Any adverse decision against our Company and Group Companies/Entities, may adversely affect financial condition. The summary of outstanding legal and proceedings are given in the following table:

For detailed information on the outstanding demands/ notices, please refer to chapter titled “Outstandings Litigations and Material Developments” on page no. 168 of this Prospectus.

2. Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.

Our business operations require us to obtain and renew from time to time, certain approvals, licenses, registration and permits, some of which may expire and for which we may have to make an application for obtaining the approval or its renewal. If we fail to maintain such registrations and licenses or comply with applicable conditions, then such respective

regulatory can impose fine on our company or suspension and/or cancellation the approval/licenses which may affect our business adversely.

Moreover, there can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Further, certain statutory and regulatory may put certain terms and conditions, which are required to be complied with by us. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations.

Many of the Licenses and approvals in the name of Shubham Polyspin Private Limited; the same are required to be updated/ changed with various government authorities. Our Company is taking necessary steps in this regards.

For more information about the licenses required in our business and the licenses and approvals please refer section “Government and other statutory approvals” appearing on page no. 172 of this Prospectus.

3. The Company is dependent on few numbers of customers and suppliers for sales and purchase from top 10 customers and suppliers. Loss of any of these large customer and supplier will significantly affect our revenues and profitability.

As per Books of Accounts of our Company, our top ten customers contributes 56.61% and 57.95% of our total sales for the year ended March 31, 2018 and March 31, 2017 respectively out of which one of our Group Company - Shubham Tex-O-Pack Private Limited contributed 12.26% for the year ended March 31, 2018. Any decline in our quality standards, growing competition and any change in the demand, may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. However, the composition and revenue generated from these customers might change as we continue to add new customers in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new customers, there can be no assurance that we will be able to maintain long term relationships with such customers or find new customers in time.

Moreover, as per Books of Account of the Company, our top ten suppliers delivered 90.31% and 92.86% of the total raw materials purchased for the year ended March 31, 2018 and March 31, 2017 respectively out of which one of our Group Company - Shubham Tex-O-Pack Private Limited contributed 13.31% for the year ended March 31, 2018. The loss of any of these suppliers will significantly affect our revenue and profitability.

4. Being a manufacturing company, we have low net profit margins as compared to industry standards.

As company is engaged in the manufacture of all kind of PP Multifilament Yarn/Fabrics, we have in the past reported net profit margins of 5.24%, 1.22%, 1.61%, 1.51% and 0.35% for the financial year ending March 31; 2018, 2017, 2016, 2015 and 2014 respectively. Due to lower margins, we have lower EPS for our shareholders and may continue to do so. If the margins do not increase over time, we may continue to earn lower profits on higher revenues resulting in slower growth and affect overall financial condition. The management believes that lower margins are mainly due to non-compromise on quality and compliance which is beneficial in the long run. If we are unable to increase our margins, it may affect our growth prospects, profitability, operations and overall financial condition along with ability to absorb the fixed costs, if any, for the manufacture of new and innovative products.

5. We are dependent on third party transportation providers for the delivery of our raw materials to our manufacturing facilities and also for our finished products to various customers. Accordingly, continuing increases in transportation costs or unavailability of transportation services for our products, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects.

We presently do not own any trucks which are used for delivery of our raw materials to our manufacturing facilities and also for our finished products to various customers. We procure raw materials from our vendors across the country and also from international markets wherever required. Also, our finished products are sold and delivered to different location within the country and also exported to many countries. A majority of raw material and finished products are transported to and from our manufacturing units by third party transportation providers. Transportation strikes could have an adverse effect on our receipt of goods, raw materials and our ability to deliver our products to our customers. Non-availability of ships, barges, trucks and railway cars could also adversely affect our receipt of goods, raw materials and the delivery of our products. In addition, transportation costs in India have been steadily increasing over the past several years. While usually the end consumer bears the freight cost, we may not always be able to pass on these costs to our customers. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects. Further, India's physical infrastructure is less developed than that of many developed nations, and problems with its port, rail and road networks,

electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of goods, raw materials and the delivery of our products to customers by third-party transportation providers. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

6. There may be potential conflicts of interest if our Promoters, Promoters' Group or Directors are involved in same business activities that compete with or are in the same line of activity as our business operations.

Certain Group Companies/entities are involved in similar line of Business that is being carried out by our Company. Also our Company has entered into various transactions with our Group Companies and will continue to do in future. For detailed information for our transaction with group Companies, please refer to Annexure - 30 of Restated financial Statement under chapter titled "Auditors Report and Financial Information of our Company" beginning on page no. 126 of this Prospectus. Further, we have not entered into any non-compete agreement with our said entity. We cannot assure you that our Promoters, Promoter's Group or Directors who have common interest in said entities may not favor the interest of the said entity. Any such present and future conflicts could have a material effect on our reputation, business, results of operations and financial condition which may affect our profitability and results of operations.

7. Our Company has not entered into any supply agreement for the major raw materials required for manufacturing of our products. Volatility in the prices and non availability of these raw materials may have an adverse impact in our business.

Our major raw materials for manufacture of all kinds of Polypropylene Multifilament Yarn/Fabrics made from Polypropylene, Colour Masterbatches, UV Master Batches and Spin Finish Oil which we buy from suppliers, these raw materials are generally purchased from various manufacturers or agents. We do not have any agreement with the suppliers of raw materials. Therefore, any significant increase in the prices of these raw materials due to any reasons, and our inability to pass on increased costs of raw material to our customers or reduction in demand from our customers, may adversely affect our sales and profitability. For further details of various raw materials required, see "Business Overview" on page no. 69 of this Prospectus.

8. Our Company has not entered into any long-term contracts with any of its customers and we typically operate on the basis of orders. Inability to maintain regular order flow would adversely impact our revenues and profitability.

Our Company has had long standing business relationships with various customers and we have been selling our products to such customers, including overseas customers, since last few years. However, we have not entered into any specific contracts with these customers and we cater to them on an order-by-order basis. As a result, our customers can terminate their relationships with us without any notice and, without consequence, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products. Our Company's customers have no obligation to place order with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the level of consistency of the products that our Company supplies, fluctuation in demand for products manufactured by our Company and customer's inventory management.

Although we place a strong emphasis on quality, timely delivery of our products and prompt availability of a variety range of products, in the absence of long term contracts, any sudden change in the buying pattern of buyers could adversely affect the business and the profitability of our Company.

9. Certain data mentioned in this Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. 10. The order of the total cost of modernization of plant and machinery, for upgradation of 4 existing machinery worth ₹ 136.41 lakhs which is yet to place.

The suppliers for the plant and machinery worth ₹136.41 Lakhs to be procured for upgradation and modernization of existing 4 machinery in order to continue to reap the optimum utilization of existing installed capacity by 200 MT/per month are identified but the order for the plant and machineries are yet to be placed with the supplier. We are subject to

risks on account of inflation in the price of machineries which may affect the cost of the project and which may require us to arrange the additional fund for completion of the project. If we are not able to arrange such additional fund in due time which may results in delay in implementation of our project and which may result into adversely affects the profitability and financial results of the company.

11. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the objects of the Issue as has been stated in the section “Objects of the Issue” on page no. 55 of this Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue this may affect our revenues and results of operations.

12. We have taken various secured facility from lenders which are repayable as per repayment schedule and/or on demand. Any demand from lenders for repayment of such secured may adversely affect our business operations. Further, our indebtedness and the conditions and restrictions imposed by our financing and other agreements could adversely affect our ability to conduct our business and operations.

We have obtained a substantial amount of indebtedness which could adversely affect our financial condition. As on June 30, 2018, the total outstanding balance of various facilities availed by our Company from various Banks is ₹ 1326.58 Lakh w.r.t. Cash Credit and various term/car loans.

Further, we may be bound by restrictive and other covenants in our facility agreements with lender, including but not limited to, restrictions on the utilization of the loan for certain specified purposes w.r.t change in capital structure, Board of Directors, formulation of any scheme of amalgamation and reconstruction etc, timely provision of information and documents, timely creation of security, obtaining prior consent from existing lenders, maintenance of financial ratios and obtaining prior written approval from the appropriate lender for various corporate actions. If we are not in compliance with certain of these covenants and are unable to obtain waivers from all of our lenders, our lenders may accelerate the repayment schedules. Subsequently, if we are unable to pay our debt, affected lenders could also proceed against any collateral granted to them to secure such indebtedness. Furthermore, these covenant defaults can result in cross-defaults in our other debt financing agreements, and there can be no assurance that potential defaults will not result in future cross-defaults. If our lenders accelerate the repayment of our borrowings, we cannot assure you that we will have sufficient assets to repay amounts outstanding under our loan agreements or continue our business. In addition, we may require to avail additional indebtedness in the future in the form of secured loan which our lender may not agree or sanction the requisite amount in future.

13. Our Company has availed certain unsecured loans that may be recallable on demand by the lenders at any point of time.

As on March 31, 2018, outstanding balance of unsecured loans including incorporated loans availed by our Company was ₹ 209.59 Lakhs which have been take from NBFC, Directors, Promoters, Promoters Group and various companies that are recallable on demand by the lenders at any point of time. In case of any demand from lenders for repayment of such unsecured loans, the resultant cash outgo, may adversely affect our business operations and financial position of our Company. For further details related to unsecured loan, please refer “Annexure 8” in the chapter titled “Auditors Report and Financial Information of Our Company” on page no. 139 of this prospectus.

14. Our business depends on our manufacturing facility and the loss of or shutdown of operations of the manufacturing facility on any grounds could adversely affect our business or results of operations.

Our manufacturing facilities are subject to operating risks such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output, raw material shortage or unsuitability, obsolescence, labour disputes, strikes, lock-outs, non-availability of services of our external contractors, earthquakes and other natural disasters, social unrests, industrial accidents, our ability to respond to technological advances and emerging industry and safety standards and practices in the industries in which we operate and propose to operate on a cost-effective and timely basis and any other factors which may or may not be within our control and also we need to comply with the directives of relevant government authorities. The occurrence of any of these risks could significantly affect our operating results. Although we take precautions to minimize the risk of any significant operational problems at our facilities, our business, financial condition, results of operations and the trading price of our Equity Shares may be adversely affected by any disruption of operations at our facilities, including due to any of the factors mentioned above.

15. Failure to effectively manage labour or failure to ensure availability of sufficient labour could affect the business operations of the Company.

Our business activities are dependent on availability of skilled and unskilled labour. Non-availability of labour at any time or any disputes with them may affect our production schedule and timely delivery of our products to customers which may adversely affect our business and result of operations. Although, we have entered into contract for supply of contractual labour but there is no certainty that we will be able to get the requisite amount of manpower whenever required. Though we have not faced any labour problem in the past, we cannot assure that we will not experience disruptions to our operations due to disputes or other problems with our work force, which may lead to strikes, lock-outs or increased wage demands. Such issues could have adverse effect on our business, and results of operations.

16. Our operations may be adversely affected by strikes, work stoppages or increased wage demands by our or our contractors' workforce or any other industrial unrest or dispute.

While we have not experienced any industrial unrest or dispute in our manufacturing unit in the past, we cannot be certain that we will not suffer any disruption to our operations due to strikes, work stoppages or increased wage demands in the future. Further, if our work force in our unit unionizes in the future, collective bargaining efforts by labour unions may divert our management's attention and result in increased costs. We may be unable to negotiate acceptable collective wage settlement agreements with those workers who have chosen to be represented by unions, which may lead to union-initiated strikes or work stoppages. Any shortage of skilled and experienced workers caused by such industrial unrest or disputes may adversely affect our business, results of operations and financial condition. Further, under Indian law, we may be held liable for wage payments or benefits and amenities made available to "daily wage" workers. Any requirement to discharge such payment obligations, benefits or amenities or to absorb a significant portion of the "daily wage" workers on our own rolls may adversely affect our business, results of operations and financial condition.

17. Any inability on our part to maintain quality standards could adversely impact our business, results of operations and financial condition.

Quality control is vital element for our sector. Any rapid change in our customers' expectation on account of changes in technology or introduction of new product or any other reason and failure on our part to meet their expectation could adversely affect our business, results of operations and financial condition. Any failure on our part to successfully meet customer demand or preference may negatively affect our business, results of operation and financial condition.

18. In addition to normal remuneration, other benefits and reimbursement of expenses to our Promoters and Directors; they are interested to the extent of their shareholding and dividend entitlement thereon in our Company and for the transactions entered into between our Company and themselves as well as between our Company and our Group Companies/Entities.

Our Promoters – Directors are interested in our Company to the extent of their shareholding and dividend entitlement thereon in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. Our Promoters and Directors are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entity which may be or may not be at Arms' Length Price and in Ordinary Course of Business. If the transactions are executed not on Arms' Length Price and in Ordinary Course of Business, our financial position may get affected to that extent. For details of transactions already executed by our Company with our Promoters, Directors and Group Companies/Entities during last five years, please refer to the chapters titled "Related Party Transactions" beginning on Page No. 124 of this Prospectus.

19. Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject to and this may have a material adverse effect on our business.

While we believe that we maintain insurance coverage in amounts consistent with industry norms. If any or all of our facilities are damaged in whole or in part and our operations are interrupted for a sustained period, there can be no assurance that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption or the cost of repairing or replacing the damaged facilities. If we suffer a large uninsured loss or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and result of operations may be materially and adversely affected.

20. We sell our products in highly competitive markets and our inability to compete effectively may lead to lower market share or reduced operating margins, and adversely affect our results of operations.

India is our primary market and we face competition in our business from local as well as nationwide manufacturers and suppliers of Polypropylene Multifilament Yarn/Fabrics. There are a large number of players manufacturing same or similar products. Thus, competition in these markets is based primarily on demand and price. As a result, to remain competitive in our market, we must continuously strive to achieve operating efficiencies and secure our raw materials requirements. If we fail to do so, other manufacturers and suppliers of similar products may be able to sell their products at prices lower than our prices, which would have an adverse effect on our market share and results of operations.

Increased consolidation in the Multifilament Yarn/Fabrics industry means that many of our competitors may benefit from greater economies of scale, including the ability to negotiate preferential prices for products or receive discounted prices for bulk purchases of goods that may not be available to us. We compete with various domestic and international competitors by establishing ourselves as knowledge and innovation based company with manufacturing capabilities of a variety of Polypropylene Multifilament Yarn/Fabrics. The organized players in the industry compete with each other by providing high quality, consistent and time bound products and value added services. Further, we cannot assure you that our current or potential competitors will not offer products comparable or superior to our products at rates attractive that ours. Failure to match our product quality, consistency and price accordingly might have an adverse effect on our operations and financial results.

21. Our revenues derived from sales in the export market are limited to few regions. Our growth strategy to expand into new geographic areas outside India and within India poses risks. We may not be able to successfully manage some or all of such risks, which may have a material adverse effect on our revenues, profits and financial condition.

Our manufacturing operations have been geographically concentrated in the few of States of India. Our export market is limited to a few regions like Belgium, Poland, Italy, Turkey, Qatar, Oman, Sri-lanka, Bangladesh, Tanzania, Ethiopia, South Africa, Nigeria, Madagascar, Kenya, East Africa, Zimbabwe, Malawia etc. Our total export sales for the financial year 2017-18 amounted to approximately 11.77% of the total sales. Our business is therefore to a small extent dependent on the general economic condition and activity in the international market in which we operate along with the Government policies relating to plastic industry in all these regions, including central, state and local government policies in India.

We may expand geographically in the domestic and international market, and may not gain acceptance or be able to take advantage of any expansion opportunities outside our current markets. This may place us at a competitive disadvantage and limit our growth opportunities. We may face additional risks if we undertake operations in other geographic areas in which we do not possess the same level of familiarity as competitors. For example, expanding our scope by marketing our products in the regulated markets may prove difficult due to the stringent norms and we may have to discontinue our activities in such areas. If we undertake operations in different geographical locations than those currently is; we may be affected by various factors, including but not limited to:

- Adjusting our products to the new geographic area;
- Ascertaining the creditworthiness of the buyer and maintain credit terms with the same;
- Obtaining necessary Government and other approvals in time or at all;
- Failure to realize expected synergies and cost savings;
- Attracting potential customers in a market in which we do not have significant experience; and
- Cost of hiring new employees and absorbing increased costs.

Any failure to manage all above risk may have a material adverse effect on our revenues, profits and financial condition.

22. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial condition.

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under.

If approval of registration of trademarks are not granted from the appropriate authority, it can allow any person to use a deceptively similar mark and market its product which could be similar to the products offered by us, although we may have a claim on account of prior usage in such event. Any unauthorized usage by a third party of our logo may create confusion in the market as to our identity and/or may have a material adverse effect on our reputation, goodwill, business prospects and results of operation too. Such infringement will hamper our business as prospective clients may go to such user of mark and our revenues may decrease.

Our success also depends upon the services of our key managerial personnel and our ability to attract and retain key managerial personnel and our inability to attract them may affect our operations.

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters have been actively involved in the day to day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters. If our Promoters is unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our key managerial personnel, we may be unable to locate suitable or qualified replacements, and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters, along with the key managerial personnel, have over the years built relations with various suppliers, customers and other persons who are form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

26. Our Company has entered into certain related party transactions and may continue to do so in the future.

Our Company has entered into few related party transactions with our Promoters, Directors, Promoter Group, Group companies/entities during the last five Financial Years. Therefore our installed capacity in F.Y. 2018-19 will be 2850 MT (600 MT/Per month from existing 4 machines operating for 12 months and 50 MT per month for remaining 9 months from new machine installed). In the F.Y. 2019-20 and F.Y. 2020-21, total 5 machines will be operated at an optimum utilization installed capacity of 3000 MT/ per annum.

We may decide to increase our product portfolio and to enter more geographical areas based on our estimates of market demand and profitability. In the event of non-materialization of our estimates and expected order flow for our existing and / or future products and/or failure of optimum utilization of our capacities, due to factors including adverse economic scenario, change in demand or for any other reason, our capacities may not be fully utilized thereby impairing our ability to fully absorb our fixed cost and may adversely impact our consolidated financial performance.

28. Information relating to proposed production capacities and proposed capacity utilization of our production facilities included in this Prospectus is based on certain assumptions and has been subjected to rounding off and future production and capacity utilization may vary.

Information relating to our production capacities and the proposed capacity utilization of our production facilities for the financial year 2018-19, 2019-20 and 2020-21 included in this Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials. Actual production levels and utilization rates may differ significantly from the estimated production capacities or proposed estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Prospectus. For further information, see the section titled “Business Overview” on page no. 69 of this Prospectus.

29. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoter and Promoter Group will collectively own 72.78% of our equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

30. We have not identified any alternate source of raising the funds required for our ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds may require us to borrow the funds on unfavorable terms; such scenarios may affect the business operation and financial performance of the company.

31. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders’ approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders’ approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations. For further details of the proposed objects of the Issue, refer “Objects of the Issue” on page no. 55 of this Prospectus.

32. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Our industry is continually changing due to technological advances and scientific discoveries. These changes result in the frequent introduction of new products, new designs and significant price competition. To meet our customers’ needs as well as keep pace with our competitors, we regularly update existing technology and acquire or develop new technology for our all products. If our Extrusion technologies, and other technology become obsolete, and we are unable to effectively introduce new products, our business and results of operations could be adversely affected. Although we strive to keep our technology, facilities and machinery current with the latest international standards, the technologies, facilities and machinery we currently employ may become obsolete and we may not have the adequate sources to install and upgrade our existing technology and machinery. The cost of implementing new technologies and upgrading our manufacturing facilities would require substantial new capital expenditures and/or write-downs of assets and could adversely affect our business, prospects, results of operations and financial condition.

33. Our inability to manage growth could disrupt our business and reduce profitability.

A principal component of our strategy is to continuously grow by expanding the capacity, size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

34. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

As per SEBI (ICDR) Regulations, 2009, as amended, appointment of monitoring agency is required only if Issue size exceeds ₹ 10,000 Lakh. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

35. We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of defects in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Any failure or defect in our products could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. We currently carry no products liability insurance with respect to our products. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of our products, or any other unforeseen events could affect our reputation and our results from operations.

36. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

37. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. Difficulties and uncertainties surrounding the implementation of a GST regime in India may adversely affect our business strategy.

The GoI has implemented a comprehensive GST regime which has combined taxes and levies by the central and state governments into a unified indirect tax on the manufacture, sale and consumption of goods and services at a national level. We expect the GST regime to benefit the inter-state movement of services which may lead to opportunities for growth of our business. In addition, since the GST regime has been implemented, the impact, if any, that implementation of the GST regime will have on our tax liability and other related matters is uncertain. We cannot assure you that the GST regime will not result in levy of certain additional taxes. In the event GST increases our tax liability, our financial condition and results of operations could be affected. In respect of our business, we may experience an increase in our tax liabilities. If these additional taxation expenses are not reimbursed by our clients or if we are not able to obtain suitable relief from the tax authorities, our business, financial condition and results of operations may be affected. For further

details of regulation applicable to us, refer chapter titled “Key Industrial Regulation and Policies” beginning on page no. 87 of this Prospectus.

We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY OVERVIEW

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

Overview of the Economy

The year 2017-18 was marked with strong macro-economic fundamentals. However, the growth of gross domestic product (GDP) moderated in 2017- 18 vis-à-vis 2016-17. There was an improvement in export growth, fiscal trends remained attuned to the consolidation plans and inflation remained within the limits. The year also witnessed an increase in global confidence in Indian economy as well as improvement in ease of doing business ranking. Various economic reforms were undertaken in the year which includes: implementation of the Goods and Service Tax, announcement of bank recapitalization, push to infrastructure development by giving infrastructure status to affordable housing, higher allocation of funds for highway construction and greater focus on coastal connectivity. Further initiatives include: lower income tax for companies with annual turnover up to 50 crore; allowing carry-forward of MAT credit up to a period of 15 years instead of 10 years at present; further measures to improve the ease of doing business; and, major push to digital economy. Other sectoral initiatives undertaken include: measures to revive the construction sector and promotion of exports in textile and apparel industry. Apart from these, the measures that were taken by the Government in the previous years to boost manufacturing, employment generation, improving ease of doing business and transparency via schemes such as Make-in-India, Skill India, direct benefit transfer and measures for financial inclusion were also taken forward in 2017-18. An important macro-economic challenge faced by the Indian economy relates to the declining trend in the investment and saving rates, as seen from the latest available data. Nonetheless, medium-term macro outlook remains bright against the background of implementation of GST, green shoots in the global economy, relatively stable prices and improvement in indicators of external sector.

GDP growth

As per the 1st Advanced Estimates released by the Central Statistics Office (CSO), the economy is expected to grow by 6.5 per cent in 2017-18 in terms of GDP at constant (2011-12) market prices. The gross value added (GVA) at constant (2011-12) basic prices is expected to grow by 6.1 per cent in 2017-18, as compared to the growth of 7.1 per cent achieved in 2016-17. The growth in agriculture, industry and services is estimated at 2.1 per cent, 4.4 per cent and 8.3 per cent respectively in 2017-18, as compared to 4.9 per cent, 5.6 per cent and 7.7 per cent in 2016-17. Growth rate of industry sector declined in 2017-18, mainly on account of moderate growth in manufacturing sector. It was the services sector that contributed to more than half of the overall GVA growth rate of 6.1 per cent in 2017-18. From the demand side, the final consumption expenditure has been the major driver of GDP growth. The growth of fixed investment at constant prices increased from 2.4 per cent in 2016-17 to 4.5 per cent in 2017-18. As per CSO, the exports of goods and services are estimated to grow by 4.5 per cent in real terms in 2017-18 as was the case in 2016-17, whereas the imports are estimated to grow by 10.0 per cent in 2017- 18 as against 2.3 per cent in 2016-17.

Industry and Services

The performance of the industrial sectors based on the Index of Industrial Production (IIP) comprising mining, manufacturing and electricity reveals the industrial sector registered a growth of 3.2 per cent during April-November 2017, as compared to 5.5 per cent during the corresponding period of previous year. As per the sectoral classification, mining, manufacturing and electricity sectors registered 3.0 per cent, 3.1 per cent and 5.2 per cent growth during April-November 2017 over the corresponding period of previous year respectively. Among the use-based categories, primary goods, capital goods, intermediate goods, infrastructure/construction goods, consumer non-durables goods attained positive growth during April-November 2017.

Central Government Finances

Commitment to fiscal consolidation helped the Government achieve the fiscal deficit target of 3.5 per cent of GDP budgeted in 2016-17. In 2017-18, fiscal deficit and revenue deficit were budgeted at ₹5,46,532 crores (3.2 per cent of GDP) and ₹3,21,163 crores (1.9 per cent of GDP) respectively. The budget estimates (BE) for 2017-18 envisaged a tax to GDP ratio of 11.3 per cent and total expenditure to GDP ratio 12.7 per cent. The envisaged growth for gross tax revenue (GTR) was 12.2 per cent over revised estimate (RE) of 2016-17. The total expenditure in BE 2017-18 was estimated to increase by 6.6 per cent over RE of 2016-17.

As per the data on Union government finances for April-November 2017 released by Controller General of Accounts, the GTR increased by 16.5 per cent in comparison to the corresponding period of the previous year and was at 56.9 per cent of BE of 2017-18. The non-tax revenue registered a decline of 39.7 per cent over the corresponding period of the previous year. On the contrary, at the end of November 2017, the non-debt capital receipts increased by 89.9 per cent and stood at 73.3 per cent of the BE of 2017-18.

Major subsidies increased by 4.2 per cent during April-November 2017, as compared to April-November 2016. Food subsidy increased by ₹12,196 crore and petroleum subsidy increased by ₹2518 crore during April-November 2017 as compared to the corresponding period in 2016-17 while fertilizer subsidy declined by ₹6,437 crore.

Fiscal deficit and revenue deficit at 112 per cent of BE and 152.2 per cent of the BE respectively in the year 2017-18 (April-November) was higher than the five-year average of 89.2 per cent and 97.8 per cent respectively. The revised estimates place fiscal and revenue deficits at 3.5 per cent of GDP and 2.6 per cent of GDP respectively in 2017-18.

Prospects

The reforms measure undertaken in 2017-18 can be expected to strengthen and reinforce growth momentum. The prospects for Indian economy for the year 2018-19 need to be assessed in the light of emerging global and domestic developments. Indications are that global economic growth is expected to pick up slightly. This can be expected to provide further boost to India's exports, which have already shown acceleration in the current financial year. On the other hand, the increasing global prices of oil and other key commodities may exert an upward pressure on the value of imports. There are signs of revival of investment activity in the economy and the recent pick up in the growth of fixed investment can be expected to maintain momentum in the coming year. In line with the projections for strengthening of India's growth by multi-lateral institutions, the nominal growth of the economy is expected to be 11.5 per cent in the financial year 2018-19.

Fiscal Policy Outlook for 2018-19

The Government is aiming to revert to the path of fiscal rectitude after the temporary blip in the following year, that is FY 2018-19. This will also be the maiden year of the new targeting framework, where the twin focus would be on reducing debt and the fiscal deficit. The Government aims to reach the FD target of 3.3 per cent of GDP in BE 2018-19. 16. The Gross Tax Revenue of the Government is expected to increase to ₹ 2271242 crore in BE 2018- 19 from an RE of ₹ 1946119 crore. This implies a growth of 16.7 per cent over the RE. As a per cent of GDP this is anticipated to be 12.1 per cent compared to the 11.6 per cent assumed in RE 2017-18. There is a bump-up in the GTR to GDP estimates from the level of RE 2017-18. The caveat is that the GTR includes a portion, the GST Compensation Cess (amounting to ₹ 90000 crore) which cannot be utilised by the Central Government for its expenditure commitments. 17. Direct taxes have been projected to increase to ₹ 1150000 crore in BE 2018-19. This implies a growth of 14.4 per cent in 2018-19 compared to RE 2017-18. The increase in direct taxes is expected to be from both the arms of direct tax, namely Corporate Income Tax and Personal Income Tax. These have been budgeted to increase to ₹ 621000 crore and ₹ 529000 crore respectively. 18. Indirect taxes in BE 2018-19 are expected to be ₹ 1116000 crore. It is anticipated that the GST revenues will be ₹ 743900 crore in BE 2018-19 compared to ₹ 444631 crore in RE 2017-18. The fact that GST was imposed only after the completion of the first quarter. The non-GST component of the indirect taxes would be ₹ 372100 crore in BE 2018- 19. This is compared to ₹ 491744 crore in RE 2017- 18. It is expected that Indirect taxes will grow by 17.3 per cent in 2018-19 over RE 2017-18. 19. The Non tax revenue is expected to grow over the RE 2017-18 by 3.9 per cent to an amount of ₹ 245089 crore in BE 2018-19. As a per cent of GDP, the Non-tax Revenue component constitutes 1.3 per cent. Non-debt Capital Receipts have been budgeted in BE 2018-19 to be ₹ 92199 crore compared to the RE 2017-18 figure of ₹ 117473 crore. The main contributor to this kitty is from disinvestment receipts, which has been anticipated to be ₹ 80000 crore in BE 2018-19. Net borrowings and other liabilities are expected to be ₹ 624276 crore to finance the fiscal deficit, a majority of which would be mainly financed through market borrowings.

Subsidy Reforms:

Outgo on major subsidies is budgeted at 1.4 per cent of GDP in BE 2018-19. Rationalization of major subsidies is important from the viewpoint of fiscal consolidation. The effort of Government would be to address this issue with a two pronged strategy. Government is committed to progressively pursuing subsidy reforms in a manner that will ensure efficient targeting of subsidies to the poor and needy, while also saving scarce financial resources for investment in infrastructure and pursuit of new development programmed announced by the Government. With the aim of reforming Government delivery system by reengineering the existing process in welfare schemes for simpler and faster flow of information/funds and to ensure accurate targeting of the beneficiaries, deduplication and reduction of fraud, Direct

Benefit Transfer (DBT) was started on 1st January, 2013. 41. Jharkhand has become the first State in the country to implement DBTK in all the districts of the State. When PAN India roll out of DBT in fertilizers happens, the subsidies will be paid within a week of sales being registered in the PoS machines. 43. All States/UTs have adopted National Food Security Act (NFSA), 2013 and implementation of NFSA became universal from 1st November 2016. SUMMARY OF BUSINESS OVERVIEW

The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in the Prospectus, including the information contained in the section titled “Risk Factors” on page no. 9 of the Prospectus. In this chapter, unless the context requires otherwise, any reference to the terms “We”, “Us” and “Our” refers to Our Company. Unless stated otherwise, the financial data in this section is as per our financial statements prepared in accordance with Accounting Standard set forth in the Prospectus.

COMPANY BACKGROUND

Our Company was incorporated as “Shubham Polyspin Private Limited” at Ahmedabad on March 12, 2012, under the provisions of the Companies Act, 1956 vide Certificate of Incorporation issued by the Registrar of Companies, Gujarat, Dadra and Nagar Haveli. Consequent upon the conversion of our Company from Private Limited Company to Public Limited Company, the name of our Company was changed to “Shubham Polyspin Limited” and fresh Certificate of Incorporation consequent upon the conversion from Private Limited Company to Public Limited Company dated July 24, 2018 was issued by the Registrar of Companies, (RoC) Ahmedabad.

One of our Promoter-Director Mr. Anil Somani started a company called Shubham Tex-O-Pack Private Limited which is engaged in HDPE/PP woven polybags. In the year 2010, Mr. Ankit Somani son of Mr. Anil Somani, joined the business of his father to gain the experience and understand the intricacy of said industry. After gaining an experience of 3 years in production, planning and sales, it was decided to diversify the products and enter into a more futuristic product having applications in various upcoming and existing industries. Mr. Ankit Somani promoter director of our company inspired from his father decided to start a new business which can be run on autonomous mode.

In the year 2012, Our Promoter Directors attended the Plast India event at Delhi and met Mr. Rajkumar Lohia (Chairman of Lohia Corp Limited), a company which is renowned worldwide (source: <http://www.lohiagroup.com/contact>) in making plastic packaging machineries. During the discussion with Mr. Lohia about the new and upcoming product in the industry and scope of the product in the next 5 years, he suggested our promoters to choose Multifilament yarn as a new product. Moreover, Lohia technical team also helped us to understand the product, machines and consumer industry of the Multifilament yarn. Multifilament yarn is the main component to be used in stitching of woven bags, manufacturing of geotextiles and filter fabrics as well as webbings. Multifilament Yarns enabled the bag manufacturer to switch to auto bag making machines which further reduces labour dependency and achieve defect free and time bound production.

After studying and understanding the technical viability of the Polypropylene (PP) multifilament yarn industry, our promoter director decided to commence the manufacturing unit of PP multifilament yarn. In the year 2013, our promoters zeroed on Spin Draw Wind Line Machinery from Lohia Corp having monthly capacity of 50 MT. Spin-Draw-Wind Lines for polypropylene multifilament yarn offer compact and flexible solutions for varied applications. The machine is capable of producing medium to high tenacity air intermingled yarns for sewing threads, webbings & slings, braids & ropes and a variety of technical textiles. Moreover, we had taken premises admeasuring approx 4800 Square feet area at Block no. 95/3, Shed No. C2 & C3, Trimul Industrial Estate, Vadsar Village, Gandhinagar, on rental basis. Further we had arranged project term loan sanctioned from Bank for purchasing and installing Spin Draw Wind Line Machine.

After the installation of our first machine, our products were well received in market and demand was increasing day by day due to modernization of Woven Bag Production process. To cater the increasing demand of our products we planned to add one more plant in the month of May, 2014 of similar capacity of 50 MT/ per month thus aggregating to 100 MT/ per month.

Initially the promoters had made a strategic decision of selling 100% of our products in the state of Gujarat. However later backed with increased production capacity and an experienced marketing team, we expanded our sales to nearby states like Rajasthan, Madhya Pradesh & Maharashtra and also ventured in Export Markets. In a period of few years, we penetrated deeply in these markets and expanded to a huge customer base.

With deep penetration in local markets and looking forward to increase our export markets our Promoter envisioned to set up an ultra modern production facility. For this production facility land was acquired at Village Borisana (Taluka-Kadi) in May 2015 admeasuring area of 5009 sq. mtrs. The land purchased was later developed by constructing a Factory Shed admeasuring approximated 2800.00 sq.mtrs. along with Staff Quarters and Administrative Building. The promoters further decided to add 2 more Spin Draw Line Machines from Lohia Corp Ltd, hence increasing the total capacity of the company to 200 MT per month. Further old plants from rented premises were shifted to the new production site and all the 4 plants were fully operational by August 2016. We also manufacture on Job Work basis and get our products manufactured on Job Work basis.

With a monthly production capacity of 200 MT, the promoters also focused to penetrate in countries like Belgium, Uganda, Zimbabwe, Africa, Poland, Italy, Turkey, Katar, Srilanka, Bangladesh, Tanzania, Nigeria, Madagascar and Kenya.

The products of the company were well received in export markets and recently the company purchased 5th machine having installed capacity of 50 MT/per month. The said machine was fully operational from July, 2018 and currently the total combined capacity of the company is 250 MT/per month.

SECTION V – ABOUT US

INDUSTRY OVERVIEW

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

Overview of the Economy

The year 2017-18 was marked with strong macro-economic fundamentals. However, the growth of gross domestic product (GDP) moderated in 2017- 18 vis-à-vis 2016-17. There was an improvement in export growth, fiscal trends remained attuned to the consolidation plans and inflation remained within the limits. The year also witnessed an increase in global confidence in Indian economy as well as improvement in ease of doing business ranking. Various economic reforms were undertaken in the year which includes: implementation of the Goods and Service Tax, announcement of bank recapitalization, push to infrastructure development by giving infrastructure status to affordable housing, higher allocation of funds for highway construction and greater focus on coastal connectivity. Further initiatives include: lower income tax for companies with annual turnover up to 50 crore; allowing carry-forward of MAT credit up to a period of 15 years instead of 10 years at present; further measures to improve the ease of doing business; and, major push to digital economy. Other sectoral initiatives undertaken include: measures to revive the construction sector and promotion of exports in textile and apparel industry. Apart from these, the measures that were taken by the Government in the previous years to boost manufacturing, employment generation, improving ease of doing business and transparency via schemes such as Make-in-India, Skill India, direct benefit transfer and measures for financial inclusion were also taken forward in 2017-18. An important macro-economic challenge faced by the Indian economy relates to the declining trend in the investment and saving rates, as seen from the latest available data. Nonetheless, medium-term macro outlook remains bright against the background of implementation of GST, green shoots in the global economy, relatively stable prices and improvement in indicators of external sector.

GDP growth

As per the 1st Advanced Estimates released by the Central Statistics Office (CSO), the economy is expected to grow by 6.5 per cent in 2017-18 in terms of GDP at constant (2011-12) market prices. The gross value added (GVA) at constant (2011-12) basic prices is expected to grow by 6.1 per cent in 2017-18, as compared to the growth of 7.1 per cent achieved in 2016-17. The growth in agriculture, industry and services is estimated at 2.1 per cent, 4.4 per cent and 8.3 per cent respectively in 2017-18, as compared to 4.9 per cent, 5.6 per cent and 7.7 per cent in 2016-17. Growth rate of industry sector declined in 2017-18, mainly on account of moderate growth in manufacturing sector. It was the services sector that contributed to more than half of the overall GVA growth rate of 6.1 per cent in 2017-18. From the demand side, the final consumption expenditure has been the major driver of GDP growth. The growth of fixed investment at constant prices increased from 2.4 per cent in 2016-17 to 4.5 per cent in 2017-18. As per CSO, the exports of goods and services are estimated to grow by 4.5 per cent in real terms in 2017-18 as was the case in 2016-17, whereas the imports are estimated to grow by 10.0 per cent in 2017- 18 as against 2.3 per cent in 2016-17

Industry and Services

The performance of the industrial sectors based on the Index of Industrial Production (IIP) comprising mining, manufacturing and electricity reveals the industrial sector registered a growth of 3.2 per cent during April-November 2017, as compared to 5.5 per cent during the corresponding period of previous year. As per the sectoral classification, mining, manufacturing and electricity sectors registered 3.0 per cent, 3.1 per cent and 5.2 per cent growth during April-November 2017 over the corresponding period of previous year respectively. Among the use-based categories, primary goods, capital goods, intermediate goods, infrastructure/construction goods, consumer non-durables goods attained positive growth during April-November 2017.

Central Government Finances

Commitment to fiscal consolidation helped the Government achieve the fiscal deficit target of 3.5 per cent of GDP budgeted in 2016-17. In 2017-18, fiscal deficit and revenue deficit were budgeted at ₹ 5,46,532 crores (3.2 per cent of GDP) and ₹ .3,21,163 crores (1.9 per cent of GDP) respectively. The budget estimates (BE) for 2017-18 envisaged a tax to GDP ratio of 11.3 per cent and total expenditure to GDP ratio 12.7 per cent. The envisaged growth for gross tax revenue (GTR) was 12.2 per cent over revised estimate (RE) of 2016-17. The total expenditure in BE 2017-18 was estimated to increase by 6.6 per cent over RE of 2016-17.

As per the data on Union government finances for April-November 2017 released by Controller General of Accounts, the GTR increased by 16.5 per cent in comparison to the corresponding period of the previous year and was at 56.9 per cent of BE of 2017-18. The non-tax revenue registered a decline of 39.7 per cent over the corresponding period of the previous year. On the contrary, at the end of November 2017, the non-debt capital receipts increased by 89.9 per cent and stood at 73.3 per cent of the BE of 2017-18.

Major subsidies increased by 4.2 per cent during April-November 2017, as compared to April-November 2016. Food subsidy increased by ₹12,196 crore and petroleum subsidy increased by ₹2518 crore during April-November 2017 as compared to the corresponding period in 2016-17 while fertilizer subsidy declined by ₹6,437 crore.

Fiscal deficit and revenue deficit at 112 per cent of BE and 152.2 per cent of the BE respectively in the year 2017-18 (April-November) was higher than the five-year average of 89.2 per cent and 97.8 per cent respectively. The revised estimates place fiscal and revenue deficits at 3.5 per cent of GDP and 2.6 per cent of GDP respectively in 2017-18.

Prospects

The reforms measure undertaken in 2017-18 can be expected to strengthen and reinforce growth momentum. The prospects for Indian economy for the year 2018-19 need to be assessed in the light of emerging global and domestic developments. Indications are that global economic growth is expected to pick up slightly. This can be expected to provide further boost to India's exports, which have already shown acceleration in the current financial year. On the other hand, the increasing global prices of oil and other key commodities may exert an upward pressure on the value of imports. There are signs of revival of investment activity in the economy and the recent pick up in the growth of fixed investment can be expected to maintain momentum in the coming year. In line with the projections for strengthening of India's growth by multi-lateral institutions, the nominal growth of the economy is expected to be 11.5 per cent in the financial year 2018-19.

Fiscal Policy Outlook for 2018-19

The Government is aiming to revert to the path of fiscal rectitude after the temporary blip in the following year, that is FY 2018-19. This will also be the maiden year of the new targeting framework, where the twin focus would be on reducing debt and the fiscal deficit. The Government aims to reach the FD target of 3.3 per cent of GDP in BE 2018-19. 16. The Gross Tax Revenue of the Government is expected to increase to ₹ 2271242 crore in BE 2018- 19 from an RE of ₹ 1946119 crore. This implies a growth of 16.7 per cent over the RE. As a per cent of GDP this is anticipated to be 12.1 per cent compared to the 11.6 per cent assumed in RE 2017-18. There is a bump-up in the GTR to GDP estimates from the level of RE 2017-18. The caveat is that the GTR includes a portion, the GST Compensation Cess (amounting to ₹ 90000 crore) which cannot be utilised by the Central Government for its expenditure commitments. 17. Direct taxes have been projected to increase to ₹ 1150000 crore in BE 2018-19. This implies a growth of 14.4 per cent in 2018-19 compared to RE 2017-18. The increase in direct taxes is expected to be from both the arms of direct tax, namely Corporate Income Tax and Personal Income Tax. These have been budgeted to increase to ₹ 621000 crore and ₹ 529000 crore respectively. 18. Indirect taxes in BE 2018-19 are expected to be ₹ 1116000 crore. It is anticipated that the GST revenues will be ₹ 743900 crore in BE 2018-19 compared to ₹ 444631 crore in RE 2017-18. The fact that GST was imposed only after the completion of the first quarter. The non-GST component of the indirect taxes would be ₹ 372100 crore in BE 2018- 19. This is compared to ₹ 491744 crore in RE 2017- 18. It is expected that Indirect taxes will grow by 17.3 per cent in 2018-19 over RE 2017-18. 19. The Non tax revenue is expected to grow over the RE 2017-18 by 3.9 per cent to an amount of ₹ 245089 crore in BE 2018-19. As a per cent of GDP, the Non-tax Revenue component constitutes 1.3 per cent. Non-debt Capital Receipts have been budgeted in BE 2018-19 to be ₹ 92199 crore compared to the RE 2017-18 figure of ₹ 117473 crore. The main contributor to this kitty is from disinvestment receipts, which has been anticipated to be ₹ 80000 crore in BE 2018-19. Net borrowings and other liabilities are expected to be ₹ 624276 crore to finance the fiscal deficit, a majority of which would be mainly financed through market borrowings.

Subsidy Reforms:

Outgo on major subsidies is budgeted at 1.4 per cent of GDP in BE 2018-19. Rationalization of major subsidies is important from the viewpoint of fiscal consolidation. The effort of Government would be to address this issue with a two pronged strategy. Government is committed to progressively pursuing subsidy reforms in a manner that will ensure efficient targeting of subsidies to the poor and needy, while also saving scarce financial resources for investment in infrastructure and pursuit of new development programmed announced by the Government. With the aim of reforming Government delivery system by reengineering the existing process in welfare schemes for simpler and faster flow of information/funds and to ensure accurate targeting of the beneficiaries, deduplication and reduction of fraud, Direct

Benefit Transfer (DBT) was started on 1st January, 2013. 41. Jharkhand has become the first State in the country to implement DBTK in all the districts of the State. Further, the UTs of Delhi, Chandigarh, Daman & Diu, Dadra & Nagar Haveli and Puducherry have become Kerosene Free and all the remaining UTs are also likely to become Kerosene free shortly. The State(s) of Haryana, Punjab and Andhra Pradesh have also become Kerosene Free. 42. Pilot run of DBT in fertilizer was completed by 31st March, 2017 in 14 districts and in newly added 3 districts in Aug 2017. Currently PAN India roll-out is under process. When PAN India roll out of DBT in fertilizers happens, the subsidies will be paid within a week of sales being registered in the PoS machines. 43. One of our Promoter-Director Mr. Anil Somani started a company called Shubham Tex-O-Pack Private Limited which is engaged in HDPE/PP woven polybags. In the year 2010, Mr. Ankit Somani son of Mr. Anil Somani, joined the business of his father to gain the experience and understand the intricacy of said industry. After gaining an experience of 3 years in production, planning and sales, it was decided to diversify the products and enter into a more futuristic product having applications in various upcoming and existing industries. Mr. Ankit Somani promoter director of our company inspired from his father decided to start a new business which can be run on autonomous mode.

In the year 2012, Our Promoter Directors attended the Plast India event at Delhi and met Mr. Rajkumar Lohia (Chairman of Lohia Corp Limited), a company which is renowned worldwide (source: <http://www.lohiagroup.com/contact>) in making plastic packaging machineries. During the discussion with Mr. Lohia about the new and upcoming product in the industry and scope of the product in the next 5 years, he suggested our promoters to choose Multifilament yarn as a new product. Moreover, Lohia technical team also helped us to understand the product, machines and consumer industry of the Multifilament yarn. Multifilament yarn is the main component to be used in stitching of woven bags, manufacturing of geotextiles and filter fabrics as well as webbings. Multifilament Yarns enabled the bag manufacturer to switch to auto bag making machines which further reduces labour dependency and achieve defect free and time bound production.

After studying and understanding the technical viability of the Polypropylene (PP) multifilament yarn industry, our promoter director decided to commence the manufacturing unit of PP multifilament yarn. In the year 2013, our promoters zeroed on Spin Draw Wind Line Machinery from Lohia Corp having monthly capacity of 50 MT. Spin-Draw-Wind Lines for polypropylene multifilament yarn offer compact and flexible solutions for varied applications. The machine is capable of producing medium to high tenacity air intermingled yarns for sewing threads, webbings & slings, braids & ropes and a variety of technical textiles. Moreover, we had taken premises admeasuring approx 4800 Square feet area at Block no. 95/3, Shed No. C2 & C3, Trimul Industrial Estate, Vadsar Village, Gandhinagar, on rental basis. Further we had arranged project term loan sanctioned from Bank for purchasing and installing Spin Draw Wind Line Machine.

After the installation of our first machine, our products were well received in market and demand was increasing day by day due to modernization of Woven Bag Production process. To cater the increasing demand of our products we planned to add one more plant in the month of May, 2014 of similar capacity of 50 MT/ per month thus aggregating to 100 MT/ per month.

Initially the promoters had made a strategic decision of selling 100% of our products in the state of Gujarat. However later backed with increased production capacity and an experienced marketing team, we expanded our sales to nearby states like Rajasthan, Madhya Pradesh & Maharashtra and also ventured in Export Markets. In a period of few years, we penetrated deeply in these markets and expanded to a huge customer base.

With deep penetration in local markets and looking forward to increase our export markets our Promoter envisioned to set up an ultra modern production facility. For this production facility land was acquired at Village Borisana (Taluka-Kadi) in May 2015 admeasuring area of 5009 sq. mtrs. The land purchased was later developed by constructing a Factory Shed admeasuring approximated 2800.00 sq.mtrs. along with Staff Quarters and Administrative Building. The promoters further decided to add 2 more Spin Draw Line Machines from Lohia Corp Ltd, hence increasing the total capacity of the company to 200 MT per month. Further old plants from rented premises were shifted to the new production site and all the 4 plants were fully operational by August 2016. We also manufacture on Job Work basis and get our products manufactured on Job Work basis. We also manufacture on Job Work basis and get our products manufactured on Job Work basis.

With a monthly production capacity of 200 MT, the promoters also focused to penetrate in countries like Belgium, Uganda, Zimbabwe, Africa, Poland, Italy, Turkey, Katar, Srilanka, Bangladesh, Tanzania, Nigeria, Madagascar and Kenya.

The products of the company were well received in export markets and recently the company purchased 5th machine having installed capacity of 50 MT/per month. The said machine was fully operational from July, 2018 and currently the total combined capacity of the company is 250 MT/per month.

1. POLYPROPYLENE MULTIFILAMENT YARN (TWISTED AND AIR INTERMINGLED YARN)

Polypropylene multifilament yarns comprise a great member of parallel filaments which are in no way tied together. It is used for making various sizes of rope which have more strength and abrasion, resistant for general use.

Polypropylene (PP) is a thermoplastic “addition polymer” made from the combination of propylene monomers. It is used in a variety of applications to include packaging for consumer products, plastic parts for various industries including the automotive industry, special devices like living hinges, and textiles. Today it is manufactured around the world and is used in a rapidly growing variety of applications. Polypropylene is an essential material in most fields and industries imaginable -home goods, textiles, medical and laboratory equipment and the list goes on and on. Polypropylene has shown excellent resistance to organic solvents and degreasing agents as well as electrolytic attack. Polypropylene produces fewer solid wastes by weight than polyethylene terephthalate (PET), polystyrene (PS) or polyvinylchloride (PVC). It also produces significantly less CO₂ equivalents by weight than PET, PS or PVC.

MANUFACTURING PROCESS

1. Air Intermingled Yarn/Twisted Yarn

i. Procurement of Raw Material

Our manufacturing process starts from procurement of Raw Material. Polypropylene (PP) Granules is the main raw material for manufacturing our product. The raw material is a by-product of coal and this requires no quality assurances.

ii. Dumping of Raw Material, Melting of Raw Material (PP) Granules into extruder and flowing out from Sprinters

The PP granules are put into the hopper of the extruder unit and melted in the cylinder section of the extruder unit. This process converts the granules into monofilaments. Spinning is a process for creating polymer fibers.

iii. Combining of filament yarns to form a multifilament yarn

A certain diameter of the monofilament in the extruder is passed through nozzle plate. It is a specialized form of extrusion that uses a spinneret to form multiple continuous filaments.

iv. Cooling and Stretching for making Single Yarn

The monofilament is stretched so as to achieve required strength and diameter. The same filament is cooled down at quenching bath where chilled water is provided by the chilling unit of the extruder.

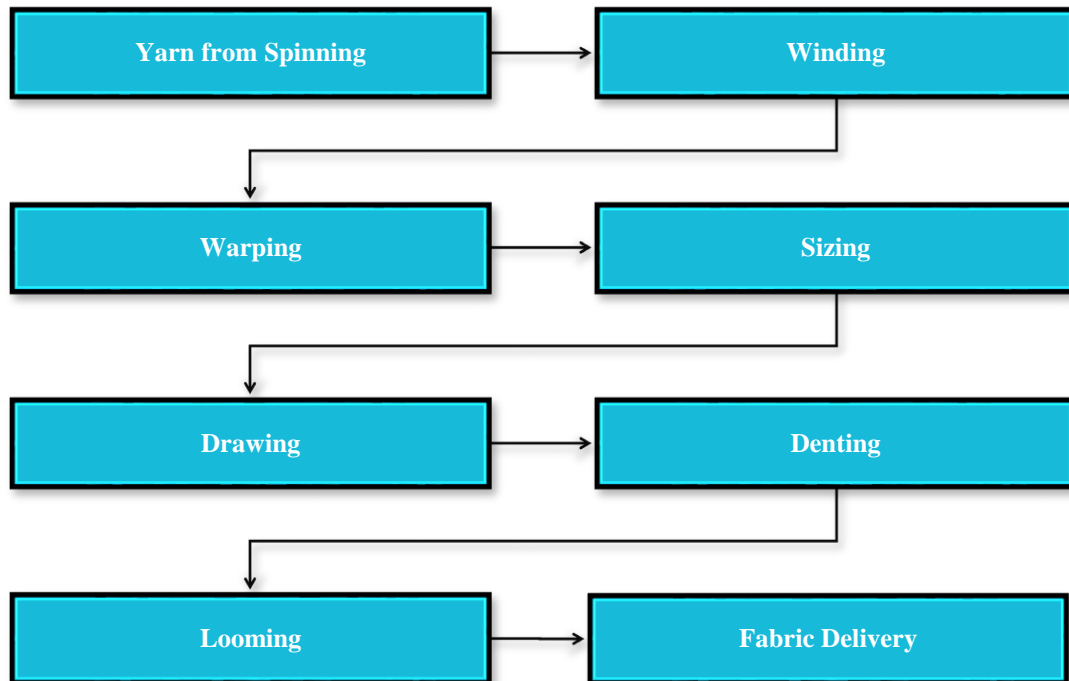

v. Winding of filament yarn on corrugated cones on winders and twisting the yarns on twister

Combining of filaments yarn to make multifilament yarn. The cooled single yarns are combined and twisted as per the requirements of the thickness required to make one multifilament twisted yarn for end users.

vi. Packing

Upon final inspection by the officials the prepared multifilament spools/bobbins are packed for shipping to the customers. Finally the final package of the yarn would be made according to the required specification and size of the package.

2. PP Webbing & Narrow Woven Fabrics

i. Yarn from spinning

Weaving is a complicated process. First step of weaving is receiving yarn from spinning as several packages. Several types of yarns with different count are used in weaving. Both natural and man-made type yarns can be used. Man made Ziber like polyester, polypropylene, spandex, lycra, nylon etc. are also used.

ii. Winding

Yarn package supplied from spinning are not suitable for weaving. Because, weaving process requires heavy length of yarns which are not found in yarn package. Generally yarn package contains 300m---450m length of yarn where 2000 m -5000m length of yarn required for weaving. In the winding process yarn from several packages are holds together in a big package.

iii. Warping:

Warping is the process of winding the many packages of yarn into a warping beam or weavers beam. Basically according to this weavers beam actually displayed the warp way of a fabric.

iv. Sizing

It is the application of protective coating surface upon the surface of yarn. Generally Loom gives jerky motion on the yarn. Yarn has limited amount of strength against the jerky motion. So Sizing gives extra strength to the yarn. Sizing ingredients include starch, softening agent, anti-mildew agent, moth proofing agent, etc.

v. Drawing

It is the process of passing the yarn into the heald eye of heald wire. A special type of needle is used to be passed the yarn into the heald eye.

vi. Denting

It is the process of passing the yarn into the middle space of two adjacent dent of reed. A special type of needle used in this process.

vii. Looming

It is the process of placing the heald frame, sized beam, reed in the loom to perform the weaving process.

viii. Fabric Delivery

Yarns passed from weaving zone are turned into the fabric finally. Fabric is rolled on a roller which is called fabric or takes up roller.

PLANT & MACHINERY

Our Manufacturing unit is equipped with all required machinery to achieve targeted production with various models of Spin Draw Wind Line for PP Multifilament Yarn, Compact water Chiller, Air Chiller, Air Compressor, Air receiver, Computerized Tensile Testing Machine, Stratch Wrapping Machine, Distribution transformer, Weaving Machine etc.

TECHNOLOGY

Our Company is having 5 Spin Draw Wind Line Machines of different models for manufacturing of PP Multifilament Yarn/Fabrics. These types of Wind Line Machines use Spin & Draw technology to manufacture PP Multifilament Yarn.

COLLABORATIONS, ANY PERFORMANCE GUARANTEE OR ASSISTANCE IN MARKETING BY THE COLLABORATORS

We export our products directly and through Merchandise exports in many countries namely Belgium, Poland, Italy, Turkey, Qatar, Oman, Sri-lanka, Bangladesh, Tanzania, Ethiopia, South Africa, Nigeria, Madagascar, Kenya, East Africa, Zimbabwe, Malawia etc.

COMPETITION

We operate in a highly competitive market and there are large numbers of players in organized sector. Our competition depends on the products being offered by various companies in the organized segment besides several other factors like quality, price, and timely delivery. Competition emerges not only from small but also from big regional and National and international players. Our experience in this business has enabled us to provide quality products in response to customer's demand for best quality. Moreover, there are minimal entry barriers in this industry and any expansion in capacity of existing manufacturers would further intensify competition.

UTILITIES AND INFRASTRUCTURE FACILITIES LIKE RAW MATERIAL, WATER ETC.

RAW MATERIAL

The major raw material used in our manufacturing process is Polypropylene (PP) Granules, Colour Master batches, UV Master Batches, Spin finish Oil etc.

1. POLYPROPYLENE

Polypropylene (PP) is a petroleum-based thermoplastic polymer belonging to the olefin family, obtained from the polymerization of propylene. The multifilament polypropylene yarn is produced from an isotactic polypropylene homopolymer. It is produced via chain-growth polymerization from the monomer propylene. Polypropylene belongs to the group of polyolefins and is partially crystalline and non-polar. Its properties are similar to polyethylene, but it is slightly harder and more heat resistant. It is a white, mechanically rugged material, and has a high chemical resistance. Polypropylene is the second- most widely produced commodity plastic (after polyethylene) and is often used in packaging and labeling.

Characteristics

- ✓ High tensile strength and hard-wearing
- ✓ 100% virgin resin
- ✓ Abrasion resistance
- ✓ Causes no pilling effect
- ✓ Anti – static
- ✓ Discourages mildew and fungi growth
- ✓ 100% recyclable and non-polluting
- ✓ Wide range of bright, solid colors
- ✓ Dirt-resistant
- ✓ Adhesion
- ✓ Minimum thermal conductivity

2. UV MASTER BATCHES

Plastics are sensitive to degradation by UV Light and must be therefore protected when exposed to solar radiation. The extent and rate of this degradation is influenced by various parameters such as for example, climatic conditions and thickness of the part, polymer type or the presence of other additives.

UV Masterbatches protects the polymers against UV degradation, avoid discolouration and improves the processability. UV stabilizer Masterbatches do not absorb the harmful UV radiations, thus assures good performance and stabilize the mechanical properties and elongation.

3. SPIN FINISH OIL

It is a combination of lubricants and surfactants to facilitate processing of Polypropylene yarn.

Characteristics:-

- ✓ Offers high level of antistatic protection.
- ✓ Extremely low fibre / Metal & Fibre / Ceramic friction.
- ✓ Has an excellent wetting power for homogeneous film formation.
- ✓ Good thermal Stability.
- ✓ No hot roll deposits.
- ✓ Suitable for rolling and nozzle lubrication and be used as Neat.

4. COLOUR MASTER BATCHES

Masterbatch is a concentrated mixture of pigments and/or additives encapsulated during a heat process into a carrier resin which is then cooled and cut into a granular shape. Masterbatch allows the processor to colour raw polymer economically during the plastics manufacturing process.

Procurement/Availability

At present, our Company is purchasing raw material from various states like Gujarat, Punjab, Haryana, Maharashtra etc. We also source our raw materials from international markets wherever require.

WATER

Our water requirement is fulfilled through boring facility. Hence water requirement at our manufacturing unit is met from own bore well. We do not require ample quantity of water, as we reuse the water upto optimum level.

POWER

We require power supply to manufacturing our products and to meet our requirement, we have been sanctioned load of 475 KVA from UGVCL (Uttar Gujarat Vij Company Limited). We have not installed generator for power back up.

LOGISTIC

We presently do not own any trucks. We exclusively rely on third party transporters for procurement of Raw Materials from suppliers and delivery of our products to our customers.

PACKING

First, our product is packed with a PVC shrink film from an automatic shrink-wrap machine and is placed in a strong carton. The carton is then wrapped with the automatic box wrapping machine to protect the product in transit.

HUMAN RESOURCES

Human resource is an asset to any industry. We believe that our employees are the key to the success of our business. We focus on hiring and retaining employees and workers who have prior experience in the Plastic Industry. Our manpower is a prudent mix of experienced and young personnel which gives us the dual advantage of stability and growth. Regulation of Foreign Investment in India

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) and the rules and regulations promulgated there under. The RBI, in exercise of its powers under FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 (“FEMA Regulations”) which prohibit, restrict and regulate, transfer or issue of securities to a person resident outside India. Pursuant to the FEMA Regulations, no prior consent or approval is required from the RBI for foreign direct investment under the “automatic route” within the specified sectoral caps prescribed for various industrial sectors. In respect of all industries not specified under the automatic route, approval for such investment may be required from the FIPB and/or the RBI. Further, FIIs may purchase shares and convertible debentures of an Indian company under the portfolio investment scheme through registered brokers on recognized stock exchanges in India. Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development Act, 2006 as amended from time to time (“MSMED Act”) seeks to facilitate the development of micro, small and medium enterprises. The Union Cabinet has approved amendment to Micro, Small and Medium Enterprises Development (MSMED) Act, 2006 for classifying MSMEs from current investment in plant and machinery criteria to annual turnover criteria. The purpose of amendment to Section 7 of MSMED Act, 2006 is to encourage ease of doing business, make MSME classification norms growth oriented and align them to new indirect tax regime revolving around Goods & Services Tax (GST). This will define units producing goods and rendering services in terms of annual turnover. It will pave the way for increased direct and indirect employment in the MSE sector of the country.

- a. where the annual turnover does not exceed Rupees Five Crore, an enterprise shall be regarded as a micro enterprise;
- b. where the annual turnover is more than Rupees Five Crore but does not exceed Rupees Seventy Five Crore, an enterprise shall be regarded as a small enterprise;
- c. where the annual turnover is more than Rupees Seventy Five Crore but does not exceed Rupees Two Hundred Fifty Crore, an enterprise shall be regarded as a medium enterprise

The amendment empowers Central Government to vary turnover limits, provided not exceeding thrice the limits specified in Section 7 of MSMED Act by issuing notification.

The MSMED Act provides for the memorandum of micro, small and medium enterprises to be submitted by the relevant enterprises to the prescribed authority. The submission of the memorandum by micro and small and medium enterprises engaged in rendering services is optional. The MSMED Act defines a supplier to mean a micro or small enterprise that has filed a memorandum with the concerned authorities in accordance with Section 8 of the MSMED Act. The MSMED Act ensures that the buyer of goods or services makes payment for the goods supplied or services rendered to him immediately or before the date agreed upon between the buyer and supplier. The MSMED Act provides that the agreed period cannot exceed forty five days from the day of acceptance of goods or services. The MSMED Act also stipulates that in case the buyer fails to make payment to the supplier within the agreed period, then the buyer will be liable to pay compound interest at three times of the bank rate notified by the Reserve Bank of India from the date immediately following the date agreed upon. The MSMED Act also provides for the establishment of the Micro and Small Enterprises Facilitation Council (“Council”). The Council has jurisdiction to act as an arbitrator or conciliator in a dispute between the supplier located within its jurisdiction and a buyer located anywhere in India.

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as the Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. A destination based consumption tax GST would be a dual GST with the center and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Tax Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made there under.

The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration numbers known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. The registered assessee is then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

GST has replaced the following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling. It is applicable on all goods except for alcohol for human consumption and five petroleum products.

GST council has mandated the implementation of e way bill under GST from April 1, 2018 for interstate movement and from 1st June 2018 for Intra- state Movement of Goods. The E-Way Bill under the GST Regime replaces the Way Bill which was required under the VAT Regime for the movement of Goods. The way bill under the VAT Regime was a physical document which was required to be generated for the movement of goods. The physical document under the VAT Regime has now been replaced with an electronically generated document in the GST Regime.

EWay Bill is an electronic way bill for movement of goods which can be generated on the e-way Bill Portal. Transport of goods of more than ₹ 50,000 (Single Invoice/bill/delivery challan) in value in a vehicle cannot be made by a registered person without an e-way bill. When an e-way bill is generated a unique e-way bill number (EBN) is allocated and is available to the supplier, recipient, and the transporter.

A Registered person or the transporter may choose to generate and carry e-way bill even if the value of goods is less than ₹ 50,000.

The requirement of e-way bills for movement of goods within the States /UT will start from 15th April 2018 in a phased manner by grouping the States/UT into four lots. GST Council in the coming days shall announce this arrangement.

Value Added Tax (“VAT”)

The levy of Sales Tax within the state is governed by the Value Added Tax Act and Rules 2008 (“the VAT Act”) of the respective states. The VAT Act has addressed the problem of Cascading effect (double taxation) that were being levied under the hitherto system of sales tax. Under the current regime of VAT the trader of goods has to pay the tax (VAT) only on the Value added on the goods sold. Hence VAT is a multi-point levy on each of the entities in the supply chain with the facility of set-off of input tax- that is the tax paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. Only the value addition in the hands of each of the entities is subject to tax. Periodical returns are required to be filed with the VAT Department of the respective States by the Company.

HISTORY

One of our Promoter-Director Mr. Anil Somani started a company called Shubham Tex-O-Pack Private Limited which is engaged in HDPE/PP woven polybags. In the year 2010, Mr. Ankit Somani son of Mr. Anil Somani, joined the business of his father to gain the experience and understand the intricacy of said industry. After gaining an experience of 3 years in production, planning and sales, it was decided to diversify the products and enter into a more futuristic product having applications in various upcoming and existing industries. Mr. Ankit Somani promoter director of our company inspired from his father decided to start a new business which can be run on autonomous mode.

In the year 2012, Our Promoter Directors attended the Plast India event at Delhi and met Mr. Rajkumar Lohia (Chairman of Lohia Corp Limited), a company which is renowned worldwide (source: <http://www.lohiagroup.com/contact>) in making plastic packaging machineries. During the discussion with Mr. Lohia about the new and upcoming product in the industry and scope of the product in the next 5 years, he suggested our promoters to choose Multifilament yarn as a new product. Moreover, Lohia technical team also helped us to understand the product, machines and consumer industry of the Multifilament yarn. Multifilament yarn is the main component to be used in stitching of woven bags, manufacturing of geotextiles and filter fabrics as well as webbings. Multifilament Yarns enabled the bag manufacturer to switch to auto bag making machines which further reduces labour dependency and achieve defect free and time bound production.

After studying and understanding the technical viability of the Polypropylene (PP) multifilament yarn industry, our promoter director decided to commence the manufacturing unit of PP multifilament yarn. In the year 2013, our promoters zeroed on Spin Draw Wind Line Machinery from Lohia Corp having monthly capacity of 50 MT. Spin-Draw-Wind Lines for polypropylene multifilament yarn offer compact and flexible solutions for varied applications. The machine is capable of producing medium to high tenacity air intermingled yarns for sewing threads, webbings & slings, braids & ropes and a variety of technical textiles. Moreover, we had taken premises admeasuring approx 4800 Square feet area at Block no. 95/3, Shed No. C2 & C3, Trimul Industrial Estate, Vadsar Village, Gandhinagar, on rental basis. Further we had arranged project term loan sanctioned from Bank for purchasing and installing Spin Draw Wind Line Machine.

After the installation of our first machine, our products were well received in market and demand was increasing day by day due to modernization of Woven Bag Production process. To cater the increasing demand of our products we planned to add one more plant in the month of May, 2014 of similar capacity of 50 MT/ per month thus aggregating to 100 MT/ per month.

Initially the promoters had made a strategic decision of selling 100% of our products in the state of Gujarat. However later backed with increased production capacity and an experienced marketing team, we expanded our sales to nearby states like Rajasthan, Madhya Pradesh & Maharashtra and also ventured in Export Markets. In a period of few years, we penetrated deeply in these markets and expanded to a huge customer base.

With deep penetration in local markets and looking forward to increase our export markets our Promoter envisioned to set up an ultra modern production facility. For this production facility land was acquired at Village Borisana (Taluka-Kadi) in May 2015 admeasuring area of 5009 sq. mtrs. The land purchased was later developed by constructing a Factory Shed admeasuring approximated 2800.00 sq.mtrs. along with Staff Quarters and Administrative Building. The promoters further decided to add 2 more Spin Draw Line Machines from Lohia Corp Ltd, hence increasing the total capacity of the company to 200 MT per month. Further old plants from rented premises were shifted to the new production site and all the 4 plants were fully operational by August 2016. We also manufacture on Job Work basis and get our products manufactured on Job Work basis.

With a monthly production capacity of 200 MT, the promoters also focused to penetrate in countries like Belgium, Uganda, Zimbabwe, Africa, Poland, Italy, Turkey, Katar, Srilanka, Bangladesh, Tanzania, Nigeria, Madagascar and Kenya.

The products of the company were well received in export markets and recently the company purchased 5th machine having installed capacity of 50 MT/per month. The said machine was fully operational from July, 2018 and currently the total combined capacity of the company is 250 MT/per month.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to our Company and, is based on our restated financial statements, which have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI Regulations. Portions of the following discussion are also based on internally prepared statistical information and on other sources. You should read the following discussion of our financial condition and results of operations together with our restated financial statements included in the Prospectus. You should also read the section entitled "Risk Factors" beginning on page no. 9 of this Prospectus, which discusses a number of factors, risks and contingencies that could affect our financial condition and results of operations.

Our fiscal year ends on March 31 of each year, so all references to a particular fiscal year ("Fiscal Year") are to the twelve-month period ended March 31 of that year.

COMPANY'S BACKGROUND

Our Company was incorporated as "Shubham Polyspin Private Limited" at Ahmedabad on March 12, 2012, under the provisions of the Companies Act, 1956 vide Certificate of Incorporation issued by the Registrar of Companies, Gujarat, Dadra and Nagar Haveli. Consequent upon the conversion of our Company from Private Limited Company to Public Limited Company, the name of our Company was changed to "Shubham Polyspin Limited" and fresh Certificate of Incorporation consequent upon the conversion from Private Limited Company to Public Limited Company dated July 24, 2018 was issued by the Registrar of Companies, (RoC) Ahmedabad.

One of our Promoter-Director Mr. Anil Somani started a company called Shubham Tex-O-Pack Private Limited which is engaged in HDPE/PP woven polybags. In the year 2010, Mr. Ankit Somani son of Mr. Anil Somani, joined the business of his father to gain the experience and understand the intricacy of said industry. After gaining an experience of 3 years in production, planning and sales, it was decided to diversify the products and enter into a more futuristic product having applications in various upcoming and existing industries. Mr. Ankit Somani promoter director of our company inspired from his father decided to start a new business which can be run on autonomous mode.

In the year 2012, Our Promoter Directors attended the Plast India event at Delhi and met Mr. Rajkumar Lohia (Chairman of Lohia Corp Limited), a company which is renowned worldwide (source: <http://www.lohiagroup.com/contact>) in making plastic packaging machineries. During the discussion with Mr. Lohia about the new and upcoming product in the industry and scope of the product in the next 5 years, he suggested our promoters to choose Multifilament yarn as a new product. Moreover, Lohia technical team also helped us to understand the product, machines and consumer industry of the Multifilament yarn. Multifilament yarn is the main component to be used in stitching of woven bags, manufacturing of geotextiles and filter fabrics as well as webbings. Multifilament Yarns enabled the bag manufacturer to switch to auto bag making machines which further reduces labour dependency and achieve defect free and time bound production.

After studying and understanding the technical viability of the Polypropylene (PP) multifilament yarn industry, our promoter director decided to commence the manufacturing unit of PP multifilament yarn. In the year 2013, our promoters zeroed on Spin Draw Wind Line Machinery from Lohia Corp having monthly capacity of 50 MT. Spin-Draw-Wind Lines for polypropylene multifilament yarn offer compact and flexible solutions for varied applications. The machine is capable of producing medium to high tenacity air intermingled yarns for sewing threads, webbings & slings, braids & ropes and a variety of technical textiles. Moreover, we had taken premises admeasuring approx 4800 Square feet area at Block no. 95/3, Shed No. C2 & C3, Trimul Industrial Estate, Vadsar Village, Gandhinagar, on rental basis. Further we had arranged project term loan sanctioned from Bank for purchasing and installing Spin Draw Wind Line Machine.

After the installation of our first machine, our products were well received in market and demand was increasing day by day due to modernization of Woven Bag Production process. To cater the increasing demand of our products we planned to add one more plant in the month of May, 2014 of similar capacity of 50 MT/ per month thus aggregating to 100 MT/ per month.

Initially the promoters had made a strategic decision of selling 100% of our products in the state of Gujarat. However later backed with increased production capacity and an experienced marketing team, we expanded our sales to nearby states like Rajasthan, Madhya Pradesh & Maharashtra and also ventured in Export Markets. In a period of few years, we penetrated deeply in these markets and expanded to a huge customer base.

With deep penetration in local markets and looking forward to increase our export markets our Promoter envisioned to set up an ultra modern production facility. For this production facility land was acquired at Village Borisana (Taluka-Kadi) in May 2015 admeasuring area of 5009 sq. mtrs. The land purchased was later developed by constructing a Factory Shed admeasuring approximated 2800.00 sq.mtrs. along with Staff Quarters and Administrative Building. The promoters further decided to add 2 more Spin Draw Line Machines from Lohia Corp Ltd, hence increasing the total capacity of the

company to 200 MT per month. Further old plants from rented premises were shifted to the new production site and all the 4 plants were fully operational by August 2016. We also manufacture on Job Work basis and get our products manufactured on Job Work basis.

With a monthly production capacity of 200 MT, the promoters also focused to penetrate in countries like Belgium, Uganda, Zimbabwe, Africa, Poland, Italy, Turkey, Katar, Srilanka, Bangladesh, Tanzania, Nigeria, Madagascar and Kenya.

The products of the company were well received in export markets and recently the company purchased 5th machine having installed capacity of 50 MT/per month. The said machine was fully operational from July, 2018 and currently the total combined capacity of the company is 250 MT/per month.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2017 (“FDI Policy 2017”), which is effective from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“RBI”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100% foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time.
