INTERNAL RISKS

1. We are yet to execute an agreement / MoU with GC Constructions with regard to the proposed purchase for the Objects of the Issue.

We have established a cordial and a healthy working relationship with GC Constructions. Earlier we have acquired 15,000 squares metres of saleable FSI area from them and had executed a MoU. We now intend to acquire an additional FSI area of 25,000 square metres of land from them. However, the exact location has not yet been earmarked. For details of the MoU please refer to page no of 54 the section Our Business of this Prospectus.

2. We are venturing into real estate for the first time.

Our Company recently altered the main object clause of its Memorandum of Association to include its foray into real estate. Though this is the first of its initiatives and that of the promoters, we would rely on the business acumen of Mr. Suresh Bohra, our promoter-director who is well experienced in setting up new business verticals. Also, this being our first venture we are totally dependent on GC Construction for the success of this project and therefore, our move into this sector.

3. The proposed objects of the issue for which funds are being raised have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials

The requirement of the funds raised through this issue, as specified in the chapter titled “Object of the Issue” are based on the company’s estimates and internal research. Deployment of these funds is at the discretion of the management and the Board of Directors of the company subject to and in compliance with Section 27 of the Companies Act, 2013 which directs that none of the terms of any contract entered into by the Company in pursuit of the Particulars of the issue

shall be varied without an approval sought at a general body meeting via a special resolution.

4. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the 'Object of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled "Objects of the Issue" beginning on page 38 of the Prospectus.

5. Non-payment of stamp duty

Our Company has not paid the stamp duty on each of its allotment till date. We have neither received any notice nor has any action been initiated against us by any regulatory authority for the violation of the aforesaid provisions of the Delhi Stamp Act but we cannot assure that no action may be initiated against the Company. However, we have initiated the process of paying the amount of stamp duty on the entire share capital as applicable under the Delhi Stamps Act.

6. Unsecured loans repayable on demand

The Company follows a practice of taking unsecured loans for its business that are repayable on demand on such conditions that may be agreed upon with the lender. For the five month period ended 31st August, 2015 the outstanding amount of unsecured loans is around ₹7709.43 lakhs. Till date the Company has been honoring timely re-payment of these loans in line with the understanding with the lender.

7. Details of cash flow given in the cash flow statement

The figures for cash flow from operating activities for FY 14, FY 15 and five month period ending 31st August, 2015 is shown in brackets which refers to cash used in operations. This is largely due to unsecured loans taken and deployed in purchase of inventories as part of its current business operations namely, equity trading and investments.

8. The revenues earned from our investment and trading of securities business have been inconsistent in the past and may continue to be inconsistent due to the very nature of this business which is dependent on the overall volatility in the Capital Markets in India.

Our functional business activity of investment and trading in equity and other securities picked up momentum during FY 13 and FY 14. This line of business will continue to form a significant portion of our Operations and revenues and will be under the impact of changing trends in the capital markets.

9. Absence of trademark.

We do not own the trademark for the logo of the Company used by us on all our corporate communications including letter heads used by us. We are also not aware if anyone owns a trademark for this logo and hence, we may be subject to claims alleging breach of third party intellectual property rights, if any.

10. Registered office is a rented premise.

We have been operating from the current premise where our Registered Office is situated, from the date of inception. This property is owned by Mr. Neeraj Bhatia with whom we have an oral understanding. We have not executed any formal, written rental agreement with him. However, he has issued a NoC for using the premise as the registered office of the Company.

11. Our Company has not taken any insurance coverage to adequately protect us against certain operating risks and this may have an adverse effect on the results of our business.

We have not taken any insurance coverage for a number of the risks associated with our business, such as insurance cover against loss or damage by fire, explosion, burglary, theft and robbery. To the extent that we suffer any loss or damage that is not covered by insurance, our business and results of operations could be adversely affected.

12. Future issuances of Equity Shares or future sales of Equity Shares by our Promoter and certain shareholders, or the perception that such may occur, may result in a decrease of the market price of our Equity Shares

In the future, we may issue additional equity shares for financing our capital requirements, as and when they arise and investors may experience dilution to that extent. In addition, any instance of disinvestments of equity shares by our Promoters or by other significant shareholder (s) may significantly affect the trading price of our equity shares. Further our market price may also be adversely affected even if there is a perception or belief that such sales of equity shares might occur.

13. We have in the past entered into related party transactions and may continue to do so in the future.

We have entered into transactions with our Promoters and our promoter group entities. While we believe that all such transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. Based on our audited and restated financials, there has been an increase in the quantum of our related party transactions from ₹394.99 lakhs for FY 14 to ₹522.34 lakhs for FY 15. This figure stands at ₹198.05 lakhs for the five month period ending 31st August, 2015.

14. Conflict of interest with the business of promoter group companies.

Following are the ventures promoted by our promoters engaged in the business of investment and broking.

Black Fox Financial Private Limited	SEBI registered equity broking company
Crest Comtrade Private Limited	FMC registered commodities broking company*
Beta Stock Brokers	Mr. Suresh Bohra's sole proprietary concern.

** Since FMC is now merged with SEBI Crest Comtrade pvt ltd has applied to SEBI for registration as a dealer in commodities..*

Though the Company is engaged in Equity trading and investments out of its own pool of investment, overlapping business objectives and potential conflicts may arise with respect to decisions regarding how to allocate business opportunities among those entities. It is possible that potential or perceived conflicts of interest could give rise to losses, investor dissatisfaction, litigation or regulatory enforcement actions. Further, our promoters may also be interested in any transactions between the Company and the ventures promoted by the promoters.

15. One of our promoter group entities has incurred losses in the past.

Our promoter group entity Crest Comtrade Private Limited a FMC registered company dealing in commodities reported a loss of ₹Rs. 0.25 lakhs during FY 13. However, they have recorded profits during FY 14 and FY 15. The details have been disclosed on page no 76 of the Prospectus under the section titled 'Our Group Entities'.

16. Our success depends largely upon the services of our Directors and other Key managerial personnel and our ability to attract and retain them.

Our success is dependent on the expertise of our Directors, Promoters and Key managerial personnel that aids in making well informed business decisions. Demand for key managerial personnel is intense in the industry and we cannot assure you that we will be able to retain them or our succession plan will help in replacing them. The loss of services of such key members could adversely affect the operations of the Company.

17. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We have not paid any dividends since incorporation. Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders.

Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

EXTERNAL RISKS

1. We cannot predict the effect of the proposed notifications of the Companies Act, 2013 on our business.

The Companies Act, 2013 (the “2013 Act”) has been notified by the Government of India on August 30, 2013 (the “Notification”). Under the Notification, Section 1 of the 2013 Act has come into effect and the remaining provisions of the 2013 Act have and shall come into force on such dates as the Central Government has notified and shall notify. Section 1 of the 2013 Act deals with the commencement and application of the 2013 Act, and among others, sets out the types of companies to which the 2013 Act applies. Further the Ministry of Corporate Affairs has by their notification dated September 12, 2013 notified 98 sections of the 2013 Act, which have come into force from September 12, 2013.

The 2013 Act is expected to replace the existing Companies Act, 1956. The 2013 Act provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, the requirements for independent directors, director’s liability, class action suits, and the inclusion of women directors on the boards of companies. The 2013 Act is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the 2013 Act. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the 2013 Act on the Issue, and on the business, prospects and results of operations of the Company. Further, as mentioned above, certain provisions of the 2013 Act have already come into force and the rest shall follow in due course. In event some or all of the provisions of the 2013 Act and the rules thereto are notified prior to the consummation of the Issue, we may have to undertake certain additional actions that we are not currently aware of (in the absence of the rules), which may result in delay of the Issue.

Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

3. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecast and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude.

4. Global economic conditions have been unprecedented and continue to have, an adverse effect on the global and Indian financial markets which may continue to have a material adverse effect on our business.

Recent global market and economic condition have been unprecedented and challenging with tighter credit conditions and an economic recession has been witnessed in most economic in 2009. Continued concerns about the systemic impact of potential long-term and wide-spread economic recession, energy costs, geopolitical issues, the availability and cost of credit, and the global housing and mortgage markets have contributed to increased market volatility and diminished expectations for western and emerging economics. These conditions, combined with volatile oil prices, declining business and consumer confidence and increased unemployment, have contributed to volatility of unprecedented levels. As a result of these market conditions, the cost and availability of credit has been and may continue to be adversely affected by illiquid credit markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led many lenders and institutional investors to reduce, and in some cases, cease to provide credit to businesses and consumers. These factors have led to a decrease in spending by business and consumers alike and corresponding decreases in global

infrastructure spending and commodity prices. These market and economic conditions have an adverse effect on the global and Indian financial markets and may continue to have a material adverse effect on our business and financial performance, and may have an impact on the price of the Equity Shares.

5. Any disruption in the supply of power, IT infrastructure, telecom lines and disruption in internet connectivity could disrupt our business process or subject us to additional costs.

Any disruption in basic infrastructure or the failure of the Government to improve the existing infrastructure facilities could negatively impact our business since we may not be able to provide timely or adequate service to our clients. We do not maintain business interruption insurance and may not be covered for any claims or damage if the supply of power, IT infrastructure, internet connectivity or telecom lines is disrupted. This may result in the loss of a client, impose additional costs on us and have an adverse effect on our business, financial condition and results of operations and could lead to decline in the price of our Equity Shares.

6. Natural calamities and changing weather conditions cause as a result of global warming could have a negative impact on the Indian economy and consequently impact our business and profitability.

Natural calamities such as droughts, floods, and earthquakes could have a negative impact on the Indian economy and may cause suspension, delays or damage to our current projects and operations which may adversely impact our business and our operating results. India's being a monsoon driven economy, climate caused due to global warming deficient / untimely monsoons could impact Government policy which in turn would adversely affect our business.

7. Political instability or changes in the Government could adversely affect economic conditions in India generally and our business is particular.

The Government of India has traditionally exercised and continues to exercise a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that policies will be continued in the future. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and adversely affect our business, financial condition and results of operations.

8. Civil unrest, act of violence including terrorism or war involving India and other countries could materially and adversely affect the financial markets and our business.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Terrorist attacks and other acts of violence may adversely affect the Indian stock markets, where our Equity Shares will trade, and the global equity markets generally.

9. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of "BSE" in a timely manner, or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of "BSE". Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

10. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager have appointed Arch Finance Limited as Designated Market maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they trade in the market subsequent to this Issue. SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

India's Gross Domestic Savings (GDS), as a per cent of GDP, remained above 30 per cent since 2004 and stood at 32.7 per cent in FY13. The IMF estimates domestic savings, as a per cent of GDP, to remain at similar strong levels until 2019. Rising incomes are driving the demand for financial services across income brackets. Financial inclusion drive from RBI has expanded the target market to semi-urban and rural areas. Indian households are the major contributors to rising savings. The average investment by retail investors in stock market in India is 2 per cent. The government aims to increase this to 10-15 per cent by 2025. With the increasing retail penetration there is immense potential to tap the untapped market. Growing financial awareness is expected to increase the fraction of population participating in this market.

The Indian real estate sector is one of the most globally recognized sectors. In the country, it is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. It comprises four sub sectors – housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. According to a study by ICRA, the construction industry ranks third among the 14 major sectors terms of direct, indirect and induced effects all sectors of the economy.

Key Drivers being rapid urbanization, growth in population, rise in the number of nuclear families, easy availability of finance, growing economy and rise in disposable income, the Indian real estate is a large growing market at a CAGR of 11.2%.

In the country, it is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. According to a study by ICRA, the construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in the near future, as a survey by an industry body has revealed a 35 per cent surge in the number of enquires with property dealers. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

The Indian real estate market size is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's gross domestic product (GDP). Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

Indian real estate is a large working market at a CAGR of 15.2%.

Summary of Business Overview:

Our Company is engaged into equity trading and investment related activities. It has recently forayed into real estate. For this purpose, the Company plans to purchase saleable FSI land from GC Construction in Lucknow.

Significant developments after 31st August, 2015 that may affect our result of operation

Factors affecting our results of operations and Financial Condition

Economic conditions:

Our results of operations and financial condition have been and will continue to be influenced by macroeconomic, market and other conditions and developments in India that affect the growth and performance of the companies in which we invest and trade. These factors include levels of, and growth rates in, GDP and per capita GDP as well as the rate of inflation. India's economy is expected to continue to grow during the next few years, contributing to higher disposable incomes, which we expect will fuel growth capital markets and the value of existing assets. Indian economy may be adversely affected by changes in various macroeconomic factors, including, a general rise in interest rates, currency exchange rates, commodity and fuel prices and any adverse conditions which affect food and agricultural production and infrastructure. A slowdown of the Indian economy may adversely affect our business, including our ability to implement our strategy.
