## SECTION III – RISK FACTORS

*An investment in Equity Shares involves a high degree of financial risk. You should carefully consider all information in this Draft Prospectus, including the risks described below, before making an investment in our Equity Shares. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment. In addition, the risks set out in this Draft Prospectus are not exhaustive. Additional risks and uncertainties, whether known or unknown, may in the future have material adverse effect on our business, financial condition and results of operations, or which we currently deem immaterial, may arise or become material in the future. To obtain a complete understanding of our Company, prospective investors should read this section in conjunction with the sections entitled “**Business Overview**” and “**Management’s Discussion and Analysis of Financial Position and Results of Operations**” on pages 83 and 159, respectively of this Draft Prospectus as well as other financial and statistical information contained in this Draft Prospectus. Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other risks mentioned herein.*

*This Draft Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Draft Prospectus. Unless otherwise stated, the financial information used in this section is derived from and should be read in conjunction with restated financial information of our Company prepared in accordance with the Companies Act and restated in accordance with the SEBI ICDR Regulations, including the schedules, annexure and notes thereto.*

### **Materiality**

*The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.*

- 1. Some events may have material impact quantitatively;*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material individually but may be found material collectively.*
- 4. Some events may not be material at present but may be having material impact in future.*

### **INTERNAL RISK FACTORS**

- 1. We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them. Our inability to maintain relationships with our customers could have an adverse effect on our business, prospects, results of operations and financial condition.**

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long term contract with any of customers nor has any marketing tie up for our products. Any change in the buying pattern of our customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

Our business depends on the continuity of our relationship with our customers. There can be no assurance that we will be successful in maintaining such relationships or increasing the number of such relationships. If we are not able to maintain existing relationships with our current customers or if we are not able to develop new relationships, or if we are not able to provide services on a timely basis or offer services that meet the needs of the customers, the number of customers could decline in the future and as a result, our business, prospects, results of operations and financial condition could be adversely affected in the future.

- 2. We are a Company with limited operating history, and therefore investors may not be able to assess our prospects on the basis of historical results.**

We were incorporated as a private limited company on November 06, 2012. Further, our Company had on July 15, 2019 and August 17, 2021, altered the main object clause of its Memorandum of Association vide shareholders’ resolutions, to enable it to pursue the business of trading in all kind of metals, diamonds, precious stones and Iron and Steel. As on date we do not have significant operating history, and owing to the same it may be difficult to evaluate our current or future prospects on the basis of historical results. Our past performance should not be construed as an indication of our future performance. For details regarding the

business and financial information, please refer to the chapter titled "Business Overview" beginning on page 83 of this Draft Prospectus. Given our limited operating history in the business in which we operate, there will be only limited information based on which the business and our current or future prospects can be evaluated and investment decision be made.

**3. We do not own registered office and the godown which is used by us currently.**

The premises being used by us as our registered office is being used in terms of a Rent Agreement dated August 17, 2022 w.e.f April 01, 2022. Prior to this the registered office, which is owned by Mrs. Kiran Mittal was being used pursuant to a letter of permission to use dated November 01, 2014.

Further, the premises being used by us as our godown is being used in terms of Rent Agreement dated June 11, 2022.

In the event, the Rent Agreements under which we occupy the aforementioned premises or certain terms and conditions that are unfavourable to us are imposed on us in relation to the afore referred to premises, or if we are otherwise unable to occupy such premise, we may suffer a disruption in our operations, which could have an adverse effect on our business and financial results.

**4. Our operations are significantly located in the Delhi region and failure to expand our operations may restrict our growth and adversely affect our growth.**

Currently, our office is situated in Delhi and we are carrying our business mainly with market players from Delhi itself. Hence, our revenues are generated from operations in this region only. In the event that demand for our products and services in general reduces or stops due to any reason including political discord or instability or change in policies of State, then our financial condition and operating results may be materially and adversely affected. Geographical and functional expansion of our business domain requires establishment of adequate network. As we seek to diversify our regional focus we face the risk that our competitors may be better known in other markets, enjoy better relationships with customers. Our lack of exposure in geographical boundaries outside our operating region could impact our future revenues.

**5. Our Company may have potential Conflicts of interest with Companies engaged in similar line of business in which our promoters have substantial interest.**

Our Promoter has interests in another company viz. Skybox Industries Limited, being a Promoter Group entity in terms of definition of Promoter Group, provided under Regulation 2(1)(pp) of SEBI ICDR Regulations, which is engaged in a similar line of business. For details please refer to the Chapters titled "Our Management" and "Our Promoter" on pages 101 and 116 respectively of this Draft Prospectus. Further, our Company has not entered into any non-compete agreement with the entity mentioned hereinabove and hence there can be no assurance of any conflict of interests which may arise in allocating or addressing business opportunities and strategies amongst our Company and our promoter group entities in circumstances where our interests differ from theirs. In cases of conflict, our Promoter may favour the other Company in which our Promoter has an interest. Hence, conflict of interest may occur between our business and the businesses of our Promoter Group entity which could have an adverse effect on our business, financial condition, results of operations and prospects.

**Management Perception:** The management has clarified that Skybox Industries Limited is no longer engaged in a similar line of business as the issuer and there are no potential conflicts of interests with the business of the issuer.

**6. The prices we are able to obtain for our products that we trade depend largely on prevailing market prices.**

The price of the products traded by us has a significant impact on our profits. Some of our core products such as Diamonds, Gems and Iron and Steel have been subject to price fluctuations due to domestic and foreign trade policies, shifts in supply and demand and other factors beyond our control. As a result, any fluctuation in prices could have a material adverse effect on our Company and our results of operations.

**7. The Proposed objects of the issue for which funds are being raised have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.**

The objects of the issue for which the funds are being raised have not been appraised by any bank or financial institution. In absence of such independent appraisal, the requirement of funds raised through this Issue, as

specified in the Chapter titled “**Objects of the Issue**”, are based on our Management’s estimates and internal research. We may have to revise our management estimates from time to time and consequently our funding requirements may also change. This may result in rescheduling of our expenditure plans and an increase or decrease in our proposed expenditure for a particular object. Deployment of these funds is at the discretion of the management and the Board of Directors of the company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

- 8. Our Company has incurred losses during two out of three financial years. Such financial losses sustained by us in the most recent financial year, may not be perceived positively by external parties such as investors, clients, customers, bankers etc., which may affect our credibility and business operations.**

Owing to the Covid-19 Pandemic, our business operations were impacted, which resulted in our Company incurring loss in two out of three financial year (FY 2020-2021 and FY 2019-2020). The financial loss in the most recent financial year may not be perceived positively by external parties such as investors, clients, customers, bankers etc., which may effect our credibility and business operations. The brief details of our profitability during the last 3 financial years is provided below:

Particulars	Financial Year 2021-22	Financial Year 2020-21	Amount in Rs. Lakhs	
			Financial Year 2019-20	Year
Profit After Tax	12.48	(1.21)	(5.20)	

- 9. Our Company has reported certain negative cash flows from its operating activity, details of which are given below. Sustained negative cash flows could impact our growth and business.**

Our Company had reported certain negative cash flows from its operating activity, investing activity and financing activity in the previous years as per the restated financial statements and the same are summarized as under:

Particulars	(Rs. in Lakh)		
	For the year ended March 31,		
	2022	2021	2020
Cash flow from Operating Activities	(294.95)	67.24	(247.90)
Cash flow from Investing Activities	19.96	(1.44)	-
Cash flow from Financing Activities	165.00	(3.20)	303.28

For details, please refer “**Management’s Discussion and Analysis of Financial Position and Results of Operations**” on page no. 159 of this Draft Prospectus.

- 10. Trade receivables constitute major portion of our assets, our inability to recover the same can affect our financial position.**

Our trade receivables were Rs. 60.16 Lakhs for the year ended March 31, 2022 which is 12.68% and 12.74% of our total assets and net worth respectively. We cannot guarantee that there will be no default from our trade receivables and we cannot guarantee the entire recovery. Any subsequent default by our debtors can affect our financial position and our profitability. Further, high trade receivables affect our working capital requirement as it affects the liquidity position of the business.

- 11. Substantial portion of our revenues has been dependent upon our few clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability.**

For the year ended March 31, 2022, our top 04 clients account for 100% of our sales. The loss of our major customers or a decrease in the volume of products sourced from us may adversely affect our revenues and profitability. We cannot assure you that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our operations and profitability.

- 12. We may not be able to maintain our current levels of profitability due to increased costs or reduced trading spreads or margins.**

Our business strategy involves a relatively high level of ongoing interaction with our clients. We believe that

this involvement is an important part of developing our relationship with our clients, identifying new cross selling opportunities and monitoring our performance. However, this level of involvement also entails higher levels of costs and also requires a relatively higher gross spread, or margin, on the various products we offer in order to maintain profitability. There can be no assurance that we will be able to maintain our current levels of profitability if the gross spreads on our traded products were to reduce substantially, which could adversely affect our results of operations.

**13. Our Promoter and Directors may have interest in our Company, other than reimbursement of expenses incurred or remuneration. We have in the past entered into related party transactions and may continue to do so in the future.**

Our Promoter and Directors may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives or our Group Entities, and benefits deriving from their directorship and shareholding in our Company. We have entered into transactions with our Promoter and other related parties. For a list of related parties, please see the chapter titled “**Restated Financial Information**” beginning on page 121 of this Draft Prospectus. While we believe that all such transactions have been conducted on an arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise.

**14. We have not yet applied for registration of our name and logo and we do not own  legally as on date. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third party intellectual property rights.**

We have not yet applied for registration of our name and logo under the provisions of the Trademarks Act, 1999 and do not own  used in our communications and other operations as on date. As such, we do not enjoy the statutory protections accorded to a registered trademark or logo as on date. There can be no assurance that we will be able to register the logo in future or that, third parties will not infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. Further, we cannot assure you that any application for registration of our logo in future by our Company will be granted by the relevant authorities in a timely manner or at all. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property.

**15. If we are unable to establish and maintain an effective system of internal controls and compliances, our business and reputation could be adversely affected.**

We manage our internal compliance by monitoring and evaluating internal controls and ensuring all relevant statutory and regulatory compliances. However, there can be no assurance that deficiencies in our internal controls will not arise or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all. If we are unable to establish and maintain an effective system of internal controls and compliances, our business and reputation could be adversely affected.

**16. The success of our business operations is dependent on the knowledge and experience of our Promoters and Directors as well as our ability to attract and retain them.**

Our success depends heavily upon the continuing services of Mr. Rohit Mittal, our Promoter and Director and his experience and vision has played a key role in obtaining our current market position. Mr. Rohit Mittal plays a pivotal role in operational area. We believe that our relation with our Promoter, who has rich experience in setting up business, developing markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoter and our success depends upon the continuing services of our Promoter who has been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Our Promoter, along with our key managerial personnel, who form an integral part of our Company, have over the years built relations with suppliers, customers and other key stakeholders associated with our Company. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our key managerial personnel are unable or unwilling to continue in his

/ her present position, it could be difficult for us to find a suitable or timely replacement and our business could be adversely affected. Further, since the demand for the key managerial personnel is very robust, in order to retain them, our Company may be required to offer them higher compensation packages by way of higher pay and more perquisites. This may adversely affect our business, financial condition and results of operations.

**17. We depend on the accuracy and completeness of information about customers and counterparties and any misrepresentation, errors in or incompleteness of such information could cause our business to suffer.**

In deciding whether to extend credit or enter into other transactions with customers, we rely on information furnished to us by or on behalf of customers. We may also rely on certain representations from our customers as to the accuracy and completeness of that information. For ascertaining the credit worthiness, we do not obtain any independent support from credit information companies or credit bureaus and/or independent valuers in relation to the value of the net worth of such parties. Our reliance on any misleading information given may affect our judgment of credit worthiness of potential customers, which may affect our business, prospects, results of operations and financial condition.

**18. All of our product verticals are extremely competitive segments and we face risk of competition affecting our margins and profitability as we scale our operations.**

Our purchase and sales models include various intermediaries who may connect with our competitors and share details of the specialities of our products or our sourcing processes etc. We may not be able to protect our trade secrets and may not be able to detect the same as well. We have not entered into any non-disclosure agreements with our intermediaries and thus our efforts towards marketing of our products may be leaked to other players in the market. This may affect the demand and exclusivity of our products and make us subject to fierce competition thereby adversely affecting our business, financial condition and results of operations.

**19. Failure to procure inventory could have an adverse effect on our net sales, profitability and cash flow.**

Our Company works on a model wherein the inventory/goods are procured by us based on the demand or customer requirement. Our inability to procure the inventory/goods in timely manner will adversely affect our net sales, profits and cash flow. Further, our inability to supply the inventory/goods in timely manner to our customers, may result in loss of business from the said customer and thereby decrease in our net sales and profitability.

**20. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than Rs. 10,000.00 Lakh there is no mandatory requirement of appointing an independent monitoring agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

**21. We have not made any alternate arrangements for meeting our regular working capital requirements. If our operations do not generate the necessary cash flow, our working capital requirements may negatively affect our operations and financial performance.**

As on date, we have not made any alternate arrangements for meeting our working capital requirements. We meet our working capital requirements through internal accruals. Any shortfall in internal accruals and our inability to raise debt would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations.

**22. We could be exposed to risks arising from misconduct, fraud and trading errors by our employees and Business Associates.**

Frauds or other delinquencies by employees could include indulging in transactions that exceed authorized limits or present unacceptable risks to us; hiding unauthorized or unsuccessful trading activities from us; or the improper use of confidential information. Such misconduct could result in unacceptable business risks, losses, invite regulatory sanctions and seriously harm our reputation and could even lead to litigation. The precautions we take to prevent and detect these activities may not be effective. Any delinquencies or trading errors on the part of our employees could materially affect our business operations, financial position and/or reputation.

**23. Our Company has no insurance coverage and we are not protected against all material hazards, which may adversely affect our business, results of operations and financial condition.**

Our business and assets could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which may not be compensated by insurance as our company has no insurance coverage. If our Company suffers a large uninsured loss, our business, financial condition and results of operations may be adversely affected.

**24. Delays or defaults in customer payments could result in a reduction of our profits and cash flows.**

We often commit resources to orders prior to receiving advances or other payments from customers in amounts sufficient to cover expenditures on orders as they are incurred. We may be subject to working capital shortages due to delays in customer payments. If the customer defaults in their payments on an order, or cancel their orders for which we have devoted significant resources or incurred expenditure, it could have a material adverse effect on our business, financial condition, results of operations and cash flows and could cause the price of our Equity Shares to decline. Hence, any last minute cancellations would also run the risk of not being able to sell those products to another customer. These events could have a material adverse effect on our revenues, results of operations and cash flows.

**RISKS RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS**

**25. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the Chapter “Objects of the Issue” on page no. 55 of this Draft Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

**26. The requirements of being a public listed company may strain our resources and impose additional requirements.**

With the increased scrutiny of the affairs of a public-listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange which requires us to file unaudited financial results on a half-yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

**27. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.**

The Issue price is based on numerous factors and may not be indicative of the market price for our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that you will be able to resell your Shares at or above the Issue Price. Among the factors that could affect our Share price are: quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net profit and income; changes in income or earnings estimates or publication of research reports by analysts; speculation in the press or investment community; general market conditions; and domestic and international economic, legal and regulatory factors unrelated to our performance.

**28. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.**

Prior to this Issue, there has been no public market for our Equity Shares. NNM Securities Private Limited is

acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers, please refer to the section titled "General Information" on page 35 of this Draft Prospectus.

**29. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.**

Once listed, we would be subject to circuit breakers imposed by stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

**30. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.**

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchange, we are required to refund all the monies collected to investors.

**31. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.**

Any instance of sale of Equity Shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

**32. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.**

Under current Indian tax laws and regulations, capital gains arising from the sale of Equity Shares in an Indian Company are generally taxable in India. Any gain realized on the sale of listed Equity Shares on a stock exchange will be subject to capital gains tax in India and also would also be subject to Securities Transaction Tax ("STT"). STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. For more details, please refer to "Statement of Special Tax Benefits" on page 64 of this Draft Prospectus.

**33. Any future issuance of Equity Shares may dilute your shareholdings, and sales of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.**

Any future equity issuances by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital

through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 34. Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend upon a variety of factors such as future earnings, financial condition, cash flows, working capital requirements, and restrictive covenants in our financing arrangements.**

Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover our operating expenses and pay dividends to our shareholders, or at all. Our ability to pay dividends could also be restricted under the existing or certain financing arrangements that we may enter into.

## **EXTERNAL RISK FACTORS**

- 35. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.**

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

- 36. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.**

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, financial condition, results of operations, cash flows and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For instance, the Companies Act 2013, several provisions of which (including rules issued thereunder) contain significant changes to Indian company law, including in relation to the issue of capital by companies, related party transactions, corporate governance, audit matters, shareholder class actions, restrictions on the number of layers of subsidiaries and corporate social responsibility. Compliance with such requirements may require significant financial and administrative resources, and any failure to comply may adversely affect our business and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. If a determination is made that we were in violation of such laws, rules or regulations, including conditions in the permits required for our operations, we may have to pay fines, modify or discontinue our operations, incur additional operating costs or make capital expenditures and our business, financial positions, results of operations or cash flows could be adversely affected. For details on the laws currently applicable to the Company kindly refer the chapter titled “**Key Industry Regulations**” beginning on page 91 of this Draft Prospectus.

- 37. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.**

Taxes and other levies imposed by the Central or State Governments in India affect the cost and prices of the products we trade in and therefore demand for such product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

- 38. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Diamond, Gems and Steel industry contained in this Draft Prospectus.**

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy and the Diamond, Gems and Steel industry has been based on various government publications and reports from government

agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “**Industry Overview**” beginning on page 83 of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

**39. The extent and reliability of Indian infrastructure could adversely affect our Company’s results of operations and financial condition.**

India’s physical infrastructure is in a developing phase, as compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company’s normal business activity. Any deterioration of India’s physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company’s business operations, which could have an adverse effect on its results of operations and financial condition.

**40. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.**

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

**41. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.**

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

**42. Any downgrading of India’s sovereign rating by an independent agency may harm our ability to raise financing.**

Any adverse revisions to India’s credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

**43. A slowdown in economic growth in India and globally could cause our business to suffer.**

We are highly dependent on prevailing economic conditions in India and globally and our results of operations are significantly affected by factors influencing the Indian and global economy. A slowdown in the economy and per capita income could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy. Factors that may adversely affect the Indian and global economy and per capita income, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing;
- prevailing income conditions among Indian and global consumers and corporations;
- volatility in, and actual or perceived trends in trading activity on, India’s principal stock exchanges;
- variations in exchange rates;

- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India and other countries.

Any slowdown in the Indian or global economy and per capita income or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. Specifically, it has been seen that in our industry, that general correlation exists between demand for pharmaceuticals and per capita income, and therefore any slowdown in per capita income would adversely affect the Indian pharmaceutical market, as well as our business. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

**44. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.**

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**45. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.**

India has experienced natural calamities such as earthquakes, tsunami and floods in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

**46. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.**

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighbouring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

**47. The occurrence of natural disasters may adversely affect our business, financial condition and results of operations.**

The occurrence of natural disasters, including hurricanes, floods, earthquakes, tornadoes, fires and pandemic disease may adversely affect our financial condition or results of operations. The potential impact of a natural disaster on our results of operations and financial position is speculative, and would depend on numerous factors. The extent and severity of these natural disasters determines their effect on the Indian economy. An outbreak of a communicable disease in India would adversely affect our business and financial conditions and results of operations. We cannot assure you that such events will not occur in the future or that our business, financial condition and results of operations will not be adversely affected.

<b>Contact Person</b>	Mr. Nikunj Anilkumar Mittal
<b>SEBI Registration No:</b>	INZ000234235

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, 2018 and its amendments from time to time and the circulars issued by the BSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by BSE. Further, the Market Maker shall inform BSE in advance for each and every black out period when the quotes are not being issued by the Market Maker.

All controllable reasons require prior approval from the Stock Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Stock Exchange for deciding controllable and non-controllable reasons would be final.
8. The Market Maker shall have the right to terminate said arrangement by giving a one months' notice to the Lead Manager who shall then be responsible to appoint a replacement Market Maker.  
In case of termination of the above mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261(1) of the SEBI ICDR Regulations, 2018. Further our Company and the Lead Manager reserve the right to appoint another Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. impose any other margins as deemed necessary from time-to- time.

Penalties /fines may be imposed by the Stock Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Stock Exchange from time to time. The Stock Exchange will impose a penalty on the Market Maker in case he is not present in the market (Issuing two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

#### **Global Economic Overview**

Global growth is projected to slowdown from an estimated 6.1% in 2021 to 3.6% in 2022 and 2023. This is 0.8% points and 0.2% points lower for 2022 and 2023 than in the January World Economic Outlook Update. Beyond 2023, global growth is forecast to decline to about 3.3 percent over the medium term. The revision made for 2023 is due to assumption that the conflict remains confined to Ukraine, further sanctions on Russia exempt the energy sector (although the impact of European countries' decisions to wean themselves off Russian energy and embargoes announced through March 31, 2022, are factored into the baseline), and the pandemic's health and economic impacts abate over the course of 2022.

\*For India, data and forecasts are presented on a fiscal year basis with FY 2021/22 starting in April 2021. For the April 2022 WEO, India's growth projections are 8.9% in 2022 and 5.2% in 2023 based on calendar year

### **Advanced Economies Group**

The forecast for the United States was already downgraded in January, largely reflecting non-passage of the Build Back Better fiscal policy package and continued supply chain disruptions. The additional 0.3% point forecast markdown for 2022 in the current round reflects faster withdrawal of monetary support than in the previous projection—as policy tightens to rein in inflation—and the impact of lower growth in trading partners because of disruptions resulting from the war. The forecast for Canada is marked down 0.2% point, reflecting the withdrawal of policy support and weaker external demand from the United States, which outweigh the lift from favorable terms of trade effects.

The main channel through which the war in Ukraine and sanctions on Russia affect the euro area economy is rising global energy prices and energy security. Because they are net energy importers, higher global prices represent a negative terms-of-trade shock for most European countries, translating to lower output and higher inflation. Euro area GDP growth in 2022 is revised down to 2.8% (1.1% points lower than in January), with the biggest downgrades in economies such as Germany and Italy with relatively large manufacturing sectors and greater dependence on energy imports from Russia. Across the euro area, the hit to activity is partially offset by increased fiscal support. In the United Kingdom, GDP growth for 2022 is revised down 1% point—consumption is projected to be weaker than expected as inflation erodes real disposable income, while tighter financial conditions are expected to cool investment.

### **Emerging Market and Developing Economies Group**

Emerging and Developing Europe, including Russia and Ukraine, will see GDP contract by approximately 2.9% in 2022, before expanding by 1.3% in 2023. The main drivers of the contraction are the impact of higher energy prices on domestic demand and the disruption of trade, especially for Baltic States, whose external demand will decline along with the contraction in Russia's economy. The influx of refugees is expected to place significant immediate pressure on social services, but eventually the increase in the labor force could help medium-term growth and tax revenues.

Developments in China continue to dominate the outlook for Asia, especially for emerging Asia. As noted, the combination of more transmissible variants and the strict zero-COVID strategy in China has led to repeated mobility restrictions and localized lockdowns that, together with an anemic recovery in urban employment, have weighed on private consumption. Notable downgrades to the 2022 forecast include India (0.8% point), reflecting in part weaker domestic demand—as higher oil prices are expected to weigh on private consumption and investment—and a drag from lower net exports.

Countries in the Middle East, North Africa, Caucasus, and Central Asia regions are highly exposed to global food prices, particularly the price of wheat, which is expected to remain high throughout the year and into 2023. In the Middle East and North Africa, spillovers from tighter global financial conditions, reduced tourism, and secondary demand spillovers (for example, from Europe) will also hold back growth. Overall, GDP in the Middle East and Central Asia is expected to grow by 4.6% in 2022.

In sub-Saharan Africa, food prices are also the most important channel of transmission, although in slightly different ways. Wheat is a less important part of the diet, but food in general is a larger share of consumption. Higher food prices will hurt consumers' purchasing power—particularly among low-income households—and weigh on domestic demand. Social and political turmoil, most notably in West Africa, also weigh on the outlook. Overall, growth in sub-Saharan Africa is projected at 3.8% in 2022.

### Indian Economic Overview

India's rapid and comprehensive policy responses to the pandemic, including fiscal support and economic reforms are boosting the recovery and thus India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years.

Real GDP or Gross Domestic Product (GDP) at Constant (2011-12) Prices in the year 2021-22 is estimated to attain a level of ₹ 147.72 lakh crore.

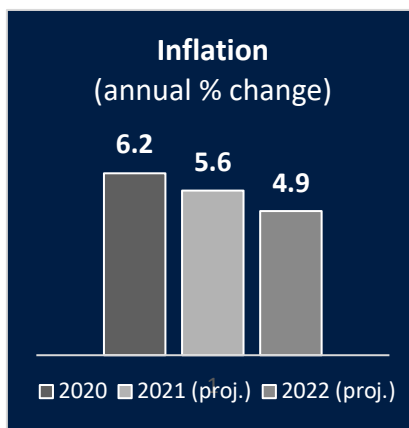

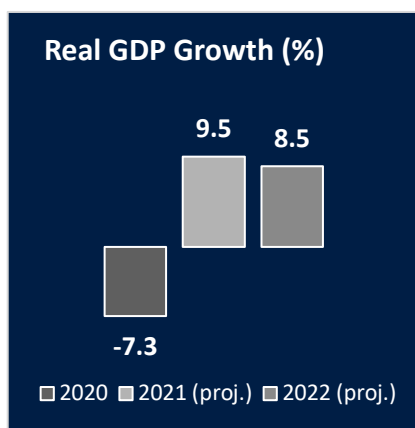

Nominal GDP or GDP at Current Prices in the year 2021-22 is estimated to attain a level of ₹ 236.44 lakh crore, as against ₹ 198.01 lakh crore in 2020-21, showing a growth rate of 19.4%

India's economy grew by 8.5% year-on-year in Q2 of FY 22. On a sequential basis (quarter-on-quarter basis), domestic economic output expanded by 10.4%. The easing/ removal of lockdowns across states along with the steady decline in covid-19 cases and the higher vaccination rate facilitated higher economic activity and output in the latest quarter.

There are increasing signs of higher level of activity across sectors. This has given rise to optimism that the recovery in the domestic economy is strengthening. Even if the pace of recovery is sustained in the next two quarters, India's GDP for the year is expected to be only marginally higher than that in FY20.

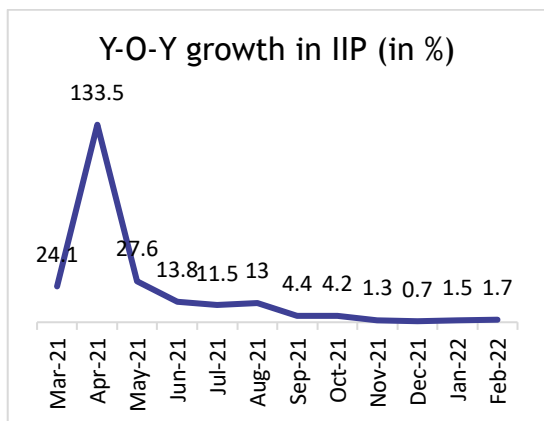

Source: <https://www.mospi.gov.in>

Even though the domestic Indian Economy has come off the record decline of last year, it is yet to surpass pre-pandemic level in a meaningful manner. When compared with the pre-pandemic period i.e., Q3 FY20, the GDP in Q3 FY22 is only higher by 2%.

There has yet to be a significant and long-lasting increase in demand and investment. Given that the domestic economy was already struggling with low demand and a sluggish investment climate before the pandemic, improvements are projected to be limited and gradual. Furthermore, both domestic and external problems and uncertainties continue to exist. The spike in prices, as well as the underlying threat of new Covid virus types, as well as the concomitant issues of on-and-off restrictions and lockdowns, could be a setback/challenge for both local and global recovery.

Given the uncertainties surrounding the size of the economic recovery, the RBI is projected to maintain its growth emphasis and maintain its accommodating monetary policy stance even as it moves toward gradual support normalization.

### Industrial Growth

Industrial production in India (IIP) grew 1.7 percent year-on-year in February of 2022, advancing from an upwardly revised 1.5 percent rise in the previous month, but missed market expectations of a 2.6 percent rise. Negative growth in the capital and consumer goods segment has restricted the growth in overall industrial output. Weakening of the base has contributed to slowing momentum in industrial activity from the double-digit growth witnessed during the first five months of FY22.

### Consumer Price Inflation

The Consumer Price Index measures the retail inflation the economy by collecting data on change in prices of most common goods and services used by consumers. Annual inflation rate in India increased to 6.95% in March of 2022, the highest since October of 2020, and above market forecasts of 6.35%. The inflation stayed above the 2% to 6% tolerance limit of the central bank for a third month in a row but the full effect of crude oil price rise s will be seen in April only as the government delayed the pass-through of energy prices to consumers. The Reserve Bank of India recently revised upwards its inflation forecast to 5.7% for FY 2022-2023 from 5.3%, citing surging commodity prices.

### Road Ahead

India is focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030, which is currently 30% and have plans to increase its renewable energy capacity from to 175 gigawatt (GW) by 2022. In line with this, in May 2021, India, along with the UK, jointly launched a ‘Roadmap 2030’ to collaborate and combat climate change by 2030.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behavior and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

India's broad variety of fiscal, monetary, and health measures to the crisis aided its recovery and, together with economic reforms, are assisting in mitigating the crisis's longer-term negative effects. Because of increased food and fuel prices, as well as negative terms of trade, inflation is predicted to soar in the next quarters of FY 2022–23. The RBI will most likely lean toward price stability and, as a result, boost policy rates. The next few months will be crucial for India's economy as the government and the Reserve Bank of India try to balance the pressures on inflation, currency, external accounts, and the budget deficit. The good news is that India has been through the pandemic for over two years and has emerged stronger.

## **Indian Bullion Market**

India launched its first international bullion exchange on 29<sup>th</sup> July, 2022 as the world's second biggest consumer of the precious metal tries to bring transparency to the market for the precious metal. India International Bullion Exchange (IIBX), based at Gujarat International Finance Tec-City, or GIFT City in Gujarat, could lead to standard gold pricing in India and make it easier for small bullion dealers and jewellers to trade.

IIBX with its technology-driven solutions, will facilitate transition of Indian bullion market towards a more organized structure by granting qualified jewellers a direct access to import gold directly through the exchange mechanism.

## Gem and Jewellery Industry and Exports

### Introduction

The gems and jewellery industry of India contributes 7% to India's Gross Domestic Product (GDP). The industry employs more than 5 million of skilled and semi-skilled workforce in the country. The sector contributes about 10-12% of India's total merchandise exports, accounting for the third largest commodity share. During 2021-22, the gems and jewellery exports played an instrumental role in growing India's overall exports to US\$ 419 billion with a growth of 44% from 2020-21 and 34% from 2019-20.

The Government of India, along with all the stakeholders of gems and jewellery sector, is well committed towards aggressively promoting exports, identifying challenges and addressing them with necessary interventions, assisting exporters, especially SME units, and exploring

new markets while consolidating existing ones. With strong growth prospects, the government of India has also declared the gems & jewellery sector as a focus area for export promotion.

India majorly exports cut & polished diamonds, lab-grown synthetic diamonds, colored gemstones, synthetic stone, plain and studded gold jewellery, silver & platinum jewellery, imitation jewellery and articles of gold, silver and others. Western Region is key exporting hub for the gems and jewellery industry contributing almost 77% of the total exports in 2021-22. Surat, a city of Gujarat state in the western region of India has more than 450 organized jewellery manufacturers, importers & exporters, making it the jewellery manufacturing hub of the world.

### Export Trend

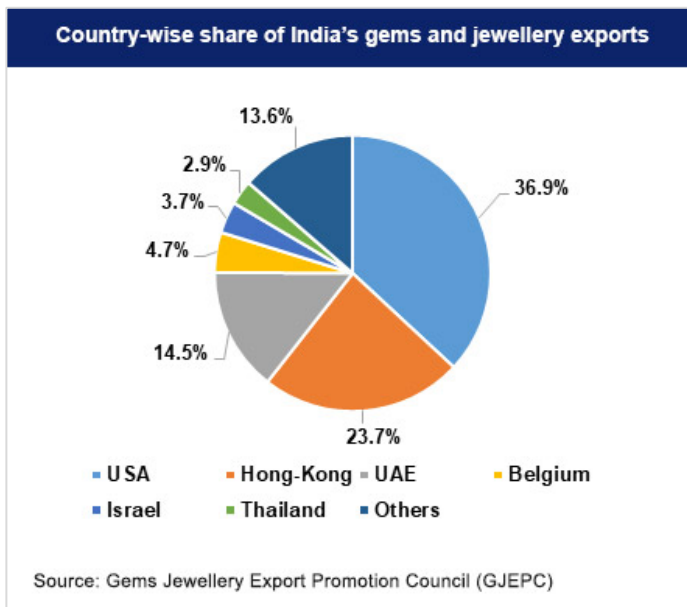

As per 2020 statistics, India's gems and jewellery exports account for about 3.5% of the world's total exports, making it the seventh highest exporter in the globe. The country is ranked first in diamonds jewellery, silver jewellery and lab grown diamonds & Synthetic stones with 29.0%, 22.0% and 32.7% share of the total world's exports respectively. India's gems and jewellery exports stood at US\$ 39.31 billion in the year 2021-22, which is higher than the pre-covid level of exports of US\$ 35.60 billion in 2019-20 recording a growth of 10.44% during the said period. Cut & Polished Diamonds is the largest exported commodity within gem and jewellery sector with exports valued at US\$ 24.2 billion for 2021-22.

The Department of Commerce has set a gems and jewellery exports target of US\$ 45.7 billion for 2022-23. The department is committed to enabling exporters by providing a conducive trade environment by bringing up trade-friendly policies to boost exports. The top export targets set for key countries in 2022-23 are USA (US\$ 16.16 billion), Hong Kong (US\$ 11.86 billion), UAE (US\$ 6.36 billion), Belgium (US\$ 2.89 billion), Israel (US\$ 1.66 billion), Thailand (US\$ 1.17 billion), Singapore (US\$ 850 million), Japan (US\$ 462.43 million), France (US\$ 245.5 million) and Botswana (US\$ 246 million).

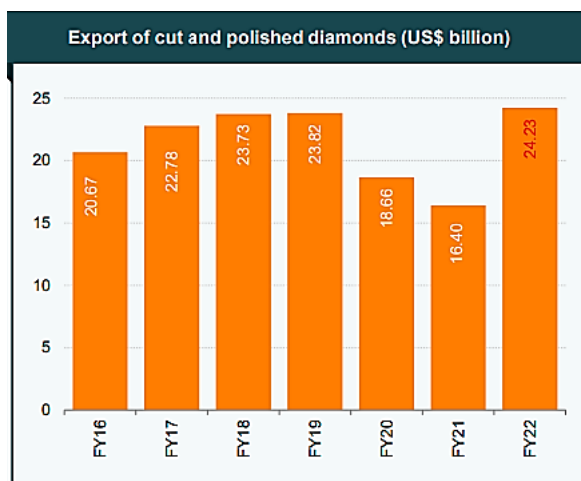

### Export Destinations

India exports gems and jewellery to USA, Hong Kong, UAE, Belgium, Israel, Thailand, Singapore, the UK, Netherlands, Japan, etc. USA is the largest importer of Indian jewellery with the 2021-22 imports valued at US\$ 14.5 billion growing from US\$ 8.7 billion of exports in 2020-21. Hong Kong and UAE are among the largest export destinations for India at US\$ 9.3 billion and US\$ 5.7 billion in exports contributing about 23.7% and 14.5% of the total exports during 2021-22 respectively. Few other key export destinations like Israel, Thailand and Netherland have shown significant growth with exports valued at US\$ 1.5 billion, US\$ 1.2 billion and US\$ 694.6 million recording growth upwards of 60% over 2019-20 levels. During 2021-22, some of the key export destinations like Israel, Thailand, UK and Netherlands have shown steep growth in the upwards of 55% in the gems and jewellery imports from India over the pre-pandemic year 2019-20. This can be mainly attributed to the return to pre-pandemic ways of consumer spending and increase in retail store sales after removal of all covid-19 restrictions. Additionally, the opening of the India Jewellery Exposition (IJEX) center in Dubai, signing of agreements with key export destination such as UAE, Australia, Israel, UK, and Canada among others should continue to drive the exports in the future.

## Government Initiatives

The Government of India (GoI) has taken various measures to promote investment for growth of the sector, such as gold monetization scheme revamp, reduction in import duty of gold, reduction in import duty on cut & polished diamonds from 7% to 5% and implementing mandatory hallmarking. Under various other schemes, about 90% assistance is provided by government of India for setting up of common production/processing centers, design centers, testing facilities including plug & play facilities. Marketing hubs / exhibition centers by associations are also receiving the Government of India's assistance of up to 80% of project cost. Additionally, The government has allowed extension of emergency credit line guarantee scheme (ECLGS) for MSMEs up to March 2023. Over 90% of units in gems and jewellery sector are MSMEs.

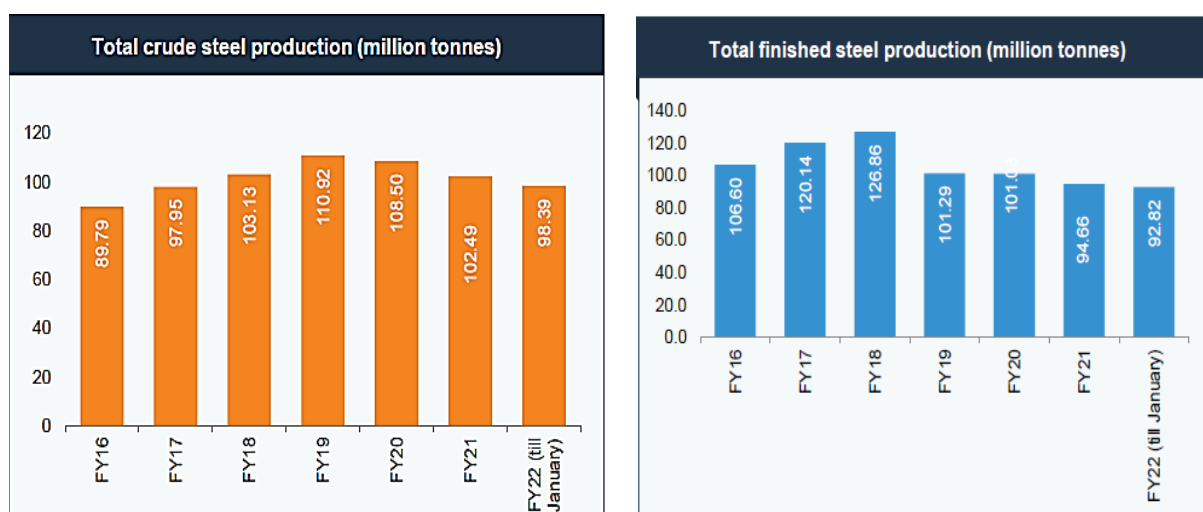

The Government of India has recently laid out four steps to grow the gems and jewellery industry in the country. The focus is to be given to the creation of patented designs to increase value, diversification of the exported products, collaborate with other nations for cost-effective methods and promotion of lab-grown diamonds. In addition to this, the GJEPC (Gems Jewellery Export Promotion Council) arranges several trade shows, buyer-seller meets and expositions to increase the exposure of Indian goods.

Cumulative FDI inflows in diamond and gold ornaments stood at US\$ 1,213.05 million between April 2000 - March 2022. The Government of India permitted 100% FDI in the sector through automatic route. The Rs. 250,000 crore (US\$ 35.77 billion) big household jewellery industry is probably going to get a major lift through government's decision for FDI in retail.

## India's Export and Import of Iron and Steel

- ❖ Between April 2021 and August 2021, iron ore exports stood at US\$ 2.23 billion, compared with US\$ 1.83 billion in between April 2020 and August 2020.
- ❖ India has turned into a net importer of iron and steel due to strong growth in the manufacturing sector and rising infrastructure projects.
- ❖ India's transition into a net importer of steel despite the strong growth in domestic steel production shows the demand potential of the sector.
- ❖ The impact of strong growth in domestic steel production has been most felt in the iron ore sector. With steel firms' ever rising demand for the raw material, India's import of iron ore has been growing steadily.
- ❖ Iron and steel imports stood at US\$ 15.81 billion in FY22 (from April 2021-February 2022).
- ❖ In February 2022, iron and steel imports stood at US\$ 1.6 billion compared with US\$ 1.2 billion in February 2021.
- ❖ In June 2021, Mr. T.V. Narendran, the CII President and Managing Director of Tata Steel, stated that steel firms have firmed up plans to invest ~Rs. 60,000 crore (US\$ 8 billion) over the next three years in this sector.

## Opportunities in Steel Sector

### 1) Government's initiative

- ❖ The government took the following steps to allow imports of steel at lower prices and support the domestic industry:
- ❖ Tax on imports of iron and steel products has been exempted until March 31, 2022—it was originally 2.5% and has been reduced to nil in the Union Budget 2021.
- ❖ Anti-dumping and distributional duties on some steel products have been temporarily suspended until September 30, 2022.
- ❖ July 2021, the Union Cabinet approved the production-linked incentive (PLI) scheme for specialty steel. The scheme is expected to attract investment worth ~Rs. 400 billion (US\$ 5.37 billion) and expand specialty steel capacity by 25 million tonnes (MT), to 42 MT in FY27, from 18 MT in FY21.
- ❖ Export duty of 30% has been levied on iron ore\* (lumps and fines) to ensure supply to the domestic steel industry.
- ❖ Under the Union Budget 2022-23, the government allocated Rs. 47 crore (US\$ 6.2 million) to the Ministry of Steel.

### 2) Expansion by existing players

- ❖ The iron and steel segment offers a product mix which include hot rolled parallel flange beams and columns rails, plates, coils, wire rods, and continuously cast products such as billets, blooms, beams, blanks, rounds and slabs as well as metallics and ferro alloy.
- ❖ Looking at the expected growth in the sector, existing manufacturers have a huge opportunity to expand their product line in new segments.
- ❖ In June 2021, Mukand announced to expand its production and sales of stainless steel to 1.5 lakh tonnes per annum from 1 lakh tonnes at Thane (Mumbai) unit, which is expected to boost its turnover by ~Rs. 7,000 crore (US\$ 939.88 million) per annum.

## Demand for steel from different sectors will drive the industry

- ❖ Consumption of steel by India's infrastructure segment is expected to increase to 11% by FY26.

- ❖ Steel demand from the automotive sector is expected to increase due to rise in the demand for automobiles.
- ❖ The new Vehicle Scrappage policy will help in reducing steel prices as the policy enables recycling of materials used in old vehicles.
- ❖ On the healthcare front, key steel producers are now exceeding their capacities to produce oxygen cylinders for COVID patients.
- ❖ The Smart Cities' Affordable Housing and industrial corridors are a few government initiatives to boost the steel industry.
- ❖ About 158 lakh metric tonnes (MT) of steel are likely to be consumed in the construction of houses sanctioned under the Pradhan Mantri Awas Yojana (Urban).

### **Road Ahead**

Iron and steel make up a core component for the real estate sector. Demand for these metals is set to continue given strong growth expectations for the residential and commercial building industry. As of October 2021, India was the world's second-largest producer of crude steel, with an output of 9.8 MT. Easy availability of low-cost manpower and presence of abundant iron ore reserves make India competitive in the global set up. India is home to fifth-highest reserves of iron ore in the world.

The term "cut" can also apply to the manner in which a diamond is cut, as an illustration, certain sorts of diamonds are referred to as "princess cut diamonds," "round cut diamonds," or "heart cut diamonds." How light enters the diamond and how it leaves as brilliance can be influenced by the width and depth of the cut. The most evident element that affects a diamond's value is its size. The size of the diamond affects how much it costs in an exponential fashion. Carat denotes the size of the diamond by its weight.

**b. Uses of Estimates**

The preparation of financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosures of contingent liabilities. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from the estimates.

**c. Revenue Recognition**

**Income from sale of Goods**

Revenue from sales is recognized when significant risks and rewards of ownership have been transferred to the buyer which is normally on delivery of goods (inclusive of excise duty/GST) & when there is reasonable certainty and reliability of ultimate realisation.

**Interest**

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

**Dividend**

Dividends are recorded when the right to receive payment is established.

**d. Property, Plant & Equipment**

Tangible Fixed Assets are stated at cost less depreciation /amortisation and impairment losses, if any. The cost of Tangible Assets comprises its purchase price net of any taxes, duties, freight and other incidental expenses related to acquisition, improvements and installation of the assets.

Borrowing costs that are directly attributable to the acquisition/ construction of the qualifying asset are capitalised as part of the cost of such asset, up to the date of acquisition/ completion of construction.

Projects under which Tangible Fixed Assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

Gains or Losses arising from derecognition of Fixed Assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and recognized in the statement of profit and loss when the asset is derecognized.

Intangible Assets acquired separately are measured on initial recognition at cost. Following the initial recognition, Intangible Assets are carried at cost less accumulated amortization and accumulated impairment, if any. Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the Asset and are recognized in the statement of profit and loss when the asset is derecognized.

**Depreciation and Amortization**

Depreciation on tangible assets is provided on “Written down Value Method” over the useful lives specified in Schedule II of Companies Act, 2013.

In respect of additions to /deletions from the Tangible Assets, on prorata basis with reference to the date of addition/deletion of the assets.

Intangible assets are to be amortized as per schedule-II to the Companies Act, 2013

**e. Impairment of tangible and intangible assets**

The carrying amount of Assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors or an annual impairment testing for an asset is required. An Impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount.

The recoverable amount is the greater of the asset’s net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

**f. Borrowing Cost**

Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

**g. Valuation of Inventories**

**h. Earnings per Share**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all diluting potential equity shares.

**i. Employee benefits**

Short Term Benefits: Salary, bonus, leave encashment (non- accumulated) and other short- term benefits are accounted for on accrual basis.

Defined Benefit Plans: The Company has a gratuity scheme payable to employees as per the provisions of the Payment of Gratuity Act, 1972. The actuarial valuation of the liability against such sum is made at the year end.

**j. Cash and Cash Equivalents**

Deferred tax is recognised on timing differences,

being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

## **l. Provisions and Contingent Liabilities**

### **a. Provisions**

A Provision is recognized, if as a result of past event the company has a present obligation that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the Obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

### **b. Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company has provided requisite disclosure related to contingent liabilities in its restated financial statements.

### **Impact of Covid-19**

An outbreak of Covid-19 was recognized as a pandemic by the WHO on March 11, 2020. In response to the Covid-19 outbreak, the governments of many countries, including India, have taken preventive or protective actions such as imposing country-wide lockdowns, as well as restrictions on travel and business operations. Due to Covid-19, our business operations during FY 2020-21 was severally affected. Further, India has experienced second wave of infections that has significantly increased the number of persons impacted by COVID-19 during April- June 2021 and third wave of infections during January 2022. The Government of India and state governments in India have re-imposed state-wise partial lockdowns and other more restrictive measures in an effort to stop the resurgence of new infections and new variants of the virus. This has affected the business operation of our company during Q1 and Q4 of FY 2021-22. In view of the fluidity of the situation and lack of visibility on the timeline for containment of the global pandemic, the recovery trajectory seems uncertain. We continue to closely monitor the impact that COVID-19 may have on our business and results of operations. It is

difficult for us to predict the impact that COVID-19 will have on us.

Except the impact and uncertainty on account of Covid-19 disclosed as above, no circumstances have arisen since the date of the last Restated Financial Statements as disclosed in this Draft Prospectus which materially and adversely affects or is likely to affect, our trading or profitability, or the value of our assets or our ability to pay our liabilities within the next 12 months of the date of the last Restated Financial Statements as disclosed in this Draft Prospectus. ### **PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL INVESTORS**

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circular, the UPI Mechanism is being introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Retail Individual Investors through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days.

Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

(a) **Phase I:** This phase was applicable from January 1, 2019 till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the Bid cum Application Form with any of the Designated Intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

(b) **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, SEBI vide circular no circular SEBI/HO/CFD/DIL2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of Phase II until March 31, 2020. Under this phase, submission of the Bid cum Application Form by a RII through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

(c) **Phase III:** The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to be three Working Days.

The Offer will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Issue Opening Date. If the Issue is made under UPI Phase III of the UPI Circular, the same will be advertised in all editions of the English national newspaper, Business Standard, all editions of the Hindi national newspaper Business Standard, (since the Registered Office of the Company is located at Delhi and Hindi being the regional language, publication in a regional language newspaper is not required) on or prior to the Issue Opening Date and such advertisement shall also be made available to BSE for the purpose of uploading on its website.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. The Issuer will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Investors using the UPI Mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. The provisions of these circulars, are deemed to form part of this Draft Prospectus. In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The LM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its circular no.

SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the timelines for refund of Application money to four days.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as Department of Industrial Policy and Promotion) ("DPIIT").

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The DPIIT, has issued consolidated FDI Policy Circular of 2020 ("FDI Policy 2020"), with effect from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DPIIT that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DPIIT issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Directions on Foreign Investment No. RBI/FED/2017- 18/60 FED Master Direction No. 11/2017-18 dated January 4, 2018 as updated from time to time by RBI. In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2020 has to be obtained.

(b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank; and

Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules.
