), medium (capacity above 12,500 to 30,000 MT), small (capacity above 5,000 to 12,500 MT) and very small (capacity up to 5,000 MT). Based on this classification it is seen that about 83% of the total number of units are small and very small, 9% make up the medium sized units, 6% constitute to large units while only 2% can be categorized as large units.

The forging industry faces several challenges that create high barriers to entry, including (i) lengthy customer and product approval processes, (ii) the need for various certifications prior to product development, (iii) difficulty in acquiring new customers without existing relationships, (iv) the importance of implementing and sustaining quality systems and meeting customer requirements, (v) managing customer relationships and logistics and (vi) global industry leaders are highly selective in qualifying new suppliers with respect to critical products given the high costs and risks of switching suppliers, especially where product reliability is critical. Additionally, precision product manufacturing is a capital-intensive business that involves complex technology, machinery, and systems, which further act as barriers to entry.

In a passenger vehicle the powertrain holds about 60% of major parts manufactured by forging and only 20% of chassis parts made by forging which constitutes to about 29% of overall input costs. Similarly, in a commercial vehicle while the powertrain parts remain the same percentage but the number of forged components in chassis system is about 55%, this makes up a total of 53% of input costs. For a tractor the percentage of forged components is about 65% and it makes up to about 60% of input costs.

OEM Trends and Key Players

In recent years, OEMs tend to outsource the forged components instead of producing them in-house to lower the operating costs, inventory costs, loss during downcycle and assigning responsibility of maintaining critical to quality, process and safety parameters to the suppliers which greatly reduces the strain on their internal organization performance. The OEMs tend to establish a clear quality policy which greatly benefits them from losses due to rejections. As per Ricardo analysis, a major US based off-highway OEM has already outsourced 60% of its forged components to its suppliers. Similarly a major German based commercial vehicle OEM has outsourced 53% of its forged components globally. The industry shift towards JIT (*Just in Time*) had been the key driver for outsourcing of components to suppliers. The suppliers have an advantage of having flexible capacities and support different OEMs at the same time by utilizing their lines to maximum capacity.

Global Supply Chain

Germany is the top exporter of forged components which is followed by China, USA, France, and India while major importers are USA, Mexico, Italy, Spain, and Turkey. India shares about 5% of global forged components exports and has key potential to overcome USA in the line-up as India is the second largest steel producer globally and has the capability to act as a cost-effective manufacturing base that keeps costs lower by 10% to 25% relative to operations in Europe and Latin America.

Key Opportunities for Forgings in Non-Automotive and Industrial Sectors

Aerospace - The production of commercial aircraft is rising due to the increase in population and trade. An average commercial aircraft contains almost 450 structural forged parts and numerous forged engine parts. Forged parts are preferred for aircraft building, as it has good strength to weight ratio. Additionally, forged parts have proven to withstand fluctuating temperature and atmospheric pressure at different heights.

Nuclear Power - The nuclear power industry uses forged metal parts for reactors, nuclear waste storage, and raw material & waste transport. Forged parts are used for manufacturing of pressure vessels. Many machines in the nuclear power industry use forged components, as they are put under high temperature and pressure. This, in turn, is driving the forging market. Rise in the use of nuclear power instead of conventional power sources is driving the forging market.

Industrial Equipment - Large forgings can be found in various industrial equipment and machinery utilized by the steel, textile, paper, power generation, and transmission, chemical, and refinery industries. Commonly used forged configurations include bars, blanks, blocks, connecting rods, cylinders, discs, elbows, rings, T's, shafts, and sleeves

Power - The global market for power generation is expected to grow at a significant rate due to the increasing demand for reliable backup power solutions in various industries such as healthcare, telecommunications, and manufacturing. The power generation industry requires a variety of forged and machined components such as engine blocks, cylinder heads, crankshafts and generators. Forged power transmission components are used in critical load and safety applications to provide the longest possible product life and to reduce the risk of failure. Components include forged braking yokes, steering components, input/output shafts, shifting forks, dogs & pawls, driveshaft yokes, axles, collars, pinions, spindles, input/output shafts, and clutch hubs, among other things.

Wind Turbine - The wind turbine gearbox consists of multiple key components. The planetary gears, planetary carrier, pinion shaft, ring gears, differential gears are forged and machined while the housing are casted to suitable dimensions.

Defence - The defence industry is a significant consumer of forging and machining components, with applications ranging from small parts used in firearms to large parts used in military vehicles and aircraft. Forged components are found in every implement of defence, from rifle triggers to nuclear submarine drive shafts. Heavy tanks, missiles, armoured personnel carriers, shells and other heavy artillery are common defence-related applications of forged components.

Renewable Energy – Forgings are an essential component in the renewable energy industry, as they provide the strong, durable parts needed to support renewable energy systems. Quality forgings are especially important in this sector, as they ensure that the parts used in the system can withstand the harsh conditions associated with renewable energy production and operation. Hydro power plants use forged components like Rotors and Wind power plants use forged components like shafts and gearbox.

Key Trends and Growth Drivers

Export Potential – Impact of China

Most Chinese forging companies are small and medium-sized. High costs of forging machinery and low profits have hindered technological progress and innovation in the past four years. Moreover, stricter requirements from the Chinese government on energy saving, light weighting and environmental protection add a heavy burden. Since the depression began in 2011, many producers are struggling to survive or grow because production capacity for normal product far exceeds real demand. Forging Industry in China is facing shortage of technical forging engineers and workers due to rapid expansion of the country and shrinking working population. Also, the changing geopolitical climate and the anti-China sentiment globally is leading to companies moving away from sourcing from China and looking for other alternatives. This global supply chain realignment presents a huge opportunity for India which is a lower cost centre in terms of manufacturing due to low labour cost and production cost.

Export Potential – Impact of Europe

Due to the energy crisis in Europe, rising power and production costs are some of the major issues being faced by European component manufacturers. The energy crisis in Europe is due to gas supply cut-off by Russia due to

Russian aggression on Ukraine which creates a big opportunity for India to export forged and other high precision auto components to European OEMs, as India can act as a low-cost manufacturing alternative. The European market also provides significant opportunities for growth for Indian component manufacturers as key European suppliers of traditional critical engine parts are witnessing significant cost pressures due to a shift in business from internal combustion engines to electric vehicles. The demand for internal combustion engine (“ICE”) components are increasingly shifting to India as several tier one suppliers in developed regions like Europe and U.S. have discontinued investing in the ICE design and development due to the plan of the OEMs to transition towards EVs. This will further create opportunity for ICE engine components exports to Europe and US from India.

Role of light weighting and aluminium in forging

The use of lightweight materials is a growing trend in various industries. The automotive industry, in particular, is driving this trend due to the increasing demand for fuel-efficient vehicles. The aerospace and defence industries are also adopting lightweight materials to improve performance and reduce costs. This trend is likely to continue in the future as there is a growing emphasis on sustainability and energy efficiency.

Aerospace and automotive sectors are the two of the largest end-users of aluminium forging. In the aerospace sector, aluminium forging is used to manufacture airframe components, landing gears and engine parts, rise in need for lightweight components and increase in focus on fuel efficiency is expected to drive the growth for aluminium forging. In the automotive sector, aluminium forging is employed to manufacture suspension components, engine parts like connecting rod, camshaft and crankshaft and all transmission systems. Surge in demand for electric and hybrid vehicles is projected to drive demand for aluminium forging in the automotive sector.

In terms of specific materials, aluminium components are valued for their high strength-to-weight ratio, resistance to corrosion, and thermal conductivity. These properties make them ideal for use in many applications, including automotive, aerospace, and defence. For example, in the automotive industry, the use of aluminium components can significantly reduce the weight of vehicles, thereby improving fuel efficiency and reducing emissions. In the aerospace industry, the use of aluminium components can improve the performance of aircraft by reducing weight and increasing fuel efficiency. In many industries like defence, oil and gas, railways and other industrial applications, the use of aluminium components can help reduce the weight of equipment and vehicles, making them more agile and easier to transport.

Impact of alternate fuel types / powertrains on heavy forged components.

- **Impact of Electric Vehicles on heavy forged components:** The impact of electric vehicles is negligible on the heavy forged components because the commercial vehicle, off-highway vehicle and farm tractors are heavy duty applications which require high battery and power requirements, have range limitations, high upfront costs and different operating requirements compared to passenger vehicles. The electrification for these vehicle types is still in early stages and internal combustion engines will be prevalent for these industries which require forging components.
- **Impact of Hydrogen, LPG and CNG vehicles on heavy forged components:** Four-stroke hydrogen internal combustion engines (“Hydrogen ICE”) applicable to commercial vehicle operate on the same cycle as regular natural gas engines and have almost the same components including engine block, crankshaft, cylinder heads, ignition system and installation parts. Diesel engines and hydrogen engines also share similar components. These include an engine block, crank, and installation parts such as mounts and flywheel housings. In the Hydrogen ICE, the 5Cs of an engine which are Connecting Rod, Crankshaft, Camshaft, Cylinder Block and Cylinder Head will be continuously used, as it is being used currently in the conventional engines. The conclusion of the analysis is that Hydrogen, LPG and CNG are the fuel alternatives to Gasoline and Diesel to reduce the carbon footprint and there would be only minor adjustments in the injection systems of the engines of these fuel alternatives. Overall, the engine of these fuel alternatives will be identical to that of conventional ICE and would require similar set of engine components for its manufacturing. The propulsion split of commercial vehicle is 91.8% (ICE) and 99.7% (ICE) for Global and India respectively in 2023 and is expected to be 90% and 99% for Global and India respectively in 2029. This is due to medium and heavy commercial vehicles have power capacity of 150Kw and such high-power capacity batteries are currently under development. The impact of electrification will be negligible on the commercial vehicles, tractors, and off-highway vehicles and hence the demand for heavy forged components will remain high.

MACHINING MARKET

Machining is a manufacturing term encompassing a broad range of technologies and techniques and can be termed simply as a controlled material-removal process. It can be briefly defined as the process of removing material from a workpiece using power-driven machine tools to shape it into an intended design. The primary processes of machining are turning, milling, drilling, boring and reaming. Machined components are made from ferrous and non-ferrous metals.

Machined parts play a vital role in countless applications across various industries. The precision and customizability provided by machining processes allow to produce components with complex geometries and tight tolerances that would be challenging, if not impossible, to achieve through other manufacturing methods. Machined components are widely used in automotive, aerospace, electronics, and medical field. In Automotive, machined parts range from engine components to structural elements. The precision offered by machining ensures efficiency and safety. Almost 70% of an automobile is made of a component produced by machining.

Global Machining Market (Select Products)

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil.

Market Size for Europe, US, China, and India is given as per Calendar year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014).

Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft in following end use segments - automotives, off highway vehicle, farm equipment and industrial engines; Production data has been considered for market sizing. Value addition during the machining process of a particular component is considered to derive the value market.

Global machining production of identified products (Axle Beam, Steering Knuckles and Crankshaft) was about 311.6 million units (US\$ 46.3 billion) in calendar year 2014 and grew from calendar year 2014 - 2019 due to an

increase in demand for automotives in major countries such as US, India and China. Major markets such as the US, China and Europe markets have experienced growth gradually post-calendar year 2022. In Europe, machining production is not expected to reach pre-COVID-19 levels until 2026 primarily because of muted economic growth in the region. At a global level, the machining market will recover to grow over the 2020-23 period with the primary driver being government focus on infrastructure spending and recovery of consumer demand and businesses. Post 2023, the global machining market is expected to grow due to rise in investments in the development of powertrain technologies by major OEMs as well as expected growth in the construction industry of Southeast Asian countries. This will further promote machined components exports from India, China, US and Europe to Southeast Asian countries.

Global Machining Market, by End Use

Source: Ricardo Analysis, Public Domain

Note: - E-Estimated; Data is given as per Calendar Year; Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft; Production data has been considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway. Value addition during the machining process of a particular component is considered to derive the value market.

The market for machined components for industrials and others which includes which includes industrial, lawn and gardens, marine, power generation and railways, is expected to grow at a CAGR of approximately 4.8% by value during calendar year 2023 – 2029 to reach US\$ 12.7 billion by calendar year 2029. Significant opportunities for growth can be seen in the European market as key European suppliers of critical engine parts are witnessing significant cost pressures due to shift in business from internal combustion engines to electric vehicles and are restructuring their unused capacity to support for non-automotive applications where demand is in the rise. While India is poised to become a global hub for manufacturing, driven by a confluence of factors such as the China plus one strategy, the Ukraine-Russia crisis, high production costs in Europe and the United States of America, and the India's status as the lowest-cost producer in the world after China. Additionally, the robust manufacturing

ecosystem, the easy availability of skilled labour and key raw materials, and strong government incentive schemes to promote 'Make in India' are all contributing to India's emergence as a global manufacturing hub.

Global Automotive Machining Market, by Type

Note: E-Estimated; Data is given as per Financial Year; Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft; Production data has been considered for market sizing. Value addition during the machining process of a particular component is considered to derive the value market.

By value PV contributes approximately 58%, followed by CV with approximately 32% and 2W in third place with approximately 8% of overall share as of calendar year 2022. As illustrated the rise in demand of automobiles would expand the market size to 318.1 million units with a CAGR of 3.7% during calendar year 2023 - 2029. The rise in the volume of automobiles will boost the machined components simultaneously.

India Machining Market, by End Use

Note: E-Estimated; Data is given as per Financial Year; Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft; Production data has been considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway. Value addition during the machining process of a particular component is considered to derive the value market.

The automotive sector holds about 92% of the machined components market share in Fiscal 2023 within India by volume. The market is expected to grow to 47.2 million units (US\$ 8.0 billion) by Fiscal 2029 with a rise in demand of automotives backed by a rise in the working population and an increase in per capita income. The machined components market size in farm equipment sector is expected to grow fastest with CAGR of 9.8% during Fiscal 2024 – 2029 in terms of value to reach a size of US\$ 1.4 billion by Fiscal 2029.

India Automotive Machining Market, by End Use

Note: E-Estimated; Data is given as per Financial Year; Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft; Production data has been considered for market sizing. Value addition during the machining process of a particular component is considered to derive the value market.

The automotive machining market in India is split between segments as follows, PV contributes approximately 44%, followed by 2W with approximately 40% and CV with approximately 13% of the overall share as of Fiscal 2023 by volume. Whereas, by value, as of Fiscal 2023, PV contributes approximately 40%, followed by 2W with approximately 33% and CV with approximately 23% of overall share by value. The rise in demand for automotives would expand the market size to US\$ 5.76 billion in Fiscal 2029 with a CAGR of 8.3% during Fiscal 2023-2029.

The rise in the volume of automotives will boost the machined components simultaneously.

India's Machining Market, Domestic and Exports

Source: Ricardo Analysis, Public Domain

Note: E-Estimated; Data is given as per Financial Year; Machining market size includes analysis of only front axle component (Axle beam and steering knuckle) and Crankshaft in following end use segments – automobiles, off highway vehicles, farm equipment and industrial engines; Production data has been considered for market sizing. Value addition during the machining process of a particular component is considered to derive the value market.

India contributes to about 4% of global machined components exports. All time high in exports was registered in 2023. India exports about US\$ 1.3 billion worth of machined components primarily to North America and European regions. Exports vary from 20% to 23% of total production volume. Indian exports stood strong even during the dip period Fiscal 2020 and would steadily increase hereafter owing to rise in manufacturing cost in other geographies like North America and Europe.

Nature of the Machining Process and its complexities

Machining as a process is generally cost-effective, however, the duration of the process varies significantly. Machining by well-equipped manufacturers usually offers the advantage of low setup and tooling costs. However, when the process of machining requires a long period of time to complete per part, it can add significant costs to overall production expenses. The process of machining is chosen because of its adherence to the exact dimensions of the design. Every part includes a set of tolerances that allows for deviations caused by machining. Parts that require precision machining have closed tolerances for machining errors and become useless. Tolerances can vary between 0.0005 mm and 0.2 mm for machined parts depending on the part's initial dimensions and the type of metal. Precision and tolerances are key factors in the machining process, significantly impacting the final product quality.

Precision machining parts play a significant role in many industries where accuracy and consistency are crucial for optimal performance. The key components in manufacturing these parts include material selection based on application requirements; design engineering using CAD/CAM software; CNC Machining for accurate shaping; grinding for refining surfaces; heat treatment for modifying material properties; quality control inspections at every stage of production. Based on Ricardo's vast experience in manufacturing the machining process adds up a value of up to 42% to the product produced in earlier stages and contributes to higher price margins. Moreover, machining also delivers the surface finishes required for tertiary operations like coating. The machining process in mass production needs to be carried out with CNC or special purpose machines to avoid errors in tolerances and maintain precision. Component machining shall be carried out in a step-by-step manner with a single or multiple machines based on the complexity and process time. This requires high capital investments, for example, a single modular special purpose machine from German manufacturer Grob costs around US\$ 0.3 million, and only certain players in India are capable of commissioning and operating these equipment.

OEM Trends and Key Players

In recent years, the OEMs tend to outsource the machined components instead of producing them in-house to lower the operating costs, inventory costs, and loss during downcycle and assigning the responsibility of

maintaining critical quality, process and safety parameters to the suppliers which greatly reduces the strain on their internal organization performance. The OEMs tend to establish a clear quality policy which greatly benefits them from losses due to rejections. As per Ricardo analysis, a major US based off-highway OEM has already outsourced 30% of its complex machined components to its suppliers, similarly, a major German based commercial vehicle OEM has outsourced 67% of its machined components globally. The global market leader in passenger cars has almost outsourced 46% of its machined components. Thyssenkrupp dominates the machining market globally almost in all automotive (PV, CV, Off-highway, Farm equipment) and industrial segments. Bharat Forge is in line next to Thyssenkrupp having high market shares in the CV segment. While within India, Mahindra CIE holds a major market share in PV and 2W segment and Happy Forgings holds an established position as a supplier of machined components to sectors like LCV, HCV in auto as well as multiple non-auto and industrials applications.

Key Trends and Growth Drivers

The global machining market is accelerated by factors such as industrial expansion, rising demand for precise components, improving economies and technological advancements. The growing oil and gas sector needs will majorly propel the metal machining market's expansion. The requirement for oil and gas increased due to the quick industrialization and urbanization of developing nations like China and India and rising energy consumption.

The automotive industry category was the primary source of market growth for metal machining. Given the extensive use of metal parts in the automobile industry, it is one of the most significant end-user segments of the worldwide metal machining market. The fastest-growing market for machining is in the Asia Pacific region, which will provide market vendors with several chances for expansion over the estimated time frame.

Increasing opportunities in Non-Automotive and Industrial Sector: Major Non-Automotive and Industrial Sectors which require machined components are Construction, Mining, Power Transmission, Nuclear, Industrial Equipment and Aerospace.

Aerospace – The production of commercial aircrafts is rising due to the increase in population and trade. An average commercial aircraft contains almost 300 structural machined parts and numerous machined engine parts. Additionally, machined products provide precision quality in aerospace applications. In defence applications, aircrafts are used which require complex structural machined and forged parts.

Nuclear Power – The nuclear power industry uses forged and machined parts for reactors, nuclear waste storage, and raw material & waste transport. The rise in the use of nuclear power instead of conventional power sources is driving the machining market.

Industrial Equipment – Large forgings that are machined can be found in various industrial equipment and machinery utilized by the steel, textile, paper, power generation, transmission, chemical, and refinery industries. Commonly used configurations include bars, blanks, blocks, connecting rods, cylinders, discs, elbows, rings, T's, shafts, and sleeves.

Power Transmission – Forged and machined power transmission components are used in critical load and safety applications to provide the longest possible product life and to reduce the risk of failure. Components include braking yokes, steering components, input/output shafts, shifting forks, dogs & pawls, driveshaft yokes, axles, collars, pinions, spindles, input/output shafts, and clutch hubs, among other things.

Renewable Energy – Machined components are essential for the renewable energy industry, as they provide the strong, durable parts needed to support renewable energy systems. Hydro power plants use machined components like pelton disc and pelton bucket and Wind power plants use machined components like shafts, casing, and planetary gearbox.

Defence – Machined components are found in every implement of defence, from rifle triggers to nuclear submarine drive shafts. Heavy tanks, missiles, armoured personnel carriers, shells, and other heavy artillery are common defence-related applications of forged components. Machined components used in defence sector are motor housings, gear components and fuel pump.

CRANKSHAFT MARKET

The crankshaft is an integral part of the internal combustion engine and is a highly engineered machined product used in high horsepower engines. The crankshaft is responsible for the proper operation of the engine and converting a linear motion to a rotational motion. Crankshafts should have very high fatigue strength and wear resistance to ensure long service life. The design and construction of crankshafts can vary depending on the engine type, configuration, and desired performance characteristics. They are typically made from high-strength alloy steel or cast iron to withstand the forces and stresses generated by the engine's combustion process.

Today, manufacturers tend to favour the use of forged crankshafts due to their lighter weight, more compact dimensions, and better inherent damping. Global OEMs are highly selective in qualifying new suppliers with respect to critical products given the high costs and risks of switching suppliers, especially where product reliability is critical.

Global Crankshaft Market

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal Year 2015 India market size is mentioned in Global Calendar Year 2014); Production data has been considered for market sizing.

Global crankshaft production was about 156.8 million units (US\$ 30.4 billion) in calendar year 2014 and grew from calendar year 2014 to 2018 due to increase in demand of automobiles in major countries such as US, India, and China. The India crankshaft market grew during the period 2014 to 2019, by value and volume, due to increase in demand of automobiles (PV, CV, 2W) backed by increase in per capita income, working population, investments in infrastructure, and road projects.

At a global level, the crankshaft market will recover to grow over the calendar year 2020-23 period with primary driver being government focus on infrastructure spending and recovery of consumer demand and businesses. Post 2023, the global crankshaft market is expected to grow due to rise in investments in development of powertrain technologies by major OEMs as well as expected growth in construction industry of Southeast Asian countries.

This will further promote crankshaft exports from India, China, US and Europe to Southeast Asian countries. Global crankshaft market is expected to see a growth from period calendar year 2023 – 2029 on account of factors like increase in demand for automotives (PV, CV,2W) backed by GDP growth. India is expected to showcase a growth rate of 7.7% CAGR from period 2023 to 2029, by value to become US\$ 8 billion market.

The demand for advanced crankshafts with high strength and fatigue resistance is increasing due to the growing demand for high-performance vehicles. Crankshafts are expected to remain an important component in the heavy-duty automotive industry for the foreseeable future as the same are compatible for engines run on hydrogen, CNG and LNG with minimal or no alternations.

Further, hydrogen, LNG, and CNG combustion engines are among the most promising alternative engine technologies for the commercial vehicle industry. The hydrogen combustion engines require a compressor to compress the hydrogen gas, and this compressor is typically powered by a crankshaft and the content per vehicle with respect to auto-components remains unchanged in an hydrogen combustion engine vehicle in comparison to an ICE vehicle. In addition, CNG and LNG engines also require crankshafts. These engines use natural gas as a fuel, which is compressed or liquefied before being injected into the engine. The compression or liquefaction process requires a compressor, which is typically powered by a crankshaft. These technologies offer several advantages over traditional diesel engines, including lower emissions and reduced operating costs and crankshaft as a product is not expected to be impacted in case of such transition to any such technologies. The global market for hydrogen combustion engines is expected to grow in the coming years, driven by increasing government support for hydrogen combustion engine vehicles and the growing demand for zero-emission vehicles. Crankshafts will remain an important component in the heavy-duty automotive industry for the foreseeable future as the same are compatible for engines run on hydrogen, CNG and LNG with minimal or no alternations.

Global Crankshaft Market, by End Use

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Data is given as per Calendar Year; Production data is considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway.

The crankshaft market reached a size of about 163 million units (US\$ 33.7 billion) in calendar year 2017 owing to the increase in global demand of automotives. On the industrial applications side there has been steady demand and the overall production stood at 45.6 million units (US\$ 10 billion) as of calendar year 2022.

Global Automotive Crankshaft Market, by Type

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per calendar year; Production data has been considered for market sizing.

By value, as of calendar year 2022, PV contributes approximately 58%, followed by CV with approximately 32% and 2W in third place with approximately 8% of overall share. As illustrated the rise in demand of automotive crankshafts would expand the market size to 133.8 million units and a value of US\$ 31 billion in calendar year 2029, growing at a CAGR of 5.6% during calendar year 2023-2029, by value. The rise in volume of PV and CV will boost demand for medium and heavy forged crankshafts globally.

India Crankshaft Market, by End Use

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated; Data is given as per Financial Year; Production data is considered for market sizing; Industrial and Others include industrial, lawn and garden, marine, power generation and railway.

In India, the crankshaft market shows steady growth and automotive vertical will grow to 30.7 million units, farm equipment's to 1.5 million units and off-highway to 0.1 million units by 2029 at an overall CAGR of 6.4% during Fiscal 2024-2029 in terms of volume. The market is expected to grow from a value of US\$ 4.92 billion in 2023 to US\$ 7.73 billion in Fiscal 2029 with a CAGR of 8.3% over the period Fiscal 2023 to Fiscal 2029. The growth in CV and off-highway segment would increase demand for medium and heavy forged crankshafts backed by investments in the construction sector.

India Automotive Crankshaft Market, by Type

Source: Ricardo Analysis, Public Domain; Note: E-Estimated: Data is given as per Financial Year; Production data has been considered for market sizing.

As of Fiscal 2023, 2W contributes approximately 40%, followed by PV with approximately 33% and CV with approximately 23% of overall share by value. As illustrated, the rise in demand for automobiles would expand the market size to US\$ 6.14 billion by Fiscal 2029 with a CAGR of 8.4% during Fiscal 2024 - 2029.

India Crankshaft Market, Domestic and Exports

Source: Ricardo Analysis, Public Domain; Note: - E-Estimated: Data is given as per Financial Year; Production data is considered for market sizing

As illustrated earlier the crankshaft market by value reached its peak in Fiscal 2019 to become US\$ 5.6 billion of which US\$ 1.2 billion (21%) contributed towards export. India exports about 18% to 21% of its production volume, moreover, exports from India has been increasing steadily post 2020, indicating the shift of production to India from overseas. India contributes to 3% of crankshafts exports globally, while their major importers being North America and Europe

Nature of Crankshaft manufacturing and its complexities

The crankshaft is of complex shape and difficult to produce to accurate dimensions during the forging and machining processes. The crankshaft is a critical part in an engine's assembly that is connected to the piston on

one side and the flywheel on the other. A crankshaft converts reciprocating motion of the pistons into rotational motion for the flywheel, which is in turn connected to the axles to put the vehicle in motion. Sophisticated machines are used to create the crankshaft. The crankshaft is not easy to manufacture; forging is used to shape a crankshaft and machining is done subsequently. The machining process of crankshaft involves at least 21 machines. Each operation sometimes has more than one machine working together, and the cycle time changes from one operation to another, depending on the process type.

Furthermore, as the engine capacity increases based on engine design, the weight of the crankshaft also increases in a linear fashion. For example, average weight of a crankshaft equipped on a 1 litre engine is around 9 kg while that of an 12 litre engine hits approximately 110 kg. As crankshaft manufacturing is subjected to lot of complexity, to manufacture higher tonnage products of more than 75 kg the machineries like hydraulic forging press, CNC machines of larger in size which occupy more square foot of space is required whose investment and maintenance costs are 140% more than that of products of 50 kg, similarly as weight of the product increases the machine cycle time also increases proportionally since the quantum of material flowing through the process is high. These factors sum up as entry barriers for manufacturers as tonnage of the product increases complexity multiplies and becomes a highly capital-intensive.

Global Supply Chain

Germany is the top exporter of crankshaft which is followed by China, USA, Japan and India while major importers are USA, Mexico, Italy, Spain and Turkey. India shares about 3% of global crankshaft export and has key potential to overcome Japan and USA in the line-up with a government policy allowing 100% FDI under the automatic route for auto components sector. Additionally, India has moderate environmental laws compared to its European and North American peers which would promote industrialization backed up with 15% to 25% reduced operation costs.

In terms of manufacturing trends, OEMs are pursuing localised production strategies for respective markets and focussing on low-cost manufacturing centres like India, Thailand and Turkey for eventual distribution to other markets. Additionally, certain OEMs are seeking to consolidate their suppliers, particularly the ones who can manufacture complex high-quality components, can scale up quickly and supply components to multiple geographies like USA, UK and Europe.

Key Players

Thyssenkrupp Forging technologies dominate the crankshaft market globally almost in all automotive (PV, CV, Off highway, Farm equipment) and industrial segments. Bharat Forge is in line next to Thyssenkrupp having high market shares in the CV segment. While within India, Mahindra CIE's focus is majorly on PV and 2W segments and it holds major market share those segments only. In the last decade, Happy Forgings has emerged as a key player in the crankshaft market in India next to Bharat Forge with focus on CV, construction equipment, industrials and farm equipment segments. Tianrun crankshaft and Guilin FUDA dominate the Chinese auto market in supply of crankshaft and Guilin FUDA competes with Thyssenkrupp in supply of crankshaft to off-highway vehicles globally.

Barriers to Entry in Crankshafts Manufacturing:

Crankshaft manufacturing is a capital extensive process due to its highly complex manufacturing. It involves variable cost elements like cost of material, direct labour, and energy. Fixed cost is cost of main machine, auxiliary equipment, tooling, building, overhead labour and maintenance as discussed earlier.

This creates high barrier of entry for a new competitor in the crankshaft manufacturing industry, hence eliminating threat of new entrants into the market.

OTHER PRODUCT SEGMENTS

Front Axle Component

The front axle beam is a crucial component of a vehicle's suspension system. It is responsible for supporting the weight of the front end of the vehicle and connecting the front wheels to the vehicle's frame. The front axle beam is typically made of steel and is drop-forged to give it the necessary strength to withstand the weight of the vehicle and the stresses of driving. The major unit on the front part of the motor vehicle is the front axle. It takes the weight of the front portion of the automobile. It gives a steering facility and absorbs shocks. The weight of the

front part of the vehicle is transmitted to the road surface through the front wheels by the front axle of a vehicle. It also houses the mechanism for the steering and suspension of the vehicle to absorb shocks due to road surface variations.

A steering knuckle is a part of the front suspension system in a vehicle that contains the wheel hub or spindle and attaches to the suspension and steering components. The steering knuckle connects the steering system to the front wheels and provides the pivot point for the wheels to turn left or right.

Global Front Axle Market

Source: Ricardo Analysis, Public Domain

Note: E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal 2015 India market size is mentioned in Global calendar year 2014); Production data is considered for market sizing.

The front axle beam and steering knuckles market is dependent upon the automotive vertical market. In calendar year 2014 the market size was 159.2 million units (US\$ 37.8 billion) and it performed better in the timeline calendar year 2015 to calendar year 2017 and grew up to 169.9 million units due to an increase in the volume of automotive (PV, CV). Ricardo estimates that from a 159.2 million units in 2014, it would grow to 184.8 million units (US\$ 56.1 billion) market by calendar year 2029 with a CAGR of 3.5% during calendar year 2023 to calendar year 2029 by volume.

Global Wind Turbine Industry

Wind energy is now regarded as a reliable source of renewable energy, with rapidly expanding government commitments and technological progress contributing to the positive outlook in established markets and countries new to offshore wind. Globally, 77.6 GW of new wind power capacity was connected to power grids in 2022,

bringing the total installed wind capacity to 906 GW. The onshore wind market added 68.8 GW worldwide in 2022 with China contributing 52%.

The government of India has a target to meet 50% of its energy needs from renewable energy sources by 2030. Increasing the share of wind and solar energy in the power mix must take precedence in policymaking if India is to play a leading and constructive role in carrying out the clean energy transition and achieving long-term energy security. India needs to scale up its wind power capacity from 40 GW in 2021 to 140 GW by 2030, to reach its net zero targets by 2030.

Wind Turbine Gearbox

The drivetrain of a wind turbine converts the low-speed, high-torque rotation of the turbine's rotor (blades and hub assembly) into electrical energy. The most common drivetrain configuration consists of a low-speed shaft (also called a main shaft), a gearbox, a high-speed shaft, and a generator.

The windmill turbine gearbox consists of multiple key components. The planetary gears, planetary carriers, pinion shaft, ring gears, differential gears are forged and machined while the housing are casted to suitable dimensions. The components after machining are assembled together to serve the purpose.

Planetary Gearbox

Planetary gearboxes are called planetary because they are similar to the solar system. This gearbox's components include annular gear, a sun gear, and a planetary gear.

A planetary carrier is a part of an automatic transmission or other gear reduction system that helps control how power is transmitted from the engine to the wheels. It's like a hub with arms that hold smaller gears called planet gears. These gears rotate around a central gear called the sun gear, which is connected to the engine. The outer ring gear is connected to the wheels and meshes with the planet gears to transfer power to the wheels. The planetary carrier helps to change the gear ratio, which affects how fast the wheels turn in relation to the engine's speed. By locking or releasing different parts of the planetary gear set, different gear ratios can be achieved, allowing for smooth and efficient operation of the transmission or other gear reduction system. The pinion shaft is a component that connects to the wind turbine rotor and transmits the rotational energy to the gearbox, enabling optimal performance of the wind turbine. The housing is a protective casing that encloses and supports the internal components of the gearbox, safeguarding them against environmental factors and ensuring optimal performance.

Wind Turbine Gearbox Market Overview

The Global Wind Turbine Gearbox market size was valued at US\$ 21.7 billion in 2022 and is anticipated to reach US\$ 33.5 billion in 2029, increasing at a CAGR of 7% during the forecast period 2023-2029. Therefore, the expansion of the wind industry is driving the market for gearboxes for wind turbines. Wind turbine gearboxes are essential components of wind turbines, escalating their rotational speed. The wind turbine gearbox is an important mechanical component, and its main function is to wrap the momentum generated by the wind passing to the generator and make the proper speed.

Major Players are Bharat Forge, Kirloskar Pneumatic Co Ltd and Bonfiglioli Transmissions are the major players in India. These players are into Wind turbine casting, Gearbox casting, Gearbox housing and Electric Motors for wind turbines. Companies like Happy Forgings have capabilities to manufacture wind-turbine gearbox components for Indian and Global Markets.

COMPETITIVE LANDSCAPE IN INDIA (FORGING AND MACHINING) – OPERATIONAL BENCHMARKING

Operational Performance Details

S. No.	Company	Forging and Machining Capacity (MTPA)	Range of Tonnage Presses	Contribution of machined components to revenue
1	Happy Forgings	T: 153,100 F: 107,000 M: 46,100	2,500T to 14,000T *14000T is Mechanical forge press	79%
2	Bharat Forge [#]	T: 750,126 F: 693,750 C: 56,376	1,600T to 16,000T *16000T is Screw forge press	70%

Source: Investor Presentation, Annual Reports and Company Websites. Capacities for Craftsman, CIE Automotive and Sansera Engineering are based on Ricardo Research and Estimates.

Note: *Forged technologies business division of Thyssenkrupp and consolidated data is being referred for other players;

For India based companies, data is populated as of 2023 except for CIE Automotive which is as of calendar year 2022; For global companies data is populated as per calendar year 22 (serial number 8 to 11); T-Total capacity, F-Forging capacity, M-Machining capacity, C-Casting capacity.

The capacities of Bharat Forge and CIE Automotive are global capacities, including their overseas entities.

End Use Segment Revenue Mix (Fiscal 2023/Calendar Year 2022)

S. No.	Company	Automotive	Non-Automotive
1	Happy Forgings	44%	56%
2	Bharat Forge	59%	41%
3	CIE Automotive	79%	21%
4	Craftsman Automation	NA	NA
5	Sansera Engineering	88%	12%
6	MM Forgings	91%	9%
7	Ramkrishna Forgings	79%	21%
8	Thyssenkrupp*	47%	53%
9	Americal Axle & Manufacturing	92%	8%
10	Tianrun Crankshaft	62%	38%
11	Guilin FUDA	78%	22%

Source: Investor Presentations, Annual Reports and Company Websites.

Note: *Forged technologies business division of Thyssenkrupp and consolidated data is being referred for other players; For India based companies data is populated as of Fiscal 2023 except for CIE Automotive which is as of Calendar Year 2022; While for global companies data is populated as per calendar year 2022(serial number 8 to 11).

Non-Automotive Segment includes revenue from Farm Equipment, Off Highway Construction Equipment and other Industrial Sectors such as Oil and Gas, Marine, Railways, Power etc.

Automotive Segments Revenue Mix (Fiscal 2023/Calendar Year 2022)

S. No.	Company	2W/3W	PV	CV
1	Happy Forgings	0%	0%	100%
2	Bharat Forge	0%	31%	69%
3	CIE Automotive	20%	74%	6%
4	Craftsman Automation	NA	NA	NA
5	Sansera Engineering	56%	30%	14%
6	MM Forgings	0%	12%	88%
7	Ramkrishna Forgings	0%	0%	100%
8	Thyssenkrupp*	0%	32%	68%
9	Americal Axle & Manufacturing	3%	49%	48%
10	Tianrun Crankshaft	22%	62%	16%
11	Guilin FUDA	0%	22%	78%

The above figures denote revenue as a percentage of total automotive segment.

Note: *Forged technologies business division of Thyssenkrupp and consolidated data is being referred for other players, For India based companies data is populated as of 2023 except for CIE Automotive which is as of calendar year 2022; While for global companies data is populated as per calendar year 2022(serial number 8 to 11).

Based on comparison most of the players earn their revenue from automotive segment. Only certain players are present in Industrial segment where the necessity of heavy forged components is in steep increase with developments in energy sector and growth in power generation from renewable resources. Happy Forgings remains one of the key players who has strong presence in the renewable sector and can increase its footprint in this space with their present forging capabilities. In automotive sector about 70% of the forging companies supply components to 2W/3W/PV where EV penetration is high while Happy Forgings has mitigated its risk by not being one among the many, as they have their major market in CV, industrials and off highway segments where the rate of EV penetration is almost negligible and not commercially viable.

STRATEGIC POSITIONING FOR HAPPY FORGINGS LIMITED

Happy Forgings Limited is a leading Indian forging and machining company, offering a wide range of solutions in the heavy commercial vehicles, farm equipment, off-highway construction and industrial equipment and machinery for oil and gas, power generation, railways, and wind turbine industries. With over 40 years of experience of manufacturing and supplying quality and complex components, the Company is well established within the industries and customers it caters to. The Company is the fourth largest, engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India as of Fiscal 2023, in terms of forgings capacity. Happy Forgings is a leading player in the domestic crankshaft manufacturing industry with the second largest production capacity for commercial vehicle and high horse-power industrial crankshafts in India. Happy Forgings has emerged as a key player in the crankshaft market in India next to Bharat Forge with focus on CV, construction equipment, industrials and farm equipment segments. The company has capabilities to deliver single cylinder to six-cylinder crankshafts up to a weight of 250 kg. The Company is among the few companies in India with the capability to manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway and industrial equipment and machinery for oil and gas, power generation, railways, and wind turbine industries. Happy Forgings is a supplier to almost all major players in commercial vehicles and farm equipment segments in India. The Company is a supplier to each of the top 5 Indian OEMs, by market share, in the medium and heavy commercial vehicle industry and 4 of the top 5 Indian OEMs in the farm equipment industry by market share in Fiscal 2023.

EV penetration is expected to have limited impact on the Company's operations given its focus on manufacturing machined components for heavy commercial vehicles, farm equipment vehicles, off-highway vehicles and components for industries such as oil and gas, power generation, railways, and wind turbine. While adoption of electric vehicles is growing in the two-wheeler and passenger vehicle industries, the adoption of EVs in the heavy commercial vehicle industry has been insignificant due to factors such as high upfront costs, range limitations, and charging infrastructure availability in rural and remote areas. Heavy-duty vehicles such as trucks, off-highway vehicles, tractors require more power and have different operating requirements than passenger vehicles, which makes it more difficult to switch to EVs. As a result, many heavy-duty vehicles will continue to use traditional internal combustion engines or alternative engine technologies that require crankshafts.

The critical application of the company's products, along with their heavy weight, closed tolerance and stringent quality requirements of OEMs serve as entry barriers for new players to qualify as suppliers or in their ability to replace the company in supplying precision products they manufacture. Further, the company's focus on the high HP engine segment insulates it from any potential EV disruption as hydrogen, CNG and LNG combustion engine technologies are expected to become prominent alternate powertrain technologies in this segment and crankshaft as a product is compatible to such combustion engines with minimal or no alterations.

The forging and machining capacity of Happy Forgings together is 153,100 MT and have a capacity utilization of 61% indicating there is room to scale up production. It is also among the few players in the Indian forging industry that has a forging capacity of about 107,000 MT as of March 31, 2023. The range of tonnage presses installed at their facility focus on medium and heavy forging and they stand out with their 14,000T press for heavy precision forging which makes them a key player in forging heavy components. As of March 31, 2023, it is only the second company in India to have a 14,000T or higher forging press and is among the four companies in India that possess

a 8,000T or higher forging press. Further, these heavy press machines are custom-built to meet specific needs, and their delivery lead time can be several months or even years, which can put new players in the industry at a disadvantage. Manufacturing capacity of Happy Forgings is prominent as their mechanical forging press line range from 2,500T to 14,000T and their drop hammers line have range from 1.5T to 6T. In addition to the above in Fiscal 2023, Happy Forgings recorded one of the highest revenue contributions from the sale of machined products in the overall product sales in comparison to the peers, as 79% of their revenue from product sales comes from machined components. The strategic location of the Company's facilities near inland container depot facility in Ludhiana and dedicated freight corridor connecting Ludhiana to Mumbai, Maharashtra and Dankuni, West Bengal provides it with cost and logistical advantages. The company's strength in machining and overall value addition to products has enabled it to achieve the highest EBITDA margin among peers in the last two Fiscals (i.e., Fiscal 2022 and 2023). The company's experience of strategically adding capacity coupled with its commitment to capital efficiency has resulted in it recording the highest ROCE among peers in Fiscal 2023.

The industry outlook for forging and machining globally is very positive. The global forging and machining market are estimated to be valued at approximately US\$ 71.9 billion and US\$ 52.5 billion, respectively, in calendar year 2023 and is expected to grow at a CAGR of 5.1% and 5.2% to reach US\$ 97.0 billion and US\$ 71.2 billion, respectively, by calendar year 2029. The global forging and machining market size for non-automotive sector such as farm equipment, off-highway vehicles and industrial and others is estimated to be valued at approximately US\$ 35.2 billion and US\$ 13.3 billion in calendar year 2023, respectively, and is expected to reach US\$ 47.4 billion and US\$ 18.0 billion by calendar year 2029, respectively.

The forging and machining market in India are estimated to be valued at approximately US\$ 7.3 billion and US\$ 5.4 billion in Fiscal 2024 and is expected to grow at a CAGR of 7.1% and 8.4% to reach US\$ 10.2 billion and US\$ 8.0 billion by Fiscal 2029, driven by global supply chain re-alignment; strong domestic demand across automotive and non-automotive industries and export opportunities driven by improved competitiveness. The global crankshaft market for automotive, farm tractors, off-high vehicles and industrial and others, is estimated to be valued at approximately USD 34.5 billion in calendar year 2023 and is expected to grow at a CAGR of 5.3% to reach US\$ 47.1 billion by calendar year 2029. The crankshaft market for automotive, farm tractors, off-high vehicles and industrial and others in India is estimated to be valued at approximately US\$ 5.18 billion in Fiscal 2024 and is expected to grow at a CAGR of 8.3%, by value, between Fiscal 2024 and Fiscal 2029. Further, the forging and machining industry faces several challenges that create high barriers to entry, including (i) lengthy customer and product approval processes, with difficulty in acquiring new customers without existing relationships, (ii) the importance of implementing and sustaining quality systems and meeting customer requirements, and (iii) managing customer relationships and logistics. Additionally, precision product manufacturing is a capital-intensive business that involves complex technology, machinery, and systems that further act as barriers to entry. Further, for both forging and machining, the machineries (such as the 14000T press) required are typically specialized and expensive and the procurement of the same is time-consuming, which can create a significant entry barrier for new businesses. Technology, price, quality, delivery and engineering capabilities are the primary elements of competition in the forging and machining industry.

India is poised to become a global hub for manufacturing, driven by a confluence of factors such as the China plus one strategy, the Ukraine-Russia crisis, high production costs in Europe and the United States of America, and the India's status as the lowest-cost producer in the world after China. Additionally, the robust manufacturing ecosystem, the easy availability of skilled labour and key raw materials, and strong government incentive schemes to promote 'Make in India' are all contributing to India's emergence as a global manufacturing hub. With these factors at play, Happy forgings is well placed to leverage these opportunities with its inhouse R&D capability, strategic partnerships, and low-cost proposition.

OUR BUSINESS

Some of the information in this section, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read “Forward-Looking Statements” on page 25 for a discussion of the risks and uncertainties related to those statements and “Risk Factors”, “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 36, 302 and 384, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements.

Unless otherwise indicated or the context otherwise requires, the financial information included herein is based on or derived from our Restated Financial Information included in this Prospectus. For further information, see “Restated Financial Information” on page 302. In this section, we have compared our consolidated financial information as of and for the year ended March 31, 2022 and March 31, 2023 and our standalone financial information as of and for the year ended March 31, 2021 and these periods are not comparable to each other. Further, we have compared consolidated financial information as of and for the six months ended September 30, 2022 with our standalone financial information as of and for the six months ended September 30, 2023. See, “Risk Factors – Other internal risks – In this Prospectus, we have compared consolidated financial information as of and for the year ended March 31, 2023 and March 31, 2022 with our standalone financial information as of and for the year ended March 31, 2021. Further, we have compared our consolidated financial information as of and for the six months ended September 30, 2022 with our standalone financial information as of and for the six months ended September 30, 2023. These periods are not comparable to each other” on page 70. Also, see “Definitions and Abbreviations” on page 6 for certain terms used in this section.

Unless otherwise indicated, industry and market data used in this section has been derived from the industry report titled “Industry Report on Global and Indian Forging and Machining Markets” dated November 30, 2023 (the “Ricardo Report”) prepared and issued by Ricardo India Private Limited, appointed by us pursuant to an engagement letter dated May 16, 2023 and exclusively commissioned and paid for by us to enable the investors to understand the industry in which we operate in connection with the Offer. The data included herein includes excerpts from the Ricardo Report and may have been re-ordered by us for the purposes of presentation. Unless otherwise indicated, financial, operational, industry and other related information derived from the Ricardo Report and included herein with respect to any particular calendar year/ Fiscal refers to such information for the relevant calendar year/ Fiscal. A copy of the Ricardo Report was available on the website of our Company at <https://happyforgingsltd.com/investors> until the Bid / Offer Closing Date. For further information, see “Risk Factors – Other internal risks – Certain sections of this Prospectus disclose information from the Ricardo Report which is a paid report and commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks.” on page 68. Also see, “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and market data” on page 21.

OVERVIEW

We are the fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India as of Fiscal 2023 in terms of forgings capacity (*Source: Ricardo Report*). We, through our vertically integrated operations, are engaged in engineering, process design, testing, manufacturing, and supply of a variety of components that are both margin accretive and value-additive. We primarily cater to domestic and global original equipment manufacturers (“OEMs”) manufacturing commercial vehicles in the automotive sector, while in the non-automotive sector, we cater to manufacturers of farm equipment, off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

With over 40 years of experience of manufacturing and supplying quality and complex components according to customers specifications, we have emerged as a leading player in the domestic crankshaft manufacturing industry with the second largest production capacity for commercial vehicle and high horse-power industrial crankshafts in India (*Source: Ricardo Report*). Our focus on producing margin accretive value-added products has led to our transition from being a forging led business to a machined components manufacturer. Our revenue from sale of machined products has increased from ₹3,992.02 million in Fiscal 2021 (representing 72.88% of our revenue from sale of products in such Fiscal) to ₹8,392.33 million in Fiscal 2023 (representing 78.66% of our revenue from sale of products in such Fiscal), at a CAGR of 44.99% which demonstrates our increased focus on machined products. Our strength in machining and overall value addition to products has enabled us to achieve the highest EBITDA

margin among our peers (refer to “*Our Business – Competition*” on page 263 for details of our peers) in the last two Fiscals (i.e., Fiscal 2022 and 2023) (*Source: Ricardo Report*). We recorded an increase in our revenue from operations by 104.55% from ₹5,849.58 million in Fiscal 2021 to ₹11,965.30 million in Fiscal 2023. Our continued endeavour to increase value addition through focus on products with higher machining intensity, has enabled us to increase our realisation and in Fiscal 2023, 2022, 2021 and the six months ended September 30, 2022 and 2023, EBITDA was ₹3,409.40 million, ₹2,308.87 million, ₹1,587.46 million, ₹1,818.62 million and ₹1,952.14 million, respectively, and our EBITDA margin was 28.49%, 26.85%, 27.14%, 30.32% and 29.01%, respectively.

We manufacture a wide range of heavy forged and machined products which include crankshafts, front axle beams, steering knuckles, differential cases, transmission parts, pinion shafts, suspension products and valve bodies across industries for a diversified base of customers.

Our Product Portfolio

We are among the few companies in India with the capability to manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries (*Source: Ricardo Report*). The following tables set forth below the revenue from sale of products to automotive and non-automotive sectors for the years/ periods indicated:

Sector	Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR (Fiscal 2021 to Fiscal 2023)
	Consolidated		Consolidated		Standalone		
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	
Automotive Sector ⁽¹⁾	4,656.76	43.65%	3,355.58	42.72%	2,054.10	37.50%	50.57%
Non Automotive Sector ⁽²⁾	6,012.73	56.35%	4,500.07	57.28%	3,423.30	62.50%	32.53%
Revenue from the Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%	39.57%

⁽¹⁾ Sale of products to manufacturers of commercial vehicles.

⁽²⁾ Sale of products to manufacturers of farm equipment and off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

Sector	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Automotive Sector ⁽¹⁾	2,468.14	40.38%	2,201.26	41.74%
Non Automotive Sector ⁽²⁾	3,643.45	59.62%	3,072.40	58.26%
Revenue from the Sale of Products	6,111.59	100.00%	5,273.66	100.00%

⁽¹⁾ Sale of products to manufacturers of commercial vehicles.

⁽²⁾ Sale of products to manufacturers of farm equipment and off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

We believe that the critical application of our products, along with their heavy weight, closed tolerance and stringent quality requirements of OEMs serve as entry barriers for new players to qualify as suppliers or in their ability to replace us in supplying precision products we manufacture (*Source: Ricardo Report*). Further, we believe that our focus on the high HP engine segment insulates us from any potential electric vehicle (“EV”) disruption as hydrogen, compressed natural gas (“CNG”) and liquified natural gas (“LNG”) combustion engine technologies are expected to become prominent alternate powertrain technologies in this segment and crankshaft as a product is compatible to such combustion engines with minimal or no alterations (*Source: Ricardo Report*).

We are a supplier to each of the top five Indian OEMs, by market share, in the medium and heavy commercial vehicle industry and four of the top five Indian OEMs in the farm equipment industry by market share, in Fiscal 2023 (*Source: Ricardo Report*). We believe that our long-standing relationships with our customers has positioned us as a trusted supplier for several Indian and global OEMs. Some of our customers include AAM India Manufacturing Corporation Private Limited, Ashok Leyland Limited, Bonfiglioli Transmissions Private Limited, Dana India, IBCC Industries (India) Private Limited, International Tractors Limited, JCB India Limited, Liebherr CMCTec India Private Limited, Mahindra & Mahindra Limited, Meritor HVS AB, Meritor Heavy Vehicle Systems Cameri SPA, SML ISUZU Limited, Swaraj Engines Limited, Same Deutz Fahr India Private Limited, Tata Cummins Private Limited, Watson & Chalin India Private Limited (Hendrickson India Commercial Vehicle Systems) and Yanmar Engine Manufacturing India Private Limited. As of March 31, 2023, 2022, 2021 and as of September 30, 2023 and 2022, our customers who have been associated with us for more than 10 years contributed ₹8,106.38 million, ₹6,235.28 million, ₹4,418.70 million, ₹4,465.72 million and ₹4,379.85 million in Fiscal 2023, 2022 and 2021 and in the six months ended September 30, 2023 and 2022, respectively, representing 75.98%, 79.38%, 80.67%, 73.07% and 83.05% of our revenues from sale of products during the respective periods, which indicates the depth of our relationships with them. As of September 30, 2023, we served customers across nine countries including Brazil, Italy, Japan, Spain, Sweden, Thailand, Turkey, the United Kingdom and the United States of America. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from contract with customers outside India was ₹1,383.51 million, ₹868.14 million, ₹481.05 million, ₹1,278.80 million and ₹627.12 million representing 12.89%, 10.94%, 8.77%, 20.75% and 11.87% of our total revenue from contract with customers during such periods, respectively. We have received numerous certificates and awards over the years, including the “*Supplier Excellence Award*” for delivery performance at the AAM India Supplier Event 2023, certificate of appreciation under the strategic theme “*Business Excellence Process/ Digitalisation*” in 2023 from Escorts Kubota Limited, “*Outstanding Contribution in Overall Performance Excellence*” award in 2017 from VE Commercial Vehicles Limited, a joint venture of the Volvo Group and Eicher Motors, “*Overall Excellence in Cost Delivery and Quality*” award at Partners Meet 2016 organised by Escorts Kubota Limited, “*Proactive Cost Competitiveness*” award for the year 2015-16 at Supplier Summit 2016 organised by Ashok Leyland and the “*Best Supplier (Forging)*” from a gear manufacturer in 2015.

We are dedicated to continuously investing in machinery and equipment to expand our forging and machining capacity to seize opportunities for growth in the market. As of March 31, 2023, we are only the second company in India to have a 14,000 tonne forging press or higher forging press and are among the four companies in India that possess a 8,000 tonne forging press or higher forging press (*Source: Ricardo Report*), allowing us to manufacture heavier and complex products with greater precision and accuracy, thereby better serving our customers. We are also among the few players in the Indian forging industry that have a forging capacity of about 107,000 MT as of March 31, 2023 (*Source: Ricardo Report*). In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our additions to our cost of property, plant and equipment were ₹2,777.96 million, ₹775.90 million, ₹1,760.39 million, ₹506.80 million and ₹890.37 million, respectively. Around 39.13% of our gross block (i.e., cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development), as of March 31, 2023, was a result of our capital expenditure made between

Fiscal 2022 and Fiscal 2023. We believe that our experience of strategically adding capacity coupled with our commitment to capital efficiency, has resulted us in recording the highest ROCE among peers in Fiscal 2023 (*Source: Ricardo Report*). Further, the installation of our new 14,000 tonne press enables us to forge heavier and safety critical parts up to 250 kilograms using the close die forging process, which expands our capabilities to cater to different industries. We believe that the upgrades we have undertaken to our manufacturing facilities, infrastructure, machines, equipment and technology have enabled us to offer a diverse products, reduce operating costs, drive productivity and will enable us to capitalise on future growth.

As of the date of this Prospectus, we own and operate three manufacturing facilities, of which two are located at Kanganwal in Ludhiana, Punjab and one is located at Dugri in Ludhiana, Punjab. Our annual aggregate installed capacity for forging and machining has increased from 67,000.00 MT and 29,500.00 MT, respectively, as of March 31, 2021 to 107,000.00 MT and 46,100.00 MT as of March 31, 2023 and further to 120,000.00 MT and 47,200.00 MT as of September 30, 2023, respectively. For more information on the capacity of our manufacturing facilities, see “ – *Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation*” on page 249. We focus on reducing waste in manufacturing processes, weight optimisation through simulation trials, value engineering and cost optimisation in machining and automation and re-layouting to increase production efficiency. We have automated certain processes in our manufacturing lines by using robots to reduce manpower costs and increase productivity. As of September 30, 2023, we had 10 robots installed across all our manufacturing facilities. Our vertically integrated manufacturing facilities are equipped to undertake a variety of processes, including engineering and designing, hammer and press forging, metallurgical testing, heat treatment, machining and dimensional testing among others, enabling us to manufacture a wide range of products weighing majorly between 3 kilograms to 250 kilograms. We believe our engineering capabilities that have evolved over last 40 years, enable us to offer quality, complex, high precision and safety critical components, allowing us to cater to a wide array of industries and bespoke customer requirements.

We have established a track of consistent revenue growth and profitability. Our revenue from operations increased from ₹5,849.58 million in Fiscal 2021 to ₹11,965.30 million in Fiscal 2023 at a CAGR of 43.02% while our restated profit for the year increased from ₹864.48 million in Fiscal 2021 to ₹2,087.01 million in Fiscal 2023 at a CAGR of 55.38%.

The following table sets forth certain financial information for our Company for the years/ periods indicated:

Particulars	As of/ For the year ended March 31,			As of/ For the six months ended September 30,	
	2023	2022	2021	2023	2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Revenue from Operations (₹ million)	11,965.30	8,600.46	5,849.58	6,729.00	5,998.00
Total Income (₹ million)	12,022.71	8,661.05	5,908.13	6,757.33	6,019.91

Addition to Property, Plant and Equipment (₹ million)	2,777.96	775.90	1,760.39	506.80	890.37
Net Debt to EBITDA (in times) ⁽¹¹⁾	0.64	1.03	0.79	1.32	1.42

Notes:

- Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus (increase)/decrease in inventories of finished goods, work-in-progress and scrap.
- Gross Margin is calculated as gross profit divided by revenue from operations.
- EBITDA is calculated as profit for the year/ period minus other income and share of profits net profit of joint venture plus finance costs, depreciation and amortisation and total income tax expenses.
- EBITDA Margin is calculated as EBITDA divided by revenue from operations.
- PAT Margin is calculated as restated profit for the year/ period divided by revenue from operations.
- Return on Equity is calculated as restated profit for the year/ period divided by total equity. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the year/ period plus total income tax expense plus finance costs. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- For Fiscal 2023, 2022 and 2021, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 365 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 365 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 365 days.
- For the six months ended September 30, 2023 and 2022, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 183 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 183 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 183 days.
- Gross Fixed Assets Turnover Ratio is calculated as revenue from operations for the year/ period divided by cost of property, plant and equipment. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- Net Debt to EBITDA is calculated as net debt divided by EBITDA. Net Debt is calculated as total of non-current borrowings and current borrowings minus total of cash and cash equivalents and bank balances.

For reconciliation in relation to the Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Measures" on page 412.

Our Promoters and senior management have been instrumental in the growth of our business. Our Promoter, Chairman and Managing Director, Paritosh Kumar, founded our Company in 1979 and continues to provide strategic guidance and oversees overall performance of our Company. Our Promoter and Managing Director, Ashish Garg, holds a master's degree in science in manufacturing systems engineering from University of Warwick, United Kingdom and has over 17 years of experience in the industrial sector, and drives new investment and growth strategy besides managing day to day operations of our Company. We have been supported by an equity investment from MO Alternates that also provides us with capital and strategic advice, which we believe has been critical to the growth of our business. MO Alternates through India Business Excellence Fund – III subscribed to certain equity shares of our Company between September 2018 to January 2019 for a total consideration of ₹1,999.98 million. For further details regarding allotments to India Business Excellence Fund – III, see "Capital Structure – Notes to the Capital Structure – Equity share capital history of the Company" on page 97.

Market Opportunity

The global forging and machining market are estimated to be valued at approximately USD 71.9 billion and USD 52.5 billion, respectively, in 2023 and is expected to grow at a CAGR of 5.1% and 5.2% to reach USD 97.0 billion and USD 71.2 billion, respectively, by 2029 (Source: Ricardo Report).

Global Forging Market Size

(Source: Ricardo Report)

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China and India is given as per Calendar year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014).

Production data has been considered for market sizing; Forging market size includes analysis of forged component from automotive, farm equipment, off highway Industrial and other segments, others include the following segments- manufacturing equipment's, mechanical equipment's used in public works, energy, etc and miscellaneous.

Global Machining Market Size

(Source: Ricardo Report)

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and India is given as per Calendar year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014).

Machining market size includes analysis of only front axle component (axle beam and steering knuckle) and crankshaft in following end use segments - automotives, off highway vehicle, farm equipment and industrial engines; Production data has been considered for market sizing. Value addition during the machining process of a particular component is considered to derive the value market.

The global crankshaft market for automotive, farm tractors, off-high vehicles and industrial and others, is estimated to be valued at approximately ₹34.5 billion in 2023 and is expected to grow at a CAGR of 5.3% to reach ₹47.1 billion by 2029. The crankshaft market in India for automotive, farm tractors, off-high vehicles and industrial and others is estimated to be valued at approximately ₹5.18 billion in Fiscal 2024 and is expected to grow at a CAGR of 8.3%, by value, between Fiscal 2024 and Fiscal 2029. The demand for advanced crankshafts with high strength and fatigue resistance is increasing due to the growing demand for high-performance vehicles (Source: Ricardo Report).

Global Crankshaft Market Size

(Source: Ricardo Report)

Note: - E-Estimated: Europe includes Germany, France, Spain, Italy, Turkey, and Sweden. Row includes Japan, Thailand, UK and Brazil. Market Size for Europe, US, China, and RoW is given as per calendar year and India is given as per financial year (Fiscal 2015 India market size is mentioned in Global Calendar Year 2014); Production data has been considered for market sizing.

Our engineering capabilities coupled with machining capabilities and advanced technologies that we deploy as part of our manufacturing operations, position us to capitalise on the opportunities presented by the growing market. For further information on the key growth drivers in the automotive and non-automotive sectors, see “Industry Overview” on page 159.

COMPETITIVE STRENGTHS

We believe that the following competitive strengths have positioned us to benefit from market dynamics and capture projected growth in the forging and machined components industry.

Fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India

We commenced operations in 1979 primarily as a forging company, and have since evolved into a manufacturer specializing in the manufacturing of value added machined products. With over 40 years of experience of manufacturing and supplying quality and complex components, we are well established within the industries and customers we cater to (Source: Ricardo Report). In terms of forging capacity as of Fiscal 2023, we are the fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined component in India (Source: Ricardo Report). Further, we have emerged as a leading player in the domestic

crankshaft manufacturing industry with the second largest production capacity for commercial vehicle and high horse-power industrial crankshafts (*Source: Ricardo Report*). We are focused on developing heavier high precision critical and value added products for multiple end-use industries, which typically have extremely closed tolerances (i.e., products should meet precise and specific requirements in terms of measurements and tolerances).

The tables below set forth a breakdown of our revenue from sale of products from forging and machining for the years/ periods indicated:

Particulars	Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR (Fiscal 2021 to Fiscal 2023)
	Consolidated		Consolidated		Standalone		
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	
Revenue from Sale of Forged Products	2,277.15	21.34%	1,935.15	24.63%	1,485.38	27.12%	23.82%
Revenue from Sale of Machined Products	8,392.33	78.66%	5,920.50	75.37%	3,992.02	72.88%	44.99%
Revenue from Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%	39.57%

Particulars	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Revenue from Sale of Forged Products	967.28	15.83%	1,203.68	22.82%
Revenue from Sale of Machined Products	5,144.31	84.17%	4,069.98	77.18%
Revenue from Sale of Products	6,111.59	100.00%	5,273.66	100.00%

As a result of increased focus on manufacturing machined products, in Fiscal 2023, we recorded one of the highest revenue contributions from the sale of machined products in the overall product sales in comparison to peers (refer to “*Our Business – Competition*” on page 263 for details of our peers) (*Source: Ricardo Report*). Our commitment to continuous investment in machinery and equipment has enabled us to increase our annual aggregate installed capacity for machining from 29,500.00 MT as of March 31, 2021 to 46,100.00 MT as of March 31, 2023 and further to 47,200.00 MT as of September 30, 2023. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our additions to our cost of plant, property and equipment were ₹2,777.96 million, ₹775.90 million, ₹1,760.39 million, ₹506.80 million and ₹890.37 million, respectively.

Further, the forging industry faces several challenges that create high barriers to entry, including (i) lengthy customer and product approval processes (ii) difficulty in acquiring new customers without existing relationships, (iii) the importance of implementing and sustaining quality systems and meeting customer requirements, and (iv) managing customer relationships and logistics (*Source: Ricardo Report*). Additionally, precision product manufacturing is a capital-intensive business that involves complex technology, machinery, and systems that further act as barriers to entry (*Source: Ricardo Report*). Further, for both forging and machining, the machineries (such as the 14,000 tonne press) required are typically specialized and expensive and the procurement of the same is time-consuming, which can create a significant entry barrier for new businesses (*Source: Ricardo Report*). We believe that our manufacturing infrastructure, experience in die-designing and engineering, diverse portfolio of products, our integrated manufacturing operations, ability to cater to our customers’ varying requirements and the relationships we have built with our customers over time, differentiate us from our competitors.

Integrated manufacturing operations coupled with in-house product and process design capabilities resulting in a diverse product portfolio with increasing value addition

Our journey from manufacturing basic forged and machined components to manufacturing complex and safety critical products with closed tolerances, involved expansion of our capabilities in both light and heavy forging and machining. In the initial years of our operations, we focused on manufacturing components such as forged bicycle pedals, camshaft, bull gears and semi machined transmission parts. As we gained experience and expanded our engineering capabilities, we forayed into products that required higher levels of precision, strength, and durability. We expanded our capabilities to manufacture complex and safety critical parts, resulting in a diverse product portfolio of machined parts such as crankshaft, transmission parts, suspension products and other products for commercial vehicles, farm equipment, and off-highway vehicles. In addition, we also expanded our capabilities to manufacture and supply components with applications in industries including oil and gas, power generation, railways and wind turbines. As of March 31, 2023, we are only the second company in India to have a 14,000 tonne forging press or higher forging press and are among four companies in India that possess a 8,000 tonne forging press or higher forging press (*Source: Ricardo Report*). Our diverse range of products and continuous efforts to develop new products, have allowed us to serve a wide range of industries and customers, which has strengthened our ability to attract new customers. We strive to continuously evaluate new businesses and add more value-added products to our portfolio to improve margins and profit realizations. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our EBITDA margin was 28.49%, 26.85%, 27.14%, 29.01% and 30.32%, respectively.

Evolution of our Product Portfolio

	Description of Key Products		Application/ Industry served	Supply Condition	Product Weight
1979	Forged Bicycle Pedals		Bicycle	Forged	450 – 550 gms
1981	Forged Camshafts		Portable Gensets	Forged	2.5 kgs
1996	Forged Bull Gears and Semi Machined Transmission Parts		Farm Equipment	Forged and Rough Machined	Up to 30 kgs
2007 2015	Forged Engine and Axle Components and Fully Machined Heavy Range of Crankshafts		Farm Equipment and Commercial Vehicles	Forged and Rough Machined	30 – 80 kgs
2015 2019	Fully Machined Products (Including Crankshafts)		Farm Equipment, Commercial Vehicles, Industrial	Forged and Fully Machined	Up to 90 kgs
2019 2023	Fully Machined Heavy Range of Crankshafts, Pinion Shafts, Planetary Carriers, Valve Bodies		Farm equipment, Commercial Vehicles, Off-Highway, Wind Turbine, Oil and Gas, Power Generation	Fully Machined	Up to 250 kgs

We believe that our engineering and product development capabilities have helped us explore and manufacture complex, safety critical and high precision products. For example, in the last three Fiscals, we started manufacturing and supplying certain new products such as planetary carriers and pinion shafts for wind turbine gearboxes, crankshafts for gensets, valves for oil and gas industry, and front axles for electric buses. We have invested in forging and machining equipment and developed processes and techniques for producing complex components with closed tolerances with increased mechanical properties. We possess a wide range of engineering and product development capabilities, including die-designing, process design, cutting tool selection, and inspection and testing, enabling us to ensure manufacturing of safety critical components to required designs and specifications.

Our manufacturing processes, which primarily include die-designing, forging, heat treatment, machining and inspection and testing, are undertaken in-house. This enables us to meet customer requirements or modifications to product specifications without relying on external vendors. As a result, we are able to closely monitor product quality, control production expenses, and meet delivery timelines. Further, our in-house die design capabilities and advanced manufacturing facilities enable us to produce high-precision and complex components with closed

tolerances. Our die manufacturing operations are equipped with computer numerical control (“CNC”) vertical machines centers. While CNC machines are primarily used for machining operations, they enable us to produce dies in-house by shaping and finishing the dies according to the design specifications. We have invested in computed-aided design (“CAD”) and computer aided manufacturing (“CAM”) packages which help us create 3D models of the dies and we also have simulation software which enables us to simulate and manufacture our dies with higher accuracy. Further, to maintain product quality, we use advanced metallurgical testing equipment for elemental and material composition analysis, microstructure analysis, and mechanical properties testing, and perform non-destructive testing to detect surface cracks and defects.

Diversified business model, well placed to take advantage of potential alternative engine technologies

Our business model is well diversified by end use industry and customer base. In automotive sector, we derive our revenues from OEMs of commercial vehicles. Within the non-automotive sector, we manufacture and supply a wide range of precision components to OEMs of farm equipment, off-highway vehicles, and industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries. The tables below set out the revenues from various end-use industries and as a percentage of our revenue from sale of products for the years/ periods indicated:

End-use Industry	Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR (Fiscal 2021 to Fiscal 2023)
	Consolidated		Consolidated		Standalone		
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	
Automotive Sector							
Commercial Vehicles	4,656.76	43.65%	3,355.58	42.72%	2,054.10	37.50%	50.57%
Non Automotive Sector							
Farm Equipment	3,925.19	36.79%	3,179.74	40.48%	2,402.91	43.87%	27.81%
Off Highway Vehicles	1,692.55	15.86%	1,162.71	14.79%	910.39	16.62%	36.35%
Industrial*	394.99	3.70%	157.62	2.01%	110.00	2.01%	89.49%
Total Non-Automotive Sector	6,012.73	56.35%	4,500.07	57.28%	3,423.30	62.50%	32.53%
Revenue from the Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%	39.57%

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

End-use Industry	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
<i>Automotive Sector</i>				
Commercial Vehicles	2,468.14	40.38%	2,201.26	41.74%
<i>Non Automotive Sector</i>				
Farm Equipment	2,035.73	33.31%	2,113.10	40.07%
Off Highway Vehicles	770.51	12.61%	798.97	15.15%
Industrial*	837.21	13.70%	160.33	3.04%
Total Non-Automotive Sector	3,643.45	59.62%	3,072.40	58.26%
Revenue from the Sale of Products	6,111.59	100.00%	5,273.66	100.00%

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

Further, the global forging market size for non-automotive sector such as farm equipment, off-highway vehicles and industrial and others is estimated to be valued at approximately USD 35.2 billion in 2023 and is expected to

reach USD 47.4 billion by 2029 whereas the global machining market size for non-automotive sector such as farm equipment, off-highway vehicles and industrial and others is estimated to be valued at approximately USD 13.3 billion in 2023 and is expected to reach USD 18.0 billion by 2029 (*Source: Ricardo Report*). We believe that the non-automotive sector represents a significant growth opportunity, with the potential for increased demand across a diverse range of industries. With our expertise in forging and machining, we believe that we are well-positioned to cater to the growing demand from these industries.

We have a diversified customer base and we served 66 customers in Fiscal 2023 and 59 customers in the six months ended September 30, 2023. Our customers span across industries, including manufacturers of light, medium and heavy commercial vehicles in the automotive sector and manufacturers of farm equipment, off-highway vehicles and machinery and equipment for oil and gas, power generation, railways and wind turbine industries in the non-automotive sector. To demonstrate our diversified customer base, the below table sets forth details of our customers we served in the relevant years/ periods:

Sector	Number of Customers				
	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Automotive					
Commercial Vehicles	14	13	10	12	9
Non-Automotive					
Farm equipment	24	21	21	19	21
Off-highway	4	4	5	4	4
Industrial*	24	19	19	24	19
Total	66	57	55	59	53

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

We have a geographically diversified revenue base with our business footprint which spans across geographies. As of September 30, 2023, we served customers in over nine countries including Brazil, Italy, Japan, Spain, Sweden, Thailand, Turkey, the United Kingdom and the United States of America. The table below sets forth details of our revenue from contract with customers outside India for the years/ periods indicated:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Number of Countries to which we supplied during the period	7	8	7	8	8
Revenue from Contract with Customers Outside India (₹ million)	1,383.51	868.14	481.05	1,278.80	627.12
Revenue from Contract with Customers Outside India as a percentage of total Revenue from Contract with Customers (%)	12.89%	10.94%	8.77%	20.75%	11.87%

For information on the geographies where we exported our products and revenues generated from such geographies in the last three Fiscals and six months ended September 30, 2023 and 2022, see “ – Customers” on page 257.

Further, we strive to keep abreast of global industry trends and manufacture products that cater to customers’ evolving requirements. EV penetration is expected to have limited impact on our operations given our focus on manufacturing machined components for heavy commercial vehicles, farm equipment vehicles, off-highway vehicles and components for industries such as oil and gas, power generation, railways and wind turbine (*Source: Ricardo Report*). While adoption of EVs is growing in the two-wheeler (“2W”) and passenger vehicle (“PV”) industries, the adoption of EVs in the heavy commercial vehicle industry has been insignificant due to factors such as high upfront costs, range limitations, and charging infrastructure availability in rural and remote areas (*Source: Ricardo Report*). Heavy-duty vehicles such as trucks, off-highway vehicles, tractors require more power

and have different operating requirements than PVs, which makes it more difficult to switch to EVs. As a result, many heavy-duty vehicles will continue to use traditional internal combustion engines (“ICE”) or alternative engine technologies that require crankshafts (*Source: Ricardo Report*).

Further, as per the Ricardo Report, hydrogen, LNG and CNG combustion engines are among the most promising alternative engine technologies for the commercial vehicle industry. The hydrogen combustion engines require a compressor to compress the hydrogen gas, and this compressor is typically powered by a crankshaft and the content per vehicle with respect to auto-components remains unchanged in a hydrogen combustion engine vehicle in comparison to an ICE vehicle (*Source: Ricardo Report*). In addition, CNG and LNG engines also require crankshafts (*Source: Ricardo Report*). These engines use natural gas as a fuel, which is compressed or liquefied before being injected into the engine (*Source: Ricardo Report*). The compression or liquefaction process requires a compressor, which is typically powered by a crankshaft (*Source: Ricardo Report*). These technologies offer several advantages over traditional diesel engines, including lower emissions and reduced operating costs and crankshaft as a product is not expected to be impacted in case of such transition to any such technologies (*Source: Ricardo Report*). The global market for hydrogen combustion engines is expected to grow in the coming years, driven by increasing government support for hydrogen combustion engine vehicles and the growing demand for zero-emission vehicles (*Source: Ricardo Report*). We intend to engage with our customers in the commercial vehicle industry to assess the potential transition to alternative engine technologies such as hydrogen, CNG and LNG combustion engines. For example, in Fiscal 2023, we started supplying crankshafts to an Indian automotive manufacturer for its CNG range of vehicles. We believe that crankshafts will remain an important component in the heavy-duty automotive industry for the foreseeable future as the same are compatible for engines run on hydrogen, CNG and LNG with minimal or no alternations (*Source: Ricardo Report*).

Long-standing relationships with customers across industries

We have, through over 40 years of business operations, established long-standing relationships with several Indian and global customers across industries. We are among the few companies in India that manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway vehicles and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries (*Source: Ricardo Report*). We have a diversified customer base and we have served 66 customers in Fiscal 2023 and 59 customers in the six months ended September 30, 2023. We believe our focus on quality, providing customised solution to our customers and timely delivery of our product offerings have helped us establish and maintain long term relationships with our customers. The table below sets forth our certain customers across different industries:

End-Use Industry	Customers
Commercial Vehicles	
Farm Equipment	
Off Highway Vehicles	

End-Use Industry	Customers
Industrial	   

We have been able to retain our existing customers and attract new customers. The tables below set forth below our revenue from customers, segregated on the basis of the years of relationship with such customers for the years/ periods:

Period of Customer Relationship	Fiscal 2023			Fiscal 2022			Fiscal 2021		
	Consolidated			Consolidated			Standalone		
	Number of Customers as of March 31, 2023	Revenue from such Customers (₹ million)	Percentage of Revenue from Sale of Products	Number of Customers as of March 31, 2022	Revenue from such Customers (₹ million)	Percentage of Revenue from Sale of Products	Number of Customers as of March 31, 2021	Revenue from such Customers (₹ million)	Percentage of Revenue from Sale of Products
More than 10 years	19	8,106.38	75.98%	17	6,235.28	79.38%	18	4,418.70	80.67%
More than five years but less than 10 years	8	1,915.65	17.95%	8	1,257.92	16.01%	6	691.23	12.62%
Five years and less	39	647.46	6.07%	32	362.45	4.61%	31	367.47	6.71%
Total	66	10,669.49	100.00%	57	7,855.65	100.00%	55	5,477.40	100.00%

Period of Customer Relationship	Six months ended September 30, 2023			Six months ended September 30, 2022		
	Standalone			Consolidated		
	Number of Customers as of September 30, 2023	Revenue from such Customers (₹ million)	Percentage of Revenue from Sale of Products	Number of Customers as of September 30, 2022	Revenue from such Customers (₹ million)	Percentage of Revenue from Sale of Products
More than 10 years	14	4,465.72	73.07%	14	4,379.85	83.05%
More than five years but less than 10 years	4	469.88	7.69%	4	552.58	10.48%
Five years and less	41	1,175.99	19.24%	35	341.23	6.47%
Total	59	6,111.59	100.00%	53	5,273.66	100.00%

We have long-standing relationships, on average, of more than 14 years with our top 10 customers (in terms of revenue from sale of products in Fiscal 2023) as of March 31, 2023. In Fiscal 2023, our revenue from sale of products from top 10 customers was ₹8,384.81 million, representing 70.08% of the revenue from operations during such Fiscal. Our ability to establish and maintain long-term relationships with numerous customers demonstrates our commitment to provide quality products and solutions that meet their requirements. The table below sets forth the details of our top 10 customers (in terms of revenue from sale of products in Fiscal 2023) in terms of relationship as of September 30, 2023:

S. No.	Customer	Commencement of Relationship	Number of Years of Customer Relationship
1.	Dana India	2002	21 years
2.	VE Commercial Vehicles Limited	2002	21 years
3.	Manufacturer of gears	2004	19 years
4.	Manufacturer and supplier of automobile gears	2004	19 years
5.	Ashok Leyland Limited	2009	14 years
6.	AAM India Manufacturing Corporation Private Limited	2010	13 years
7.	Manufacturer of locomotives for Indian	2011	12 years

S. No.	Customer	Commencement of Relationship	Number of Years of Customer Relationship
	railways		
8.	Meritor HVS AB	2012	11 years
9.	JCB India Limited	2012	11 years
10.	Mahindra & Mahindra Limited (Swaraj Division) / Mahindra & Mahindra Limited (Automotive Division)	2012 / 2013	11 years / 10 years

Typically, global industry leaders are highly selective in qualifying new suppliers with respect to critical products given the high costs and risks of switching suppliers, especially where product reliability is critical (*Source: Ricardo Report*). We have passed these customers' internal supplier qualification processes. Obtaining and maintaining these qualifications and passing these customers' internal supplier selection procedures is time consuming, which we believe constitute a significant barrier-to-entry for new industry players. In Fiscal 2023, 2022, and 2021, we added eight, seven and three new customers, respectively. These customers operated in commercial vehicles, farm equipment, off-highway vehicles and industrial markets and were from India, the United Kingdom, the United States of America, Italy, Japan and Turkey. Our diversification of revenue across multiple customers allows us to minimize any adverse impact from customer specific challenges.

We collaborate with our customers, particularly OEMs, in the initial phases of product development. For example, in 2011, a manufacturer of construction vehicle equipment in India took the initiative to localize its engine products with the objective to start manufacturing engines in-house. During this process, we assisted this manufacturer with converting their cast iron crankshaft into a forged version. Additionally, we recommended the suitable steel that would match the mechanical properties of the casted version. As a result, we became a single source supplier of crankshaft to this manufacturer. In our experience, this approach has helped us establish long-standing relationships with several of our customers and resulted in a long-standing customer base.

We have received numerous certificates and awards over the years, including the “*Supplier Excellence Award*” for delivery performance at the AAM India Supplier Event 2023, certificate of appreciation under the strategic theme “*Business Excellence Process/ Digitalisation*” in 2023 from Escorts Kubota Limited, “*Outstanding Contribution in Overall Performance Excellence*” award in 2017 from VE Commercial Vehicles Limited, a joint venture of the Volvo Group and Eicher Motors, “*Overall Excellence in Cost Delivery and Quality*” award at the Partners Meet 2016 organised by Escorts Kubota Limited in 2016, “*Proactive Cost Competitiveness*” award for the year 2015-16 at Suppliers Summit 2016 organised by Ashok Leyland and the “*Best Supplier (Forging)*” from a gear manufacturer in 2015. For further information regarding the awards and certificates, see “*History and Certain Corporate Matters – Awards, accreditations or recognitions*” on page 270.

Furthermore, we have over the years increased our share of wallet from customers by offering additional products to existing customers. For example, we commenced the relationship with manufacturing front steering knuckles and suspension components for an Indian automotive manufacturer of commercial vehicles (“**Customer A**”). Based on our capability to supply fully finished components and heavy forgings, in 2013, we started to develop crankshafts for mid-size four cylinder engines and with this, we entered into manufacturing heavy-duty engine crankshafts. Currently, we manufacture their entire range of crankshafts with over seven variants.

We also extend our existing product offerings to the counterparts of our existing customers located in different geographical regions which helps us improve volumes of such products which in turn helps us better leverage our development costs as well as establish dedicated manufacturing production lines for specific products, thereby improving overall efficiencies. For example:

- we commenced supply of crankshafts for a manufacturer of off-highway vehicles (“**Customer B**”). Due to our consistent supply and delivery, quality, and precision, in 2023, we expanded our business with their UK counterpart (“**Customer C**”) with the supply of crankshafts for their engines.
- in Fiscal 2020, we commenced supply of gears and pinion shafts for a manufacturer of gearbox for wind turbines (“**Customer D**”). Due to our consistent supply and quality, in 2023, commenced supply the same products to the manufacturer’s Italy counterpart (“**Customer E**”).

The below tables demonstrate the increase in revenue with respect to the aforesaid customers:

Customer	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Revenue from such Customer (₹ million)	Percentage of Revenue from Sale of Products	Revenue from such Customer (₹ million)	Percentage of Revenue from Sale of Products	Revenue from such Customer (₹ million)	Percentage of Revenue from Sale of Products
Customer A	1,762.13	16.52%	945.40	12.03%	686.46	12.53%
Customer B	512.51	4.80%	397.12	5.06%	404.84	7.39%
Customer C	38.19	0.36%	-	-	-	-
Customer D	137.09	1.28%	95.98	1.22%	41.42	0.76%
Customer E	26.92	0.25%	-	-	-	-

Customer	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Revenue from such Customer (₹ million)	Percentage of Revenue from Sale of Products	Revenue from such Customer (₹ million)	Percentage of Revenue from Sale of Products
Customer A	823.55	13.48%	749.29	14.21%
Customer B	273.06	4.47%	232.01	4.40%
Customer C	527.66	8.63%	-	0.00%
Customer D	80.37	1.31%	68.53	1.30%
Customer E	67.47	1.10%	0.29	0.01%

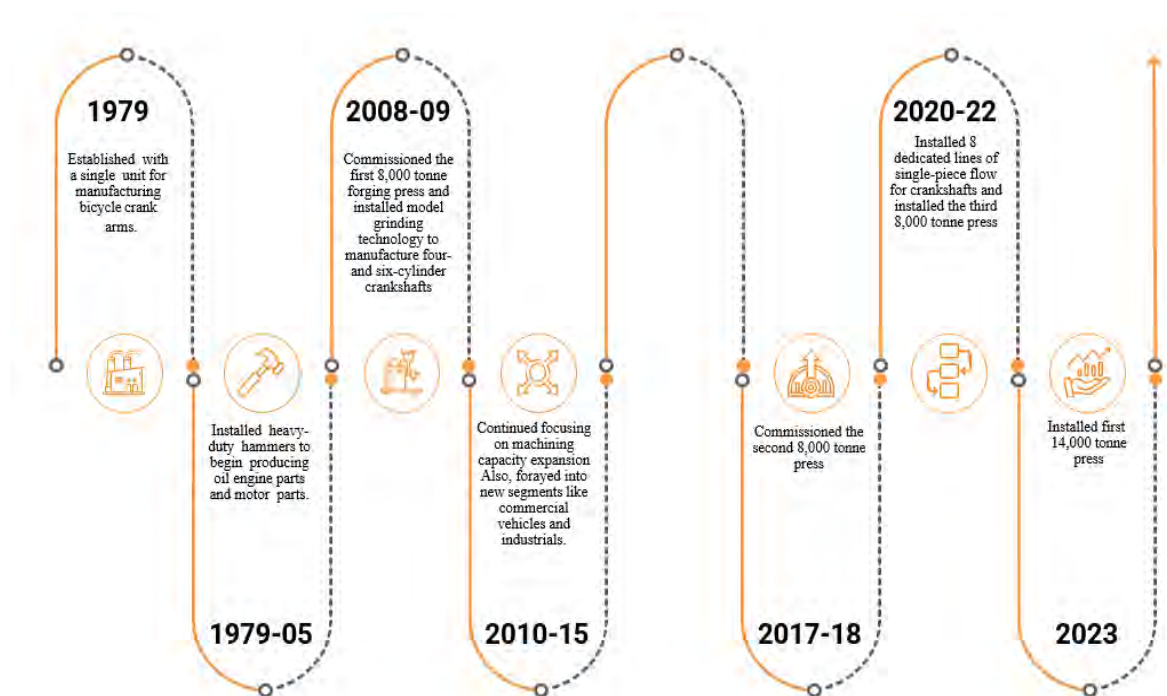

Track record of consistently building capabilities and infrastructure, with focus on capital efficiency

As of the date of this Prospectus, we operate three manufacturing facilities with two manufacturing facilities located at Kanganwal in Ludhiana, Punjab, spread over a built up area of 184,765.50 square feet and 439,128.00 square feet and one located at Dugri in Ludhiana, Punjab, spread over a built up area of 1,771,208.46 square feet. While one of our manufacturing facilities at Kanganwal in Ludhiana, Punjab is dedicated to forging operations, our remaining facilities are equipped with both forging and machining capabilities. The strategic location of our manufacturing facilities near inland container depot facility in Ludhiana and dedicated freight corridor connecting Ludhiana to Mumbai, Maharashtra and Dankuni, West Bengal provides us with cost and logistical advantages (Source: Ricardo Report).

As of March 31, 2023, the annual aggregated installed capacity for forging and machining was 107,000.00 MT and 46,100.00 MT, respectively and the capacity utilisation was 62.96% and 79.24% in Fiscal 2023, respectively. For more information in relation to the capacity for forging and machining, see “– Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation” on page 249. Over the years we have invested in expanding and upgrading our manufacturing facilities which are equipped to undertake a variety of processes, including engineering and designing, hammer and press forging, metallurgical testing, heat treatment, machining and dimensional testing among others, enabling us to manufacture a wide range of products majorly weighing between 3 kilograms to 250 kilograms.

[Remainder of the page is intentionally left blank]

The following chart shows our continuous ability in building capacity both for the forging and machining:

In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our capital expenditure (i.e. payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance)) was ₹1,745.87 million, ₹1,908.42 million, ₹916.64 million, ₹1,010.98 million and ₹883.01 million and our gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development) was ₹9,338.65 million, ₹7,980.78 million, ₹5,469.17 million, ₹10,122.29 million and ₹8,624.93 million as at March 31, 2023, 2022 and 2021, and as of September 30, 2023 and 2022, respectively. Around 39.13% of our gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development) as of March 31, 2023, was a result of our capital expenditure made between Fiscal 2022 and Fiscal 2023. Upgradation to modernize our manufacturing facilities, infrastructure, machines, and equipment has helped us to offer a diverse products, reduce operating costs and drive productivity. Our experience of strategically adding capacity coupled with our commitment to capital efficiency has resulted us in recording the highest ROCE among peers in Fiscal 2023 (*Source: Ricardo Report*).

The installation of our new 14,000 tonne press is a significant investment in our infrastructure, making us the only second company in India to have such press or higher forging press (*Source: Ricardo Report*). Further, these heavy press machines are custom-built to meet specific needs, and their delivery lead time can be several months or even years, which can put new players in the industry at a disadvantage (*Source: Ricardo Report*).

With this new press, we are able to forge heavier and complex parts up to 250 kilograms, which expands our capabilities to cater to different industries which require heavy and complex parts. This press also features advanced automation technology, such as robotic part transfer and automated tool change, which improves our efficiency and reduces the risk of human error. The higher automation provided by the press has allowed us to increase our production speed and reduce our cycle time, ultimately leading to increased throughput and improved productivity.

We have implemented quality systems and standard operating processes over the years which we believe enable us to meet the complex requirements of our customers and maintain our track record of reliability. Our manufacturing operations follow strict process control guidelines and international industry standards and practices. Our manufacturing facilities have been certified in accordance with international standards of quality management systems such as IATF 16949:2016 and ISO 9001:2015; environmental management systems such as ISO 14001:2015 and occupational health and safety management systems such as ISO 45001:2018.

We place emphasis on automation and efficiency to continuously improve our operating margins. We constantly look for ways to streamline our processes and reduce waste, while also improving the quality of our products. For example, we have (i) automated certain processes in our manufacturing operations by using robots to increase productivity and reduce manpower cost; (ii) designed our machining lines to optimize processes and reduce manpower costs by performing multiple processes on a single machine; and (iii) reduced the input weights required to forge our products, which has helped us to reduce material costs. We continuously upgrade our older machines with necessary automation to prevent obsolescence, in a cost effective manner. In an effort to minimize expenses and conserve energy, during Fiscal 2023, we implemented several energy-efficient measures, including the installation of a 1,600 kVAR hybrid automatic power factor correction system at our three manufacturing facilities as well as temperature controllers in the cooling towers of each manufacturing facility. Further, we also installed a 5 MW solar power plant at our three manufacturing facilities.

We believe that our significant manufacturing capacities act as an entry barrier for other manufacturers and OEMs that do not currently have such similar in-house engineering capabilities and production facilities, coupled with our capital expenditure over the years has positioned us well to take advantage of emerging growth opportunities.

Experienced Promoters and senior management team

We benefit from the experience of our management team which has extensive knowledge in the precision components' manufacturing industry, including operations, business development and customer relationships. In particular, our Promoter, Chairman and Managing Director, Paritosh Kumar, founded our Company in 1979 and continues to provide guidance and oversees overall performance of our Company. Our Promoter and Managing Director, Ashish Garg, holds a master's degree in science in manufacturing systems engineering from University of Warwick, United Kingdom and has over 17 years of experience in the field of business development and financial management and drives new investment and growth strategy besides managing day to day operations of our Company.

In addition, we have an experienced Board of Directors, comprising Whole-time Directors, Narinder Singh Juneja, with more than 35 years of experience in the industrial sector; and Megha Garg with a bachelor's degree in science (economics) from the University of Nottingham, United Kingdom with eight years of experience in the industrial sector. We also have oversight from the Independent Directors on our Board of Directors which include Satish Sekhri experienced in the field of sales and marketing and industrial sector, Ravindra Pisharody with over 18 years of experience in marketing, space planning and space strategy sectors, Rajeswari Karthigeyan with over 30 years of experience in the credit rating agency, Vikas Giya with over 17 years of experience in the finance sector and Atul Behari Lall with over 29 years of experience in the electronics manufacturing services industry. In addition, we have Prakash Bagla, the Nominee Director, appointed by MO Alternates, on our Board who has over 18 years of experience in the finance and private equity sector. Further, our KMPs and Senior Management include Pankaj Kumar Goyal, our Chief Financial Officer, Patwinder Singh, our chief operating officer, Mangesh Shantaram Purandare, our chief marketing officer, Gurjinder Singh, our chief human resource officer and Bindu Garg, our Company Secretary and Compliance Officer. We believe that the strength of our Board and management team and their experience has enabled us to take advantage of market opportunities and to better serve our customers. Further, we believe that our relationships with our institutional investor MO Alternates through its fund India Business Excellence Fund – III, has supported us with capital allocation and strategic business advice, which we believe have been critical to the growth of our business.

Track record of healthy financial performance

We have established a track of consistent revenue growth and profitability. The following table sets forth certain financial information for our Company for the years/ periods indicated:

Particulars	As of/ For the year ended March 31,			As of/ For the six months ended September 30,		CAGR (From Fiscal 2021 to 2023)
	2023	2022	2021	2023	2022	
	Consolidated	Consolidated	Standalone	Standalone	Consolidated	
Revenue from Operations (₹ million)	11,965.30	8,600.46	5,849.58	6,729.00	5,998.00	43.02%
Total Income (₹ million)	12,022.71	8,661.05	5,908.13	6,757.33	6,019.91	42.65%
Restated Profit for the Period/ Year (₹ million)	2,087.01	1,422.89	864.48	1,192.99	1,163.97	55.38%
Total Equity (₹ million)	9,883.07	7,876.24	6,451.59	11,033.34	9,047.25	23.77%
Total Assets (₹ million)	13,261.68	11,298.69	8,763.84	14,897.98	12,858.06	23.01%

We believe that our continued focus on efficiency, productivity improvements and cost rationalization have enabled us keep our operating costs under control and improve our margins. The following table sets forth details of EBITDA and EBITDA Margin for the years/ periods indicated:

Particulars	As of/ For the year ended March 31,			As of/ For the six months ended September 30,		Increase from Fiscal 2021 to 2023
	2023	2022	2021	2023	2022	
	Consolidated	Consolidated	Standalone	Standalone	Consolidated	
EBITDA (₹ million) ⁽¹⁾	3,409.40	2,308.87	1,587.46	1,952.14	1,818.62	114.77%
EBITDA Margin (in %) ⁽²⁾	28.49%	26.85%	27.14%	29.01%	30.32%	1.35%

⁽¹⁾EBITDA is calculated as profit for the year/ period minus other income and share of net profit of joint venture plus finance costs, depreciation and amortisation and total income tax expenses.

⁽²⁾EBITDA Margin is calculated as EBITDA divided by revenue from operations.

We have the highest EBITDA margin among peers in the last two Fiscals (i.e., Fiscal 2022 and 2023) (Source: Ricardo Report).

We recorded the highest ROCE among peers in Fiscal 2023 (Source: Ricardo Report). The following table sets forth details of Return on Equity and Return on Capital Employed for the years/ periods indicated:

Particulars	As of/ For the year ended March 31,			As of/ For the six months ended September 30,	
	2023	2022	2021	2023	2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Return on Equity (%) ⁽¹⁾	21.12%	18.07%	13.40%	10.81%	12.87%
Return on Capital Employed (%) ⁽²⁾	24.24%	19.38%	16.13%	12.21%	13.69%

⁽¹⁾Return on Equity is calculated as restated profit for the year/ period divided by total equity.

⁽²⁾Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the year/ period plus total income tax expense plus finance costs.

⁽³⁾The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.

We believe that we have utilized our resources prudently, and that our operational and financial performance will allow us to take advantage of the growth opportunities in our industry.

For reconciliation in relation to EBITDA, EBITDA Margin, Return on Equity and Return on Capital Employed,

see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Measures” on page 412.

BUSINESS STRATEGIES

We intend to strengthen our position as one of the leading forging and machining component company by implementing the following strategies:

Leverage in-house engineering and product development capabilities to grow our product portfolio and tap growing business opportunities in the industrial markets

We have a track record of developing complex and precision-engineered components for both automotive and non-automotive sectors over several decades. With this experience, we believe we can leverage our engineering and product development capabilities to manufacture forged and precision-machined components that have industrial applications and advance our position in the value chain, with a particular focus on industries such as defence, power generation, oil and gas and wind turbine. The global market for machined components for industrials and others segment which includes industrial, lawn and gardens, marine, power generation and railways is expected to grow at a CAGR of approximately 4.8% by value during 2023 and 2029 to reach USD 12.7 billion by 2029. (Source: Ricardo Report).

In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from sale of products to the industrial market was ₹394.99 million, ₹157.62 million, ₹110.00 million, ₹837.21 million and ₹160.33 million, respectively, representing 3.70%, 2.01%, 2.01%, 13.70% and 3.04% of our total revenue from sale of products, respectively. In Fiscal 2023, we started supplying various components including crankshafts for power generation industries, planetary carriers and pinion shafts for wind turbines gearboxes and front axles for electric bus. Further, our customer base of the industrial market increased from 19 customers in Fiscal 2021 to 24 customers in Fiscal 2023. In Fiscal 2022 and 2023, some of the new customers who we served are Tata Cummins Private Limited, Bongfiglioli Transmissions Private Limited, IBCC Industries (India) Private Limited and Liebherr CMCTec India Private Limited. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, we added four, three, nil, one and nil new customers which operate in the industrial market and revenue from sale of products to these new customers was ₹7.18 million, ₹2.69 million, nil, ₹0.63 million and nil during the respective periods, representing 0.13%, 0.03%, nil, 0.01% and nil of our revenue from sale of products in such periods, respectively. Within the industrial market, we primarily intend to focus on manufacturing machined components that require complex engineering capabilities, resulting in high value addition by us.

Wind Turbines

As per the Ricardo Report, low cost of technology and government support from various countries in Europe, the Middle East and North America have increased the adoption of wind power. Developing countries such as India and China also provide great motivation for the call for wind energy, as the government of these countries finances various projects for the expansion of the wind energy sector (*Source: Ricardo Report*). A wind turbine gearbox is an essential component of wind turbine, escalating its rotational speed and consists of multiple components such as housing, planetary gear, planetary carrier, pinion shaft and ring gear (*Source: Ricardo Report*). We manufacture several components for the wind turbine gearbox such as planetary carrier, pinion shaft and housing. Further, as per the Ricardo Report, the global wind turbine gearbox market size was valued at USD 21.7 billion in 2022 and is anticipated to reach USD 33.5 billion in 2029, increasing at a CAGR of 7% during the period between 2023 and 2029. As of March 31, 2023, we have served two customers operating in the wind turbine industry. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from sale of products used in the wind turbine industry was ₹185.47 million, ₹96.08 million, ₹41.41 million, ₹159.39million and ₹82.06 million, respectively. Further, we also intend to add machining capabilities for wind turbine blades.

Power Generation

As per the Ricardo Report, the global market for power generation is expected to grow at a significant rate due to the increasing demand for reliable backup power solutions in various industries such as healthcare, telecommunications, and manufacturing. The power generation industry requires a variety of forged and machined components such as engine blocks, cylinder heads, crankshafts and generators (*Source: Ricardo Report*). We have developed components for the power generation industry such as crankshafts that have applications in gensets. As of March 31, 2023, we have served two customers operating in the gensets industry. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from sale of products used in the gensets industry was ₹78.67 million, ₹0.25 million, nil, ₹31.45 million and ₹20.46 million, respectively.

Oil and Gas

As per the Ricardo Report, the forging and machining market in the oil and gas industry is expected to grow in the coming years. The oil and gas industry requires a variety of forged and machined components such as valves, pumps and drilling equipment. We have developed components for the oil and gas sector such as valve bodies. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from sale of products used in the oil and gas industry was ₹26.03 million, ₹0.15 million, nil, ₹57.80 million and ₹14.49 million, respectively.

Defence

As per the Ricardo Report, the defence industry is a significant consumer of forging and machining components, with applications ranging from small parts used in firearms to large parts used in military vehicles and aircraft.

To tap into the growing industrial market, we intend to leverage our engineering and product development capabilities to manufacture precision components for industrial applications and we plan to do so by leveraging our newly installed 14,000 tonne press. This addition to our capabilities allows us to forge heavier and complex parts weighing up to 250 kilograms, expanding our range of capabilities. Further, we intend to expand our capabilities by adding new solutions for heavy transmission gear cutting in machining and foraying into heavy forgings up to one tonne. With a focus on industries such as defence, power generation, oil and gas and wind turbine, we plan to increase our customer base and solidify our position as a manufacturer of machined components. We intend to achieve this by adding new products that have applications in these industries to increase our revenue from these industries.

Foray into lightweight forging and machining with introduction of aluminium components

As per the Ricardo Report, the use of lightweight materials is a growing trend in various industries. The automotive industry, in particular, is driving this trend due to the increasing demand for fuel-efficient vehicles (*Source: Ricardo Report*). The aerospace and defence industries are also adopting lightweight materials to improve performance and reduce costs. This trend is likely to continue in the future as there is a growing emphasis on sustainability and energy efficiency (*Source: Ricardo Report*).

In terms of specific materials, aluminium components are valued for their high strength-to-weight ratio, resistance

to corrosion, and thermal conductivity (*Source: Ricardo Report*). These properties make them ideal for use in many applications, including automotive, aerospace, and defence (*Source: Ricardo Report*). For example, in the automotive industry, the use of aluminium components can significantly reduce the weight of vehicles, thereby improving fuel efficiency and reducing emissions. In the aerospace industry, the use of aluminium components can improve the performance of aircraft by reducing weight and increasing fuel efficiency (*Source: Ricardo Report*). In many industries like defence, oil and gas, railways and other industrial applications, the use of aluminium components can help reduce the weight of equipment and vehicles, making them more agile and easier to transport (*Source: Ricardo Report*).

By leveraging our existing capabilities, we intend to diversify our product portfolio by entering into the market of lightweight forging and machined components. In particular, we aim to introduce aluminium forging and machined components to cater to the growing demand for lightweight materials in various industries such as automotive, aerospace, and defence. We believe that this will potentially open up new opportunities for our business and help us stay competitive in the market. Further, we may pursue opportunities in the manufacturing of aluminium components for electric vehicles in the passenger vehicle market. With our existing forging machinery and certain additional investment in processes, we may explore manufacturing steering arms, knuckles, suspension parts, and powertrain components specifically tailored for the electric vehicle market.

Increase our wallet share and acquire new business by leveraging existing OEM relationships and adding new customers

We are focused on leveraging long-standing relations with our existing OEMs and adding new customers to increase our wallet share across our products. As of March 31, 2023, 2022 and 2021, customers who have been associated with for more than 10 years contributed 75.98%, 79.38% and 80.67% to our revenues from sale of products in Fiscal 2023, 2022 and 2021, respectively. We endeavour to deliver quality products and services to our existing customers to establish ourselves as a trusted supplier and increase our wallet share by selling across multiple products. For example, we recently started supplying 195 kilograms front axle beams to an Indian automotive manufacturing company for their electric buses. This new customer addition allows us to expand our customer base and increase our revenue streams, while also establishing ourselves as a supplier for electric buses. The following table sets forth details of customers we served in the relevant years/ periods:

End-Use Industry	Customers				
	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Automotive					
Commercial Vehicles	14	13	10	12	9
Non-Automotive					
Farm equipment	24	21	21	19	21
Off-highway	4	4	5	4	4
Industrial*	24	19	19	24	19
Total	66	57	55	59	53

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

The table below sets forth details regarding our total number of customers as well as new customers:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Total Customers	66	57	55	59	53
New Customers	8	7	3	1	-

Further, of 48 customers we served in Fiscal 2020, we did not serve 8 customers in the last three Fiscals.

We intend to target new business from global customers who were earlier importing from China and Europe, as

well as new business from the global counterparts of our existing customers. Apart from catering to automotive demand from these countries, we plan to cater to the demand of products that have applications in industries such as defence, oil and gas, power generation and wind turbine in the export market. We further endeavour to ensure that new business opportunities are margin accretive, by expanding our capabilities by adding new solutions for heavy transmission gear cutting in machining and foraying into heavy forgings up to one tonne, thereby expanding our range of forgings from 250 kilograms to one tonne.

Additionally, we intend to explore opportunities in light-weight forging and machining, particularly aluminium forging and machining, to cater to the growing demand for lightweight components in the automotive and other industries such as aerospace and defence. For further information, see “– *Foray into lightweight forging and machining with introduction of aluminium components*” on page 238. Our intention to foray into light-weight forgings will enable us to expand our customer base and cross-sell such products to our existing customers.

Capitalise on increasing demand from international markets to grow exports

Our business footprint reaches across geographies and as of September 30, 2023, we served customers across nine countries including Brazil, Italy, Japan, Spain, Sweden, Thailand, Turkey, the United Kingdom and the United States of America. The tables below set forth details of the countries where we exported our products and revenues generated for the years/ periods indicated:

Country	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India
Brazil	128.86	9.31%	59.21	6.82%	17.49	3.64%
Italy	262.48	18.97%	203.12	23.40%	103.53	21.52%
Spain	218.38	15.78%	113.29	13.05%	0.02	0.00%
Sweden	346.03	25.01%	224.28	25.83%	154.68	32.15%
Turkey	275.00	19.88%	259.59	29.90%	85.76	17.83%
Japan	-	-	0.28	0.03%	2.34	0.49%
United States of America	86.26	6.23%	5.64	0.65%	117.23	24.37%
United Kingdom	66.50	4.81%	-	-	-	-
Thailand	-	-	2.74	0.32%	-	-
Revenue from Contract with Customers Outside India	1,383.51	100.00%	868.14	100.00%	481.05	100.00%

Country	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India
Brazil	38.65	3.02%	78.85	12.57%
Italy	208.79	16.33%	117.88	18.80%
Spain	155.56	12.16%	114.54	18.26%
Sweden	173.65	13.58%	176.62	28.16%
Turkey	137.76	10.77%	117.32	18.72%
Japan	-	-	0.01	0.00%
United States of America	30.85	2.41%	20.28	3.23%

Germany	0.55	0.04%	-	-
Revenue from Contract with Customers Outside India	1,278.80	100.00%	627.12	100.00%

As per the Ricardo Report, India is poised to become a global hub for manufacturing, driven by a confluence of factors such as the China plus one strategy, the Ukraine-Russia crisis, high production costs in Europe, and the India's status as the lowest-cost producer in the world after China. In particular, the European market also provides significant opportunities for growth for Indian component manufacturers as key European suppliers of traditional critical engine parts are witnessing significant cost pressures due to a shift in business from internal combustion engines to electric vehicles (*Source: Ricardo Report*). The demand for ICE components are increasingly shifting to India as several tier one suppliers in developed regions like Europe and USA have discontinued investing in the ICE design and development due to the plan of the OEMs to transition towards EVs (*Source: Ricardo Report*). This will further create opportunity for ICE engine components exports to Europe and US from India. Additionally, the robust manufacturing ecosystem, the easy availability of skilled labour and key raw materials, and strong government incentive schemes to promote 'Make in India' are all contributing to India's emergence as a global manufacturing hub (*Source: Ricardo Report*). We recognize the immense opportunity presented by this rapidly evolving landscape and we are committed to leverage our engineering and machining strengths to tap into this opportunity.

We aim to leverage the increasing demand from international markets to enhance our exports. This approach not only enables us to diversify our revenue base and expand our geographical footprint, but it also has the potential to improve our margins. We believe that as we expand our exports to international markets, we will be able to take advantage of the increased margins associated with these markets and improve our profitability. Furthermore, our strategy of diversifying our revenue base and expanding our geographical footprint helps us mitigate the risks associated with economic fluctuations in any one region.

Our revenue from contract with customers outside India increased from ₹481.05 million in Fiscal 2021 to ₹868.14 million in Fiscal 2022 and further to ₹1,383.51 million in Fiscal 2023. Further, our revenue from contract with customers outside India was ₹1,278.80 million in the six months ended September 30, 2023 as compared to ₹627.12 million in the six months ended September 30, 2022. We served seven, seven, six, seven and five international customers during Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, respectively, of which, forged products were sold to nil, one, two, nil and nil international customers, contributing to nil, ₹2.72 million, ₹117.23 million, nil and nil in Fiscal 2021, 2022 and 2023 and in the six months ended September 30, 2023 and 2022, respectively and machined products were sold to seven, six, four, seven and five international customers, contributing to ₹1,383.51 million, ₹865.42 million, ₹363.82 million, ₹1,278.80 million and ₹627.12 million in Fiscal 2021, 2022 and 2023 and the six months ended September 30, 2023 and 2022, respectively. We further believe that there exist significant opportunities to cross-sell our products and offer the same product to additional locations of our existing customers with the help of our long-standing relationships with our customers and established manufacturing capabilities. For example, in the past, we commenced supplying crankshafts to a manufacturer of off-highway vehicles and gears and pinion shafts to a manufacturer of gearbox for wind turbine and then we expanded our business with their counterparts in different geographical regions outside India.

Expand capacity at our existing manufacturing facilities

As of the date of this Prospectus, we operate three manufacturing facilities with two facilities located at Kanganwal in Ludhiana, Punjab and one located at Dugri in Ludhiana, Punjab. While one of the manufacturing facilities at Kanganwal in Ludhiana, Punjab is dedicated to our forging operations, the other two manufacturing facilities are equipped with both forging and machining capabilities. For further information, see “– *Manufacturing – Facilities*” on page 253.

We propose to purchase new machineries and equipment to build up additional capacity for our forging and machining operations from the Net Offer Proceeds. Some of the machineries that we intend to purchase are (i) hot forging press type GLF 10000R; and (ii) automatic die holder, cassettes & die change system for forging press type GLF 10000 R. For more information on the machineries and equipment proposed to be purchased, see “– *Objects of the Offer – Purchase of equipment, plant and machinery*” on page 118. Some of these new machineries will allow us to provide contingent backup to existing customers who we serve with our 8,000 and 14,000 tonne presses. The installation of new machinery and equipment will enable us to increase our production capacity, scale our operations, onboard new customers, introduce new products, better serve our existing customers, enable us to better address the business requirements of large customers, further improve our customer service and facilitate our growth strategy. In addition, we are also in the process of commissioning a new 6,300 tonne forging press line, which is expected to be installed by June, 2024.

Continue to reduce operating costs and improve operational efficiencies

As an integral part of our continuing efforts targeted at ensuring cost efficiencies, we have undertaken certain initiatives aimed at improving operational efficiencies and optimizing our manufacturing operations. These include:

- *Line automation and robotics.* We have invested in line automation and robotics to replace human workers in performing repetitive tasks, leading to a reduction in labour costs and an increase in production efficiency. As of March 31, 2023, we had 10 robots installed across all our manufacturing facilities. The implementation of robotics at our 14,000 tonne forging press line has resulted in a reduction of 20 manpower requirements as compared to other forging press lines without robotics.
- *Installation of solar panels:* We have installed solar panels in our manufacturing facilities to reduce our reliance on traditional sources of energy. This has led to a reduction in operating costs. For instance, we have installed a 5 MW solar power plant at all of our manufacturing facilities. In Fiscal 2023, Fiscal 2022 and Fiscal 2021 and the six months ended September 30, 2023 and 2022, we consumed 98.81 million, 87.38 million, 67.75 million, 59.42 million and 50.41 million of electricity units, of which, 4.29 million, 0.56 million, nil, 1.29 million and 2.93 million of electricity units were sourced from solar power plants, respectively.
- *Reduction in lead-time in manufacturing processes.* We have implemented measures to reduce lead-time in our manufacturing processes, such as optimizing production processes and reducing rework. This has led to an increase in production efficiency. For example, we used to grind the pin and journal separately to meet the desired specifications but now we can do both steps at the same time using advanced grinding technology. This has helped us reduce the cycle times. In addition, we invested in CAD and CAM software, as well as forging simulation software. These tools help us develop dies and product samples offline. By simulating the forging process, we are able to design and optimize our dies virtually, thus avoiding costly and time-consuming re-work.
- *Leveraging our sourcing networks.* We have leveraged our sourcing networks to control raw material costs through bulk purchases, leading to a reduction in material costs and an increase in production efficiency. In the Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, we received a discount of ₹113.31 million, ₹115.67 million, ₹71.10 million, ₹72.97 million and ₹60.93 million from our steel suppliers.
- *Improving inventory management.* We have improved our inventory management to optimize transportation costs and streamline raw materials procurement and product delivery. This has led to a reduction in transportation costs and an increase in production efficiency.
- *Controlling consumption and wastages.* We have implemented effective supervision of manufacturing processes to control consumption and wastage, leading to a reduction in material costs and an increase in production efficiency. In addition, we have installed a 1,600 kAVR hybrid APFC panel at all of our manufacturing facilities to minimize energy waste and improve the power factor (ratio of real power (used to perform work) to apparent power (total power supplied)) for our manufacturing facilities. In Fiscal 2023, the average power factor was 0.97, 0.99 and 0.98 for our Kanganwal Facility I, Kanganwal Facility II and Dugri Facility respectively.

We are committed to further optimize production processes, by improving engineering capability, debottlenecking our critical production processes, increasing the flexibility of our manufacturing system and minimizing scrap during production. We will also strive to increase the level of automation of our manufacturing facilities to cope with growing labour costs.

Grow inorganically through strategic acquisitions and alliances

In terms of strategic acquisitions, we intend to explore and consider opportunities that can create synergies between the target companies and us and are in line with our growth strategy. In the past, we purchased and relocated certain assets to strengthen our capabilities. For example, in 2008, we purchased and relocated a crankshaft production line from an automotive manufacturer from Sweden through a trading firm to manufacture crankshafts for various applications. Similarly in 2022, we purchased and relocated machineries used to manufacture crankshaft from another automotive manufacturer from Germany through another trading firm.

We plan to target entities that expand our opportunities in other end-markets, geographic regions, new customers and new products. We intend to maintain a disciplined approach to acquisitions and consider various selection criteria such as skills of the management team, operation scale, technological capability, product portfolio, customer base, end-market exposures, valuation and estimated costs, as well as cultural fit. We believe that our long-standing customer relationships, financial strength and manufacturing capabilities will enable us to identify and secure appropriate acquisition opportunities in the future. As of the date of this Prospectus, we have not identified any specific acquisition targets or entered into any binding agreements in relation to any potential acquisition.

BUSINESS OPERATIONS

We manufacture and supply a wide range of heavy forged and high precision machined components with closed tolerances (as low as 0.005 to 0.2 millimetre) that are critical for engine, transmission suspension, braking and chassis for the commercial vehicles in the automotive sector. We also manufacture and supply a wide range of precision components for non-automotive sector, particularly for the manufacturers of farm equipment, off-highway vehicles and industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries. The tables below set forth a breakdown of our revenue from sale of products from forging and machining for the years/ periods indicated:

Particulars	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Revenue from Sale of Forged Products	2,277.15	21.34%	1,935.15	24.63%	1,485.38	27.12%
Revenue from Sale of Machined Products	8,392.33	78.66%	5,920.50	75.37%	3,992.02	72.88%
Revenue from Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%

Particulars	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Revenue from Sale of Forged Products	967.28	15.83%	1,203.68	22.82%
Revenue from Sale of Machined Products	5,144.31	84.17%	4,069.98	77.18%
Revenue from Sale of Products	6,111.59	100.00%	5,273.66	100.00%

The table below sets forth the details regarding the production volume of the machined and forged products in the relevant years/ periods:

Products	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
Actual Production (in MT)					
Machined Products					
Crankshaft	17,227.00	13,299.00	11,574.00	10,154.34	8,282.40
Others ⁽¹⁾	17,637.00	14,482.00	9,244.00	10,845.43	8,699.41
Total	34,864.00	27,781.00	20,819.00	20,999.77	16,981.81
Forged Products⁽²⁾⁽³⁾	59,187.00	54,516.00	40,451.00	35,237.43	29,812.46

⁽¹⁾ Others include machining of products such as front axle beam, steering knuckle, differential case, brake flange, suspension bracket, planetary carrier, pinion shaft, housing, bush, connecting rod, camshaft, piston pin, valve body, shafts, crown wheel and ring gears.

⁽²⁾ Forged products include forging of brake flange, bush, camshaft, crankshaft, connecting rod, crown wheel, differential case, housing, planetary carrier, pinion shaft, piston pin, ring gear, shafts, steering knuckle, suspension bracket and valve body.

⁽³⁾ Includes forging of products which underwent machining subsequently.

In order to increase our share of business with customers, we typically enter into a new customer relationship with one or a few products to demonstrate the quality and efficiency of our products before seeking to strengthen our relationship by expanding into other products, which results in overall business growth. The products that we manufacture for various end-use industries in the automotive and non-automotive sectors, are as follows:

End-Use Industry	Products Supplied
Automotive	
Commercial Vehicles	Brake Flange, Crankshaft, Crown Wheel, Differential Case, Front Axle Beam, Pinion Shaft, Ring Gear, Shafts, Steering Knuckle and Suspension Bracket
Non Automotive	
Farm equipment	Crankshaft, Crown Wheel, Differential Case, Pinion Shaft, Ring Gear, Shafts and Suspension Bracket
Off-highway	Crankshaft, Crown Wheel, Differential Case, Housing, Planetary Carrier, Pinion Shaft, Shaft and Suspension Bracket
Industrial*	Bush, Camshaft, Connecting Rod, Crankshaft, Crown Wheel, Differential Case, Housing, Planetary Carrier, Pinion Shaft, Shafts, Suspension Bracket and Valve bodies

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

The tables below set out a breakdown of products by weight and their corresponding revenue contribution in the years/periods indicated:

Range of Products in terms of their weight	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Sale of Products (%)	Amount (₹ million)	Percentage of Revenue from Sale of Products (%)	Amount (₹ million)	Percentage of Revenue from Sale of Products (%)
Less than 10 kilograms	2,461.92	23.07%	2,264.05	28.82%	1,412.67	25.79%
Between 10 kilograms to 30 kilograms	3,655.35	34.26%	2,669.82	33.99%	1,821.94	33.26%
Between 30 kilograms to 50 kilograms	4,085.82	38.30%	2,649.78	33.73%	2,041.80	37.28%
More than 50 kilograms	466.39	4.37%	272.01	3.46%	200.98	3.67%

*Others products include front axle beam, steering knuckle, differential case, brake flange, suspension bracket, planetary carrier, pinion shaft, housing, bush, connecting rod, camshaft, piston pin, valve body, shafts, crown wheel and ring gears.

Details of some of our products that we manufacture are as follows:

Crankshaft: The crankshaft is a critical part in an engine's assembly that is connected to the piston on one side and the flywheel on the other (*Source: Ricardo Report*). A crankshaft converts reciprocating motion of the pistons into rotational motion for the flywheel, which is in turn connected to the axles to put the vehicle in motion (*Source: Ricardo Report*).

While we manufacture crankshafts based on the design specification of our customers, we also offer customization to meet the specific needs of our clients. We inspect our crankshafts with modern machineries like coordinate measuring machines which allow us to measure the dimensions of complex parts accurately, an adcole cylindrical coordinate measuring machine and ultrasonic hardness tester specifically for crankshafts and metallurgical lab equipment. We leverage our manufacturing capabilities and technology to deliver single cylinder to six cylinder crankshafts with a weight range of 10 kilograms to 210 kilograms for commercial vehicles, farm equipment, off-highway vehicles and power generation industries.

Differential case: A differential is a case of gears that sits between the axles in the front or rear of a vehicle. Differentials divide the power from the engine between the axles, allowing each wheel to be driven. Full-time 4-wheel drive and all-wheel drive vehicles have a third, centre differential, allowing the front and rear driveshafts to rotate at different speeds. Differentials allow the wheels to turn at different speeds, which is critical for safety.

and vehicle longevity. We forge and machine differential cases with a weight range of 5 kilograms to 40 kilograms per piece and maintaining its wall thickness within specified parameters.

Front Axle Beam: The front axle beam is a crucial component of a vehicle's suspension system (*Source: Ricardo Report*). It is responsible for supporting the weight of the front end of the vehicle and connecting the front wheels to the vehicle's frame (*Source: Ricardo Report*). The front axle beam is typically made of steel and is drop-forged to give it the necessary strength to withstand the weight of the vehicle and the stresses of driving (*Source: Ricardo Report*). We forge front axle beams with a weight range of 70 kilograms up to 195 kilograms.

Steering Knuckle: A steering knuckle is a part of the front suspension system in a vehicle that contains the wheel hub or spindle and attaches to the suspension and steering components (*Source: Ricardo Report*). The steering knuckle connects the steering system to the front wheels and provides the pivot point for the wheels to turn left or right (*Source: Ricardo Report*). We forge steering knuckles with a weight range 27 kilograms to 45 kilograms.

Planetary Carrier: A planetary carrier is a part of an automatic transmission or other gear reduction system that helps control how power is transmitted from the engine to the wheels (*Source: Ricardo Report*). It's like a hub with arms that hold smaller gears called planet gears (*Source: Ricardo Report*). These gears rotate around a central gear called the sun gear, which is connected to the engine (*Source: Ricardo Report*). The outer ring gear is connected to the wheels and meshes with the planet gears to transfer power to the wheels. The planetary carrier helps to change the gear ratio, which affects how fast the wheels turn in relation to the engine's speed (*Source: Ricardo Report*). By locking or releasing different parts of the planetary gear set, different gear ratios can be achieved, allowing for smooth and efficient operation of the transmission or other gear reduction system (*Source: Ricardo Report*).

Use cases for planetary carriers include automatic transmissions in cars, trucks, and other vehicles, gearbox for windmill, as well as gear reduction systems in industrial equipment, such as conveyor belts and cranes. They are also used in wind turbines and other renewable energy systems to help control the speed and output of the generator. We forge and machine planetary carrier with a weight range of 5 kilograms to 45 kilograms per piece.

Pinion Shaft: The pinion shaft is a component that connects to the wind turbine rotor and transmits the rotational energy to the gearbox, enabling optimal performance of the wind turbine (*Source: Ricardo Report*). Our pinion shafts are manufactured using processes such as spline cutting, ensuring precise and accurate design. We forge pinion shafts with a weight range of 84 kilograms to 200 kilograms per piece.

Housing: The housing is a protective casing that encloses and supports the internal components of the gearbox, safeguarding them against environmental factors and ensuring optimal performance (*Source: Ricardo Report*). We use advanced machines to achieve accuracy through broaching and spline cutting processes, ensuring the quality and durability of our wind turbine application products. We forge housing products with a weight range of 35 kilograms to 105 kilograms per piece.

Suspension Brackets and Brake Flanges: We manufacture suspension products, including forged brake flanges and rear axle suspension brackets. Suspension brackets play a crucial role in maintaining stability, absorbing bumps and vibrations, and providing a smooth ride for the vehicle whereas brake flanges are responsible for providing a stable and secure attachment for the braking components, allowing them to rotate smoothly and safely. We forge and machine suspension brackets with a weight range of 5 kilograms to 16 kilograms per piece.

Transmission Parts: We manufacture a wide range of high-quality transmission components, including crown wheel, ring gears and shaft. We offer components suitable for both manual and automatic transmissions. We forge transmission products with a weight range of 5 kilograms to 95 kilograms per piece.

Shafts

Crown Wheel

Ring Gear

Valve Body: A valve body is a critical component of a valve that controls the flow of fluid or gas through a pipeline. Our valve body is designed to withstand the harsh conditions of the oil and gas industry, including high pressures, temperatures, and corrosive environments. We use stainless steel to forge our valve bodies, which ensures that they can withstand extreme environmental conditions. Use cases for our valve bodies include oil and gas pipelines, chemical processing plants, and other industrial applications where the control of fluid or gas flow is critical. We forge valve bodies with a weight range of 45 kilograms to 90 kilograms per piece.

Railway Parts: Bush, Camshaft, Connecting rod and Piston Pin

- *Bush*: A type of bearing used to support a rotating shaft, such as those found in railway wagons and help to absorb shock and reduce wear between moving parts. The purpose of a bush in railway engineering is to prevent metal-to-metal contact, reduce wear and tear, and ensure smooth and efficient operation of railway components.
- *Camshafts*: It is a rotating shaft located inside the engine cylinder head. They control the opening and closing of the valves in an internal combustion engine.
- *Connecting rods*: It is component that connect the piston to the crankshaft in an internal combustion engine.
- *Piston pins*: It is a cylindrical metal pin that hold the piston to the connecting rod. They allow the piston to move freely while maintaining a secure connection between the piston and the connecting rod. Piston pins play a critical role in transmitting force from the piston to the connecting rod and the crankshaft.

We forge and machine railway products with a weight range of 5 kilograms to 40 kilograms per piece.

Bush

Camshaft

Connecting Rod

Piston Pin

Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation

The information relating to the annual installed capacity, average annual available capacity, actual production and capacity utilisation of our products included below and elsewhere in this Prospectus are based on various assumptions and estimates of our management that have been taken into account in the calculation of our capacity and the same has been certified by Anil Kumar Soni, independent chartered engineer. These assumptions and estimates include standard capacity calculation practice in the Indian forging and machining industry and capacity of other ancillary equipment installed at the relevant manufacturing facility. Assumptions and estimates taken into account for measuring installed capacities and the annual average available capacities include 300 working days in a year and 150 working days in the six months ended September 30, 2023 and 2022, at three shifts per day operating for 8 hours a day. Further, our manufacturing facilities at Dugri in Ludhiana, Punjab commenced operations during Fiscal 2022, therefore the information regarding its capacity for Fiscal 2021 has not been provided in the tables below. Undue reliance should therefore not be placed on our capacity information or historical capacity utilization information for our existing facilities included in this Prospectus. See “*Risk Factors – Other internal risks – Information relating to our annual installed capacity, annual average available capacity and the historical capacity utilization of our manufacturing facilities included in this Prospectus is based on various assumptions and estimates and future production and capacity utilization may vary*” on page 67.

The following tables set forth certain information relating to the annual installed capacity, annual average available capacity, actual production and capacity utilisation for forging for the years/ periods indicated:

As of/ For the year ended

Manufacturing

Facilities

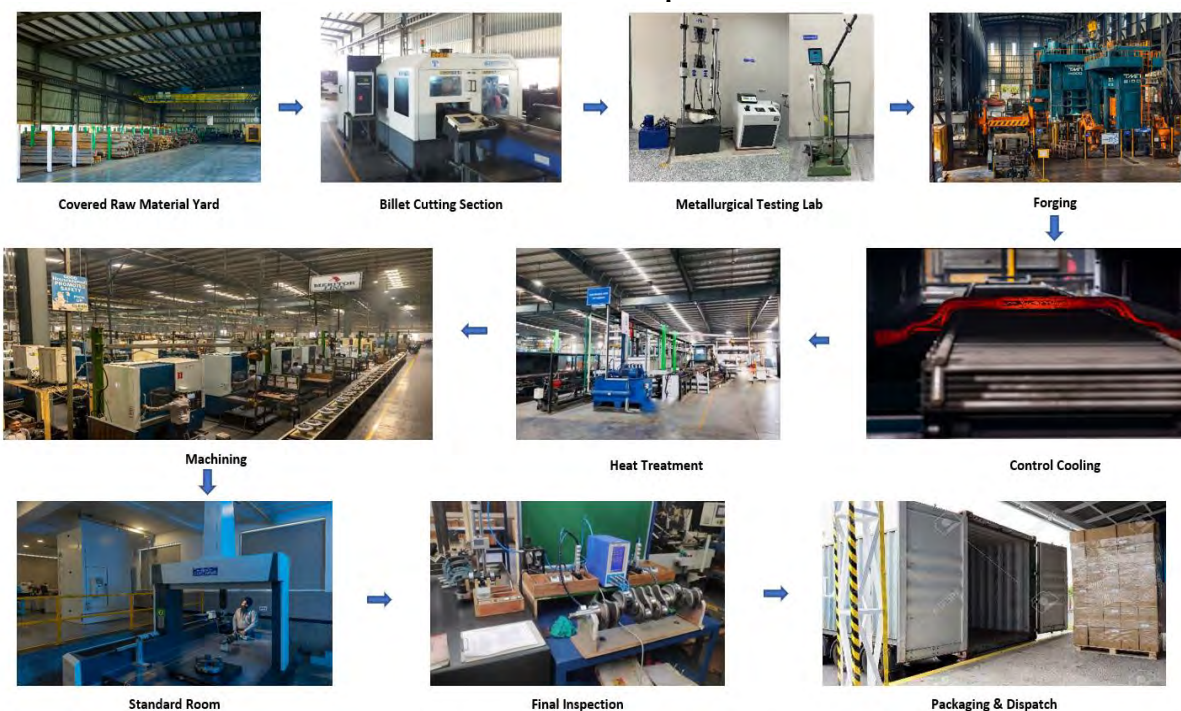

As of the date of this Prospectus, we have three manufacturing facilities, two of which are located at Kanganwal in Ludhiana, Punjab and one is located at Dugri in Ludhiana, Punjab. While our manufacturing facility at Kanganwal in Ludhiana, Punjab is dedicated to forging operations, our remaining facilities are equipped with both forging and machining capabilities. All our manufacturing facilities are operated 24 hours for six days a week (closed on Sunday), except on national holidays. The table sets forth below the products manufactured at our manufacturing facilities:

Manufacturing Facility	Products Manufactured	Address	Year of Commencement of Operation
Kanganwal Facility I	Machining and forging bush, connecting rod, differential case, camshaft, crankshafts and suspension bracket and machining of the products forged in the Kanganwal Facility II	Opposite Hindustan Tyres (Adjoining Waryam Steels), Kanganwal Road, P.O. Jugiana- Ludhiana- 141 120, Punjab	2006
Kanganwal Facility II	Forging of brake flange, bush, camshaft, crankshaft, connecting rod, crown wheel, differential case, housing, planetary carrier, pinion shaft, piston pin, ring gear, shafts, steering knuckle, suspension bracket and valve body	B-XXIX 2254/1, Kanganwal Road, P. O. Jugiana, Ludhiana – 141 120, Punjab	1995
Dugri Facility	Forging and Machining of brake flange, crankshaft, differential case, front axle beam, planetary carrier, pinion shaft, ring gear, steering knuckle, suspension bracket and valve body	H.B No.220, Post Office- Rajgarh, Village- Dugri, Ludhiana - 141421, Punjab	2021

Key Manufacturing Processes

Set forth below is a description of the key manufacturing processes for forged and machined components at our manufacturing facilities:

Raw Material to Dispatch

Forging: Our manufacturing process begins with steel bars, which are cut into smaller billets using sawing techniques. The billets are then heated to precise temperatures and subjected to a forging process, where the metal is pressed, pounded, or squeezed under high pressure to create high-strength parts with the required shape and size. Our forging capabilities include fully automated forging presses and hammers. Our equipment includes one 14,000 tonne mechanical forging press, three 8,000 tonne mechanical forging presses, one 4,000 tonne mechanical press, one 2,500 tonne forging screw press, one six tonne pneumatic hammer, and seven drop hammers ranging from 1.5 tonne to 4.5 tonne. We are also in the process of commissioning a new 6,300 tonne forging press line, which is expected to be installed by June, 2024.

Heat Treatment: Once the forged components are produced, they undergo a crucial heat treatment process to achieve the required specifications for microstructure and hardness, among other factors. At our manufacturing facilities, we utilize various types of furnaces such as continuous quenching and tempering line and special heat treatment lines for micro-alloy grades. Some of our components also undergo heat treatment during the machining process to achieve specific microstructure, and hardness. Our heat treatment operations are equipped with the advanced technology and equipment to provide precise and effective heat treatment processes for our products. Our manufacturing facilities include:

- Two lines for continuous hardening and tempering quench type furnace with a capacity of 4 tonne per hour. This furnace is equipped with an instrumentation panel for temperature controls and recording. It also features SCADA software with data logging and history recording capabilities.
- One line of ultra-modern hardening and tempering furnace with polymer quenching facilities and a capacity of two tonne per hour. This furnace utilizes advanced technology to ensure precise and consistent heat treatment processes.
- Six controlled cooling lines on each of our press lines to aid quality of micro-alloy grades.

Shot Blasting: After the forging process, our components undergo further operations, such as shot blasting, which is a surface treatment process. Shot blasting involves directing high velocity steel abrasive shots in a controlled manner onto the surface that needs to be treated. This method is effective in achieving excellent cleaning and surface preparation for subsequent finishing operations. Shot blasting is an essential step in our manufacturing process, as it ensures that our components have a clean and uniform surface, free from any contaminants or imperfections. This process also enhances the adhesion of subsequent coatings or finishes, ensuring that our components have a long-lasting and durable finish.

Machining: Machining is a critical process that involves transforming raw forgings into finished components with precise specifications in terms of size, shape, and other performance parameters. Machining operations are typically divided into two phases, each distinguished by purpose and cutting conditions:

- **Roughing:** This process is used to remove large amounts of material from the starting work-part, usually a forging, as rapidly as possible. It produces a shape close to the desired form but leaves some material on the piece for subsequent finishing operations.

- **Finishing:** This process is used to complete the part and achieve the final dimensions, tolerances, and surface finish.

At our manufacturing facilities, we have crankshaft machining lines capable of producing the entire crankshaft, starting from the forge stage to fully finished stage. These crankshaft machining lines feature a line-up of machines including turning, milling, oil hole drilling, grinding, and super lapping. In addition, we have machining capabilities (such as turning, drilling, and grinding machines) for products such as steering knuckles, axle beams, and differential cases. Apart from full finishing capabilities, we also carry out rough machining of transmission parts for a variety of applications and we utilize turning and milling machines to accomplish this.

Surface Treatment: Our parts undergo specific surface treatments to enhance their performance and durability. These treatments include phosphating, dip painting and spray painting which provide improved product life, wear resistance, surface finish, and corrosion resistance.

Inspection and Quality Control: We prioritize quality control and inspection to ensure that all our products meet the required quality. We have a set of tools and equipment to verify the integrity of the products manufactured as per control plans. To achieve this, we have set up a metrology room equipped with advanced machines such as coordinate measuring machines which allow us to measure the dimensions of complex parts accurately; a contracer cum roughness tester for checking roughness on the fillet area of crankshafts; a trimos master height gauge to measure the height of products; an adcole cylindrical coordinate measuring machine and ultrasonic hardness tester specifically for crankshafts; and a contamination measurement kit to ensure that our products meet the required quality. In addition, we also perform a non-destructive testing, which helps us detect any defects in our products without damaging them.

Adcole Cylindrical Coordinate Measuring Machine

Trimos Master Height Gauge

Die-Design and Manufacturing

In addition to the aforesaid, our manufacturing facilities are equipped with CNC vertical machining, enabling us to manufacture high-precision dies with accuracy and efficiency. By having control over the die design process, we are able to produce complex components and intricate designs with closed tolerances, ensuring that our products meet the required designs and specifications. Further, to reduce manufacturing and development lead times and ensure repeatability when dies are re-cut after specified die runs, we have invested in various CAD and CAM software like Uni Graphics, Solid Works and Work NC. Our 3D simulation software such as Vera CAD and Forge Nxt 21 Transvalor allows us to develop parts offline and optimize the forging process for better utilization of forging equipment and material.

Metallurgical Testing

We use advanced metallurgical testing equipment to maintain product quality. This includes a Thermo Fisher spectrometer for elemental analysis of our raw materials and finished products, an olympus digital microscope for high-resolution imaging, and a Spectro analytical instrument for real-time material composition analysis. We also use image analysis software and a microscope for microstructure analysis, and perform tensile and impact testing for mechanical properties. Non-destructive testing is done with an ultrasonic metascope, and we have digital hardness testing machines for Rockwell, Brinell, and Vickers hardness. Additionally, we use eddy current, ultrasonic, and magnetic particle inspection testing to detect surface cracks and defects.

Sales and Marketing

Customer Acquisition Process

We undergo through a vendor selection process with our customers, which can take up to three years from the date of issue of a request for quote (“RFQ”) to secure business. During this process, we are required to submit a technical proposal that includes product features, performance specifications, compliance with legal and regulatory requirements, proposed development timeline, product validation plan, performance and durability expectations. We may also be required to develop and supply concept prototypes for the customer based on initial design plans.

Once our prototype is confirmed to have met the customer's specifications and clears the testing phase, we receive firm orders. We invest in securing new customer relationships through this intense, time-consuming, and costly vendor selection process as it enables us to better understand our customers’ design and performance needs and demonstrate our capabilities in providing technologically advanced customized solutions for developing critical components.

If we are successful in converting the RFQ process into firm orders, it generally leads to a long-term relationship with the customer as the cost to the customer of switching vendors after qualification in the RFQ process is typically high. As of September 30, 2023, our relationship with our top 10 customers ranges from 10 years to 21 years. For

further information regarding the commencement of relationship and length of relationship with our top 10 customers, see “– *Competitive Strengths – Long-standing relationships with customers across industries*” on page 230.”

Customer Agreements:

We typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit. Pursuant to the purchase order, our customers provide us the quantities of units to be supplied along with the delivery schedules specifying the details of delivery. Further, we have purchase and supply agreements with some of our customers. These agreements set forth the terms of sales but do not bind these customers to any specific products, specifications, purchase volumes or duration and can be terminated by these customers with or without cause and without compensation. Under the purchase and supply agreement, these customers provide us only with forecast volume for the product and there is no commitment on the part of the customer to purchase the quantities specified in the volume projections. For further information, see “*Risk Factors – Internal risks relating to business, operations and industry and other key risks – We do not have agreements having commitment on part of our customers to purchase or place orders with us. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.*” on page 38.

The purchase orders are typically subject to conditions such as ensuring that all products delivered to the customer have been inspected and will be safe for use, that orders will be fulfilled according to predetermined delivery schedules and that all products will be built to customer specifications. Some of our customers, under their respective purchase and agreements, have the right to check and verify our relevant manufacturing systems processes, which may include inspection of the manufacturing facilities, review of the manufacturing processes and review of the raw materials. Further our purchase and supply agreements contain a warranty provision which warrants conformity of products to specifications, drawings, samples or descriptions furnished by the customers and further warrants that products delivered will be merchantable, of good material and workmanship and free from defects.

Sales and Marketing Team

Our sales and marketing team focuses on developing customer relationships and identifying and acquiring new customers and generating business opportunities.

Customers

Our OEM customers include some of the leading Indian and global OEMs. We have strong and long-standing relationships with most of our customers. Some of our customers across the end-use industries we supply to are as follows:

Sector/End-use Industries	Customers
Automotive	
Commercial Vehicles	Ashok Leyland Limited, VE Commercial Vehicles Limited, Meritor HVS AB, Meritor Heavy Vehicle Systems Cameri SPA, AAM India Manufacturing Corporation Private Limited, SML ISUZU Limited and Mahindra & Mahindra Limited
Non-Automotive	
Farm equipment	Escorts Kubota Limited, International Tractors Limited, Yanmar Engine Manufacturing India Private Limited, Same Deutz Fahr India Private Limited and Swaraj Engines Limited
Off-highway	Watson & Chalin India Private Limited (Hendrickson India Commercial Vehicle Systems), JCB India Limited and Dana India
Industrial*	Tata Cummins Private Limited, Bonfiglioli Transmissions Private Limited, IBCC Industries (India) Private Limited, Liebherr CMCTec India Private Limited and IGW India Technologies Private Limited

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

For further information on the risks associated with customer concentration, see “*Risk Factors – Internal risks*”

relating to business, operations and industry and other key risks – Our business largely depends upon our top 10 customers. In Fiscal 2023, 2022, 2021 and in the six months ended September 30, 2023 and 2022, our revenue from top 10 customers was ₹8,384.81 million, ₹6,418.99 million, ₹4,634.06 million, ₹4,610.83 million, and ₹4,286.12 million, representing 70.08%, 74.64%, 79.22%, 68.52% and 71.46% of our revenue from operations. The loss of any of these customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.” on page 37.

In our experience, our OEM customers typically have time-consuming selection, inspection and review procedures for procurement of components from manufacturers. These procedures include review of the manufacturer’s expertise, available manufacturing facilities, processes, financial capabilities and logistical capabilities. For further information, see “Our Business– Customer Acquisition Process” on page 256.

Our business footprint spans across geographies and as of March 31, 2023, we served customers in over nine countries. The table below sets forth details of our exports and revenues from contract with customers outside India for the years/ periods indicated:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Number of Countries to which we supplied during the Fiscal	7	8	7	8	8
Revenue from Contract with Customers outside India (₹ million)	1,383.51	868.14	481.05	1,278.80	627.12
Revenue from Contract with Customers Outside India as a percentage of Total Revenue from Contract with Customers (%)	12.89%	10.94%	8.77%	20.75%	11.87%

The tables below set forth details of the countries where we exported our products and revenues generated for the years/ periods indicated:

Country	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers outside India
Brazil	128.86	9.31%	59.21	6.82%	17.49	3.64%
Italy	262.48	18.97%	203.12	23.40%	103.53	21.52%
Spain	218.38	15.78%	113.29	13.05%	0.02	0.00%
Sweden	346.03	25.01%	224.28	25.83%	154.68	32.15%
Turkey	275.00	19.88%	259.59	29.90%	85.76	17.83%
Japan	-	-	0.28	0.03%	2.34	0.49%
Unites States of America	86.26	6.23%	5.64	0.65%	117.23	24.37%
United Kingdom	66.50	4.81%	-	-	-	-
Thailand	-	-	2.74	0.32%	-	-
Revenue from Contract with Customers Outside India	1,383.51	100.00%	868.14	100.00%	481.05	100.00%

Country	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India	Amount (₹ million)	Percentage of Revenue from Contract with Customers Outside India
Brazil	38.65	3.02%	78.85	12.57%
Italy	208.79	16.33%	117.88	18.80%
Spain	155.56	12.16%	114.54	18.26%

Revenue from Contract with Customers Outside India	1,278.80	100.00%	627.12	100.00%

For further information relating to our relationship with key customers, see “– *Competitive Strengths – Long-standing relationships with customers across industries*” on page 230.

Raw Materials and Suppliers

Our primary raw material is steel. We procure raw materials from our suppliers based on purchase orders and we do not have any purchase agreements or firm commitments executed with them. We reserve the right to reject defective materials, and any warranty claims accepted by us for defective materials supplied by our suppliers are passed onto such suppliers. Further, we reserve the right to claim for our rejections that are the result of defective steel. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, the cost of raw materials and components consumed was ₹5,477.24 million, ₹4,358.47 million, ₹2,572.56 million, ₹3,209.12 million and ₹2,746.63 million, respectively, which represented 45.78%, 50.68%, 43.98%, 47.69% and 45.79% of our revenue from operations for the respective Fiscals/ periods. Further, in Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, cost of raw material (i.e., steel) sourced from our top supplier was ₹2,720.06 million, ₹2,227.32 million, ₹1,328.29 million, ₹1,940.50 million and ₹1,633.14 million respectively, representing 52.67%, 50.92%, 46.00%, 58.64% and 64.94% of the total cost of steel sourced during the relevant period. For further information, see “*Risk Factors – Internal risks relating to business, operations and industry and other key risks – We depend on a few suppliers for the supply of steel, our primary raw material. Further, we do not have definitive supply agreements with our suppliers for the supply of steel. Interruptions in the supply of steel could adversely affect our business, financial condition, results of operations and cash flows*” on page 39.

Our suppliers undergo a qualification process and performance rating to ensure that the supplied raw materials are of satisfactory quality. We select our suppliers based on their performance and delivery and quality rating.

Energy and Water

Our manufacturing processes require an uninterrupted and constant voltage power to ensure that the products are of high quality and also to increase the productivity and lifetime of our machines and equipment. We make arrangements for power purchase from local utilities, independent renewable power producers as well as captive power generation through rooftop solar and generator sets in all our manufacturing facilities. We have installed a 5 MW solar power plant at our three manufacturing facilities to utilise non-conventional energy sources. In Fiscal 2023, we consumed 98.81 million electricity units, of which, 4.29 million electricity units were sourced from solar power plant.

Our manufacturing processes require a certain amount of water, although they are not considered water-intensive. To meet this requirement, we primarily rely on outside resources or local utility companies. However, some of our manufacturing facilities, we use our own bore wells to meet our water needs. We are committed to water conservation efforts and have implemented various measures. These include rainwater harvesting, treating and

reusing domestic wastewater for landscape maintenance, and recycling the reject water from our RO system. Further, we have installed water level controllers to prevent overflow and minimize wastage, as well as water flow meters at distribution points and withdrawal points for daily monitoring to balance water withdrawal and consumption. For further information, see *“Risk Factors – Internal risks relating to business, operations and industry and other key risks – We have significant power and fuel requirements and any disruption to power or fuel sources could increase our production costs and adversely affect our business, financial condition, cash flows and results of operations”* on page 42.

Transportation

Our products are primarily shipped to our OEM customers. The choice of transportation mode for each shipment depends on several factors, including the urgency, size, and value of the order. For our domestic operations, we rely on third-party transportation modes, such as road and rail. For outbound overseas shipments, we use a range of third-party transportation modes, including road, air, and sea. We engage third-party logistics service providers to facilitate our transportation needs. For further information, see *“Risk Factors – Internal risks relating to business, operations and industry and other key risks – We are dependent on third parties for the transportation and timely delivery of our products to customers. Any failure by or loss of a third party transport service provider could result in delays and increased costs, which may adversely affect our business”* on page 51. Also, see *“Risk Factors – Internal risks relating to business, operations and industry and other key risks – Our delivery schedules and ability to supply products to our customers may be adversely impacted due to disruptions in transportations services on account of events such as natural disasters, pandemics, civil unrest and mass protests”* on page 52.

Quality Assurance and Quality Control

In the precision components manufacturing industry, maintaining strict quality standards is crucial to avoid defects and non-compliance with customer design specifications. Any such issues could result in order cancellations and damage to our reputation. To ensure compliance with quality standards and customer requirements, we have implemented a quality control mechanism. We examine the products at each stage of the manufacturing process to ensure that there are no defects from previous stages. Additionally, representatives from our customers inspect our manufacturing facilities typically once in a year and processes to ensure compliance with their specific requirements. As of September 30, 2023, we also have a separate team comprising 201 employees (including engineers) responsible for quality assurance. For further information, see *“Risk Factors – Internal risks relating to business, operations and industry and other key risks – We are subject to strict performance requirements, including, but not limited to, quality and delivery, by our customers, and any failure by us to comply with these performance requirements may lead to the cancellation of existing and future orders, recalls or warranty and liability claims”* on page 46.

Our manufacturing facilities have been certified in accordance with international standards of quality management systems such as IATF 16949:2016 and ISO 9001:2015; environmental management systems such as ISO 14001:2015 and occupational health and safety management systems such as ISO 45001:2018.

Human Resources

As of September 30, 2023, we had 3,070 permanent employees. The following table provides information about our permanent employees, as of September 30, 2023:

Particulars	Number
Accounts	29
Directors	5
Human Resource and Administration	122
IT	3
Maintenance	204
Marketing	5
Operations	2,677
Purchase and Stores	25
Total	3,070

Our Company also appoints independent contractors who in turn engage on-site contract labour for performance of certain of our ancillary operations. As of September 30, 2023, we had 116 contract labours.

As of September 30, 2023, of the total 3,070 employees, 1,432 were skilled labourers, 1,167 were unskilled labourers and 471 were employees other than skilled and unskilled labourers, involved in various manufacturing operations. The following table sets forth the attrition rate in the years/ periods indicated:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Number of Employees Resigned	821	935	760	384	491
Attrition Rate*	29.98%	38.49%	37.68%	12.84%	18.18%

*Attrition rate is calculated as overall exits including retired employees divided by average number of employees in the relevant period.

Our human resource practices are aimed at recruiting talented individuals, ensuring continuous development and addressing their grievances, if any, in a timely manner. We schedule learning and development programs for our employees. We believe in promoting leadership and bringing in new talent while creating opportunities. With this, we have bought graduate engineering trainees, executives and other executives, at the lateral level, through campus and direct recruitment. We train our employees in our manufacturing operations, including machine utilization, operations flow, quality management and work safety. Our human resource department continuously focuses on employee engagement and motivation, which further helps in achieving the strategic objectives of the organization.

Our employees are not unionised into any labour or workers' unions and have not experienced any major work stoppages due to labour disputes or cessation of work in the last three Fiscals and six months ended September 30, 2023. For further information, see *“Risk Factors – Other internal risks – Any disruption to the steady and regular supply of workforce for our operations, including due to strikes, work stoppages or increased wage demands by our workforce or any other kind of disputes with our workforce or our inability to control the composition and cost of our workforce could adversely affect our business, cash flows and results of operations.”* on page 64.

Health and Employee Safety

We endeavour to adhere to laws and regulations relating to protection of health and employee safety. We carry out our activities while following appropriate standards of work safety and our working conditions seek to promote a healthy and safe work environment. We have taken initiatives to reduce the risk of accidents and prevent environmental pollution at our manufacturing facilities, including: (i) ensuring that employee safety manuals covering employee safety and environmental procedures, are in place and that hazard identification and risk assessments with respect to our operations are periodically carried out; (ii) providing training and awareness programs on employee safety and environment to all employees, including training on machines and other operations at shop floors, and the use of first aid and other procedures to deal with emergencies; (iii) implementing regular employee safety audits, management review meetings and periodic employee safety meetings; and (iv) conducting periodic emergency mock drills in our facilities.

Environmental, Social and Governance

We place emphasis on our environmental, social and governance (“ESG”) initiatives. The following are some of our key ESG initiatives:

- *Environmental.* We are committed to being a responsible organization and have implemented the 3R process of ‘Reduce, Recycle and Reuse’ to minimize our environmental impact. Our climate action plan focuses on decarbonization, waste management, water harvesting and treatment, reducing emissions, and increasing our use of renewable energy sources. Some of the initiatives we have undertaken to achieve these goals include:
 - Replacing all oil fired furnaces on forging lines required for billet heating with electric heating systems resulted in reduction in use of furnace oil;

- Redesigning our heat treatment facility by replacing conventional use of low sulphur fuel oil with LPG lines;
 - Installing a 5 MW solar power plant at our three manufacturing facilities;
 - Installing a 1,600 kVAR Hybrid APFC panel to improve the power factor for our three manufacturing facilities, reducing energy wastage;
 - Replacing halogen lights with LED lights, resulting in a reduction in electricity consumption from 1.5 kw to 1.2 kw per light;.
 - Redesigning the layout of compressors and controlling leakages, enabling usage of half the compressors, resulting in electricity savings; and
 - Installing temperature controllers in cooling towers of each manufacturing facility to conserve electricity.
- *Social.* We believe in taking care of the society that we operate within. We endeavour to make positive socio-economic contributions. Some of the initiatives we have undertaken to achieve these goals include:
 - Donated for the procurement of a next gen sequencer machine for Dayanand Medical College and Hospital;
 - Donated towards setting up the oxygen plant in Christian Medical College and Hospital situated in Ludhiana, during the Covid-19 outbreak;
 - Constructed a school building for a government primary school at Kanganwal, Ludhiana, intending to provide quality infrastructure to the school students; and
 - Adopted a public park in Sarabha Nagar, Ludhiana, to take up the responsibility of its maintenance. Thus, contributing towards the conservation and preservation of the environment.
 - *Governance.* We have established policies and ethical standards that promote diversity and inclusivity within our organization. Our aim is to cultivate a work environment where employees feel safe and empowered to be their authentic selves, free from any form of discrimination. To encourage open communication, we have established an employee forum where individuals can share their thoughts and ideas. Additionally, we have a policy that allows employees to provide suggestions for continuous improvement. In the event of any grievances, we have a grievance redressal system in place to ensure that concerns are addressed and resolved in a timely and effective manner.

We have formed a Prevention of Sexual Harassment Committee, which addresses complaints and ensures time-bound redressal and actions against any complaints. We also train our employees on our Code of Conduct and instituted an anti-corruption policy for monitoring.

Intellectual Property

As of the date of this Prospectus, we have five registered trademarks under the Trademarks Act under various classes such as classes 7, 12 and 35. We have filed seven applications with the Registrar of Trademarks to register certain others trademarks including our new corporate logo . For further information, see “*Government and Other Approvals – Intellectual property*” on page 440. Also, see “*Risk Factors – Internal risks relating to legal and regulatory factors – We do not have trademark registration for our new corporate logo . If we are unable to register our corporate logo, we may not be able to protect or enforce our rights to own or use our corporate logo which could have an adverse effect on our business and competitive position.*” on page 58.

Competition

We face competition, both domestically and internationally, in relation to our products. Technology, price, design, quality, delivery, and engineering capabilities are the primary elements of competition in the forging and machining industry (*Source: Ricardo Report*). Our peers are Bharat Forge, Sona BLW Precision Forgings, Uno Minda, CIE Automotive, Craftsman Automation, Ramkrishna Forgings, Sansera Engineering, MM Forgings, Endurance and Cummin India (*Source: Ricardo Report*). While comparing for the revenue contribution from the sale of machined products, the peers considered are as follows: Bharat Forge, Craftsman Automation, RK Forging, Thyssenkrupp, American Axle & Manufacturing, Tianrun Crankshaft and Guilin FUDA. For more information on operational benchmarking and financial benchmarking, see “*Industry Overview – Competitive Landscape in India (Forging and Machining) – Operational Benchmarking*” and “*Industry Overview – Financial Benchmarking*” on pages 210 and 212, respectively.

We face competition from larger organisations who possess greater financial resources, patents, underutilized capacity, lower labour costs, lower tax rates, and export or raw materials subsidies. Despite this, we believe that our expertise in design and engineering, diverse product portfolio, flexibility to meet customers’ varying needs, and long-standing customer relationships give us a competitive edge.

For further information on risks related to competition, see “*Risk Factors – Internal risks relating to business, operations and industry and other key risks – Any failure to compete effectively in the highly competitive forged and machined components industry could have a material adverse effect on our business, financial condition, results of operations and cash flows.*” on page 45.

Information Technology

Our design and engineering facilities comprise IT enabled processes such as computer aided design, computer aided manufacturing and computer aided engineering facilities and design software. We have implemented SAP platforms encompassing business functions including production, materials, finance, inventory, maintenance, and human resource management. We make efforts to consistently upgrade our systems to ensure efficiency and business continuity.

For further information on risks related to our information technology, see “*Risk Factors – Other internal risks – Technology failures could disrupt our operations and adversely affect our business operations and financial performance*” on page 64.

Insurance

We maintain insurance cover for our properties, including protection from fire, burglary and theft. In addition, we maintain marine export import insurance open policy, marine open import declaration policy and marine open inland declaration policy to cover various risks during the transit of goods overseas, a public liability act policy to cover product liability risk, group accident guard insurance policy for our employees, group health (floater) insurance policies for our employees and insurance policies covering directors’ and officers’ liability. We believe that our insurance coverage is in accordance with industry custom, including the terms of and the scope of the coverage provided by such insurance. However, our policies are subject to standard limitations, including with respect to the maximum amount that can be claimed. For further information on risks related to our insurance policies, see “*Risk Factors – Internal risks relating to financials – Our insurance coverage may not be adequate or we may incur uninsured losses or losses in excess of our insurance coverage which may impact on our financial condition, cash flows and results in operations*” on page 54.

Properties

Our Registered Office is located at B XXIX – 2254/1, Kanganwal Road, P. O. Jugiana, Ludhiana – 141 120, Punjab, India. The land on which our Registered Office is located is owned by us. The land parcels on which our three manufacturing facilities in Ludhiana, Punjab are located, are also owned by us. The following table sets forth the details of our manufacturing facilities:

Manufacturing Facility	Address	Area (Square Feet)
Kanganwal Facility I	Opposite Hindustan Tyres (Adjoining Waryam Steels), Kanganwal Road, P.O. Jugiana- Ludhiana- 141120, Punjab	439,128.00
Kanganwal Facility II	B-XXIX 2254/1, Kanganwal Road, P. O. Jugiana, Ludhiana – 141120, Punjab	184,765.50
Dugri Facility	H.B No.220, Post Office- Rajgarh, Village- Dugri, Ludhiana - 141421, Punjab	1,771,208.46

The table below sets forth the details regarding the warehouses within the manufacturing facilities:

Warehouse	Area of Warehouse (Square Feet)
Kanganwal Facility I	30,050.00
Kanganwal Facility II	5,985.00
Dugri Facility	37,519.00

KEY REGULATIONS AND POLICIES IN INDIA

The following description is a summary of certain key statutes, rules, regulations, notifications, memorandums, circulars and policies which are applicable to our Company, and the business undertaken by our Company.

Taxation statutes such as the Income Tax Act, 1961, the Customs Act, 1962 and the relevant goods and service tax legislation apply to us as they do to any Indian company. For details of government approvals obtained by our Company, see “Government and Other Approvals” beginning on page 439.

The information detailed in this chapter, is based on the current provisions of key statutes, rules, regulations, notifications, memorandums, circulars and policies which are subject to amendments, changes and/or modifications. The information in this section has been obtained from publications available in the public domain. The description of the applicable regulations as given below has been provided in a manner to provide general information to the investors and may not be exhaustive and is neither designed nor intended to be a substitute for professional legal advice. The indicative summary is based on the current provisions of applicable law, which are subject to change or modification or amended by subsequent legislative, regulatory, administrative or judicial decisions.

INDUSTRY-SPECIFIC LEGISLATIONS APPLICABLE TO OUR COMPANY

The Legal Metrology Act, 2009 (the “Legal Metrology Act”) and The Legal Metrology (Packaged Commodities) Rules, 2011 (the “Legal Metrology Rules”)

The Legal Metrology Act, along with the Legal Metrology Rules, establishes and enforces standards of weights and measures, regulates trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or numbers. Any transaction relating to goods or a class of goods shall be as per the weight, measurements or numbers prescribed by the Legal Metrology Act. The Legal Metrology Act prohibits the manufacture, packing, selling, importing, distributing, delivering, offer for sale of any pre-packaged commodity if such does not adhere to the standard regulations set out.

The Legal Metrology Rules are ancillary to the Legal Metrology Act and set out to define various manufacturing and packing terminology. It lays out specific prohibitions where manufacturing, packing, selling, importing, distributing, delivering, offering for sale would be illegal and requires that any form of advertisement where the retail sale price is given must contain a net quantity declaration. Circumstances which are punishable are also laid out in the Legal Metrology Rules.

Fire prevention laws

The State legislatures in India have the power to endow the municipalities with the power to implement schemes and perform functions in relation to matters listed in the 12th Schedule to the Constitution of India, which includes fire prevention and firefighting services. The Punjab State Legislature has enacted fire control and safety regulations such as the Punjab Safety Measures for Prevention and Control of Fire Act, 2012, and the Punjab Fire Prevention and Safety Act, 2004 which are applicable to our Dugri Facility, Kanganwal Facility I and Kanganwal Facility II. These legislations include provisions in relation to fire safety and life saving measures by occupiers of buildings, procedure for obtaining no objection certificate and penalties for non-compliances.

Environmental laws

The Environment Protection Act 1986 (the “Environment Protection Act”) and Environment Protection Rules, 1986 (the “Environment Protection Rules”)

The Environment Protection Act was enacted to provide a framework for co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorises the central government to protect and improve environment quality, control and reduce pollution. The Environment Protection Act specifies that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environment pollutants in excess of such standards as prescribed. The contravention or failure to comply with the provisions of the Environment Protection Act may attract penalties in the form of

imprisonment or fine. Further, the Environment Protection Rules specifies, amongst others, the standards for emission or discharge of environmental pollutants, and restrictions on the handling of hazardous substances in different areas.

The Air (Prevention and Control of Pollution) Act, 1981 (the “Air Act”)

The Air Act was enacted and designed for the prevention, control and abatement of air pollution and establishes central and state boards for the aforesaid purposes. In accordance with the provisions of the Air Act, any individual, industry or institution responsible for emitting smoke or gases by way of use of fuel or chemical reactions must apply in a prescribed form and obtain consent from the state pollution control board prior to commencing any activity.

The Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”) and Water (Prevention and Control of Pollution) Cess Act, 1977 (the “Water Cess Act”)

The Water Act was enacted to provide for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water. Further, the Water Act also provides for the establishment of central pollution control board and state pollution control board with a view to carry out the aforesaid purpose. Any person establishing or taking steps to establish any industry, operation or process, or any treatment and disposal system or extension or addition thereto, which is likely to discharge sewage or trade effluent into a stream, well, sewer or on land is required to obtain the previous consent of the concerned state pollution control board.

In addition, the Water Cess Act was enacted to provide for the levy and collection of a cess on water consumed by persons carrying on certain businesses and by local authorities, with a view to augment the resources of the central board and state boards for the prevention and control of water pollution constituted under the Water Act.

The Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the “Hazardous Waste Rules”)

The objective of the Hazardous Waste Rules is to control the collection, reception, treatment and storage of hazardous waste. The Hazardous Waste Rules prescribes for every person who is engaged in generation, treatment, processing, package, storage, transportation, use, collection, destruction, conversion, recycling, offering for sale, import, export, transfer or the like of the hazardous and other wastes to obtain an authorisation from the relevant state pollution control board.

The E-Waste Management Rules, 2016 (the “E-Waste Rules”)

The E-Waste Rules apply to every producer or consumer or bulk consumer, amongst others, involved in transfer, purchase, collection, storage and processing of e-waste or electrical and electronic equipment. The E-Waste Rules obligate the aforesaid persons to channelize the e-waste generated through collection centre, or dealer of authorized producer or dismantler or recycler and maintain record of such e-waste generated. According to E-Waste Rules, the entities covered under the rules are required to get themselves registered with the concerned state pollution control board and to ensure that no damage is caused to the environment during the storage and transportation of e-waste.

The Public Liability Insurance Act, 1991 (“PLI Act”) and Public Liability Insurance Rules, 1991 (“PLI Rules”)

The primary objective of the PLI Act is to provide public liability insurance for the purpose of providing immediate relief to the persons affected by an accident occurring while handling any hazardous substance and for matters connected therewith or incidental thereto. The PLI Act imposes a duty on the owner, a person who owns or has control over handling hazardous substance at the time of accident, to take out insurance policies before manufacturing, processing, treating, storing, packaging or transporting hazardous substances, for any damage arising out of an accident involving such hazardous substances. The penalties for contravention of the provisions of the PLI Act includes imprisonment or fine or both. Further, the PLI Rules mandate that the owner contributes towards the Environmental Relief Fund for a sum equal to the premium paid on the insurance policies.

Other applicable laws

The Electricity Act, 2003 (“Electricity Act”)

The Electricity Act consolidates the laws relating to generation, transmission, distribution, trading and use of electricity. It lays down provisions in relation to transmission and distribution of electricity. It states that the Central Electricity Authority may in consultation with the State Government specify suitable measures for specifying action to be taken in relation to any electric line or electrical plant, or any electrical appliance under the control of a consumer for the purpose of eliminating or reducing the risk of personal injury or damage to property or interference with its use.

Laws related to Employment

We are subject to various labour laws for the safety, protection, condition of working, employment terms and welfare of labourers and/or employees of us.

The Contract Labour (Regulation and Abolition) Act, 1970, as amended (the “CLRA Act”)

In respect of our manufacturing facilities, we use the services of certain licensed contractors who in turn employ contract labour whose number exceeds 20 (twenty), subject to state amendments, in respect of certain facilities. Accordingly, we are regulated by the provisions of the CLRA Act, and the rules framed thereunder which requires us to be registered as a principal employer and prescribes certain obligations with respect to welfare and health of contract labour. The CLRA Act imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

The Factories Act, 1948 (“Factories Act”)

The Factories Act pertains to the regulation of labour in factories. The term ‘factory’ is defined as any premises where 10 or more workers are working, or were working on any day in the preceding 12 months, and in any part of which a manufacturing process is ordinarily carried on with the aid of power, or where 20 more workers are working, or were working on any day in the preceding 12 months, and in any part of which a manufacturing process is ordinarily carried on without the aid of power. The state governments are empowered to make rules requiring the registration or licensing of factories or any class of factories. The Factories Act requires the occupier of the factory to ensure, as far as is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

We are also subject to other laws concerning condition of working, benefit and welfare of our labourers and employees such as

- the Apprentices Act, 1961,
- the Child Labour (Prohibition and Regulation) act, 1986;
- the Employees (Provident Fund and Miscellaneous Provisions) Act, 1952;
- the Employees State Insurance Act 1948;
- the Equal Remuneration Act, 1976;
- the Industrial Disputes Act, 1947;
- the Industrial Employment (Standing Orders) Act, 1946;
- the Interstate Migrant Workmen Act, 1979;
- the Maternity Benefit Act, 1961;
- the Minimum Wages Act, 1948;
- the Payment of Bonus Act, 1965;
- the Payment of Gratuity Act, 1972;
- the Payment of Wages Act, 1936;
- the Public Liability Insurance Act, 1991;
- the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013;

- the Trade Unions Act, 1926; and
- the Workmen's Compensation Act, 1923.

In order to rationalise and reform labour laws in India, the Government has enacted the following codes:

- **Code on Wages, 2019**, which regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. It subsumes four existing laws, namely the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, and the Equal Remuneration Act, 1976.
- **Industrial Relations Code, 2020**, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.
- **Code on Social Security, 2020**, which amends and consolidates laws relating to social security. It governs the constitution and functioning of social security organisations such as the employees' provident fund and the ESIC, regulates the payment of gratuity, the provision of maternity benefits, and compensation in the event of accidents to employees, among others. It subsumes various legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, and the Payment of Gratuity Act, 1972.
- **Occupational Safety, Health and Working Conditions Code, 2020**, amends and consolidates laws regarding the occupational safety, health and working conditions of persons employed in an establishment. It subsumes various legislations including the Factories Act, 1948, and the Contract Labour (Regulation and Abolition) Act, 1970.

Certain portions of the Code on Wages, 2019 and Code on Social Security, 2020, have come into force upon notification by the Ministry of Labour and Employment. The remainder of these codes shall come into force on the day that the Government shall notify for this purpose.

Intellectual Property Laws

Intellectual property in India enjoys protection under both common law and statutes. Under statutes, India provides for trademark protection under the Trade Marks Act, 1999. These enactments provide for the protection of intellectual property by imposing civil and criminal liability for infringement.

Other Indian laws

In addition to the above, we are also governed by the provisions of the Companies Act and rules framed thereunder, relevant central and state tax laws, foreign exchange and investment laws and foreign trade laws and other applicable laws and regulation imposed by the central and state government and other authorities for over day to day business, operations and administration.

Our Company has not been party to any merger or amalgamation in the 10 years preceding the date of this Prospectus.

Shareholders' agreements

Details of subsisting shareholder's agreements among our shareholders *vis-a-vis* our Company, which our Company is aware of, as on the date of this Prospectus, are provided below:

Investment agreement dated August 22, 2018, as amended and modified pursuant to the letter dated September 14, 2018, December 27, 2018 and November 10, 2021 (collectively, the "Investment Agreement") executed amongst our Company, Paritosh Kumar, Ashish Garg, Ayush Capital & Financial Services Private Limited, India Business Excellence Fund – III, (a scheme of business excellence trust III and acting through its investment manager MO Alternate Investment Advisors Private Limited (formerly known as MOPE Investment Advisors Private Limited)) (the "Investor Selling Shareholder"), and Suman Garg, Paritosh Kumar Garg (HUF) (represented by its karta Paritosh Kumar), Megha Garg, Ashish Garg & Sons (HUF) (represented by its karta Ashish Garg) and Sheena Gupta (collectively, the "Other Shareholders") read with waiver cum amendment agreement dated August 11, 2023, executed by and amongst our Company, the Investor Selling Shareholder, Paritosh Kumar, Ashish Garg, Ayush Capital & Financial Services Private Limited and Other Shareholders (the "Amendment Agreement")

Our Company, Paritosh Kumar, Ashish Garg, Ayush Capital & Financial Services Private Limited, Other Shareholders and the Investor Selling Shareholder have entered into an Investment Agreement, *inter alia*, in order to record the terms and conditions on which the Investor Selling Shareholder have subscribed to and purchased Equity Shares of our Company, and the rights and obligations of the Shareholders of the Company in the management and control over the affairs of our Company. Pursuant to the Investment Agreement, several rights were granted to the Investor Selling Shareholder, including (i) the right to nominate directors on our Board, (ii) tag along rights, (iii) information and inspection rights.

In terms of the Investment Agreement, our Company is not permitted to grant rights to any person that are superior to those granted to the Investor Selling Shareholder. Further, Paritosh Kumar and Ashish Garg are also restricted from being involved in any business which competes with the business of our Company.

Additionally, our Company may not take any decisions or actions, without the prior consent of the Investor Selling Shareholder, in relation to certain reserved matters for which the Investor Selling Shareholder have affirmative voting rights.

In view of the initial public offer of the Equity Shares of our Company, the parties to the Investment Agreement have entered into the Amendment Agreement, pursuant to which the parties, to the extent applicable, have waived and/or suspended certain of their respective rights, obligations and restrictions that may be triggered under the Investment Agreement as a result of our Company undertaking the Offer. Further, with effect from the date of filing of the Red Herring Prospectus with Registrar of Companies, Punjab and Chandigarh at Chandigarh ("**RHP Filing Date**"), Part B of the Articles of Association automatically stood terminated and ceased to have effect from the RHP Filing Date.

Under the Amendment Agreement, on and after the receipt of final listing and trading approvals by the Company from the Stock Exchanges, pursuant to the Offer and subject to applicable law and receipt of approval of the Shareholders of our Company by way of a special resolution at the first shareholders' meeting immediately after the consummation of the Offer, as long as the Investor Selling Shareholder continues to hold Equity Shares in our Company above the threshold stake (i.e., 2.5% of the share capital of our Company, on a fully diluted basis), the Investor Selling Shareholder shall be entitled to the right to nominate 1 (one) director on our Board ("**Investor Nomination Right**").

The Investment Agreement, as amended by the Amendment Agreement, shall be terminated with immediate effect without any further action by any party to the Investment Agreement on and after the receipt of final listing and trading approvals by our Company from the Stock Exchanges, subject to the survival of the Investor Nomination Right, among others.

Accordingly, all special rights available to the Investor Selling Shareholder under the Investment Agreement, apart from the Investor Nomination Right, shall automatically terminate and cease to have effect on the receipt of final listing and trading approvals by our Company from the Stock Exchanges. To further clarify, the Investor Nomination

Right, shall only be effective following the receipt of approval of the shareholders of the Company, by way of a special resolution, at the first shareholders' meeting of our Company after the consummation of the Offer.

Further, the Amendment Agreement shall stand terminated upon the earlier of (a) the Equity Shares of our Company are not listed on the Stock Exchanges within 180 (one hundred and eighty) days from the date of the Amendment Agreement, or such other extended date as may be mutually agreed in writing amongst our Company and the Investor Selling Shareholder; or (b) our Board and the Selling Shareholders jointly decide not to undertake the Offer, or (c) where the Offer is abandoned, withdrawn or is unsuccessful due to any reason. Pursuant to the Amendment Agreement, each party has agreed to exercise its information rights under the Investment Agreement, in accordance with the applicable law.

In the event of termination of the Amendment Agreement, the Investment Agreement shall remain valid and subsisting without giving effect to any amendments pursuant to the Amendment Agreement. In case of termination of the Amendment Agreement, the provisions of the Investment Agreement shall (i) be automatically re-instated to the position as it stood immediately prior to the execution of the Amendment Agreement within 10 (ten) working days; and (ii) shall be deemed to have been continuing during the period from the date of execution of the Amendment Agreement and its date of termination, without any break or interruption whatsoever.

Agreements with Key Managerial Personnel, Senior Management, Directors, Promoters or any other employee

Neither our Promoters, nor any of the Key Managerial Personnel, Senior Management, Directors, Promoters or employees of our Company have entered into an agreement, either by themselves or on behalf of any other person, with any Shareholder or any other third party with regard to compensation or profit sharing in connection with the dealings of the securities of our Company.

Guarantees given by our Promoter Selling Shareholder

As on the date of this Prospectus, the Promoter Selling Shareholder have not given any guarantees to third parties.

Other material agreements

Our Company has not entered into any other subsisting material agreement, including with strategic partners, joint venture partners and/or financial partners, other than in the ordinary course of business.

Further, we confirm that except as disclosed in this Prospectus, there are no other inter-se agreements or arrangements entered into by and amongst any of the Promoters or Shareholders to which the Company is a party, or agreements of like nature, or agreements comprising material clauses/covenants that are required to be disclosed in this Prospectus or containing clauses/covenants that are adverse/prejudicial to the interest of minority/public shareholders.

OUR MANAGEMENT

Board of Directors

The Articles of Association require that our Board shall comprise of not less than three Directors and not more than 15 Directors. As on the date of filing this Prospectus, we have 10 Directors, comprising of four Executive Directors, six Non-executive Directors of which five are Independent Directors, including one woman Independent Director. 2.	Vikas Giya	Independent Director	0.03
3.	Ravindra Pisharody	Independent Director	0.30

No remuneration has been paid to our Nominee Director for Fiscal 2023. Further, no remuneration (including sitting fees and commission) was paid to Rajeswari Karthigeyan and Atul Behari Lall by our Company for Fiscal 2023 in view of the fact that they have been associated with us since Fiscal 2024.

Contingent and deferred compensation payable to the Directors

As on the date of this Prospectus, there is no contingent or deferred compensation payable to the Directors, which does not form part of their remuneration.

Bonus or profit-sharing plan for our Directors

Except as set out in “– *Terms of appointment of our Directors*” on page 279, our Company does not have any performance linked bonus or a profit-sharing plan in which our Directors have participated.

Shareholding of Directors in our Company

Our Articles of Association do not require our Directors to hold qualification shares.

The table below sets forth details of Equity Shares held by the Directors as on date of this Prospectus:

Name	Number of Equity Shares held	Percentage of the pre- Offer paid up share capital (%)	Percentage of the post- Offer paid up share capital (%) [*]
Paritosh Kumar	8,949,900	10.00%	9.50%
Ashish Garg	12,946,200	14.47%	13.74%
Megha Garg	2,419,900	2.70%	2.57%

^{*}Subject to finalisation of the Basis of Allotment.

Interest of Directors

All our Directors may be deemed to be interested to the extent of fees and commission, if any, payable to them for attending meetings of the Board or a committee thereof, as well as to the extent of other remuneration, commission and reimbursement of expenses, if any, payable to them by our Company. For further details, see “*Other Financial Information – Related party transactions*” on page 382.

Our Directors may also be regarded as interested to the extent of the Equity Shares, if any, held by them and to the extent of any dividend payable to them and other distributions in respect of these Equity Shares. For further details regarding the shareholding of our Directors, see “– *Shareholding of Directors in our Company*” on page 281.

Further, our Directors are also directors on the boards, or are shareholders, kartas, trustees, proprietors, members or partners, of entities with which our Company has had related party transactions and may be deemed to be interested to the extent of the payments made by our Company, if any, to these entities. For further details, see “*Other Financial Information – Related party transactions*” on page 382.

There is no material existing or anticipated transaction whereby Directors will receive any portion of the proceeds from the Offer.

Interest in promotion of our Company

As on the date of this Prospectus, except for Paritosh Kumar, Ashish Garg and Megha Garg, who are the Promoters of our Company, none of our other Directors are interested in the promotion of our Company. For further details, see “Our Promoters and Promoter Group” on page 295.

Interest in land and property

Our Directors do not have any interest in any property acquired or proposed to be acquired by our Company.

Further, our Directors do not have any interest in any transaction by our Company for acquisition of land, construction of building or supply of machinery during the three years preceding the date of this Prospectus.

Loans to Directors

As on the date of this Prospectus, no loans have been availed by our Directors from our Company.

Other confirmations

No consideration, either in cash or shares or in any other form have been paid or agreed to be paid to any of our Directors or to the firms, trusts or companies in which they have an interest in, by any person, either to induce such Director to become or to help such Director qualify as a Director, or otherwise for services rendered by them or by the firm, trust or company in which they are interested, in connection with the promotion or formation of our Company.

The names of the Directors, individual Promoters and individual members of the Promoter Group do not appear in the list of directors of struck-off companies notified by the Registrars of Companies or the Ministry of Corporate Affairs.

Further, the names of the corporate members of the Promoter Group and Group Companies do not appear in the list of struck-off companies notified by the Registrars of Companies or the Ministry of Corporate Affairs.

Changes to our Board in the last three years

Except as mentioned below, there have been no changes in our Directors in the last three years:

Name	Designation (at the time of appointment / change in designation / cessation)	Date of appointment / change in designation / cessation	Reason
Atul Behari Lall	Independent Director	July 31, 2023	Appointment
Suman Garg	Whole-time director	July 31, 2023	Cessation
Nitin Aggarwal	Non-executive director	July 26, 2023	Cessation
Rajeswari Karthigeyan	Independent Director	May 30, 2023	Appointment
Ravindra Pisharody	Independent Director	June 16, 2022	Appointment
Suresh Chander Garg	Executive director	February 24, 2022	Cessation

Note: This table does not include details of regularisations of additional Directors.

Corporate Governance

The provisions of the Companies Act, 2013 along with the SEBI Listing Regulations, with respect to corporate governance, will be applicable to our Company immediately upon the listing of the Equity Shares on the Stock Exchanges. Our Company is in compliance with the requirements of the applicable requirements for corporate governance in accordance with the SEBI Listing Regulations, and the Companies Act, 2013, including those pertaining to the constitution of the Board and committees thereof.

As on the date of filing this Prospectus, we have 10 Directors on our Board, of whom five are Independent Directors and two are woman Directors.

Committees of our Board

In terms of the SEBI Listing Regulations and the provisions of the Companies Act, 2013, our Company has constituted the following committees of our Board:

- (a) Audit Committee
- (b) Nomination and Remuneration Committee
- (c) Stakeholders' Relationship Committee
- (d) Corporate Social Responsibility Committee
- (e) Risk Management Committee

For purposes of the Offer, our Board has also constituted an IPO Committee

(a) Audit Committee

The Audit Committee was constituted by a meeting of the Board of Directors held on March 27, 2015 and was last reconstituted pursuant to a resolution passed by our Board on July 31, 2023. It is in compliance with Section 177 of the Companies Act and Regulation 18 of the SEBI Listing Regulations. The current constitution of the Audit committee is as follows:

The members of the Audit Committee are:

Name of Director	Position in the committee	Designation
Rajeswari Karthigeyan	Chairman	Independent Director
Satish Sekhri	Member	Independent Director
Ravindra Pisharody	Member	Independent Director
Vikas Giya	Member	Independent Director
Ashish Garg	Member	Managing Director
Prakash Bagla	Member	Nominee Director

The scope and function of the Audit Committee is in accordance with Section 177 of the Companies Act, 2013 and Regulation 18 of the SEBI Listing Regulations. Its terms of reference are as follows:

- (i) The Audit Committee shall have powers, which should include the following:
 - a) To investigate any activity within its terms of reference;
 - b) To seek information from any employee of Happy Forgings Limited (the “**Company**”);
 - c) To obtain outside legal or other professional advice;
 - d) To secure attendance of outsiders with relevant expertise, if it considers necessary; and
 - e) Such powers as may be prescribed under the Companies Act and SEBI Listing Regulations.
- (ii) The role of the Audit Committee shall include the following:
 - a) Oversight of the Company’s financial reporting process, examination of the financial statement and the auditors’ report thereon and the disclosure of its financial information to ensure that the financial statement is correct, sufficient and credible;
 - b) Recommendation for appointment, re-appointment and replacement, remuneration and terms of appointment of auditors, including the internal auditor, cost auditor and statutory auditor, of the Company and the fixation of audit fee;

- c) Approval of payments to statutory auditors for any other services rendered by the statutory auditors of the Company;
- d) Reviewing, with the management, the annual financial statements and auditor's report thereon before submission to the Board for approval, with particular reference to:
 - Matters required to be included in the Director's Responsibility Statement to be included in the Board's report in terms of Section 134(3) of the Companies Act, 2013;
 - Changes, if any, in accounting policies and practices and reasons for the same;
 - Major accounting entries involving estimates based on the exercise of judgment by the management of the Company;
 - Significant adjustments made in the financial statements arising out of audit findings;
 - Compliance with listing and other legal requirements relating to financial statements;
 - Disclosure of any related party transactions; and
 - Qualifications / modified opinion(s) in the draft audit report.
- e) Reviewing, with the management, the quarterly, half-yearly and annual financial statements before submission to the Board for approval;
- f) Reviewing, with the management, the statement of uses/application of funds raised through an issue (public issue, rights issue, preferential issue, etc.), the statement of funds utilised for purposes other than those stated in the offer document/prospectus/notice and the monitoring agency report submitted by the monitoring agency monitoring the utilisation of proceeds of a public or rights issue, or preferential issue or qualified institutions placement and making appropriate recommendations to the Board to take up steps in this matter. This also includes monitoring the use/ application of the funds raised through the proposed initial public offer by the Company;
- g) Reviewing and monitoring the auditor's independence and performance, and effectiveness of audit process;
- h) Formulating a policy on related party transactions, which shall include materiality of related party transactions;
- i) Approval or any subsequent material modification of transactions of the Company with related parties and omnibus approval for related party transactions proposed to be entered into by the Company subject to such conditions as may be prescribed under the SEBI Listing Regulations. Provided that only those members of the committee, who are independent directors, shall approve related party transactions;

Explanation: The term "related party transactions" shall have the same meaning as provided in Regulation 2(1)(zc) of the SEBI Listing Regulations and/or the applicable Accounting Standards and/or the Companies Act.

- j) Review, at least on a quarterly basis, the details of related party transactions entered into by the Company pursuant to each of the omnibus approvals given;
- k) Scrutiny of inter-corporate loans and investments;
- l) Undertaking or supervising valuation of undertakings or assets of the Company, wherever it is necessary;
- m) Evaluation of internal financial controls and risk management systems;
- n) Reviewing, with the management, performance of statutory and internal auditors, adequacy of the internal control systems;
- o) To review and monitor key performance indicators (KPIs);

- p) Reviewing the adequacy of internal audit function, if any, including the structure of the internal audit department, staffing and seniority of the official heading the department, reporting structure coverage and frequency of internal audit;
 - q) Discussion with internal auditors of any significant findings and follow up there on;
 - r) Reviewing the findings of any internal investigations by the internal auditors into matters where there is suspected fraud or irregularity or a failure of internal control systems of a material nature and reporting the matter to the Board;
 - s) Discussion with statutory auditors before the audit commences, about the nature and scope of audit as well as post-audit discussion to ascertain any area of concern;
 - t) Looking into the reasons for substantial defaults in the payment to the depositors, debenture holders, shareholders (in case of non-payment of declared dividends) and creditors;
 - u) Recommending to the board of directors the appointment and removal of the external auditor, fixation of audit fees and approval for payment for any other services;
 - v) Reviewing the functioning of the whistle blower mechanism;
 - w) Approval of the appointment of the Chief Financial Officer of the Company (“CFO”) (i.e., the whole-time finance director or any other person heading the finance function or discharging that function) after assessing the qualifications, experience and background, etc., of the candidate;
 - x) To formulate, review and make recommendations to the Board to amend the Audit Committee charter from time to time;
 - y) Overseeing a vigil mechanism established by the Company, providing for adequate safeguards against victimisation of employees and directors who avail of the vigil mechanism and also provide for direct access to the Chairperson of the Audit Committee for directors and employees to report their genuine concerns or grievances;
 - z) Considering and commenting on rationale, cost-benefits and impact of schemes involving merger, demerger, amalgamation etc., on the Company and its shareholders;
 - aa) Carrying out any other function as is mentioned in the terms of reference of the Audit Committee; and
 - bb) Carrying out any other functions and roles as required to be carried out by the Audit Committee as may be decided by the Board as per the Companies Act, the SEBI Listing Regulations, each as amended and other applicable laws or by any regulatory authority and performing such other functions as may be necessary or appropriate for the performance of its duties.
- (iii) The Audit Committee shall mandatorily review the following information:
- a) Management discussion and analysis of financial condition and results of operations;
 - b) Management letters/letters of internal control weaknesses issued by the statutory auditors of the Company;
 - c) Internal audit reports relating to internal control weaknesses;
 - d) The appointment, removal and terms of remuneration of the chief internal auditor shall be subject to review by the Audit Committee;
 - e) Statement of deviations:

- quarterly statement of deviation(s) including report of monitoring agency, if applicable, submitted to stock exchange(s) in terms of Regulation 32(1) of the SEBI Listing Regulations; and
 - annual statement of funds utilised for purposes other than those stated in the offer document/prospectus/notice, certified by the statutory auditors of the Company, in terms of Regulation 32(7) of the SEBI Listing Regulations; and
- f) Quarterly statement of variation for public issue, rights issue and preferential issue indicating category wise variation (capital expenditure, sales and marketing, working capital etc.) between projected utilisation of funds and the actual utilisation of funds, before the submission to stock exchange(s); and
- g) Such information as may be prescribed under the Companies Act and SEBI Listing Regulations.

The Company Secretary of our Company shall serve as the secretary of the Audit Committee. The Audit Committee is required to meet at least four times in a year under Regulation 18(2)(a) of the SEBI Listing Regulations. The quorum for a meeting of the Audit Committee shall be two members or one third of the members of the audit committee, whichever is greater, with at least two independent directors.

(b) Nomination and Remuneration Committee

The Nomination and Remuneration committee was constituted by our Board through its resolution dated March 27, 2015 and was last reconstituted pursuant to a resolution passed by our Board on July 31, 2023. The Nomination and Remuneration Committee is in compliance with Section 178 of the Companies Act and Regulation 19 of the SEBI Listing Regulations. The current constitution of the Nomination and Remuneration committee is as follows:

Name of Director	Position in the committee	Designation
Satish Sekhri	Chairman	Independent Director
Ravindra Pisharody	Member	Independent Director
Vikas Giya	Member	Independent Director
Rajeswari Karthigeyan	Member	Independent Director
Prakash Bagla	Member	Nominee Director

The scope and function of the Nomination and Remuneration Committee is in accordance with Section 178 of the Companies Act, 2013, read with Regulation 19 of the SEBI Listing Regulations. Its terms of reference are as follows:

- (i) Formulation of the criteria for determining qualifications, positive attributes and independence of a director and recommend to the Board a policy, relating to the remuneration of the directors, key managerial personnel and other employees;

The Nomination and Remuneration Committee, while formulating the above policy, should ensure that

- a) the level and composition of remuneration be reasonable and sufficient to attract, retain and motivate directors of the quality required to run the Company successfully;
 - b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
 - c) remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.
- (ii) Formulation of criteria for evaluation of performance of independent directors and the Board;
- (iii) For every appointment of an independent director, the Nomination and Remuneration Committee shall evaluate the balance of skills, knowledge and experience on the Board and on the basis of such evaluation, prepare a description of the role and capabilities required of an independent director. The person recommended to the Board for appointment as an independent director shall have the capabilities identified in such description. For the purpose of identifying suitable candidates, the Committee may:

- a) use the services of an external agencies, if required;
 - b) consider candidates from a wide range of backgrounds, having due regard to diversity; and
 - c) consider the time commitments of the candidates.
- (iv) Devising a policy on Board diversity;
- (v) Identifying persons who are qualified to become directors of the Company and who may be appointed in senior management in accordance with the criteria laid down, and recommend to the Board their appointment and removal. The Company shall disclose the remuneration policy and the evaluation criteria in its annual report;
- (vi) Analysing, monitoring and reviewing various human resource and compensation matters;
- (vii) Determining the Company's policy on specific remuneration packages for executive directors including pension rights and any compensation payment, and determining remuneration packages of such directors;
- (viii) Recommending the remuneration, in whatever form, payable to the senior management personnel and other staff (as deemed necessary);
- (ix) Reviewing and approving compensation strategy from time to time in the context of the then current Indian market in accordance with applicable laws;
- (x) Determining whether to extend or continue the term of appointment of the independent director, on the basis of the report of performance evaluation of independent directors;
- (xi) Perform such functions as are required to be performed by the compensation committee under the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- (xii) Administering, monitoring and formulating the employee stock option scheme/plan approved by the Board and shareholders of the Company in accordance with the applicable laws ("ESOP Scheme")
 - a) Determining the eligibility of employees to participate under the ESOP Scheme;
 - b) Determining the quantum of option to be granted under the ESOP Scheme per employee and in aggregate;
 - c) Date of grant;
 - d) Determining the exercise price of the option under the ESOP Scheme;
 - e) The conditions under which option may vest in employee and may lapse in case of termination of employment for misconduct;
 - f) The exercise period within which the employee should exercise the option and that option would lapse on failure to exercise the option within the exercise period;
 - g) The specified time period within which the employee shall exercise the vested option in the event of termination or resignation of an employee;
 - h) The right of an employee to exercise all the options vested in him at one time or at various points of time within the exercise period;
 - i) Re-pricing of the options which are not exercised, whether or not they have been vested if stock option rendered unattractive due to fall in the market price of the equity shares;
 - j) The grant, vest and exercise of option in case of employees who are on long leave;
 - k) Allow exercise of unvested options on such terms and conditions as it may deem fit;
 - l) The procedure for funding the exercise of options;
 - m) Forfeiture/ cancellation of options granted;
 - n) Formulating and implementing the procedure for making a fair and reasonable adjustment to the number of options and to the exercise price in case of corporate actions such as rights issues, bonus issues, merger, sale of division and others. In this regard following shall be taken into consideration:
 - the number and the price of stock option shall be adjusted in a manner such that total value of the option to the employee remains the same after the corporate action; and

- the vesting period and the life of the option shall be left unaltered as far as possible to protect the rights of the employee who is granted such option.
- (xiii) Construing and interpreting the ESOP Scheme and any agreements defining the rights and obligations of the Company and eligible employees under the ESOP Scheme, and prescribing, amending and/or rescinding rules and regulations relating to the administration of the ESOP Scheme;
- (xiv) Framing suitable policies, procedures and systems to ensure that there is no violation of securities laws, as amended from time to time, including:
- a) the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended;
 - b) the Securities and Exchange Board of India (Prohibition of Fraudulent and Unfair Trade Practices Relating to the Securities Market) Regulations, 2003, as amended; and
 - c) SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015,
- by the Company and its employees, as applicable;
- (xv) Performing such other activities as may be delegated by the Board and/or are statutorily prescribed under any law to be attended to by the Nomination and Remuneration Committee; and
- (xvi) Such terms of reference as may be prescribed under the Companies Act and SEBI Listing Regulations.

The Nomination and Remuneration Committee is required to meet at least once in a year under Regulation 19(3A) of the SEBI Listing Regulations.

The quorum for a meeting of the Nomination and Remuneration Committee shall be two members or one third of the members of the committee, whichever is greater, including at least one independent director.

(c) Stakeholders' Relationship Committee

The Stakeholders' Relationship Committee was constituted by our Board through its resolution dated July 31, 2023. The Stakeholders' Relationship Committee is in compliance with Section 178 of the Companies Act and Regulation 20 of the SEBI Listing Regulations. The current constitution of the Stakeholders' Relationship Committee is as follows:

Name of Director	Position in the committee	Designation
Prakash Bagla	Chairman	Nominee Director
Vikas Giya	Member	Independent Director
Ashish Garg	Member	Managing Director

The scope and function of the Stakeholders' Relationship Committee is in accordance with Regulation 20 of the SEBI Listing Regulations. Its terms of reference are as follows:

- (i) redressal of all security holders' and investors' grievances such as complaints related to transfer/transmission of shares, including non-receipt of share certificates and review of cases for refusal of transfer/transmission of shares and debentures, dematerialisation and re-materialisation of shares, non-receipt of balance sheet, non-receipt of declared dividends, non-receipt of annual reports, general meetings etc., and assisting with quarterly reporting of such complaints;
- (ii) reviewing of measures taken for effective exercise of voting rights by shareholders;
- (iii) investigating complaints relating to allotment of shares, approval of transfer or transmission of shares, debentures or any other securities;

- (iv) giving effect to all transfer/transmission of shares and debentures, dematerialisation of shares and re-materialisation of shares, split and issue of duplicate/consolidated share certificates, compliance with all the requirements related to shares, debentures and other securities from time to time;
- (v) reviewing the measures and initiatives taken by the Company for reducing the quantum of unclaimed dividends and ensuring timely receipt of dividend warrants/annual reports/statutory notices by the shareholders of the Company;
- (vi) reviewing the adherence to the service standards by the Company with respect to various services rendered by the registrar and transfer agent of the Company and to recommend measures for overall improvement in the quality of investor services;
- (vii) considering and specifically looking into various aspects of interest of shareholders, debenture holders or holders of any other securities;
- (viii) formulation of procedures in line with the statutory guidelines to ensure speedy disposal of various requests received from shareholders from time to time;
- (ix) to approve allotment of shares, debentures or any other securities as per the authority conferred / to be conferred to the Committee by the Board from time to time;
- (x) to monitor and expedite the status and process of dematerialisation and rematerialisation of shares, debentures and other securities of the Company;
- (xi) to further delegate all or any of the power to any other employee(s), officer(s), representative(s), consultant(s), professional(s) or agent(s);
- (xii) carrying out such other functions as may be specified by the Board from time to time or specified/provided under the Companies Act or the SEBI Listing Regulations, or by any other regulatory authority; and
- (xiii) such terms of reference as may be prescribed under the Companies Act and SEBI Listing Regulations.

The Stakeholders' Relationship Committee is required to meet at least once in a year under Regulation 20(3A) of the SEBI Listing Regulations.

(d) Corporate Social Responsibility Committee

The Corporate Social Responsibility Committee was constituted by our Board through its resolution dated March 27, 2015 and was last reconstituted pursuant to a resolution passed by our Board on July 31, 2023. The current constitution of the Corporate Social Responsibility Committee is as follows:

Name of Director	Position in the committee	Designation
Paritosh Kumar	Chairman	Chairman and Managing Director
Ashish Garg	Member	Managing Director
Prakash Bagla	Member	Nominee Director
Ravindra Pisharody	Member	Independent Director
Satish Sekhri	Member	Independent Director

The scope and function of the Corporate Social Responsibility Committee is in accordance with Section 135 of the Companies Act, 2013. Its terms of reference are as follows:

- (i) To formulate and recommend to the Board, a corporate social responsibility policy stipulating, amongst others, the guiding principles for selection, implementation and monitoring the activities as well as formulation of the annual action plan, which shall indicate the activities to be undertaken by the Company as specified in Schedule VII of the Companies Act and the rules made thereunder and make any revisions therein as and when decided by the Board;

- (ii) To identify corporate social responsibility policy partners and corporate social responsibility policy programmes;
- (iii) To recommend the amount of expenditure to be incurred for the corporate social responsibility activities, being at least two-percent of the average net profits of the Company made during the three immediately preceding financial years in pursuance of its corporate social responsibility and the distribution of the same to various corporate social responsibility programmes undertaken by the Company;
- (iv) To formulate and recommend to the Board, an annual action plan in pursuance to the corporate social responsibility policy, which shall include the following, namely:
 - a) the list of corporate social responsibility projects or programmes that are approved to be undertaken in areas or subjects specified in the Schedule VII of the Companies Act, 2013;
 - b) the manner of execution of such projects or programmes as specified in Rule 4(1) of the Companies (Corporate Social Responsibility Policy) Rules, 2014;
 - c) the modalities of utilisation of funds and implementation schedules for the projects or programmes;
 - d) monitoring and reporting mechanism for the implementation of the projects or programmes; and
 - e) details of need and impact assessment, if any, for the projects undertaken by the company.

Provided that the Board may alter such plan at any time during the financial year, as per the recommendations of the Corporate Social Responsibility Committee, based on the reasonable justification to that effect.

- (v) Identifying and appointing the corporate social responsibility team of the Company and delegate responsibilities to such team and supervise proper execution of all delegated responsibilities;
- (vi) To review and monitor the implementation of corporate social responsibility programmes and issuing necessary directions as required for proper implementation and timely completion of corporate social responsibility programmes;
- (vii) To take note of the compliances made by implementing agency (if any) appointed for the corporate social responsibility of the Company;
- (viii) To perform such other duties and functions as the Board may require the corporate social responsibility committee to undertake to promote the corporate social responsibility activities of the Company and exercise such other powers as may be conferred or perform such responsibilities as may be required by the corporate social responsibility committee in terms of the provisions of Section 135 of the Companies Act; and
- (ix) Such terms of reference as may be prescribed under Section 135 of the Companies Act.

(e) Risk Management Committee

The Risk Management Committee was constituted by our Board through its resolution dated July 31, 2023. The Risk Management Committee is in compliance with Regulation 21 of the SEBI Listing Regulations. The current constitution of the Risk Management Committee is as follows:

Name of Director/KMP	Position in the committee	Designation
Ashish Garg	Chairman	Managing Director
Rajeswari Karthigeyan	Member	Independent Director
Prakash Bagla	Member	Nominee Director
Pankaj Kumar Goyal	Member	Chief Financial Officer

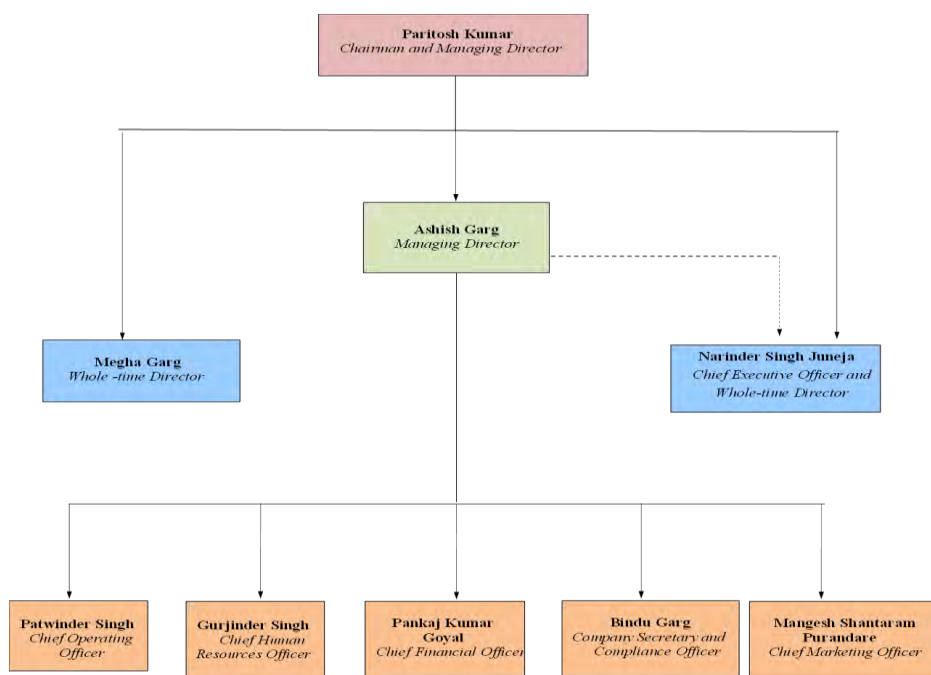

Name of Director/KMP	Position in the committee	Designation
Bindu Garg	Member	Company Secretary and Compliance Officer

The scope and function of the Risk Management Committee is in accordance with Regulation 21 of the SEBI Listing Regulations. The Risk Management Committee shall be responsible for, among other things, the following:

- (i) To formulate a detailed risk management policy which shall include:
 - a) framework for identification of internal and external risks specifically faced by the Company, in particular including financial, operational, sectoral, sustainability (particularly, Environmental, Social and Governance (ESG) related risks), information, cyber security risks or any other risk as may be determined by the committee;
 - b) measures for risk mitigation including systems and processes for internal control of identified risks; and
 - c) business continuity plan.
- (ii) To ensure that appropriate methodology, processes and systems are in place to monitor and evaluate risks associated with the business of the Company;
- (iii) To monitor and oversee implementation of the risk management policy, including evaluating the adequacy of risk management systems;
- (iv) To periodically review the risk management policy, at least once in two years, including by considering the changing industry dynamics and evolving complexity;
- (v) To keep the Board informed about the nature and content of its discussions, recommendations and actions to be taken;
- (vi) The appointment, removal and terms of remuneration of the Chief Risk Officer shall be subject to review by the Risk Management Committee.
- (vii) To seek information from any employee, obtain outside legal or other professional advice and secure attendance of outsiders with relevant expertise, if it considers necessary.
- (viii) Laying down risk assessment and minimization procedures and the procedures to inform Board of the same;
- (ix) Framing, implementing, reviewing and monitoring the risk management plan for the Company and such other functions, including cyber security, as may be delegated by the Board; and
- (x) Performing such other activities as may be delegated by the Board and/or are statutorily prescribed under any law to be attended to by the Risk Management Committee.

The Risk Management Committee is required to meet at least twice in a year under Regulation 21(3A) of the SEBI Listing Regulations.

Management organization chart

Relationships amongst Key Managerial Personnel, Senior Management and Directors

Except as specified in “– *Relationships amongst our Directors and Key Managerial Personnel or Senior Management*”, none of our Key Managerial Personnel or the Senior Management are related to each other or to the Directors of our Company.

Arrangements or understanding with major Shareholders, customers, suppliers or others

None of our Key Managerial Personnel or our Senior Management have been appointed pursuant to any arrangement or understanding with any major Shareholders, customers or suppliers of our Company, or others.

Changes in the Key Managerial Personnel or the Senior Management in last three years

Except as mentioned below, and as specified in “– *Changes to our Board in the last three years*” on page 282, there have been no changes in the Key Managerial Personnel or Senior Management during the three years:

Name	Date of change	Reason
Narinder Singh Juneja	August 1, 2023	Appointment as Chief Executive Officer
Bindu Garg	July 12, 2022	Appointment as Company Secretary
Deepesh Kumar	June 14, 2022	Resignation as company secretary

The rate of attrition of our Key Managerial Personnel and our Senior Management is not high in comparison to the industry in which we operate.

Status of Key Managerial Personnel and Senior Management

As on the date of this Prospectus, all our Key Managerial Personnel and Senior Management are permanent employees of our Company.

Service Contracts, and retirement or termination benefits

Other than statutory benefits upon termination of their employment in our Company or retirement, no officer of our Company, including our Directors, our Key Managerial Personnel or Senior Management is entitled to any benefits upon termination of employment, including under any service contract with our Company. Further, other than the

respective employment agreements/appointment letters entered into by our Key Managerial Personnel or Senior Management with our Company, none of our Directors, Key Managerial Personnel or Senior Management have entered into a service contract/appointment letter with our Company pursuant to which they are entitled to such statutory benefits upon termination of their employment in our Company.

Shareholding of the Key Managerial Personnel and Senior Management

Except as disclosed under “– *Shareholding of Directors in our Company*” on page 281, none of our other Key Managerial Personnel and the Senior Management hold any Equity Shares in our Company.

Contingent and deferred compensation payable to Key Managerial Personnel and Senior Management

As on the date of this Prospectus, there is no contingent or deferred compensation which accrued to our Key Managerial Personnel and members of Senior Management for Fiscal 2023, which does not form part of their remuneration for such period.

Bonus or profit-sharing plan of the Key Managerial Personnel and Senior Management

None of our Key Managerial Personnel or members of Senior Management are party to any bonus or profit-sharing plan of our Company other than the performance linked incentives given to Key Managerial Personnel or members of Senior Management.

Interest of Key Managerial Personnel and Senior Management

Our Key Managerial Personnel and the Senior Management are interested in our Company to the extent of the remuneration (including any variable pay or sales-linked incentives), or benefits to which they are entitled to as per their terms of appointment and reimbursement of expenses incurred by them during the ordinary course of their service.

Our Key Managerial Personnel and the Senior Management may also be regarded as interested to the extent of the Equity Shares, if any, held by them and to the extent of any dividend payable to them and other distributions in respect of these Equity Shares. For further details regarding the shareholding of our Key Managerial Personnel and Senior Management, see “– *Shareholding of the Key Managerial Personnel and Senior Management*” on page 294.

Except as disclosed herein, none of our Key Managerial Personnel or Senior Management have been paid any consideration of any nature from our Company, other than their remuneration.

Employee Stock Option Plan

For details about the ESOP Scheme, see “*Capital Structure – Employee Stock Option Scheme*” on page 113.

Payment or Benefit to officers of our Company (non-salary related)

No non-salary related amount or benefit has been paid or given within the two years preceding the date of this Prospectus or is intended to be paid or given to any officer of the Company, including our Directors, Key Managerial Personnel and Senior Management.

DIVIDEND POLICY

Our Board of Directors, pursuant to a resolution dated July 31, 2023, have adopted a dividend distribution policy. The declaration and payment of dividend on our Equity Shares, if any, will be recommended by our Board and approved by our Shareholders, at their discretion, in accordance with provisions of our Articles of Association and applicable law, including the Companies Act (together with applicable rules issued thereunder).

Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on internal and external factors. Some of the internal factors on the basis of which our Company may declare dividend shall inter-alia include (i) our Company's profits for the current year, existing reserves and future projections of profitability; (ii) funds required for working capital, servicing of outstanding loans and capital expenditure; (iii) funds required for mergers and acquisitions and for execution of our Company's strategy; (iv) minimum cash required for contingencies or unforeseen events; and (v) maintaining of required liquidity and return ratios. The external factors on the basis of which our Company may declare the dividend shall inter alia include the state of domestic and global economy and capital market conditions, applicable taxes and regulatory changes which include the introduction of new or changes in existing tax or regulatory requirements.

In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under our current or future loan or financing documents. For more information on restrictive covenants under our current loan agreements, see "*Financial Indebtedness*" on page 431. Our Company may pay dividend by cheque, or electronic clearance service, as will be approved by our Board in the future. Our Board may also declare interim dividend from time to time.

Our Company has not declared any dividends on the Equity Shares during the last three Fiscals.

Except as disclosed below, our Company has not declared any dividends on the Equity Shares during the period from April 1, 2023, until the date of this Prospectus.

Particulars	For the period from April 1, 2023
Number of Equity Shares	89,499,000
Face value per Equity Share (in ₹)	2.00
Dividend paid (in ₹ million)	116.35
Dividend per Equity Share (in ₹)	1.30
Rate of dividend (%)	65.00%
Mode of payment of dividend	Bank transfer
Dividend tax	Tax deducted at source, as applicable

The past trend in relation to our payment of dividends is not necessarily indicative of our dividend trend or dividend policy, in the future, and there is no guarantee that any dividends will be declared or paid in the future. For details in relation to the risk involved, see "*Risk Factors – Risks relating to the Equity Shares and this Offer – Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, profit after tax available for distribution, cash flows, working capital requirements and capital expenditure and the terms of our financing arrangements*" on page 75.

SECTION VI – FINANCIAL INFORMATION

RESTATED FINANCIAL INFORMATION

The remainder of this page has intentionally been left blank

Independent Auditors' Examination Report on the Restated Consolidated Summary Statement of Assets and Liabilities as at March 31, 2023, September 30, 2022 and March 31, 2022, the Restated Consolidated Summary Statement of Profits and Loss (including Other Comprehensive Income/(Loss)), Restated Consolidated Summary Statement of Changes in Equity and the Restated Consolidated Summary Statement of Cash Flows for the years ended March 31, 2023 and March 31, 2022 and half year ended September 30, 2022 and the summary statement of accounting policies and other explanatory information; Restated Standalone Summary Statement of Assets and Liabilities as at September 30, 2023 and March 31, 2021, Restated Standalone Summary Statement of Profit and Loss (including Other Comprehensive Income, Restated Standalone Summary Statement of Changes in Equity and the Restated Standalone Summary Statement of Cash Flows for the half year ended September 30, 2023 and year ended March 31, 2021 and the summary statement of accounting policies and explanatory information of Happy Forgings Limited (collectively, the "Restated Summary Statements").

To

The Board of Directors

Happy Forgings Limited

Kanganwal Road, PO Jugiana,

Ludhiana – 141120

Punjab India

Dear Sirs/Madams:

1. We have examined the attached Restated Summary Statements of **Happy Forgings Limited** (the "Company") annexed to this report and prepared by the Company for the purpose of inclusion in the Red Herring Prospectus ("RHP") and prospectus proposed to be filed with the Securities and Exchange Board of India ("SEBI"), BSE Limited and National Stock Exchange of India Limited (collectively, the "Stock Exchanges") and Registrar of Companies, Punjab and Chandigarh (ROC) in connection with its proposed initial public offer of equity shares of face value of ₹ 2 each, which comprises a fresh issue of equity shares and an offer for sale by certain existing shareholders of the Company at such price arrived at by the book building process ("Offer"), as may be decided by Company's Board of Directors. Further, as explained in Annexure VII (Note 5) to the Restated Summary Statements the Company had sold its investment in the Joint Venture Company. The Restated Summary Statements, which have been approved by the Board of Directors of the Company at their meeting held on December 02, 2023, have been prepared in accordance with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act 2013 (the "Act");
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) (as amended) issued by the Institute of Chartered Accountants of India ("ICAI"), (the "Guidance Note").

Management's Responsibility for the Restated Summary Statements

2. The preparation of the Restated Summary Statements, which are to be included in the RHP and prospectus to be filed with SEBI, ROC and the Stock Exchanges in connection with the proposed Offer is the responsibility of the Management of the Company. The Restated Summary Statements have been prepared by the Management of the Company on the basis of preparation, as stated in Annexure V (Note 2a(i)) to the Restated Summary Statements. The Management's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Summary Statements. The Management is also responsible for identifying and ensuring that the Company and its erstwhile joint venture complies with the Act, ICDR Regulations and the Guidance Note.

Auditors' Responsibilities

3. We have examined such Restated Summary Statements taking into consideration:

- a) the terms of reference and terms of our engagement agreed with you vide our engagement letter dated June 30, 2023, requesting us to carry out the assignment, in connection with the proposed Offer of the Company;
- b) the Guidance Note. The Guidance Note also requires that we comply with ethical requirements of the Code of Ethics Issued by ICAI.
- c) concepts of test checks and materiality to obtain reasonable assurance based on the verification of evidence supporting the Restated Summary Statements; and
- d) the requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the Offer.

Restated Summary Statements

4. These Restated Summary Statements have been compiled by the management of the Company from:

- a) Audited interim standalone financial statements of the Company as at and for the half year ended September 30, 2023 which were prepared in accordance with the accounting principle generally accepted in India including Indian Accounting Standard 34 "Interim Financial Reporting", as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, which have been approved by the Board of Directors at their meeting held on December 02, 2023.
- b) Audited interim consolidated financial statements of the Company and its joint venture as at and for the half year ended September 30, 2022 which were prepared in accordance with the accounting principle generally accepted in India including Indian Accounting Standard 34 "Interim Financial Reporting", as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, which have been approved by the Board of Directors at their meeting held on December 02, 2023.
- c) Audited consolidated financial statements of the Company and its joint venture as at and for the years ended March 31, 2023 and March 31, 2022 which were prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meetings held on August 08, 2023 and September 06, 2022 respectively.
- d) Audited standalone financial statements of the Company as at and for the year ended March 31, 2021 which were prepared in accordance with the Ind AS as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meeting held on November 29, 2021.
- e) Financial statements and other financial information in relation to the Company's joint venture, as listed below, audited by other auditors and included in the consolidated financial statements of the Company and its joint venture as at and for the years ended March 31, 2023 and March 31, 2022 and as at and for the half year ended September 30, 2022

Name of the Entity	Relationship	Name of Audit Firm	Period audited by Other Auditor
Linchpin Technologies Private Limited	Joint Venture	Bhudlalia & Co. ("Other Auditor")	Financial years ended March 31, 2023 and March 31, 2022 Half year ended September 30, 2022

Auditor's Report

5. For the purpose of our examination, we have relied on:

- a) Auditors' reports issued by us, dated August 08, 2023, September 06, 2022 and December 02, 2023, on the consolidated financial statements of the Company and its joint venture as at and for each the years ended March 31, 2023 and March 31, 2022 and as at and half year ended September 30, 2022, as referred in Paragraph 4(a) above.
- b) Auditors' reports issued by us, dated November 29, 2021 and December 02, 2023 on the standalone financial statements of the Company as at and for the year ended March 31, 2021 and as at and half year ended September 30, 2023 as referred in Paragraph 4(b) above.
- c) As indicated in Paragraph 4 (e) above, we did not audit the financial statements of the joint venture as at and for the years ended March 31, 2023 and March 31, 2022 and as at and for the half year ended September 30, 2022 whose financial statements reflect share of Company's net profit in joint venture of Rs. 0.05 million, Rs. 0.05 million and Rs. 0.05 million respectively and included in the Restated Summary Statements. These financial statements have been audited by the Other Auditor as listed in Para 4 (e) above, whose reports have been furnished to us and our opinion in so far as it relates to the amounts included in the financial statements referred to in Para 5(a) above are based solely on the report of Other Auditors.

6. The audit reports on financial statements of the Company as at and for the years ended March 31, 2023 and March 31, 2021 referred to in paragraph 5 (a) and 5 (b) above included qualifications on matters included in our report on the Companies (Auditor's Report) Order, 2020/ Companies (Auditor's Report) Order 2016 issued by the Central Government of India in terms of sub section (11) of Section 143 of the Act which did not require any corrective adjustments (included in Annexure VI in the attached Restated Summary Statements). Further our report under Section 143(3)(i) of the Act on the audit of Internal Financial Controls with reference to those financial statement as on March 31, 2021 included disclaimer of opinion which did not require any corrective adjustments (included in Annexure VI in the attached Restated Summary Statements).

7. In respect of examination performed by Other Auditor:

- a) The audits of the Company's joint venture for the financial year ended March 31, 2023 and March 31, 2022 and half year ended September 30, 2022 was conducted by Other Auditor and accordingly reliance has been placed on the restated statement of assets and liabilities and the restated statements of profit and loss (including other comprehensive income), restated statements of changes in equity and cash flow statements, the summary statement of accounting policies, and other explanatory information (the Restated Financial Information") examined by them for the said periods. Our opinion on the Restated Summary Statements, in so far as it relates to the amounts and disclosures included in respect of the said joint venture is based solely on the examination

report submitted by the Other Auditor. The Other Auditor has also confirmed that the Restated Financial Information:

- (i) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial year ended March 31, 2022 and half year ended September 30, 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed for the year ended March 31, 2023.
- (ii) does not contain any qualifications requiring adjustments; and
- (iii) have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

8. Based on our examination and according to the information and explanations given to us and also as per the reliance placed on the examination report submitted by Other Auditor as at and for the years ended March 31, 2023 and March 31, 2022 and as at and for the half year ended September 30, 2022 in respect of the Company's joint venture, we report that Restated Summary Statements of the Company and its joint venture:

- i. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial year ended March 31, 2022 and March 31, 2023 and half year ended September 30, 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications, to the extent applicable followed as at and for the half year ended September 30, 2023;
- ii. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial years ended March 31, 2021 to reflect the same accounting treatment as per the accounting policies and grouping/classifications, followed as at and for the half year ended September 30, 2023;
- iii. there are no qualifications in the auditors' reports on the audited consolidated financial statements of the Company and its joint venture as at March 31, 2023, September 30, 2022 and March 31, 2022 and audited standalone financial statements of the Company as at September 30, 2023 and March 31, 2021 which require any adjustments to the Restated Summary Statements.

However, qualifications on matters included in our report on the Companies (Auditor's Report) Order, 2020/Companies (Auditor's Report) Order 2016 issued by the Central Government of India in terms of sub section (11) of Section 143 of the Act as at and for the years ended March 31, 2023 and March 31, 2021 and our report under Section 143(3)(i) of the Act on the audit of Internal Financial Controls with reference to those financial statement as on March 31, 2021 included disclaimer of opinion, as referred in paragraph 6 above, all of which do not require any corrective adjustments in the Restated Summary Statements, have been disclosed in Annexure VI to the attached Restated Summary Statements; and

- iv. have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

9. We have not audited any financial statements of the Company as of any date or for any period subsequent to September 30, 2023. Accordingly, we express no opinion on the financial position, results of operations, cash flows and statement of changes in equity of the Company as of any date or for any period subsequent to September 30, 2023.

10. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.

11. The Restated Summary Statements do not reflect the effects of events that occurred subsequent to the audited financial statements mentioned in paragraph 4 above.
12. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
13. Our report is intended solely for use of the Board of Directors for inclusion in the RHP and prospectus to be filed with Securities and Exchange Board of India, National Stock Exchange of India Limited, BSE Limited and Registrar of Companies, Punjab and Chandigarh in connection with the proposed Offer. Our report should not be used, referred to, or distributed for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come.

Annexure V – Summary of Accounting Policies and Other Explanatory Notes to Restated Summary Statements

1. Corporate Information:

The Restated Summary Statements comprise Happy Forgings Limited (“the Company”) and its joint venture. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company is principally engaged in manufacturing of forgings and related components.

The registered office of the Company is located at B-XXIX-2254/1, Kanganwal Road, P.O. Jugiana, Ludhiana 141120, Punjab, India. The Company's CIN is U28910PB1979PLC004008.

The Restated Summary Statements for the half year ended September 30, 2023 and September 30, 2022 and year ended March 31, 2023, March 31, 2022, and March 31, 2021, were approved for issue in accordance with resolution of the Board of Directors on December 02, 2023.

2a. Accounting Policies:

(i) Basis of Preparation of Restated Summary Statements

The Restated Consolidated Summary Statements comprises of the Restated Consolidated Summary Statement of Assets and Liabilities of the Company and its joint venture as at March 31, 2023, September 30, 2022 and March 31, 2022, the related Restated Consolidated Summary of Profit and Loss (including Other Comprehensive Income), the Restated Consolidated Summary Statement of Cash Flows and the Restated Consolidated Summary Statement of Changes in Equity for years ended March 31, 2023 and March 31, 2022 and half year ended September 30, 2022, and the summary of Accounting Policies and explanatory notes (“Restated Consolidated Summary Statements”)

The Restated Standalone Summary Statement of Assets and Liabilities of the Company as at September 30, 2023 and March 31, 2021, the related Restated Standalone Summary Statement of Profit and Loss (including Other Comprehensive Income), the Restated Standalone Summary Statement of Cash Flows and the Restated Standalone Summary Statement of Changes in Equity for the half year ended September 30, 2023 and year ended March 31, 2021, and the summary of Accounting Policies and explanatory notes (“Restated Standalone Summary Statements”). The Company did not have any subsidiaries, associates and joint ventures for the half year ended September 30, 2023 and year ended March 31, 2021, and accordingly the Restated Summary Statement for the year ended March 31, 2021 and half year ended September 30, 2023, represents the restated standalone financial information.

Restated Consolidated Summary Statements and Restated Standalone Summary Statements are collectively referred to as the “Restated Summary Statements”.

These Restated Summary Statements have been prepared by the Management of the Company in accordance with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time, issued by the Securities and Exchange Board of India ('SEBI') on 11 September 2018, in pursuance of the Securities and Exchange Board of India Act, 1992 ("ICDR Regulations") for the purpose of inclusion in the Red Herring Prospectus ('RHP') and Prospectus in connection with the proposed initial public offering of equity shares of face value of Rs. 2 each of the Company comprising a fresh issue of equity shares and an offer of sale of equity shares held by the selling shareholders (Collectively the “Offer”). These Restated Summary Statements have been prepared by the Company to comply in all material respects with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act").
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended (the “Guidance Note”).

These Restated Summary Statements have been compiled by the Management from:

Audited Consolidated financial Statements of the Company and its joint venture as at and the for year ended March 31, 2023 and March 31, 2022 and as at and half year ended September 30, 2022 and Audited Standalone financial statement of the Company as at and for the half year ended September 30, 2023 and as at and for the year ended March 31, 2021 prepared in accordance with Indian Accounting Standards (IND AS) notified under the Companies (Indian

Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable which have been approved by the Board of Directors at their meetings held on December 02, 2023, August 08, 2023, September 06, 2022 and November 29, 2021 respectively.

The accounting policies have been consistently applied by the Company and its joint venture in preparation of the Restated Summary Statements are consistent with those adopted in the preparation of Audited Financial Statements for the half year ended September 30, 2023. These Restated Summary Statements have been prepared by the Company on the basis that it will continue to operate as a going concern.

The Restated Summary Statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments,
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments), and
- Defined benefit pension plans – plan assets are measured at fair value

In addition, the carrying values of recognized assets and liabilities designated as hedged items in fair value hedges that would otherwise be carried at amortized cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationships.

The Audited financial statements referred above were presented in Indian Rupee (Rs.) and all values were rounded to the nearest lacs (Rs. 00,000), however, the Restated Summary Statements are presented in Indian Rupee (Rs.) and all values are rounded to the nearest million (Rs. 000,000), except when otherwise indicated.

(ii) Basis of consolidation

The Restated Summary Statements comprises of the summary statements of Happy forging Limited (the “Company”) and its joint venture i.e., Linchpin Technologies Private Limited for the year ended March 31, 2023, and March 31, 2022 and half year ended September 30, 2022. The Company has made investment in the joint venture w.e.f January 08, 2022. The Company’s investment in its joint venture is accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Company’s share of net assets of the joint venture from the date of acquisition. The aforesaid investment has been sold by the Company on March 31, 2023.

The Restated Summary Statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on March 31.

(iii) Current versus non-current classification

The Company and its joint venture present assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company and its joint venture classify all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company and its joint venture have identified twelve months as its operating cycle.

(iv) Investment in Associate/Joint Venture

An associate is an entity over which the company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Company's investment in its joint venture is accounted for using the equity method. Under the equity method, the investment in an associate/joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Company's share of net assets of the associate/joint venture since the acquisition date. Goodwill relating to the associate/joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Company's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Company's OCI. In addition, when there has been a change recognized directly in the equity of the associate or joint venture, the Company recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If an entity's share of losses of an associate or joint venture equals or exceeds its interest in the associate or joint venture (which includes any long-term interest that, in substance, form part of the Company's net investment in the associate or joint venture), the entity discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

The aggregate of the Company's share of profit or loss of an associate or joint venture is shown on the face of the statement of profit and loss outside operating profit.

The Restated Summary Statements of the associate or joint venture are prepared for the same reporting period as the Company. When necessary, adjustments are made to bring the accounting policies in line with those of the Company.

After application of the equity method, the Company determines whether it is necessary to recognize an impairment loss on its investment in its associate or joint venture. At each reporting date, the Company determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognizes the loss as 'Share of profit of an associate or joint venture' in the statement of profit and loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Company measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

(v) Foreign currencies

Functional and presentation currency

The Restated Summary Statements are presented in INR, which is Company and its joint venture's functional currency

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company and its joint venture at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on monetary items from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates including on forward contracts are generally recognized in profit or loss. Financial instruments designated as Hedge Instruments are mark to market using the valuation given by the bank on the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI, or profit or loss are also recognized in OCI or profit or loss, respectively).

2b. Summary of accounting policies:

(i) Revenue from contract with customer

Revenue from contracts with customers is recognized when the control of goods or services are transferred to the customer at an amount that reflects the consideration to which the Company and its joint venture expects to entitle in exchange for the goods or services. The Company and its joint venture have concluded that it is the principal in all its revenue arrangements, because it typically controls the goods or services before transferring them to the customers.

The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided in Note 2C.

Sale of Goods: Revenue from the sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of goods. The normal credit term is 30 to 150 days.

The Company and its joint venture consider whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties, customer loyalty points). In determining the transaction price for the sale of equipment, the Company and its joint venture considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).

Variable Consideration

If the consideration in a contract includes a variable amount, the Company and its joint venture estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Contracts for the sale of goods provide customers with a customary right of return in case of defects, quality issues etc. The rights of return give rise to variable consideration.

Rights of return

The Company and its joint venture use the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Company and its joint venture will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Company and its joint venture recognizes a refund liability. A right of return asset (and corresponding adjustment to cost of sales) is also recognized for the right to recover products from a customer.

The disclosures of significant estimates and assumptions if any, relating to the estimation of variable consideration for returns are provided in Note 2C

Sale of Services: Revenue from the sale of services in nature of job work on customer product which normally takes a shorter period of time and hence, revenue is recognized when products are sent to customer on which job work is completed. The normal credit period is 30 to 60 days. Revenues from sale of services in the nature of Tooling Income/die design and preparation charges are recognized over time using an input method to measure progress towards complete satisfaction of the tool development. The Company recognises revenue from development of tools and dies over time if it can reasonably measure its progress towards complete satisfaction of the performance obligation. Where the Company cannot reasonably measure the outcome of a performance obligation, but the Company expects to recover the costs incurred in satisfying the performance obligation. In those circumstances, the Company recognises revenue only to the extent of the costs incurred until such time that it can reasonably measure the outcome of the performance obligation.

Export Incentives: Revenue from export incentives is accounted for on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

Trade Receivables: A receivable is recognized if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in Section (ix) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities: A contract liability is recognized if a payment is received, or a payment is due (whichever is earlier) from a customer before the Company and its joint venture transfers the related goods or services. Contract liabilities are recognized as revenue when the Company and its joint venture performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract assets: A contract asset is initially recognized for revenue earned from installation services because the receipt of consideration is conditional on successful completion of the installation. Upon completion of the installation and acceptance by the customer, the amount recognized as contract assets is reclassified to trade receivables.

Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section d) Financial instruments – initial recognition and subsequent measurement.

Other Income

Dividend Income: Dividend income is recognized when the right to receive payment is established, which is generally when shareholders approve the same.

Interest Income: Interest Income is recognized on time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head ‘Other Income’ in the Statement of Profit and Loss.

(ii) Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with.

When the grant relates to duty benefit availed under Export Promotion Capital Goods (EPCG) Scheme, it is accounted for by way of reducing the cost from related asset and accordingly value of the asset has been depreciated with such reduced cost.

When the grant relates to incentives under “Invest Punjab Scheme”, it is accounted as income on a systematic basis over the period that the related costs, for which it is intended to compensate are incurred. These incentives are accrued as income once the approval of the relevant authority is sanctioned and there is a reasonable assurance that the grant will be received.

When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as a government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

(iii) Inventory Valuation

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and work in progress: cost includes cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on first in, first out (FIFO) basis.
- Packing Materials and other products are determined on Weighted Average basis.
- Stores and Spares is value at Weighted Average Value.
- Scrap is valued at estimated realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(iv) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, cash at banks and short-term deposits with banks with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of change in value.

(v) Property, Plant and Equipment

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Machinery spares which can be used only in connection with an item of Property, Plant and equipment and whose use is expected to be irregular are capitalized and depreciated over the useful life of the principal item of the relevant assets. When significant parts of plant and equipment are required to be replaced at intervals, the Company and its joint venture depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation

Depreciation for identified asset/ components is computed on straight line method based on useful lives, determined based on internal technical evaluation as follows:

Property, Plant & equipment:

Type of Assets	Schedule II life (years)	Useful Lives*
Building –Factory	30	30
Building- others	60	60
Plant & Machinery**	15	3 to 30
Computers	3	3
Office Equipment	5	5
Electrical Fittings & installations	10	10
Furniture & Fixtures	10	10
Vehicles	8	8

*The Company and its joint venture, based on technical assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

** Useful life mentioned is considering single shift working, however depreciation charged based on average number of shifts worked on an annual basis.

Any item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in income statement when asset is derecognized.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(vi) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss. when the asset is derecognized.

The useful live of intangible assets are as follows:

Type of Assets	Schedule II life (years)	Useful Lives
Software	6	6

Research and development costs

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

(vii) Impairment of non- financial assets

The Company and its joint venture assess at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company and its joint venture estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating units (CGU)'s fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company and its joint venture base its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company and its joint venture's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company and its joint venture extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Company and its joint venture operates, or for the market in which the asset is used. Impairment losses including impairment on inventories, are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company and its joint venture estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Intangible assets with indefinite useful lives are tested for impairment annually at the end of the financial year at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired

(viii) Financial Instrument

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company and its joint venture's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company and its joint venture has applied the practical expedient, the Company and its joint venture initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company and its joint venture has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (i) Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This

assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Company and its joint venture commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

a. Financial Assets at amortized Cost (debt instruments)

A 'financial asset' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. The Company and its joint venture's financial assets at amortized cost includes trade receivables, security deposits and loan to employees.

b. Financial assets at fair value through other comprehensive income (FVTOCI) (debt instrument)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value changes recognized in OCI is reclassified from the equity to profit or loss.

c. Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Company and its joint venture can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit and loss when the right of payment has been established, except when the Company and its joint venture benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

d. Financial Assets at Fair value through Profit or Loss (FVTPL)

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognized in the statement of profit and loss.

This category includes derivative instruments and listed equity investments which the Company and its joint venture had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognized in the statement of profit and loss when the right of payment has been established.

Investments in Mutual Funds are accounted for at Fair value through Profit or Loss Account.

Embedded Derivatives

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company and its joint venture applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- c) Financial assets that are measured at FVTOCI

The Company and its joint venture follow 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company and its joint venture to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company and its joint venture determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company and its joint venture in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company and its joint venture uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss.

The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortized cost, contractual revenue receivables and lease receivables:
ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company and its joint venture does not reduce impairment allowance from the gross carrying amount.
- Debt instruments measured at FVTOCI:
Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company and its joint venture combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company and its joint venture do not have any purchased or originated credit impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

e. Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within one year and therefore are all classified as current. Where the settlement is due after one year, they are classified as non-current. Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Company and its joint venture hold the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method.

Trade receivables are disclosed in Note 9.

De-recognition of Financial Assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company and its joint venture's balance sheet) when:

- (i) The right to receive cash flows from asset have expired, or.
- (ii) The Company and its joint venture have transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement and either:
 - a) The Company and its joint venture have transferred substantially all the risks and rewards of the asset, or
 - b) The Company and its joint venture have neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company and its joint venture has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company and its joint venture continues to recognize the transferred asset to the extent of the Company and its joint venture's continuing involvement. In that case, the Company and its joint venture also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company and its joint venture has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company and its joint venture could be required to repay.

Financial Liabilities:

Initial Recognition and Measurement.

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company and its joint venture 's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent Measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortized cost (loans and borrowings)

a) Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. The Company and its joint venture have not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company and its joint venture that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company and its joint venture may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company and its joint venture have not designated any financial liability as at fair value through profit or loss.

b) Financial Liabilities measured at Amortized Cost (Loan and Borrowings)

This is the category most relevant to the Company and its joint venture. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate (EIR) amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer Note 14.

Financial guarantee contracts

Financial guarantee contracts issued by the Company and its joint venture are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115.

De-recognition of Financial Liability.

A Financial Liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss

Reclassification of financial assets

The Company and its joint venture determine classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company and its joint venture's senior management determines change in the business model as a result of external or internal changes which are significant to the Company and its joint venture's operations. Such changes are evident to external parties. A change in the business model occurs when the Company and its joint venture either begins or ceases to perform an activity that is significant to its operations. If the Company and its joint venture reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company and its joint venture do not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in profit or loss.
FVTPL	Amortized Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss the reclassification date.

Offsetting of Financial Instruments.

Financial Assets and Financial Liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(ix) Derivative Financial Instruments and hedge accounting

Initial recognition and subsequent measurement

The Company and its joint venture use derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities

when the fair value is negative. The purchase contracts that meet the definition of a derivative under Ind AS 109 are recognized in the statement of profit and loss.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognized in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, at the inception of a hedge relationship, the Company and its joint venture formally designates and documents the hedge relationship to which the Company and its joint venture wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and how the Company and its joint venture will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is 'an economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company and its joint venture actually hedges and the quantity of the hedging instrument that the Company and its joint venture actually uses to hedge that quantity of hedged item.

The Company and its joint venture designate certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast sales transactions, and thereafter, as a fair value hedge of the resulting receivables.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in OCI, e.g., cash flow hedging reserve and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the statement of profit and loss. The amount accumulated is retained in cash flow hedge reserve and reclassified to profit or loss in the same period or periods during which the hedged item affects the statement of profit or loss. Under fair value hedge, the change in the fair value of a hedging instrument is recognized in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the statement of profit and loss.

(x) Retirement and other employee Benefits

a) Defined Contribution Scheme:

Provident Fund

Contributions in respect of Employees are made to the Fund administered by the Regional Provident Fund Commissioner as per the provisions of Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and are charged to Statement of Profit and Loss as and when services are rendered by employees. Such benefits are classified as Defined Contribution Schemes as the Company and its joint venture do not carry any further obligations, apart from the contributions made on a monthly basis to the Regional Provident fund.

Employee's State Insurance

The Company and its joint venture maintain an insurance policy to fund a post-employment medical assistance scheme, which is a defined contribution plan. The Company and its joint venture's contribution to State Plans namely Employees' State Insurance Fund and Employees' Pension Scheme are charged to the statement of profit and loss every year.

If the contribution payable to the schemes for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

b) Defined Benefit Plan:

Gratuity

The Company and its joint venture provide for gratuity, a defined benefit plan (the “Gratuity Plan”) covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment. The gratuity plan in Company and its joint venture is funded through annual contributions to Life Insurance Corporation of India (LIC) under its Company and its joint venture’s Gratuity Scheme.

The Company and its joint venture’s Liabilities on account of Gratuity on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS)-19 ‘Employee Benefits’. The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company and its joint venture’s liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity through other comprehensive income in the period in which they arise. They are included in retained earnings through OCI in the statement of changes in equity and in the balance sheet. Past-service costs are recognized immediately in statement of profit and loss. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- a) The date of the plan amendment or curtailment, and
- b) The date that the Company and its joint venture recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company and its joint venture recognize the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b) Net interest expense or income

Compensated Absences

Accumulated compensated absences are either availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The Company and its joint venture measure the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company and its joint venture recognize expected cost of short-term employee benefit as an expense, when an employee renders the related service.

The Company and its joint venture have a policy to encash the entire leaves balance outstanding as at the end of the year in the subsequent year.

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees’ services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(xi) Earnings per Share (EPS)

Basic earnings per share is computed by dividing net profit or loss attributable to equity shareholders of the Company and its joint venture (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and its joint venture and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The Company and its joint venture did not have any potentially dilutive securities in any of the years presented.

(xii) Dividend

The Company and its joint venture recognize a liability to pay dividend to equity holders when the distribution is authorized, and the distribution is no longer at the discretion of the Company and its joint venture. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

(xiii) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company and its joint venture shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured using tax rates (and laws) that have been enacted or substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Sales/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the amount of sales/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

(xiv) Provisions and Contingent Liabilities/Assets

Provisions are recognized when the Company and its joint venture has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company and its joint venture expect some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company and its joint venture or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent liabilities are not recognized but are disclosed in notes.

Contingent Assets are not recognized in financial statements but are disclosed, since the former treatment may result in the recognition of income that may or may not be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset, and its recognition is appropriate.

(xv) Cash Flow Statement

The Cash flow statement has been prepared under the “Indirect Method” as set out in Indian Accounting Standard-7, “Statement of Cash Flows” whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company and its joint venture are segregated.

(xvi) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(xvii) Non-current assets held for sale

The Company and its joint venture classify non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale/distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale and the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company and its joint venture treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active program to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible are not depreciated, or amortized assets once classified as held for sale.

Assets and liabilities classified as held for sale are presented separately from other items in the balance sheet

(xviii) Fair Value Measurements

The Company and its joint venture measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
 - In the absence of a principal market, in the most advantageous market for the asset or liability.
- The principal or the most advantageous market must be accessible by the Company and its joint venture.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company and its joint venture use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the Restated Summary Statements on a recurring basis, the Company and its joint venture determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company and its joint venture determine the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets and liabilities, if any. At each reporting date, the Company and its joint venture analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company and its joint venture's accounting policies.

For the purpose of fair value disclosures, the Company and its joint venture has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(xix) Leases

The Company and its joint venture assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration is considered as lease.

As a lessee

The Company and its joint venture apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company and its joint venture recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company and its joint venture recognize right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (viii) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Company and its joint venture recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and its joint venture and payments of penalties for terminating the lease, if the lease term reflects the Company and its joint venture exercising the option to terminate.

Lease liabilities, which are separately shown in the Restated Summary Statement are measured initially at the present value of the lease payments. Subsequent measurement of a lease liability includes the increase of the carrying amount to reflect interest on the lease liability and reducing (while affecting other comprehensive income) the carrying amount to reflect the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments.

Short-term leases and leases of low-value assets

The Company and its joint venture apply the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

As a Lessor

Lease income from operating leases where the Company and its joint venture is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate the lessor for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their respective nature.

(xx) Share-based payments

Eligible Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. Further details are given in Note No. 46

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(xxi) Segment Reporting

As per the compliance of Ind AS 108 operating segments are identified based on reports reviewed by CODM (chief operating decision-maker). Operating segments can either be based on products/services or on geographical basis. It is reported in a manner which is consistent with the internal reporting provided to the judgment of CODM.

2c. Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company and its joint venture's accounting policies, management has made the following estimates and assumptions, which have the most significant effect on the amounts recognized in the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company and its joint venture based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company and its joint venture. Such changes are reflected in the assumptions when they occur.

a. Useful life of property, plant and equipment and intangible assets

The Company and its joint venture use its technical expertise along with historical and industry trends for determining the economic useful life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortized amount is charged over the remaining useful life of the assets.

b. Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the nature of business differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company and its joint venture establish provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Valuation of recoverable income tax assets especially with respect to deferred tax assets on tax loss carry forwards. Significant judgement is required in determining the provision for income tax. The Company and its joint venture recognize liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

c. Contingencies

The Company and its joint venture estimate the provisions and liabilities and to the probability of expenses arising claims from legal disputes/litigations that have present obligations as a result of past events, and it is

probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting date and are adjusted to reflect the current best estimates.

d. Defined Benefit Plans

The cost of the defined benefit gratuity plan and other post-employment defined benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves various assumptions that may differ from actual developments in future. These Includes the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Further details about gratuity obligations are given in Note 33.

e. Fair Value Measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 36 and 37 for further disclosures.

2d. Changes in accounting policies and disclosures

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated March 31, 2023, to amend the following Ind AS which are effective from April 01, 2023.

(i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

(ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognised for all deductible and taxable temporary differences associated with leases and decommissioning obligations.

The amendments listed above did not have any impact on the amounts recognised in prior periods presented or current period.

2e. Standards Issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the half year ended September 30, 2023, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Part A: Statement of Restatement Adjustments to Audited Financial Statements

Reconciliation between total equity as per audited financial statements and Restated Summary Statement

Particulars	Standalone	Consolidated			Standalone
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Total Equity (as per audited financial statements)	11,033.34	9,047.25	9,883.07	7,876.24	6,451.59
Adjustments	-	-	-	-	-
Total equity as per restated summary statement of assets and liabilities	11,033.34	9,047.25	9,883.07	7,876.24	6,451.59

Reconciliation between profit for the year/period after tax as per audited financial statements and restated profit after tax as per Restated Summary Statement of Profit and Loss

Particulars	Standalone	Consolidated			Standalone
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Profit for the year/period after tax (as per audited financial statements)	1,192.99	1,163.97	2,087.01	1,422.89	864.48
Restatement Adjustments	-	-	-	-	-
Restated profit after tax for the year/period	1,192.99	1,163.97	2,087.01	1,422.89	864.48

Part B: Material regrouping

Appropriate regroupings have been made in the Restated Summary Statements of assets and liabilities, Restated Summary Statement of profit and loss and Restated Summary Statements of cash flows, wherever required, by reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows, in order to bring them in line with the accounting policies and classification as per the Restated Summary Statements of the Company for the year ended March 31, 2023 prepared in accordance with Schedule III of Companies Act, 2013, requirements of Ind AS 1 - 'Presentation of financial statements' and other applicable Ind AS principles and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2018, as amended.

For the year ended March 31, 2022 (Consolidated)

Restated Summary Statement of Assets and Liabilities

Particulars	As at March 31, 2022 (Reported)	As at March 31, 2022 (Restated)	Change	Nature
Assets				
Non-current assets				
Non current tax assets	-	1.69	(1.69)	Reclassification of tax balance
Other non current assets	279.52	277.83	1.69	Reclassification of tax balance
Current Assets				
Financial assets:				
Loans	-	1.90	(1.90)	Reclassification of Loans from Other Financial Assets
Other Financial Assets	33.21	31.31	1.90	Reclassification of Loans
Other Current Assets	117.91	141.67	(23.76)	Reclassification for GST credit from Other current liabilities
Current liabilities				
Other financial liabilities	183.76	204.86	(21.10)	Reclassification of Bonus Payable to employees from Other current liabilities
Other Current Liabilities	52.07	54.74	(2.67)	Reclassification of Bonus Payable to employees to Other financial liabilities and GST credit to Other Current Assets

Restated Summary Statement of Profit and Loss

Particulars	As at March 31, 2022 (Reported)	As at March 31, 2022 (Restated)	Change	Nature
Expenses				
Employee benefits expense	695.37	686.78	8.59	Reclassification of security & housekeeping expenses to Other Expenses
Other expenses	1,712.30	1,720.89	(8.59)	Reclassification of security & housekeeping expenses from Employee Benefits expense

Current Borrowings	1,198.13	1,234.74	(36.61)	Reclassification of Current maturity of Long term borrowings from Other Financial liabilities
Other financial liabilities	95.81	73.29	22.52	Reclassification of Bonus Payable to employees from Other current liabilities and Current maturity of Long term borrowings to Current Borrowings
Other Current Liabilities	45.70	84.93	(39.23)	Reclassification of Bonus Payable to employees to Other financial liabilities and GST credit to Other Current Assets

Part C : Non Adjusting Items

Audit qualifications for the respective years/period, which do not require any adjustments in the Restated Summary Statement are as follows:

- There are no audit qualification in auditor's report for the financial year ended March 31,2023, March 31,2022 and March 31,2021 and half year ended September 30, 2023 and September 30, 2022.
- Other audit qualifications included in the annexure to the Auditors' reports issued under Companies (Auditor's Report) Order, 2020, on the consolidated financial statements for the year ended March 31,2023, March 31, 2022 and audit qualifications included in the annexure to the Auditors' reports issued under Companies (Auditor's Report) Order, 2016 (as amended) on the standalone financial statements for the year ended March 31,2021, which do not require any corrective adjustment in the Restated Summary Statements are as follows:

For the year ended March 31, 2023 (Consolidated)

Clause (vii) (a) of Companies (Auditor's Report) Order, 2020

(vii) (a) Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

c) Other audit qualifications included in the annexure to the auditor's report issued under section 143(3)(i) of the Act on the audit of Internal Financial Controls who do not require any adjustments in the Restated Summary Statement are as follows :

For the year ended March 31, 2021 (Standalone)
Disclaimer of Opinion

According to the information and explanation given to us, the Company's internal financial control over financial reporting with reference to these financial statements is not established in compliance with criteria based on or considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether the Company had adequate internal financial controls with reference to these financial statements as at March 31, 2021 and whether such internal financial controls were operating effectively. Accordingly, we do not express an opinion on Internal Financial Controls Over Financial Reporting with reference to these financial statements.

i) Project 1	-	26.95	-	-	26.95
Total	-	26.95	-	-	26.95

The overdue project was related to 'Robot Gripper Up & Down Receiving Table' which was delayed due to covid restrictions. This project was overdue in terms of completion only and not in terms of cost and this is capitalised in financial year 2022-23.

Note 3 (b)

Assets held for sale

One of the plant and machinery was classified as held for sale based on the management decision to dispose of this asset in near future. This asset was not in active usage and was measured at the lower of its carrying amount and fair value less costs to sell. The fair value of this asset was determined using the market comparison approach.

No trade or other receivable are due from directors or other officers of the Company either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

For terms and conditions relating to related party receivables, refer Note 35.

Trade receivables are non-interest bearing and are generally on terms of 30 to 180 days.

The carrying amount of trade receivables includes receivables which are discounted with banks. The Company has transferred the relevant receivables to the discounting bank in exchange for cash.

However, the Company has retained the late payment and credit risk. Accordingly, the Company continues to recognise the transferred assets in entirety in its balance sheet. Refer note 14.3 for information on trade receivables pledged as security by the Company.

* During the Financial year 2021-22, the Company had increased authorised Capital from Rs 100.00 million to Rs 300.00 million divided into 150.00 million shares of Rs. 2/- each.

Further, the Company had sub divided its Equity Shares in the ratio of 50 Equity Shares of Rs. 2/- each for the 1 equity share of Rs. 100/- each. accordingly 4,47,49,500 total fully paid up equity shares of Rs.2/- are replaced from existing 894,990 shares of Rs. 100/- each.

Subsequent to sub-division, the Company had issued 44,749,500 equity shares of face value Rs. 2/- each as bonus shares in the ratio of 1:1 to all the existing shareholders of the Company. Consequent upon such bonus issue, the paid up capital of the Company stands increased from Rs. 89.50 millions to Rs. 179.00 millions. (Also refer note 28)

b) Rights, preferences and restrictions attached with shares

Equity Shares: The Company currently has only one class of equity shares having a par value of Rs. 2/- per share (September 30, 2022 of Rs. 2/- per share, March 31,2023 of Rs. 2/-per share, March 31,2022 of Rs. 2/-per share, March 31,2021 of Rs. 100/-per share). Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend, if proposed by the Board of Directors, is subject to the approval of the shareholders in the Annual General Meeting, except in case of Interim dividend.

In the event of liquidation of the Company, the holders of equity shares are entitled to receive the remaining assets of the Company, after distribution of all preferential amounts. Investor shareholders having 11.76% of total shareholding, upon the occurrence of Liquidation Event, shall be entitled to receive, subject to applicable laws in preference to all other equity shareholder of the Company and before any distribution is made out of the assets of the Company, higher of the cost of shares purchased or liquidation proceeds in proportion to the respective shareholding as defined in their investment agreement. The distribution for remaining proceeds, if any, will be in proportion to the number of equity shares held by the shareholders.

Nature and purpose of Reserves

(a) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

(b) Retained earning

Retained earnings are the portion of a company's profit that is held or retained and saved for future use. Retained earnings could be used for funding an expansion or paying dividends to shareholders at a later date.

(c) Cash Flow Hedging Reserve

The Company uses hedging instruments as part of its management of exposure to risks associated with foreign currency. For hedging foreign currency, the Company uses foreign exchange forward contracts. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedge reserve. Amount recognised in the cash flow hedge reserve is reclassified to the statement of profit or loss when the hedged item affects profit

(d) Share Based Payment Reserve

The share options-based payment reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option scheme. Refer Note 46 for details.

The space has been left blank intentionally

27(b) Capitalisation of expenditure

The Company has capitalised the following expenses of revenue nature to the cost of Property, plant and equipment/Capital work in progress (CWIP). Consequently, expenses disclosed under the respective notes are net of amounts capitalised by the Company.

Particulars	Standalone	Consolidated			
	For the half year ended September 30, 2023	For the half year ended September 30, 2022	For the Year ended March 31, 2023	For the Year ended March 31, 2022	For the Year ended March 31, 2021
Interest on bank facilities @ Nil (September 30, 2022: 4.33%, March 31, 2023: 3.77%, March 31, 2022: 0.96%) (Specific borrowings)	-	2.52	2.74	4.25	-
Interest on bank facilities @ 7.22% (September 30, 2022: 5.58%, March 31, 2023: 5.58%, March 31, 2022: 5.71%) (General borrowings)	12.11	22.43	22.43	34.68	-
Salaries wages and bonus	1.13	9.04	9.04	9.73	-
Total	13.24	34.19	34.21	48.66	-

28. Earnings Per Share (EPS)

The following table reflects the income and share data used in the basic and diluted EPS computations:

Particulars	Standalone	Consolidated			
	For the half year ended September 30, 2023	For the half year ended September 30, 2022	For the Year ended March 31, 2023	For the Year ended March 31, 2022	For the Year ended March 31, 2021
(I) Net Profit attributable to equity shareholders of the Company	1,192.99	1,163.97	2,087.01	1,422.89	864.48
(II) Weighted average number of Equity shares for EPS					
-Basic (Face Value Rs.2/- per share (September 30, 2022: 2/- per share, March 31, 2023: Rs 2/- per share, March 31, 2022 : Rs.2/-per share, March 31, 2021 : Rs 100/per share) ⁽ⁱ⁾	8,94,99,000	8,94,99,000	8,94,99,000	8,94,99,000	8,94,99,000
-Diluted (Face Value Rs.2/- per share (September 30, 2022: 2/- per share, March 31, 2023: Rs 2/- per share, March 31, 2022 : Rs.2/-per share, March 31, 2021 : Rs 100/per share) ⁽ⁱⁱ⁾	8,94,99,000	8,94,99,000	8,94,99,000	8,94,99,000	8,94,99,000
(III) Earning per equity share (September 30, 2023 : nominal value of ₹ 2 per share, September 30, 2022 : nominal value of ₹ 2 per share, March 31, 2023 : nominal value of ₹ 2 per share, March 31, 2022 : nominal value of ₹ 2 per share, March 31, 2021 : nominal value of ₹ 100 per share)					
-Basic ^(iv)	13.33	13.01	23.32	15.90	9.66
-Diluted ^{(iv)(v)}	13.33	13.01	23.32	15.90	9.66

(i) The Company does not have any potential equity shares and thus, weighted average number of shares for computation of basic EPS and diluted EPS remains same.

(ii) During the Financial year 2021-22, the Company has sub divided its Equity Shares in the ratio of 50 Equity Shares of Rs. 2/- each for the 1 equity share of Rs. 100/- each.

(iii) During the year ended March 31, 2022, the company has issued bonus shares to the share holders without consideration. The weighted average number of shares for the year ended March 31, 2021 have been adjusted to reflect the impact of bonus issue and share split. (Refer Note 12)

(iv) not annualised for the half year ended September 30, 2023 and September 30, 2022.

(v) Shares reserved for issue under employee stock option scheme does not impact diluted EPS as cash exercise price of unvested share options and fair value of services yet to be rendered per option is in excess of the fair value of equity share.

29. Contingent liabilities and commitments

Particulars	Standalone	Consolidated			
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
a. Contingent Liabilities					
Claims against the Company not acknowledged as debts:					
(i) Excise/Goods & service tax demands (demand that pertains to reversal of Cenvat credit on Job work, classification difference of parts of railway engine and credit claimed through TRAN-1 on capital goods)	18.74	18.74	18.74	21.68	21.68
(ii) Income tax demands (Demands for Additions on account of unaccounted sales of stock/excess share premium received and for disallowance for late deposition of statutory dues)	17.34	17.31	17.31	14.32	14.32
The above matters are subject to legal proceedings in the ordinary course of business. On the basis of the current status of the individual case and as per legal advice obtained by the Company, wherever applicable, along with the opinion of Management, when ultimately concluded will not have material effect on the results of the operations or financial position of the Company.					
b. Capital Commitments					
Estimated amount of contracts remaining to be executed on capital expenditure and not provided for (net of advances)	1,454.41	777.24	1,136.44	1,263.60	1,536.07
c. EPCG Commitment					
The Company has export obligations to the extent Rs. 192.74 millions (September 30, 2022 Rs 1,198 millions, March 31, 2023 Rs. 459.76 millions, March 31, 2022 Rs. 1,343.70 millions, March 31, 2021 Rs 1,063.97 millions) of on account of concessional rates of import duties paid on capital goods under the Export Promotion Capital Goods Scheme enacted by the Government of India which is to be fulfilled over the next eight /six years. Due to the remote likelihood of the Company being unable to meet its export obligations, the Company does not anticipate a loss with respect to these obligations and hence has not made any provision in its financial statements.	53.04	199.67	76.63	223.95	177.33
d. Outstanding Bank guarantees	25.24	30.48	17.64	17.47	10.81

The space has been left blank intentionally

30. Details of dues to the Micro, Small and Medium Enterprises Development (MSMED) Act, 2006

The Company has certain dues to suppliers registered under Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act'). The disclosures pursuant to the said MSMED Act is as follows:

Particulars	Standalone	Consolidated			
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Principal amount due to suppliers registered under the MSMED Act and remaining unpaid as at period / year end (Refer note 17 and 18)	66.91	55.17	66.61	73.73	66.03
Interest due to suppliers registered under the MSMED Act and remaining unpaid as at period / year end	0.21	0.01	0.19	0.02	0.94
	67.12	55.18	66.80	73.75	66.97
Principal amounts paid to suppliers registered under the MSMED Act, beyond the appointed day during the period / year	14.82	0.42	8.98	0.60	91.04
The amount of interest paid by the buyer in terms of section 16 of the MSMED Act 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting period / year	-	-	-	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the period / year) but without adding the interest specified under the MSMED Act 2006.	-	-	-	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting period / year	0.21	0.00	0.19	0.02	0.94
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006	-	-	-	-	-

31. Lease

The Company incurred Rs. 1.38 millions for the period ended September 30, 2023 (September 30, 2022 Rs. 1.16 millions, March 31, 2023 Rs 2.53 millions, March 31, 2022 Rs 2.24 millions, March 31, 2021 Rs 1.71 millions) towards expenses relating to short terms leases and leases of low value assets and the same is recognized under other expenses in statement of Profit and loss account.

Leases mainly comprise of facility taken for use as sales office and as warehouse facilities.

32. Segment Information

The Company business comprises only Forging segment where Company sells forged products comprising of forgings and machined components for automotive and industrial sector. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The disclosure requirements of Ind AS 108- operating Segments" notified by the Companies (Accounting standard) Rules 2006 (as amended) is not applicable.

The Company's Chairman and Managing Director is the Chief Operating Decision Maker (CODM) and monitors all operating segments' operating results to make decisions about resources to be allocated to the segments and assess their performance.

As the Chief operating decision maker of the Company assesses the financial performance and position of the Company as a whole and maker strategic decision, the management considers manufacturing of forgings and related components as a single operating segment as per Ind As 108, hence separate segment disclosure, have not been furnished.

The following table shows the distribution of the Company's net revenue by geographical market, regardless of where the goods were produced:

Revenue from contract with customers	Standalone	Consolidated			
	For the half year ended September 30, 2023	For the half year ended September 30, 2022	For the Year ended March 31, 2023	For the Year ended March 31, 2022	For the Year ended March 31, 2021
Within India	4,883.55	4,655.93	9,351.64	7,068.88	5,005.60
Outside India	1,278.80	627.12	1,383.51	868.14	481.05
Total	6,162.35	5,283.05	10,735.15	7,937.02	5,486.65

Revenue from transactions with a single external customer amounting to 10 per cent or more of the Company's revenues is as follows:

Particulars	Number of customer	Amount
For the half year ended September 30, 2023	1	822.13
For the half year ended September 30, 2022	2	1,375.32
Year ended March 31, 2023	1	1,766.78
Year ended March 31, 2022	2	2,016.74
Year ended March 31, 2021	2	1,549.24

Non - current operating assets

The Company has non- current operating assets within India only. Hence, separate figures for domestic as well as overseas market are not required to be furnished.

The space has been left blank intentionally

33. Employee Benefits Obligation

(I) Defined benefit schemes

(a) Gratuity (Funded)

The Company operates a gratuity plan administered through Life Insurance Corporation of India (LIC) under its Group Gratuity Scheme. Every employee is entitled to a benefit equivalent to fifteen days' salary last drawn for each completed year of service in line with the Payment of Gratuity Act, 1972. The same is payable at the time of separation from the Company or retirement, whichever is earlier. The benefits vest after five years of continuous service. The Company pays contribution to Life Insurance Corporation of India to fund its plan.

The reconciliation of opening and closing balances of the present value of the defined benefit obligations are as below:

Particulars	Standalone		Consolidated		Standalone
	For the half year ended September 30, 2023	For the half year ended September 30, 2022	For the Year ended March 31, 2023	For the Year ended March 31, 2022	For the Year ended March 31, 2021
(i) Changes in the present value of defined benefit obligation					
Present value of defined benefit obligation as at period / year beginning	80.27	66.47	66.47	55.02	49.61

Current Service Cost	9.64	7.68	18.03	15.52	11.71
Net Interest Cost/(Income)	0.58	0.42	0.83	0.60	0.73
Net Cost/(Gain) Recognised in the Statement of Profit and Loss	10.22	8.10	18.86	16.12	12.44

Expense recognised in the Other Comprehensive Income:

Particulars	Standalone		Consolidated		Standalone
	For the half year ended September 30, 2023	For the half year ended September 30, 2022	For the Year ended March 31, 2023	For the Year ended March 31, 2022	For the Year ended March 31, 2021
Remeasurements (gains)/losses	(4.55)	(5.90)	(2.83)	(4.20)	(4.16)
Actuarial (gain)/Loss for the period / year on asset	(0.01)	(0.02)	(0.28)	(0.15)	1.01
Net Cost Recognised in the Other comprehensive income (OCI)	(4.56)	(5.92)	(3.11)	(4.35)	(3.15)

(iv) Details of provision for gratuity recognised in the Balance sheet:

Particulars	Standalone		Consolidated		Standalone
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Amounts Recognised in the Balance Sheet					
Present value of defined benefit obligation at the period / year end	85.58	66.56	80.27	66.47	55.02
Fair Value of the Plan Assets at the period / year end	(79.92)	(64.40)	(64.51)	(54.71)	(46.38)
Liability/(Asset) Recognised in the Balance Sheet	5.66	2.17	15.76	11.76	8.65

The space has been left blank intentionally

(v) A quantitative sensitivity analysis for significant assumption is as shown below

	Standalone		Consolidated		Standalone
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
a) Impact of change in discount rate					
Present Value of obligation at the end of the period / year	85.58	66.56	80.27	66.46	55.01
a) Impact due to increase of 0.5%	(4.83)	(3.58)	(4.39)	(3.59)	(3.01)
b) Impact due to decrease of 0.5%	5.31	3.93	4.82	3.94	3.32
b) Impact of change in Salary increase					
Present Value of obligation at the end of the period / year	85.58	66.56	80.27	66.46	55.01
a) Impact due to increase of 0.5%	5.09	3.83	4.66	3.82	3.19
b) Impact due to decrease of 0.5%	(4.70)	(3.52)	(4.29)	(3.51)	(2.95)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

(vi) Expected contribution for the next Annual reporting period

	Standalone		Consolidated		Standalone
Particulars	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
a) Service cost	24.88	20.24	23.16	19.97	17.17
b) Net interest cost	0.41	0.16	1.16	0.84	0.59
c) Expected expense for the next annual reporting period	25.29	20.40	24.31	20.80	17.76

(ix) Significant Actuarial Assumptions

	Standalone		Consolidated		Standalone
Particulars	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Discount Rate	7.33%	7.54%	7.36%	7.18%	6.79%
Number of Employees	3,071	2,840	2909	2,639	2,309
Maximum Gratuity amount limit	2 million	2 million	2 million	2 million	2 million
Mortality Rate	100% of IALM(2012-14)	100% of IALM(2012-14)	100% of IALM(2012-14)	100% of IALM(2012-14)	100% of IALM(2012-14)
Future Salary Increase (%)	7%	7%	7.00%	7.00%	7.00%
Retirement Age (Years)	58	58	58	58	58
Attrition at Ages			-		
Up to 30 Years	5%	5.00%	5.00%	5.00%	5.00%
From 31 to 44 years	3%	3.00%	3.00%	3.00%	3.00%
Above 44 years	2%	2.00%	2.00%	2.00%	2.00%

The estimates of future salary increases considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market
Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India. The discount rate is based on the government securities yield
The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards.

(x) Major category of Plan Assets of the fair value of the total plan assets are as follows:-

	Standalone		Consolidated		Standalone

Expenses towards gratuity and leave encashment provisions are determined by actuary on an overall Company basis at the end of each period and year and, accordingly have not been considered in the above information.

Terms and conditions of transactions with related parties

- The Company's principal related parties consist of its key managerial personnel. The Company's related party transactions and outstanding balances are with related parties with whom the Company routinely enters into transactions in the ordinary course of business.
- Key Managerial Personnel are entitled to short term employment benefits recognised as per Ind AS 19 'Employee Benefits' in the financial statements. As these employees benefits are lump sum amounts provided on the basis of actuarial valuation the same is not included above.
- All transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions and within the ordinary course of business.

Note:-

Since the Company has investment only in joint venture in the respective period/years, there are no transactions that are eliminated on consolidation.

* Fair Value hierarchy is given only for those Financial Assets and Financial Liabilities which are fair valued.

The management assessed that the fair value of cash and cash equivalents, trade receivables, derivative instruments, trade payables and other current financial assets and liabilities approximate their carrying value largely due to the short term maturities of these instruments.

There have been no transfers between Level 1, Level 2 and Level 3 during the period ended September 30, 2023 and September 30, 2022 and year ended March 31, 2023, March 31, 2022 and March 31, 2021.

B Fair Value hierarchy:

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

- (i) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- (iii) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The space has been left blank intentionally

37. Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings and trade payables. The main purpose of these financial liabilities is to finance the Company's working capital requirements. The Company has various financial assets such as trade receivable, short term deposits and cash & cash equivalents, which arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's Board of Directors oversees the management of these risks and also ensures that financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, debt and equity investments and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at March 31, 2023, March 31, 2022 and March 31, 2021.

(i) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities by way of direct imports/exports and long term foreign currency borrowings. The Company evaluates the exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Foreign currency sensitivity

The following table represents the sensitivity to a reasonably possible change in USD, GBP and EURO exchange rates, with all other variables held constant. The sensitivity analysis includes only outstanding foreign currency denominated monetary items as mentioned above and adjusts their translation at the period end for a 5% change in foreign currency rates. A positive number below indicates an increase in profit or equity and vice-versa.

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company is exposed to interest rate risk on short-term and long-term floating rate instruments. The borrowings of the Company are principally denominated in Indian Rupees with a mix of fixed and floating rates of interest. The Company has a policy of selectively using interest rate swaps and other derivative instruments to manage its exposure to interest rate movements. These exposures are reviewed by appropriate levels of management on a regular basis. The exposure of company's borrowing to interest rate changes as reported to the management at the end of reporting period are as follows:

Particulars	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Fixed Rate borrowings	-	-	-	-	-
Floating Rate borrowings (Refer Note 14)	2,589.74	2,623.44	2,185.16	2,403.52	1,534.70

Interest rate sensitivity analysis

A reasonably possible change of 0.50% in interest rates at the reporting date would have affected the profit or loan by the amounts shown below. This analysis has been determined based on the exposure to interest rates for floating rate liabilities assuming the amount of liability outstanding on the period / year end was outstanding for the whole period / year.

Particulars	Profit/(Loss) before tax	
	Strengthening	Weakening
For the six months period ended September 30, 2023 (Standalone)		
Interest rate (0.5% Movement)	(12.95)	12.95

Interest rate (0.5% Movement)	(13.12)	13.12
For the year ended March 31, 2023 (Consolidated)		
Interest rate (0.5% Movement)	(10.93)	10.93
For the year ended March 31, 2022 (Consolidated)		
Interest rate (0.5% Movement)	(12.02)	12.02
For the year ended March 31, 2021 (Standalone)		
Interest rate (0.5% Movement)	(7.67)	7.67

(iii) Commodity price risk

The Company is affected by price volatility of certain commodities. The principal raw materials for the Company products are alloy and carbon steel in the form of rounds and billets which are purchased by the Company from the approved list of suppliers. Most of the input materials are procured from domestic vendors which is subject to price negotiations. Due to significant volatility in prices of steel, the Company has agreed with its customers for pass through of increase/decrease of prices of steel. There may be a lag effect in case of such

(iv) Equity price risk

The Company's non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to unlisted equity securities at fair value was Nil (September 30, 2022 Nil, March 31, 2023 Nil, March 31, 2022 Rs. 4.12 millions, March 31, 2021 : Nil).

The space has been left blank intentionally

B. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, and other financial instruments.

Trade receivables

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored by Management & President Sales and corrective actions are taken.

Any shipments to major customers are generally covered by letters of credit or other forms of credit insurance obtained from reputable banks and other financial institutions.

The movement in allowance for impairment in respect of trade receivables is as follows:

Particulars	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Balance at the beginning of the period / year	14.15	14.88	14.88	14.30	16.40
Provision created during the period / year	0.29	0.07	-	0.58	-

Balance at the end of the period / year	52.56	52.56	52.56	49.99	50.76

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's finance & accounts department in accordance with the Company's policy.

Investments of surplus funds are made with banks in Fixed deposits.

C. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial assets. The Company's approach to manage liquidity is to have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed circumstances, without incurring unacceptable losses or risking damage to the Company's reputation.

Management manages the liquidity risk by monitoring cash flow forecasts on a periodic basis and maturity profiles of financial assets and liabilities. This monitoring takes into account the accessibility of cash and cash equivalents and additional undrawn financing facilities. The Company will continue to consider various borrowings options to maximize liquidity and supplement cash requirements as necessary. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, cash credit facilities and buyers' credit facilities. As at 30 September 2023, the Company has available Rs. 3,308.49 millions (September 30, 2022: Rs 3,506.10 millions, March 31, 2023: Rs 3,972.14 millions, March 31, 2022: Rs. 2,863.31 millions and March 31, 2021 : Rs 3,144.61 millions) in form of undrawn committed borrowing limits.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

38. Capital Risk Management

For the purpose of the Company's capital management, capital includes issued equity capital, security premium and all other equity, security premium and reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents and other bank balances.

Particulars	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Borrowings (Refer note 14)	2,589.74	2,623.43	2,185.16	2,403.52	1,534.70
Less: Cash & cash equivalents (Refer note 10)	(6.45)	(28.94)	(0.13)	(0.20)	(28.87)
Less: Other bank balance (Refer note 11)	(5.78)	(14.64)	(3.28)	(14.40)	(248.96)
Net debt	2,577.51	2,579.85	2,181.75	2,388.92	1,256.87
Total capital	11,033.34	9,047.25	9,883.07	7,876.24	6,451.59
Capital and net debt	13,610.85	11,627.10	12,064.82	10,265.16	7,708.46
Gearing ratio	18.94%	22.19%	18.08%	23.27%	16.31%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the period ended September 30, 2023 and September 30, 2022 and years ended March 31, 2023, March 31, 2022 and March 31, 2021.

39. Recognition of Government Grants

a) Under Invest Punjab scheme, the Company is eligible for various incentives like 100% exemption of electricity duty and Infrastructure development fund and Net State Goods and Service Tax (SGST) Incentive calculated based on GST deposited and applicable GST Rate, 100% exemption/refund of stamp duty and change of Land use (CLU) fees and 50% exemption of property tax.

During the current period the Company has recognised government grant in relation to exemption of electricity duty and Infrastructure development fund amounting to Rs. 27.55 millions (September 30, 2022: Rs 16.57 millions, March 31, 2023: Rs 34.32 millions, March 31, 2022: Rs. 31.49 millions, March 31, 2021: Rs 55.61 millions). The grant amount is netted from the Power & fuel Expenses under other expenses. As on September 30, 2023, Rs. 1.75 millions (September 30, 2022: Rs 1.03 millions, March 31, 2023: Rs 1.56 millions, March 31, 2022: Rs. 15.93 millions, March 31, 2021: Rs 55.61 millions) of grant amount is receivable under this scheme.

Also, during the current period, the Company has recognised government grant in relation to refund of eligible Net SGST Incentive calculated based on GST paid on eligible sales amounting to Rs. 39.09 millions (September 30, 2022: Rs 272.22 millions, March 31, 2023: Rs 323.57 millions, March 31, 2022: Nil, March 31, 2021: Nil) under other operating revenue. The amount for the period ended September 30, 2022 and year ended March 31, 2023 includes grant related to earlier periods sales amounting to Rs 133.13 million and Rs 138.45 million which was not recognised earlier as the company did not have reasonable assurance for its ultimate collection at that point. As on September 30, 2023, Rs. 272.93 millions of grant amount is receivable under this scheme.

b) The Company has recognised export incentives under the Duty drawback Scheme and Remission of Duties or Taxes on Export of Products Scheme (RoDTEP) aggregating to Rs. 31.55 millions (September 30, 2022: Rs 14.05 millions, March 31, 2023: Rs 32.36 millions, March 31, 2022: Rs. 19.47 millions, March 31, 2021: 16.75 millions). The amount of incentive recognised has been disclosed as other operating revenue.

The space has been left blank intentionally

40. Hedging activities and derivatives

a) Derivatives not designated as hedging instruments

The Company uses foreign exchange forward contracts to manage its exposure to risks associated with foreign currency. These derivative contracts are not designated as hedging instrument in cash flow hedge and are entered into for periods consistent with foreign currency exposure of the underlying transactions, generally from one to twelve months.

b) Derivatives designated as hedging instruments

Foreign exchange forward contracts measured at fair value through OCI are designated as hedging instruments in cash flow hedges of forecast sales in EURO; and thereafter as a fair value hedge for the resulting receivables. These forecast transactions are highly probable.

The foreign exchange forward contract balances vary with the level of expected foreign currency sales and changes in foreign exchange forward rates.

The fair value of derivative financial instruments is as follows:

Particulars	Asset					Liabilities				
	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021	As at September 30, 2023	As at September 30, 2022	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone	Standalone	Consolidated	Consolidated	Consolidated	Standalone
a) Fair value of foreign currency forward exchange	-	3.49	-	-	-	37.67	-	110.26	-	-

The critical terms of the foreign currency forward contracts match the terms of the expected highly probable forecast sale transactions. As a result, no hedge effectiveness arise requiring recognition through profit or loss.

The cash flow hedges of the forecasted sale transactions during the period / year ended September 30, 2023 were assessed to be highly effective and unrealised loss / (gain) of Rs. 72.59 millions (September 30, 2022: (Rs. 3.49) millions, March 31, 2023: 110.26 millions, March 31, 2022: Nil, March 31, 2021 : Nil), with a deferred tax asset / (deferred tax liability) of Rs. 18.27 millions (September 30, 2022: (Rs. 0.88 millions), March 31, 2023: Rs. 27.75 millions, March 31, 2022 : Nil, March 31, 2021 : Nil) relating to the hedging instruments, is included in OCI.

Valuation Technique

The Company enters into derivative financial instruments with Banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing models, using present value calculations. Where quoted market prices are not available, fair values are based on management's best estimates, which are arrived at by the reference to market prices.

The following table includes the maturity profile of the foreign exchange derivative as on September 30, 2023 contracts:

	Maturity										Total
	Less than 1 month	1 to 6 months	6 to 12 months	12 to 18 months	18 to 24 months	24 to 30 months	30 to 36 months	36 to 42 months	42 to 48 months	48 to 54 months	
As at September 30, 2023 (Standalone)											
Foreign exchange derivative contracts (highly probable forecast sales)											
Notional amount (in EURO)	-	-	27,50,000	33,00,000	33,00,000	33,00,000	33,00,000	16,50,000	-	-	1,76,00,000
Average forward rate (EURO/Rs.)	-	-	88.08	89.74	91.70	93.80	96.00	97.72	-	-	92.75

The following table includes the maturity profile of the foreign exchange derivative as on September 30, 2022 contracts:

Particulars	Maturity										Total
	Less than 1 month	1 to 6 months	6 to 12 months	12 to 18 months	18 to 24 months	24 to 30 months	30 to 36 months	36 to 42 months	42 to 48 months	48 to 54 months	
As at September 30, 2022											
Foreign exchange derivative contracts (highly probable forecast sales)											
Notional amount (in EURO)	-	7,50,000	12,50,000	15,00,000	15,00,000	15,00,000	15,00,000	15,00,000	15,00,000	7,50,000	1,17,50,000

Annexure VII- Notes to the Restated Summary Statements

(All amount in Rs. millions, except for share data and if otherwise stated)

Note 41: Ratio Analysis and its elements

Ratio	Numerator	Denominator	As at March 31, 2022	As at March 31, 2021	% Change	Reason for variance
			Consolidated	Standalone		
Current Ratio	Current Assets	Current Liabilities	1.73	1.86	-7%	Not Applicable
Debt Equity Ratio	Total Debt	Shareholder's equity	0.31	0.24	28%	During the current year, the Company has availed the additional Working capital limits and term loans which is in line with increase in Inventory/Book debt level and capex expansion programme of the Company, as a result of which debt equity ratio has declined.
Debt Service Coverage Ratio	Earnings for debt service=Net profit after taxes+non cash operating expenses	Debt service= Interest & lease payments+ principal repayments	19.14	9.93	93%	Improvement in the ratio is due to increase in operating margin with increase in revenue
Return on Equity Ratio	Net profit after taxes-preference dividend	Average shareholder's equity	19.86%	14.36%	38%	During the current year, profits of the Company has increased due to increase in revenue resulting in increase in contribution, as a result of which the Return on Equity ratio has improved.
Inventory Turnover Ratio	Cost of goods sold	Average inventory	2.54	2.55	0%	Not Applicable
Trade Receivable Turnover Ratio	Net credit sale=Gross credit sales-sales return	Average trade receivable	4.43	3.84	15%	Not Applicable
Trade Payable Turnover Ratio	Net credit purchases=Gross credit purchases-purchase return	Average trade payable	12.90	9.50	36%	During the current year, due to growth in turnover, there is increase in purchase of RM however the Company is regular in payment to vendors. Accordingly, there is no significant change in balance of Trade payables even with the higher purchases volume as a result of which Trade Payable ratio has improved.
Net Capital Turnover Ratio	Net Sales= Total sales-sales return	Working Capital=current assets-current liabilities	4.77	3.74	28%	With the efficient working capital management, working capital has not been increased in proportion to sales.
Net Profit Ratio	Net Profit	Revenue from Operation	16.54%	14.78%	12%	Not Applicable
Return on Capital Employed	Earning before interest and taxes	Capital Employed=Total Equity+ Total Debt	19.38%	16.13%	20%	Not Applicable

45. Other Statutory Information

- (i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.
- (ii) The Company does not have any transactions with companies struck off.
- (iii) The Company does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period,
- (iv) The Company has not traded or invested in Crypto currency or Virtual Currency during the financial period / year.
- (v) The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
- (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
- (b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries
- (vi) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:
- (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
- (b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries,
- (vii) The Company does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961
- (viii) The Company is not declared as wilful defaulter by any bank or financial institution.

46. Employee Stock Option Scheme

Employee stock option plan namely HAPPY FORGINGS ESOP SCHEME 2023 (the "Plan") was adopted by the Board of Directors in their meeting held on July 31, 2023. As per the Plan the Company, at its discretion, may grant share options to eligible employees, once the employee has completed one year of service. Vesting of the share options is dependent on the completion of a minimum period of employment with the Company and/ or fulfilment of performance conditions as may be specified in this regard. Employees have a graded option plan where in the fair value of share options granted is estimated at the date of grant using a Black Scholes Model of Valuation, taking into account the terms and conditions upon which the share options were granted.

The exercise price of the share options is Rs. 190 per equity share. The contractual term of the share options is five years and there are no cash settlement alternatives for the employees.

The expense recognised for employee services received during the period/year is shown in the following table:

	September 30, 2023 INR millions	September 30, 2022 INR millions	March 31, 2023 INR millions	March 31, 2022 INR millions	March 31, 2021 INR millions
Expense arising from equity-settled share-based payment transactions	15.90	-	-	-	-
Total expense arising from share-based payment transactions	15.90	-	-	-	-

There were no cancellations or modifications to the awards in period ending September 30, 2023.

Movements during the period/year

The number of, and movements in, share options during the period/year is as follows:

	September 30, 2023 Number	September 30, 2022 Number	March 31, 2023 Number	March 31, 2022 Number	March 31, 2021 Number
Opening Balance					
Granted during the year	3,92,687	-	-	-	-
Exercised during the year	-	-	-	-	-
Closing Balance	3,92,687	-	-	-	-
Exercisable at the end of the period/year	-	-	-	-	-

The weighted average remaining contractual life for the share options outstanding as at September 30, 2023 is 1.95 years.

The weighted average fair value of options granted during the period/year is Rs. 416.95

The exercise prices for options outstanding at the end of the period/year is Rs. 190.00

List the inputs to the models used for the three plans for the years ended September 30 2023:

	September 30, 2023	September 30, 2022	March 31, 2023	March 31, 2022	March 31, 2021
Weighted average fair values at the measurement date	416.95	-	-	-	-
Expected volatility (%)	10.41	-	-	-	-
Risk-free interest rate (%)	7.17	-	-	-	-
Average Expected life of share options (years)	4.61	-	-	-	-
Weighted average fair value (INR)	553.70	-	-	-	-
Model used	Black Scholes	-	-	-	-

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

47. Events after reporting date:

There are no events occurred after the reporting period which may impact the financial position as on September 30, 2023.

OTHER FINANCIAL INFORMATION

Accounting ratios derived from the Restated Financial Information

The accounting ratios derived from Restated Financial Information required to be disclosed under the SEBI ICDR Regulations are set forth below. The table below should be read in conjunction with the sections titled “*Risk Factors*”, “*Financial Information*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*”, on pages 36, 302 and 384, respectively:

Particulars	Six months ended September 30, 2023	Six months ended September 30, 2022	As at and for the year ended March 31, 2023	As at and for the year ended March 31, 2022	As at and for the year ended March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Earnings per share (basic) (in ₹) ^{1^A}	13.33	13.01	23.32	15.90	9.66
Earnings per share (diluted) (in ₹) ^{2^A}	13.33	13.01	23.32	15.90	9.66
Return on net worth ³ (%)	10.81%	12.87%	21.12%	18.07%	13.40%
Net asset value per Equity Share (in ₹) ⁴	123.28	101.09	110.43	88.00	72.09
EBITDA ⁵ (in ₹ million)	1,952.14	1,818.62	3,409.40	2,308.87	1,587.46

Notes:

1. Basic EPS (₹) = Basic earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year.
2. Diluted EPS (₹) = Diluted earnings per share are calculated by dividing the net restated profit for the period / year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year as adjusted for the effects of all dilutive potential Equity Shares during the year.
3. Return on net worth is calculated as restated profit for the period / year divided by total equity.
4. Net asset value per equity share is calculated as total equity divided by weighted average number of equity shares.
5. EBITDA is calculated as profit for the period / year minus other income and share of net profit of joint venture plus finance costs, depreciation and amortisation, total income tax expenses.

^ABasic and Diluted EPS numbers for the six months ended September 30, 2023 and September 30, 2022 have not been annualised.

In accordance with the SEBI ICDR Regulations, the audited standalone financial statements of our Company as at and for Fiscals 2023, 2022 and 2021 (collectively, the “**Audited Standalone Financial Statements**”) are available on our website at <https://happyforgingsltd.com/investors>.

Our Company is providing a link to this website solely to comply with the requirements specified in the SEBI ICDR Regulations. The Audited Standalone Financial Statements and reports thereon do not constitute, (i) a part of this Prospectus; or (ii) a prospectus, a statement in lieu of a prospectus, an offering circular, an offering memorandum, an advertisement, an offer or a solicitation of any offer or an offer document to purchase or sell any securities under the Companies Act, the SEBI ICDR Regulations, or any other applicable law in India or elsewhere.

The Audited Standalone Financial Statements and reports thereon should not be considered as part of information that any investor should consider subscribing for or purchase any securities of our Company or any entity in which our Shareholders have significant influence and should not be relied upon or used as a basis for any investment decision. None of the entities specified above, nor any of their advisors, nor BRLMs or the Selling Shareholders, nor any of their respective employees, directors, affiliates, agents or representatives accept any liability whatsoever for any loss, direct or indirect, arising from any information presented or contained in the Audited Standalone Financial Statements, or the opinions expressed therein.

Reconciliation of non-GAAP measures

Reconciliation for the following non-GAAP financial measures included in this section, is set out below:

Reconciliation of Restated Profit for the Period / Year to EBITDA and EBITDA Margin

The table below reconciles restated profit for the period / year to EBITDA. EBITDA is calculated as profit for the period / year minus other income and share of profits from joint venture plus finance costs, depreciation and

amortisation and total income tax expenses, while EBITDA Margin is calculated as EBITDA divided by revenue from operations.

(₹ million, unless otherwise stated)

Particulars	Six months ended September 30, 2023	Six months ended September 30, 2022	As at and for the year ended 2023	As at and for the year ended 2022	As at and for the year ended 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Restated profit for the period / year (I)	1,192.99	1,163.97	2,087.01	1,422.89	864.48
Other income (II)	28.33	21.91	57.41	60.59	58.55
Finance costs (III)	71.34	36.84	124.75	71.59	117.84
Depreciation and amortization expense (IV)	316.53	243.20	541.82	377.40	357.56
Total income tax expense (V)	399.61	396.57	713.28	497.63	306.13
Share of net profit of joint venture (VI)	-	0.05	0.05	0.05	-
EBITDA (VII = I-II+III+IV+V-VI)	1,952.14	1,818.62	3,409.40	2,308.87	1,587.46
Revenue from operations (VIII)	6,729.00	5,998.00	11,965.30	8,600.46	5,849.58
EBITDA Margin (%) (IX) = (VII/VIII)	29.01%	30.32%	28.49%	26.85%	27.14%

Reconciliation of total equity to net asset value per equity share

The table below reconciles total equity to net asset value per equity share. Net asset value per equity share is calculated as total equity divided by weighted average number of equity shares.

Particulars	Six months ended September 30, 2023	Six months ended September 30, 2022	As at and for the year ended March 31, 2023	As at and for the year ended March 31, 2022	As at and for the year ended March 31, 2021
	Standalone	Consolidated	Consolidated	Consolidated	Standalone
Total equity (I) (₹ million)	11,033.34	9,047.25	9,883.07	7,876.24	6,451.59
Weighted average number of equity shares (II)	89,499,000	89,499,000	89,499,000	89,499,000	89,499,000
Net Asset Value per equity share (III) = (I/II) (₹ per share)	123.28	101.09	110.43	88.00	72.09

Related party transactions

For details of the related party transactions, as per the requirements under applicable Accounting Standards i.e. Ind AS 24 ‘Related Party Disclosures’ for the six months ended September 30, 2023 and Fiscals 2023, 2022 and 2021, read with the SEBI ICDR Regulations, and as reported in the Restated Financial Information, see “*Restated Financial Information – Note 35. Related party Disclosure*” on page 366.

CAPITALISATION STATEMENT

The following table sets forth our capitalisation as of September 30, 2023, derived from our Restated Financial Information:

<i>(in ₹ million, except otherwise stated)</i>		
Particulars	Pre-Offer as at September 30, 2023	As adjusted for the Offer
Borrowings		
Non-current borrowings (including current maturities) (I)	501.06	501.06
Current borrowings (excluding current maturities of non-current borrowings) (II)	2,088.68	2,088.68
Total borrowings (III = I + II)	2,589.74	2,589.74[^]
Equity		
Equity share capital (IV)	179.00	188.41 [#]
Other equity (V)	10,854.34	14,844.93 [#]
Total equity (VI = IV + V)	11,033.34	15,033.34[#]
Non-current borrowings (including current maturities) / total equity (VII = I / VI)	0.05	0.03
Total borrowings / total equity (VIII = III / VI)	0.23	0.17

[^]No change in borrowings subsequent to September 30, 2023, has been considered.

[#]Changes in Equity Share capital and other equity on account of proceeds from the Fresh Issue of 4,705,882 Equity Shares of face value of ₹2 each (including a share premium of ₹848 per Equity Share) aggregating to ₹4,000.00 million, out of which ₹9.41 million has been adjusted towards Equity Share capital and ₹3,990.59 million has been adjusted towards other equity. Further, the other equity amount has not been adjusted for share issue expenses on account of the Offer.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to convey the management's perspective on our financial condition and results of operations for Fiscal 2021, 2022 and 2023 and the six months ended September 30, 2022 and 2023 and should be read in conjunction with "Restated Financial Information" on page 302.

This Prospectus may include forward-looking statements that involve risks and uncertainties, and our actual financial performance may materially vary from the conditions contemplated in such forward-looking statements as a result of various factors, including those described below and elsewhere in this Prospectus. For further information, see "Forward-Looking Statements" on page 25. Also see "Risk Factors" and "— Significant Factors Affecting our Results of Operations and Financial Condition" on pages 36 and 389, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations.

Our Company's Fiscal commences on April 1 and ends on March 31 of the immediately subsequent year, and references to a particular Fiscal are to the 12 months ended March 31 of that particular year. Unless otherwise indicated or the context otherwise requires, the financial information for Fiscal 2021, 2022 and 2023 and the six months ended September 30, 2023 and 2022 included herein is derived from the Restated Financial Information, included in this Prospectus. For further information, see "Restated Financial Information" on page 302. In this section, we have compared our consolidated financial information as of and for the year ended March 31, 2022 and March 31, 2023 and our standalone financial information as of and for the year ended March 31, 2021 and these periods are not comparable to each other. Further, we have compared consolidated financial information as of and for the six months ended September 30, 2022 with our standalone financial information as of and for the six months ended September 30, 2023.

Ind AS differs in certain respects from Indian GAAP, IFRS and U.S. GAAP and other accounting principles with which prospective investors may be familiar. Also see "Risk Factors — Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition" on page 74.

*Unless otherwise indicated, industry and market data used in this section has been derived from the industry report titled "Industry Report on Global and Indian Forging and Machining Markets" dated November 30, 2023 (the "**Ricardo Report**") prepared and issued by Ricardo India Private Limited, appointed by us pursuant to an engagement letter dated May 16, 2023 and exclusively commissioned and paid for by us to enable the investors to understand the industry in which we operate in connection with the Offer. The data included herein includes excerpts from the Ricardo Report and may have been re-ordered by us for the purposes of presentation. Unless otherwise indicated, financial, operational, industry and other related information derived from the Ricardo Report and included herein with respect to any particular calendar year/ Fiscal refers to such information for the relevant calendar year/ Fiscal. A copy of the Ricardo Report was available on the website of our Company <https://happyforgingsltd.com/investors> until the Bid / Offer Closing Date. For further information, see "Risk Factors – Other internal risks – Certain sections of this Prospectus disclose information from the Ricardo Report which is a paid report and commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks" on page 68. Also see, "Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation –Industry and market data" on page 21.*

OVERVIEW

We are the fourth largest engineering led manufacturer of complex and safety critical, heavy forged and high precision machined components in India as of Fiscal 2023 in terms of forgings capacity (*Source: Ricardo Report*). We, through our vertically integrated operations, are engaged in engineering, process design, testing, manufacturing, and supply of a variety of components that are both margin accretive and value-additive. We primarily cater to domestic and global original equipment manufacturers ("**OEMs**") manufacturing commercial vehicles in the automotive sector, while in the non-automotive sector, we cater to manufacturers of farm equipment, off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

With over 40 years of experience of manufacturing and supplying quality and complex components according to customers specifications, we have emerged as a leading player in the domestic crankshaft manufacturing industry with the second largest production capacity for commercial vehicle and high horse-power industrial crankshafts in India (*Source: Ricardo Report*). Our focus on producing margin accretive value-added products has led to our transition from being a forging led business to a machined components manufacturer. Our revenue from sale of machined products has increased from ₹3,992.02 million in Fiscal 2021 (representing 72.88% of our revenue from sale of products in such Fiscal) to ₹8,392.33 million in Fiscal 2023 (representing 78.66% of our revenue from sale of products in such Fiscal), at a CAGR of 44.99% which demonstrates our increased focus on machined products. Our strength in machining and overall value addition to products has enabled us to achieve the highest EBITDA margin among our peers (refer to “*Our Business – Competition*” on page 263 for details of our peers) in the last two Fiscals (i.e., Fiscal 2022 and 2023) (*Source: Ricardo Report*). We recorded an increase in our revenue from operations by 104.55% from ₹5,849.58 million in Fiscal 2021 to ₹11,965.30 million in Fiscal 2023. Our continued endeavour to increase value addition through focus on products with higher machining intensity, has enabled us to increase our realisation and in Fiscal 2023, 2022, 2021 and the six months ended September 30, 2022 and 2023, EBITDA was ₹3,409.40 million, ₹2,308.87 million, ₹1,587.46 million, ₹1,818.62 million and ₹1,952.14 million, respectively, and our EBITDA margin was 28.49%, 26.85%, 27.14%, 30.32% and 29.01%, respectively.

We manufacture a wide range of heavy forged and machined products which include crankshafts, front axle beams, steering knuckles, differential cases, transmission parts, pinion shafts, suspension products and valve bodies across industries for a diversified base of customers.

Our Product Portfolio

We are among the few companies in India with the capability to manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries (*Source: Ricardo Report*). The following tables set forth below the revenue from sale of products to automotive and non-automotive sectors for the years/ periods indicated:

Sector	Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR (Fiscal 2021 to Fiscal 2023)
	Consolidated		Consolidated		Standalone		
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	
Automotive Sector ⁽¹⁾	4,656.76	43.65%	3,355.58	42.72%	2,054.10	37.50%	50.57%

Sector	Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR (Fiscal 2021 to Fiscal 2023)
	Consolidated		Consolidated		Standalone		
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	
Non Automotive Sector ⁽²⁾	6,012.73	56.35%	4,500.07	57.28%	3,423.30	62.50%	32.53%
Revenue from the Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%	39.57%

⁽¹⁾ Sale of products to manufacturers of commercial vehicles.

⁽²⁾ Sale of products to manufacturers of farm equipment and off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

Sector	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Automotive Sector ⁽¹⁾	2,468.14	40.38%	2,201.26	41.74%
Non Automotive Sector ⁽²⁾	3,643.45	59.62%	3,072.40	58.26%
Revenue from the Sale of Products	6,111.59	100.00%	5,273.66	100.00%

⁽¹⁾ Sale of products to manufacturers of commercial vehicles.

⁽²⁾ Sale of products to manufacturers of farm equipment and off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries.

We believe that the critical application of our products, along with their heavy weight, closed tolerance and stringent quality requirements of OEMs serve as entry barriers for new players to qualify as suppliers or in their ability to replace us in supplying precision products we manufacture (*Source: Ricardo Report*). Further, we believe that our focus on the high HP engine segment insulates us from any potential electric vehicle (“EV”) disruption as hydrogen, compressed natural gas (“CNG”) and liquified natural gas (“LNG”) combustion engine technologies are expected to become prominent alternate powertrain technologies in this segment and crankshaft as a product is compatible to such combustion engines with minimal or no alterations (*Source: Ricardo Report*).

We are a supplier to each of the top five Indian OEMs, by market share, in the medium and heavy commercial vehicle industry and four of the top five Indian OEMs in the farm equipment industry by market share, in Fiscal 2023 (*Source: Ricardo Report*). We believe that our long-standing relationships with our customers has positioned us as a trusted supplier for several Indian and global OEMs. Some of our customers include AAM India Manufacturing Corporation Private Limited, Ashok Leyland Limited, Bonfiglioli Transmissions Private Limited, Dana India, IBCC Industries (India) Private Limited, International Tractors Limited, JCB India Limited, Liebherr CMctec India Private Limited, Mahindra & Mahindra Limited, Meritor HVS AB, Meritor Heavy Vehicle Systems Cameri SPA, SML ISUZU Limited, Swaraj Engines Limited, Same Deutz Fahr India Private Limited, Tata Cummins Private Limited, Watson & Chalin India Private Limited (Hendrickson India Commercial Vehicle Systems) and Yanmar Engine Manufacturing India Private Limited. As of March 31, 2023, 2022, 2021 and as of September 30, 2023 and 2022, our customers who have been associated with us for more than 10 years contributed ₹8,106.38 million, ₹6,235.28 million, ₹4,418.70 million, ₹4,465.72 million and ₹4,379.85 million in Fiscal 2023, 2022 and 2021 and in the six months ended September 30, 2023 and 2022, respectively, representing 75.98%, 79.38%, 80.67%, 73.07% and 83.05% of our revenues from sale of products during the respective periods, which indicates the depth of our relationships with them. As of September 30, 2023, we served customers across nine countries including Brazil, Italy, Japan, Spain, Sweden, Thailand, Turkey, the United Kingdom and the United States of America. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from contract with customers outside India was ₹1,383.51 million, ₹868.14 million, ₹481.05 million, ₹1,278.80 million and ₹627.12 million representing 12.89%, 10.94%, 8.77%, 20.75% and 11.87% of our total revenue from contract with customers during such periods, respectively. We have received numerous certificates and awards over the years, including the “*Supplier Excellence Award*” for delivery performance at the AAM India Supplier Event 2023, certificate of appreciation under the strategic theme “*Business Excellence Process/ Digitalisation*” in 2023

from Escorts Kubota Limited, “*Outstanding Contribution in Overall Performance Excellence*” award in 2017 from VE Commercial Vehicles Limited, a joint venture of the Volvo Group and Eicher Motors, “*Overall Excellence in Cost Delivery and Quality*” award at Partners Meet 2016 organised by Escorts Kubota Limited, “*Proactive Cost Competitiveness*” award for the year 2015-16 at Supplier Summit 2016 organised by Ashok Leyland and the “*Best Supplier (Forging)*” from a gear manufacturer in 2015.

We are dedicated to continuously investing in machinery and equipment to expand our forging and machining capacity to seize opportunities for growth in the market. As of March 31, 2023, we are only the second company in India to have a 14,000 tonne forging press or higher forging press and are among the four companies in India that possess a 8,000 tonne forging press or higher forging press (*Source: Ricardo Report*), allowing us to manufacture heavier and complex products with greater precision and accuracy, thereby better serving our customers. We are also among the few players in the Indian forging industry that have a forging capacity of about 107,000 MT as of March 31, 2023 (*Source: Ricardo Report*). In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our additions to our cost of property, plant and equipment were ₹2,777.96 million, ₹775.90 million, ₹1,760.39 million, ₹506.80 million and ₹890.37 million, respectively. Around 39.13% of our gross block (i.e., cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development), as of March 31, 2023, was a result of our capital expenditure made between Fiscal 2022 and Fiscal 2023. We believe that our experience of strategically adding capacity coupled with our commitment to capital efficiency, has resulted us in recording the highest ROCE among peers in Fiscal 2023 (*Source: Ricardo Report*). Further, the installation of our new 14,000 tonne press enables us to forge heavier and safety critical parts up to 250 kilograms using the close die forging process, which expands our capabilities to cater to different industries. We believe that the upgrades we have undertaken to our manufacturing facilities, infrastructure, machines, equipment and technology have enabled us to offer a diverse products, reduce operating costs, drive productivity and will enable us to capitalise on future growth.

As of the date of this Prospectus, we own and operate three manufacturing facilities, of which two are located at Kanganwal in Ludhiana, Punjab and one is located at Dugri in Ludhiana, Punjab. Our annual aggregate installed capacity for forging and machining has increased from 67,000.00 MT and 29,500.00 MT, respectively, as of March 31, 2021 to 107,000.00 MT and 46,100.00 MT as of March 31, 2023 and further to 120,000.00 MT and 47,200.00 MT as of September 30, 2023, respectively. For more information on the capacity of our manufacturing facilities, see “*Our Business – Installed Capacity, Average Annual Available Capacity, Actual Production and Capacity Utilisation*” on page 249. We focus on reducing waste in manufacturing processes, weight optimisation through simulation trials, value engineering and cost optimisation in machining and automation and re-laying out to increase production efficiency. We have automated certain processes in our manufacturing lines by using robots to reduce manpower costs and increase productivity. As of September 30, 2023, we had 10 robots installed across all our manufacturing facilities. Our vertically integrated manufacturing facilities are equipped to undertake a variety of processes, including engineering and designing, hammer and press forging, metallurgical testing, heat treatment, machining and dimensional testing among others, enabling us to manufacture a wide range of products weighing majorly between 3 kilograms to 250 kilograms. We believe our engineering capabilities that have evolved over last 40 years, enable us to offer quality, complex, high precision and safety critical components, allowing us to cater to a wide array of industries and bespoke customer requirements.

We have established a track of consistent revenue growth and profitability. Our revenue from operations increased from ₹5,849.58 million in Fiscal 2021 to ₹11,965.30 million in Fiscal 2023 at a CAGR of 43.02% while our restated profit for the year increased from ₹864.48 million in Fiscal 2021 to ₹2,087.01 million in Fiscal 2023 at a CAGR of 55.38%.

The following table sets forth certain financial information for our Company for the years/ periods indicated:

Particulars	As of/ For the year ended March 31,			As of/ For the six months ended September 30,	
	2023	2022	2021	2023	2022

Total Assets (₹ million)	13,261.68	11,298.69	8,763.84	14,897.98	12,858.06
Return on Equity (%) ⁽⁶⁾	21.12%	18.07%	13.40%	10.81%	12.87%
Return on Capital Employed (%) ⁽⁷⁾	24.24%	19.38%	16.13%	12.21%	13.69%
Cash Conversion Cycle (days) ⁽⁸⁾⁽⁹⁾	167	187	N.A.	174	169
Gross Block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development) (₹ million)	9,338.65	7,980.78	5,469.17	10,122.29	8,624.93
Gross Fixed Assets Turnover Ratio (in times) ⁽¹⁰⁾	1.40	1.47	1.16	0.74	0.90
Addition to Property, Plant and Equipment (₹ million)	2,777.96	775.90	1,760.39	506.80	890.37
Net Debt to EBITDA (in times) ⁽¹¹⁾	0.64	1.03	0.79	1.32	1.42

Notes:

- Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus (increase)/decrease in inventories of finished goods, work-in-progress and scrap.
- Gross Margin is calculated as gross profit divided by revenue from operations.
- EBITDA is calculated as profit for the year/ period minus other income and share of profits net profit of joint venture plus finance costs, depreciation and amortisation and total income tax expenses.
- EBITDA Margin is calculated as EBITDA divided by revenue from operations.
- PAT Margin is calculated as restated profit for the year/ period divided by revenue from operations.
- Return on Equity is calculated as restated profit for the year/ period divided by total equity. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus total borrowings while EBIT is calculated as restated profit for the year/ period plus total income tax expense plus finance costs. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- For Fiscal 2023, 2022 and 2021, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 365 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 365 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 365 days.
- For the six months ended September 30, 2023 and 2022, cash conversion cycle is calculated as Inventory days plus Trade receivable days minus Trade payable days.
 - Inventory days is calculated as Average Inventory divided by Cost of Goods Sold ('COGS') multiplied by 183 days.
 - Trade receivable days is calculated as Average Trade receivables divided by revenue from operations multiplied by 183 days.
 - Trade payable days is calculated as Trade payable divided by COGS multiplied by 183 days.
- Gross Fixed Assets Turnover Ratio is calculated as revenue from operations for the year/ period divided by cost of property, plant and equipment. The figures are on an unannualized basis for the six months ended September 30, 2023 and 2022.
- Net Debt to EBITDA is calculated as net debt divided by EBITDA. Net Debt is calculated as total of non-current borrowings and current borrowings minus total of cash and cash equivalents and bank balances.

For reconciliation in relation to the Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA, see “– Non-GAAP Measures” on page 412.

Our Promoters and senior management have been instrumental in the growth of our business. Our Promoter, Chairman and Managing Director, Paritosh Kumar, founded our Company in 1979 and continues to provide strategic guidance and oversees overall performance of our Company. Our Promoter and Managing Director, Ashish Garg, holds a master’s degree in science in manufacturing systems engineering from University of Warwick, United Kingdom and has over 17 years of experience in the industrial sector, and drives new investment and growth strategy besides managing day to day operations of our Company. We have been supported by an equity investment from MO Alternates that also provides us with capital and strategic advice, which we believe has been critical to the growth of our business. MO Alternates through India Business Excellence Fund – III subscribed to certain equity shares of our Company between September 2018 to January 2019 for a total consideration of ₹1,999.98 million. For further details regarding allotments to India Business Excellence Fund – III, see “Capital Structure – Notes to the Capital Structure – Equity share capital history of the Company” on page 97.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our results of operations have been, and will continue to be, affected by a number of events and actions, some of which are beyond our control. However, there are some specific items that we believe have impacted our results of operations and, in some cases, will continue to impact our results. We believe that the following factors, amongst others, have, or could have an impact on these results, the manner in which we generate income and incur the expenses associated with generating this income.

Macroeconomic conditions and trends affecting the sectors which we cater

We cater primarily to domestic and global OEMs manufacturing commercial vehicles in the automotive sector, while in the non-automotive sector, we cater to manufacturers of farm equipment and off-highway vehicles and manufacturers of industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries. The tables below set out the revenues generated from various end-use industries and as a percentage of our revenue from sale of products:

End-use Industry	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Consolidated		Consolidated		Standalone	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Automotive Sector						
Commercial Vehicles	4,656.76	43.65%	3,355.58	42.72%	2,054.10	37.50%
Non Automotive Sector						
Farm Equipment	3,925.19	36.79%	3,179.74	40.48%	2,402.91	43.87%
Off Highway Vehicles	1,692.55	15.86%	1,162.71	14.79%	910.39	16.62%
Industrial*	394.99	3.70%	157.62	2.01%	110.00	2.01%
Total Non-Automotive Sector	6,012.73	56.35%	4,500.07	57.28%	3,423.30	62.50%
Revenue from the Sale of Products	10,669.49	100.00%	7,855.65	100.00%	5,477.40	100.00%

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

End-use Industry	Six months ended September 30, 2023		Six months ended September 30, 2022	
	Standalone		Consolidated	
	Amount (₹ million)	Percentage of Revenue from Sale of Products	Amount (₹ million)	Percentage of Revenue from Sale of Products
Automotive Sector				
Commercial Vehicles	2,468.14	40.38%	2,201.26	41.74%
Non Automotive Sector				
Farm Equipment	2,035.73	33.31%	2,113.10	40.07%
Off Highway Vehicles	770.51	12.61%	798.97	15.15%
Industrial*	837.21	13.70%	160.33	3.04%
Total Non-Automotive Sector	3,643.45	59.62%	3,072.40	58.26%
Revenue from the Sale of Products	6,111.59	100.00%	5,273.66	100.00%

*Includes sale of products to manufacturers of industrial machinery and equipment for oil and gas, power generation, railways and wind turbine industries.

The demand for forged and machined products depends to a large extent on general economic conditions in these industries. Some of the general macro-economic factors that may affect demand for our products include:

- industrial growth of a country or region and its impact on transportation and logistics services, which in turn impact the demand for commercial vehicles;
- agriculture growth and its impact on the agricultural activity, which in turn impact the demand for farm equipment;
- investments in infrastructure projects, such as roads and highways and its impact on the demand for off-highway vehicles;
- fluctuations in oil prices can impact operating costs for vehicles, particularly in the transportation and logistics sectors;
- changes in interest rates can impact borrowing costs for businesses and end consumers, which may affect their purchasing decisions for commercial vehicles, farm equipment and off-highway vehicles; and
- general levels of GDP growth in a country or region, and growth in personal disposable income in that country or region

See “*Industry Overview*” on page 159, for a discussion of macroeconomic conditions in the global economy and Indian economy and trends affecting the demand for commercial, farm equipment and off-highway vehicles.

Further, as per the Ricardo Report, adoption of electric vehicles is growing in the two-wheeler and passenger vehicle industries. The adoption of EVs in the heavy commercial vehicle vertical has been insignificant due to factors such as high upfront costs, range limitations, and charging infrastructure availability in rural and remote areas (*Source: Ricardo Report*). Heavy-duty vehicles such as trucks, off-highway vehicles, tractors require more power and have different operating requirements than PVs, which makes it more difficult to switch to EVs (*Source: Ricardo Report*). We believe that EV penetration will have limited impact on our operations given our focus on manufacturing machined components for heavy commercial vehicles, farm equipment vehicles, off-highway vehicles and components for industries such as oil and gas, power generation, railways and wind turbine (*Source: Ricardo Report*). As per the Ricardo Report, hydrogen, LNG, and CNG combustion engines are among the most promising alternative engine technologies for the commercial vehicle industry. We believe that crankshafts will remain an important product in the heavy-duty automotive industry for the foreseeable future as the same are compatible for engines run on hydrogen, CNG and LNG with minimal or no alternations (*Source: Ricardo Report*).

Raw Material Costs, Operating Costs and Operational Efficiencies

Our business, financial condition, results of operations and prospects are significantly impacted by the prices of raw materials purchased by us, particularly prices of steel. The cost of raw materials and components consumed was ₹5,477.24 million, ₹4,358.47 million, ₹2,572.56 million, ₹3,209.12 million and ₹2,746.63 million in Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022 which represented 45.78%, 50.68%, 43.98%, 47.69% and 45.79% of our revenue from operations for the respective Fiscals/ periods. Our financial condition and results of operations are significantly impacted by the availability and costs of raw materials. Raw material pricing can be volatile due to a number of factors beyond our control, including global demand and supply, general economic and political conditions, transportation and labour costs, labour unrest, natural disasters, competition, import duties, fuel prices and availability, power tariffs and currency exchange rates. This volatility in commodity prices can significantly affect our raw material costs. Further, our contracts with our customers generally provide for pass through of any variation in the raw material costs. However, our cash flows may still be adversely affected because of any gap in time between the date of procurement of those primary raw materials and date on which we can reset the product prices for our customers, to account for the increase in the prices of such raw materials.

Our ability to manage our operating costs and operations efficiencies is critical to maintaining our competitiveness and profitability. Our profitability is partially dependent on our ability to increase our productivity and reduce our operating expenses. According to the Ricardo Report, among peers, we recorded the highest ROCE in Fiscal 2023 and the highest EBITDA margin in the last two Fiscals. In the past, we had undertaken certain initiatives aimed at improving operational efficiencies and optimizing our manufacturing operations such as investments in line automation and robotics to replace human workers in performing repetitive tasks, installation of solar panels, implementation of measures to reduce lead-time in our manufacturing processes such as optimizing production processes, reducing scrap and rework and improvement in our inventory management to optimize transportation costs and expedite raw materials procurement and product delivery.

Relationship with and purchasing pattern of our key customers

We have established long-standing relationships with several Indian and global customers across industries. We are among the few companies in India that manufacture and supply high precision safety critical components to leading OEMs including manufacturers of commercial vehicles, farm equipment, off-highway vehicles and industrial equipment and machinery for oil and gas, power generation, railways and wind turbine industries (*Source: Ricardo Report*). We have a diversified customer base and served 66 customers in Fiscal 2023.

We have long-standing relationships, on average, of more than 14 years with our top 10 customers (in terms of revenue from sale of products in Fiscal 2023) as of March 31, 2023. In Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, revenue from sale of products from our top 10 customers was ₹8,384.81 million, ₹6,418.99 million, ₹4,634.06 million, ₹4,610.83 million and ₹4,286.12 million representing 70.08%, 74.64%, 79.22%, 68.52% and 71.46% of our revenue from operations during such Fiscals/ periods, respectively which demonstrates our gradual reduction of our dependence on our top 10 customers.

The effect of variations in our customers' purchasing patterns is based on the forecasts from the customers, as is standard in the automotive and non-automotive sectors. Any increases or decreases in the levels of inventory and activity by our customers, in turn, are likely to have an effect on our revenues and our results of operations. Our customers, in turn, are dependent on general trends in the automotive and non-automotive sectors. See, “ – *Macroeconomic conditions and trends affecting the sectors which we cater*” on page 389.

Expansion of our product portfolio

We have a track record of manufacturing complex and precision safety critical engineered products for commercial vehicles, farm equipment, off-highway vehicles and products that have industrial applications. We intend to enhance our capabilities as a manufacturer of forged and precision-machined products that have industrial applications with a particular focus on industries such as defence, power generation, oil and gas and wind turbine. In Fiscal 2023, 2022 and 2021 and the six months ended September 30, 2023 and 2022, our revenue from sale of products to the industrial market was ₹394.99 million, ₹157.62 million, ₹110.00 million, ₹837.21 million and ₹160.33 million respectively, representing 3.70%, 2.01%, 2.01%, 13.70% and 3.04% of our revenue from sale of products during such Fiscals/ periods, respectively. Further, our customer base of the industrial market increased from 19 customers

in Fiscal 2021 to 24 customers in Fiscal 2023.

The global market for machined components for industrials and others segment which includes industrial, lawn and gardens, marine, power generation and railways is expected to grow at a CAGR of approximately 4.8% by value during 2023 and 2029 to reach USD 12.7 billion by 2029. (Source: Ricardo Report). The global market for power generation is expected to grow at a significant rate due to the increasing demand for reliable backup power solutions in various industries such as healthcare, telecommunications, and manufacturing (Source: Ricardo Report). the forging and machining market in the oil and gas industry is expected to grow in the coming years (Source: Ricardo Report). The defence industry is a significant consumer of forging and machining components, with applications ranging from small parts used in firearms to large parts used in military vehicles and aircraft (Source: Ricardo Report). We plan to utilize our engineering and product development capabilities to manufacture high-precision products for industrial applications, leveraging our newly installed 14,000 tonne press to forge heavier and complex parts weighing up to 250 kilograms. To achieve this, we seek to introduce new products, catering to the unique requirements of these industries.

Further, we intend to diversify our product portfolio by entering the market for lightweight forging and machined products. As per the Ricardo Report, the use of lightweight materials is a growing trend in various industries. The automotive industry, in particular, is driving this trend due to the increasing demand for fuel-efficient vehicles. The aerospace and defence industries are also adopting lightweight materials to improve performance and reduce costs (Source: Ricardo Report). This trend is likely to continue in the future as there is a growing emphasis on sustainability and energy efficiency (Source: Ricardo Report). By leveraging our existing capabilities, we aim to introduce aluminium forging and machining products to cater to the growing demand for lightweight materials in various industries such as automotive, aerospace, and defence.

The success of these industries and products depends on our management's ability to identify high growth potential opportunities and utilise our resources to develop these opportunities, which could have a significant impact on our results of operations.

Impact of foreign exchange fluctuation

A portion of our revenue is generated from export of our products to Brazil, Italy, Japan, Spain, Sweden, Turkey, Thailand, United Kingdom and the United States of America. As of March 31, 2023, we served customers across nine countries and in Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our revenue from contract with customers outside India was ₹1,383.51 million, ₹868.14 million, ₹481.05 million, ₹1,278.80 million and ₹627.12 million representing 12.89%, 10.94%, 8.77%, 20.75% and 11.87% of our total revenue from contract with customers during such periods, respectively. Our export sales are dependent upon the general economic condition of the countries where we export our products. In addition, our export sales are also dependent upon the policies of the governments of the importing countries and any changes to the policies of these countries relating to the exports from India, or the quality, characteristics and variety of the products exported by us to such countries could impact our revenues from exports. Our business could also be impacted by any regulatory development or change in the GoI's policies on export including export duties and other forms of export restrictions.

Further, our financial statements are presented in Indian Rupees. As a result of our exports, we are exposed to foreign currency risks that arise from our business transactions that are denominated in foreign currencies. We hedge our contracts in line with our formal hedging policy and also utilise forward contracts to mitigate our foreign currency risks. The tables below set forth details of our gain/loss on foreign exchange variation (net) as a percentage of our revenue from operations in the years/ periods indicated:

Fiscal 2023		Fiscal 2022		Fiscal 2021	
Consolidated		Consolidated		Standalone	
Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations
45.46	0.38%	44.55	0.52%	9.82	0.17%

Six months ended September 30, 2023		Six months ended September 30, 2022	
Standalone		Consolidated	
Loss on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations	Gain on Foreign Exchange Variation (net) (₹ million)	Percentage of Revenue from Operations
0.98	0.01%	19.13	0.32%

The exchange rate between the Indian Rupee and these currencies has fluctuated in the past. Depreciation of the Indian rupee against these foreign currencies will generally have a positive effect on our revenues and operating income and appreciation of the Indian rupee against foreign currencies will generally have a negative impact on our revenues and operating income.

Availability of funds for capital expenditure

We continuously invest in machinery and equipment to expand our forging and machining capacity to seize opportunities for growth in the market. In Fiscal 2023, 2022, 2021 and the six months ended September 30, 2023 and 2022, our capital expenditure (i.e. payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance)) was ₹1,745.87 million, ₹1,908.42 million, ₹916.64 million, ₹1,010.98 million and ₹883.01 million and our gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development) was ₹9,338.65 million, ₹7,980.78 million, ₹5,469.17 million, ₹10,122.29 million and ₹8,624.93 million as at March 31, 2023, 2022 and 2021, and as of September 30, 2023 and 2022, respectively. Around 39.13% of our gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets and intangible assets under development), as of March 31, 2023, was a result of our capital expenditure made between Fiscal 2022 and Fiscal 2023. Our experience of strategically adding capacity coupled with our commitment to capital efficiency, has resulted us in recording the highest ROCE among peers in Fiscal 2023 (*Source: Ricardo Report*).

The actual amount and timing of our future capital expenditure may deviate from initial estimates due to various factors. These factors include unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, engineering design changes, technological advancements, and emerging market developments and opportunities in the automotive and non-automotive sectors.

PRESENTATION OF FINANCIAL INFORMATION

The restated financial information of our Company comprising: (i) the restated consolidated summary statement of assets and liabilities of the Company and its joint venture as at March 31, 2023, September 30, 2022, March 31, 2022, the restated consolidated summary statement of profit and loss (including other comprehensive income), the restated consolidated summary statement of cash flows and the restated consolidated summary statement of changes in equity for the financial years ended March 31, 2023 and March 31, 2022 and for the six months ended September 30, 2022 together with the summary statement of significant accounting policies, and other explanatory information relating to such financial periods; and (ii) the restated standalone summary statement of assets and liabilities as at March 31, 2021 and September 30, 2023, the restated standalone summary statement of profit and loss (including other comprehensive income), the restated standalone summary statement of cash flows and the restated standalone summary statement of changes in equity for the financial year ended March 31, 2021 and for the six months ended September 30, 2023 together with the summary statement of significant accounting policies, and other explanatory information relating to such financial periods.

The restated financial information of our Company is derived from our audited consolidated financial statements as at and for the years ended March 31, 2023 and March 31, 2022, prepared in accordance with Ind AS and audited standalone financial statements as at and for the six months ended September 30, 2023 prepared in accordance with Ind AS 34 and as at and for the year ended March 31, 2021 prepared in accordance with Ind AS, and restated in accordance with requirements of Section 26 of Part I of Chapter III of Companies Act, SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI

SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies forming basis of the preparation of our Restated Financial Information is set forth below. These policies have been consistently applied to all the years and periods presented, unless otherwise stated.

Revenue from contract with customer

Revenue from contracts with customers is recognized when the control of goods or services are transferred to the customer at an amount that reflects the consideration to which the Company and its joint venture expects to entitle in exchange for the goods or services. The Company and its joint venture have concluded that it is the principal in all its revenue arrangements, because it typically controls the goods or services before transferring them to the customers.

Sale of Goods: Revenue from the sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of goods. The normal credit term is 30 to 150 days.

The Company and its joint venture consider whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties, customer loyalty points). In determining the transaction price for the sale of equipment, the Company and its joint venture considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).

Variable Consideration

If the consideration in a contract includes a variable amount, the Company and its joint venture estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Contracts for the sale of goods provide customers with a customary right of return in case of defects, quality issues etc. The rights of return give rise to variable consideration.

Rights of return

The Company and its joint venture use the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Company and its joint venture will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Company and its joint venture recognizes a refund liability. A right of return asset (and corresponding adjustment to cost of sales) is also recognized for the right to recover products from a customer.

Sale of Services: Revenue from the sale of services in nature of job work on customer product which normally takes a shorter period of time and hence, revenue is recognized when products are sent to customer on which job work is completed. The normal credit period is 30 to 60 days. Revenues from sale of services in the nature of Tooling Income/die design and preparation charges are recognized over time using an input method to measure progress towards complete satisfaction of the tool development. The Company recognises revenue from development of tools and dies over time if it can reasonably measure its progress towards complete satisfaction of the performance obligation. Where the Company cannot reasonably measure the outcome of a performance obligation, but the Company expects to recover the costs incurred in satisfying the performance obligation. In those circumstances, the Company recognises revenue only to the extent of the costs incurred until such time that it can reasonably measure the outcome of the performance obligation.

Export Incentives: Revenue from export incentives is accounted for on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

Trade Receivables: A receivable is recognized if an amount of consideration that is unconditional (i.e., only the

passage of time is required before payment of the consideration is due).

Contract liabilities: A contract liability is recognized if a payment is received, or a payment is due (whichever is earlier) from a customer before the Company and its joint venture transfers the related goods or services. Contract liabilities are recognized as revenue when the Company and its joint venture performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract assets: A contract asset is initially recognized for revenue earned from installation services because the receipt of consideration is conditional on successful completion of the installation. Upon completion of the installation and acceptance by the customer, the amount recognized as contract assets is reclassified to trade receivables. Contract assets are subject to impairment assessment.

Other Income

Dividend Income: Dividend income is recognized when the right to receive payment is established, which is generally when shareholders approve the same.

Interest Income: Interest Income is recognized on time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head 'Other Income' in the Statement of Profit and Loss.

Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with.

When the grant relates to duty benefit availed under Export Promotion Capital Goods (EPCG) Scheme, it is accounted for by way of reducing the cost from related asset and accordingly value of the asset has been depreciated with such reduced cost.

When the grant relates to incentives under "Invest Punjab Scheme", it is accounted as income on a systematic basis over the period that the related costs, for which it is intended to compensate are incurred. These incentives are accrued as income once the approval of the relevant authority is sanctioned and there is a reasonable assurance that the grant will be received.

When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

Inventory Valuation

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and work in progress: cost includes cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on first in, first out (FIFO) basis.
- Packing Materials and other products are determined on Weighted Average basis.
- Stores and Spares is value at Weighted Average Value.

- Scrap is valued at estimated realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, cash at banks and short-term deposits with banks with an original maturity of three months or less that are readily convertible to a known amount of cash and subject to an insignificant risk of change in value.

Property, Plant and Equipment

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Machinery spares which can be used only in connection with an item of Property, Plant and equipment and whose use is expected to be irregular are capitalized and depreciated over the useful life of the principal item of the relevant assets. When significant parts of plant and equipment are required to be replaced at intervals, the Company and its joint venture depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation

Depreciation for identified asset/ components is computed on straight line method based on useful lives, determined based on internal technical evaluation as follows:

Property, Plant & equipment:

Type of Assets	Schedule II life (years)	Useful Lives*
Building –Factory	30	30
Building- others	60	60
Plant & Machinery**	15	3 to 30
Computers	3	3
Office Equipment	5	5
Electrical Fittings & installations	10	10
Furniture & Fixtures	10	10
Vehicles	8	8

*The Company and its joint venture, based on technical assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

** Useful life mentioned is considering single shift working, however depreciation charged based on average number of shifts worked on an annual basis.

Any item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in income statement when asset is derecognized.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognized.

The useful live of intangible assets are as follows:

Type of Assets	Schedule II life (years)	Useful Lives
Software	6	6

Research and development costs

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

Impairment of non- financial assets

The Company and its joint venture assess at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company and its joint venture estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating units (CGU)'s fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company and its joint venture base its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company and its joint venture's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company and its joint venture extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Company and its joint venture operates, or for the market in which the asset is used. Impairment losses including impairment on inventories, are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company and its joint venture estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Intangible assets with indefinite useful lives are tested for impairment annually at the end of the financial year at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

Financial Instrument

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company and its joint venture's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company and its joint venture has applied the practical expedient, the Company and its joint venture initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade

receivables that do not contain a significant financing component or for which the Company and its joint venture has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company and its joint venture commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial Assets at amortized Cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Company and its joint venture's financial assets at amortised cost includes trade receivables, security deposits and loan to employees.

Financial assets at fair value through other comprehensive income (FVTOCI) (debt instrument)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Company and its joint venture can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Company and its joint venture benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial Assets at Fair value through Profit or Loss (FVTPL)

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

This category includes derivative instruments and listed equity investments which the Company and its joint venture had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

Investments in Mutual Funds are accounted for at Fair value through Profit or Loss Account.

Embedded Derivatives

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company and its joint venture applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- Financial assets that are measured at FVTOCI

The Company and its joint venture follow 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach do not require the Company and its joint venture to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company and its joint venture determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has

not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company and its joint venture in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company and its joint venture uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss.

The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortized cost, contractual revenue receivables and lease receivables:

ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company and its joint venture does not reduce impairment allowance from the gross carrying amount.

- Debt instruments measured at FVTOCI:

Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company and its joint venture combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company and its joint venture does not have any purchased or originated credit-impaired (POCI) financial assets, i.e. financial assets which are credit impaired on purchase/ origination.

Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within one year and therefore are all classified as current. Where the settlement is due after one year, they are classified as non-current. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Company and its joint venture hold the trade receivables with the objective to collect

the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

De-recognition of Financial Assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company and its joint venture's balance sheet) when:

- The right to receive cash flows from asset have expired, or.
- The Company and its joint venture have transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement and either:
 - The Company and its joint venture have transferred substantially all the risks and rewards of the asset, or
 - The Company and its joint venture have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company and its joint venture has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company and its joint venture continues to recognize the transferred asset to the extent of the Company and its joint venture's continuing involvement. In that case, the Company and its joint venture also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company and its joint venture has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company and its joint venture could be required to repay.

Financial Liabilities:

Initial Recognition and Measurement.

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company and its joint venture's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent Measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. The Company and its joint venture have not designated any financial liabilities upon initial measurement recognition at fair value through profit

or loss. Financial liabilities at fair value through profit or loss are at each reporting date with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company and its joint venture that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company and its joint venture may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company and its joint venture have not designated any financial liability as at fair value through profit or loss.

Financial Liabilities measured at Amortised Cost (Loan and Borrowings)

This is the category most relevant to the Company and its joint venture. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate (EIR) amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company and its joint venture are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

De-recognition of Financial Liability.

A Financial Liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets

The Company and its joint venture determine classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company and its joint venture's senior management determines change in the business model as a result of external or internal changes which are significant to the Company and its joint venture's operations. Such changes are evident to external parties. A change in the business model occurs when the Company and its joint venture either begins or ceases to perform an activity that is significant to its operations. If the Company and its joint venture reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company and its joint venture

do not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss the reclassification date.

Offsetting of Financial Instruments

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative Financial Instruments and hedge accounting

Initial recognition and subsequent measurement

The Company and its joint venture use derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The purchase contracts that meet the definition of a derivative under Ind AS 109 are recognised in the statement of profit and loss.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, at the inception of a hedge relationship, the Company and its joint venture formally designates and documents the hedge relationship to which the Company and its joint venture wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and how the Company and its joint venture will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is ‘an economic relationship’ between the hedged item and the hedging instrument.
- The effect of credit risk does not ‘dominate the value changes’ that result from that economic relationship.

- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company and its joint venture actually hedges and the quantity of the hedging instrument that the Company and its joint venture actually uses to hedge that quantity of hedged item.

The Company and its joint venture designate designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast sales transactions, and thereafter, as a fair value hedge of the resulting receivables.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in OCI, e.g., cash flow hedging reserve and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the statement of profit and loss. The amount accumulated is retained in cash flow hedge reserve and reclassified to profit or loss in the same period or periods during which the hedged item affects the statement of profit or loss. Under fair value hedge, the change in the fair value of a hedging instrument is recognised in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss.

Retirement and other employee Benefits

• Defined Contribution Scheme:

- Provident Fund

Contributions in respect of Employees are made to the Fund administered by the Regional Provident Fund Commissioner as per the provisions of Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and are charged to Statement of Profit and Loss as and when services are rendered by employees. Such benefits are classified as Defined Contribution Schemes as the Company and its joint venture do not carry any further obligations, apart from the contributions made on a monthly basis to the Regional Provident fund.

- Employee's State Insurance

The Company and its joint venture maintain an insurance policy to fund a post-employment medical assistance scheme, which is a defined contribution plan. The Company and its joint venture's contribution to State Plans namely Employees' State Insurance Fund and Employees' Pension Scheme are charged to the statement of profit and loss every year.

If the contribution payable to the schemes for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

• Defined Benefit Plan:

- Gratuity

The Company and its joint venture provide for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The gratuity plan in Company and its joint venture is funded through annual contributions to Life Insurance Corporation of India (LIC) under its Company and its joint venture's Gratuity Scheme.

The Company's Liabilities on account of Gratuity on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS)-19 'Employee Benefits'. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value

of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company and its joint venture's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity through other comprehensive income in the period in which they arise. They are included in retained earnings through OCI in the statement of changes in equity and in the balance sheet. Past-service costs are recognised immediately in statement of profit and loss. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- a) The date of the plan amendment or curtailment, and
- b) The date that the Company and its joint venture recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company and its joint venture recognize the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b) Net interest expense or income

- **Compensated Absences**

Accumulated compensated absences are either availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The Company and its joint venture measure the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company and its joint venture recognizes expected cost of short-term employee benefit as an expense, when an employee renders the related service.

The Company and its joint venture have a policy to encash the entire leaves balance outstanding as at the end of the year in the subsequent year.

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Earnings per Share (EPS)

Basic earnings per share is computed by dividing net profit or loss attributable to equity shareholders of the Company and its joint venture (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and its joint venture and the weighted average number of shares outstanding during

the period are adjusted for the effects of all dilutive potential equity shares. The Company and its joint venture did not have any potentially dilutive securities in any of the years presented.

Dividend

The Company and its joint venture recognize a liability to pay dividend to equity holders when the distribution is authorized, and the distribution is no longer at the discretion of the Company and its joint venture. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company and its joint venture shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent

that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured using tax rates (and laws) that have been enacted or substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Sales/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Provisions and Contingent Liabilities/Assets

Provisions are recognised when the Company and its joint venture has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company and its joint venture expect some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company and its joint venture or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent liabilities are not recognised but are disclosed in notes.

Contingent Assets are not recognised in financial statements but are disclosed, since the former treatment may result in the recognition of income that may or may not be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

Cash Flow Statement

The Cash flow statement has been prepared under the “Indirect Method” as set out in Indian Accounting Standard-7, “Statement of Cash Flows” whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses

associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company and its joint venture are segregated.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Non-current assets held for sale

The Company and its joint venture classify non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale/distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale and the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company and its joint venture treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active program to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible are not depreciated, or amortised assets once classified as held for sale.

Assets and liabilities classified as held for sale are presented separately from other items in the balance sheet.

Fair Value Measurements

The Company and its joint venture measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company and its joint venture.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company and its joint venture use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the Restated Summary Statements on a recurring basis, the Company and its joint venture determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company and its joint venture determine the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets and liabilities, if any. At each reporting date, the Company and its joint venture analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company and its joint venture's accounting policies.

For the purpose of fair value disclosures, the Company and its joint venture has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Leases

The Company and its joint venture assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration is considered as lease.

As a lessee

The Company and its joint venture apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company and its joint venture recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company and its joint venture recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. The right-of-use assets are also subject to impairment.

Lease Liabilities

At the commencement date of the lease, the Company and its joint venture recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and its joint venture and payments of penalties for terminating the lease, if the lease term reflects the Company and its joint venture exercising the option to terminate.

Lease liabilities, which separately shown in the Restated Summary Statement are measured initially at the present value of the lease payments. Subsequent measurement of a lease liability includes the increase of the carrying amount to reflect interest on the lease liability and reducing (while affecting other comprehensive income) the carrying amount to reflect the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments.

Short-term leases and leases of low-value assets

The Company and its joint venture applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

As a Lessor

Lease income from operating leases where the Company and its joint venture is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate the lessor for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their respective nature.

Share-based payment

Eligible Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Segment Reporting

As per the compliance of Ind AS 108 operating segments are identified based on reports reviewed by CODM (chief operating decision-maker). Operating segments can either be based on products/services or on geographical basis. It is reported in a manner which is consistent with the internal reporting provided to the judgment of CODM.

CHANGES IN ACCOUNTING POLICIES

There have been no changes in the accounting policies of the Company during the last three Fiscals.

NON-GAAP MEASURES

Earnings before Interest, Taxes, Depreciation and Amortization Expenses ("EBITDA")/ EBITDA Margin/ Return on Capital Employed / PAT Margin / Return on Equity / Gross Fixed Assets Turnover Ratio / Gross Profit/ Gross Margin / Net Debt to EBITDA

In addition to our results determined in accordance with Ind AS, we believe the following Non-GAAP measures are useful to investors in evaluating our operating performance and liquidity. We use the following Non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that Non-GAAP financial information, when taken collectively with financial measures disclosed in the financial statements prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these Non-GAAP measures in isolation or as an alternative to financial measures.

EBITDA, EBITDA Margin, Return on Capital Employed, PAT Margin, Return on Equity, Gross Fixed Assets Turnover Ratio, Gross Profit, Gross Margin and Net Debt to EBITDA ("**Non-GAAP Measures**") presented in this Prospectus is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, EBITDA is not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, Non-GAAP Measures are not standardised terms, hence a direct comparison of Non-GAAP Measures between

companies may not be possible. Other companies may calculate the Non-GAAP Measure differently from us, limiting its usefulness as a comparative measure. Although Non-GAAP Measures is not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance. See "Risk Factors – Other internal risks – Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, Return on Capital Employed, PAT Margin, Return on Equity, Gross Fixed Assets Turnover Ratio, Gross Profit, Gross Margin and Net Debt to EBITDA have been included in this Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable." on page 69.

Reconciliation of Restated Profit for the Period / Year to EBITDA and EBITDA Margin

The table below reconciles restated profit for the period / year to EBITDA. EBITDA is calculated as profit for the period / year minus other income and share of profits from joint venture plus finance costs, depreciation and amortisation and total income tax expenses, while EBITDA Margin is calculated as EBITDA divided by revenue from operations.

PRINCIPAL COMPONENTS OF INCOME AND EXPENDITURE

Income

Our total income comprises (i) revenue from operations and (ii) other income.

Revenue from Operations

Revenue from operations comprise (i) sale of products, (ii) sale of services such as dye design and preparation charges and job work charge; and (ii) other operating revenue such as sale of manufacturing scrap, government grants and others.

Other Income

Other income comprises (i) interest income from financial assets at amortised cost which includes interest income from financial assets at amortised cost on bank deposits, electricity deposits and income tax refund; (ii) gain on sale of investment; (iii) gain on foreign exchange variation (net); (iv) bad debts recovered; (v) fair value gain on financial instruments at fair value through profit or loss; (vi) gain from sale of property, plant and equipment (net); and (vii) miscellaneous income which includes insurance claim and rental income.

Expenses

Our expenses comprise cost of raw materials and components consumed, increase/ decrease in inventories of finished goods, work-in-progress and scrap, employee benefits expense, finance costs, depreciation and amortization expense; and other expenses.

Cost of Raw Materials and Components Consumed

Cost of raw materials and components consumed consists of raw materials i.e., primarily steel.
(Increase)/ decrease in inventories of finished goods, work-in-progress and scrap

(Increase)/ decrease in inventories of finished goods, work-in-progress and scrap denotes increase/ decrease in inventories of finished goods, work in progress and scrap between opening and closing dates of a reporting period.

Employee Benefits Expense

Employee benefit expenses primarily include salaries, wages and bonus, contribution to provident fund and other funds, gratuity and staff welfare expenses.

Finance Costs

Finance costs include interest expenses on borrowings and others, interest on bill discounting and other borrowing cost.

Depreciation and Amortisation Expenses

Depreciation and amortisation expense primarily include depreciation expenses on our property, plant and equipment and amortisation expenses on our intangibles assets.

Other Expenses

Other expenses comprises: (i) consumption of stores and spares; (ii) power and fuel expenses; (iii) packing material; (iv) job work charges; (v) rent expenses; (vi) rates and taxes; (vii) repairs and maintenance on (a) plant and machinery, (b) building, and (c) others; (viii) travelling and conveyance expenses; (ix) travelling and conveyance expenses; (x) advertisement and sales promotion expenses; (xi) freight and forwarding charges; (xii) director's sitting fees; (xiii) payment to auditors; (xiv) legal and professional fees; (xv) provisions for doubtful receivables

and advance; (xv) CSR expenditure; (xvi) donation; (xvii) fair value loss on financial instruments at fair value through profit or loss; (xviii) property plant and equipment written off; (xix) insurance; and (xx) miscellaneous expenses.

RESULTS OF OPERATIONS

The following table sets forth select financial data from our statement of restated standalone profit and loss for Fiscal 2021 and for the six months ended September 30, 2023 and our statement of restated consolidated profit and loss for Fiscal 2022, Fiscal 2023 and for the six months ended September 30, 2022, the components of which are also expressed as a percentage of total income for such years.

Six months ended September 30, 2023 compared to six months ended September 30, 2022

Total Income

Our total income increased by 12.25% from ₹6,019.91 million in the six months ended September 30, 2022 to ₹6,757.33 million in the six months ended September 30, 2023, primarily due to an increase in our revenue from

operations and other income as discussed below:

Revenue from operations

Our revenue from operations increased by 12.19% from ₹5,998.00 million in the six months ended September 30, 2022 to ₹6,729.00 million in the six months ended September 30, 2023, primarily due to an increase in the revenue from sale of products by 15.89% from ₹5,273.66 million in the six months ended September 30, 2022 to ₹6,111.59 million in the six months ended September 30, 2023. The increase was primarily due to an increase in the volume of products sold, as well as an increase in average selling price of products on account of increase in prices of steel. Other operating revenue decreased by 20.74% from ₹714.95 million in the six months ended September 30, 2022 to ₹566.65 million in the six months ended September 30, 2023 due to decrease in recognition of government grants.

Other Income

Our other income increased by 29.29% from ₹21.91 million in the six months ended September 30, 2022 to ₹28.33 million in the six months ended September 30, 2023, primarily as a result of increase in fair value gain on financial instruments at fair value through profit or loss from nil million in the six months ended September 30, 2022 to ₹15.57 million in the six months ended September 30, 2023.

Total Expenses

Our total expenses increased by 15.82% from ₹4,459.42 million in the six months ended September 30, 2022 to ₹5,164.73 million in the six months ended September 30, 2023.

Cost of Raw Materials and Components Consumed

Cost of raw materials and components consumed increased by 16.84% from ₹2,746.63 million in the six months ended September 30, 2022 to ₹3,209.12 million in the six months ended September 30, 2023 due to increase in business volume.

(Increase)/ decrease in inventories of finished goods, work-in-progress and scrap

Changes in inventories of finished goods and work-in-progress was ₹(258.96) million in the six months ended September 30, 2023, as compared to ₹(40.01) million in the six months ended September 30, 2022. This was primarily due to increase in work-in-progress from ₹522.99 million in the six months ended September 30, 2022 to ₹663.49 million in the six months ended September 30, 2022 and increase in finished goods from ₹563.18 million in the six months ended September 30, 2022 to ₹601.99 million in the six months ended September 30, 2023.

Employee Benefits Expense

Our employee benefits expense increased by 35.55% from ₹399.86 million in the six months ended September 30, 2022 to ₹542.01 million in the six months ended September 30, 2023 due to an increase in number of employees because of increased scale of operations and annual increments given to employees in Fiscal 2024.

Finance Costs

Our finance costs increased by 93.62% from ₹36.84 million in the six months ended September 30, 2022 to ₹71.34 million in the six months ended September 30, 2023 primarily due to an increase in our interest expense on borrowings by 119.19% from ₹24.62 million in the six months ended September 30, 2022 to ₹53.96 million in the six months ended September 30, 2023. This was primarily attributable to an increase in interest on borrowings from banks.

Depreciation and Amortisation Expenses

Our depreciation and amortisation expenses increased by 30.15% from ₹243.20 million in the six months ended September 30, 2022 to ₹316.53 million in the six months ended September 30, 2023 primarily due to an addition in property, plant and equipment of ₹506.80 million in the six months ended September 30, 2023, primarily owing to purchase of plant and equipment.

Other Expenses

Our other expenses increased by 19.74% from ₹1,072.90 million in the six months ended September 30, 2022 to ₹1,284.69 million in the six months ended September 30, 2023, in aggregate, primarily due to an increase in consumption of stores and spares by 18.19% from ₹250.06 million in the six months ended September 30, 2022 to ₹295.56 million in the six months ended September 30, 2023; increase in power and fuel expenses by 19.87% from ₹398.72 million in the six months ended September 30, 2022 to ₹477.96 million in the six months ended September 30, 2023; and increase in freight and forwarding charges by 25.75% from ₹137.50 million in the six months ended September 30, 2022 to ₹172.91 million in the six months ended September 30, 2023.

Total Income Tax Expense

Our total income tax expense increased by 0.77% from ₹396.57 million in the six months ended September 30, 2022 to ₹399.61 million in the six months ended September 30, 2023, primarily due to a corresponding increase in the restated profit before tax. This primarily constituted an increase in current tax (net) by 0.64% from ₹389.39 million in the six months ended September 30, 2022 to ₹391.89 million in the six months ended September 30, 2023, and an increase in deferred tax charge by 103.51% from ₹7.18 million in the six months ended September 30, 2022 to ₹14.61 million in the six months ended September 30, 2023.

Restated Profit for the Period

As a result of the foregoing factors, our restated profit for the period was ₹1,192.99 million in the six months ended September 30, 2023 compared to ₹1,163.97 million in the six months ended September 30, 2022.

Earnings before Interest, Taxes, Depreciation and Amortisation (EBITDA)

EBITDA was ₹1,952.14 million in the six months ended September 30, 2023 compared to EBITDA of ₹1,818.62 million in the six months ended September 30, 2022, while EBITDA Margin was 29.01% in the six months ended September 30, 2023 compared to 30.32% in the six months ended September 30, 2022.

For reconciliation of EBITDA and EBITDA Margin, see “– Non-GAAP Measures – Reconciliation of Restated Profit for the Period / Year to EBITDA and EBITDA Margin” on page 413.

Fiscal 2023 compared to Fiscal 2022

Total Income

Our total income increased by 38.81% from ₹8,661.05 million in Fiscal 2022 to ₹12,022.71 million in Fiscal 2023, primarily due to an increase in our revenue from operations and other income as discussed below:

Revenue from operations

Our revenue from operations increased by 39.12% from ₹8,600.46 million in Fiscal 2022 to ₹11,965.30 million in Fiscal 2023, primarily due to an increase in the revenue from sale of products by 35.82% from ₹7,855.65 million in Fiscal 2022 to ₹10,669.49 million in Fiscal 2023. The increase was primarily due to an increase in the volume of products sold, as well as an increase in average selling price of products on account of increase in prices of steel. Other operating revenue increased by 85.42% from ₹663.44 million in Fiscal 2022 to ₹1,230.15 million in Fiscal 2023 due to increase in sale of manufacturing scrap and recognition of certain government grants.

Other Income

Our other income decreased by 5.25% from ₹60.59 million in Fiscal 2022 to ₹57.41 million in Fiscal 2023, primarily as a result of decrease in fair value gain on financial instruments at fair value through profit or loss from ₹7.24 million in Fiscal 2022 to nil in Fiscal 2023, which was partially offset by recovery of bad debts of ₹3.11 million in Fiscal 2023.

Total Expenses

Our total expenses increased by 36.82% from ₹6,740.58 million in Fiscal 2022 to ₹9,222.47 million in Fiscal 2023.

Cost of Raw Materials and Components Consumed

Cost of raw materials and components consumed increased by 25.67% from ₹4,358.47 million in Fiscal 2022 to ₹5,477.24 million in Fiscal 2023 due to increase in business volume.

(Increase)/ decrease in inventories of finished goods, work-in-progress and scrap

Changes in inventories of finished goods and work-in-progress was ₹33.32 million in Fiscal 2023, as compared to ₹(474.55) million in Fiscal 2022. This was primarily due a decrease in work-in-progress from ₹591.49 million in Fiscal 2022 to ₹463.40 million in Fiscal 2023, which is partially offset by increase in finished goods from ₹450.60 million in Fiscal 2022 to ₹541.37 million in Fiscal 2023.

Employee Benefits Expense

Our employee benefits expense increased by 27.81% from ₹686.78 million in Fiscal 2022 to ₹877.76 million for Fiscal 2023 due to an increase in number of employees because of increased scale of operations and annual increments given to employees in Fiscal 2023.

Finance Costs

Our finance costs increased by 74.25% from ₹71.59 million in Fiscal 2022 to ₹124.75 million in Fiscal 2023 primarily due to an increase in our interest expense on borrowings by 116.78% from ₹44.52 million in Fiscal 2022 to ₹96.50 million in Fiscal 2023. This was primarily attributable to an increase in interest on borrowings from banks.

Depreciation and Amortisation Expenses

Our depreciation and amortisation expenses increased by 43.57% from ₹377.40 million in Fiscal 2022 to ₹541.82 million in Fiscal 2023 primarily due to an addition in property, plant and equipment of ₹2,777.96 million, primarily owing to purchase of plant and equipment.

Other Expenses

Our other expenses increased by 25.96% from ₹1,720.89 million in Fiscal 2022 to ₹2,167.58 million in Fiscal 2023, in aggregate, primarily due to an increase in consumption of stores and spares by 29.41% from ₹434.53 million in Fiscal 2022 to ₹562.32 million in Fiscal 2023; increase in power and fuel expenses by 11.99% from ₹676.54 million in Fiscal 2022 to ₹757.64 million in Fiscal 2023; increase in cost towards repairs and maintenance of plant and machinery by 29.88% from ₹161.56 million in Fiscal 2022 to ₹209.83 million in Fiscal 2023; and increase in freight and forwarding charges by 28.56% from ₹201.15 million in Fiscal 2022 to ₹258.59 million in Fiscal 2023.

Total Income Tax Expense

Our total income tax expense increased by 43.34% from ₹497.63 million in Fiscal 2022 to ₹713.28 million in Fiscal 2023, primarily due a corresponding increase in the restated profit before tax. This primarily constituted an increase in current tax (net) by 46.10% from ₹469.16 million in Fiscal 2022 to ₹685.43 million in Fiscal 2023, and an increase in deferred tax charge by 7.66% from ₹26.72 million in Fiscal 2022 to ₹28.77 million in Fiscal 2023.

Restated Profit for the Year

As a result of the foregoing factors, our restated profit for the year was ₹1,422.89 million in Fiscal 2022 compared to ₹2,087.01 million in Fiscal 2023.

Earnings before Interest, Taxes, Depreciation and Amortisation (EBITDA)

EBITDA was ₹2,308.87 million in Fiscal 2022 compared to EBITDA of ₹3,409.40 million in Fiscal 2023, while EBITDA Margin was 26.85% in Fiscal 2022 compared to 28.49% in Fiscal 2023.

For reconciliation of EBITDA and EBITDA Margin, see “– Non-GAAP Measures – Reconciliation of Restated Profit for the Period / Year to EBITDA and EBITDA Margin” on page 413.

Fiscal 2022 compared to Fiscal 2021

Total Income

Our total income increased by 46.60% from ₹5,908.13 million in Fiscal 2021 to ₹8,661.05 million in Fiscal 2022, primarily due to an increase in our revenue from operations and other income as discussed below:

Revenue from operations

Our revenue from operations increased by 47.03% from ₹5,849.58 million in Fiscal 2021 to ₹8,600.46 million in Fiscal 2022, primarily due to an increase in the revenue from sale of products by 43.42% from ₹5,477.40 million in Fiscal 2021 to ₹7,855.65 million in Fiscal 2022. The increase was primarily due to increase in the volume of products sold, as well as an increase in the average selling price of such products. Revenue from sale of services also increased by 779.68% from ₹9.25 million in Fiscal 2021 to ₹81.37 million in Fiscal 2022. In addition, other operating revenue increased by 82.80% from ₹362.93 million in Fiscal 2021 to ₹663.44 million in Fiscal 2022 primarily due to increase in sale of manufacturing scrap.

Other Income

Our other income increased by 3.48% from ₹58.55 million in Fiscal 2021 to ₹60.59 million in Fiscal 2022, primarily as a result of an increase in gain on foreign exchange variation (net) by 353.56% from ₹9.82 million in Fiscal 2021 to ₹44.55 million in Fiscal 2022 which was partially offset by decrease in interest income from financial asset at amortised cost on term deposits with bank by 83.62% from ₹25.21 million in Fiscal 2021 to ₹4.13 million in Fiscal 2022 and decrease in interest income from financial asset at amortised cost on electricity deposit by 82.08% from ₹17.38 million in Fiscal 2021 to ₹3.11 million in Fiscal 2022.

Total Expenses

Our total expenses increased by 42.28% from ₹4,737.52 million in Fiscal 2021 to ₹6,740.58 million in Fiscal 2022.

Cost of Raw Materials and Components Consumed

Cost of raw materials and components consumed increased by 69.42% from ₹2,572.56 million in Fiscal 2021 to ₹4,358.47 million in Fiscal 2023 due to increase in business volume.

(Increase)/ decrease in inventories of finished goods, work-in-progress and scrap

Changes in inventories of finished goods and work-in-progress was ₹(474.55) million in Fiscal 2022, as compared to ₹(56.53) million in Fiscal 2021. This was primarily due increase in work-in-progress from ₹302.10 million in Fiscal 2021 to ₹591.49 million in Fiscal 2022 and increase in finished goods from ₹259.26 million in Fiscal 2021 to ₹450.60 million in Fiscal 2022.

Employee Benefits Expense

Our employee benefits expense increased by 40.16% from ₹489.98 million in Fiscal 2021 to ₹686.78 million in Fiscal 2022 due to an increase in number of employees because of increased scale of operations and annual increments given to employees in Fiscal 2022.

Finance Costs

Our finance costs decreased by 39.25% from ₹117.84 million in Fiscal 2021 to ₹71.59 million in Fiscal 2022 primarily due to a decrease in our interest expense on borrowings by 55.94% from ₹101.04 million in Fiscal 2021 to ₹44.52 million in Fiscal 2022. This was primarily attributable to interest paid on restructuring of loan of ₹31.02 million in Fiscal 2021.

Depreciation and Amortisation Expense

Our depreciation and amortisation expenses increased by 5.55% from ₹357.56 million in Fiscal 2021 to ₹377.40 million in Fiscal 2022.

Other Expenses

Our other expenses increased by 37.00% from ₹1,256.11 million in Fiscal 2021 to ₹1,720.89 million in Fiscal 2022, in aggregate, primarily due to an increase in consumption of stores and spares from by 34.85% from ₹322.22 million in Fiscal 2021 to ₹434.53 million in Fiscal 2022; increase in power and fuel expenses by 46.24% from ₹462.63 million in Fiscal 2021 to ₹676.54 million in Fiscal 2022; increase in cost towards repairs and maintenance of plant and machinery by 21.68% from ₹132.77 million in Fiscal 2021 to ₹161.56 million in Fiscal 2022 and increase in freight and forwarding charges by 96.13% from ₹102.56 million in Fiscal 2021 to ₹201.15 million in Fiscal 2022.

Total Income Tax Expense

Our total income tax expense increased by 62.56% from ₹306.13 million for Fiscal 2021 to ₹497.63 million for Fiscal 2022, primarily due an increase in the restated profit before tax. This primarily constituted an increase in current tax (net) by 48.57% from ₹315.78 million in Fiscal 2021 to ₹469.16 million in Fiscal 2022 and increase in deferred tax from a credit of ₹9.67 million in Fiscal 2021 compared to a charge of ₹26.72 million in Fiscal 2022.

Restated Profit for the Year

As a result of the foregoing, our restated profit for the year was ₹864.48 million in Fiscal 2021 compared to ₹1,422.89 million in Fiscal 2022.

Earnings before Interest, Taxes, Depreciation and Amortisation (EBITDA)

EBITDA was ₹1,587.46 million in Fiscal 2021 compared to EBITDA of ₹2,308.87 million in Fiscal 2022, while EBITDA Margin was 27.14% in Fiscal 2021 compared to 26.85% in Fiscal 2022.

For reconciliation of EBITDA and EBITDA Margin, see “ – Non-GAAP Measures – Reconciliation of Restated Profit for the Period / Year to EBITDA and EBITDA Margin” on page 413.

LIQUIDITY AND CAPITAL RESOURCES

We have historically financed the expansion of our business and operations through a combination of internal accruals and external borrowings.

Cash Flows

adjustments in Fiscal 2022 included increase in inventories of ₹624.17 million and increase in trade receivables of ₹561.04 million.

Fiscal 2021

Cash flow from operating activities was ₹498.53 million in Fiscal 2021. In Fiscal 2021, our profit before tax was ₹1,170.61 million. Primary adjustments consisted of depreciation and amortization expense of ₹357.56 million, finance cost of ₹117.84 million and interest income of ₹(42.59) million.

Operating profit before working capital changes was ₹1,662.20 million in Fiscal 2021. The main working capital adjustments in Fiscal 2021 included increase in inventories of ₹459.17 million, increase in trade receivables of ₹287.70 million and increase in other assets of ₹125.38 million.

Investing Activities

Six months ended September 30, 2023

Net cash flow used in investing activities in the six months ended September 30, 2023 was ₹1,009.84 million, primarily due to payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance) of ₹1,010.98 million.

Six months ended September 30, 2022

Net cash flow used in investing activities in the six months ended September 30, 2022 was ₹879.37 million, primarily due to payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance) of ₹883.01 million.

Fiscal 2023

Net cash flow used in investing activities in Fiscal 2023 was ₹1,724.54 million, primarily due to payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance) of ₹1,745.87 million.

Fiscal 2022

Net cash flow used in investing activities in Fiscal 2022 was ₹1,656.80 million, primarily due to payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance) of ₹1,908.42 million. This was largely offset by proceeds from term deposit of ₹234.56 million and interest received (finance income) of ₹21.18 million.

Fiscal 2021

Net cash flow used in investing activities in Fiscal 2021 was ₹586.85 million, primarily due to payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance) of ₹916.64 million. This was partially offset by proceeds from term deposit of ₹316.86 million and interest received (finance income) of ₹41.35 million.

Financing Activities

Six months ended September 30, 2023

Net cash flow from financing activities in the six months ended September 30, 2023 was ₹211.91 million, primarily on account of availment of long-term borrowings of ₹250.00 million and availment of short-term borrowings (net) of ₹745.28 million, which was partially offset by repayment of long-term borrowings of ₹590.29 million.

Six months ended September 30, 2022

Net cash flow from financing activities in the six months ended September 30, 2022 was ₹207.21 million, primarily

on account of availment of long-term borrowings of ₹150.19 million and availment of short-term borrowings (net) of ₹212.75 million, which was partially offset by repayment of long-term borrowings of ₹112.99 million.

Fiscal 2023

Net cash flow used in financing activities in Fiscal 2023 was ₹370.10 million, primarily on account of repayment of long-term borrowings of ₹148.02 million and repayment of short term borrowing (net) of ₹252.99 million, which was partially offset by availment of long term borrowings of ₹169.53 million.

Fiscal 2022

Net cash flow from financing activities in Fiscal 2022 was ₹825.20 million primarily on account of availment of long-term borrowings of ₹512.97 million and availment of short-term borrowings (net) of ₹426.03 million, which was partially offset by interest paid of ₹67.91 million and repayment of long-term borrowings of ₹36.52 million.

Fiscal 2021

Net cash flow from financing activities in Fiscal 2021 was ₹96.72 million primarily on account of availment of short-term borrowings (net) of ₹663.21 million, which was largely offset by interest paid of ₹253.97 million; repayment of long-term borrowings of ₹292.39 million and repayment of loan from directors of ₹40.70 million.

INDEBTEDNESS

As of September 30, 2023, we had total borrowings of ₹2,589.74 million. The following table sets forth certain information relating to maturity profile of our outstanding borrowings as of September 30, 2023:

(₹ million)

Particulars	Total	Less Than 1 Year	1 – 2 Years	2 -3 Years	More than 3 Years
Secured Short term Borrowings (I)	1,703.75	1,703.75	-	-	-
Unsecured Short term Borrowings (II)	384.93	384.93	-	-	-
Secured Long term Borrowings (III)	501.06	129.65	243.42	76.89	51.10
Total (IV = I + II + III)	2,589.74	2,218.33	243.42	76.89	51.10

For further information on our outstanding indebtedness, see “*Financial Indebtedness*” on page 431.

CHANGE IN EQUITY

Total equity has been increased from ₹6,451.59 million as of March 31, 2021 to ₹7,876.24 million as of March 31, 2022 due to (i) increase in equity share capital from ₹89.50 million as of March 31, 2021 to ₹179.00 million as of March 31, 2022 on account of issue of equity shares pursuant to a bonus issue in the ratio 1:1; and (ii) increase in other equity from ₹6,362.09 million as of March 31, 2021 to ₹7,697.24 million as of March 31, 2022 on account of profits earned during the Fiscal 2022.

CONTINGENT LIABILITIES

The following table below sets forth the principal components of our contingent liabilities as per Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets, as of September 30, 2023:

Particulars	As of September 30, 2023 (₹ million)
Excise/ Goods & Service Tax Demands	18.74
Income Tax Demands	17.34

For further information of our contingent liabilities as at September 30, 2023 as per Ind AS 37, see “*Restated Financial Information – Note 29. Contingent liabilities and commitments*” on page 361.

CAPITAL COMMITMENTS

The table below sets forth our capital commitments as of September 30, 2023:

Particulars	As of September 30, 2023 (₹ million)
Estimated amount of contracts remaining to be executed on capital expenditure and not provided for (net of advances)	1,454.41

EPCG COMMITMENT

The table below sets forth our EPCG commitment as of September 30, 2023:

Particulars	As of September 30, 2023 (₹ million)
EPCG Commitment	53.04

Note: The Company has export obligations to the extent ₹192.74 million on account of concessional rates of import duties paid on capital goods under the Export Promotion Capital Goods Scheme enacted by the Government of India which is to be fulfilled over the next eight /six years.

OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENTS

We do not have any off-balance sheet arrangements, derivative instruments or other relationships with other entities that would have been established for the purpose of facilitating off-balance sheet arrangements.

RELATED PARTY TRANSACTIONS

We enter into various transactions with related parties in the ordinary course of business. Related parties with whom transactions have taken place during the year include sale of finished goods, purchase of raw materials, sale of scrap, loans taken from Directors and interest on such loans, short term employee benefits and directors sitting fees. The tables below provide details of our aggregate related party transactions and the percentage of such related party transactions to our revenue from operations in the years/ periods indicated:

(₹ million, except percentages)

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021
	Consolidated	Consolidated	Standalone
Absolute sum of all related party transactions*	100.37	78.16	222.20
Revenue from Operations	11,965.30	8,600.46	5,849.58
Absolute sum of all related party transactions* as a Percentage of Revenue from Operations	0.84%	0.91%	3.80%

* Including debits, credits and balance sheet transactions without netting off.

(₹ million, except percentages)

Particulars	Six months ended September 30, 2023	Six months ended September 30, 2022
	Standalone	Consolidated
Absolute sum of all related party transactions*	58.71	41.97
Revenue from Operations	6,729.00	5,998.00
Absolute sum of all related party transactions* as a Percentage of Revenue from Operations	0.87%	0.70%

* Including debits, credits and balance sheet transactions without netting off.

AUDITOR OBSERVATIONS

There are no qualifications, reservations and adverse remarks by our Statutory Auditors in our Restated Financial Information.

As per the Statutory Auditor's report on internal financial controls under Section 143(3)(i) of the Companies Act issued on standalone financial statements of the Company for Fiscal 2021, the Statutory Auditor has provided a

disclaimer of opinion. For further details, see “*Risk Factors – Internal risks relating to financials - Our Statutory Auditors have included a disclaimer of opinion in the annexure to their report on the internal financial controls on the standalone financial statements of our Company for the year ended March 31, 2021. Further, our Statutory Auditors have included certain qualifications in the annexure to their audit reports on the Companies (Auditor's Report) Order, 2016 / Companies (Auditor's Report) Order, 2020, for the years ended March 31, 2023 and 2021*” on page 53.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have exposure to the following risks: market risk, credit risk and liquidity risk. Our Board of Directors oversees the management of these risks and also ensures that financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with our policies and risk objectives.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Our Company is exposed to credit risk from our operating activities (primarily trade receivables) and from our financing activities, including deposits with banks and financial institutions, and other financial instruments.

Liquidity Risk

Liquidity risk is the risk that our Company will encounter difficulty in meeting the obligations associated with our financial liabilities that are settled by delivering cash or another financial assets. Our approach to manage liquidity is to have sufficient liquidity to meet our liabilities when they are due, under both normal and stressed circumstances, without incurring unacceptable losses or risking damage to our reputation.

We manage the liquidity risk by monitoring cash flow forecasts on a periodic basis and maturity profiles of financial assets and liabilities. This monitoring takes into account the accessibility of cash and cash equivalents and additional undrawn financing facilities. We will continue to consider various borrowings options to maximize liquidity and supplement cash requirements as necessary. Our objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, cash credit facilities and buyers' credit facilities.

Market Risk

Foreign Exchange Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Our exposure to the risk of changes in foreign exchange rates relates primarily to our operating activities by way of direct imports/ exports and long term foreign currency borrowings. We evaluate the exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our Company is exposed to interest rate risk on short-term and long-term floating rate instruments. The borrowings of our Company are principally denominated in Indian Rupees with a mix of fixed and floating rates of interest. We have a policy of selectively using interest rate swaps and other derivative instruments to manage our exposure to interest rate movements. These exposures are reviewed by appropriate levels of management on a regular basis.

Commodity Price Risk

Our Company is affected by price volatility of certain commodities. The principal raw materials for the Company products are alloy and carbon steel in the form of rounds and billets which are purchased by the Company from the approved list of suppliers. Most of the input materials are procured from domestic vendors which is subject to price

negotiations. Due to significant volatility in prices of steel, we have agreed with our customers for pass through of increase/decrease of prices of steel. There may be a lag effect in case of such pass-through arrangements.

CAPITAL EXPENDITURE

Our capital expenditure (i.e., payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress, intangible assets under development and capital advance)) was ₹1,745.87 million, ₹1,908.42 million, ₹916.64 million, ₹1,010.98 million and ₹883.01 million in Fiscal 2023, 2022 and 2021 and six months ended September 30, 2023 and 2022, respectively. The following table sets forth our fixed assets as at year/ period end, as indicated:

(in ₹ million)

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021	Six months ended September 30, 2023	Six months ended September 30, 2022
	Consolidated	Consolidated	Standalone	Standalone	Consolidated
Cost of Property, Plant and Equipment (I)	8,569.44	5839.24	5,063.34	9,076.14	6,682.72
Capital Work in Progress (II)	747.51	2,122.55	394.22	1,015.32	1,921.19
Total Fixed Assets (III = I + II)	9,316.95	7,961.79	5,457.56	10,091.46	8,603.91

SIGNIFICANT ECONOMIC CHANGES

To the knowledge of our management, there are no other significant economic changes that materially affect or are likely to affect income from continuing operations.

UNUSUAL OR INFREQUENT EVENTS OF TRANSACTIONS

Except as described in this Prospectus, to our knowledge, there have been no “unusual” or “infrequent” events or transactions that have in the past or may in the future affect our business operations or future financial performance.

KNOWN TRENDS OR UNCERTAINTIES

Our business has been affected and we expect will continue to be affected by the trends identified above in “ – Significant Factors Affecting our Results of Operations and Financial Condition” and the uncertainties described in “Risk Factors” beginning on pages 389 and 36. To our knowledge, except as described or anticipated in this Prospectus, there are no known factors which we expect will have a material adverse impact on our revenues or income from continuing operations.

FUTURE RELATIONSHIP BETWEEN COST AND INCOME

Other than as described in “Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 36, 219 and 384, respectively, there are no known factors that might affect the future relationship between costs and revenues.

NEW PRODUCTS OR BUSINESS SEGMENTS

Except as set out in this Prospectus, we have not announced and do not expect to announce in the near future any new business segments other than in the normal course of business.

COMPETITIVE CONDITIONS

We operate in a competitive environment. See “Our Business”, “Industry Overview” and “Risk Factors” on pages 219, 159 and 36, respectively, for further information on competitive conditions that we face.

EXTENT TO WHICH MATERIAL INCREASES IN NET SALES OR REVENUE ARE DUE TO INCREASED SALES VOLUME, INTRODUCTION OF NEW PRODUCTS OR SERVICES OR INCREASED SALES PRICES

Changes in revenue in the last three Fiscals are as described in “ – *Results of Operations – Six months ended September 30, 2023 compared to six months ended September 30, 2022*”, “– *Fiscal 2023 compared to Fiscal 2022*”, “– *Fiscal 2022 compared to Fiscal 2021*” above on pages 418, 420 and 422, respectively.

SEGMENT REPORTING

Our Company operates in a single operating segment namely, forged and machined products. Since we operate in a single operating segment, separate segment reporting has not been made under Ind-AS 108.

SIGNIFICANT DEPENDENCE ON SINGLE OR FEW CUSTOMERS

Other than as disclosed in “*Risk Factors – Internal risks relating to business, operations and industry and other key risks– Our business largely depends upon our top 10 customers. In Fiscal 2023, 2022, 2021 and in the six months ended September 30, 2023 and 2022, our revenue from top 10 customers was ₹8,384.81 million, ₹6,418.99 million, ₹4,634.06 million, ₹4,610.83 million, and ₹4,286.12 million, representing 70.08%, 74.64%, 79.22%, 68.52% and 71.46% of our revenue from operations. The loss of any of these customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.*” on page 37, we are not dependent on a single or few customers.

SEASONALITY/ CYCLICALITY OF BUSINESS

Our Company business is not seasonable in nature.

SIGNIFICANT DEVELOPMENTS AFTER SEPTEMBER 30, 2023 THAT MAY AFFECT OUR FUTURE RESULTS OF OPERATIONS

No circumstances have arisen after September 30, 2023 which materially and adversely affect or are likely to affect our operations or profitability, or the value of our assets or our ability to pay our material liabilities within the next twelve months.

FINANCIAL INDEBTEDNESS

Our Company avails loans in the ordinary course of our business for, *inter alia*, meeting their working capital and business requirements. For details of the borrowing powers of our Board, see “*Our Management – Borrowing Powers*” on page 279.

We have obtained the necessary consents required under the relevant financing documentation for undertaking the activities in relation to the Offer, including, effecting a change in our capital structure, change in our shareholding pattern, change in our constitutional documents and change in the composition of our Board.

As of October 31, 2023, our outstanding borrowings aggregated to ₹2,599.42 million. The details of the indebtedness of our Company as on October 31, 2023 is provided below:

(in ₹ million)		
Category of borrowing	Sanctioned amount	Outstanding amount
Working capital loans (I)	2,100.00	1,819.08
Bill discounting (II)	1,195.00	286.44
Term loans (III)	1,552.24	493.90
Total (IV = I + II + III)	4,847.24	2,599.42

Note: As certified by the Goel Garg & Co., Chartered Accountants, pursuant to certificate dated December 9, 2023.

Principal terms of the borrowings availed by our Company:

The details provided below are indicative and there may be additional terms, conditions and requirements under the various financing documentation executed by our Company in relation to our indebtedness.

- Interest:** The applicable rate of interest for the various facilities in India availed by us are typically linked to the marginal cost of lending rate (MCLR) or London interbank offered rate (LIBOR) over a specific period of time and spread per annum and are subject to mutual discussions between the relevant lenders and our Company. In most of our facilities, a spread per annum is charged above these benchmark rates, and the spread ranges up to 3.00% per annum.
- Tenor:** The tenor of certain working capital facilities availed by us ranges up to a period of 12 months, whereas the term loan facility availed by our Company typically has a tenor up to 96 months.
- Penal Interest:** The terms of certain financing facilities availed by us prescribe penalties for non-compliance of certain obligations by us. These include, *inter alia*, breach of financial covenants, non-renewal of insurance policy in a timely manner or inadequate insurance cover, diversion of facilities to inter-corporate deposits, debentures, stocks and shares, non-submission of annual financial statements and stock statements, etc. The terms of the borrowings availed by us prescribe a penalty interest rate that ranges up to 2.00% per annum over and above the applicable interest rate depending on the event of default or as may be mutually agreed between our Company and the respective lenders.
- Pre-payment penalty:** Our borrowings typically have pre-payment provisions which allow for pre-payment of the outstanding amount at any given point in time, subject to the conditions specified in the borrowing arrangements. The term loan facilities availed by us carry a pre-payment penalty of up to 1.00% on the pre-paid amount or as based on lenders extant guidelines or as may be mutually agreed between us and the respective lenders.
- Security:** Our borrowings are typically secured by, *inter alia*, way of mortgage of immovable fixed assets and hypothecation of moveable assets including charge over entire current assets (both present and future) and receivables of our Company. There may be additional requirements for creation of security under the various borrowing arrangements entered into by us.
- Repayment:** The working capital or term loan facilities availed by us are payable on demand or on the due date or on the conditions as may be agreed between us and the respective lenders.

7. **Key Covenants:** The financing arrangements entered into by us entail various restrictive conditions and covenants restricting certain corporate actions, and we are required to take the prior approval of the lenders before carrying out such activities.

For instance, certain corporate actions for which we require the prior written consent of the lenders include:

- (a) effecting any change in our shareholding pattern or capital structure.
- (b) making any amendments to the constitutional documents of our Company.
- (c) effecting any change in the ownership, control or management of our Company.
- (d) undertaking any expansion/modernisation/diversification/renovation or acquiring any fixed assets.
- (e) declare or pay any dividend for any year except out of the profits of the relevant year.
- (f) permitting any transfer of the controlling interest or making any drastic change in the management set-up including without limitation any change in the senior management.
- (g) investing any funds by way of deposits, or loans or in share capital of any other concerns.
- (h) pre-paying our outstanding loans in whole or part.

8. **Events of default:** The borrowing facilities availed by us contain certain standard events of default, including:

- (a) default in payment / repayment of interest or instalment amount on relevant due dates.
- (b) non-compliance of financial covenants.
- (c) any default under any other facility from any bank or financial institution.
- (d) the occurrence of any cross default.
- (e) any change of ownership, control and/or management of the Company without the prior consent of the lenders.
- (f) breach of security arrangements.
- (g) cessation of all or substantial part of Company's business.
- (h) supply of misleading information by the Company.
- (i) occurrence of a material adverse effect (as defined in the relevant financing document).
- (j) initiation of insolvency, bankruptcy, winding-up or liquidation proceedings of the Company, and seizure of the Company's equipment/plant machinery under any process of law.
- (k) appointment of receiver with respect to whole or part of the property.

9. **Consequences of occurrence of events of default:** In terms of our borrowing arrangements, due to the occurrence of events of default, our lenders may:

- (a) declare all amounts outstanding in respect of facility due and immediately payable.
- (b) demand to furnish more security.
- (c) recall advance and take any recovery action.
- (d) enforce security or change any of the terms of sanction.
- (e) impose penal interest on the principal amount.
- (f) require the Company to reconstitute its Board.
- (g) appoint a nominee director on Board of our Company.

The above is an indicative list and there may be additional consequences of an event of default under the various borrowing arrangements entered into by us.

For risks in relation to the financial and other covenants required to be complied with in relation to our borrowings, see “Risk Factors – Internal risks relating to business, operations and industry and other key risks – We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business, results of operations, cash flows and financial condition. We also intend to utilise a portion of the Net Proceeds for prepayment of all or a portion of the borrowings availed by our Company” on page 40.

SECTION VII – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND OTHER MATERIAL DEVELOPMENTS

Except as stated below, there are no outstanding (i) criminal proceedings including any first information reports; (ii) actions by statutory or regulatory authorities; (iii) claims for any direct or indirect tax liabilities; or (iv) proceedings (other than proceedings covered under (i) to (ii) above) which have been determined to be material pursuant to the Materiality Policy (as disclosed herein below), involving our Company, Directors or Promoters (the “Relevant Parties”).

In relation to (iv) above, our Board in its meeting held on August 8, 2023, has considered and adopted a policy of materiality for identification of material litigation/arbitration (“Materiality Policy”). In terms of the Materiality Policy, the following shall be considered ‘material’ for the purposes of disclosure in this Prospectus:

- (i) Any pending litigation / arbitration involving the Relevant Parties, in which the aggregate monetary amount claimed by or against the Relevant Parties (individually or in the aggregate) in any such litigation / arbitration proceedings is equal to or in excess of 1% of our profit after tax, derived from the Restated Financial Information as at March 31, 2023. The total profit after tax, of our Company for the Fiscal 2023 is ₹2,087.01 million, and accordingly, all litigations involving our Company, in which the amount involved exceeds ₹20.87 million have been considered as material, if any; or*
- (ii) Any pending litigation / arbitration proceedings involving the Relevant Parties wherein a monetary liability is not quantifiable, or which does not fulfil the threshold as specified in (i) above, but the outcome of which could, nonetheless, have a material adverse effect on the business, operations, performance, prospects, financial position or reputation of the Company.*

Further, except as disclosed in this section, there are no (i) disciplinary actions (including penalty) imposed against any of our Promoters by SEBI or any stock exchange in the five Fiscals preceding the date of this Prospectus; or (ii) litigation involving any Group Companies which may have a material impact on our Company.

For the purposes of the above, pre-litigation notices received by our Company, Directors, Group Companies or Promoters from third parties (excluding those notices issued by statutory / regulatory / tax authorities or notices threatening criminal action) have not and shall not, unless otherwise decided by our Board, be considered material until such time that our Company, or such Director, Group Companies or Promoter, as the case may be, is impleaded as a defendant in litigation before any judicial, quasi-judicial or arbitral forum.

All terms defined in a particular litigation disclosure below are for that particular litigation only.

Further, our Board, in its meeting held on August 8, 2023 has approved that a creditor of our Company shall be considered ‘material’ if the amount due to such creditor exceeds 5.00% of the trade payables of our Company as of the end of the most recent period covered in the Restated Financial Information. The trade payables of our Company as on September 30, 2023, were ₹581.78 million. Accordingly, a creditor has been considered ‘material’ if the amount due to such creditor exceeds ₹29.09 million as on September 30, 2023.

Unless stated to the contrary, the information provided below is as on the date of this Prospectus.

Summary of outstanding litigation

A summary of outstanding litigation proceedings involving our Company, Directors and Promoters, as on the date of this Prospectus as disclosed in terms of the SEBI ICDR Regulations is provided below:

Category of individuals / entities	Criminal Proceedings	Tax Proceedings	Statutory or Regulatory Proceedings	Disciplinary actions by SEBI or Stock Exchanges against our Promoters in the last five years, including outstanding action	Material civil litigation [#]	Aggregate amount involved* (₹ in million)

Litigation proceedings involving our Company

(a) Criminal proceedings

Except as disclosed below, as on the date of this Prospectus, there are no pending criminal proceedings involving our Company:

i) Litigation against our Company

1. State of Punjab through Assistant Director of Factories, Circle No. 1, Ludhiana (“**Complainant**”) filed a complaint dated April 5, 2019 (“**Complaint**”) against Paritosh Kumar, in his capacity as the occupier and manager of our Company (“**Defendant**”) in the Court of Chief Judicial Magistrate, Ludhiana (“**Ludhiana Court**”), in connection with the industrial accident that occurred due to the blast of an argan (CO₂) gas cylinder on November 21, 2018, in the factory premises of our Kanganwal Facility I, leading to the death of one of our workers. The Complainant alleged that such argan (CO₂) gas cylinder was kept idle in an open area without any support and was not stacked and stored at a proper place which resulted in the accident, thereby violating the provisions of Section 7A(2) of the Factories Act, 1948 and Rule 66D of the Punjab Factory Rules, 1952.

Aggrieved by the Complaint, the Defendant filed a criminal miscellaneous petition dated February 10, 2022 (“**Petition**”) in the High Court of Punjab and Haryana (“**High Court**”) under Section 482 of the Code of Criminal Procedure, 1974 seeking to quash the Complaint on the grounds that the Complaint was beyond the jurisdiction of the Ludhiana Court as it was barred by law of limitation prescribed under Section 106 of the Factories Act, 1948. Through an order dated May 11, 2023, the High Court admitted the Petition and granted stay on any further proceedings. The matter is currently pending.

ii) Litigation by our Company

1. Paritosh Kumar, in his capacity as the Chairman and Managing Director of our Company (“**Complainant**”) filed a criminal complaint dated July 24, 2020 before the Commissioner of Police, Ludhiana against P. Sarvanan, in his capacity as the president of Saran Corporation Limited (“**Respondent**”) alleging inter-alia commission of cheating and dishonestly inducing delivery of

property under Sections 406 and 420, respectively of the Indian Penal Code, 1860 for defrauding our Company by avoiding delivery of 4,000 ton forging press machine pursuant to payment of an advance amount aggregating to 26 million Japanese Yen (aggregating to approximately ₹16.70 million, assuming 1 Yen to be equivalent to ₹0.64 as on June 4, 2019, the date of transfer of advance payment by the Company) by our Company. Thereafter, a first information report dated June 28, 2021 (“**FIR**”) was registered at Police Station, Sahnewal, Ludhiana. Aggrieved by the FIR, the Respondent filed a petition under Section 483 of Code of Criminal Procedure, 1974 in the High Court of Punjab and Haryana (“**High Court**”) seeking inter-alia to quash the FIR and to grant a stay on any further proceedings. A written statement dated May 5, 2023, has been filed by the Complainant in the High Court. The matter is currently pending.

(b) Actions by statutory or regulatory authorities

As on the date of this Prospectus, there are no pending actions initiated by statutory or regulatory authorities against our Company.

(c) Claims related to direct and indirect taxes

Except as disclosed below, as on the date of this Prospectus, there are no pending claims related to direct and indirect taxes involving our Company:

S.No.	Nature of Proceedings	Number of cases	Amount involved (in ₹ million)*
1	Direct	3	17.34
2	Indirect	21	52.03
Total		24	69.37

*To the extent quantifiable.

(d) Other material proceedings

As on the date of this Prospectus there are no other proceedings involving our Company, which have been considered material by our Company in accordance with the Materiality Policy.

Litigation proceedings involving our Directors

(a) Criminal proceedings

Except as disclosed below, as on the date of this Prospectus, there are no pending criminal proceedings involving our Directors:

i) Litigation against our Directors

1. State of Punjab through Assistant Director of Factories, Circle No. 1, Ludhiana (“**Complainant**”) filed a complaint dated April 5, 2019 (“**Complaint**”) against Paritosh Kumar, in his capacity as the occupier and manager of our Company (“**Defendant**”) in the Court of Chief Judicial Magistrate, Ludhiana (“**Ludhiana Court**”), in connection with the industrial accident that occurred due to the blast of an argan (CO₂) gas cylinder on November 21, 2018, in the factory premises of our Kanganwal Facility I, leading to the death of one of our workers. The Complainant alleged that such argan (CO₂) gas cylinder was kept idle in an open area without any support and was not stacked and stored at a proper place which resulted in the accident, thereby violating the provisions of Section 7A(2) of the Factories Act, 1948 and Rule 66D of the Punjab Factory Rules, 1952.

Aggrieved by the Complaint, the Defendant filed a criminal miscellaneous petition dated February 10, 2022 (“**Petition**”) in the High Court of Punjab and Haryana (“**High Court**”) under Section 482 of the Code of Criminal Procedure, 1974 seeking to quash the Complaint on the grounds that the Complaint was beyond the jurisdiction of the Ludhiana Court as it was barred by law of limitation prescribed under Section 106 of the Factories Act, 1948. Through an order dated May 11, 2023, the High Court admitted the Petition and granted stay on any further proceedings. The matter is currently

pending.

ii) *Litigation by our Directors*

1. Paritosh Kumar, in his capacity as the Chairman and Managing Director of our Company (“**Complainant**”) filed a criminal complaint dated July 24, 2020 before the Commissioner of Police, Ludhiana against P. Sarvanan, in his capacity as the president of Saran Corporation Limited (“**Respondent**”) alleging inter-alia commission of cheating and dishonestly inducing delivery of property under Sections 406 and 420, respectively of the Indian Penal Code, 1860 for defrauding our Company by avoiding delivery of 4,000 ton forging press machine pursuant to payment of an advance amount aggregating to 26 million Japanese Yen (aggregating to approximately ₹16.70 million, assuming 1 Yen to be equivalent to ₹0.64 as on June 4, 2019, the date of transfer of advance payment by the Company) by our Company. Thereafter, a first information report dated June 28, 2021 (“**FIR**”) was registered at Police Station, Sahnewal, Ludhiana. Aggrieved by the FIR, the Respondent filed a petition under Section 483 of Code of Criminal Procedure, 1974 in the High Court of Punjab and Haryana (“**High Court**”) seeking inter-alia to quash the FIR and to grant a stay on any further proceedings. A written statement dated May 5, 2023, has been filed by the Complainant in the High Court. The matter is currently pending.

(b) *Actions by statutory or regulatory authorities*

As on the date of this Prospectus, there are no pending actions initiated by statutory or regulatory authorities against our Directors.

(c) *Claims related to direct and indirect taxes*

As on the date of this Prospectus, there are no pending claims related to direct or indirect taxes involving our Directors.

(d) *Other material proceedings*

As on the date of this Prospectus there are no other pending proceedings involving any of our Directors, which have been considered material by our Company in accordance with the Materiality Policy.

Litigation proceedings involving our Promoters

(a) *Criminal proceedings*

Except as disclosed below, as on the date of this Prospectus, there are no pending criminal proceedings involving any of our Promoters:

i) *Litigation against our Promoters*

1. State of Punjab through Assistant Director of Factories, Circle No. 1, Ludhiana (“**Complainant**”) filed a complaint dated April 5, 2019 (“**Complaint**”) against our individual Promoter, Paritosh Kumar, in his capacity as the occupier and manager of our Company (“**Defendant**”) in the Court of Chief Judicial Magistrate, Ludhiana (“**Ludhiana Court**”), in connection with the industrial accident that occurred due to the blast of an argan (CO₂) gas cylinder on November 21, 2018, in the factory premises of our Kanganwal Facility I, leading to the death of one of our workers. The Complainant alleged that such argan (CO₂) gas cylinder was kept idle in an open area without any support and was not stacked and stored at a proper place which resulted in the accident, thereby violating the provisions of Section 7A(2) of the Factories Act, 1948 and Rule 66D of the Punjab Factory Rules, 1952.

Aggrieved by the Complaint, the Defendant filed a criminal miscellaneous petition dated February 10, 2022 (“**Petition**”) in the High Court of Punjab and Haryana (“**High Court**”) under Section 482 of the Code of Criminal Procedure, 1974 seeking to quash the Complaint on the grounds that the Complaint was beyond the jurisdiction of the Ludhiana Court as it was barred by law of limitation

prescribed under Section 106 of the Factories Act, 1948. Through an order dated May 11, 2023, the High Court admitted the Petition and granted stay on any further proceedings. The matter is currently pending.

ii) Litigation by our Promoters

1. One of our individual Promoters, Paritosh Kumar, in his capacity as the Chairman and Managing Director of our Company (“**Complainant**”) filed a criminal complaint dated July 24, 2020 before the Commissioner of Police, Ludhiana against P. Sarvanan, in his capacity as the president of Saran Corporation Limited (“**Respondent**”) alleging inter-alia commission of cheating and dishonestly inducing delivery of property under Sections 406 and 420, respectively of the Indian Penal Code, 1860 for defrauding our Company by avoiding delivery of 4,000 ton forging press machine pursuant to payment of an advance amount aggregating to 26 million Japanese Yen (aggregating to approximately ₹16.70 million, assuming 1Yen to be equivalent to ₹0.64 as on June 4, 2019, the date of transfer of advance payment by the Company) by our Company. Thereafter, a first information report dated June 28, 2021 (“**FIR**”) was registered at Police Station, Sahnewal, Ludhiana. Aggrieved by the FIR, the Respondent filed a petition under Section 483 of Code of Criminal Procedure, 1974 in the High Court of Punjab and Haryana (“**High Court**”) seeking inter-alia to quash the FIR and to grant a stay on any further proceedings. A written statement dated May 5, 2023, has been filed by the Complainant in the High Court. The matter is currently pending.

(b) Actions by statutory or regulatory authorities

As on the date of this Prospectus, there are no pending actions initiated by statutory or regulatory authorities against our Promoters.

(c) Claims related to direct and indirect taxes

As on the date of this Prospectus, there are no pending claims related to direct or indirect taxes involving our Promoters.

(d) Other pending proceedings

As on the date of this Prospectus there are no other pending proceedings involving any of our Promoters, which have been considered material by our Company in accordance with the Materiality Policy.

(e) Disciplinary action taken including penalty imposed against our Promoters in the five Fiscals preceding the date of this Prospectus by SEBI or any stock exchange

No disciplinary action, including any penalty has been taken or imposed against our Promoters in the five Fiscals preceding the date of this Prospectus either by SEBI or any stock exchange.

Litigation proceedings involving our Group Companies

As on the date of this Prospectus, there are no pending litigation proceedings involving any Group Companies which will have a material impact on our Company.

Outstanding dues to small scale undertakings, material creditors, and any other creditors

As of September 30, 2023, our Company had 430 creditors, and the aggregate outstanding dues to these creditors by our Company are ₹646.24 million. In terms of the Materiality Policy, such creditors are considered ‘material’ to whom the amount due exceeds five percent of the trade payables of our Company as on September 30, 2023. Based on this, our Company owed a total sum of ₹349.24 million to a total number of four material creditors as on September 30, 2023. The details of our outstanding dues to the ‘material’ creditors of our Company, micro and small enterprises, and other creditors, as on September 30, 2023, are as follows:

Particulars	Number of creditors	Amount due (in ₹ million)
Micro and small enterprises*	144	66.92
'Material' creditors	4	349.24
Other creditors	282	230.08

*As defined under the Micro, Small and Medium Enterprises Development Act, 2006.

As certified by Goel Garg & Co., Chartered Accountants by way of their certificate dated December 9, 2023.

For complete details of outstanding overdues to material creditors, see <https://happyforgingsltd.com/investors>.

It is clarified that such details available on our Company's website do not form a part of this Prospectus. Anyone placing reliance on any other source of information including our Company's website would be doing so at their own risk.

Material Developments

Except as stated in the section “*Management's Discussion and Analysis of Financial Condition and Results of Operations*” on page 384, there have not arisen, since the date of the last Restated Financial Information disclosed in this Prospectus, any circumstances which materially and adversely affect or are likely to affect our profitability taken as a whole or the value of our consolidated assets or our ability to pay our liabilities within the next 12 months.

GOVERNMENT AND OTHER APPROVALS

Set out below is an indicative list of licenses, approvals, registrations, and permits obtained by our Company which are considered material and necessary for the purpose of undertaking its business activities, and except as disclosed herein, we have obtained all material consents, licenses, registrations, permissions and approvals from various governmental, statutory and regulatory authorities, which are considered material and necessary for undertaking the current business activities and operations of our Company. Except as disclosed below, no further material approvals are required for carrying on the present business operations of our Company. In the event any of the approvals and licenses that are required for our business operations expire in the ordinary course, we make applications for their renewal from time to time. For details in connection with the regulatory and legal framework within which our Company operates, see “Key Regulations and Policies in India” on page 265.

For Offer related approvals obtained by our Company, see “Other Regulatory and Statutory Disclosures” on page 446. For details of the risk associated with a delay in obtaining, or not obtaining, the requisite material approvals, see “Risk Factors – We require certain licenses, permits and approvals in the ordinary course of business, and the failure to obtain or retain them in a timely manner may materially adversely affect our operations” on page 44.

SECTION VIII – GROUP COMPANIES

In accordance with the SEBI ICDR Regulations and the applicable accounting standards, for the purpose of identification of 'group companies', our Company has considered (i) such companies (other than our corporate Promoter) with which there were related party transactions during the period for which Restated Financial Information have been disclosed in this Prospectus, as covered under the applicable accounting standards (i.e., Ind AS 24); and (ii) any other companies which are considered material by our Board.

Accordingly, all such companies (other than our corporate Promoter) with which our Company had related party transactions as covered under the relevant accounting standard (i.e., Ind AS 24), as per the Restated Financial Information, have been considered as Group Companies in terms of the SEBI ICDR Regulations.

In respect of point (ii) above, our Board, in its meeting held on August 8, 2023, has considered and adopted a policy of materiality for the identification of companies that shall be considered material and disclosed as a 'group company' in this Prospectus. In terms of such materiality policy, if a company (a) is a member of the Promoter Group; and (b) has entered into one or more transactions with the Company during the last completed full Financial Year and the most recent period included in the Restated Financial Information, which individually or cumulatively in value exceeds 10% of the total restated consolidated revenue from operations of the Company derived from the Restated Financial Information of the last completed full financial year, it shall be considered material and disclosed as a 'group company'.

Based on the parameters set out above, the following have been identified as Group Companies:

1. VVDN Technologies Private Limited;
2. Happy Steels Private Limited;
3. Northstar Autocomp Private Limited; and
4. Gamo Forgings Private Limited

Details of our Group Companies:

The details of our Group Companies, determined based on turnover in Fiscal 2023, are as provided below:

1. VVDN Technologies Private Limited

India Business Excellence Fund – III	Investor Selling Shareholder	2,237,475	December 2, 2023	August 8, 2023

Our Company has received in-principle approvals from the BSE and the NSE for the listing of the Equity Shares pursuant to letters dated September 12, 2023 and September 13, 2023, respectively.

Prohibition by SEBI or other Governmental Authorities

Our Company, our Promoters, the persons in control of our Company, our Directors, the members of the Promoter Group and each of the Selling Shareholders have not been prohibited from accessing the capital markets and have not been debarred from buying, selling or dealing in securities under any order or direction passed by SEBI or any securities market regulator in any jurisdiction or any other authority / court.

Compliance with the Companies (Significant Beneficial Ownership) Rules, 2018

Our Company, our Promoters, the members of the Promoter Group and each of the Selling Shareholders severally and not jointly confirm that they are in compliance with the Companies (Significant Beneficial Owners) Rules, 2018, to the extent applicable, as on the date of this Prospectus.

Directors associated with the Securities Market

None of our Directors are, in any manner, associated with the securities market.

There are no outstanding action(s) initiated by SEBI against the Directors of our Company in the five years preceding the date of this Prospectus.

Eligibility for the Offer

Our Company is eligible for the Offer in accordance with Regulation 6(1) of the SEBI ICDR Regulations, and is in compliance with the conditions specified therein in the following manner:

- Our Company has had net tangible assets of at least ₹30 million, calculated on a restated basis, in each of the preceding three full years (of 12 months each), of which not more than 50% are held in monetary assets;
- Our Company has an average operating profit of at least ₹150 million, calculated on a restated basis, during the preceding three years (of 12 months each), with operating profit in each of these preceding three years;

- (c) Our Company has a net worth of at least ₹10 million in each of the preceding three full years (of 12 months each), calculated on a restated basis; and
- (d) Our Company has not changed its name in the last one year.

Our Company's restated net tangible assets, restated monetary assets, restated monetary assets as a percentage of restated net tangible assets, operating profit and net worth, derived from the Restated Financial Information included in this Prospectus, as at and for the Fiscals ended March 31, 2023, March 31, 2022, and March 31, 2021 is set forth below:

(₹ in million, unless otherwise stated)

Particulars	As at and for the Fiscal ended		
	March 31, 2023	March 31, 2022	March 31, 2021
	Consolidated	Consolidated	Standalone
Net tangible assets, as restated ⁽¹⁾	9,868.24	7,860.65	6,440.75
Monetary assets, as restated ⁽²⁾	3.41	14.60	277.83
Monetary assets, as restated, as a percentage of net tangible assets, as restated (%)	0.03%	0.19%	4.31%
Operating profit, as restated ⁽³⁾	2,867.63	1,931.52	1,229.90
Net worth, as restated ⁽⁴⁾	9,883.06	7,876.23	6,451.59

(1) Net tangible assets have been computed as sum of total assets less total current liabilities less total non current liabilities and less intangible assets (including intangible assets under development) as defined in Indian Accounting Standard (Ind AS) 38 'Intangible Assets', issued by the Institute of Chartered Accountants of India.

(2) Monetary assets have been computed considering cash and cash equivalents and bank balance.

(3) Operating profit has been computed as restated profit before tax after excluding finance cost and other income.

(4) Net worth is the aggregate value of the paid-up share capital and all reserves created out of the profits, securities premium account, and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the Restated Summary Statement, but does not include reserves created out of revaluation of assets, capital reserve, write-back of depreciation and amalgamation.

Our Company has operating profits in each of Fiscal 2023, 2022 and 2021 in terms of our Restated Financial Information. Our average operating profit for Fiscals 2023, 2022 and 2021 is ₹2,009.68 million.

Further, in accordance with Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Allottees under the Offer shall be not less than 1,000, and should our Company fail to do so, the Bid Amounts received by our Company shall be refunded to the Bidders, in accordance with the SEBI ICDR Regulations and applicable law.

Our Company confirms that it is in compliance with the conditions specified in Regulation 7(1) of the SEBI ICDR Regulations, to the extent applicable, and will ensure compliance with the conditions specified in Regulation 7(2) of the SEBI ICDR Regulations, to the extent applicable.

Further, our Company confirms that it is not ineligible to make the Offer in terms of Regulation 5 of the SEBI ICDR Regulations, to the extent applicable. The details of our compliance with Regulation 5 of the SEBI ICDR Regulations are as follows:

- (a) None of our Company, our Promoters, members of our Promoter Group, our Directors or any of the Selling Shareholders are debarred from accessing the capital markets by SEBI.
- (b) None of our Promoters or Directors are promoters or directors of companies which are debarred from accessing the capital markets by SEBI.
- (c) None of our Company, our Promoters or Directors is a Wilful Defaulter or a Fraudulent Borrower.
- (d) None of our Promoters or Directors has been declared a Fugitive Economic Offender.
- (e) There are no outstanding warrants, options or rights to convert debentures, loans or other instruments convertible into, or which would entitle any person any option to receive, Equity Shares, as on the date of this Prospectus.

Each of the Selling Shareholders, severally and not jointly, confirm that, as required under Regulation 8 of the SEBI ICDR Regulations, they have held the Offered Shares for a continuous period of at least one year prior to the date of the Draft Red Herring Prospectus or are otherwise eligible for being offered for sale pursuant to the Offer in terms of the SEBI ICDR Regulations.

DISCLAIMER CLAUSE OF SEBI

IT IS TO BE DISTINCTLY UNDERSTOOD THAT SUBMISSION OF THE DRAFT RED HERRING PROSPECTUS TO SEBI SHOULD NOT, IN ANY WAY, BE DEEMED OR CONSTRUED THAT THE SAME HAS BEEN CLEARED OR APPROVED BY SEBI. SEBI DOES NOT TAKE ANY RESPONSIBILITY EITHER FOR THE FINANCIAL SOUNDNESS OF ANY SCHEME OR THE PROJECT FOR WHICH THE OFFER IS PROPOSED TO BE MADE OR FOR THE CORRECTNESS OF THE STATEMENTS MADE OR OPINIONS EXPRESSED IN THE DRAFT RED HERRING PROSPECTUS. THE BOOK RUNNING LEAD MANAGERS, JM FINANCIAL LIMITED, AXIS CAPITAL LIMITED, EQUIRUS CAPITAL PRIVATE LIMITED AND MOTILAL OSWAL INVESTMENT ADVISORS LIMITED (COLLECTIVELY, THE “BRLMs”), HAVE CERTIFIED THAT THE DISCLOSURES MADE IN THE DRAFT RED HERRING PROSPECTUS ARE GENERALLY ADEQUATE AND ARE IN CONFORMITY WITH THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018. THIS REQUIREMENT IS TO FACILITATE INVESTORS TO TAKE AN INFORMED DECISION FOR MAKING AN INVESTMENT IN THE PROPOSED OFFER.

IT SHOULD ALSO BE CLEARLY UNDERSTOOD THAT WHILE THE COMPANY IS PRIMARILY RESPONSIBLE FOR THE CORRECTNESS, ADEQUACY AND DISCLOSURE OF ALL RELEVANT INFORMATION IN THE DRAFT RED HERRING PROSPECTUS AND EACH OF THE SELLING SHAREHOLDERS IS RESPONSIBLE FOR THE STATEMENTS SPECIFICALLY CONFIRMED OR UNDERTAKEN BY IT IN THE DRAFT RED HERRING PROSPECTUS ABOUT IN RELATION TO ITSELF OR ITS RESPECTIVE PORTION OF THE OFFERED SHARES, THE BRLMS ARE EXPECTED TO EXERCISE DUE DILIGENCE TO ENSURE THAT THE COMPANY AND THE SELLING SHAREHOLDERS DISCHARGE THEIR RESPONSIBILITY ADEQUATELY IN THIS BEHALF AND TOWARDS THIS PURPOSE, THE BRLMS HAVE FURNISHED TO SEBI, A DUE DILIGENCE CERTIFICATE DATED AUGUST 14, 2023, IN THE FORMAT PRESCRIBED UNDER SCHEDULE V (FORM A) OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED.

THE FILING OF THE DRAFT RED HERRING PROSPECTUS, THE RED HERRING PROSPECTUS AND THIS PROSPECTUS DOES NOT, HOWEVER, ABSOLVE THE COMPANY FROM ANY LIABILITIES UNDER THE COMPANIES ACT, 2013 OR FROM THE REQUIREMENT OF OBTAINING SUCH STATUTORY AND/OR OTHER CLEARANCES AS MAY BE REQUIRED FOR THE PURPOSE OF THE PROPOSED OFFER. SEBI FURTHER RESERVES THE RIGHT TO TAKE UP, AT ANY POINT OF TIME, WITH THE BOOK RUNNING LEAD MANAGERS, ANY IRREGULARITIES OR LAPSES IN THE DRAFT RED HERRING PROSPECTUS.

The filing of the Draft Red Herring Prospectus, the Red Herring Prospectus and this Prospectus also does not absolve the Selling Shareholders from any liabilities to the extent of the statements specifically made or confirmed by themselves in respect of themselves and of their respective Offered Shares, under Section 34 or Section 36 of Companies Act, 2013.

All legal requirements pertaining to this Offer were complied with at the time of filing of the Red Herring Prospectus with the RoC in terms of Section 32 of the Companies Act. All legal requirements pertaining to this Offer will be complied with at the time of filing of this Prospectus with the RoC in terms of Sections 26, 32, 33(1) and 33(2) of the Companies Act.

Disclaimer from our Company, our Directors, the Selling Shareholders and the Book Running Lead Managers

Our Company, our Directors, the Selling Shareholders and the Book Running Lead Managers accept no responsibility for statements made otherwise than in this Prospectus or in the advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, including our Company's website www.happyforgingsltd.com, would be doing so at his or her own risk. Each Selling Shareholder and their respective affiliates, directors, trustees, officers and associates accept or undertake no responsibility for any statements, disclosures or undertakings other than those specifically undertaken or confirmed by such Selling Shareholder in relation to themselves and the Equity Shares being offered by them in the Offer.

The Book Running Lead Managers accepts no responsibility, save to the limited extent as provided in the Offer Agreement and the Underwriting Agreement.

All information shall be made available by our Company, the Selling Shareholders, severally and not jointly (to the extent that the information pertain to themselves and their respective portions of the Offered Shares through the Offer Documents), and the Book Running Lead Managers to the public and investors at large and no selective or additional information would be available for a section of the investors in any manner whatsoever, including at road show presentations, in research or sales reports, at Bidding Centres or elsewhere.

Bidders were required to confirm and have been deemed to have represented to our Company, the Selling Shareholders, Underwriters, Book Running Lead Managers and their respective directors, officers, agents, affiliates, and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares and will not issue, sell, pledge, or transfer the Equity Shares to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares. Our Company, the Selling Shareholders, Underwriters, Book Running Lead Managers and their respective directors, officers, agents, affiliates, and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

The Book Running Lead Managers and their associates and affiliates in their capacity as principals or agents may engage in transactions with, and perform services for, our Company, our Promoters, members of the Promoter Group, the Selling Shareholders and their respective directors and officers, group companies, affiliates or associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with our Company, the Promoters, members of the Promoter Group, the Selling Shareholders and their respective directors, officers, group companies, affiliates or associates or third parties, for which they have received, and may in the future receive, compensation.

Disclaimer in respect of Jurisdiction

Any dispute arising out of the Offer will be subject to the jurisdiction of appropriate court(s) in Chandigarh only.

The Offer was made in India to persons resident in India (including Indian nationals resident in India who are competent to contract under the Indian Contract Act, 1872, HUFs, companies, corporate bodies and societies registered under the applicable laws in India and authorised to invest in equity shares, multilateral and bilateral development financial institutions, domestic Mutual Funds registered with the SEBI, Indian financial institutions, commercial banks, regional rural banks, co-operative banks (subject to RBI permission), or trusts under applicable trust law and who are authorised under their constitution to hold and invest in shares, state industrial development corporations, permitted insurance companies registered with IRDAI, public financial institutions as specified in Section 2(72) of the Companies Act, 2013, permitted provident funds (subject to applicable law) and pension funds, National Investment Fund, insurance funds set up and managed by the army and navy or air force of Union of India and insurance funds set up and managed by the Department of Posts, India, systemically important NBFCs registered with the RBI and permitted Non-Residents including FPIs and Eligible NRIs, AIFs and other eligible foreign investors, if any, provided that they are eligible under all applicable laws and regulations to purchase the Equity Shares.

The Red Herring Prospectus did not constitute an invitation to subscribe to or purchase the Equity Shares in the Offer in any jurisdiction, including India. Invitations to subscribe to or purchase the Equity Shares in the Offer were

made only pursuant to the Red Herring Prospectus if the recipient is in India or the preliminary offering memorandum for the Offer, which comprised of the Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient was outside India. **No person outside India was eligible to Bid for Equity Shares in the Offer unless that person received the preliminary offering memorandum for the Offer, which contained the selling restrictions for the Offer outside India.**

Any person into whose possession this Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Draft Red Herring Prospectus was filed with SEBI for its observations. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and this Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of the Red Herring Prospectus nor this Prospectus nor the offer of the Offered Shares shall, under any circumstances, create any implication that there has been no change in the affairs of our Company or the Selling Shareholders from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Eligibility and Transfer Restrictions

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares were offered and sold (i) within the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act and referred to in this Prospectus as “U.S. QIBs”) in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, and (ii) outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. For the avoidance of doubt, the term “U.S. QIBs” does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Prospectus as “QIBs”.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Until the expiry of 40 days after the commencement of this Offer, an offer or sale of Equity Shares within the United States by a dealer (whether or not it is participating in this Offer) may violate the registration requirements of the U.S. Securities Act if such an offer for sale is made otherwise than in compliance with the available exemptions from registration under the U.S. Securities Act.

Equity Shares Offered and Sold within the United States

Each purchaser that is acquiring the Equity Shares offered pursuant to this Offer within the United States, by its acceptance of the Red Herring Prospectus and of the Equity Shares, will be deemed to have acknowledged, represented to and agreed with our Company and the BRLMs that it has received a copy of the Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorized to consummate the purchase of the Equity Shares offered pursuant to this Offer in compliance with all applicable laws and regulations;
2. the purchaser acknowledges that the Equity Shares offered pursuant to this Offer have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;

3. the purchaser (i) is a U.S. QIB, (ii) is aware that the sale to it is being made in a transaction exempt from or not subject to the registration requirements of the U.S. Securities Act, and (iii) is acquiring such Equity Shares for its own account or for the account of a U.S. QIB with respect to which it exercises sole investment discretion;
4. the purchaser is not an affiliate of our Company or a person acting on behalf of an affiliate;
5. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only (A) (i) to a person whom the beneficial owner and/or any person acting on its behalf reasonably believes is a U.S. QIB in a transaction meeting the requirements of Rule 144A under the U.S. Securities Act or (ii) in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act and (B) in accordance with all applicable laws, including the securities laws of the states of the United States. The purchaser understands that the transfer restrictions will remain in effect until our Company determines, in its sole discretion, to remove them;
6. the Equity Shares are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act and no representation is made as to the availability of the exemption provided by Rule 144 for resales of any such Equity Shares;
7. the purchaser will not deposit or cause to be deposited such Equity Shares into any depositary receipt facility established or maintained by a depositary bank other than a Rule 144A restricted depositary receipt facility, so long as such Equity Shares are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act;
8. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any “directed selling efforts” as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares;
9. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless our Company determines otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

THE EQUITY SHARES REPRESENTED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “U.S. SECURITIES ACT”) OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT (1) TO A PERSON WHOM THE SELLER OR ANY PERSON ACTING ON ITS BEHALF REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE U.S. SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE U.S. SECURITIES ACT, OR (2) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES.

10. our Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; and
11. the purchaser acknowledges that our Company, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify our Company, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

All other Equity Shares offered and sold in this Offer

Each purchaser that is acquiring the Equity Shares offered pursuant to this Offer outside the United States, by its acceptance of the Red Herring Prospectus and of the Equity Shares offered pursuant to this Offer, were be deemed to have acknowledged, represented to and agreed with our Company and the BRLMs that it has received a copy of the Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorized to consummate the purchase of the Equity Shares offered pursuant to this Offer in compliance with all applicable laws and regulations;
2. the purchaser acknowledges that the Equity Shares offered pursuant to this Offer have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;
3. the purchaser is purchasing the Equity Shares offered pursuant to this Offer in an offshore transaction meeting the requirements of Rule 903 of Regulation S under the U.S. Securities Act;
4. the purchaser and the person, if any, for whose account or benefit the purchaser is acquiring the Equity Shares offered pursuant to this Offer, was located outside the United States at the time (i) the offer for such Equity Shares was made to it and (ii) when the buy order for such Equity Shares was originated and continues to be located outside the United States and has not purchased such Equity Shares for the account or benefit of any person in the United States or entered into any arrangement for the transfer of such Equity Shares or any economic interest therein to any person in the United States;
5. the purchaser is not an affiliate of our Company or a person acting on behalf of an affiliate;
6. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only (A) (i) to a person whom the beneficial owner and/or any person acting on its behalf reasonably believes is a U.S. QIB in a transaction meeting the requirements of Rule 144A or (ii) in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act and (B) in accordance with all applicable laws, including the securities laws of the States of the United States. The purchaser understands that the transfer restrictions will remain in effect until our Company determines, in its sole discretion, to remove them;
7. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any “directed selling efforts” as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares;
8. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless our Company determine otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

THE EQUITY SHARES REPRESENTED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “U.S. SECURITIES ACT”) OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT (1) TO A PERSON WHOM THE SELLER OR ANY PERSON ACTING ON ITS BEHALF REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE U.S. SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, OR (2) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES.

9. our Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; and
10. the purchaser acknowledges that our Company, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify our Company, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

Further, each Bidder where required must agree in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act.

European Economic Area

In relation to each European Economic Area State that has implemented the Prospectus Directive (Directive 2003/71/EC) and amendments thereto, including Directive 2010/73/EU and to the extent applicable, Prospectus Regulation (EU) 2017/1129 (each, a “Relevant Member State”), an offer to the public of any Equity Shares may be made at any time under the following exemptions under the Prospectus Regulations, if they have been implemented in that Relevant Member State:

- (i) to any legal entity which is a qualified investor as defined under the Prospectus Regulations;
- (ii) to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Directive), subject to obtaining the prior consent of the BRLMs; or
- (iii) in any other circumstances falling within Article 1(4) of the Prospectus Regulation

provided that no such offer of Equity Shares shall result in a requirement for our Company or any BRLM to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 23 of the Prospectus Directive.

For the purposes of this paragraph, the expression an “offer to the public” in relation to the Equity Shares in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Equity Shares, and the expression “Prospectus Directive” means Regulation (EU) 2017/1129.

United Kingdom

No Equity Shares have been offered or will be offered pursuant to the Offer to the public in the United Kingdom prior to the publication of a prospectus in relation to the Equity Shares which has been approved by the Financial Conduct Authority is to be treated as if it had been approved by the Financial Conduct Authority in accordance with the transitional provisions in Article 74 (transitional provisions) of the Prospectus Amendment etc. (EU Exit) Regulations 2019/1234, except that it may make an offer to the public in the United Kingdom of any Equity Shares at any time:

- (i) to any legal entity which is a qualified investor as defined under the UK Prospectus Regulation;
- (ii) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of BRLMs for any such offer; or
- (iii) in any other circumstances falling within Section 86 of the FSMA

provided that no such offer of Equity Shares shall result in a requirement for our Company or any BRLM to publish a prospectus pursuant to Section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to the Equity Shares in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Equity Shares and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018.

Bidders were advised to ensure that any Bid from them did not exceed investment limits or maximum number of Equity Shares that can be held by them under applicable law. Further, each Bidder where required agreed in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.

Disclaimer Clause of BSE

As required, a copy of the Draft Red Herring Prospectus was submitted to BSE. The disclaimer clause as intimated by BSE to our Company, post scrutiny of the Draft Red Herring Prospectus, is set forth below:

“BSE Limited (“the Exchange”) has given vide its letter dated September 12, 2023, permission to this Company to use the Exchange’s name in this offer document as one of the stock exchanges on which this company’s securities are proposed to be listed. The Exchange has scrutinized this offer document for its limited internal purpose of deciding on the matter of granting the aforesaid permission to this Company. The Exchange does not in any manner:

- a) a warrant, certify or endorse the correctness or completeness of any of the contents of this offer document; or*
- b) warrant that this Company’s securities will be listed or will continue to be listed on the Exchange; or*
- c) take any responsibility for the financial or other soundness of this Company, its promoters, its management or any scheme or project of this Company*

and it should not for any reason be deemed or construed that this offer document has been cleared or approved by the Exchange. Every person who desires to apply for or otherwise acquires any securities of this Company may do so pursuant to independent inquiry, investigation and analysis and shall not have any claim against the Exchange whatsoever by reason of any loss which may be suffered by such person consequent to or in connection with such subscription/acquisition whether by reason of anything stated or omitted to be stated herein or for any other reason whatsoever.”

Disclaimer Clause of NSE

As required, a copy of the Draft Red Herring Prospectus was submitted to NSE. The disclaimer clause as intimated by NSE to our Company, post scrutiny of the Draft Red Herring Prospectus, is set forth below:

“As required, a copy of this Offer Document has been submitted to National Stock Exchange of India Limited (hereinafter referred to as NSE). NSE has given vide its letter Ref.: NSE/LIST/2633 dated September 13, 2023, permission to the Issuer to use the Exchange’s name in this Offer Document as one of the Stock Exchanges on which this Issuer’s securities are proposed to be listed. The Exchange has scrutinized this draft offer document for its limited internal purpose of deciding on the matter of granting the aforesaid permission to this Issuer. It is to be distinctly understood that the aforesaid permission given by NSE should not in any way be deemed or construed that the offer document has been cleared or approved by NSE; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this offer document; nor does it warrant that this Issuer’s securities will be listed or will continue to be listed on the Exchange; nor does it take any responsibility for the financial or other soundness of this Issuer, its promoters, its management or any scheme or project of this Issuer. Every person who desires to apply for or otherwise acquire any securities of this Issuer may do so pursuant to independent inquiry, investigation and analysis and shall not have any claim against the Exchange whatsoever by

reason of any loss which may be suffered by such person consequent to or in connection with such subscription /acquisition whether by reason of anything stated or omitted to be stated herein or any other reason whatsoever.”

Listing

The Equity Shares issued pursuant to the Red Herring Prospectus and this Prospectus are proposed to be listed on BSE and NSE. NSE will be the Designated Stock Exchange with which the Basis of Allotment will be finalised. Applications will be made to the BSE and NSE for obtaining their permission for the listing and trading of the Equity Shares.

If the permission to deal in and for an official quotation of the Equity Shares is not granted by the Stock Exchanges, our Company shall forthwith repay, without interest, all monies received from the applicants in pursuance of the Red Herring Prospectus and this Prospectus in accordance with applicable law.

If our Company does not Allot Equity Shares pursuant to the Offer within such timeline as prescribed by SEBI, it shall repay without interest all monies received from Bidders, failing which interest shall be due to be paid to the Bidders at the rate of 15% per annum for the delayed period. For avoidance of doubt, no liability to make any payment of interest or expenses shall accrue to any Selling Shareholder unless the delay in making any of the payments/refund hereunder or the delay in obtaining listing or trading approvals or any other approvals in relation to the Offer is caused solely by, and is directly attributable to, an act or omission of such Selling Shareholder and to the extent of their portion of the Offered Shares.

Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges are taken within three Working Days from the Bid / Offer Closing Date or within such other period as may be prescribed. Each Selling Shareholder severally and not jointly, confirms that they shall extend reasonable support and co-operation (to the extent of its portion of the Offered Shares) as required by law for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within three Working Days from the Bid / Offer Closing Date, or within such other period as may be prescribed. If the Company does not Allot the Equity Shares within two Working Days from the Bid/Offer Closing Date or within such timeline as prescribed by SEBI, all amounts received in the Public Offer Account will be transferred to the Refund Account and it shall be utilised to repay, without interest, all monies received from Bidders, failing which interest shall be due to be paid to the Bidders as prescribed under applicable law.

Consents

Consents in writing of each of the Selling Shareholders, our Directors, our Company Secretary and Compliance Officer, legal counsel to the Company as to Indian law, Banker to our Company, the Book Running Lead Managers, the Registrar to the Offer, Ricardo, the Monitoring Agency, Syndicate Members, Public Offer Account Bank, Sponsor Banks, Escrow Collection Bank and Refund Bank to act in their respective capacities, have been obtained and filed along with a copy of the Red Herring Prospectus and this Prospectus with the RoC as required under the Companies Act, and such consents have not been withdrawn up to the time of filing of this Prospectus with the RoC.

Experts to the Offer

Except as stated below, our Company has not obtained any expert opinions:

Our Company has received written consent dated December 21, 2023, from S.R. Batliboi & Co. LLP, Chartered Accountants, to include their name as required under Section 26(1) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Statutory Auditors and in respect of their (i) examination report dated December 2, 2023 on our Restated Financial Information; and (ii) report dated August 14, 2023 on the statement of special tax benefits is included in this Prospectus and such consent has not been withdrawn as on the date of this Prospectus. However, the term “expert” shall not be construed to mean an “expert” as defined under the U.S. Securities Act.

Our Company has also received written consent dated December 9, 2023, from Goel Garg & Co., Chartered Accountants, holding a valid peer review certificate from ICAI, to include their name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in the Red Herring Prospectus and this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013, in respect of various certifications issued by them in their capacity as independent chartered accountant to our Company.

Additionally, our Company has, received a written consent, pursuant to the certificate dated December 8, 2023, from Anil Kumar Soni, independent chartered engineer, to include his name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations, in the Red Herring Prospectus and this Prospectus as an “expert” as defined under Section 2(38) of the Companies Act, 2013, in relation to their certificate on installed capacity, actual production and capacity utilisation at the manufacturing facilities of our Company, included under “*Our Business*” on page 219 of this Prospectus.

Such consents each from the independent chartered accountant and the independent chartered engineer have not been withdrawn as on the date of this Prospectus.

Particulars regarding public or rights issues by our Company during the last five years and performance *vis-à-vis* objects

Our Company has not made any public or rights issues (as defined under the SEBI ICDR Regulations) during the five years preceding the date of this Prospectus.

Performance *vis-à-vis* objects – Last issue of subsidiaries and promoters

As on the date of this Prospectus, our corporate Promoter, Ayush Capital & Financial Services Private Limited has no securities listed on any stock exchange. Our Company does not have any subsidiary.

Underwriting Commission, Brokerage and Selling Commission paid on previous issues of the Equity Shares

Since this is the initial public issue of Equity Shares, no sum has been paid or is payable as commission or brokerage for subscribing to or procuring or agreeing to procure subscription for any of the Equity Shares in the five years preceding the date of this Prospectus.

Capital issue during the previous three years by our Company

Other than as disclosed in “*Capital Structure*” on page 97, our Company has not undertaken a capital issue in the last three years preceding the date of this Prospectus.

Capital issue during the previous three years by listed group companies or listed subsidiaries or associates of our Company

Our Company does not have any listed group companies, as on the date of this Prospectus. Our Company does not have any associates or subsidiaries.

Stock Market Data of Equity Shares

This being an initial public offer of the Equity Shares of our Company, the Equity Shares are not listed on any stock exchange as on the date of this Prospectus, and accordingly, no stock market data is available for the Equity Shares.

Mechanism for Redressal of Investor Grievances in the Offer

The agreement between the Registrar to the Offer, our Company and the Selling Shareholders provides for retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares pursuant to the Offer to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

Bidders can contact the Company Secretary and Compliance Officer and/or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer related queries and for redressal of complaints, Bidders may also write to the BRLMs or the Registrar to the Offer, in the manner provided below.

All Offer related grievances, other than by Anchor Investors, may be addressed to the Registrar to the Offer, with a copy to the relevant Designated Intermediary, with whom the ASBA Form was submitted, quoting the full name of the sole or first Bidder, ASBA Form number, Bidders' DP ID, Client ID, UPI ID, PAN, address of the Bidder, number of Equity Shares applied for, date of ASBA Form, name and address of the relevant Designated Intermediary, where the Bid was submitted and ASBA Account number (for Bidders other than UPI Bidders) in which the amount equivalent to the Bid Amount was blocked or the UPI ID in case of UPI Bidders. Further, the Bidder was required to enclose the Acknowledgement Slip or provide the acknowledgement number received from the Designated Intermediaries in addition to the documents / information mentioned hereinabove. The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. For offer related grievances, investors may contact the Book Running Lead Managers, details of which are given in "General Information" on page 87.

SEBI, by way of its circular dated March 16, 2021 as amended by its circulars dated June 2, 2021 and April 20, 2022, has identified the need to put in place measures, in order to streamline the processing of ASBA applications through the UPI Mechanism and redressal of investor grievances arising out of the UPI Mechanism inter alia in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries / SCSBs and failure to unblock funds in cases of partial allotment / non allotment within prescribed timelines and procedures. Pursuant to the circular dated March 16, 2021, SEBI has prescribed certain mechanisms to ensure proper management of investor issues arising out of the UPI Mechanism, including: (i) identification of a nodal officer by SCSBs for the UPI Mechanism; (ii) delivery of SMS alerts by SCSBs for blocking and unblocking of UPI Mandate Requests; (iii) hosting of a web portal by the Sponsor Bank containing statistical details of mandate blocks / unblocks; (iv) limiting the facility of reinitiating UPI Bids to Syndicate Members to once per Bid / Batch; and (v) mandating SCSBs to ensure that the unblock process for non-allotted / partially allotted applications is completed by the closing hours of one Working Day subsequent to the finalisation of the Basis of Allotment.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid / Offer Closing Date, in accordance with the SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of SEBI circular SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum or such other rate of interest as may be prescribed under applicable law for any delay beyond this period of 15 days. The following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted / partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalization of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the Book Running Lead Managers shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

Our Company, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, name and address of the Book Running Lead Managers, unique transaction reference number, the name of the relevant bank, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLMs where the Bid cum Application Form was submitted by the Anchor Investor. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

All grievances relating to Bids submitted with Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Offer. Further, Bidders shall also enclose a copy of the Acknowledgment Slip received from the Designated Intermediaries in addition to the information mentioned hereinabove.

Disposal of Investor Grievances by our Company

Our Company after filing the Draft Red Herring Prospectus, has obtained authentication on the SCORES in terms of the SEBI master circular bearing reference number SEBI/HO/OIAE/IGRD/P/CIR/2022/0150 dated November 17, 2022 and SEBI circular bearing reference number SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023, in relation to redressal of investor grievances through SCORES.

Our Company has also constituted a Stakeholders' Relationship Committee, comprising of Prakash Bagla, Vikas Giya and Ashish Garg, to review and redress the shareholders and investor grievances such as transfer of Equity Shares, non-recovery of balance payments, declared dividends, approve subdivision, consolidation, transfer and issue of duplicate shares. For details of our Stakeholders' Relationship Committee, see "*Our Management*" on page 274.

Our Company has also appointed Bindu Garg, Company Secretary of our Company, as the Compliance Officer for the Offer. For details, "*General Information – Company Secretary and Compliance Officer*" on page 88. Each of the Selling Shareholders, severally and not jointly, has authorised the Company Secretary and Compliance Officer of the Company, and the Registrar to the Offer to deal with, on their behalf, any investor grievances received in the Offer in relation to their respective portion of the Offered Shares.

Our Company has not received any investor complaint during the three years preceding the date of this Prospectus.

Further, no investor complaint in relation to our Company is pending as on the date of this Prospectus.

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Exemptions from complying with any provision of securities laws, if any, granted by SEBI

Our Company has not been applied for an exemption from complying with any provisions of securities laws by SEBI.

SECTION X – OFFER INFORMATION

TERMS OF THE OFFER

The Equity Shares being issued, offered and Allotted pursuant to the Offer are subject to the provisions of the Companies Act, the SCRA, SCRR, SEBI ICDR Regulations, the SEBI Listing Regulations, our Memorandum of Association and Articles of Association, the terms of the Draft Red Herring Prospectus, the Red Herring Prospectus, this Prospectus, the Abridged Prospectus, the Bid cum Application Form, the Revision Form, CAN, and other terms and conditions as may be incorporated in the Allotment Advice and other documents or certificates that may be executed in respect of this Offer. The Equity Shares shall also be subject to all applicable laws, guidelines, rules, notifications and regulations relating to the issue of capital and listing and trading of securities offered from time to time by SEBI, the GoI, the Stock Exchanges, the RoC, the RBI, and/or other authorities, as in force on the date of this Offer and to the extent applicable, or such other conditions as may be prescribed by such governmental, regulatory or statutory authority while granting its approval for the Offer.

The Offer

The Offer comprises a Fresh Issue by our Company and an Offer for Sale by the Selling Shareholders. Expenses for the Offer shall be shared amongst our Company and the Selling Shareholders in the manner specified in “*Objects of the Offer*”, on page 116.

Ranking of the Equity Shares

The Equity Shares being issued, offered and Allotted in the Offer shall rank *pari passu* in all respects with the existing Equity Shares including rights in respect of dividend and other corporate benefits if any, declared by our Company after the date of Allotment. For further details, see “*Main Provisions of the Articles of Association*” on page 495.

Mode of Payment of Dividend

Our Company shall pay dividends, if declared, to the Shareholders as per the provisions of the Companies Act, 2013, our Memorandum of Association and Articles of Association, the SEBI Listing Regulations and other applicable law. All dividends, if any, declared by our Company after the date of Allotment, will be payable to the Allottees, in accordance with applicable law. For further details in relation to dividends, see “*Dividend Policy*” and “*Main Provisions of the Articles of Association*” on pages 301 and 495, respectively.

Face Value, Floor Price, Price Band and Offer Price

The face value of each Equity Share is ₹2. The Floor Price of Equity Shares is ₹808 per Equity Share and the Cap Price is ₹850 per Equity Share. The Anchor Investor Offer Price is ₹850 per Equity Share. The Offer Price, Price Band and minimum Bid Lot for the Offer were decided by our Company and the Investor Selling Shareholder in consultation with the BRLMs, and has been advertised in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper and the Ludhiana edition of Daily Swaraj, a Punjabi daily newspaper (Punjabi being the regional language of Punjab, where our Registered Office is located), each with wide circulation, respectively, not less than two Working Days prior to the Bid / Offer Opening Date and was made available to the Stock Exchanges for the purpose of uploading on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price, were pre-filled in the Bid cum Application Forms available at the respective websites of the Stock Exchanges. The Offer Price was determined by our Company and the Investor Selling Shareholder in consultation with the BRLMs, after the Bid / Offer Closing Date, on the basis of assessment of market demand for the Equity Shares offered by way of Book Building Process.

At any given point of time there shall be only one denomination for the Equity Shares.

Compliance with disclosure and accounting norms

Our Company shall comply with all applicable disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Shareholders

Subject to applicable laws, rules, regulations and guidelines and the provisions of our Articles of Association, our Shareholders shall have the following rights:

- the right to receive dividend, if declared;
- the right to attend general meetings and exercise voting rights, unless prohibited by law;
- the right to vote on a poll either in person or by proxy or ‘e-voting’ in accordance with the provisions of the Companies Act;
- the right to receive offers for rights shares and be allotted bonus shares, if announced;
- the right to receive surplus on liquidation subject to any statutory and preferential claims being satisfied;
- the right to freely transfer their Equity Shares, subject to foreign exchange regulations and other applicable laws, including rules framed by the RBI; and
- such other rights, as may be available to a shareholder of a listed public company under applicable law, including the Companies Act, 2013, the terms of the SEBI Listing Regulations, and our Memorandum of Association and Articles of Association.

For a detailed description of the main provisions of our Articles of Association relating to voting rights, dividend, forfeiture and lien, transfer and transmission, and/or consolidation / splitting, see “*Main Provisions of the Articles of Association*” on page 495.

Allotment in dematerialised form

Pursuant to Section 29 of the Companies Act, 2013, and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. Hence, the Equity Shares offered through the Red Herring Prospectus and this Prospectus can be applied for in the dematerialised form only. In this context, our Company has entered into the following agreements with the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated June 23, 2018, amongst our Company, NSDL and Registrar to the Offer.
- Tripartite agreement dated October 11, 2018, amongst our Company, CDSL and Registrar to the Offer.

Market Lot and Trading Lot

The trading of our Equity Shares on the Stock Exchanges shall only be in dematerialised form, consequent to which, the tradable lot is one Equity Share. Allotment of Equity Shares will be only in electronic form in multiples of 17 Equity Shares, subject to a minimum Allotment of 17 Equity Shares. For the method of Basis of Allotment, see “*Offer Procedure*” on page 474.

Joint Holders

Subject to provisions contained in our Articles, where two or more persons are registered as the holders of any Equity Share, they shall be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

Jurisdiction

The competent courts of Chandigarh, India will have exclusive jurisdiction in relation to this Offer.

Period of operation of subscription list

See “– *Bid / Offer Programme*” on page 467.

Nomination facility to investors

In accordance with Section 72 of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole or First Bidder, along with other joint Bidders, may nominate any one person in whom, in the event of the death of the sole Bidder or in case of joint Bidders, the death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of death of the original holder(s), shall be entitled to the same advantages to which such person would be entitled if such person were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to the Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the nominating holder of such Equity Shares. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation or variation. A buyer will be entitled to make a fresh nomination in the manner prescribed. A fresh nomination can be made only on the

prescribed form, which is available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 as mentioned above, shall, upon the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividend, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment will be made only in dematerialised form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Collecting Depository Participant of the Bidder will prevail. If Bidders wish to change their nomination, they are requested to inform their respective Collecting Depository Participant.

Bid / Offer Programme

BID/ OFFER OPENED ON	Tuesday, December 19, 2023 ⁽¹⁾
BID/ OFFER CLOSED ON	Thursday, December 21, 2023 ⁽²⁾

⁽¹⁾ . The Anchor Investor Bid/ Offer Period was one Working Day prior to the Bid/ Offer Opening Date i.e. December 18, 2023 in accordance with the SEBI ICDR Regulations.

⁽²⁾ UPI mandate end time and date was at 5.00 p.m. on Bid/Offer Closing Date.

An indicative timetable in respect of the Offer is set out below:

Event	Indicative Date
Bid/ Offer Closing Date	Thursday, December 21, 2023
Finalisation of Basis of Allotment with the Designated Stock Exchange	On or about Friday, December 22, 2023
Initiation of refunds (if any, for Anchor Investors)/unblocking of funds from ASBA Account*	On or about Tuesday, December 26, 2023
Credit of Equity Shares to demat accounts of Allottees	On or about Tuesday, December 26, 2023
Commencement of trading of the Equity Shares on the Stock Exchanges	On or about Wednesday, December 27, 2023

*In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date for cancelled / withdrawn / deleted ASBA Forms, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the SCSB responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. The Bidder shall be compensated in the manner specified in the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 and the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/76 dated May 30, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, which for the avoidance of doubt, shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022.

The above timetable is indicative and does not constitute any obligation or liability on our Company, the Selling Shareholders or the BRLMs.

While the Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of the Bid / Offer Closing Date, or such other period as may be prescribed by the SEBI, the timetable may be extended

due to various factors, any delay in receiving the final listing and trading approval from the Stock Exchanges, and delay in respect of final certificates from SCSBs. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. Each Selling Shareholder, severally and not jointly, confirms that they shall extend complete co-operation required by our Company and the BRLMs for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within three Working Days from the Bid / Offer Closing Date, or within such other period as may be prescribed.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid / Offer Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of this Prospectus may result in changes to the above mentioned timelines. Further, the offer procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Bid/ Offer Period (except the Bid/ Offer Closing Date)	
Submission and revision in Bids	Only between 10.00 a.m. and 5.00 p.m. IST)
Bid/ Offer Closing Date	
Submission of electronic applications (Online ASBA through 3-in-1 accounts) – For RIBs	Only between 10.00 a.m. and up to 5.00 p.m. IST
Submission of electronic applications (Bank ASBA through Online channels like internet banking, mobile banking and Syndicate UPI ASBA applications where Bid Amount is up to ₹0.50 million)	Only between 10.00 a.m. and up to 4.00 p.m. IST
Submission of electronic applications (Syndicate non-retail, non-individual applications)	Only between 10.00 a.m. and up to 3.00 p.m. IST
Submission of physical applications (Bank ASBA)	Only between 10.00 a.m. and up to 1.00 p.m. IST
Submission of physical applications (Syndicate non-retail, non-individual applications where Bid Amount is more than ₹0.50 million)	Only between 10.00 a.m. and up to 12.00 p.m. IST
Modification/ revision/cancellation of Bids	
Upward revision of Bids by QIBs and Non-Institutional Bidders categories [#]	Only between 10.00 a.m. and up to 5.00 p.m. IST on Bid/ Offer Closing Date
Upward or downward revision of Bids or cancellation of Bids by RIBs	Only between 10.00 a.m. and up to 5.00 p.m. IST

^{*}UPI mandate end time and date was at 5.00 pm on Bid/Offer Closing Date.

[#] QIBs and Non-Institutional Bidders can neither revise their bids downwards nor cancel/withdraw their bids.

On the Bid/Offer Closing Date, the Bids were required to be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders.

On Bid / Offer Closing Date, extension of time may have been granted by the Stock Exchanges only for uploading Bids received by Retail Individual Bidders, after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

The Registrar to the Offer submitted the details of cancelled / withdrawn / deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid / Offer Opening Date till the Bid / Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSB's unblocked such applications by the closing hours of the Working Day.

To avoid duplication, the facility of re-initiation provided to Syndicate Members was allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is

not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be liable to be rejected.

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/ Offer Closing Date, and in any case no later than 1:00 p.m. IST on the Bid/ Offer Closing Date. Bidders were cautioned that, in the event a large number of Bids are received on the Bid/ Offer Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that could not be uploaded were not considered for allocation under this Offer. Bids and any revision to the Bids, were accepted only during Working Days, during the Bid/ Offer Period. Bids were accepted only during Monday to Friday (excluding any public holiday), during the Bid/Offer period. Investors may note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders were required to be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

In case of discrepancy in data entered in the electronic book *vis-à-vis* data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Minimum Subscription

In the event our Company has not received (i) a minimum subscription of 90% of the Fresh Issue, and (ii) a minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, if any, in accordance with applicable laws, or if the subscription level falls below the thresholds mentioned above after the Bid/Offer Closing Date, on account of withdrawal of applications or after technical rejections, or if the listing or trading permission are not obtained from the Stock Exchanges for the Equity Shares being offered in the Offer, our Company shall forthwith refund the entire subscription amount received in accordance with applicable law including the SEBI circular bearing no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023. If there is a delay beyond four days, our Company and every Director of our Company who is an officer in default, to the extent applicable, would be required to pay interest at the rate of 15% per annum.

Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category, except the QIB Portion, was allowed to be met with spill over from any other category or combination of categories, at the discretion of our Company and the Investor Selling Shareholder in consultation with the BRLMs, Registrar to the Offer and the Designated Stock Exchange. In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the SCRR, the Allotment for the balance valid Bids will be made proportionately towards Fresh Issue and the Offered Shares.

Further, in accordance with Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted will be not less than 1,000, failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company and the Selling Shareholders shall be liable to pay interest on the application money in accordance with applicable laws.

The Selling Shareholders shall reimburse any expenses and interest incurred by our Company on behalf of them for any delays in making refunds as required under the Companies Act and any other applicable law, provided that the Selling Shareholders shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission of the Selling Shareholders and any expenses and interest shall be paid to the extent of their respective portion of the Offered Shares.

Arrangements for disposal of odd lots

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

New financial instruments

Our Company is not issuing any new financial instruments through this Offer.

Restriction on transfer and transmission of Equity Shares

Except for the lock-in of the pre-Offer Equity Shares, the minimum Promoters' contribution and Equity Shares allotted to Anchor Investors pursuant to the Offer, as detailed in "*Capital Structure*" on page 97, and except as provided in our Articles, there are no restrictions on transfers and transmission of Equity Shares or on their consolidation or splitting. See, "*Main Provisions of the Articles of Association*" at page 495.

Option to receive Equity Shares in Dematerialized Form

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges. However, Allotees may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

Withdrawal of the Offer

The Offer shall be withdrawn in the event that 90% of the Fresh Issue portion of the Offer is not subscribed.

Our Company and the Investor Selling Shareholder in consultation with the BRLMs, reserves the right not to proceed with the entire or portion of the Offer for any reason at any time after the Bid / Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers, in which the pre-Offer advertisements were published, within two days of the Bid / Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. Further, the Stock Exchanges shall be informed promptly in this regard by our Company and the BRLMs, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. In the event of withdrawal of the Offer and subsequently, plans of a fresh offer by our Company, a fresh draft red herring prospectus will be filed again with SEBI.

Notwithstanding the foregoing, this Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days of the Bid/Offer Closing Date or such other period as may be prescribed under applicable law, and (ii) the final RoC approval of this Prospectus after it is filed with the RoC.

OFFER STRUCTURE

The Offer is of 11,865,802 Equity Shares* for cash at a price of ₹850 per Equity Share (including a premium of ₹848 per Equity Share) aggregating to ₹10,085.93 million* comprising of a Fresh Issue of 4,705,882 Equity Shares* aggregating to ₹4,000 million* by our Company and an Offer of Sale of 7,159,920 Equity Shares* aggregating to ₹6,085.93 million* by the Selling Shareholders.

**Subject to finalisation of the Basis of Allotment*

The Offer shall constitute 12.60% of the post-Offer paid-up Equity Share capital of our Company.

The Offer is being made through Book Building Process, in compliance with Regulation 6(1) of the SEBI ICDR Regulations

[^] SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, has mandated that ASBA applications in public issues shall be processed only after the application monies are blocked in the investor's bank accounts. Accordingly, Stock Exchanges shall, for all categories of investors viz. QIB, NIB and Retail and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked.

⁽¹⁾ Our Company and the Investor Selling Shareholder in consultation with the BRLMs, allocated 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations and subject to there being (i) a maximum of two Anchor Investors, where allocation in the Anchor Investor Portion is up to ₹100 million, (ii) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹100 million but up to ₹2,500 million under the Anchor Investor Portion, subject to a minimum Allotment of ₹50 million per Anchor Investor; and (iii) in case of allocation above ₹2,500 million under the Anchor Investor Portion, a minimum of five Anchor Investors and a maximum of 15 Anchor Investors for allocation up to ₹2,500 million, and an additional 10 Anchor Investors for every additional ₹2,500 million or part thereof will be permitted, subject to minimum allotment of ₹50 million per Anchor Investor. One-third of the Anchor Investor Portion was required to be reserved for domestic Mutual Funds, subject to valid Bids having been received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. For further details, see “Offer Procedure” on page 474.

- ⁽²⁾ Subject to valid Bids having been received at or above the Offer Price. The Offer was made in terms of Rule 19(2)(b) of the SCRR read with Regulation 45 of the SEBI ICDR Regulations. The Offer was made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Offer was made available for allocation on a proportionate basis to QIBs. Such number of Equity Shares representing 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion was made available for allocation on a proportionate basis to QIBs, including Mutual Funds, subject to valid Bids having been received from them at or above the Offer Price. Further, 5% of the Net QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. Further, not less than 15% of the Offer was made available for allocation to Non-Institutional Bidders and not less than 35% of the Offer was made available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received from them at or above the Offer Price. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, was subject to the following: (i) one-third of the Non-Institutional Portion was reserved for Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million, and (ii) two-third of the Non-Institutional Portion was available for allocation to Bidders with application size of more than ₹1.00 million.

Subject to valid Bids having been received at or above the Offer Price, under-subscription, if any, in any category, except the QIB Portion, would be met with spill over from any other category or combination of categories, at the discretion of our Company and the Investor Selling Shareholder in consultation with the BRLMs, Registrar to the Offer and the Designated Stock Exchange. In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the SCRR, the Allotment for the balance valid Bids will be made proportionately towards Fresh Issue and the Offered Shares. For further details, see “Terms of the Offer” on page 465.

- ⁽³⁾ In the event that a Bid is submitted in joint names, the relevant Bidders was required to ensure that the depository account was also held in the same joint names and the names were in the same sequence in which they appeared in the Bid cum Application Form. The Bid cum Application Form was required to contain only the name of the First Bidder whose name appeared as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder was required in the Bid cum Application Form and such First Bidder was deemed to have signed on behalf of the joint holders. Our Company reserved the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.
- ⁽⁴⁾ Anchor Investors were required to pay the entire Bid Amount at the time of submission of the Anchor Investor Bid, provided that any positive difference between the Anchor Investor Allocation Price and the Offer Price, was required to be paid by the Anchor Investor Pay-in Date as mentioned in the CAN.

Bids by FPIs with certain structures as described under “Offer Procedure – Bids by FPIs” on page 479 and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders were required to confirm and were deemed to have represented to our Company, the Selling Shareholders, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares pursuant to the Offer.

OFFER PROCEDURE

All Bidders were required to read the General Information Document which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer. Investors should note that the details and process provided in the General Information Document should be read along with this section.

Bidders could refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) Designated Date; (viii) disposal of applications and electronic registration of bids; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

Pursuant to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, the timeline of T+3 days using the UPI Mechanism for applications by UPI Bidders has been made voluntary for public issues opening on or after September 1, 2023, and mandatory for public issues opening on or after December 1, 2023. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. The SEBI RTA Master Circular consolidated the aforementioned circulars (excluding SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023) and rescinded these circulars to the extent relevant for RTAs. These circulars are effective for initial public offers opening on or after May 1, 2021, and the provisions of these circulars, as amended, are deemed to form part of this Prospectus. The provisions of the circular issued by the NSE having reference no. 25/2022 dated August 3, 2022, and the circular issued by BSE having reference no. 20220803-40 dated August 3, 2022 are also deemed to form part of this Prospectus. Further, the processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum on the Bid Amount for the entire duration of delay exceeding two Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking, unless otherwise prescribed under applicable law. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹0.5 million shall use the UPI Mechanism. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). The Registrar and SCSBs will comply with any additional circulars or other Applicable Law, and the instructions of the BRLMs, as may be issued in connection with this circular. Accordingly, Stock Exchanges shall, for all categories of investors and other reserved categories and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked.

Bidders were advised to make their independent investigations and ensure that their Bids were submitted in accordance with applicable laws and did not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and this Prospectus.

Book Building Procedure

The Offer has been made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer was made available for allocation

to QIBs on a proportionate basis. Our Company and the Investor Selling Shareholder in consultation with the BRLMs have allocated up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third was reserved for domestic Mutual Funds, subject to valid Bids having been received from them at or above the Anchor Investor Allocation Price.. 5% of the Net QIB Portion was available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion was available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. Further, not less than 15% of the Offer was available for allocation to Non-Institutional Bidders and not less than 35% of the Offer was available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received at or above the Offer Price. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, was subject to the following: (i) one-third of the Non-Institutional Portion was available for allocation to Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million, and (ii) two-thirds of the Non-Institutional Portion was available for allocation to Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories could have been allocated to Bidders in the other sub-category of Non-Institutional Bidders.

Under-subscription, if any, in any category, except in the QIB Portion, was allowed to be met with spill over from any other category or combination of categories, at the discretion of our Company and the Investor Selling Shareholder in consultation with the BRLMs, Registrar to the Offer and the Designated Stock Exchange.

In accordance with Rule 19(2)(b) of the SCRR, the Offer will constitute at least 10.00% of the post Offer paid-up Equity Share capital of our Company.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Investors were required to ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press releases dated June 25, 2021 and September 17, 2021.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which did not have the details of the Bidders' depository account, including the DP ID and the Client ID and the PAN and UPI ID (for UPI Bidders Bidding through the UPI Mechanism), were treated as incomplete and were rejected. Bidders did not have the option of being Allotted Equity Shares in physical form.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 issued by SEBI, as amended by the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (the “UPI Streamlining Circulars”), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streamlining Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-Offer BRLM will be required to compensate the concerned investor.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI.

Further, pursuant to SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all individual investors applying in public issues where the application amount is up to ₹0.50 million were required to use UPI and by providing their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- a) a syndicate member;

- b) a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);
- c) a depository participant (whose name is mentioned on the website of the stock exchange as eligible for this activity);
- d) a registrar to an issue and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity).

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

Electronic registration of Bids

- a) The Designated Intermediary registered the Bids using the online facilities of the Stock Exchanges. The Designated Intermediaries could have set up facilities for off-line electronic registration of Bids, subject to the condition that they could have subsequently upload the off-line data file into the online facilities for the Book Building process on a regular basis before the closure of the Offer.
- b) On the Bid / Offer Closing Date, the Designated Intermediaries uploaded the Bids till such time as permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that were uploaded on the Stock Exchanges' platform were considered for allocation / Allotment. The Designated Intermediaries modified select fields uploaded in the Stock Exchanges' platform during the Bid / Offer Period till 5:00 pm on the Bid / Offer Closing Date after which the Stock Exchange(s) sent the bid information to the Registrar to the Offer for further processing.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus were made available with the Designated Intermediaries at relevant Bidding Centers and at our Registered Office and at our Corporate Office. An electronic copy of the ASBA Form were also available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid / Offer Opening Date.

Copies of the Anchor Investor Application Form were available at the offices of the BRLMs.

All Bidders (other than Anchor Investors) were compulsorily required to use the ASBA process to participate in the Offer. Anchor Investors were not permitted to participate in this Offer through the ASBA process.

UPI Bidders bidding using the UPI Mechanism were required to provide the valid UPI ID in the relevant space provided in the Bid cum Application Form and Bid cum Application Forms submitted by UPI Bidders that did not contain the UPI ID were liable to be rejected.

Bidders (other than Anchor Investors and UPI Bidders Bidding using the UPI Mechanism) were required to provide bank account details and authorisation by the ASBA account holder to block funds in their respective ASBA Accounts in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that did not contain such details are liable to be rejected.

UPI Bidders submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) were required to Bid using the UPI Mechanism and must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bids submitted by UPI Bidders with any Designated Intermediary (other than SCSBs) without mentioning the UPI ID were liable to be rejected. UPI Bidders Bidding using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Further, ASBA Bidders were required to ensure that the Bids are submitted at the Bidding Centres only on ASBA Forms bearing the stamp of a Designated Intermediary (except in case of electronic ASBA Forms) and ASBA Forms not bearing such specified stamp were liable for rejection. Bidders using the ASBA process to participate in the Offer were required to ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount could be blocked therein. In order to ensure timely information to investors SCSBs were required to send SMS alerts to investors intimating them about the Bid Amounts blocked / unblocked.

Since the Offer is made under Phase III (on a mandatory basis), ASBA Bidders could submit the ASBA Form in the manner below:

- (i) RIBs (other than the RIBs using UPI Mechanism) could submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- (ii) UPI Bidders could submit their ASBA Forms with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- (iii) QIBs and NIBs not using the UPI Mechanism could submit their ASBA Forms with SCSBs, Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs.

ASBA Bidders were also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which could be blocked by the SCSB or the Sponsor Banks, as applicable, at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs were required to send SMS alerts to investors intimating them about Bid Amounts blocked / unblocked.

In terms of SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, all the ASBA applications in public issues shall be processed only after the application monies are blocked in the investor's bank accounts. Stock Exchanges shall accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. The circular is applicable for all categories of investors viz. Retail, QIB and NIB and also for all modes through which the applications are processed.

Non-Institutional Bidders bidding through UPI Mechanism were required to provide the UPI ID in the relevant space provided in the Bid cum Application Form.

The prescribed colour of the Bid cum Application Forms for various categories is as follows:

Category	Colour of Bid cum Application Form*
Resident Indians including resident QIBs, Non-Institutional Bidders, Retail Individual Bidders and Eligible NRIs applying on a non-repatriation basis	White
Non-Residents including FPIs, Eligible NRIs applying on a repatriation basis, FVCIs and registered bilateral and multilateral institutions	Blue
Anchor Investors	White

*Excluding electronic Bid cum Application Forms.

Notes:

(1) Electronic Bid cum Application forms were also made available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).

(2) Bid cum Application Forms for Anchor Investors were made available at the offices of the BRLMs.

In case of ASBA Forms, the relevant Designated Intermediaries were required to upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Designated Intermediaries (other than SCSBs) were required to submit / deliver the ASBA Forms (except Bid cum Application Forms submitted by UPI Bidders Bidding using the UPI Mechanism) to the respective SCSB, where the Bidder has a bank account and could not submit it to any non-SCSB bank or any Escrow Collection Bank. For UPI Bidders, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis to enable the Sponsor Banks to initiate a UPI Mandate Request to such UPI Bidders for blocking of funds. The Sponsor Banks were required to initiate request for blocking of funds through NPCI to UPI Bidders, who were required to accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI was required to maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders in case of failed transactions was with the concerned entity (i.e., the Sponsor Banks, NPCI or the issuer bank) at whose end the lifecycle of the transaction had come to a halt. The NPCI was required to share the audit trail of all disputed transactions / investor complaints with the Sponsor Banks and the issuer bank. The Sponsor Banks and the Bankers to the Offer was required to provide the audit trail to the BRLMs for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs were required to send SMS alerts as specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

In accordance with BSE circular No: 20220803-40 and NSE circular No: 25/2022, each dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Banks were required to undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and also ensured that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Banks were required to undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and shared reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Banks and issuer banks downloaded UPI settlement files and raw data files from the NPCI portal after every settlement cycle and did a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI coordinated with issuer banks and Sponsor Banks on a continuous basis.

The Sponsor Banks hosted a web portal for intermediaries (closed user group) from the date of Bid / Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks / unblocks, performance of apps and UPI handles, down-time / network latency (if any) across intermediaries and any such processes having an impact / bearing on the Offer Bidding process.

Participation by Promoter, Promoter Group, the BRLMs, associates and affiliates of the BRLMs and the Syndicate Members and the persons related to Promoter, Promoter Group, BRLMs and the Syndicate Members and Bids by Anchor Investors

The BRLMs and the Syndicate Members were not allowed to purchase/subscribe the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Members could purchase/subscribe to the Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders, and such subscription could be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLMs and Syndicate Members, were required to be treated equally for the purpose of allocation to be made on a proportionate basis.

Except for Mutual Funds, AIFs or FPIs other than individuals, corporate bodies and family offices which are associates of the BRLMs or insurance companies promoted by entities or pension funds sponsored by entities which are associates of the BRLMs, no BRLMs or their respective associates could apply in the Offer under the Anchor Investor Portion.

Further, an Anchor Investor was deemed to be an “associate of the Book Running Lead Managers” if: (i) either of them controlled, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercised control over the other; or (iii) there was a common director, excluding nominee director, amongst the Anchor Investors and the BRLMs.

Further, the Promoter and members of the Promoter Group were not permitted to participate by applying for Equity Shares in the Offer, except in accordance with the applicable law. Furthermore, persons related to the Promoter and the Promoter Group did not apply in the Offer under the Anchor Investor Portion. It is clarified that a qualified institutional buyer who has rights under a shareholders’ agreement or voting agreement entered into with any of the Promoter or members of the Promoter Group of our Company, veto rights or a right to appoint any nominee director on our Board, shall be deemed to be a person related to the Promoter or Promoter Group of our Company.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate was required to be lodged with the Bid cum Application Form. Failing this, the Company in consultation with BRLMs reserved the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds were required to specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid could be made in respect of each scheme of a Mutual Fund registered with the SEBI and such Bids in respect of more than one scheme of a Mutual Fund was not treated as multiple Bids, provided that such Bids clearly indicated the scheme for which the Bid was submitted.

No Mutual Fund scheme could invest more than 10% of its NAV in equity shares or equity related instruments of any single company provided that the limit of 10% was not applicable for investments in case of index funds or sector or industry specific scheme. No Mutual Fund under all its schemes could own more than 10% of any company’s paid-up

share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs were required to obtain copies of Bid cum Application Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange were considered for Allotment. Eligible NRIs Bidding on a repatriation basis were required to authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External Accounts (“**NRE Account**”), or Foreign Currency Non-Resident Accounts (“**FCNR Account**”), and Eligible NRIs bidding on a non-repatriation basis were required to authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid amount, at the time of submission of the Bid cum Application Form. Participation of Eligible NRIs in the Offer was subject to the FEMA regulations. NRIs applying in the Offer through the UPI Mechanism were advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

In accordance with the FEMA NDI Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. Pursuant to the special resolution dated July 31, 2023, passed by our Shareholders, the aggregate ceiling of 10% was raised to 24%, provided however, that the shareholding of each NRI or OCI shall not exceed 5 percent of the total paid-up equity capital of the Company on a fully diluted basis, and the total holdings of all NRIs and OCIs put together shall not exceed 24 percent of the total paid-up equity capital on a fully diluted basis.

Eligible NRIs Bidding on a repatriation basis were advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

Eligible NRIs Bidding on non-repatriation basis were advised to use the Bid cum Application Form for residents (white in colour).

For details of restrictions on investment by NRIs, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 493.

Bids by HUFs

Bids by HUFs, were required to be made in the individual name of the Karta. The Bidder was required to specify that the Bid was being made in the name of the HUF in the Bid cum Application Form as follows: “Name of sole or First Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids by HUFs were considered at par with Bids from individuals.

Bids by FPIs

In terms of applicable FEMA NDI Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, *i.e.*, the individual holding of an FPI (including its investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control) shall be below 10% of our post-Offer Equity Share capital on a fully diluted basis. In case the total holding of an FPI or investor group increase beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together can be up to the sectoral cap applicable to the sector in which our Company operates (*i.e.*, up to 100% under the automatic route). In terms of the FEMA NDI Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company in consultation with BRLMs, reserved the right to reject any Bid without assigning any reason. FPIs who wished to participate in the Offer were advised to use the Bid cum Application Form for Non-Residents (blue in colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:

- (a) such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- (b) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- (c) such offshore derivative instruments are issued after compliance with the 'know your client' norms as specified by SEBI; and
- (d) such other conditions as may be specified by SEBI from time to time.

An FPI was required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (a) to (d)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs were not treated as multiple Bids and were liable to be rejected:

- FPIs which utilise the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants which were issued in November 2019 to facilitate implementation of SEBI FPI Regulations (such structure "**MIM Structure**") provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs;
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund has multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

Accordingly, it should be noted that multiple Bids received from FPIs, who did not utilize the MIM Structure, and bear the same PAN, were liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilized the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids were rejected. Bids by an FPI Bidder utilising the MIM Structure were aggregated for determining the permissible maximum Bid.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilized any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs

with the operational guidelines for FPIs and designated Collecting Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids were rejected.

FPIs ensured that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “**FPI Group**”) was below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Offer Equity Share capital on a fully diluted basis were liable to be rejected.

Participation of FPIs in the Offer was subject to the FEMA NDI Rules.

There was no reservation for Eligible NRI Bidders, AIFs and FPIs. All Bidders were treated on the same basis with other categories for the purpose of allocation.

Bids by SEBI registered AIFs, VCFs and FVCIs

The Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012, as amended (the “**SEBI AIF Regulations**”) prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 (the “**SEBI VCF Regulations**”), VCFs which have not re-registered as AIFs under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs.

The Category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A Category III AIF cannot invest more than 10% of its investible funds in one investee company. A VCF registered as a Category I AIF, cannot invest more than one-third of its investible funds, in the aggregate, in certain specified instruments, including by way of subscription to an initial public offering of a venture capital undertaking. An FVCI can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations) whose shares are proposed to be listed.

Participation of AIFs, VCFs and FVCIs was subject to the FEMA NDI Rules.

All Non-Resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company, the Selling Shareholders or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, was required to be attached to the Bid cum Application Form. Failing this, our Company and the Investor Selling Shareholder, in consultation with BRLMs, reserved the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company’s investment committee was required to be attached to the Bid cum Application Form, failing which our Company and the Investor Selling Shareholder in consultation with BRLMs, reserved the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949 (the “**Banking Regulation Act**”), and Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended is 10% of the paid-up share capital of the investee company or 10% of the bank’s own paid-up share capital and reserves, as per the last audited balance sheet or a subsequent balance sheet, whichever is less. Further, the aggregate equity investment in subsidiaries and other entities engaged in financial and non-financial services cannot exceed 20% of the bank’s paid-up share capital and reserves. A banking company would be permitted to invest in excess

of 10% but not exceeding 30% of the paid-up share capital of such investee company if: (a) the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or (b) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the bank's interest on loans / investments made to a company, provided that the bank is required to submit a time-bound action plan for disposal of such shares (in this sub-clause (b)) within a specified period to the RBI. A banking company would require a prior approval of the RBI to make investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer were required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs were required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account was required to be used solely for the purpose of making application in public issues and clear demarcated funds had to be available in such account for such Bids.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI was required to be attached to the Bid cum Application Form. Failing this, the Company and the Investor Selling Shareholder in consultation with BRLMs, reserved the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 read with the Investments – master circular dated October 27, 2022, each as amended (“**IRDA Investment Regulations**”), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDA Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Bids by Systemically Important Non-Banking Financial Companies

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by the RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), were required to be attached to the Bid-cum Application Form. Failing this, our Company and the Investor Selling Shareholder in consultation with BRLMs, reserved the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Offer was required to comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

Bids under power of attorney

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, Eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹250 million (subject to applicable laws) and pension funds with a minimum corpus of ₹250 million, registered with the Pension Fund Regulatory and Development Authority established under section 3(1) of the Pension Fund Regulatory and Development Authority Act, 2013, subject to applicable laws a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws were required to be lodged along with the Bid cum Application Form. Failing this, our Company reserved the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company and the Investor Selling Shareholder in consultation with the BRLMs, in their absolute discretion, reserved the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company and the Investor Selling Shareholder in consultation with the BRLMs, deemed fit.

Bids by provident funds / pension funds

In case of Bids made by provident funds / pension funds, subject to applicable laws, with minimum corpus of ₹250 million

registered with the Pension Fund Regulatory and Development Authority established under section 3(1) of the Pension Fund Regulatory and Development Authority Act, 2013, subject to applicable laws, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund / pension fund were required to be attached to the Bid cum Application Form. Failing this, our Company and the Investor Selling Shareholder in consultation with BRLMs reserved the right to reject any Bid, without assigning any reason therefor.

Bids by Anchor Investors

In accordance with the SEBI ICDR Regulations, in addition to details and conditions mentioned in this section the key terms for participation by Anchor Investors are provided below.

- (a) Anchor Investor Application Forms were made available for the Anchor Investor Portion at the offices of the BRLMs.
- (b) The Bids were required to be for a minimum of such number of Equity Shares so that the Bid Amount exceeds ₹100 million. A Bid could not be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate bids by individual schemes of a Mutual Fund were aggregated to determine the minimum application size of ₹100 million.
- (c) One-third of the Anchor Investor Portion was reserved for allocation to domestic Mutual Funds.
- (d) Bidding for Anchor Investors opened one Working Day before the Bid / Offer Opening Date, and was completed on the same day.
- (e) Our Company and the Investor Selling Shareholder in consultation with the BRLMs finalised allocation to the Anchor Investors on a discretionary basis, provided that the minimum number of Allottees in the Anchor Investor Portion was not less than:
 - maximum of two Anchor Investors, where allocation under the Anchor Investor Portion is up to ₹100 million;
 - minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹100 million but up to ₹2,500 million, subject to a minimum Allotment of ₹50 million per Anchor Investor; and
 - in case of allocation above ₹2,500 million under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹2,500 million, and an additional 10 Anchor Investors for every additional ₹2,500 million, subject to minimum Allotment of ₹50 million per Anchor Investor.
- (f) Allocation to Anchor Investors was required to be completed on the Anchor Investor Bid / Offer Period. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation was made, was required to be made available in the public domain by the BRLMs before the Bid / Offer Opening Date, through intimation to the Stock Exchanges.
- (g) Anchor Investors were not permitted to withdraw or lower the size of their Bids at any stage after submission of the Bid.
- (h) 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment, while the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.
- (i) Neither the BRLMs nor any associate of the BRLMs (except Mutual Funds sponsored by entities which are associates of the BRLMs or insurance companies promoted by entities which are associate of BRLMs or AIFs sponsored by the entities or pensions funds sponsored by entities which are associate of the BRLMs or FPIs, other than individuals, corporate bodies and family offices which are associate of the and BRLMs) applied in the Offer under the Anchor Investor Portion.
- (j) Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion were not considered as multiple Bids

The above information is given for the benefit of the Bidders. Our Company, the Selling Shareholders and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus and this Prospectus, when filed. Bidders were advised to make their independent investigations and ensure that any single Bid from them does not exceed

the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation and as specified in the Red Herring Prospectus and this Prospectus, when filed.

In accordance with RBI regulations, OCBs were not permitted to participate in the Offer.

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated / Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revised his or her Bid, he / she was required to surrender the earlier Acknowledgement Slip and could request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLMs are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

Pre-Offer Advertisement

Subject to Section 30 of the Companies Act, our Company had, after filing the Red Herring Prospectus with the RoC, published a pre-Offer advertisement, in the form prescribed by the SEBI ICDR Regulations, in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper and the Ludhiana edition of Daily Swaraj, a Punjabi daily newspaper (Punjabi being the regional language of Punjab, where our Registered Office is located), each with wide circulation. Our Company, in the pre-Offer advertisement stated the Bid / Offer Opening Date, the Bid / Offer Closing Date and the QIB Bid / Offer Closing Date, as applicable. This advertisement, subject to the provisions of Section 30 of the Companies Act, was in the format prescribed in Part A of Schedule X of the SEBI ICDR Regulations.

Signing of Underwriting Agreement and filing of Prospectus with the RoC

Our Company and the Selling Shareholders have entered into an Underwriting Agreement with the Underwriters after the finalisation of the Offer Price. After signing the Underwriting Agreement, this Prospectus is being filed with the RoC. This Prospectus contains details of the Offer Price, Anchor Investor Offer Price, the Offer size and underwriting arrangements and is complete in all material respects.

General Instructions

Please note that QIBs and Non-Institutional Bidders were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders could revise or withdraw their Bid(s) until the Bid / Offer Closing Date. Anchor Investors were not allowed to withdraw or lower the size of their Bids after the Anchor Investor Bidding Date.

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals;
2. All Bidders (other than Anchor Investors) should submit their Bids using the ASBA process only;
3. Ensure that you have Bid within the Price Band;
4. Ensure that you have mentioned the correct ASBA Account number (for all Bidders other than UPI Bidders Bidding using the UPI Mechanism) in the Bid cum Application Form and such ASBA account belongs to you and no one else.

UPI Bidders must mention their correct UPI ID and shall use only his / her own bank account which is linked to such UPI ID and not the bank account of any third party;

5. UPI Bidders Bidding using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
6. UPI Bidders Bidding using the UPI Mechanism shall make Bids only through the SCSBs, mobile applications and UPI handles whose name appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. UPI Bidders shall ensure that the name of the app and the UPI handle which is used for making the application appears in Annexure 'A' to the SEBI circular no. SEBI/HO/CFD/DIL2/COR/P/2019/85 dated July 26, 2019. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected;
7. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
8. Ensure that the details about the PAN, DP ID, Client ID and UPI ID (where applicable) are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in dematerialized form only;
9. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the Bidding Centre within the prescribed time. UPI Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate, Sub-Syndicate Members, Registered Brokers, RTA or CDP;
10. In case of joint Bids, ensure that First Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the First Bidder is included in the Bid cum Application Form;
11. Retail Individual Bidders not using the UPI Mechanism, should submit their Bid cum Application Form directly with SCSBs and not with any other Designated Intermediary;
12. Ensure that they have correctly signed the authorisation / undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB or Sponsor Banks, as applicable, via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form, as the case may be, at the time of submission of the Bid. In case of UPI Bidders submitting their Bids and participating in the Offer through the UPI Mechanism, ensure that you authorise the UPI Mandate Request raised by the Sponsor Banks for blocking of funds equivalent to Bid Amount and subsequent debit of funds in case of Allotment;
13. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
14. Ensure that the name(s) given in the Bid cum Application Form is / are exactly the same as the name(s) in which the beneficiary account is held with the Collecting Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names;
15. Bidders should ensure that they receive the Acknowledgment Slip or the acknowledgement number duly signed and stamped by a Designated Intermediary, as applicable, for submission of the Bid cum Application Form;
16. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;
17. Ensure that you submit revised Bids to the same Designated Intermediary, through whom the original Bid was placed and obtain a revised acknowledgment;
18. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular MRD/DoP/Dep/Cir-09/06 dated July 20, 2006 and SEBI circular MRD/DoP/SE/Cir-13/06 dated September 26, 2006, may be exempted from specifying their PAN for transacting in the securities market, and (iii) any other category of Bidders, including without limitation, multilateral / bilateral institutions, which may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming

the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;

19. Ensure that the Demographic Details are updated, true and correct in all respects;
20. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;
21. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;
22. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust etc., relevant documents are submitted;
23. Ensure that Bids submitted by any person outside India should be in compliance with applicable foreign and Indian laws;
24. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Banks to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
25. Note that in case the DP ID, UPI ID (where applicable), Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, UPI ID (where applicable), Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
26. However, Bids received from FPIs bearing the same PAN shall not be treated as multiple Bids in the event such FPIs utilise the MIM structure and such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs;
27. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected;
28. In case of QIBs and NIBs, ensure that while Bidding through a Designated Intermediary, the ASBA Form is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at <http://www.sebi.gov.in>);
29. Ensure that you have correctly signed the authorization / undertaking box in the Bid cum Application Form, or have otherwise provided an authorization to the SCSB or the Sponsor Banks, as applicable via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
30. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using his / her UPI PIN. Upon the authorization of the mandate using his / her UPI PIN, the UPI Bidder shall be deemed to have verified the attachment containing the application details of the UPI Bidder in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorized the Sponsor Banks to issue a request to block the Bid Amount mentioned in the Bid Cum Application Form in his / her ASBA Account;
31. UPI Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form;
32. UPI Bidders Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Banks to authorise blocking of funds equivalent to the revised Bid Amount in his / her account and subsequent debit of funds in case of allotment in a

timely manner;

33. UPI Bidders who wish to revise their Bids using the UPI Mechanism, should submit the revised Bid with the Designated Intermediaries, pursuant to which UPI Bidders should ensure acceptance of the UPI Mandate Request received from the Sponsor Banks to authorise blocking of funds equivalent to the revised Bid Amount in the RIB's ASBA Account;
34. Ensure that Anchor Investors submit their Bid cum Application Forms only to the BRLMs;
35. Ensure that ASBA bidders shall ensure that bids above ₹500,000, are uploaded only by the SCSBs;
36. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Banks prior to 5:00 p.m. on the the Bid / Offer Closing Date; and
37. Investors must ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press releases dated June 25, 2021 and September 17, 2021.

The Bid cum Application Form was liable to be rejected if the above instructions, as applicable, were not complied with. UPI Bidders shall ensure that the name of the app and the UPI handle which is used for making the application appears in Annexure 'A' to the SEBI circular no. SEBI/HO/CFD/DIL2/COR/P/2019/85 dated July 26, 2019. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected

Don'ts:

1. Do not Bid for lower than the minimum Bid size;
2. Do not Bid / revise Bid Amount to less than the Floor Price or higher than the Cap Price;
3. Do not Bid for a Bid Amount exceeding ₹200,000 (for Bids by UPI Bidders);
4. Do not Bid on another Bid cum Application Form after you have submitted a Bid to a Designated Intermediary;
5. Do not pay the Bid Amount in cash, by money order, cheques or demand drafts or by postal order or by stock invest;
6. Do not send Bid cum Application Forms by post, instead submit the same to the Designated Intermediary only;
7. Bids by HUFs not mentioned correctly as provided in “ – Bids by HUFs” on page 479;
8. Anchor Investors should not Bid through the ASBA process;
9. Do not submit the ASBA Forms to any non-SCSB bank or to our Company or at a location other than the Bidding Centers;
10. Do not submit the ASBA Forms to any Designated Intermediary that is not authorised to collect the relevant ASBA Forms or to our Company;
11. Do not Bid on a physical Bid cum Application Form that does not have the stamp of the relevant Designated Intermediary;
12. Do not Bid at Cut-off Price (for Bids by QIBs and Non-Institutional Bidders);
13. Do not fill up the Bid cum Application Form such that the Equity Shares Bid for exceeds the Offer / Issue size and/or investment limit or maximum number of the Equity Shares that can be held under the applicable laws or regulations or maximum amount permissible under the applicable regulations or under the terms of the Red Herring Prospectus;
14. If you are a Non-Institutional Bidder or a Retail Individual Bidder, do not submit your Bid (physical applications) after 1.00 pm on the Bid/Offer Closing Date;
15. If you are a QIB, do not submit your Bid after 3.00 p.m. on the QIB Bid/Offer Closing Date (for online applications) and after 12:00 p.m. on the Bid/ Offer Closing Date (for physical applications);

16. Do not instruct your respective banks to release the funds blocked in the ASBA Account under the ASBA process;
17. If you are a UPI Bidders using UPI Mechanism, do not submit more than one Bid cum Application Form for each UPI ID;
18. In case of ASBA Bidders (other than 3 in 1 Bids) Syndicate Members shall ensure that they do not upload any bids above ₹500,000;
19. Do not submit the General Index Register (GIR) number instead of the PAN;
20. Do not submit incorrect details of the DP ID, Client ID, PAN and UPI ID (where applicable) or provide details for a beneficiary account which is suspended or for which details cannot be verified by the Registrar to the Offer;
21. Do not submit the Bid without ensuring that funds equivalent to the entire Bid Amount are available for blocking in the relevant ASBA Account or in the case of UPI Bidders Bidding using the UPI Mechanism, in the UPI-linked bank account where funds for making the Bid are available;
22. Do not withdraw your Bid or lower the size of your Bid (in terms of quantity of the Equity Shares or the Bid Amount) at any stage, if you are a QIB or a Non-Institutional Bidder. Retail Individual Bidders could revise or withdraw their Bids until the Bid / Offer Closing Date;
23. Do not submit Bids on plain paper or on incomplete or illegible Bid cum Application Forms or on Bid cum Application Forms in a colour prescribed for another category of Bidder;
24. Do not link the UPI ID with a bank account maintained with a bank that is not UPI 2.0 certified by the NPCI in case of Bids submitted by UPI Bidders;
25. Do not submit a Bid in case you are not eligible to acquire Equity Shares under applicable law or your relevant constitutional documents or otherwise;
26. Do not Bid if you are not competent to contract under the Indian Contract Act, 1872 (other than minors having valid depository accounts as per Demographic Details provided by the depository);
27. Do not submit more than one Bid cum Application Form per ASBA Account. If you are a UPI Bidder Bidding using the UPI Mechanism, do not submit Bids through an SCSB and/or mobile application and/or UPI handle that is not listed on the website of SEBI;
28. Do not submit a Bid using UPI ID, if you are not a UPI Bidder;
29. Do not Bid for Equity Shares more than specified by respective Stock Exchanges for each category;
30. Do not submit the Bid cum Application Form to any non-SCSB Bank or our Company;
31. Do not submit a Bid cum Application Form with third party UPI ID or using a third party bank account (in case of Bids submitted by UPI Bidders); and
32. Do not Bid if you are an OCB.

For helpline details of the Book Running Lead Managers pursuant to the SEBI circular bearing reference number SEBI/HO.CFD.DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, see “*General Information – Book Running Lead Managers*” on page 88.

The Bid cum Application Form was liable to be rejected if the above instructions, as applicable, were not complied with.

Grounds for Technical Rejection

For details of grounds for technical rejections of a Bid cum Application Form, see the General Information Document. In addition to the grounds for rejection of Bids on technical grounds as provided in the GID, Bidders were requested to note that Bids could have been rejected on the following additional technical grounds:

1. Bids submitted without instruction to the SCSBs to block the entire Bid Amount;
2. Bids which do not contain details of the Bid Amount and the bank account details in the ASBA Form;
3. Bids submitted on a plain paper;
4. Bids submitted by UPI Bidders through an SCSBs and/or using a mobile application or UPI handle, not listed on the website of SEBI;
5. Bids under the UPI Mechanism submitted by UPI Bidders using third party bank accounts or using a third party linked bank account UPI ID (subject to availability of information regarding third party account from Sponsor Banks);
6. ASBA Form submitted to a Designated Intermediary does not bear the stamp of the Designated Intermediary;
7. Bids submitted without the signature of the First Bidder or sole Bidder;
8. The ASBA Form not being signed by the account holders, if the account holder is different from the Bidder;
9. ASBA Form by the UPI Bidders by using third party bank accounts or using third party linked bank account UPI IDs;
10. Bids by persons for whom PAN details have not been verified and whose beneficiary accounts are “suspended for credit” in terms of SEBI circular CIR/MRD/DP/ 22 /2010 dated July 29, 2010;
11. GIR number furnished instead of PAN;
12. Bids by RIBs with Bid Amount of a value of more than ₹200,000 (net of retail discount);
13. Bids by persons who are not eligible to acquire Equity Shares in terms of all applicable laws, rules, regulations, guidelines and approvals;
14. Bids accompanied by stock invest, money order, postal order or cash; and
15. Bids uploaded by QIBs after 4.00 pm on the QIB Bid / Offer Closing Date and by Non-Institutional Bidders uploaded after 4.00 p.m. on the Bid / Offer Closing Date (other than UPI Bidders), and Bids by UPI Bidders uploaded after 5.00 p.m. on the Bid / Offer Closing Date, unless extended by the Stock Exchanges.

In case of any pre-Offer or post Offer related issues regarding demat credit / refund orders / unblocking, etc., investors shall reach out to the Company Secretary and Compliance Officer, and the Registrar. For details of the Company Secretary and Compliance Officer and the Registrar, see “*General Information – Company Secretary and Compliance Officer*” on page 88.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid / Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. Further, Investors shall be entitled to compensation in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, in case of delays in resolving investor grievances in relation to blocking / unblocking of funds.

Names of entities responsible for finalising the Basis of Allotment in a fair and proper manner

The authorised employees of the Designated Stock Exchange, along with the BRLMs and the Registrar, shall ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

Method of allotment as may be prescribed by SEBI from time to time

Our Company will not make any Allotment in excess of the Equity Shares offered through the Offer through the Red Herring Prospectus except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an Allotment of not more than 1% of the Offer to public may be made for the purpose of making Allotment in minimum lots.

The Allotment of Equity Shares to Bidders other than to the Retail Individual Bidders, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed.

The Allotment of Equity Shares to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be Allotted on a proportionate basis.

The Allotment to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis in accordance with the conditions specified in this regard mentioned in SEBI ICDR Regulations.

Payment into Escrow Accounts for Anchor Investors

Our Company and the Investor Selling Shareholder, in consultation with the BRLMs, in their absolute discretion, have decided the list of Anchor Investors to whom the Allotment Advice were sent, pursuant to which the details of the Equity Shares allocated to them in their respective names were notified to such Anchor Investors. Anchor Investors were not permitted to Bid in the Offer through the ASBA process. Instead, Anchor Investors were required to transfer the Bid Amount (through direct credit, RTGS, NACH or NEFT) to the Escrow Accounts. The payment instruments for payment into the Escrow Accounts were to be drawn in favour of:

- (i) In case of resident Anchor Investors and Underwriters: “HAPPY FORGINGS LTD – ANCHOR INVESTOR – R”
- (ii) In case of Non-Resident Anchor Investors: “HAPPY FORGINGS LTD – ANCHOR INVESTOR – NR”

Anchor Investors were required to note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Selling Shareholders, the Syndicate, the Bankers to the Offer and the Registrar to the Offer to facilitate collections from Anchor Investors.

Allotment Advertisement

The Allotment Advertisement shall be uploaded on the websites of our Company, BRLMs and Registrar to the Offer, before 9 p.m. IST, on the date of receipt of the final listing and trading approval from all the Stock Exchanges where the equity shares of the Issuer are proposed to be listed, provided such final listing and trading approval from all the Stock Exchanges is received prior to 9:00 p.m. IST on that day. In an event, if final listing and trading approval from all the Stock Exchanges is received post 9:00 p.m. IST on the date of receipt of the final listing and trading approval from all the Stock Exchanges where the equity shares of the Company are proposed to be listed, then the Allotment Advertisement shall be uploaded on the websites of our Company, BRLMs and Registrar to the Offer, following the receipt of final listing and trading approval from all the Stock Exchanges.

Our Company, the BRLMs and the Registrar shall publish an allotment advertisement not later than one day after the date of commencement of trading, disclosing the date of commencement of trading in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper and the Ludhiana edition of Daily Swaraj, a Punjabi daily newspaper (Punjabi being the regional language of Punjab, where our Registered Office is located), each with wide circulation.

Depository Arrangements

The Allotment of the Equity Shares in the Offer shall be only in a dematerialised form, (*i.e.*, not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode). In this context, tripartite agreements had been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated June 23, 2018, amongst our Company, NSDL and Registrar to the Offer.
- Tripartite agreement dated October 11, 2018, amongst our Company, CDSL and Registrar to the Offer.

Undertakings by our Company

Our Company undertakes the following:

- (i) that the complaints received in respect of the Offer shall be attended to by our Company expeditiously and

satisfactorily;

- (ii) that if the Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded / unblocked within the time prescribed under applicable law, failing which interest will be due to be paid to the Bidders at the rate prescribed under applicable law for the delayed period;
- (iii) that all steps will be taken for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed within three Working Days of the Bid / Offer Closing Date or such other time as may be prescribed by SEBI;
- (iv) that funds required for making refunds to unsuccessful applicants as per the mode(s) disclosed shall be made available to the Registrar to the Offer by our Company;
- (v) where refunds (to the extent applicable) are made through electronic transfer of funds, a suitable communication shall be sent to the applicant within the time prescribed under applicable law, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund;
- (vi) that if our Company does not proceed with the Offer after the Bid / Offer Closing Date but prior to Allotment, the reason thereof shall be given as a public notice within two days of the Bid / Offer Closing Date. The public notice shall be issued in the same newspapers where the pre-Offer advertisements were published. The Stock Exchanges on which the Equity Shares are proposed to be listed shall also be informed promptly;
- (vii) that if our Company and the Investor Selling Shareholder in consultation with the BRLMs, withdraws the Offer after the Bid / Offer Closing Date, our Company shall be required to file a fresh draft offer document with SEBI, in the event our Company and/or the Selling Shareholders subsequently decide to proceed with the Offer thereafter;
- (viii) that adequate arrangements shall be made to collect all Bid cum Application Forms submitted by Bidders and Anchor Investor Application Form from Anchor Investors;
- (ix) that except for the Equity Shares that may be allotted pursuant to the (i) Fresh Issue; and (ii) the exercise of employee stock options under the ESOP Scheme, no further issue of Equity Shares shall be made until the Equity Shares issued or offered through the Red Herring Prospectus are listed or until the Bid monies are refunded / unblocked in the ASBA Accounts on account of non-listing, under-subscription, etc.; and
- (x) Compliance with all disclosure and accounting norms as may be specified by SEBI from time to time.

Undertakings by the Selling Shareholders

The Selling Shareholders, severally and not jointly, undertake the following in respect of themselves as the Selling Shareholders, and the Offered Shares:

- (i) that the Offered Shares are eligible for being offered in the Offer for Sale in terms of Regulation 8 of the SEBI ICDR Regulations and are in dematerialised form;
- (ii) that they are the legal and beneficial owner of, and have clear and marketable title to the Offered Shares;
- (iii) that they shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to the Bidder for making a Bid in the Offer, and shall not make any payment, direct or indirect, in the nature of discounts, commission, allowance or otherwise to any person who makes a Bid in the Offer;
- (iv) that the Equity Shares being sold by them pursuant to the Offer are free and clear of any pre-emptive rights, liens, mortgages, charges, pledges or any other encumbrances and shall be in dematerialized form at the time of transfer and shall be transferred to the eligible investors within the time specified under applicable law;
- (v) that they shall provide all reasonable co-operation as requested by our Company in relation to the completion of Allotment and dispatch of the Allotment Advice and CAN, if required, and refund orders to the extent of the Offered Shares;

- (vi) that it shall deposit its Equity Shares offered for sale in the Offer in an escrow demat in accordance with the Share Escrow Agreement executed between the parties to such Share Escrow Agreement;
- (vii) that they shall not have recourse to the proceeds of the Offer for Sale which shall be held in escrow in its favour, until final listing and trading approvals have been received from the Stock Exchanges; and
- (viii) that it will provide such reasonable support and extend such reasonable cooperation as may be required by our Company and the BRLMs in redressal of such investor grievances that pertain to the Offered Shares.

Utilisation of Offer Proceeds

Our Board certifies that:

- all monies received out of the Offer shall be credited / transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act;
- details of all monies utilized out of the Fresh Issue shall be disclosed, and continue to be disclosed till the time any part of the Offer proceeds remains unutilized, under an appropriate head in the balance sheet of our Company indicating the purpose for which such monies have been utilized; and
- details of all unutilized monies out of the Fresh Issue, if any shall be disclosed under an appropriate separate head in the balance sheet indicating the form in which such unutilized monies have been invested.

Impersonation

Attention of the Bidders is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below: “Any person who – (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.” The liability prescribed under Section 447 of the Companies Act, 2013 for fraud involving an amount of at least ₹1 million or one per cent of the turnover of the company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years and fine of an amount not less than the amount involved in the fraud, extending up to three times such amount (provided that where the fraud involves public interest, such term shall not be less than three years.) Further, where the fraud involves an amount less than ₹1 million or one per cent of the turnover of the company, whichever is lower, and does not involve public interest, any person guilty of such fraud shall be punishable with imprisonment for a term which may extend to five years or with fine which may extend to ₹5 million or with both.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries / departments are responsible for granting approval for foreign investment. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT, issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”), which, with effect from October 15, 2020, consolidated and supersedes all previous press notes, press releases, clarifications, circulars issued by the DPIIT, which were in force prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular.

The transfer of shares between an Indian resident and a Non-Resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the Non-Resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA NDI Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA NDI Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India, as prescribed in the Consolidated FDI Policy and the FEMA NDI Rules. In the event such prior approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. These investment restrictions shall also apply to subscribers of offshore derivative instruments.

As per the FDI Policy, FDI in companies engaged in manufacturing sector is permitted up to 100% of the paid-up share capital of such company under the automatic route.

As per the existing policy of the Government of India, OCBs were not permitted to participate in this Offer. For further details, see “*Offer Procedure*” on page 474.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares were offered and sold (i) within the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act and referred to in this Prospectus as “U.S. QIBs”) in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, and (ii) outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. For the avoidance of doubt, the term “U.S. QIBs” does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Prospectus as “QIBs”.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information has been given for the benefit of the Bidders. Our Company, the Selling Shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur

after the date of the Red Herring Prospectus. Bidders were advised to make their independent investigations, seek independent legal advice about its ability to participate in the Offer and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

SECTION XI – MAIN PROVISIONS OF THE ARTICLES OF ASSOCIATION

1. The regulations contained in the Table marked 'F' in Schedule I to the Companies Act, 2013, as amended from time to time, shall not apply to the Company, except in so far as the same are repeated, contained, or expressly made applicable in these Articles or by the said Act.

INTERPRETATION

2. (1) In these regulations—
 - 2.1. "The Act" means the Companies Act, 2013.
 - 2.2. "The Company" means Happy Forgings Limited.
 - 2.3. "The seal" means the common seal of the company.
- (2) Unless the context otherwise requires, words or expressions contained in these regulations shall bear the same meaning as in the Act or any statutory modification thereof in force at the date at which these regulations become binding on the Company.

PUBLIC COMPANY

3. "Public Company" means a company as defined Section 2(71) of the Companies, act, 2013.

SHARE CAPITAL AND VARIATION OF RIGHTS

4. The Authorized Share Capital of the Company is as mentioned in clause V of the Memorandum of Association of the Company with power of the Board of Directors to sub- divide, consolidate and increase and with power from time to time, issue any shares of the original capital with and subject to any preferential, qualified or special rights, privilege or condition as may be, thought fit, and upon the sub-division of shares apportion the right to participate in profits in my manner as between the shares resulting from sub-division.
5. Subject to the provisions of the Act and these Articles, the shares in the capital of the Company for the time being shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par or at a discount (subject to the compliance with the provision of section 53 of the Act) and at such time as they may from time to time think fit and with sanction of the Company in the General Meeting to give to any person or persons the option or right to call for any shares either at par or premium during such time and for such consideration as the Directors think fit, and may issue and allot shares in the capital of the Company on payment in full or part of any property sold and transferred or for any services rendered to the Company in the conduct of its business and any shares which may so be allotted may be issued as fully paid up shares and if so issued, shall be deemed to be fully paid shares.

Provided that option or right to call of shares shall not be given to any person or persons without the sanction of the Company in the General Meeting.

6. (i) Every person whose name is entered as a member in the register of members shall be entitled to receive within two (2) months after incorporation, in case of subscribers to the memorandum:
 - 6.1. One certificate for all shares of each class or denomination registered in his name without payment of any charges; or
 - 6.2. Several certificates, if the directors so approve, each for one or more shares of each class or denomination registered in his name, upon payment of twenty rupees for each certificate after the first and the Company shall complete and have ready for delivery such certificates within three months from the date of allotment, unless the conditions of issue thereof otherwise provide, or within two months of the receipt of application of registration of transfer, transmission, sub-division, consolidation or renewal of any of its shares as the case may be.
- (ii) Every certificate of shares shall be under the seal of the Company and shall specify the number and distinctive number of shares in respect of which it is issued and the amount paid-up thereon and shall be in such form as the Directors may prescribe and approve.
- (iii) In respect of any share or shares held jointly by several persons, the Company shall not be bound to issue more

than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.

7. (i) If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the Back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, being given, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every certificate under this Article shall be issued without payment of fees if the Directors so decide, or on payment of such fees (not exceeding ₹20/- for each certificate) as the Directors shall prescribe. Provided that no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer.

Provided that notwithstanding what is stated above the Directors shall comply with such rules or regulation or requirements of any Stock Exchange or the rules made under the Act or rules made under Securities Contracts (Regulation) Act, 1956 or any other applicable law thereof in this behalf.

- (ii) The provisions of this Article shall *mutatis mutandis* apply to debentures or other securities of the Company.
8. (i) The Company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.
- (ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.
- (iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.
9. (i) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a prescribed resolution passed at a separate meeting of the holders of the shares of that class.
- (ii) To every such separate meeting, the provisions of these regulations relating to general meetings shall *mutatis mutandis* apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.

FURTHER ISSUE OF SHARES

10. (a) Where at any time the Board or the Company, as the case may be, propose to increase the subscribed capital by the issue of further shares then such shares shall be offered, subject to the provisions of section 62 of the Act, and the rules made thereunder:
- (A)
- (i) To the persons who at the date of the offer are holders of the Equity Shares of the Company, in proportion as nearly as circumstances admit, to the paid-up share capital on those shares by sending a letter of offer subject to the conditions mentioned in (ii) to (iv) below;
- (ii) The offer aforesaid shall be made by notice specifying the number of shares offered and limiting a time as may be prescribed under applicable Indian law from the date of the offer, within which the offer if not accepted, shall be deemed to have been declined.

Provided that the notice shall be dispatched through permitted mode to all the existing shareholders at least 3 (three) days or such number of days as may be prescribed before the opening of the issue or such other timeline as may be prescribed under applicable law;

- (iii) The offer aforesaid shall be deemed to include a right exercisable by the person concerned to renounce the shares offered to him or any of them in favour of any other person; and the notice referred to in sub-clause(ii) shall contain a statement of this right;
 - (iv) after the expiry of the time specified in the notice aforesaid, or on receipt of earlier intimation from the person to whom such notice is given that he declines to accept the shares offered, the Board of Directors may dispose of them in such manner which is not dis-advantageous to the shareholders and the Company; or
 - (B) to employees under a scheme of employees' stock option, subject to special resolution passed by Company and subject to such conditions as may be prescribed; or
 - (C) to any persons, if it is authorised by a prescribed resolution, whether or not those persons include the persons referred to in clause (A) or clause (B), either for cash or for a consideration other than cash, if the price of such shares is determined by the valuation report of a registered valuer, subject to the compliance with the applicable provisions of Chapter III of the Act and any other conditions as may be prescribed;
- (b) Nothing in this Article shall apply to the increase of the subscribed capital of the Company caused by the exercise of an option attached to the debentures issued or loans raised by the Company to convert such debentures or loans into shares in the company (whether such option is conferred in these Articles or otherwise).

Provided that the terms of issue of such debentures or loan containing such an option have been approved before the issue of such debentures or the raising of loan by a prescribed resolution passed by the Company in general meeting.

- (c) Notwithstanding anything contained in this Article, where any debentures have been issued, or loan has been obtained from any Government by a company, and if that Government considers it necessary in the public interest so to do, it may, by order, direct that such debentures or loans or any part thereof shall be converted into shares in the Company on such terms and conditions as appear to the Government to be reasonable in the circumstances of the case even if terms of the issue of such debentures or the raising of such loans do not include a term for providing for an option for such conversion:

Provided that where the terms and conditions of such conversion are not acceptable to the Company, it may, within sixty days from the date of communication of such order, appeal to the Tribunal which shall after hearing the Company and the Government pass such order as it deems fit.

- (d) In determining the terms and conditions of conversion under Section 62(4), the Government shall have due regard to the financial position of the Company, the terms of issue of debentures or loans, as the case may be, the rate of interest payable on such debentures or loans and such other matters as it may consider necessary.

Where the Government has, by an order made under Section 62(4), directed that any debenture or loan or any part thereof shall be converted into shares in a company and where no appeal has been preferred to the Tribunal under Section 62(4) or where such appeal has been dismissed, the memorandum of such Company shall, where such order has the effect of increasing the authorised share capital of the Company, stand altered and the authorised share capital of such Company shall stand increased by an amount equal to the amount of the value of shares which such debentures or loans or part thereof has been converted into.

11. Subject to the provisions of section 55, any preference shares may, with the sanction of an prescribed resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the company before the issue of the shares may, by prescribed resolution, determine.

TERM OF ISSUE OF DEBENTURE

12. Any debentures, debenture-stock or other securities may be issued at a discount, premium or otherwise and may be issued on condition that they shall be convertible into shares of any denomination and with any privileges and conditions as to redemption, surrender, drawing, allotment of shares, attending (but not voting) at the General Meeting, appointment of Directors and otherwise debentures with the right to conversion into or allotment of shares shall be issued only with the consent of the Company in the General Meeting by a special resolution.

LIEN

13. (i) The company shall have a first and paramount lien—

13.1. On every share / debenture (not being a fully paid share / debenture), and upon the proceeds of sale thereof for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and

13.2. On all shares / debenture (not being fully paid shares / debenture) standing registered in the name of a single person (whether solely or jointly with others), and upon the proceeds of sale thereof for all monies presently payable by him or his estate, in respect of such shares / debentures to the Company and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect:

Provided that the Board of directors may at any time declare any shares / debentures to be wholly or in part exempt from the provisions of this clause.

(ii) The Company's lien, if any, on a share / debenture shall extend to all dividends payable and bonuses declared from time to time in respect of such shares / debentures.

(iii) Fully paid shares shall be free from all lien. The Company's lien, in case of partly paid shares, shall be restricted to moneys called or payable at a fixed time in respect of such shares.

14. The Company may sell, in such manner as the Board thinks fit, any shares / debentures on which the Company has a lien:

Provided that no sale shall be made -

14.1. Unless a sum in respect of which the lien exists is presently payable; or

14.2. Until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.

15. (i) To give effect to any such sale, the Board may authorize some person to transfer the shares / debentures sold to the purchaser thereof.

(ii) The purchaser shall be registered as the holder of the shares / debentures comprised in any such transfer.

(iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

16. (i) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.

(ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon shares / debentures before the sale, be paid to the person entitled to the shares at the date of the sale.

17A. Unless otherwise agreed the registration of a transfer of shares / debentures shall operate as a waiver of the Company's lien, if any, on such shares / debentures.

CALLS ON SHARES

17. (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:

Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.

(ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.

- (iii) A call may be revoked or postponed at the discretion of the Board.
18. A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by installments.
19. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
20. (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent per annum or at such lower rate, if any, as the Board may determine.
- (ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.
21. (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.
- (ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
22. The Board —
- 22.1. May, if it thinks fit, subject to the provisions of Section 50 of the Act, agree to and receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him beyond the sums actually called for; and
- 22.2. Upon all or any of the monies so advanced, or so much thereof as from time to time exceeds the amount of the calls then made upon the shares in respect of which such advance has been made, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the Company in General Meeting shall otherwise direct, twelve per cent per annum, as may be agreed upon between the Board and the member paying the sum in advance.
- Provided that money paid in advance of calls shall not confer a right to participate in profits or dividend. The Board may at any time repay the amount so advanced.
- 22.3. The members shall not be entitled to any voting rights in respect of the moneys so paid by him until the same would but for such payment, become presently payable.
- 22.4. The provisions of this Articles shall *mutatis mutandis* apply to the calls on debentures of the Company.

TRANSFER OF SHARES

23. (i) The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.
- (ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.
- 24A. Notwithstanding anything contained in these articles any transfer of shares shall be as prescribed under the applicable law duly amended from time to time. The instrument of transfer shall be in writing and all provisions of the Companies Act, 2013 and statutory modification thereof for the time being read with any other provisions of applicable law, shall be duly complied with in respect of all transfer of shares and registration thereof.
24. The Board may, subject to the right of appeal conferred by section 58 declines to register—
- 24.1. The transfer of a share, not being a fully paid share, to a person of whom they do not approve; or

- 24.2. Any transfer of shares on which the company has alien.
25. The Board may decline to recognize any instrument of transfer unless—
- 25.1. The instrument of transfer is in the form as prescribed under the applicable law;
 - 25.2. The instrument of transfer is in compliance with the provisions of applicable law; and
 - 25.3. The instrument of transfer is in respect of only one class of shares.
- 26A. Subject to the provisions of Section 59, these Articles and other applicable provisions of the Act or any other law for the time being in force, the Board may refuse whether in pursuance of any power of the Company under these Articles or otherwise to register the transfer of the right to any shares or interest of a Member in or debentures of the Company.
- The Company shall within one month from the date on which the instrument of transfer, was delivered to the Company, send notice of the refusal to the transferee and the transferor giving reasons for such refusal.
- Provided that the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except where the Company has a lien on shares.
26. On giving not less than seven days' previous notice in accordance with section 91 and rules made there under, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:
- Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.
- 27A. No fee shall be charged for registration of transfer of shares.
- 27B. A common form for registration of transfer of shares shall be used by the Company.

TRANSMISSION OF SHARES

27. (i) Notwithstanding anything contained in these articles any transfer of shares shall be as prescribed under the applicable law duly amended from time to time. On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognized by the company as having any title to his interest in the shares.
- (ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.
28. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either -
- 28.1. To be registered himself as holder of the share or
 - 28.2. To make such transfer of the share as the deceased or insolvent member could have made.
- The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.
29. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.
- (ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.
- (iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the

registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

30. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company: Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

31A. Subject to the provisions of Section 59, these Articles and other applicable provisions of the Act or any other law for the time being in force, the Board may refuse whether in pursuance of any power of the Company under these Articles or otherwise to register the transmission by operation of law of the right to, any shares or interest of a Member in or debentures of the Company.

The Company shall within one month from the date on which the intimation of such transmission was delivered to the Company, send notice of the refusal to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal.

31B. No fee shall be charged for registration of transmission of shares (in cases of probate, succession certificate and letters of administration, certificate of death or marriage, power of attorney or similar other document).

FORFEITURE OF SHARES

31. If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.

32. The notice aforesaid shall -

32.1. Name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

32.2. State that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.

33. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

34. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.

35. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.

(ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.

36. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;

(ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may

execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

(iii) The transferee shall thereupon be registered as the holder of the share; and

(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

37. The provisions of these regulations as to forfeiture shall apply in the case of nonpayment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

ALTERATION OF CAPITAL

38. The company may, from time to time, by ordinary resolution increase the share capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.

39. Subject to the provisions of section 61, the company may, by ordinary resolution -

39.1. Consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

39.2. Convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;

39.3. Sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;

39.4. Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

40. Where shares are converted into stock -

40.1. The holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit:

Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

40.2. The holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

40.3. Such of the regulations of the company as are applicable to paid-up shares shall apply to stock and the words "share" and "shareholder" in those regulations shall include "stock" and "stock-holder" respectively.

41. The company may, by special resolution, reduce in any manner and with, and subject to, any incident authorized and consent required by law

41.1. Its share capital;

41.2. Any capital redemption reserve account; or

41.3. Any share premium account.

CAPITALIZATION OF PROFITS

42. (i) The company in general meeting may, upon the recommendation of the Board, resolve—

42.1. That it is desirable to capitalize any part of the amount for the time being Standing to the credit of any of the

company's reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and

42.2. That such sum be accordingly set free for distribution in the manner specified in clause amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.

- (ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—
 - a. paying up any amounts for the time being unpaid on any shares held by such members respectively;
 - b. paying up in full, unissued shares of the company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;
 - c. Partly in the way specified in sub-clause (A) and partly in that specified in sub-clause(B);
 - d. A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the company as fully paid bonus shares;
 - e. The Board shall give effect to the resolution passed by the company in pursuance of this regulation.

43. (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall -

43.1. Make all appropriations and applications of the undivided profits resolved to be capitalized thereby, and all allotments and issues of fully paid shares if any; and

43.2. Generally do all acts and things required to give effect thereto.

(ii) The Board shall have power -

- (a) To make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable in fractions; and
- (b) To authorize any person to enter, on behalf of all the members entitled thereto, into an agreement with the company providing for the allotment to them respectively, credited as fully paid-up, of any further shares to which they may be entitled upon such capitalization, or as the case may require, for the payment by the company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalized, of the amount or any part of the amounts remaining unpaid on their existing shares;

(iii) Any agreement made under such authority shall be effective and binding on such members.

BUY-BACK OF SHARES

44. Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the company may purchase its own shares or other specified securities.

GENERAL MEETINGS

45. All general meetings other than annual general meeting shall be called extraordinary general meeting.

46. (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.

(ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.

PROCEEDINGS AT GENERAL MEETINGS

47. (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when

the meeting proceeds to business.

(ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.

48. The chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the company.
49. If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one of their members to be Chairperson of the meeting.
50. If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.

ADJOURNMENT OF MEETING

51. (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.
- (ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
- (iii) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
- (iv) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

VOTING RIGHTS

52. Subject to any rights or restrictions for the time being attached to any class or classes of shares,—
- 52.1. on a show of hands, every member present in person shall have one vote; and
- 52.2. on a poll, the voting rights of members shall be in proportion to his share in the paid-up equity share capital of the company.
53. A member may exercise his vote at a meeting by electronic means in accordance with section 108 and shall vote only once.
54. (i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.
- (ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.
55. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.
56. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
57. No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the company have been paid.
58. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.
- (ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

PROXY

59. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarized copy of that power or authority, shall be deposited at the registered office of the company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
60. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.
61. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given:

Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

BOARD OF DIRECTORS

62. The number of the directors and the names of the first directors shall be determined in writing by the subscribers of the memorandum or a majority of them. The following shall be the first directors of the Company:

- | | |
|--------------------------|-----------------------|
| (i) Sh. Paritosh Kumar | (iv) Sh. Sanjeev Garg |
| (ii) Sh. Chanan Ram Garg | (v) Sh. PK Goyal |
| (iii) Sh. Parveen Kumar | (vi) Sh. PK Tandon |

- 63A. The Board of Directors shall consist of such number of Directors and shall have such composition as may be required under applicable Law.

63. (i) The remuneration of the directors shall, in so far as it consists of a monthly payment, be deemed to accrue from day-to-day.

(ii) In addition to the remuneration payable to them in pursuance of the Act, the directors may be paid all travelling, hotel and other expenses properly incurred by them –

- (a) in attending and returning from meetings of the Board of Directors or any committee thereof or general meetings of the company; or
- (b) in connection with the business of the company.

64. The Board may pay all expenses incurred in getting up and registering the company.

65. The company may exercise the powers conferred on it by section 88 with regard to the keeping of a foreign register; and the Board may (subject to the provisions of that section) make and vary such regulations as it may think fit respecting the keeping of any such register.

66. All cheques, promissory notes, drafts, hundis, bills of exchange and other negotiable instruments, and all receipts for monies paid to the company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, by such person and in such manner as the Board shall from time to time by resolution determine.

67. Every director present at any meeting of the Board or of a committee thereof shall sign his name in a book to be kept for that purpose.

68. (i) Subject to the provisions of section 149, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the directors and additional directors together shall not at any time exceed the maximum strength fixed for the Board by the articles.

(ii) Such person shall hold office only up to the date of the next annual general meeting of the company but shall be eligible for appointment by the company as a director at that meeting subject to the provisions of the Act.

PROCEEDINGS OF THE BOARD

69. (i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.
- (ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.
70. (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.
- (ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.
71. The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the company, but for no other purpose.
72. (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the directors present may choose one of their numbers to be Chairperson of the meeting.
73. (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.
- (ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.
74. (i) A committee may elect a Chairperson of its meetings.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.
75. (i) A committee may meet and adjourn as it thinks fit.
- (ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.
76. All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.
77. Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.
78. Subject to the provisions of the Act -
- (i) A chief executive officer, manager, company secretary or chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, manager, company secretary or chief financial officer so appointed may be removed by means of a resolution of the Board;
- (ii) A director may be appointed as chief executive officer, manager, company secretary or chief financial officer.
79. A provision of the Act or these regulations requiring or authorizing a thing to be done by or to a director and chief executive officer, manager, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as director and as, or in place of, chief executive officer, manager, company secretary or chief financial officer.

THE SEAL

80. (i) The Board shall provide for the safe custody of the seal.
- (ii) The seal of the company shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorized by it in that behalf, and except in the presence of at least two directors and of the secretary or such other person as the Board may appoint for the purpose; and those two directors and the secretary or other person aforesaid shall sign every instrument to which the seal of the company is so affixed in their presence.

DIVIDENDS AND RESERVE

81. The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
82. Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.
83. (i) The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, thinks fit.
- (ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as are serve.
84. (i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares.
- (ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.
- (iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.
85. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.
86. (i) Any dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.
- (ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.
87. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.
88. Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.
89. No dividend shall bear interest against the company.
- 90A. Where the Company has declared a dividend but which has not been paid or claimed within 30 days from the date of

declaration, transfer the total amount of dividend which remains unpaid or unclaimed within the said period of 30 days, to a special account to be opened by the Company in that behalf in any scheduled bank, to be called “unpaid dividend account”

90B. Any money transferred to the unpaid dividend account of a Company which remains unpaid or unclaimed for a period of seven years from the date of such transfer, shall be transferred by the Company to the Fund known as Investor Education and Protection Fund established under section 125 of the Act.

90C. No unclaimed or unpaid dividend shall be forfeited by the Board.

ACCOUNTS

90. (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the company, or any of them, shall be open to the inspection of members not being directors.
- (ii) No member (not being a director) shall have any right of inspecting any account or book or document of the company except as conferred by law or authorized by the Board or by the company in general meeting.

WINDING UP

91. Subject to the provisions of Chapter XX of the Act and rules made thereunder—

- (i) If the company shall be wound up, the liquidator may, with the sanction of a special resolution of the company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the company, whether they shall consist of property of the same kind or not.
- (ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.
- (iii) The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any shares or other securities whereon there is any liability.

INDEMNITY

92. Every officer of the company shall be indemnified out of the assets of the company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favor or in which he is acquitted or in which relief is granted to him by the court or the Tribunal.

GENERAL POWER

93. Wherever in the Act, it has been provided that the Company shall have any right, privilege or authority or that the Company could carry out any transaction only if the Company is so authorized by its articles, then and in that case this Article authorizes and empowers the Company to have such rights, privileges or authorities and to carry such transactions as have been permitted by the Act, without there being any specific Article in that behalf herein provided.
94. At any point of time from the date of adoption of these Articles, if the Articles are or become contrary to the provisions of the Securities Contracts (Regulation) Act, 1956, the Depositories Act, 1996 and the rules and regulations made thereunder and the general or special orders, guidelines or circulars made or issued by the Board thereunder and the provisions of the Companies Act, 2013 and any subordinate legislation framed thereunder, which are administered by any appropriate authority, then the provisions of such applicable law shall prevail over the Articles to such extent and the Company shall discharge all of its obligations as prescribed under the applicable law, from time to time.

SECTION XII – OTHER INFORMATION
