5. The COVID-19 pandemic, or any future pandemic or widespread public health emergency, could materially and adversely impact our business, financial condition, cash flows and results of operations.

Since first being reported in December 2019, the outbreak of COVID-19 has spread globally. The World Health Organization declared the outbreak of COVID-19 to be a public health emergency of international concern on January 30, 2020, and a global pandemic on March 11, 2020. The COVID-19 pandemic has had, and any future pandemic or widespread public health emergency could have, repercussions across regional and global economies and financial markets. The outbreak of COVID-19 in many countries, including India has significantly and adversely impacted economic activity and has contributed to significant volatility and negative pressure in financial markets, and it is possible that the outbreak of COVID-19 will cause a prolonged global economic crisis, recession or depression, despite monetary and fiscal interventions by governments and central banks globally.

The global impact of the outbreak has been rapidly evolving. As cases of COVID-19 have continued to be identified in additional countries, many jurisdictions, including the governments of India, have reacted by instituting restrictive measures including invoking lock downs and quarantines, requiring the closure of non-essential businesses and placing restrictions on the types of businesses that may continue to operate, mandating restrictions on travel, implementing "shelter-in-place" rules and "stay-at-home" orders, and enforcing remote working regulations. No prediction can be made of when any of the restrictions currently in place will be relaxed or expire, or whether or when further restrictions will be announced. Although some governments are beginning to ease or lift these restrictions, the impacts from the severe disruptions caused by the effective shutdown of large segments of the global economy or localized lockdowns remain unknown.

On March 24, 2020, the Government of India ordered a national lockdown in response to the spread of COVID-19. Operations of our company were not classified as under essential category. Our offices were closed from March 24, 2020 to July 2020. We resumed our office from August 2020. However the team members have been working from home during lockdown and have been able to execute their responsibilities and service clients. Further, our ability to ensure the safety of our workforce and continuity of operations while conforming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees contract COVID-19, we may be required to quarantine our employees and shut down a part of or the entire operating facility as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, loss of life, injuries and impact the wellbeing of our employees. The ultimate impact will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India, and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus.

After Lockdown our company has procured raw material locally in order to meet demand. However, after ease in lockdown our company started requisite material from china.

Covid-19 has not affected our financially condition much. Our company has earned similar revenue during April to June 2020 Quarter as it was in April to June 2019 Quarter.

A rise in number of infected cases of COVID-19 in the country, there is no certainty if additional restrictions will be put back in place or if another lockdown would be re-imposed to control the spread of the pandemic. We cannot assure you that we may not face any difficulty in our operations due to such restrictions and such a prolonged instance of lockdown may adversely affect our business, financial condition and results of operations.

There can be no assurance that there will not be any material impact on our operations if the outbreak of COVID-19 is not effectively controlled. Although some restrictions have been eased.

The full extent to which the COVID-19 pandemic, or any future pandemic or widespread public health emergency impacts our business, operations and financial results will depend on numerous evolving factors that we may not be able to accurately predict, including the scope, severity, and duration of the pandemic; actions taken by governments, business and individuals in response to the pandemic; the effect on customer demand for and ability to pay for our products; the disruptions or restrictions on our employees' and suppliers' ability to work and travel; volatility in foreign exchange rates; any extended period of remote work arrangements; and strain on our or our customers' business continuity plans, and resultant operational risk.

The COVID-19 pandemic, or any future pandemic or widespread public health emergency could therefore materially and adversely impact our business, financial condition, cash flows and results of operations.

6. Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive primarily on account of credit period given to customers, amount blocked in , inventory, advance payment to suppliers. Summary of our working capital position is given below:-

*The average cost of acquisition of Equity Shares by our Promoters has been calculated by taking into account the amount paid by them and also acquisition of the business to acquire, by way of fresh issuance or transfer, the Equity Shares less amount received by them for the sale of Equity Shares through transfer, if any and the net cost of acquisition has been divided by total number of shares held as on date of the Prospectus.

- 15. Our success depends in large part upon the strength of our management team and other skilled professionals. If we fail to attract, retain and manage transition of these personnel, our business may be unable to grow and our revenue could decline.**

The continued efforts of the senior members of our management team and other skilled professionals are critical to our success. Our ability to execute engagements and to obtain new clients depends in large part on our ability to attract, train, motivate and retain skilled professionals, especially senior management personnel, senior technical personnel, managers etc. If we cannot hire and retain additional qualified personnel, our ability to obtain new projects and to continue to expand our business will be impaired and our revenue could decline. We believe that there is significant competition within our industry for professionals with the skills necessary for better performance, particularly in the locations in which we have operations. We may not be able to hire and retain enough skilled and experienced employees to replace those who leave. Increasing competition for technology professionals may also impact our ability to retain personnel. Changes in government policies may also affect our ability to attract hire and retain personnel. If we are unable to offer them higher compensation, we may be unable to attract or retain them. Our business, financial condition and results of operations could be adversely affected if we are unable to manage employee hiring and attrition to achieve a stable and efficient workforce structure.

- 16. In the event there is any delay in the completion of the Issue, or delay in schedule of implementation, there would be a corresponding delay in the completion of the objects of this Issue which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the objects of the Issue as has been stated in the chapter titled “OBJECTS OF THE ISSUE” on Page no. 58 of this Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, it may adversely affect our revenues and results of operations.

- 17. We have not identified any alternate source of raising the funds required for our ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.**

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds may require us to borrow the funds on unfavorable terms; such scenarios may affect the business operation and financial performance of the company.

- 18. Our operations may be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other industrial unrest or dispute.**

While we have not experienced any unrest or dispute in our company in the past, we cannot be certain that we will not suffer any disruption to our operations due to strikes, work stoppages or increased salary demands in the future. Further, if our work force in our unit unionizes in the future, collective bargaining efforts by employee unions may divert our management’s attention and result in increased costs. We may be unable to negotiate acceptable collective wage settlement agreements with those workers who have chosen to be represented by unions, which may lead to union-initiated strikes or work stoppages. Any shortage of skilled and experienced workers caused by such industrial unrest or disputes may adversely affect our business, results of operations and financial condition. Further, under Indian law, we may be held liable for wage payments or benefits and amenities made available to “daily wage” workers. Any requirement to discharge such payment obligations, benefits or amenities or to absorb a significant portion of the salary on our own rolls may adversely affect our business, results of operations and financial condition.

- 19. In addition to normal remuneration, other benefits and reimbursement of expenses to our Promoters and Directors; they are interested to the extent of their shareholding and dividend entitlement thereon in our Company and for the transactions entered into between our Company and themselves as well as between our Company and our Group Companies/Entities.**

Our Promoters – Directors are interested in our Company to the extent of their shareholding and dividend entitlement thereon in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. Further, our Promoters and Directors are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Company/Entity which may be or may not be at Arms’ Length Price and in Ordinary Course of Business. If the transactions are executed not on Arms’ Length Price and in Ordinary Course of Business, our financial position may get affected to that extent. Our company has entered into various sales and purchase transactions with related party transaction in past which were not at arm’s length basis. Our company has not complied with provisions of Section 188(1)(a) of the companies Act, 2013 and rules made thereunder w.r.t. sale, purchase or supply of any goods or materials and for such transactions already entered in the past. Till the date of filing of this prospectus,

no action have been initiated by ROC, however we cannot assure that no punitive actions will be taken against our company for such noncompliance. For details of transactions already entered by our Company with our Promoters, Directors and Group Companies/Entities during last three years, please refer to the “Annexure – J” - “RELATED PARTY TRANSACTION” on page F38 of Restated Financial Statements under the Chapter titled “RESTATED FINANCIAL INFORMATION” beginning on Page No. 124 of Draft Prospectus.

20. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial condition.

Our Company had negative cash flows from our operating activities in the previous years as per the Restated Financial Statements and the same are summarized as under.

(₹ In Lakh)

Particulars	For the period ended	For the year ended		
	November 30, 2021	March 31, 2021	March 31, 2020	March 31, 2019
Net Cash Generated from Operating Activities	(587.73)	5.30	(159.13)	(20.05)

21. Our Object has not been appraised by any Bank or Financial Institution. Any significant deviation in the Object could adversely impact our operations and sustainability in absence of any independent monitoring agency.

We have estimated fund raising to the extent of ₹ 1000.00 Lakh to finance the ‘Objects of the Issue’ (including Issue Expenses). The proposed objects for which the funds are being raised have not been appraised by any Bank or Financial Institution and the fund requirements are based primarily on management estimates. There is no guarantee that our estimates will prove to be accurate and any significant deviation in the project cost could adversely impact our operations and sustainability in the absence of any independent monitoring agency. For details of the “OBJECT OF THE ISSUE”, please refer Page no. 58 of this Prospectus.

22. Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject to and this may have a material adverse effect on our business.

While we believe that we maintain insurance coverage in amounts consistent with industry norms. If any or all of our facilities are damaged in whole or in part and our operations are interrupted for a sustained period, there can be no assurance that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption or the cost of repairing or replacing the damaged facilities. If we suffer a large uninsured loss or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and result of operations may be materially and adversely affected.

23. Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters and Executive Directors remain associated with us. Our success also depends upon the services of our key managerial personnel and our ability to attract and retain key managerial personnel and our inability to attract them may affect our operations.

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters and executive Directors have been actively involved in the day to day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters and executive Directors. If our Promoters and executive directors unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our key managerial personnel, we may be unable to locate suitable or qualified replacements, and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters and executive Directors, along with the key managerial personnel, have over the years built relations with various customers and other persons who form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

24. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoter and Promoter Group will collectively own 67.08% of our post issue equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

25. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations. For further details of the proposed objects of the Issue, refer chapter titled "OBJECTS OF THE ISSUE" on Page no. 58 of this Prospectus.

26. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

The issue proceeds is entirely at the discretion of the issuer/management. As per SEBI (ICDR) Regulations, 2018, appointment of monitoring agency is required only if Issue size exceeds ₹ 10,000 Lakh. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

27. Our inability to manage growth could disrupt our business and reduce profitability.

A principal component of our strategy is to continuously grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

28. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

29. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

30. Our inability to effectively implement our business and growth strategy may have an adverse effect on our operation and growth.

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

31. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

32. Certain data mentioned in this Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

33. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by Stock Exchange.

GLOBAL ECONOMY

Following a 3.5 percent contraction caused by the COVID-19 pandemic in 2020, global economic activity has gained significant momentum; however, it remains well below pre-pandemic projections. Moreover, the recovery is uneven, passing over many poorer countries, and there is considerable uncertainty about its durability.

The ongoing pandemic continues to shape the path for global economic activity, with severe outbreaks continuing to weigh on growth in many countries. The most recent wave of COVID-19 is now centered in some emerging market and developing economies (EMDEs), where more transmissible and virulent strains are spreading and where vaccine access remains limited. Vaccination remains especially feeble in low-income countries (LICs). In contrast, advanced economies have generally seen substantial vaccination progress, which has helped limit the spread of COVID-19.

Global growth is recovering unevenly. The pickup in many emerging market and developing economies (EMDEs) remains constrained by high COVID-19 caseloads and the partial withdrawal of macroeconomic support, while activity in major economies—particularly the United States—is rebounding markedly. Aggregate global activity is not expected to be strong enough to fully recoup last year’s output losses in the near term. New variants of COVID-19 could extend the duration of the pandemic, and a sudden rise in interest rates or an increase in corporate defaults could trigger financial stress, resulting in weaker-than-expected activity. Conversely, global and EMDE growth could be more robust if the virus is controlled more quickly or if spillovers from rapid growth in major economies catalyze a sustained, broad-based global rebound.

The global economy is recovering, and is expected to expand by 5.6 percent in 2021 and 4.3 percent in 2022. The strength of the nearterm recovery is, to a large extent, attributable to a few major economies, such as the United States and China. In many other economies, the pickup is projected to be less robust than previously envisioned, partly due to the continued spread of the virus and slow vaccine distribution. On aggregate, the global forecast has been upgraded as a result of the diminishing economic impact of subsequent waves of COVID-19, faster-than-expected pace of vaccination in many advanced economies, and additional fiscal relief in the United States.

U.S. output is rebounding particularly sharply, fueled by substantial fiscal support, and it is now expected to exceed its pre-pandemic projection by the end of this year. Growth in other major advanced economies is also firming, albeit to a lesser extent due in part to the resurgence of COVID-19 caseloads. In China, whose economy led the initial stages of the recovery last year, activity remains robust, but the pace of growth has moderated amid diminished policy support.

Across most EMDEs, however, the recoveries taking place will not be sufficient to erase the damage from the pandemic, whose legacies are expected to weigh on global activity for a protracted period. Many countries will take a prolonged period to regain their pre-COVID-19 levels of activity, and a return to pre-pandemic output trends may become unattainable in the absence of major reform efforts (World Bank 2020a; World Bank 2021a). The erosion of skills from lost education and employment are likely to reduce productivity, as will the smaller stock of physical capital resulting from last year’s sharp decline in investment. Debt burdens and financial vulnerabilities have risen in many parts of the global economy, which will make the recovery susceptible to financial market stress. This is expected to be accompanied by a gradual withdrawal of macroeconomic policy support over the forecast horizon.

The evolution of the pandemic and the pace of vaccination will be the most crucial factor driving the outlook. The baseline assumes that progress at vaccination will help to effectively contain COVID-19 in advanced economies by the end of the year, with most major EMDEs also making substantial progress at reducing transmission. This would allow most control measures in these economies to be lifted, with a few—such as restrictions on some international travel—being maintained to minimize possible flare-ups linked to new variants of COVID-19. In many other EMDEs, vaccination campaigns will be ongoing throughout the forecast horizon. The virus will continue to disrupt activity to varying degrees, but growth will still benefit from vaccine deployment as well as spillovers from the rapid recovery in major economies.

INDIAN ECONOMY

The Indian economy was negatively impacted by an unprecedented health crisis in 2020-21 with the highly contagious corona virus (Covid-19) spreading across the country. In response to the pandemic, Government has taken several proactive preventive and mitigating measures starting with progressive tightening of international travel, issue of advisories for the members of the public, setting up quarantine facilities, contact tracing of persons infected by the virus and various social distancing measures. Government imposed a strict 21 days nationwide lockdown from 25th March, 2020, under the Disaster Management Act, 2005, with subsequent extensions and relaxations, to contain the spread of Covid-19 while ramping up the health infrastructure in the country. The lockdown measures, imposed to contain the spread of Covid-19 pandemic in India, ubiquitously affected employment, business, trade, manufacturing, and services activities. The real Gross Domestic Product (GDP) growth is projected to contract by 7.7 percent in 2020-21 as compared to a growth of 4.2 percent in 2019-20. GDP growth, however, is expected to rebound strongly in 2021-22 owing to the reform measures undertaken by the Government.

The Government announced a special economic and comprehensive package under Atmanirbhar Bharat of ₹ 20 lakh crore - equivalent to 10 percent of India's GDP –to fight the Covid-19 pandemic in India. Several structural reforms

announced as part of the package, inter alia, include deregulation of the agricultural sector, change in definition of MSMEs, new PSU policy, commercialization of coal mining, higher FDI limits in defence and space sector, development of Industrial Land/ Land Bank and Industrial Information System, Production Linked Incentive Schemes, revamp of Viability Gap Funding scheme for social infrastructure, new power tariff policy and incentivizing States to undertake sector reforms. Apart from this, various steps were taken to boost consumption which, inter alia, includes cash payment in lieu of the Leave Travel Concessions (LTC) scheme, One-time special Festival advance of ₹10,000 (interest-free) for central Government employees. Other steps such as Interest-free 50- year loan to states, additional capital expenditure budget for the central Government, launch of Emergency Credit Line Guarantee Scheme (ECLGS) 2.0, ₹1.46 lakh crore boost for manufacturing through Production-linked incentives for ten Champion Sectors, ₹ 18,000 crores additional outlay for PM Awaas Yojana (PMAY) –Urban, Equity infusion in National Investment and Infrastructure Fund (NIIF) Debt Platform, Demand booster for Residential Real Estate Income Tax relief for Developers & Home Buyers, Boost for Project Exports, Capital and Industrial Stimulus has been initiated to support economic growth.

Economic growth

As per the first Advance Estimates of annual national income released by the National Statistical Office (NSO), Real GDP is estimated to contract by 7.7 percent in 2020-21, as compared to a growth of 4.2 percent in 2019-20. This contraction in GDP growth is mainly attributed to the contraction in industry and services sector. The growth of Gross Value Added (GVA) at constant (2011-12) basic prices is estimated to contract by 7.2 percent in 2020-21, as compared to a growth of 3.9 percent achieved in 2019- 20. Positive growth in real GVA in agriculture & allied sectors at 3.4 percent in 2020- 21 against 4.0 percent in PE of 2019-20 indicates resilience of rural economic activity to the Covid-19 pandemic. From the demand side, private consumption expenditure is estimated to contract at 9.5 percent in 2020-21 as against a growth of 5.3 percent in 2019-20 and fixed investment is estimated to decline by 14.5 percent in 2020-21 as against 2.8 percent in 2019-20. Government consumption final expenditure is estimated to grow at 5.8 percent in 2020-21 as against 11.8 percent in 2019-20. Exports and imports of goods and services are estimated to contract at 8.3 percent and 20.5 percent (at constant prices) respectively in 2020-21.

Central Government Finances

The fiscal deficit and revenue deficit for 2020-21 were budgeted at 3.5 percent of GDP and 2.7 percent of GDP respectively. The BE 2020-21 envisaged a tax to GDP ratio of 10.8 percent and total expenditure to GDP ratio of 13.5 percent. The envisaged growth for Gross Tax Revenue was 12 percent over 2019-20 Revised Estimates (RE). The total expenditure in BE 2020-21 was estimated to increase by 12.7 percent over 2019-20 RE. However, the Covid-19 pandemic severely affected the Government revenues, while exerting pressure to increase Government Expenditure.

As per the data on Union Government Finances released by Controller General of Accounts for April-November 2020, the Gross Tax Revenue decreased by 12.6 percent over the corresponding period of the previous year achieving 42.4 percent of the budget estimate. The non-tax revenue declined by 46.6 percent during April- November 2020, over the corresponding period of the previous year achieving 32.3 percent of the budget estimate. At the end of November 2020, the non-debt capital receipts stood at 8.1 percent of the budget estimate.

During April- November 2020, fiscal deficit reached 135.1 percent of the budgeted amount in 2020-21 higher relative to 114.8 percent of the budget estimate during the corresponding period of the previous year. The revenue deficit for April- November 2020 is 139.9 percent of the budget estimate and is higher than the corresponding figure of 128.4 percent in the previous year. The Revised Estimates place fiscal and revenue deficits at 9.5 percent of GDP and 7.5 percent of GDP respectively in 2020-21.

External Sector

Merchandise exports (customs basis) during 2020-21 (April-December), were US\$ 200.8 billion, which declined by 15.7 percent over the level of US\$ 238.3 billion in the corresponding period of the previous year. During 2020-21 (April-December), merchandise imports were US\$ 258.3 billion, registering a decline of 29.1 percent over the level of US\$ 364.2 billion in corresponding period of the previous year. Oil imports declined from US\$ 96.7 billion in 2019-20 (April-December) to US\$ 53.7 billion in 2020- 21 (April-December). Merchandise trade deficit improved from US\$ 125.9 billion in 2019-20 (April-December) to US\$ 57.5 billion in 2020-21 (April-December).

Amidst the uncertain and shaky global economic environment affected by Covid- 19, India's external sector has emerged as a key cushion for resilience. In H1: FY 2020- 21, steep contraction in merchandise imports and stable net service receipts led to a current account surplus of US\$ 34.7 billion (3.1 percent of GDP). Balance on the capital account, on the other hand, has been buttressed by robust FDI and FPI inflows. These developments have led to an accretion of foreign exchange reserves that rose to US\$ 580.8 billion as on December 25, 2020.

Banking and Non-Banking Sector

Bank credit growth was 6.1 percent as on December 18, 2020 as compared to 7.1 percent in the corresponding period of the previous year. The non-food credit growth (YoY) was 5.6 percent in October 2020, as compared with a growth of 8.3 percent in October 2019. The moderation in credit growth in 2020-21 was witnessed in mostly all the sectors, barring services.

Gross Non-Performing Advances (GNPA) ratio (i.e. GNPA as a percentage of Gross Advances) of Scheduled Commercial Banks decreased from 8.2 percent at the end-March 2020 to 7.5 percent at end-September 2020. Restructured Standard Advances (RSA) ratio of Scheduled Commercial Banks (SCBs) increased from 0.36 percent to 0.41 percent during the same period. Overall, the Stressed Advances ratio of SCBs decreased from 8.6 percent at the end of March 2020 to 7.9 percent at end- September 2020. GNPA ratio of Public Sector Banks (PSBs) decreased from 10.25 percent at the end-March 2020 to 9.4 percent at the end-September 2020 and the Stressed Advances ratios decreased from 10.75 percent at end-March 2020 to 9.96 percent at end-September 2020. However, this has to be seen in conjunction with the asset classification relief provided to borrowers on account of Covid-19.

Non-Banking Financial Sector

Total assets of NBFCs had increased from ₹23.41 lakh crore in March 2018 to ₹29.23 lakh crore in March 2019, and further to ₹33.91 lakh crore in March 2020, resulting in an annual growth of 16.01 percent during 2019-20 as compared with 24.86 percent in 2018-19. There is an observable shift in the sources of funding of NBFCs. Banks' total exposure to NBFCs increased from ₹7.01 lakh crores in March 2019 to ₹8.04 lakh crores in March 2020, and further to ₹8.17 lakh crores in June 2020.

Agriculture

In 2019-20 (as per Fourth Advance Estimates), total food grain production in the country is estimated at 296.65 million tonnes which is higher by 11.44 million tonnes than the production of food grain of 285.21 million tonnes during 2018-19. Rice production during 2019-20 is estimated at 118.4 million tonnes as compared to 116.5 million tonnes in 2018-19. Wheat production during 2019-20 is estimated at 107.6 million tonnes as compared to 103.6million tonnes during 2018-19. Government has increased Minimum Support Prices (MSP) for all mandated kharif, rabi and other commercial crops. The enhanced MSP ensures a return of 1.5 times overall India weighted average cost of production for the season 2020-21.

Milk production in the country has increased from 146.3 million tonnes (2014-15) to 198.4 million tonnes (2019-20). The per capita availability of milk is at 412 grams per day in (2019-20). The egg production in the country also increased from 103318 million 6 in 2018-19 to 114419 million in 2019-20. The fish production in India has reached an alltime high of 14.07 million metric tons during 2019-20. Overall, the Fisheries sector of India has sustained an impressive average annual growth rate of over 10 percent from 2014-15 to 2018-19. The agricultural credit flow target for the year 2019-20 was fixed at ₹13,50,000 crore and against this target the achievement was ₹13,92,469.81 crore. The agriculture credit flow target for 2020-21 has been fixed at ₹15,00,000 crore and till 21st October, 2020 against this target a sum of ₹6,95,360.82 crore has been disbursed.

INDUSTRY SPECIFIC REGULATIONS

Information Technology Act, 2000 and the rules framed thereunder

Information Technology Act, 2000 is principally based on the UNCITRAL (United Nations Commission on International Trade Law) model law. The object is to give effect to the resolution of the United Nations which recommended giving favorable consideration to the said model law while enacting or revising their laws so that uniformity of law, applicable to the alternatives to the paper based methods of communication and storage of information is achieved. Its other object is to promote efficient delivery of government services by means of reliable electronic records. It therefore provides for:

1. Legal recognition for transactions carried out by means of electronic data interchange and other means for electronic communication, commonly referred to as “electronic commerce”, which involve the use of alternatives to paper based methods of communication and storage of information;
2. Facilitating electronic filing of documents with the government agencies and for matters connected therewith or incidental thereto.

The Information Technology Act, 2000 regulates Information Technology i.e. it governs information storage, processing and communication. The use of modern means of communications such as E-mail and electronic data interchange has been rapidly increasing. However, the communication of legally significant information in the form of paperless messages may be hindered by legal obstacles to the use of such messages, or uncertainty to their legal effect and validity. The purpose of the Information Technology Act, 2000 is to remove such obstacles and to create a more secure legal environment for what has now become known as “electronic commerce”. The Information Technology Act, 2000 provides legal recognition of electronic records and electronic signatures, their use, retention, attribution and security. Penalties are provided for cybercrimes which include tampering with computer source document and electronic publishing of obscene information, in addition to provision of compensation in certain cases. The Information Technology Act, 2000 also provides punishment for offences committed outside India if the act involves a computer system or computer network outside India.

The Information Technology Act, 2000 facilitates revolution of e-commerce, provides a legal framework to digital documents and helps in preventing cybercrimes. In a nutshell, the Information Technology Act, 2000, as amended, and the rules framed thereunder provide for:

1. Legal recognition of electronic record;
2. Admissibility of electronic data/evidence in courts;
3. Data protection obligations in relation to sensitive information;

4. Legal acceptance of electronic signatures;
5. Punishment for cyber obscenity and crimes including fraudulent use of computer systems, offensive
6. Obscene communications, identity theft and cyber terrorism;
7. Establishment of a Cyber Regulatory Advisory Committee and a Cyber Regulatory Appellate Tribunal;
8. Regulatory control including provisions for interception, monitoring and decryption of information and blocking public access to any information.

Bureau of Indian Standards Act, 2016 (the “BIS Act”)

BIS Act was notified on March 22, 2016 and came into effect from October 12, 2017. The BIS Act establishes the Bureau of Indian Standards (BIS) as the National Standards Body of India. The BIS Act has enabling provisions for the Government to bring under compulsory certification regime any goods or articles of any scheduled industry, process, system of service which it considers necessary in the public interest or for protection of human, animal or plant health, safety of the environment, or prevention of unfair trade practices, or national security. The BIS Act also allows multiple type of simplified conformity assessment schemes including self-declaration of conformity against a standard which will give simplified option to manufacturers to adhere to the standards and get certificate of conformity. The BIS Act enables the Central Government to appoint any authority/agency, in addition to the BIS, to verify the conformity of products and services to a standard and issue certificate of conformity. Further, there is also a provision for repair or recall, including product liability of the products bearing standard mark but not conforming to the relevant Indian Standard.

STATUTORY LEGISLATIONS

The Companies Act

The consolidation and amendment in the law relating to the Companies Act, 1956 made way to the enactment of the Companies Act, 2013 and rules made thereunder. The Companies Act, 1956 is still applicable to the extent not replaced. The Companies Act primarily regulates the formation, financing, functioning and restructuring of Companies as separate legal entities. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law laid down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

TAX RELATED LEGISLATIONS

Income Tax Act, 1961

Income Tax Act, 1961 is applicable to every Domestic / Foreign Company whose income is taxable under the provisions of this Act or Rules made under it depending upon its “Residential Status” and “Type of Income” involved. U/s 139(1) every Company is required to file its Income tax return for every Previous Year by 30th September of the Assessment Year. Other compliances like those relating to Tax Deduction at Source, Fringe Benefit Tax, Advance Tax, Minimum Alternative Tax and like are also required to be complied by every Company.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as the Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. A destination based consumption tax GST would be a dual GST with the center and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Tax Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017, The Integrated Goods And Services Tax (Extension To Jammu And Kashmir) Act, 2017, The Central Goods And Services Tax (Extension To Jammu And Kashmir) Act, 2017 and various rules made there under.

Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration numbers known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. The registered assessee is then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

GST has replaced the following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling. It is applicable on all goods except for alcohol for human consumption and five petroleum products.

Exports and supplies to SEZ units and SEZ developers are zero-rated in GST. Zero-rating effectively means that no tax is payable on exports but the exporter/supplier is entitled to the input tax credit on inputs/input services used in relation to exports. The exporters have two options for zero rating, which are as follows:

- (1) To pay integrated tax on supplies meant to be exported and get refund of tax so paid after the supply is exported.
- (2) To make export supplies under a bond or letter of undertaking and claim refund of taxes suffered on inputs and input services in relation to such exports.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administrated by Central Board of Excise and Customs under the Ministry of Finance

GENERAL LEGISLATIONS

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Act is to comprehensively cover international and commercial arbitration and conciliation as also domestic arbitration and conciliation, to make provision for an arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration, to provide that the arbitral tribunal gives reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction, to minimise the supervisory role of courts in the arbitral process, to permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

The Competition Act, 2002

The Competition Act, 2002 prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on March 4, 2011 and came into effect on June 1, 2011. Combinations which are Likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties

outside India, if such combination is Likely to have an appreciable adverse effect on competition in India. Effective June 1, 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

The Indian Contract Act, 1872

The Contract Act is the legislation which lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Contract Act. The Contract Act also provides for circumstances under which contracts will be considered as 'void' or 'voidable'. The Contract Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

Transfer of Property Act, 1882 ("TP Act")

The transfer of property, including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the TP Act. The TP Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The Indian Stamp Act, 1899

Under the Indian Stamp Act, 1899, stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

The Registration Act, 1908

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Act is used for proper recording of transactions relating to other immovable property also. The Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. "Specific performance" means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Negotiable Instruments Act, 1881

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) and the rules and regulations promulgated there under. The act aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

Regulation of Foreign Investment in India

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The ESI Act 1948 encompasses certain health related eventualities that the workers are generally exposed to; such as sickness, maternity, temporary or permanent disablement, Occupational disease or death due to employment injury, resulting in loss of wages or earning capacity-total or partial. Social security provision made in the Act to counterbalance or negate the resulting physical or financial distress in such contingencies, are thus, aimed at upholding human dignity in times of crises through protection from deprivation, destitution and social degradation while enabling the society the retention and continuity of a socially useful and productive manpower.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing would continue to be six Working Days during this phase

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public Issue closure to listing is proposed to be reduced to three working days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI Mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Lead Manager.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.
