## SECTION II - RISK FACTORS

*An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties summarised below, before making an investment in our Equity Shares. The risks described below are relevant to, the industries our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read this section in conjunction with 'Our Business' and 'Management's Discussion and Analysis of Financial Condition and Results of Operations' on pages 79 and 152 respectively, as well as the other financial and statistical information contained in this Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in 'Financial Statements' on page 118. Unless stated otherwise, the financial data in this section is as per our financial statements prepared in accordance with Indian GAAP, as restated.*

*If any one or more of the following risks as well as other risks and uncertainties discussed in this Prospectus were to occur, our business, financial condition and results of our operation could suffer material adverse effects, and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of your investment.*

*This Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in this Prospectus.*

*These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.*

### **Materiality**

*The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.*

- 1. Some events may not be material individually but may be material when considered collectively.*
- 2. Some events may have an impact which is qualitative though not quantitative.*
- 3. Some events may not be material at present but may have a material impact in the future.*

### **INTERNAL RISKS**

- 1. Projects included in our order book and our future projects may be delayed, modified or cancelled for reasons beyond our control which may materially and adversely affect our business, prospects, reputation, profitability, financial condition and results of operation.**

As on May 31, 2017 our outstanding order book was ₹9,070.07 lakhs. Our order book sets forth our expected revenues from uncompleted portions of the construction contracts received. However, project delays, modifications in the scope or cancellations may occur from time to time due to either a client's or our default, incidents of force majeure or legal impediments. For example, in some of our projects, we or our clients are obliged to take certain actions, such as acquiring land, securing right of way, clearing forests, securing required licenses, authorizations or permits, making advance payments or opening of letters of credit or moving existing utilities, which may be delayed due to our client's nonperformance, our own breaches or force majeure factors. In an EPC project, we may incur significant additional costs due to project delays and our counterparties may seek liquidated damages due to our failure to complete the required milestones or even terminate the construction contract totally or refuse to grant us any extension. The schedule of completion may need to be reset and we may not be able to recognize revenue if the required percentage of completion is not achieved in the specified timeframe.

We may not have the full protection in our contracts against such delays or associated liabilities and/or additional costs. Further, we have escalation clauses in some of our contracts, which, may be interpreted restrictively by our counterparties, who may dispute our claims for additional costs. As a result, our future earnings may be different from the amount in the order book. Our contracts may be amended, delayed or cancelled before work commences or during the course of construction. Due to unexpected changes in a projects scope and schedule, we cannot predict with certainty

when or if expected revenues as reflected in the order book will be achieved. In addition, even where a project proceeds as scheduled, it is possible that contracting parties may default and fail to pay amounts owed or receivables due. If any or all of these risks materialize, our business, prospects, reputation, profitability, financial condition and results of operation may be materially and adversely affected.

**2. *If we are not successful in managing our growth, our business may be disrupted and our profitability may be reduced.***

We have experienced high growth in recent years and expect our businesses to continue to grow significantly. We achieved a CAGR of 40.17% of revenue growth for the five year period ended March 31, 2017. Our future growth is subject to risks arising from a rapid increase in order volume, and inability to retain and recruit skilled staff. Although, we plan to continue to expand our scale of operations through organic growth or investments in other entities, we may not grow at a rate comparable to our growth rate in the past, either in terms of income or profit.

Our future growth may place significant demands on our management and operations and require us to continuously evolve and improve our financial, operational and other internal controls within our Company. In particular, continued expansion may pose challenges in:

- maintaining high levels of project control and management, and client satisfaction;
- recruiting, training and retaining sufficient skilled management, technical and bidding personnel;
- developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, internal control and other internal systems;
- making accurate assessments of the resources we will require;
- adhering to the standards of health, safety and environment and quality and process execution to meet clients' expectations;
- operating in jurisdictions and business segments where we have limited experience;
- preserving a uniform culture, values and work environment;
- strengthening internal control and ensuring compliance with legal and contractual obligations;
- managing relationships with clients, suppliers, contractors, investors, lenders and service providers; and
- supporting infrastructure such as IT and HR management systems.

If we are not successful in managing our growth, our business may be disrupted and profitability may be reduced. Our business, prospects, financial condition and results of operations may be adversely affected.

**3. *Our projects are exposed to various implementation and other risks and uncertainties.***

Some of our projects are under construction or development. The construction or development of these new projects involves various implementation risks including construction delays, delay or disruption in supply of raw materials, unanticipated cost increases, force majeure events, cost overruns or disputes with our clients. We may be further subject to regulatory risks, financing risks and the risks that these projects may ultimately prove to be unprofitable. In particular:

- we or our client/s may encounter unforeseen engineering problems, disputes with workers, force majeure events and unanticipated costs due to defective plans and specifications;
- we or our client/s may not be able to provide the required guarantees under project agreements or enter into financing arrangements due to lack of working capital;
- we or our client/s may not receive timely regulatory approvals and/or permits for development and operation of our projects, such as environmental clearances, mining, forestry or other approvals from the central or state environmental protection agencies and other unanticipated delays;
- we or our client/s may not be able to recover the amounts already invested in these projects if the assumptions contained in the feasibility studies for these projects do not materialize;
- we or our client/s may experience shortages of, and price increases in, materials and skilled and unskilled labour, and inflation in key supply markets;
- geological, construction, excavation, regulatory and equipment problems with respect to operating projects and projects under construction;
- we may be subject to risk of equipment failure or industrial accidents that may cause injury and loss of life, and severe damage to and destruction of property and equipment;
- other unanticipated circumstances or cost increases.

In addition, increase in the price of construction materials, fuel, labour and equipment, their availability and cost overruns could have an adverse effect on us and we may not receive discounts on our purchases. The cost of construction

materials, fuel, labour and equipment constitutes a significant part of our operating expenses. Our construction operations require various bulk construction materials including steel, cement, sand and aggregate. At certain times, there can be a scarcity of raw materials, which may cause substantial increases in the prices of such raw materials. Transport of these raw materials is subject to various conditions beyond our control, including poor roads, inclement weather or industrial accidents. Further, if breakdowns of our equipment increase as we conduct more construction activities, the costs associated with maintaining such equipment will increase.

Our contracts to provide EPC services are mostly on the basis of a fixed price or a lump sum for the project as a whole, which may not always include escalation clauses covering any increased costs we may incur. We may suffer significant cost overruns or even losses in these projects due to unanticipated cost increases. We may have to bear risks associated with any increase in actual costs for construction activities exceeding the agreed work. If any of these risks materialize, they could adversely affect our profitability, which may in turn have an adverse effect on our overall results of operation.

In addition, while we intend to have insurance policies in place to cover such cost overruns, we cannot assure you that such cost will be adequate. We cannot assure you that our current or future projects will be completed, or, if completed, will be completed on time or within budget.

4. ***Substantial portion of our revenues has been dependent upon our few clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability.***

For the financial year ended March 31, 2017, our top five largest clients accounted for approximately 84.40% of our revenues from operations while for the financial years ended March 31, 2016 and 2015 our five largest clients accounted for approximately 85.18% and 90.61%, respectively of our revenues from operations. The loss of a significant client or clients would have a material adverse effect on our financial results. We cannot assure you that we can maintain the historical levels of business from these clients or that we will be able to replace these clients in case we lose any of them. Furthermore, major events affecting our clients, such as bankruptcy, change of management, mergers and acquisitions could adversely impact our business. If any of our major clients becomes bankrupt or insolvent, we may lose some or all of our business from that client and our receivable from that client would increase and may have to be written off, adversely impacting our income and financial condition.

5. ***We may be subject to liability claims or claims for damages or termination of contracts with our clients for failure to meet project milestones or defective work, which may adversely impact our profitability, cash flows, results of operations and reputation.***

Our contracts may contain provisions that subject us to liquidated damages for delays in completion of project milestones attributable to us, which are often specified as a fixed percentage of the contract value, subject to certain customary exceptions such as (i) occurrence and continuance of force majeure events, or (ii) delays that are caused due to reasons solely attributable to the client. Further, our clients are entitled to deduct the amount of damages from the payments due to us. During the construction period as well as the defect notification period after the completion of construction, we are usually required to remedy construction defects at our own risk and costs. Additionally, under the agreements entered into by us, we are usually required to indemnify our clients against all actions, proceedings, claims, liabilities, damages, losses and expenses due to failure on our part to perform our obligations under the contracts. Further, we are also required to provide performance guarantees for some of our projects as per the terms of the contracts.

In addition to monetary penalties, any such failure to meet project schedules or defective work may subject us to adverse reputational impact. The client may also be entitled to terminate the agreement in the event of delay in completion of the work if the delay is not on account of any of the agreed exceptions. With respect to some of our projects, in the event of termination for any of the aforesaid reasons, we may only receive partial payments under such agreements and such payments may be less than our estimated cash flows from such projects.

In addition to the risk of termination by the client, delays in completion of construction may result in cost overruns, lower or no returns on capital and reduced revenue for the client thus impacting the project's performance, which in turn may adversely impact our reputation, cash flows, results of operations and profitability. While there may have been instances of delays to our projects on account of various factors including unavailability or shortage of labour, shortage of raw materials and adverse weather conditions, till the date of the Prospectus, we have not been subjected to liquidated damages. However, there can be no assurance that we would not be subjected to any such monetary penalties in the future. Any such penalties may adversely impact our reputation, profitability, financial position, cash flows, results of operations and future prospectus.

6. ***The sector in which we operate is capital intensive in nature, and involve relatively long gestation periods. We require substantial financing for our business operations and the failure to obtain additional financing on terms commercially acceptable to us may adversely affect our ability to grow and our future profitability.***

Projects in the sector in which we operate typically are capital intensive, involve relatively long gestation periods, and require us to obtain financing through various means. Whether we can obtain such financing on acceptable terms which is dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investors' confidence, our levels of existing indebtedness and other factors beyond our control as well as on the timely completion of our projects.

The actual amount and timing of our future capital requirements may differ from estimates as a result of, among other things, unforeseen delays or cost overruns, changes in business plans due to prevailing economic conditions, unanticipated expenses and regulatory changes. To the extent our planned expenditure requirements exceed our available resources, we will be required to seek additional debt or equity financing. Additional debt financing could increase our interest costs and require us to comply with additional restrictive covenants in our financing agreements. Additional equity financing could dilute our earnings per Equity Share and your interest in the Company, and could adversely impact our Equity Share price.

Our ability to obtain additional financing on favorable terms, if at all, will depend on a number of factors, including our future financial condition, results of operations and cash flows, the amount and terms of our existing indebtedness, general market conditions and market conditions for financing activities and the economic, political and other conditions in the markets where we operate.

We cannot assure you that we will be able to raise additional financing on acceptable terms in a timely manner or at all. Our failure to renew arrangements for existing funding or to obtain additional financing on acceptable terms and in a timely manner could adversely impact our planned capital expenditure, our business, results of operations and financial condition.

7. ***We have issued Equity Shares during the last one year from the date of filing of the Prospectus at a price that is below the Issue Price.***

During the last one year from the date of filing of the Prospectus we have issued Equity Shares at a price that is lower than the Issue Price as detailed in the following table:

<b>Date of allotment</b>	<b>Number of Equity Shares allotted</b>	<b>Face value (₹)</b>	<b>Issue Price (₹)</b>	<b>Nature of Consideration</b>	<b>Nature of allotment</b>	<b>% of Pre-Issue Equity Share Capital</b>	<b>% of Post-Issue Equity Share Capital</b>

For further details of the aforesaid allotment please refer "Capital Structure" on page 52.

8. ***We have a substantial amount of outstanding indebtedness, which requires significant cash flows to service and limits our ability to operate freely.***

As of March 31, 2017 the outstanding principal amount of our total borrowings was ₹639.21 lakhs. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated by our business. Increasing level of our indebtedness also has important consequences to us such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- limiting our ability to borrow additional funds; and
- increasing our interest expenditure.

We cannot assure you that we will generate sufficient cash to service existing or proposed borrowings or fund other liquidity needs, which could have an adverse effect on our business, results of operation, cash flows and financial condition.

9. ***Any failure to comply with financial and other restrictive covenants imposed on us under our financing agreements may adversely affect our operational flexibility, business, results of operations and prospects.***

As on March 31, 2017, our total secured borrowings amounted to ₹594.23 lakhs. Our leverage has several important consequences, including the following:

- a portion of our cash flow will be used towards repayment of debt, which will reduce the availability of cash to fund working capital requirements, capital expenditures and other general corporate purposes;
- our borrowing cost and the existence of encumbrances on a significant portion of our properties may constrain our ability to raise incremental financing in the future, at commercially reasonable terms;
- fluctuations in interest rates may affect our cost of borrowing, as all or a substantial part of our borrowings is at floating rates of interest; and
- our financing agreements require us to obtain the consent of, or to intimate, our lenders for certain actions relating to issuance of new shares, changes in capital structure, making material changes to constitutional documents, incurring further indebtedness, encumbrances on or disposal of assets, paying dividends and making investments over certain thresholds. Furthermore, some of our financing arrangements specify that upon the occurrence of an event of default, the lender shall have the right to, *inter alia*, cancel the outstanding facilities available for drawdown, declare the loan to be immediately due and payable with accrued interest and enforce rights over the security created. There can be no assurance that we will be able to comply with these restrictive covenants, or that we will be able to obtain the consents necessary to proceed with the actions which we believe are necessary to operate and grow our business, which may in turn have a material adverse effect on our business and operations.

The termination of, or declaration or enforcement of default under, any current or future financing agreement (if not waived or cured) may affect our ability to raise additional funds or renew maturing borrowings to finance our existing operations and pursue our growth initiatives and, therefore, have an adverse effect on our business, results of operations and prospects.

We cannot provide any assurance that our lenders will not enforce their rights relating to our breach of restrictive covenants, or grant us waivers with respect to any such breaches. In the event that any lender seeks the accelerated repayment of any such loan or seeks to enforce any other rights against our Company, it may have a material adverse effect on our business, cash flows and financial condition. For further information on the indebtedness of our Company, please refer “*Financial Indebtedness*” on page 160.

10. ***Our business is concentrated in Maharashtra and Goa and may be affected by various factors associated with Maharashtra and Goa.***

Our project portfolio has historically been concentrated in projects in and around Maharashtra and Goa. As of March 31, 2017, projects in Maharashtra and Goa accounted for 100.00% of our order book. Contract revenue from our projects in Maharashtra and Goa accounted for 57.87%, 44.07%, 48.14% and 100.00% of our total contract revenue for the four Financial Years ended March 31, 2013, 2014, 2015 and 2016, respectively. This concentration of our business in Maharashtra and Goa subjects us to various risks, including but not limited to:

- regional slowdown in construction activities or reduction of infrastructure projects in Maharashtra and/or Goa;
- vulnerability to change of policies, laws and regulations or the political and economic environment of Maharashtra and/or Goa;
- constraint on our ability to diversify across states;
- perception by our potential clients that we are a regional construction company, which hampers us from competing for large and complex projects at the national level; and
- limitation on our ability to implement the strategy to cluster projects in the states where we intend to conduct business.

While we strive to diversify across states and reduce our concentration risk, there is no guarantee that the above factors associated with Maharashtra and/or Goa will not continue to have a significant impact on our business. If we are not able to mitigate this concentration risk, we may not be able to develop our business as we planned and our business, financial condition and results of operations could be materially and adversely affected.

11. ***We may be unable to identify or acquire new projects and our application / proposal for new projects may not always be successful, which may restrict our business growth.***

Undertaking new projects depends on various factors such as our ability to identify projects on a cost effective basis or integrate acquired operations into our existing business. Projects are awarded following competitive selection processes and satisfaction of other prescribed qualification criteria. Where we cannot qualify for a project on a standalone basis, we may collaborate with other construction companies to undertake the project on a joint and several basis. Our collaboration with a joint venture partner is often subject to various factors beyond our control. In addition, due to factors beyond our control, application procedures and criteria may be changed without our notice and even in our disfavour and we may be disqualified due to such changes. We cannot assure you that we would be selected where we are qualified to submit a proposal, that we can collaborate well with our joint venture partner to submit a proposal successfully, that we will remain qualified during the selection process, that our proposal, when submitted or if already submitted, would be accepted or that we could be awarded the project we have applied for. Further, there may be delays in the selection process owing to a variety of reasons which may be outside our control and our proposals, once selected, may not be finalized within the expected time frame.

12. ***Our Promoter and members of Promoter Group have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoter and members of Promoter Group in connection with our Company's borrowings.***

Our Promoter, Chairman and Managing Director, Pradeep Khandagale and our Executive Director Rajashri Khandagle (spouse of our Promoter) have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by Pradeep Khandagale and Rajashri Khandagle in connection with our Company's borrowings.

13. ***Our Company, our Promoter and certain of our Directors are involved in certain legal proceedings, which, if determined adversely, may adversely affect our business, results of operations and prospects.***

If any adverse developments arise, for example, a change in Indian law or rulings against us by the appellate courts or tribunals, we may face losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities.

Any adverse ruling in any of the above proceedings or consequent levy of penalties by other statutory authorities may render us / them liable to liabilities / penalties and may have a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For further details regarding these legal proceedings, please refer ‘Outstanding Litigations and Material Developments’ on page 163.

**14. Our Company has availed certain unsecured loans that are recallable by the lenders at any time.**

Our Company has availed certain unsecured loans that are recallable on demand by the lenders. For further details of these unsecured loans, please refer “Financial Indebtedness” on page 160. In case of any demand from lenders for repayment of such unsecured loans, the resultant cash outgo, may adversely affect our business operations and financial position of our Company.

**15. We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favorable terms may have an adverse effect on our operations, profitability and growth prospects.**

We operate in a working capital intense industry therefore our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our additional working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, at a future date, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

**16. Any variation in the utilisation of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders’ approval.**

We propose to utilize the Net Proceeds to meet additional working capital requirements. For further details of the proposed objects of the Issue, please refer “Objects of the Issue” on page 62.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders’ approval may adversely affect our business or operations. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to

undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

**17. *Obsolescence, destruction, theft, breakdowns of our major plants or equipment or failures to repair or maintain the same may adversely affect our business, cash flows, financial condition and results of operations.***

We own majority of the plants and equipment used in our operations. To maintain our capability to undertake projects, we may have to purchase plants and equipment built with the latest technologies and knowhow and keep them readily available for our construction activities through careful and comprehensive repairs and maintenance. We have not installed global positioning systems in our major pieces of equipment to protect them against theft. We cannot assure you that we will be immune from the associated operational risks such as the obsolescence of our plants or equipment, destruction, theft or major equipment breakdowns or failures to repair our major plants or equipment, which may result in their unavailability, project delays, cost overruns and even defaults under our construction contracts. The latest technologies used in newer models of construction equipment may improve productivity significantly and render our older equipment obsolete.

Obsolescence, destruction, theft or breakdowns of our major plants or equipment may significantly increase our equipment purchase cost and the depreciation of our plants and equipment, as well as change the way our management estimates the useful life of our plants and equipment. In such cases, we may not be able to acquire new plants or equipment or repair the damaged plants or equipment in time or at all, particularly where our plants or equipment are not readily available from the market or requires services from original equipment manufacturers. Some of our major equipment or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability of bulk discounts. Such obsolescence, destruction, theft, breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an adverse effect on our business, cash flows, financial condition and results of operations.

**18. *Our results of operations could be adversely affected by strikes, work stoppages or increased wage demands by our employees or other disputes with our employees or our sub-contractors' employees.***

Our operations are dependent on labour force. None of our employees are affiliated with any labour unions. However, there can be no assurance that our employees will not form a union, join any existing union or otherwise organize themselves. India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Although, we currently have harmonious relations with our employees and they are not unionized at present, there can be no assurance that we will continue to have such relations. If our relations with our employees are strained, it may become difficult for us to maintain our existing labour policies, and our business may be adversely affected.

**19. *Changing estimates in applying percentage-of-completion accounting may result in a reduction of previously reported profits and have a significant impact on our period-to-period results of operations.***

We use the percentage-of-completion method of accounting in accordance with Indian GAAP to recognize and account for the revenue derived from our construction contracts in process. Under this accounting method, we recognize revenue as a percentage of the contract price in proportion to the actual costs incurred as a percentage of the total estimated costs. The timing of our recognition of revenue may differ materially from the timing of our actual receipt of contract payments. The timing of our recognition of revenue and the amount of revenue recognized are affected by our ability to reliably measure the percentage of completion, total estimated costs and actual costs incurred. Changing estimates in our measurements for any given project or in our estimation methodology as a whole could have a material and adverse effect on the timing of our recognition of revenue and the amount of revenue recognized. Where our expectation related to revenue recognition is different from our previous estimation, the differences will be charged to our profit or loss account in the period when such estimate has been changed. To the extent that changes in such estimate result in a reduction of previously reported profits for a project, we must recognize a charge against current earnings in the period when such estimate is changed. These charges may significantly reduce our earnings, depending on the size of the adjustment. In addition, because many of these contracts are completed over a period of several months or years, the timing of our recognition of the related revenue may adversely affect our results of operations. Moreover, in the event of any change in law or Indian GAAP that would result in a change to the method of revenue recognition, our results of operations may be materially and adversely affected.

**20. *We may rely on our collaborators to qualify and apply for new projects and the failure of a collaborator to perform its obligations could impose additional financial and performance obligations on us.***

Most large and complex infrastructure projects are awarded by the Government or State Governments or their respective authorized agencies following competitive bidding processes and satisfaction of certain prescribed pre-qualification criteria. In selecting contractors for major projects, clients generally limit the tender to contractors that have pre-qualified based on several criteria including experience in executing large projects, strong engineering capabilities for technically complex projects, the ability to take on further projects and sufficient financial resources or ability to access funds. In particular, our net worth and project experience may constrain our ability to apply for certain types of projects on a standalone basis, particularly as such projects become larger and qualification criteria, such as those for net worth and project experience, become more stringent. If we are not able to qualify in our own right to apply for large infrastructure development projects, we may partner and collaborate with other construction companies in tendering application / proposal for such projects. In the past, we have collaborated with other companies to undertake projects in Maharashtra and Goa. We face competition from other applicants in a similar position to us in looking for suitable collaborators / joint venture partners with whom to partner in order to meet the pre-qualification criteria. If we are unable to partner with other companies, or lack the credentials to be the partner-of-choice for other companies, we may lose the opportunity to apply for, and therefore fail to increase or maintain our volume of new projects, which could affect our growth and prospects.

Further, we may be more reliant on our collaborators where we have limited experience. We may also be subject to joint and several liabilities in these projects. We may have disagreements with our collaborators / joint venture partners regarding the business and operations of the collaboration / joint ventures. We cannot assure you that we will be able to resolve such disputes in a manner that will be in our best interests. Our collaborators / joint venture partners may take actions which may be in conflict with our and our shareholders' interests or take actions contrary to our instructions or requests or contrary to the policies and objectives. If we are unable to successfully manage relationships with our collaborators / joint venture partners, our projects and our profitability may suffer. In addition, our collaborators / joint venture partners may have economic or business interests or goals that are inconsistent with ours. Any of these factors could adversely affect our business, financial condition and results of operations and business prospects.

**21. *Our revenues from our projects are difficult to predict and are subject to seasonal variations.***

Revenue from a construction project may vary widely and is dependent on various factors such as the current stage and size of the project, the scheduled commencement date, the price and supply of raw materials and project delays. The scheduled commencement date for our projects are estimates based on current expectations and market conditions, which could change significantly. Our revenue may also differ significantly from period to period due to factors such as number of new projects, delays or difficulties in expanding our business, changes to our pricing structure or that of our competitors, inaccurate estimates of resources and time required to complete ongoing contracts and currency fluctuations. These factors may make it difficult for us to prepare accurate internal financial forecasts. In addition, since we record revenues using the percentage of completion method and revenues are not recognized until there is reasonable progress on a contract, revenues recorded in the first half of our financial year between April and September are traditionally less compared to revenues recorded during the second half of our financial year. As a result, our revenues and profits may vary significantly during different financial periods, and certain periods are not indicative of our financial position for the year, and may be significantly below the expectations of the market, analysts and investors.

**22. *We are dependent on the availability and prices of steel and ready-mix concrete. Any lack of availability or upward fluctuations in the price of steel, cement, tiles, and ready-mix concrete or our ability to pass on any increased costs of raw materials to our clients may have a material adverse effect on our business, cash flows, results of operations and financial condition.***

The key raw materials required for our business are steel, cement, tiles, and ready-mix concrete. We are dependent on third party suppliers for our raw materials including steel, cement, tiles, and ready-mix concrete. Discontinuation of supply by these suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality and quantity or lack of alternatives in market could hamper our schedules and therefore affect our business and results of operations. This dependence may also adversely affect the availability of key materials at reasonable prices thus affecting our margins and may have an adverse effect on our business, results of operations and financial condition.

There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in shortages or delays in their supply of raw materials. We cannot assure you that a particular supplier will

continue to supply the required components or raw materials to us in the future. Any change in the supplying pattern of our raw materials can adversely affect our business and cash flows. There can be no assurance that we will be able to continue to pass on increased costs of raw materials to our clients. Any failure to pass on increased costs of raw materials to our clients in future, may require to be borne by us which in turn may adversely affect our business, cash flows and results of operations.

**23. *Our business may be affected by severe weather conditions and other natural disasters and our insurance coverage may not be adequate.***

Our business activities may be materially and adversely affected by severe weather conditions, which may force us to evacuate personnel or curtail services, replace damaged equipment and facilities or suspend our operations or postpone delivery of materials to our worksites. Heavy or sustained rainfalls or other extreme weather conditions such as cyclones could result in delays or disruptions to our operations during the critical periods of our projects and cause severe damages to our premises and equipment. High temperatures during summer months and the monsoon season could limit our ability to carry on construction activities or to fully utilize our resources. Our business activities may also be adversely affected by other natural disasters, including earthquakes, floods, and landslides, which may cause significant interruptions of our operations and damages to our properties and working environment which may not be adequately covered by the insurance policies availed by our Company. During periods of curtailed activity due to severe weather conditions or natural disasters, we may continue to incur operating expenses but our revenues from operations may be delayed or reduced.

**24. *Our success depends largely on our senior management and skilled professionals and our ability to attract and retain them.***

Our success depends on the continued services and performance of the members of our senior management team and other key employees. Our continued success also depends upon our ability to attract and retain a large group of skilled professionals and staff, particularly project managers, engineers, and skilled workers. The loss of the services of our senior management or our inability to recruit, train or retain a sufficient number of skilled professionals could have a material adverse effect on our operations and profitability. Competition for senior management in our industry in which we operate is intense, and we may not be able to retain our existing senior management or attract and retain new senior management in the future. Moreover, we do not maintain “key man” life insurance policies for senior members of our management team or other key personnel. As a result of the recent growth in the construction industry in India and the expected future growth, the demand for both skilled professionals and staff and unskilled workers has significantly increased in recent years. We may lose skilled workers to competing employers who pay higher wages or be forced to increase the wages to be paid to our employees. If we cannot hire or retain enough skilled professionals or unskilled workers, our ability to apply for and execute new projects or to continue to expand our business will be impaired and consequently, our revenues could decline. Any such loss of the services of our senior management personnel or skilled professionals could adversely affect our business, prospects, financial condition and results of operation.

**25. *Our Promoters, Directors and Key Managerial Personnel of our Company may have interests in us other than reimbursement of expenses incurred or normal remuneration or benefits.***

Our Promoter is interested in us to the extent of any transactions entered into or his shareholding and dividend entitlement in us. Our Directors are also interested in us to the extent of remuneration paid to them for services rendered as our Directors and reimbursement of expenses payable to them. Pradeep Khandagale and Rajashri Khandagale our Chairman and Managing Director and Executive Director, respectively have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. Our Directors may also be interested to the extent of any transaction entered into by us with any other company or firm in which they are directors or partners or in their individual capacity. For further details, please refer “Our Management” on page 97.

**26. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.***

We have entered into related party transactions with our Promoter, Promoter Group, Group Entities and Directors. For details of these transactions, please refer “Related Party Transactions” on page 116.

We cannot assure you that we will be able to maintain the terms of such transactions or in the event that we enter future transactions with related parties, that the terms of the transactions will be favorable to us. Additionally, while it is our belief that all our related party transactions have been conducted on an arm’s-length basis, we cannot provide assurance

that we could have achieved more favorable terms had such transactions been entered with third parties. We may also enter related party transactions in the future, which could involve conflicts of interest, although going forward, all related party transactions that we may enter will be subject to audit committee or board or shareholder approval, as applicable, as under the Companies Act, 2013 and the SEBI (LODR) Regulations. As such, we can provide no assurance that these transactions will not adversely affect our business, results of operation, cash flows and financial condition.

**27. *Our Registered office is not owned by us.***

Our Company has taken our registered office on leave and license basis from Dhairyasheel Shivajirao Deshmukh for a period of 44 (Forty-four) months commencing from April 1, 2015 until November 30, 2018. There can be no assurance that our Company will be able to successfully renew the said leave and license agreement in a timely manner or at all. Further there can be no assurance that we will not face any disruption of our rights as a licensee and that such leave and license agreement will not be terminated prematurely by the licensor. Any such non-renewal or early termination or any disruption of our rights as licensee may require us to vacate the premises and relocate to a new premises on terms that may not be favourable to us thereby adversely affecting our business, financial conditions and results of operations. For further details on the properties of our Company, please refer to the section titled “*Immovable Properties*” appearing under “*Our Business*” on page 79.

**28. *Our group companies has incurred the losses in the last three financial years***

Some of our Group Companies namely Unicon Vastu India Private Limited and Unique Vastu Nirman & Projects Private Limited has incurred losses during last 3 financial years. The details of the same were as under:

Name of the Company	Profit/ (Loss) after Tax (in ₹)		
	2015-16	2014-15	2013-14
Unicon Vastu India Private Limited	(23,125)	(44,184)	(14,818)
Unique Vastu Nirman and Projects Private Limited	Nil	(65,551)	Nil

**29. *Our business could be adversely affected if we fail to keep pace with technological developments in the construction industry.***

Our recent experience indicates that our clients are increasingly developing larger, more technically complex projects using more advanced technologies. Our future success will depend, in part, on our ability to respond to technological advances and emerging technology standards and practices on a cost-effective and timely basis. To meet our clients’ needs, we must continuously update our existing systems and develop new technologies for our projects. In addition, rapid and frequent technological and market demand changes can often render existing technologies and equipment obsolete and result in requirements for additional and substantial capital expenditures and/or significant write downs of our assets. The cost of upgrading or implementing new technologies, upgrading our existing equipment or expanding capacity could be significant. If we fail to anticipate or respond adequately to our clients’ changing requirements or keep pace with the latest technological developments, our business, prospects, financial condition and results of operations may be materially and adversely affected.

**30. *We rely on our information technology systems for our operations and its reliability and functionality is critical to our business success. Any interruption or abnormality in the same may have an adverse impact on our business operations and profitability.***

We rely on our information technology systems for our operations and its reliability and functionality is critical to our business success. Information technology (“IT”) is part of almost every aspect of our operations, from business planning to project management and from recruitment to procurement. Our IT systems have become a core underpinning of all aspects of our operations. Our growing dependence on the IT infrastructure, applications, and data has caused us to have a vested interest in its reliability and functionality, which can be affected by a number of factors, including: (A) *Increasing Complexity of the IT systems*: Our IT systems are expected to deliver a full range of information, including data, voice and video services, to a wide range of users through computer workstations without needing special equipment or dedicated private networks. The overall complexity of our IT systems will grow as technology continues to advance, IT system capabilities expand, user expectations increase and business practices change; (B) *Frequent Change and Short Life Span*: Our IT systems require frequent innovation and change. A high rate of change may cause our IT systems to have a short life span, given that users may demand new IT features and capabilities on a frequent basis; (C) *Data Security*: Hacking, data theft, and other unethical or illegal acts become a greater threat as more people use our IT systems and we put more sensitive information in it, including financial data. The need to protect our IT systems has thus

greatly increased. Unfortunately, increased security requirements can increase costs and hamper user access to needed information; (D) *Funding*: Our IT projects, like most other projects, must compete for limited funding. Our IT systems now require a larger share of capital and operational funds. However, the systems may become effectively obsolete in a few years despite our substantial investment; (E) *IT Staff*: Acquiring and retaining the trained IT staff is a challenge. We must compete for talented staff with very specialized skills. Even if we train our IT staff members well, they may choose to leave for a variety of reasons.

If our IT systems malfunction or experience extended periods of down time, we will not be able to run our operations safely or efficiently. We may suffer losses in revenue, reputation and volume of business and our financial condition and results of operation may be materially and adversely affected.

In addition, we are in the process of upgrading our operational system by installing and implementing an ERP system to track the raw materials and components that are supplied to us and the progress and status of our projects, monitor the efficiency of our workers and allocate work among our construction teams. The ERP system will enable us to monitor the daily operation of our business, compile, store and transmit data on supply and production within our Company and for our clients, and maintain upto-date operating and financial data for the compilation of management accounts. Any damage or system failure that causes interruptions or delays in the input, retrieval or transmission of data could disrupt our normal operations and possibly interfere with our ability to undertake projects pursuant to the requirements or our contracts. Should such an interruption or delay occur, we cannot assure you that it will not result in the loss of data or information that is important to our business or that we will be able to restore our operational capacity within a sufficiently adequate time frame to avoid disruptions to our business. In addition, we may not be able to upgrade or install our ERP system in a timely manner that is sufficient to meet the needs of our evolving business and operations or at all. The occurrence of any of these events could interfere with the operation of our business and adversely affect our business, financial condition and results of operations.

31. ***Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.***

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control.

32. ***Our Company's management will have flexibility in utilizing the Net Proceeds. There is no monitoring agency appointed by our Company and the deployment of funds is at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.***

The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. As per SEBI (ICDR) Regulations, 2009, as amended, appointment of monitoring agency is required only for Issue size above ₹ 50,000.00 lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the National Stock Exchange of India Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

33. ***We have not made firm arrangements with any financial institution for funding of our balance working capital requirements for the proposed project. The failure to obtain additional financing may adversely affect our ability to grow and our future profitability.***

Additional working capital requirement has been estimated at ₹469.97 lakhs for the proposed project, of which ₹426.30 lacs would be funded out of the Issue Proceeds, whereas the balance amount i.e. ₹43.67 lakhs would be arranged by way of borrowings or internal accruals. However, as on date of the Prospectus our Company has not identified any alternate

source of funding for our working capital requirement. Our Company cannot assure you that we will be able to raise such additional financing on acceptable terms in a timely manner or at all. Any failure or delay on our part to mobilize the required resources or any shortfall in the Issue Proceeds can adversely affect our growth plan and profitability. For further details of our working capital requirement, please refer “*Object for the Issue*” on page 62.

34. ***Our Company have not yet placed orders for equipment and tools aggregating ₹82.00 lacs required by us for the proposed operations. Any delay in placing the orders / or supply of equipment and tools may result in time and cost overruns, and may affect our profitability.***

Our Company proposes to acquire equipment and tools aggregating ₹82.00 lakhs for our proposed operations which is approximately 13.69% of the Issue Proceeds. Our Company have not yet placed orders for equipment and tools aggregating ₹82.00 lakhs required by us which constitutes 100% of the total equipment and tools propose to be acquired. Our Company is further subject to risks on account of inflation in the price of equipment and tools.

Our Company has received quotations for these equipment and tools, and negotiations with the vendors have commenced. The details of quotations received appear in paragraph titled ‘*Plant and Machinery*’ under the section titled ‘*Objects of the Issue*’ on page 62. Since the funding for the equipment and tools is solely from the IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders. The purchase of equipment and tools would require us to consider factors including but not limited to pricing, delivery schedule and after-sales maintenance. There may also be a possibility of delay at the suppliers’ end in providing timely delivery of these machineries, which in turn may delay the implementation of our project.

35. ***We have experienced negative cash flows in the past. Any such negative cash flows in the future could adversely affect our business, results of operations and prospects.***

The following table sets forth our cash flow for the periods indicated:

<b>Particulars</b>	<b>For the financial year ended March 31</b>		
	<b>2017</b>	<b>2016</b>	<b>2015</b>
Net Cash from Operating Activities	212.23	23.73	(22.72)
Net Cash from Investing Activities	(274.15)	(35.19)	(97.11)
Net Cash from Financing Activities	4.18	112.11	146.10

(₹ in lakhs)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. Such negative cash flows lead to a net decrease in cash and cash equivalents for Fiscals 2017, 2016 and 2015. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares. For further details, please refer “*Financial Statements*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 118 and 152, respectively.

36. ***We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.***

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer “*Dividend Policy*” on page 117.

37. ***Some of our Group Entities operate in the same line of business as us, which may lead to competition with such Group Entities.***

Some of our Group Entities are either involved in line of business that may potentially compete with our Company or are authorized to carry out business, similar to that of our Company. We may hence have to compete with our Group Entities for business, which may impact our business, financial condition and results of operations. The interests of our Promoter may also conflict in material aspects with our interests or the interests of our shareholders. For further details, please refer “*Group Entities*” on page 111. Further, our Promoter may become involved in ventures that may potentially compete with our Company. The interests of our Promoter may conflict with the interests of our other Shareholders and

our Promoter may, for business considerations or otherwise, cause our Company to take actions, or refrain from taking actions, in order to benefit himself instead of our Company's interests or the interests of its other Shareholders and which may be harmful to our Company's interests or the interests of our other Shareholders, which may impact our business, financial condition and results of operations.

We have not entered into any non-compete agreement with our Promoter and our Group Entities. We cannot assure you that our Promoter or our Group Entities or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition.

38. ***We procure Projects / Contracts on the basis of pre-qualification criteria and competitive selection processes. We face intense competition from our competitors including on account of competitive proposal quoted by them.***

In selecting contractors / sub-contractors for the project, clients generally limit the tender to contractors that prequalifies based on several criterion including project execution experience, technical strength, performance capabilities, quality standards, ability to execute the project within the prescribed timeframe, etc. Disqualification on any of these grounds will make us ineligible for submitting proposals. These pre-qualification criteria are at the discretion of the clients and we cannot assure that we would continue to meet the pre-qualification criterion of our existing or prospective clients. Further, even if we meet the prequalification criterias, there is no assurance that we will be able to quote most competitive / lowest proposal amongst all applicants so that we get the contracts. These factors may limit us in getting contracts and resultantly our revenues and profitability may get declined.

39. ***We have not obtained the registration of our trademarks used in our businesses and our inability to obtain or maintain these registrations may adversely affect our competitive business position.***

Our Corporate logo “ UNIVASTU” is not registered and we do not enjoy the statutory protections accorded to a registered trademark and are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party.

Our Company has filed applications for the logo of our Company with the Trade Marks Registry at Mumbai, for registration under various classes including, classes 19, 36 and 37 under the Indian Trademarks Rules, 2002. For further details, please refer “*Business – Intellectual Property*” on page 86. The application is currently pending registration. The registration of any trademark is a time-consuming process, and there can be no assurance that any such registration will be granted as and when applied. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property. These trademarks are integral to our business, and the loss of any of these intellectual property rights could have a material adverse effect on our business.

There can be no assurance that we will be able to obtain the registration of our trademarks in a timely manner, or at all. If any of our unregistered trademarks are registered in favour of a third party, we may not be able to claim registered ownership of such trademarks and consequently, we may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities. If our application is objected to, we will not have the right to use this trademark or prevent others from using this trademark or its variations. Our inability to obtain or maintain this trademark in our business thus could adversely affect our reputation, goodwill, business, prospectus and results of operations.

40. ***We require certain registrations, licenses, approvals and permissions from government and regulatory authorities in the ordinary course of our business and any delay or failure to obtain them may adversely affect our operations.***

We require certain statutory and regulatory approvals, licenses, registrations and permissions, and applications need to be made at the appropriate stages for our business to operate. In our construction business, government delays in obtaining approvals may result in cost increases in the price of construction materials from original estimates which cannot generally be passed on to clients and may also adversely affect our ability to mobilize our equipment and manpower. There can be no assurance that the relevant authorities will issue these approvals or licenses, or renewals thereof in a timely manner, or at all. We may experience delays in obtaining financial closures, locking in interest rates under loan agreements, or completing work according to schedules. As a result, we may not be able to execute our business plan as planned. An inability to obtain or maintain approvals or licenses required for our operations may adversely affect our

operations. Government approvals, licenses, clearances and consents are often also subject to numerous conditions, some of which are onerous and may require significant expenditure. Furthermore, approvals, licenses, clearances, and consents covering the same subject matter are often required at both the Central Government and State Government levels. If we fail to comply, or a regulator claims that we have not complied, with these conditions, we may not be able to commence or continue with work or operate these projects. For further information on various approvals or licenses required in connection with our operations, please refer “*Government and Other Approvals*” on page 168.

Further, we were a private limited company and after complying with the relevant provisions under Companies Act, 2013, we have been converted into a public limited company with the name “*Univastu India Limited*” in May 2017. In view of change of name of our Company, we are yet to obtain / change the necessary registrations, permissions and approvals etc. under our new name. In case we fail to transfer/obtain the same in name of the company it may adversely affect our business or we may not be able to carry our business.

**41. *Our Promoter and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.***

Upon completion of this Issue, our Promoter and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoter will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Our Promoter will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoter could conflict with the interests of our other equity shareholders, and the Promoter could make decisions that materially and adversely affect your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. Except as disclosed in “*Capital Structure*” on page 52, we cannot assure you that our Promoter will not dispose of, pledge or encumber their Equity Shares in the future.

**42. *Our insurance coverage may not be sufficient or may not adequately protect us against any or all hazards, which may adversely affect our business, results of operations and financial condition.***

Our Company believes that its insurance coverage is adequate and consistent with industry standards. Our principal types of coverage include vehicle insurance, group health guard insurance, employee compensation insurance, contractors plant and machinery insurance. While we believe that the insurance coverage which we maintain is in keeping with industry standards and would be reasonably adequate to cover the normal risks associated with the operation of our businesses, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses.

In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected. For further details on our insurance arrangements, please refer “*Our Business – Insurance*” on page 87.

**43. *The requirements of being a listed company may strain our resources.***

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (LODR) Regulations, which require us to file audited / unaudited reports periodically with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures

and internal control over financial reporting, for which significant resources and management overview will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate and relevant experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner or at all.

## EXTERNAL RISKS

### 44. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

Our performance, growth and market price of our Equity Shares are and will be dependent on the health of the Indian economy. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, cash flows and financial condition. Also, a change in the Government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

### 45. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.*

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or impose onerous requirements on our business.

For example, the new Companies Act, 2013 contains significant changes to Indian company law, including in relation to the issue of capital by companies, disclosures in offer documents, related party transactions, corporate governance, audit matters, internal controls, shareholder class actions, restrictions on the number of layers of subsidiaries, prohibitions on loans to directors, insider trading and restrictions on directors and key management personnel from engaging in forward dealing. Moreover, effective April 1, 2014, companies exceeding certain net worth, revenue or profit thresholds are required to spend at least 2% of average net profits from the immediately preceding three financial years on corporate social responsibility projects, failing which an explanation is required to be provided in such companies' annual reports.

The Government of India has issued the Income Computation and Disclosure Standards ("ICDS") that will be applied in computing taxable income and payment of income taxes thereon, applicable with effect from the assessment period for Fiscal 2017. ICDS shall apply to all taxpayers following an accrual system of accounting for the purpose of computation of income under the heads of "profits and gains of business or profession" and "income from other sources". Such specific standards for computation of income taxes in India are relatively new, and the impact of the ICDS on our results of operations and financial condition is uncertain.

The GoI has proposed a comprehensive national goods and services tax (the "GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited availability of information in

the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following the implementation of the GST.

We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in applicability, interpretation or implementation of any amendment to, or change in, law, regulation or policy, including due to an absence, or a limited body, of administrative or judicial precedent may be time consuming and costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

**46. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions), if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's or central government's prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

**47. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to an investor's assessment of our Company's financial condition.***

As stated in the reports of our Company's independent auditors included in the Prospectus, our Restated Financial Information is prepared and presented in accordance with the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, consistently applied during the periods stated, except as provided in such reports, and no attempt has been made to reconcile any of the information given in the Prospectus to any other principles or to base it on any other standards such as US GAAP or IFRS. Each of US GAAP and IFRS differs in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

**48. *Investors may have difficulty enforcing foreign judgments against us or our management.***

We are a limited liability company incorporated under the laws of India. All our directors and executive officers are residents of India and all of our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons outside of India, or to enforce judgments obtained against such parties outside of India.

Recognition and enforcement of foreign judgments is provided for under Section 13 of the Code of Civil Procedure, 1908 ("CPC") on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognise the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record.

However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Section 44A of the CPC provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the CPC is applicable only to monetary decrees not being of the

same nature as amounts payable in respect of taxes, other charges of a like nature or of a fine or other penalties.

The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action was brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if that court were of the view that the amount of damages awarded was excessive or inconsistent with public policy or Indian practice. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. However, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the FEMA to execute such a judgment or to repatriate any amount recovered.

### ***Risks Related to the Issue***

49. ***The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the EMERGE Platform of NSE may not develop or be sustained after the Issue. Our Company and the Lead Manager have appointed Inventure Growth & Securities Limited as Designated Market Maker for the Equity Shares of our Company. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in the EMERGE Platform of NSE, securities markets in other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

50. ***Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

51. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. It is pertinent to note that pursuant to the Finance Bill, 2017, it has been proposed, that with effect from April 1, 2017, this exemption would only be available if the original acquisition of equity shares was chargeable to STT. The Central Government is expected to, however notify the transactions which would be exempt from the application of this new amendment. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock

exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to applicable short term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident, subject to the availability of certain documents. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

## SECTION III – INTRODUCTION SUMMARY OF INDUSTRY

### Introduction

Source: <https://www.ibef.org/industry/infrastructure-sector-india.aspx>

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Mr Nitin Gadkari, Minister of Road Transport and Highways, and Shipping, has announced the government's target of Rs 25 trillion (US\$ 376.53 billion) investment in infrastructure over a period of three years, which will include Rs 8 trillion (US\$ 120.49 billion) for developing 27 industrial clusters and an additional Rs 5 trillion (US\$ 75.30 billion) for road, railway and port connectivity projects.

Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. In August 2016, India jumped 19 places in World Bank's Logistics Performance Index (LPI) 2016, to rank 35th amongst 160 countries.

### Industrial, Corporate and Infrastructure Sectors

**Source:** Economic Survey 2016-2017; Government of India, Ministry of Finance, Department of Economic Affairs, Economic Division, January, 2017

As per the first advance estimates of the CSO, growth rate of the industrial sector comprising mining & quarrying, manufacturing, electricity and construction is projected to decline from 7.4 per cent in 2015-16 to 5.2 per cent in 2016-17. During April-November 2016-17, a modest growth of 0.4 per cent has been observed in the Index of Industrial Production (IIP) which is a volume index with base year of 2004-05. This was the composite effect of a strong growth in electricity generation and moderation in mining and manufacturing. In terms of use-based classification, basic goods, intermediate goods and consumer durable goods attained moderate growth. Conversely, the production of capital goods declined steeply and consumer nondurable goods sectors suffered a modest contraction during April-November 2016-17.

The eight core infrastructure supportive industries, viz. coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity that have a total weight of nearly 38 per cent in the IIP registered a cumulative growth of 4.9 per cent during April-November, 2016-17 as compared to 2.5 per cent during April-November, 2015-16. The production of refinery products, fertilizers, steel, electricity and cement increased substantially, while the production of crude oil and natural gas fell during April-November, 2016-17. Coal production attained lower growth during the same period.

Most indicators of infrastructure related activities showed expansion during H1 2016-17. Thermal power with a growth of 6.9 per cent boosted overall power generation while hydro and nuclear power generation contracted marginally during April-September 2016.

## CONSTRUCTION INDUSTRY OVERVIEW

Source: <http://www.makeinindia.com/sector/construction>

Construction sector in India will remain buoyant due to increased demand from real estate and infrastructure projects. An investment of USD 1 Trillion has been projected for the infrastructure sector until 2017, 40% of which is to be funded by the private sector. 45% of infrastructure investment will be funnelled into construction activity and 20% set to modernise the construction industry.

Construction activities contribute more than 8% of India's GDP. USD 650 Billion will be required for urban infrastructure over the next 20 years. Some of the large government projects offer significant up-side thrust. 70% of the funding under SBM will be mobilised largely from private sector.

Second largest employer and contributor to economic activity, after agriculture sector. The construction sector accounts for second highest inflow of FDI after the services sector and employs more than 35 Million people.

50% of the demand for construction activity in India comes from the infrastructure sector, the rest comes from industrial activities, residential and commercial development etc. The Indian construction industry is valued at over USD 126 Billion.

Indian cities contribute significantly to India's GDP. As per a mid-term appraisal in 2012, the urban share of the GDP was 62% – 63% in 2009-10. This was further projected to increase to 70% – 75% in 2030.

In 2001, about 286 Million were living in urban areas across India. It had the second largest urban population in the world. As per the Indian Census, 2011, the urban population had increased to 377 Million, thereby registering a growth of around 32%. As per recent estimates, nearly 590 Million people will live in Indian cities by 2030.

Between 2005-08, the real estate sector grew by about 30% annually before slowing down significantly due to a 2008 global financial crisis. It grew by about 8% between 2009-11 and 6.5% in 2012-13.

As per industry estimates, the Indian real estate market is estimated to be approximately USD 78.5 Billion in 2013 and is expected to grow to approximately USD 140 Billion by 2017.

According to FICCI-EY Real Estate Report 2013, India's real estate requires about USD 42 Billion (excluding housing for economically weaker sections) in investments by 2015. Residential real estate alone will require an investment of USD 29 Billion.

Nearly half the additions to the Indian labour force over the period 2011-30 will be in the age group 30-49, adding to the demographic dividend.

The share of output and employment from manufacturing in India had hardly changed in the past 30 years. In contrast, the share of output from aggregate services rose dramatically over the last 30 years, from about 35% to more than 50% of GDP.

## ROAD INDUSTRY

Source: <https://www.ibef.org/industry/roads-india.aspx>

India has the second largest road network across the world at 4.7 million km. This road network transports more than 60 per cent of all goods in the country and 85 per cent of India's total passenger traffic. Road transportation has gradually increased over the years with the improvement in connectivity between cities, towns and villages in the country.

The Indian roads carry almost 90 per cent of the country's passenger traffic and around 65 per cent of its freight. In India sales of automobiles and movement of freight by roads is growing at a rapid rate. Cognizant of the need to create an adequate road network to cater to the increased traffic and movement of goods, Government of India has set earmarked 20 per cent of the investment of US\$ 1 trillion reserved for infrastructure during the 12th Five-Year Plan (2012–17) to develop the country's roads.

The value of roads and bridges infrastructure in India is projected to grow at a Compound Annual Growth Rate (CAGR) of 17.4 per cent over FY12–17. The country's roads and bridges infrastructure, which was valued at US\$ 6.9 billion in 2009 is expected to touch US\$ 19.2 billion by 2017.

The construction of highways had reached an all-time high of 6,029 km during FY 2015-16, and the increased pace of construction is expected to continue for the coming years.

The financial outlay for road transport and highways grew at a CAGR of 12.5 per cent between FY2010-2016. The plan outlay for FY2016-17 stepped up budgetary support for Road Transport and Highways to Rs 97,000 crore (US\$ 14.46 billion).

### **Road Ahead**

The Government of India has made a record allocation Rs 221,246 crore (US\$ 33.07 billion) for several infrastructure projects in Union Budget 2016-17, which is expected to provide significant boost to Indian infrastructure sector.

Indian port sector is poised to mark great progress in the years to come. It is forecasted that by the end of 2017 port traffic will amount to 943.06 MT for India's major ports and 815.20 MT for its minor ports.

Along with that, Indian aviation market is expected to become the third largest across the globe by 2020, according to industry estimates. The sector is projected to handle 336 million domestic and 85 million international passengers with projected investment to the tune of US\$ 120 billion. Indian Aviation Industry, which currently accounts for 1.5 per cent of the gross domestic product (GDP), has been instrumental in the overall economic development of the country. Given the huge gap between potential and current air travel penetration in India, the prospects and possibilities of growth of Indian aviation market are enormous.

## SECTION IV: ABOUT THE COMPANY INDUSTRY OVERVIEW

### Introduction

Source: <https://www.ibef.org/industry/infrastructure-sector-india.aspx>

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Mr Nitin Gadkari, Minister of Road Transport and Highways, and Shipping, has announced the government's target of Rs 25 trillion (US\$ 376.53 billion) investment in infrastructure over a period of three years, which will include Rs 8 trillion (US\$ 120.49 billion) for developing 27 industrial clusters and an additional Rs 5 trillion (US\$ 75.30 billion) for road, railway and port connectivity projects.

Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. In August 2016, India jumped 19 places in World Bank's Logistics Performance Index (LPI) 2016, to rank 35th amongst 160 countries.

### Outlook for the Economy for the year 2017-18

Source: Economic Survey 2016-2017; Government of India, Ministry of Finance, Department of Economic Affairs, Economic Division, January, 2017

CSO in its first AE estimated the economy to grow by 7.1 per cent in the current year. However, it has stated that these numbers have been projected taking into account the information for first seven to eight months. It is therefore unlikely to have captured the impact of withdrawal of the high denomination currency. Although it is difficult to precisely pinpoint the impact on GDP, in all likelihood, the growth numbers of GDP, GVA, etc. could be revised downwards in the subsequent revisions to be carried out by the CSO. Inflation could also be lower than what comes out from the implicit GDP deflator underlying the CSO's first AE for 2016-17.

For 2017-18, it is expected that the growth would return to normal as the new currency notes in required quantities come back into circulation and as follow up actions to demonetisation are taken. Helping to maintain the momentum of such growth will be factors like possible normal monsoon, an increase in the level of exports following the projected increase in global growth and above all various reform measures taken by the Government to strengthen the economy. Some possible challenges to growth exist. For example, the prices of crude oil have started rising and are projected to increase further in the next year. Estimates suggest that oil prices could rise by as much as onesixth over the 2016-17 level, which could have some dampening impact on the growth. Fixed investment rate in the economy has consistently declined in the past few years, more so the private investment. Raising the growth rate of the economy will to a great extent depend on quickly reversing this downward trend in the investment. The last few years have also witnessed a slowdown in global trade and investment flows. Although, India has not been particularly affected by this slowdown, lower growth in foreign portfolio investment cannot be ruled out, partly on account of the fact that the interest rates in the United States have begun to increase. 8.44 On balance, there is a strong likelihood that Indian economy may recover back to a growth of 6¾ per cent to 7½ per cent in 2017-18.

### Industrial, Corporate and Infrastructure Sectors

Source: Economic Survey 2016-2017; Government of India, Ministry of Finance, Department of Economic Affairs, Economic Division, January, 2017

As per the first advance estimates of the CSO, growth rate of the industrial sector comprising mining & quarrying, manufacturing, electricity and construction is projected to decline from 7.4 per cent in 2015-16 to 5.2 per cent in 2016-17. During April-November 2016-17, a modest growth of 0.4 per cent has been observed in the Index of Industrial Production (IIP) which is a volume index with base year of 2004-05. This was the composite effect of a strong growth in electricity generation and moderation in mining and manufacturing. In terms of use-based classification, basic goods, intermediate goods and consumer durable goods attained moderate growth. Conversely, the production of capital goods declined steeply and consumer nondurable goods sectors suffered a modest contraction during April-November 2016-17.

The eight core infrastructure supportive industries, viz. coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity that have a total weight of nearly 38 per cent in the IIP registered a cumulative growth of 4.9 per cent during April-November, 2016-17 as compared to 2.5 per cent during April-November, 2015-16. The production of refinery products, fertilizers, steel, electricity and cement increased substantially, while the production of crude oil and natural gas fell during April-November, 2016-17. Coal production attained lower growth during the same period.

Most indicators of infrastructure related activities showed expansion during H1 2016-17. Thermal power with a growth of 6.9 per cent boosted overall power generation while hydro and nuclear power generation contracted marginally during April-September 2016.

#### **CONSTRUCTION INDUSTRY OVERVIEW**

Source: <http://www.makeinindia.com/sector/construction>

Construction sector in India will remain buoyant due to increased demand from real estate and infrastructure projects. An investment of USD 1 Trillion has been projected for the infrastructure sector until 2017, 40% of which is to be funded by the private sector. 45% of infrastructure investment will be funnelled into construction activity and 20% set to modernise the construction industry.

Construction activities contribute more than 8% of India's GDP. USD 650 Billion will be required for urban infrastructure over the next 20 years. Some of the large government projects offer significant up-side thrust. 70% of the funding under SBM will be mobilised largely from private sector.

Second largest employer and contributor to economic activity, after agriculture sector. The construction sector accounts for second highest inflow of FDI after the services sector and employs more than 35 Million people.

50% of the demand for construction activity in India comes from the infrastructure sector, the rest comes from industrial activities, residential and commercial development etc. The Indian construction industry is valued at over USD 126 Billion.

Indian cities contribute significantly to India's GDP. As per a mid-term appraisal in 2012, the urban share of the GDP was 62% – 63% in 2009-10. This was further projected to increase to 70% – 75% in 2030.

In 2001, about 286 Million were living in urban areas across India. It had the second largest urban population in the world. As per the Indian Census, 2011, the urban population had increased to 377 Million, thereby registering a growth of around 32%. As per recent estimates, nearly 590 Million people will live in Indian cities by 2030.

Between 2005-08, the real estate sector grew by about 30% annually before slowing down significantly due to a 2008 global financial crisis. It grew by about 8% between 2009-11 and 6.5% in 2012-13.

As per industry estimates, the Indian real estate market is estimated to be approximately USD 78.5 Billion in 2013 and is expected to grow to approximately USD 140 Billion by 2017.

According to FICCI-EY Real Estate Report 2013, India's real estate requires about USD 42 Billion (excluding housing for economically weaker sections) in investments by 2015. Residential real estate alone will require an investment of USD 29 Billion.

Nearly half the additions to the Indian labour force over the period 2011-30 will be in the age group 30-49, adding to the demographic dividend.

The share of output and employment from manufacturing in India had hardly changed in the past 30 years. In contrast, the share of output from aggregate services rose dramatically over the last 30 years, from about 35% to more than 50% of GDP.

### **Construction Industry – Growth Drivers**

India has an estimated urban housing shortage of 18.8 Million dwelling units. The housing shortage in rural India is estimated at 47.4 Million units, in 2012.

Present levels of urban infrastructure are inadequate to meet the demands of the existing urban population. There is need for re-generation of urban areas in existing cities and the creation of new, inclusive smart cities to meet the demands of increasing population and migration from rural to urban areas. Future cities of India will require smart real estate and urban infrastructure.

The Government of India is in the process of launching a new urban development mission. This will help develop 500 cities, which include cities with a population of more than 100,000 and some cities of religious and tourist importance. These cities will be supported and encouraged to harness private capital and expertise through Public Private Partnerships (PPPs), to bolster their infrastructure and services in the next 10 years.

To provide quality urban services on a sustainable basis in Indian cities, the need of the hour is that urban local bodies (ULBs) enter into partnership agreements with foreign players, either through joint ventures, private sector partners or through other models.

### **FDI POLICY**

Construction - Development projects (which include development of townships, construction of residential/commercial premises, road or bridges, hotels, resorts, hospitals, educational institutes, recreational facilities, city and regional level infrastructure, townships) - 100% FDI through automatic route is permitted. The conditions under this sector are:

No minimum land area requirement in case of development of serviced plots.

In case of construction-development projects, minimum floor area of 20,000 sq. mts.

The investee company should bring in a minimum FDI of USD 5 Million within six months of commencement of the project. The commencement of the project will be the date of approval of the building plan/layout plan by the relevant statutory authority. Subsequent tranches of FDI can be brought within the period of 10 years from the commencement of the project or before the completion of project, whichever expires earlier.

The investor will be permitted to exit on completion of the project or after the development of trunk infrastructure i.e., roads, water supply, street lighting, drainage and sewerage.

The government may, in view of facts and circumstances of a case permit repatriation FDI or transfer of stake by one Non-Resident investor to another Non-Resident investor before the completion of project. These proposals will be considered by FIPB on case to case basis.

The Indian investee company will be permitted to sell only developed plots. (plots where trunk infrastructure is available).

It is clarified that 100% FDI under automatic route is permitted in completed projects for operations and management of townships, malls/shopping complexes and business constructions.

FDI is not allowed in the real estate business or construction of a farmhouse and trading in transferable development rights (TDR).

100% FDI is allowed under the automatic route for urban infrastructure areas like urban transport, water supply, sewerage and sewage treatment subject to relevant rules and regulations.

### **FDI Policy for Industrial Parks:**

100% FDI is allowed under the automatic route. ‘Industrial Park’ is a project in which quality infrastructure in the form of plots of developed land or built-up space or a combination with common facilities is developed and made available to all the allottee units for the purposes of industrial activity.

FDI in industrial parks is not subject to the conditionalities applicable for construction development projects etc., provided the industrial parks meet with the under-mentioned conditions.

It should comprise a minimum of 10 units and no single unit should occupy more than 50% of the allocable area.

The minimum percentage of the area to be allocated for industrial activity will not be less than 66% of the total allocable area.

## **SECTOR POLICY**

### **Smart Cities Mission; and Atal Mission for Rejuvenation and Urban Transformation (AMRUT)**

Under 100 Smart Cities Mission, Smart Cities will be selected through a ‘City Challenge Competition,’ linking financing and ability to achieve multidimensional objectives of urban infrastructure development like adequate and clean water supply, sanitation and solid waste management, efficient urban mobility and public transportation, affordable housing for the poor, power supply, robust IT connectivity, governance, especially e-governance and citizen participation, safety and security of citizens, health and education and sustainable urban environment. Smart City mission will be implemented through Special purpose Vehicles (SPV) to be managed by the state government.

AMRUT will inculcate a project approach to ensure basic infra services such as water supply, sewerage, septage management, storm water drains, transport and development of green spaces and parks with special provision for meeting the needs of children. A minimum investment of over INR 2 lakh crore would flow into urban areas over the next five years (2015-16 – 2019-20) since States and ULBs would mobilise matching resources ranging from 50% to 66%.

“The Smart Cities Mission guidelines are available on the Ministry of Urban Development’s website ([www.moud.nic.in](http://www.moud.nic.in)). ## ROAD INDUSTRY

Source: <https://www.ibef.org/industry/roads-india.aspx>

India has the second largest road network across the world at 4.7 million km. This road network transports more than 60 per cent of all goods in the country and 85 per cent of India's total passenger traffic. Road transportation has gradually increased over the years with the improvement in connectivity between cities, towns and villages in the country.

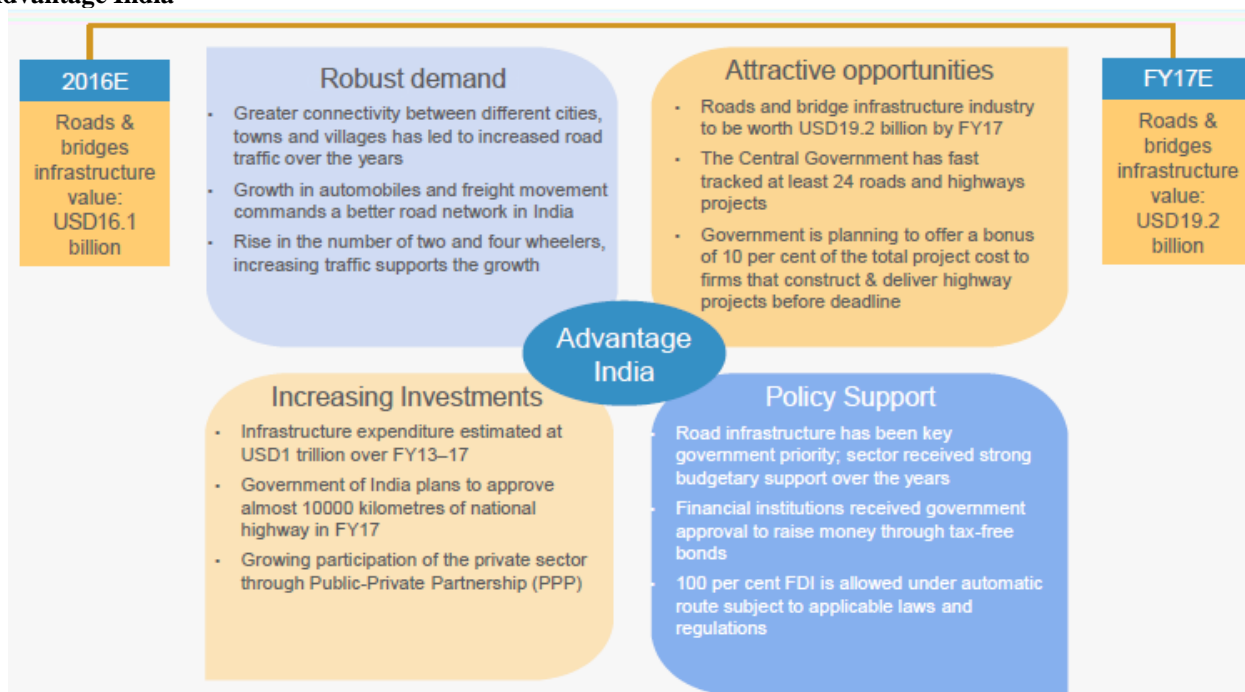

The Indian roads carry almost 90 per cent of the country's passenger traffic and around 65 per cent of its freight. In India sales of automobiles and movement of freight by roads is growing at a rapid rate. Cognizant of the need to create an adequate road network to cater to the increased traffic and movement of goods, Government of India has set earmarked 20 per cent of the investment of US\$ 1 trillion reserved for infrastructure during the 12th Five-Year Plan (2012–17) to develop the country's roads.

The value of roads and bridges infrastructure in India is projected to grow at a Compound Annual Growth Rate (CAGR) of 17.4 per cent over FY12–17. The country's roads and bridges infrastructure, which was valued at US\$ 6.9 billion in 2009 is expected to touch US\$ 19.2 billion by 2017.

The construction of highways had reached an all-time high of 6,029 km during FY 2015-16, and the increased pace of construction is expected to continue for the coming years.

The financial outlay for road transport and highways grew at a CAGR of 12.5 per cent between FY2010-2016. The plan outlay for FY2016-17 stepped up budgetary support for Road Transport and Highways to Rs 97,000 crore (US\$ 14.46 billion).

- The Cabinet Committee on Economic Affairs (CCEA) has approved a hybrid annuity model for implementing highway projects, which adopts a more rational approach to allocation of risks between the government and the private developer, and is hence expected to revive highway projects construction in India.
- India and Japan are planning to enter into a partnership and launch an infrastructure finance company which will provide soft loans for Indian road projects with a credit target of Rs 2 lakh crore (US\$ 29.82 billion).
- The Cabinet Committee on Economic Affairs (CCEA) has approved a one-time fund infusion in road projects which are at least 50 per cent complete till November 2014, but have not progressed further because of shortage of funds.
- Minister for Roads, Transport and Highways Mr Nitin Gadkari announced that the government is planning a compensation policy for road sector developers, which will seek to compensate companies for any delays related to clearance for road projects.
- With the objective of reviving private investment in the roads sector, the Ministry of Roads and Highways is now working on two more models for attracting capital. One model proposes allowing bidding of a road project on the basis of the least present value, and the other envisages selling off road projects that have been built using government funds.
- The Indian government plans to set up a finance corporation with an amount of Rs 1 trillion (US\$ 14.82 billion), in collaboration with Japanese investors, to fund projects in the roads segment.

The government, through a series of initiatives, is working on policies to attract significant investor interest. The Indian government plans to develop a total of 66,117 km of roads under different programmes such as National Highways Development Project (NHDP), Special Accelerated Road Development Programme in North East (SARDP-NE) and Left Wing Extremism (LWE), and has set an objective of building 30 km of road a day from 2016.

### Significant developments subsequent to the last financial year:

Except as otherwise stated in this Prospectus, after the date of last balance sheet i.e. March 31, 2017, the Directors of our Company confirm that, there have not been any significant material developments.

### Key factors affecting the results of operation:

Our Company's future results of operations could be affected potentially by the following factors:

### Spending by various Government on infrastructure:

We derive significant portion of our income from government. There has been a rising trend in the spending by government on various infrastructure projects. Any decrease in spending of various government on various infrastructure project will affect our business.

### Our ability to secure tenders:

Most of government expenditure on infrastructure is tender based. Most of tender has two bids technical and financial bids. The bids are normally awarded to those who qualify the technical bid and bid lowest amount. Thus our business and financials are dependent on our ability to secure tenders on profitable basis.

### Cost of raw materials:

Our major raw material are cements and steel. Many of our contracts are to be completed in more than 12 months. The long duration of our contracts exposes us to the changes in the prices of key raw material. ### Stringent condition of our contract:

Most of our contracts are time bound as well as put a condition of meeting the minimum standard requirement of such construction. ## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated primarily through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP, issued the consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2016-FC-1 dated June 7, 2016 (“**FDI Policy**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 6, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue.
